84.358 Rural Education

ASSISTANCE LISTINGS DESCRIPTIONS

FEDERAL AGENCY:

OFFICE OF ELEMENTARY AND SECONDARY EDUCATION, EDUCATION,
DEPARTMENT OF

AUTHORIZATION:

Elementary and Secondary Education Act (ESEA), as amended, Title VI, Part B,

OBJECTIVES:

To provide financial assistance to rural districts to carry out activities to help improve the quality of teaching and learning in their schools.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

The Rural Education Achievement Program (REAP) consists of the Small, Rural School Achievement program (SRSA) and the Rural and Low-Income School program (RLIS). Under SRSA, LEAs may use program funds to carry out activities authorized under: (1) Part A of Title I (Improving Basic Programs Operated by Local Educational Agencies); (2) Part A of Title II (Supporting Effective Instruction State Grants); (3) Title III (English Language Acquisition State Grants); (4) Part A of Title IV (Student Support and Academic Enrichment State Grants); and (5) Part B of Title IV (21st Century Community Learning Centers). Eligible LEAs also may (under the Alternative Fund Use Authority) consolidate funds they receive from these sources (except for Title I, Part A) to carry out effective activities under any of the authorized programs, including Title I, Part A. Under RLIS, LEAs may use program funds for: (1) Part A of Title I (Improving Basic Programs Operated by Local Educational Agencies); (2) Part A of Title II (Supporting Effective Instruction State Grants); (3) Title III (English Language Acquisition State Grants); (4) Part A of Title IV (Student Support and Academic Enrichment Grants); and (5) parental involvement activities.

Applicant Eligibility:

Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; For SRSA, eligible recipients are local educational agencies (LEAs) in which (1) the total number of students in average daily attendance at all of the schools served by the LEA is less than 600 or where each school in the LEA is located in a county with a total population density of less than 10 persons per square mile; and (2) all of the schools served by the LEA are designated as rural by the U.S. Department of Education's National Center for Education Statistics (NCES) using the NCES school locale methodology in place at the time of enactment of the Every Student Succeeds Act (ESSA) or the LEA is located in an area of the State defined as rural by a State governmental agency. For RLIS, eligible recipients are State educational agencies (SEAs). SEAs then must distribute funds to local educational agencies (LEAs) on a formula or competitive basis. An LEA is eligible to receive a grant under RLIS only if (1) at least 20 percent of the school children ages 5-17 in the LEA come from families with incomes below the poverty line; and (2) all of the schools served by the LEA are designated with a school locale code of 32, 33, 41, 42, or 43 under the NCES school locale methodology in place at the time of ESSAs enactment. If an SEA chooses not to participate in the program, the Secretary uses the State's allocation to make direct grants to eligible LEAs in the State. If an LEA is eligible for both SRSA and RLIS, the LEA may choose in which program to participate.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Student/Trainee; Local; School; Child (6-15); Youth (16-21); Rural; Education (0-8); Education (9-12); Elementary and secondary schools, students, and teachers in rural schools.

Credentials/Documentation:

This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. For SRSA, the Department requires an application from each eligible. Application forms and instructions are available from the headquarters office. For RLIS, an SEA must submit an application that includes specific, measurable goals and objectives for

the activities to be carried out through the grant. If an SEA does not participate in the program, eligible LEAs in the State may submit an application directly to the Department.

Award Procedure:

For SRSA, awards are issued annually directly to eligible LEAs on a formula basis. Awards are made to all that apply and meet the applicable requirements of the Act. Contact the program office for more information. For RLIS, awards are issued annually to SEAs, which make subgrants to LEAs. Awards are made to all SEAs that have RLIS-eligible LEAs and apply and meet the applicable requirements of the Act. SEAs then award subgrants to eligible LEAs in the State either competitively or by formula.

84.365 English Language Acquisition State Grants

FEDERAL AGENCY:

OFFICE OF ELEMENTARY AND SECONDARY EDUCATION, EDUCATION, DEPARTMENT OF

AUTHORIZATION:

Elementary and Secondary Education Act of 1965 (ESEA), as amended, Title III, Part A, Sections 3101-3131.,

OBJECTIVES:

To help ensure that English learners (ELs), including immigrant children and youth, attain English proficiency and meet the same challenging State academic standards that all children are expected to meet.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

The Department makes awards to States and outlying areas using a formula based on their share of ELs and immigrant children and youth. State educational agencies (SEAs) must use at least 95 percent of their allocations to award subgrants to local educational agencies (LEAs) to assist ELs in learning English and meeting challenging State academic standards, and for subgrants to LEAs that have experienced a significant increase in the number of immigrant children and youth. The immigrant subgrants cannot exceed 15 percent of the SEA's total allocation. SEAs may reserve up to 5 percent of their allocations for the establishment and implementation of statewide entrance and exit procedures for ELs, planning, evaluation, professional development activities, technical assistance and recognition. From the amount it reserves for those State activities, SEAs may reserve 50 percent of that amount or \$175,000, whichever is greater, for direct administrative costs. Subgrantees must use funds to increase the English proficiency of ELs by providing effective language instruction educational programs that will increase ELs, English proficiency and achievement in the core academic subjects. Subgrantees must also provide effective professional development to teachers and other educational personnel that is designed to improve instruction and assessment of ELs designed to enhance teachers' ability to understand and use curricula, assessment measures, and instructional strategies for ELs, designed to increase ELs English proficiency or substantially increase

teachers' subject matter content knowledge and skills; and is of sufficient intensity and duration to have a positive and lasting impact on teachers' performance in the classroom. Funds may also be used for a variety of allowable activities aimed at increasing the English proficiency of ELs and helping ELs meet the challenging State academic standards, including identifying, acquiring, and upgrading curricula, instructional materials, educational software, and assessment procedures, providing tutorials and academic or career and technical education and intensified instruction providing community participation programs, family literacy services and parent outreach and training activities improving instruction for ELs with disabilities; and offering early college high school or dual or concurrent enrollment programs. Subgrantees awarded funds based on a significant increase in the number of immigrant children and youth must use the funds to provide activities that provide enhanced instructional opportunities, which may include providing family literacy and outreach activities; recruiting staff with expertise in serving immigrant children and youth; providing tutorials, mentoring, and career counseling; and identifying, developing, and acquiring curricular materials, educational software, and technologies for the purpose of supporting immigrant children and youth. This program is subject to non-supplanting requirements (with respect to State, local, and other Federal funds) and grantees must use a restricted indirect cost rate, which is referenced under 34 CFR 76.564-76.569. For assistance, call the Office of Chief Financial Officer/Indirect Cost Group on (202) 708-7770.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); States with approved State plans and outlying areas are eligible to receive funds.

Beneficiary Eligibility:

Local; School; Child (6-15); Youth (16-21); Education (0-8); Education (9-12); English learners and immigrant children and youth benefit.

Credentials/Documentation:

2 CFR 200, Subpart E - Cost Principles applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. SEAs apply for grants by submitting a plan to the Department that describes, among other things, the process they will use in establishing standards and objectives for raising the level of English proficiency for ELs, making sub-grants to eligible entities, and holding sub-grantees accountable for meeting the objectives described in their funded applications. Outlying area applicants may apply under the Consolidated Application Process for outlying areas through which they may combine various program funds. An application submitted under the Consolidated Application Process for outlying areas must address the purpose of the grant, priorities, goals and objectives, activities, evaluation, needs, and include a budget indicating how the funds will be used.

Award Procedure:

The Department allocates funds to any SEA with an approved plan. SEAs must expend at least 95 percent of their Title III allotments to award subgrants to LEAs and other eligible entities to meet the educational needs of ELs and immigrant children and youth.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Approximately 120 days.

Appeals:

Other. Section 432 of the General Education Provisions Act provides local educational agencies with a right of appeal in disagreements between State and local educational agencies, including disagreements over funding decisions. Where a local educational agency alleges that a denial of funding is "a violation of State or Federal law, rules, regulations, or guidelines governing the applicable program," it may, within 30 days, request a hearing from the State educational agency. Once the hearing is held and the State educational agency issues its written ruling, the local

84.367 Supporting Effective Instruction State Grants (formerly Improving Teacher Quality State Grants)

FEDERAL AGENCY:

OFFICE OF ELEMENTARY AND SECONDARY EDUCATION, EDUCATION, DEPARTMENT OF

AUTHORIZATION:

Elementary and Secondary Education Act of 1965, as amended by the Every Student Succeeds Act, Title II, Part A,

OBJECTIVES:

To provide grants to State Educational Agencies (SEAs), and, through the SEAs, to Local Educational Agencies (LEAs) in order to increase student academic achievement consistent with challenging State academic standards; improve the quality and effectiveness of teachers, principals, and other school leaders; increase the number of teachers, principals, and other school leaders who are effective in improving student academic achievement in schools; and provide low-income and minority students greater access to effective teachers, principals, and other school leaders. (Under the antecedent program, State agencies for higher education also were eligible grantees. State agencies for higher education are no longer eligible grantees.)NOTE: The program was reauthorized by P.L. 114-95. The provisions listed here reflect changes made to the program and are applicable for awards made with FY 2017 and subsequent year funds.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

SEAs and LEAs have flexibility to carry out a wide variety of activities, consistent with their specific needs. The activities listed below are examples of SEA and LEA allowable uses of funds under ESEA sections 2101(c) and 2103(b). For a complete list of allowable activities under the ESEA, please see sections 2101(c) and 2103(b) of the statute (<https://www2.ed.gov/programs/teacherqual/legislation.html>). Generally, SEAs must use at least 95 percent of awards for subgrants to LEAs; LEAs may use the funds to develop, implement, and evaluate comprehensive programs and activities to improve teacher and school leader quality, including developing and improving rigorous and fair evaluation and support systems; implement initiatives to assist in recruiting, hiring, and retaining effective teachers, especially in low-income schools that particularly need assistance; promote teacher leadership; recruit qualified individuals from other fields; reduce class size; provide high-quality, personalized professional development; and develop feedback mechanisms to improve school working conditions. States may reserve up to 5 percent of the total SEA award for allowable State activities, which include, among others, reforming certification and licensing systems and programs, helping LEAs design and implement teacher and school leader evaluation and support systems, improving equitable access to effective teachers, and providing technical assistance to LEAs. (SEAs may reserve up to 2% of total State funding for teacher, principal, or other school leader preparation academies.) States may use no more than 1 percent of the total SEA award for administration. In addition, SEAs are permitted to reserve up to 3 percent of the amount of funds initially reserved for LEA subgrants for State activities for principals and other school leaders. Under ESEA section 2301, this program is subject to non-supplanting requirements; therefore, grantees must use a restricted indirect cost rate that is described in 34 CFR 76.563-76.569. 84.372 Statewide Longitudinal Data Systems

FEDERAL AGENCY:

INSTITUTE OF EDUCATION SCIENCES, EDUCATION, DEPARTMENT OF
AUTHORIZATION:

Educational Technical Assistance Act of 2002, Title II, Section 208, Public Law 107-279

OBJECTIVES:

These grants are intended to enable State educational agencies to design, develop, and implement statewide, longitudinal data systems to efficiently and accurately manage, analyze, disaggregate, and use individual student data, consistent with the Elementary and Secondary Education Act of 1965 and to facilitate analyses and research to improve student academic achievement and close achievement gaps.

TYPES OF ASSISTANCE:

Project Grants, Project Grants (Contracts)

USES AND USE RESTRICTIONS:

Grants may support salaries, travel, equipment, and supplies as required to carry out design and implementation efforts. Grant funds must be used to supplement and not supplant other State or local funds used for developing State data systems.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); U.S. Territories and possessions (includes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Other private institutions/organizations; Only State educational agencies are eligible for grant awards. Other types of entities are eligible for contract awards.

Beneficiary Eligibility:

Individual/Family; Profit organization; Private nonprofit institution/organization; Education Professional; State; Local; Education (0-8); Education (9-12); Education (13+); Public nonprofit institution/organization; State educational agencies, local educational agencies, non-profit and for-profit organizations, and individuals involved with education will benefit.

Credentials/Documentation:

Applicants for these data systems projects must present a plan and furnish evidence

that the scientific competence, facilities, equipment, and supplies are appropriate to carry out the project. Applicants must ensure technical quality; provide for the generation of accurate data; and provide for the timely use of such data needed by State and local educational agencies both to comply with the Elementary and Secondary Education Act of 1965 and to facilitate research to improve student academic achievement and close achievement gaps; and, meet voluntary standards and guidelines for linking individual student data. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Application notices (available on <http://ies.ed.gov/funding>) describe the substantive requirements for applications and provide information on how to prepare and submit applications electronically through Grants.gov. The Application Packages provide the required forms and are available on <http://www.grants.gov>. Grant applications to Institute of Education Sciences (IES) competitions must be submitted via the Grants.gov government-wide portal that allows potential applicants to find grant opportunities and apply for grants. The Grants.gov registration process can take several weeks. Interested applicants should begin the registration process well in advance of application deadlines. The Department provides a forecast of contract opportunities on its website at <http://www2.ed.gov/fund/contract/find/forecast.html> and posts solicitations at FedBizOpps (FBO). Vendors may view a synopsis, download a solicitation, and register to receive notification of modifications to existing notices.

Award Procedure:

Grant applications that are responsive and compliant to the Requests for Applications are evaluated by expert reviewers for scientific and technical merit. Scientific reviews are conducted in accordance with the review criteria stated in the Request for Applications and the review procedures posted on the IES website, http://ies.ed.gov/director/sro/peer_review/application_review.asp, by a panel of scientists who have substantive and methodological expertise appropriate to the program of research and Request for Applications. Awards are competitive, with the following criteria considered in making award decisions for responsive and compliant applications: Scientific merit as determined by peer review, performance and use of funds under a previous federal award, contribution to the overall program of research described in the Request for Applications, and availability of funds. Official notice of an approved application is made through issuance of a Notice of Grant Award. Contract applications are reviewed by a panel of experts. The Department makes awards to those companies that are determined to provide the best value to the government.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. The range of approval/disapproval time is approximately 120 to 180 days following the application deadline.

Appeals:

Not Applicable.

Renewals:

Other. Recipients of multi-year grants must submit an annual performance report for each year funding has been approved. A review of the annual performance report is used to determine whether substantial progress has been made toward meeting the project objectives. Renewals are subject to the availability of appropriations.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Grants usually are supported for four years. All grantee obligations must be liquidated within 90 days following the end of the project period. Payments may be made according to a predetermined schedule or by way of reimbursement.

ASSISTANCE LISTINGS DESCRIPTIONS

Renewals are subject to the availability of appropriations. Method of awarding/releasing assistance: other

Reports:

As required by the Education Department General Administrative Regulations (EDGAR) for direct grant programs (34 CFR 75). Generally, financial reports and program reports must be submitted as required by grant terms and conditions. Contractors submit deliverables for review. Invoices are submitted upon approval of deliverables in the case of fixed-priced deliverables, and together with monthly progress and expenditure reports in the case of cost-reimbursement tasks. Payment is made upon review and approval of each invoice. Progress reports are required. For grants, annual performance reports are required as part of the submittal of form ED 524B. For contracts, progress reports are required as specified in the Performance Work Statement for each contract. Expenditure reports are required. For grants, annual expenditure reports are required as part of the submittal of form ED 524B. Staff also monitor drawdowns using agency financial reports. For contracts, expenditure reports are required as specified in the Performance Work Statement for each contract. Performance monitoring is required. For grants, reporting on performance measures is required as part of the submittal of form ED 524B. Contractor performance information is gathered subject to 48 CFR Part 42, Subpart 42.15. The Department has established performance measures for the program that include: 1) the number of States linking K-12 with early childhood data; 2) the number of States linking K-12 with postsecondary data, and 3) the number of States linking K-12 and postsecondary data with workforce data.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. All expenditures by state governments will be audited by the grantee or at the grantee's direction with reasonable frequency, usually once a year but not less than once every two years. The Secretary of Education, the Director of the Institute, and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access, for the purpose of audit and examinations, to all applicable records and to any other pertinent books, documents, papers, and records of the grantee.

Records:

Each grantee will keep intact, and accessible, records relating to the receipt and expenditure of Federal funds and the expenditures of the grantee's contribution to the cost of the project, if any. Records will normally be retained for 3 years after the date of the submission of the final expenditure report, or for grants that are reviewed annually, 3 years after the date of the award. For contracts, as stated in contract terms and conditions, the awardee shall maintain accounts, records, and other evidence pertaining to all costs incurred, revenues or other applicable credits acquired under the award.

(TSL),

FEDERAL AGENCY:

OFFICE OF ELEMENTARY AND SECONDARY EDUCATION, EDUCATION, DEPARTMENT OF

AUTHORIZATION:

Elementary and Secondary Education Act, as amended (ESEA), Title II, Part B, Subpart 1, Section 2211 et seq.

OBJECTIVES:

To help eligible entities develop, implement, improve, or expand human capital management systems or performance-based compensation systems for teachers, principals, or other school leaders in schools (and especially those in high-need schools) served by the grantees. NOTE: The program was authorized by P.L. 114-95, the ESEA, as reauthorized by the Every Student Succeeds Act. The provisions listed here reflect the requirements in that legislation, and are applicable to awards made with FY 2017 and subsequent year funds.

ASSISTANCE LISTINGS DESCRIPTIONS

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Grantees may use funds for a wide variety of activities designed to develop, implement, improve, or expand human capital management systems or performance-based compensation systems, including (1) developing or improving evaluation and support systems that are based in part on demonstrated improvement in student achievement; (2) conducting outreach to gain information on how to construct evaluation and support systems; (3) providing principals or other school leaders with the tools needed to make effective school-level decisions, including budgetary, scheduling, and staffing decisions; (4) implementing, as part of a performance-based compensation system, a differentiated salary structure for teachers or leaders in high need schools or high-need subjects who raise student academic achievement or take on additional leadership responsibilities; (5) improving LEA processes for recruiting, selecting, placing, supporting, and retaining effective teachers, principals, and other school leaders in high-need schools; and (6) instituting career advancement opportunities that reward effective teachers, principals, or other school leaders in high-need schools and enable them to expand their leadership results. Grantees must use these funds to carry out the activities described in their approved project applications.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Eligible applicants are local educational agencies (LEAs), including charter schools that are LEAs in their State; State educational agencies (SEAs) or other State agencies; the Bureau of Indian Education (BIE); and partnerships of (1) one or more LEAs, State agencies, or the BIE and, (2) and at least one nonprofit or for-profit entity. An LEA may receive a grant, whether individually or as part of a partnership, only twice.

Beneficiary Eligibility:

Education Professional; Student/Trainee; State; Local; School; SEAs, LEAs, the BIE, non-profit and for profit organizations, and students, teachers, principals, and other school leaders in an LEA's high-need schools.

Reports:

As required by the Education Department General Administrative Regulations (EDGAR) for direct grant programs (34 CFR part 75), annual performance reports (ED Form 524B) are required of all grantees; requirements for any additional reporting will be included in grant award documents. Final performance reports and the final evaluation report must be submitted within 90 days after expiration or termination of the award. Grantees are required to submit Annual Performance Reports. Grantees report progress on established performance measures.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Each grantee must maintain records that fully disclose the total cost of the activity for which the funds are used, and the share of the cost provided from other sources, and other such records as will facilitate an effective financial or programmatic audit. Under 2 CFR 200.333, a grantee must maintain program records for 3 years from the date it submits to the Department of Education its last expenditure report for the period for which it received the funds. A longer retention period is required under specified conditions.

Students must attend an institution of higher education that provides high quality teacher preparation and professional development services, including extensive clinical experience as part of preservice preparation; be financially sound; provide pedagogical coursework, or assistance in the provision of such coursework, including the monitoring of student performance, and formal instruction related to the theory and practice of teaching; and provide supervision and support services to teachers, or assistance in the provision of such services, including mentoring focused on effective teaching skills and strategies.

Beneficiary Eligibility:

Individual/Family; Education Professional; Student/Trainee; Graduate Student; Youth (16-21); Education (13+); To be eligible for a TEACH Grant award, students must meet certain academic achievement requirements, scoring above the 75th percentile on one or more portions of a college admissions test or maintaining a cumulative grade point average of at least 3.25. In addition, teachers, retirees from another occupation with expertise in a field in which there is a shortage of teachers, or current or former teachers using a high-quality alternative route to certification are eligible to receive TEACH awards to obtain a graduate degree. A student applying for a grant to obtain a graduate degree must be a teacher or a retiree from another occupation with expertise in a field in which there is a shortage of teachers; grants for graduate education may also be obtained by a student who is or was a teacher who is pursuing high-quality alternative certification. In addition, students must sign an agreement to serve as a full-time teacher for not less than four years within eight years of completing the course of study for which they received a TEACH Grant. Service must be performed at a school serving a primarily disadvantaged population and must be in one of the following fields: mathematics, science, a foreign language, bilingual education, special education, as a reading specialist, or in another field documented as high-need. Students must also agree to provide evidence of qualifying employment upon completion of each year of service. Failure to complete the service requirements results in the student's TEACH Grants being treated as Federal Direct Unsubsidized Stafford Loans, with interest accrued from the date of award. Students must also sign a statement of educational purpose, not owe a refund on a Title IV grant, and not be in default on a Title IV loan. Eligible males that are at least 18 years old and born after December 31, 1959, can receive aid only if they have registered with the Selective Service.

84.407 Transition Programs for Students with Intellectual Disabilities into Higher Education

FEDERAL AGENCY:

OFFICE OF POSTSECONDARY EDUCATION, EDUCATION, DEPARTMENT OF

AUTHORIZATION:

Higher Education Act of 1965, as amended., Title VII, Part D, Subpart 2,

OBJECTIVES:

Funding under this program supports competitive grants to institutions of higher education (IHEs) (as defined under section 101(a) of the Higher Education Act of 1965, as amended (HEA)), or consortia of IHEs, to create or expand high-quality, inclusive model comprehensive transition and postsecondary programs for students with intellectual disabilities. Under section 767(d)(6) of the HEA all grant recipients must partner with one or more local educational agencies (LEAs) to support students with intellectual disabilities who are still eligible for special education and related services under the Individuals with Disabilities Education Act (IDEA). Funds from this program also support a national Coordinating Center (Coordinating Center), which develops evaluation standards for TPSID grantees and provides technical assistance, information, and opportunities for communication among institutions with postsecondary programs for students with intellectual disabilities. The Center assists in supporting continuous improvement activities for the model transition programs. The Coordinating Center will: (A) provide a research and evaluation protocol for TPSID programs; (B) administer a mentoring program matching current and new TPSID grantees based on areas of expertise; (C) coordinate longitudinal follow-up data collection and technical assistance to TPSID grantees on programmatic components and evidence-based practices; (D) make recommendations related to the development of standards for such programs; (E) provide technical assistance and evaluations for such programs.

TYPES OF ASSISTANCE:

Project Grants, Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

An institution of higher education (IHE) shall use grant funds to establish a model comprehensive transition and postsecondary program for students with intellectual disabilities that 1) serves students with intellectual disabilities, 2) provides individual supports and services for the academic and social inclusion of students with intellectual disabilities in academic courses, extracurricular activities, and other aspects of the IHEs regular postsecondary program, 3) provides a focus on academic enrichment, socialization, independent living skills, including self-advocacy, and integrated work experiences and career skills that lead to gainful employment, 4) integrates person-centered planning in the development of the course of study for each student with an intellectual disability participating in the model program, 5) participates with the coordinating center established under section 777(b) of the Higher Education Act, as amended, in the evaluation of the model program, 6) partners with one or more local education agencies to support students with intellectual disabilities participating in the model program who are still eligible for special education and related services under the Individuals with Disabilities Education Act, 7) plans for the sustainability of the model program after the end of the grant period, and 8) creates and offers a meaningful credential for student with intellectual disabilities upon the completion of the model program. Grantees under this program must provide, from non-Federal funds, a matching contribution equal to at least 25 percent of the cost of the project. The Coordinating Center will provide recommendations related to the development of standards, provide technical assistance and evaluations for model demonstration programs. The center will assist in the development, evaluation, funding, outreach, and continuous improvement of model transition programs. There is no matching requirement for the Coordinating Center.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Institutions of higher education (IHEs) (as defined under section 101(a) of the Higher Education Act of 1965, as amended) and consortia of IHEs are eligible to receive grants under the TPSID

program. All grant recipients must partner with one or more local educational agencies to support students with intellectual disabilities who are still eligible for special education and related services under the Individuals with Disabilities Education Act (IDEA). Proprietary schools (for-profit entities) are not eligible to apply for a grant under this program.

Beneficiary Eligibility:

Mentally Disabled; Education (13+); Grant funds establish model comprehensive transition and postsecondary programs for students with intellectual disabilities at institutions of higher education. Funds also support a Coordinating Center that: provides technical assistance for all comprehensive transition and postsecondary programs for students with intellectual disabilities; conducts and disseminates research to the public on strategies to promote academic, social, employment, and independent living outcomes for students with intellectual disabilities; and builds capacity of Kindergarten through Grade 12 transition services and supports of local and State education agencies.

Credentials/Documentation:

Each IHE or consortia of IHEs desiring a grant under this program shall submit an application to the Department at such time, in such manner, and containing or accompanied by such information as the Department may reasonably require. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications must be prepared and submitted according to requirements outlined in the notice inviting applications, as published in the Federal Register. Each IHE or consortia of IHEs must submit an application covering a 5-year period to the Department of Education.

Award Procedure:

Applications are reviewed for quality and compliance with statutory and regulatory requirements, and are scored by peer reviewers based on criteria included in the application package. The Department determines which applications will be funded based on the quality of the applications as determined through peer review and consider the following factors: 1) providing for an equitable geographic distribution of grants, 2) providing grant funds for model comprehensive transition and postsecondary programs for students with intellectual disabilities that will serve areas that are underserved by programs of this type, and 3) giving preference to applicants that form a partnership with any relevant agency serving students with intellectual disabilities such as a vocational rehabilitation agency, integrate students with intellectual disabilities into housing offered to nondisabled students, or involve students attending the IHE who are studying special education, general education, vocational rehabilitation, assistive technology, or related fields in the model program. The Department also considers the past performance of an applicant in carrying out a previous award.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days. Application deadlines are identified in the notice inviting applications, published in the Federal Register. The estimated range of time need to approve/disapprove an application is usually within 3 months of the submission deadline.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Student completes a "Free Application for Federal Student Aid" and submits it to the processing agency specified on the form. Students may apply using a paper application, an electronic application, or via the Internet. The Department of Education calculates the student's financial eligibility for assistance and returns a notification to the student of his or her eligibility for assistance. The student submits this notification to the institution of his or her choice in order to have his or her award calculated.

Award Procedure:

Institutions act as disbursing agents for the Department of Education. The institution that the student attends calculates and disburses the IASG. The Secretary shall award grants under this section in the same manner, and with the same terms and conditions, including the length of the period of eligibility, as the Secretary awards Federal Pell Grants, except that the award rules and determination of need applicable to Federal Pell Grants shall not apply to grants under IASG. The amount of the IASG award is the same as the maximum Pell Grant for the award year, adjusted for the students enrollment status and cost of attendance.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Not Applicable.

Appeals:

84.422 American History and Civics Education

American History and Civics Academies: National Activities Grants,

FEDERAL AGENCY:

EDUCATION, DEPARTMENT OF

AUTHORIZATION:

Elementary and Secondary Education Act of 1965, as amended, Title II, Part B, Subpart 3, . 20 USC Code 6713.

OBJECTIVES:

The program supports two types of grants: American History and Civics Academies grants and National Activities grants. American History and Civics Academies grants support the establishment of: (1) Presidential Academies for the Teaching of American History and Civics that offer workshops for both veteran and new teachers to strengthen their knowledge of American history and civics (Presidential Academies); and (2) Congressional Academies for Students of American History and Civics that provide high school students with opportunities to develop a broader and deeper understanding of these subjects (Congressional Academies). National Activities grants promote new and existing evidence-based strategies to encourage innovative American history, civics and government, and geography instruction, learning strategies, and professional development activities and programs for teachers, principals, and other school leaders, particularly for low-income students and underserved populations.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

American History and Civics Academies funds are to be used to provide intensive workshops for teachers and students. Funds must be used to provide stipends to participants and may be used for a range of other activities including providing salaries for project staff including project directors, evaluators, core teachers and

support staff, as well as rental expenses at the academy sites. Funds may not be used for construction. Competitions are announced in the Federal Register. Specific limitations and restrictions for each competition are provided in the Federal Register notice. National Activities funds must be used to develop, implement, expand, evaluate, and disseminate for voluntary use, innovative, evidence-based approaches or professional development programs in American history, civics and government, and geography that: (i) show potential to improve the quality of student achievement in, and teaching of, American history, civics and government, or geography, in elementary schools and secondary schools; and (ii) demonstrate innovation, scalability, accountability, and a focus on underserved populations. Funds may be used for: (i) hands-on civic engagement activities for teachers and students; and (ii) programs that educate students about the history and principles of the Constitution of the United States, including the Bill of Rights. Funds may not be used for construction. Funds are subject to supplement, not supplant provisions. Competitions are announced in the Federal Register. Specific limitations and restrictions for each competition are provided in the Federal Register notice.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Institutions of higher education and nonprofit educational organizations, museums, libraries, research centers with demonstrated expertise in historical methodology or the teaching of American history and civics are eligible to apply for Academies grants. Institutions of higher education and other nonprofit and for-profit organizations with demonstrated expertise in the development of evidence-based approaches with the potential to improve the quality of American history, civics and government, or geography learning and teaching are eligible to apply for National Activities grants.

Beneficiary Eligibility:

Education Professional; Student/Trainee; Students and their teachers benefit.

Credentials/Documentation:

OMB Circular No. A21; OMB Circular No. A-122 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. 84.424 Student Support and Academic Enrichment Program

SSAE,

FEDERAL AGENCY:

EDUCATION, DEPARTMENT OF

AUTHORIZATION:

Elementary and Secondary Education Act of 1965, as amended (ESEA), Title IV, Part A, Subpart I, Section

OBJECTIVES:

To improve students academic achievement by increasing the capacity of States, local educational agencies (LEAs), schools and local communities to: (1) provide all students with access to a well-rounded education; (2) improve school conditions for student learning; and (3) improve the use of technology in order to improve the academic achievement and digital literacy for all students.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

A State educational agency (SEA) must reserve at least 95 percent of its SSAE program allocation for subgrants to LEAs and not more than 1 percent of its SSAE program allocation for administrative costs. An SEA may use any remaining funds to support State-level activities and programs designed to meet the purposes of the program, which may include monitoring and providing technical assistance to LEAs. LEAs receiving formula allocations of \$30,000 or more must conduct a comprehensive needs assessment and, based on the results of that assessment, use not less than 20 percent of their allocations for activities to support well-rounded educational opportunities, not less than 20 percent for activities to support safe and healthy students, and a portion to support the effective use of technology. LEAs receiving formula allocations less than \$30,000 must use funds to carry out activities in at least one of these three areas. LEAs may reserve up to 2 percent of their allocations for administrative costs. Each subgrant awarded must be for a term of 1 year and in an amount of not less than \$10,000. LEAs may form consortia and combine subgrant allocations to carry out activities jointly. Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Contact the program office for additional information.

Award Procedure:

For the Elementary and Secondary School Emergency Relief Fund, the Department awards funds by formula to each State educational agency with an approved application, in the same proportion as each State received under Part A of Title I of the ESEA in the most recent year, to prevent, prepare for, and respond to the coronavirus. Each State must allocate at least 90 percent of these funds to local educational agencies in proportion to the amount of funds each LEA received under Part A of title I of the ESEA in the most recent fiscal year. The 50 States, the District of Columbia, and the Commonwealth of Puerto Rico are eligible to apply for these funds. For the Homeless Children and Youth, the Department awards funds by formula to each State educational agency with an approved application, for the purposes of identifying homeless children and youth, providing wraparound services in light of the impact of the COVID-19 pandemic, and providing assistance needed to enable homeless children and youth to attend school and participate fully in school activities, including in-person instruction. For the Governors Emergency Education Relief Fund, the Department awards funds by formula to the Governor of each State with an approved application to prevent, prepare for, and respond to the coronavirus. These grants may be used to provide emergency support to local educational agencies, institutions of higher education, or any other educational entity within the State at the Governors discretion. The 50 States, the District of Columbia, and the Commonwealth of Puerto Rico are eligible to apply for these funds. For the Emergency Assistance to Non-Public Schools, the Department awards grants by formula to each Governor with an approved Certification and Agreement to provide services or assistance to eligible non-public schools to address the impact that COVID-19 has had, and continues to have, on non-public school students and teachers in the State. For the Discretionary Grants, in fiscal year 2020 the Department awarded grants to States with the highest coronavirus burden to prevent, prepare for, and respond to the coronavirus under two competitions: (1) Rethink K-12 Education Models and (2) Reimagining Workforce Preparation. The 50 States, the District of Columbia, and the Commonwealth of Puerto Rico are eligible to apply for these funds. For the Outlying Areas, the Department awards grants to Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and the U.S. Virgin Islands to prevent, prepare for, and respond to the coronavirus. For the Bureau of Indian Education (BIE), the Department transferred funds to the Department of the Interior, for programs operated by the BIE to prevent, prepare for, and respond to the coronavirus. For the Higher Education Emergency Relief Fund, the Department awards funds to eligible institutions of higher education (IHEs) based upon (1) specific formulas or (2) the discretion provided to the Secretary, as provided in statute. Various formulas were used to award funds under: sections 18004(a)(1), (a)(2), and (a)(3) (in part) of The CARES Act; sections 314(a)(1), (a)(2), and (a)(4) of The CRRSAA; and the ARP Act, pursuant to sections 314(a)(1), (a)(2), and (a)(4) of The CRRSAA. Remaining funds under section 18004(a)(3) (in part) of The CARES Act, section 314(a)(3) of The CRRSAA, and the ARP Act, pursuant to section 314(a)(3) were distributed to IHEs that the Secretary determined, through competitive processes, had the greatest unmet needs related to coronavirus.

84.938 Disaster Recovery Assistance for Education

FEDERAL AGENCY:

EDUCATION, DEPARTMENT OF

AUTHORIZATION:

Bipartisan Budget Act of 2018, Public Law 115-123, Additional Supplemental Appropriations for Disaster Relief Act, 2019, Public Law 116-20., , Public Law

OBJECTIVES:

To assist in meeting the educational needs of individuals affected by a covered disaster or emergency (as defined by the applicable Disaster Recovery statute, which prescribes a list of Presidentially declared major disasters or emergencies that provide eligibility for assistance under any particular Disaster Recovery

appropriation).

TYPES OF ASSISTANCE:

Formula Grants, Project Grants

USES AND USE RESTRICTIONS:

Funds are authorized and appropriated for six programs: (1) Immediate Aid to Restart School Operations; (2) Temporary Emergency Impact Aid for Displaced Students; (3) Assistance for Serving Homeless Children and Youth; (4) Emergency Assistance to IHEs; (5) Defraying Costs of Enrolling Students Displaced in Higher Education; (6) Project School Emergency Response to Violence.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); U.S. Territories and possessions; State educational agencies (SEAs) and institutions of higher education (IHEs) in areas affected by a covered disaster or emergency, or which enroll students displaced from an area affected by a covered disaster or emergency. Local educational agencies (LEAs) and public and non-public schools in affected areas are subgrantees.

Beneficiary Eligibility:

State; School; State educational agencies, local educational agencies, postsecondary institutions and students in areas affected by a covered disaster or emergency will benefit.

Credentials/Documentation:

2 CFR 200, Subpart E - Cost Principles applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Contact the program office for additional information.

Award Procedure:

Under the Immediate Aid to Restart School Operations program, the Department awards funds to eligible SEAs. These SEAs, in turn, provide assistance or services to LEAs, including charter schools, and non-public schools to help defray expenses related to the restart of operations in, the reopening of, and the re-enrollment of students in elementary and secondary schools that serve an area affected by a covered disaster or emergency. Under the Temporary Emergency Impact Aid for Displaced Students program, the Department awards Emergency Impact Aid funding to SEAs, which, in turn, provide assistance to LEAs for the cost of educating students enrolled in public schools, including charter schools, and non-public schools, who were displaced by a covered disaster or emergency. The amounts awarded under each are based on demand and specific data received from eligible applicants. Under Assistance for Homeless Children and Youth, the Department awards grants to SEAs for LEAs to address the needs of homeless students displaced by a covered disaster or emergency. The size of these grants is based on numbers reported by States of (1) displaced homeless students and (2) demonstrated need. SEAs award subgrants to LEAs on the basis of demonstrated need. LEAs must use the funds awarded under this program to support activities that are allowable under the McKinney-Vento Homeless Assistance Act. Under Emergency Assistance to Institutions of Higher Education the Department provides emergency assistance to IHEs and their students in areas directly affected by a covered disaster or emergency, for activities authorized under the Higher Education Act of 1965. Under the Defraying Costs of Enrolling Displaced Students in Higher Education program, the Department provides payments to IHEs to help defray the unexpected expenses associated with enrolling displaced students from IHEs directly affected by a covered disaster or emergency, in accordance with criteria established and made publicly available. Under the Project School Emergency Response to Violence (SERV) program, the Department awards grants on a case-by-case basis for short- and long-term education-related services for LEAs and IHEs to help them recover from a covered disaster or emergency that has disrupted the learning environment. Amounts for all of the above programs are also based on available funds under the applicable appropriation.

Applicants must be a sophomore or junior enrolled in a degree program at an accredited U.S. college, pursuing a Bachelor's degree as a full-time student during the forthcoming academic year, maintaining a grade point average of 3.0 on a 4.0 scale, be a U.S. citizen, national or resident alien (resident aliens must include a photocopy of the Alien Registration Card) and have selected a field of study that will permit admission to a graduate or professional program in preparation for a research career in mathematics, the natural sciences, or engineering. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The Campus Representative of an institution is the key person in the Goldwater selection process and serves as liaison between their institution and the Foundation. The Campus Representative is responsible for publicizing the Goldwater Scholarship on campus, soliciting recommendations on outstanding students with proven capability and research potential in the fields of mathematics, science, and engineering from members of the faculty, and conducting a competition on campus to determine the best qualified nominees from the institution. The Campus Representative assists the nominees in the preparation of the nomination package and ensures that they are accurate, complete, and forwarded to the Goldwater Scholarship Review Panel by the stated deadline for the competition. The following information must be included on the official nomination materials with each Scholarship nomination: (1) An institution nomination form signed by the Campus Representative stating that the nominee meets the qualifications for the Scholarship. (2) Biographical data and educational background information regarding past and future academic plans and career goals must be submitted. (3) An essay by the nominee discussing a significant issue or problem in his or her field of study of interest must be submitted. (4) Three independent letters of evaluation from faculty members or others qualified to assess the nominee's performance and potential for a career in the nominee's chosen field of study must be submitted. (5) All transcripts from colleges attended must be submitted.

Award Procedure:

Each nominee will be evaluated by an independent review panel of academicians and college administrators from colleges and universities throughout the United States. In awarding Scholarships, the Foundation Board of Trustees will consider the nominee's field of study and career objectives and the extent to which that individual has the commitment and potential to make a significant contribution to their chosen field of study. It is expected that students selected as Scholars will pursue advanced degrees. Final selection of candidates is recommended by the independent review panel. The Board of Trustees will name 250-500 Goldwater Scholars annually.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. In February of each year scholarship nominees are evaluated by Independent Review Panel and ranked by relative merit. In March of each year the Review

Renewals:

Other. It is the intent of the Foundation to support sophomore Scholars for a maximum of 2 academic years (4 semesters) and junior Scholars for a maximum of 1 academic year (2 semesters). Renewal for sophomore awards will be in accordance with the regulations established by the Foundation Board of Trustees and will be subject to an annual review by an authorized official of the institution. The Scholar must be a full-time student and taking a course of study, training, or other educational activities to prepare for a research career in mathematics, the natural sciences, or engineering. The Scholar must not be engaged in gainful employment that interferes with the Scholar's studies. The Scholar must be in good academic standing. The Scholar may seek postponement of their award because of ill health or other mitigating circumstances, upon application to the President.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

To be eligible to receive payments, a Goldwater Scholar must submit in writing:

(1) An acceptance of the Scholarship award, (2) a direct deposit form for electronic payment and (3) at the beginning of each academic year one payment request form outlining the costs of tuition, fees, books, room and board, and any other Scholarships the student is receiving for that academic year. This form must be certified by a financial aid official and an academic official certifying that the student is in good academic standing. Payments via treasury EFT will be made to the Scholar's account in the amount for which the Scholar qualifies on the payment request, not to exceed \$7,500 per academic year. Method of awarding/releasing assistance: lump sum.

Reports:

Each Goldwater Scholar is required to send a report each June for four years following graduation outlining progress toward their career goals. They must also provide a current address when changes occur.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

FEDERAL AGENCY:

MORRIS K. UDALL SCHOLARSHIP AND EXCELLENCE IN NATIONAL ENVIRONMENTAL POLICY FOUNDATION

AUTHORIZATION:

Morris K. Udall Scholarship and Excellence in National Environmental and Native American Public Policy Act of 1992, , Statue 106-78, Public Law 102-259, 20 USC Code 5601-5609.

OBJECTIVES:

To honor former Arizona Congressman Morris K. Udall and Secretary of Interior Stewart L. Udall through the operation of internship, scholarship, and fellowship programs, financed by a permanent trust fund endowment, to develop increased opportunities for young Americans to prepare for and pursue careers related to the environment and to American Indians and Alaska Natives who intend to pursue careers in health care and tribal public policy. Assistance is intended for the use of scholars only.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

Assistance is intended for the use of scholars only. Scholars must be a sophomore or junior-level student at the time of the award, enrolled full-time at a two-year or four-year accredited institution of higher education in the United States, pursuing a bachelor's or associate's degree.

Applicant Eligibility:

Individual/Family; Specialized group (e.g. health professionals, students, veterans); Applicants must be: (1) College sophomores or juniors in the current academic year having outstanding potential and intending to pursue careers in the environment; or (2) American Indian and Alaska Native students who are college sophomores or juniors in the current academic year and have outstanding potential and intend to pursue careers in health care or tribal public policy. Students must be nominated by accredited colleges or universities recognized by the Department of Education.

Beneficiary Eligibility:

Individual/Family; Specialized group (e.g. health professionals, students, veterans); Student/Trainee; American Indian; U.S. Citizen; Education (13+); To be eligible, students must meet all of the following criteria: Be committed to a career related to the environment, OR committed to a career in tribal public policy OR Native American health care. Be a sophomore or junior-level student, enrolled full-time at a two-year or four-year accredited institution of higher education in the United States, pursuing a bachelor's or associate's degree. "Sophomore" is defined as a student who has completed at least one year of full-time undergraduate study and intends at least two more years of full-time undergraduate study at the time of application. "Junior" is defined as a student who intends at least one more year of full-time undergraduate study at the time of application. Meet the following requirements: Have a college grade-point average of at least a "B" or the equivalent. Be pursuing full-time study during academic year following the award.

ASSISTANCE LISTINGS DESCRIPTIONS

Be a U.S. citizen, U.S. national, or U.S. permanent resident.

Credentials/Documentation:

Applicants must be nominated by their university via an online application. Current transcripts and transfer transcripts are required. Applicants must also submit three letters of recommendation. American Indians and Alaska Native students in tribal public policy or health care must submit copies of relevant enrollment forms or descent documentation (for more information, see our Frequently Asked Questions). Members of the First Nations of Canada must submit proof of U.S. permanent residency. U.S. permanent residents must submit a copy of their permanent resident ("green") card and a letter of intent to declare U.S. citizenship (First Nations are excepted). This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. Each September the chief executive officers of accredited U.S. colleges and universities are invited to appoint a Udall Scholarship faculty representative to manage the selection and nomination of up to six students for the upcoming year's Udall Scholarships. The faculty representative of an institution is the key person in the Udall Scholarship selection process and serves as liaison between his/her institution and the Foundation. The faculty representative is responsible for publicizing the Udall Scholarships on campus, soliciting recommendations of students with significant commitment to the environment and outstanding Native American and Alaska Native students that demonstrate a commitment to pursue a career related to health care or tribal public policy from members of the faculty; establishing the process to select the best qualified candidates to be nominated; helping nominees prepare for the competition; and ensuring that the institutions nominations are complete and are forwarded to the Udall Scholarship Review Committee by the stated deadline.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. To access the online application, the faculty representative must register applicants as potential nominees. All applicants must use the online application; the Foundation will not accept paper applications. The application consists of: An 11-question application form that affirms the nominee's wish to be considered for the scholarship; provides biographical information about the nominee's background, interests and plans, and provides a statement about the nominee's intent to enter an eligible career and specifies how the student's educational plans will provide preparation for that career; An 800-word essay on a speech, legislative act, book, or public policy statement by either Morris K. Udall or Stewart L. Udall and its impact on the applicant's interests and goals; A current official college transcript and transcripts for other colleges attended; Three letters of recommendation.

Award Procedure:

The Udall Foundation will select individuals from the academic and professional community to serve as the Udall Review Committee. Udall Foundation staff will verify the applications for completeness and eligibility. The Review Committee meets at a designated location for one weekend to review and select 50 scholars and 50 honorable mention recipients. Students will be evaluated on the basis of: (a) Outstanding leadership capabilities and public service, (b) academic excellence, (c) the appropriateness of student's plan of study to prepare for a career in the environment, health care, or tribal public policy, and (d) dedication to the values exemplified by Morris Udall and Stewart Udall during their careers, i.e., civility, integrity, and consensus. The Review Committee has sole discretion in the selection of the 50 scholars.

Deadlines:

March 05, 2015.

Range of Approval/Disapproval Time:

From 15 to 30 days. Early March of each year for receipt of nominations; March of each year for selection of scholars by Udall Review Committee; May of each year for announcement of Udall scholars.

Morris K. Udall Scholarship and Excellence in National Environmental and Native American Public Policy Act of 1992, , Statue 106-78, Public Law 102-259, 20 USC Code 5601-5609.

OBJECTIVES:

ASSISTANCE LISTINGS DESCRIPTIONS

To honor former Arizona Congressman Morris K. Udall through the operation of internship, scholarship and fellowship programs, financed by a permanent trust fund endowment, to develop increased opportunities for young Americans to prepare for and pursue careers related to the environment and to American Indians and Alaska Natives who intend to pursue careers in health care and tribal public policy.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

Assistance is intended for the use of interns only and can only be used in connection with the internship program. As part of the program, the Udall Foundation provides: Placement in a Congressional office, committee or federal agency in Washington, D.C.; Meetings with distinguished members of Congress, directors and staff of federal agencies, and Native American professionals; A one-day nation-building seminar with the Native Nations Institute; Apartment-style living with on-site coordinator; Roundtrip airfare to and from Washington, D.C., and a daily allowance for meals, transportation and incidentals; A \$1,200 educational stipend upon completion of the internship. To receive the assistance, an intern must agree to complete the entire ten-week, full-time internship in the assigned office in Washington, D.C.; reside in housing provided by the Foundation for the duration of the internship; and participate in all scheduled program meetings and activities.

Applicant Eligibility:

Individual/Family; Specialized group (e.g. health professionals, students, veterans); Applicants must be American Indian or Alaska Native; be a junior or senior in college, a recent graduate from a tribal or four-year college, or a graduate or law student; have a college grade-point average of at least a "B" or the equivalent; and be a U.S. citizen or U.S. permanent resident. Applicants should also demonstrate commitment to tribal public policy or tribal communities.

Beneficiary Eligibility:

Individual/Family; Specialized group (e.g. health professionals, students, veterans); Student/Trainee; Graduate Student; American Indian; U.S. Citizen; A successful applicant will demonstrate: Interest in learning how the federal government "really works;" Commitment to his or her tribal community; Knowledge of Morris Udall and Stewart Udall's legacy with regard to American Indians; Awareness of issues and challenges currently facing Indian Country; Strong research and writing skills; Organizational abilities and time management skills; Maturity, responsibility, and flexibility.

Credentials/Documentation:

Applicants must submit current transcripts and transcripts for transfer credits. Graduate and law students must submit undergraduate transcripts. Applicants must also submit three letters of recommendation. One letter should be from a leader in the applicant's tribal community. Applicants must submit copies of relevant tribal enrollment forms or certificate of degree of Indian blood. 85.802 Fellowship Program

VEF Fellowship Program,

FEDERAL AGENCY:

VIETNAM EDUCATION FOUNDATION

AUTHORIZATION:

Vietnam Education Foundation Act of 2000, Title 2, , Public Law 106-554

OBJECTIVES:

The goal of the program is to promote international exchange and cooperation between the United States and Vietnam, through educational exchange. VEF provides funding for fellowships to Vietnamese nationals to pursue Master's and doctoral degrees in the STEM fields at U.S. universities.

TYPES OF ASSISTANCE:

Project Grants (Fellowships)

USES AND USE RESTRICTIONS:

A grant of \$27,000 is provided to the U.S. educational institution during each of the first two years of study toward a Master's or doctoral degree. The U.S. graduate institution is responsible for providing any additional funds needed to cover all required tuition, fees, books, insurance, and a monthly living stipend to the student. Fellows also receives a \$1,000 Professional Development Grant that may be used for their professional development, and may cover attendance at professional conferences, books, editing of papers for publishing, and other expenses that directly relate to the program of study.

Applicant Eligibility:

Individual/Family; Specialized group (e.g. health professionals, students, veterans); Grants are solely intended for Vietnamese students who enroll in Master's and doctoral degree programs in STEM fields at an accredited U.S. university.

Beneficiary Eligibility:

Individual/Family; Specialized group (e.g. health professionals, students, veterans); Student/Trainee; Graduate Student; Asian; Other Non-White; Grants are solely intended for Vietnamese Masters and doctoral students for use in their STEM-based study at a U.S. university.

Credentials/Documentation:

Applicants must be Vietnamese nationals, who are capable of being admitted to a Master's or doctoral program at a U.S. university for a program in the STEM fields. Furthermore, applicants must complete an on-line application in the VEF Online Management System, which will be reviewed by agency staff and by professors selected to assist with interviews to be held in Vietnam. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. Applicants must achieve a minimum score of 7 out of 10 in the Vietnamese grading system and must provide transcripts from all higher education institutions attended. Furthermore, all applicants must take the GRE and receive at least 500 on the Paper-Based Test (PBT) (either the International or Institutional exam is acceptable), which is equivalent to 173 on the Computer-Based Test (CBT) and 61 on the Internet-Based Test (iBT). IELTS score may also substitute for the TOEFL.

PENSION BENEFIT GUARANTY CORPORATION

86.001 Pension Plan Termination Insurance

(ERISA).

FEDERAL AGENCY:

PENSION BENEFIT GUARANTY CORPORATION

AUTHORIZATION:

Employee Retirement Income Security Act of 1974 (ERISA), Title IV (Plan Termination Insurance), Public Law 93-406, as amended; Public Law 96-364; Multi-employer Pension Plan Amendments Act of 1980; Public Law 99-272; Single-Employer Pension Plan Amendments Act of 1986; Pension Protection Act of 1987, Public Law 100- 203; Omnibus Budget Reconciliation Act of 1989, Public Law 101-239; Retirement Protection Act of 1994, Public Law 103-465; Job Creation and Worker Assistance Act of 2002; Pension Funding Equity Act of 2004.,

OBJECTIVES:

To encourage the continuation and maintenance of voluntary private pension plans for the benefit of their participants, to provide for the timely and uninterrupted payment of pension benefits to participants and beneficiaries in plans covered by the PBGC, and to maintain premiums charged by the PBGC at the lowest level consistent with carrying out its obligations.

TYPES OF ASSISTANCE:

Insurance

USES AND USE RESTRICTIONS:

Insurance coverage is mandatory for most private, defined benefit pension plans. A single-employer plan may terminate in a standard termination only if it has sufficient assets to provide all benefits, and in a voluntary distress termination only if the employer sponsoring the plan can satisfy specified distress criteria. Upon a voluntary distress termination or a termination initiated by the PBGC, the PBGC guarantees payment of nonforfeitable benefits under the terms of the plan within limits specified in the law. The guaranteed basic benefits payable to a participant or beneficiary under a covered single-employer plan may not exceed the actuarial value at the time of termination of a monthly benefit in the form of a life annuity commencing at age 65 equal to the lesser of: (1) A \$750 adjusted annually to reflect changes in the Social Security contribution and benefit base since 1974, or (2) a participant's high consecutive five-year average monthly gross income. When covered plans or amendments to them are less than 5 years old at termination, benefits are guaranteed on a graduated basis. Benefits of persons defined as "substantial owners" are guaranteed on a 30-year graduated basis, subject to certain additional limits in the case of increased benefits due to plan amendment. For multi-employer plans there is a program of reorganization for plans with funding problems. The PBGC is required to extend financial assistance to insolvent multi-employer plans in order that they may be able to meet plan obligations for guaranteed benefits. Insurance coverage is mandatory for any plan that is an employee pension plan benefit established or maintained by: (1) An employer engaged in or affecting commerce; (2) an employee organization engaged in or affecting commerce; or (3) both, if certain requirements relating to the Internal Revenue Code are met. However, insurance coverage does not extend to any plan that is: (1) an individual account plan; (2) established and maintained for Federal, State or local government employees; (3) a church plan, unless the plan has made an election under 26 U.S.C. 410(d) and has notified PBGC of such election; (4) a plan that has not provided for employer contributions after September 2, 1974; (5) unfunded and maintained by an employer primarily to provide deferred compensation for a select group of management or highly compensated employees; (6) established and maintained outside of the U.S. primarily for the benefit of non-resident aliens; (7) maintained by an employer solely for the purpose of providing

benefits for certain employees in excess of the limitations on contributions and benefits imposed by the Internal Revenue Code; (8) established and maintained exclusively for substantial owners; (9) that of an international organization that is exempt from taxation; (10) maintained solely for the purpose of complying with applicable workmen's compensation laws or unemployment compensation or disability insurance laws; or (11) established and maintained by a professional service employer that has not at any time since September 2, 1974, had more than 25 active participants.

Applicant Eligibility:

Small business (less than 500 employees); Profit organization; Other private institutions/organizations; Private businesses and organizations that maintain defined benefit plans and participants (and beneficiaries) in such plans.

Beneficiary Eligibility:

Individual/Family; Senior Citizen (60+); Pension Recipient; All participants (and their beneficiaries) in covered single-employer pension plans may be potentially eligible for plan termination insurance payments. All covered multi-employer plans may be eligible for financial assistance needed to ensure payment of guaranteed benefits.

Credentials/Documentation:

In support of a termination notice, information relating to plan asset sufficiency must be furnished by the plan administrator of a single-employer plan. Information relating to financial operations of the employer must also be furnished for a distress termination. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. As soon as practicable after complying with certain statutory notice requirements, a plan administrator who intends to terminate a covered single-employer plan must submit to the PBGC either a standard termination notice or a distress termination notice depending on the type of termination sought. Applications relating to a standard or distress termination should be sent to PBGC, Processing and Technical Assistance Branch, 1200 K Street, N.W., Suite 930, Washington, DC 20005-4026. Applications for multi-employer plan matters should be made in accordance with applicable PBGC regulations and other published guidelines.

Award Procedure:

The PBGC determines whether the assets of a covered single-employer plan that has notified the PBGC of its intent to terminate in a distress termination, or against which the PBGC has initiated termination proceedings, are sufficient to pay guaranteed benefits. If plan assets are found to be insufficient or the PBGC is unable to determine asset sufficiency, the PBGC will normally have itself named as trustee to administer the plan. The PBGC pays guaranteed benefits. The PBGC also pays other benefits funded by plan assets or recoveries from employers.

Deadlines:

An annual premium must be paid for each covered plan generally no later than 9 1/2 months into the plan year, e.g., annual premiums are due October 15th for calendar-year plans (Form 1 or Form 1-EZ). Plans with 500 or more participants (for the prior year) generally must also file an estimated premium with the PBGC (for the current year) by the last day of the second full calendar month following the close of the prior plan year (Form 1-ES). Premiums must be paid through the plan year in which all plan benefits are distributed in a standard termination or a trustee is appointed under ERISA Section 4042. For further information or copies of forms contact: PBGC, Collection and Compliance Division, Suite 670, 1200 K Street, NW., Washington, DC 20005-4026, Telephone (202) 326-4042 or 1-800-736-2444. Standard Termination: Notice of Intent to Terminate (NOIT). The plan administrator of a single-employer plan must issue a notice of intent to terminate the plan, by hand, mail, or electronic means reasonably calculated to ensure actual receipt, to each individual plan participant, beneficiary of a deceased participant, and union representing plan participants (but not to the PBGC) at least 60 days and no more than 90 days in advance of the proposed termination date. PBGC Notice: No later than 180 days after the proposed termination date the administrator must file with the PBGC a notice including, among other items, an enrolled actuary's certification that plan assets will be sufficient to provide all benefit liabilities as of the date of final distribution, with the underlying total asset and benefit values

ASSISTANCE LISTINGS DESCRIPTIONS

(Form 500). Notice of Plan Benefits: No later than the date the PBGC Notice is filed, the plan administrator must have provided information to each plan participant and beneficiary in plain language about his or her benefit, including the amount of that person's benefit, the form of benefit valued, and the factors (such as age, length of service, and actuarial assumptions) used in calculating the benefit. The plan administrator must also notify each plan participant and beneficiary of the identity of the insurer or insurers from whom the plan administrator intends to purchase annuities no later than 45 days before the date of distribution. Asset Distribution: The PBGC has 60 days after receipt of the PBGC Notice to determine whether the plan termination complies with the requirements for a standard termination. If the PBGC does not issue a Notice of Noncompliance and plan assets are sufficient to provide all benefit liabilities, the plan administrator may distribute the plan assets. The distribution must generally be completed within 180 days after the expiration of the 60-day review period and be done in accordance with plan provisions and PBGC regulations. If the plan administrator requests an IRS determination letter on or before the date of filing Form 500 with PBGC, the asset distribution deadline is extended to 120 days after the plan receives a favorable IRS determination letter. Within 30 days after final distribution of plan assets, the plan administrator must file with the PBGC a notice certifying that assets have been distributed as required (Form 501). However, PBGC will assess a penalty for a late filing only if it is filed more than 90 days after assets have been distributed. A terminating plan that is unable to locate an individual after a diligent search must either purchase an annuity for the individual and send annuity provider information to the PBGC or send the PBGC funds to pay for the individual's benefit (Schedule MP). Distress Termination Notice Requirements: The notice requirements for a distress termination differ from those for a standard termination in several ways: the 60-day to 90-day advance NOT must be provided to the PBGC as well as to plan participants and other affected parties; the PBGC Notice (Form 601) must include information to demonstrate that each contributions sponsor and each member of the sponsor's controlled group meet at least one of the distress tests (liquidation, reorganization, business continuation, or unreasonable pension costs due to a declining workforce) as of the proposed termination date. A plan administrator must provide Notice of Plan Benefits to plan participants and beneficiaries in a distress termination only if the plan has sufficient assets to provide at least guaranteed benefits.

Range of Approval/Disapproval Time:

Not Applicable.

Appeals:

Not Applicable. Any person aggrieved by an initial determination made by the PBGC which is covered by the appeals procedures may file an appeal. An appeal or a request for an extension of time to appeal should be submitted to the Appeals Board, Pension Benefit Guaranty Corporation, 1200 K Street, Suite 480, NW, Washington, DC 20005-4026. In addition, the PBGC has the authority to review informally, upon request, determinations that are not covered by the appeals procedures when it determines that it would be appropriate to do so.

The primary objective of this program is to disburse funds to eligible entities for the purpose of restoring and protecting the natural resources, ecosystems, fisheries, marine and wildlife habitats, beaches, coastal wetlands, and economy of the Gulf Coast region using the best available science. All projects, programs, and activities must be eligible activities pursuant to clauses (i) and (ii) of 33 U.S.C. 1321(t)(1)(B) and must be listed on the Council's approved Funded Priorities List. Proposals must identify which Comprehensive Plan goals the proposal will address. A proposal sponsor must select a single primary goal. Multiple secondary goals are encouraged to be identified. The Comprehensive Plan goals are as follows. 1. Restore and Conserve Habitat Restore and conserve the health, diversity and resilience of key coastal, estuarine and marine habitats. 2. Restore Water Quality and Quantity Restore and protect the water quality and quantity of the Gulf Coast regions fresh, estuarine and marine waters. 3. Replenish and Protect Living Coastal and Marine Resources Restore and protect healthy, diverse and sustainable living coastal and marine resources. 4. Enhance Community Resilience Build upon and sustain communities with capacity to adapt to short- and long-term changes. 5. Restore and Revitalize the Gulf Economy Enhance the sustainability and resiliency of the Gulf economy. Proposals also must clearly identify which Comprehensive Plan objectives the proposal will address. A proposal sponsor must select a single primary objective. Multiple secondary objectives are encouraged to be identified. The Comprehensive Plan objectives are as follows: 1. Restore, Enhance, and Protect Habitats; 2. Restore, Improve, and Protect Water Resources, 3. Protect and Restore Living Coastal and Marine Resources, 4. Restore and Enhance Natural Processes and Shorelines, 5. Promote Community Resilience, 6. Promote Natural Resource Stewardship and Environmental Education, and 7. Improve Science-Based Decision-Making Processes. Additional information may be found in the Initial Comprehensive Plan and Update 2016. Projects must be listed in an approved Funded Priorities List Addendum to the Comprehensive Plan in order to be eligible for funding.

Applicant Eligibility:

Federal; State; The Council will periodically request proposals from its eleven state and federal members. The Council members are the only entities eligible to submit proposals. The RESTORE Council does not award Council-Selected Restoration Component grants directly to other entities or individuals. Under the RESTORE Act, Council members are the Governors of Alabama, Florida, Louisiana, Mississippi, and Texas, the Administrator of the U.S. Environmental Protection Agency, and the Secretaries of the U.S. Departments of the Interior, Commerce, Agriculture, Homeland Security, and Army. When selecting projects and programs to be prioritized for funding under the Comprehensive Plan, the Council assigns primary authority and responsibility for overseeing and implementing projects and programs to a Gulf Coast state or federal agency represented on the Council. Council members may select subrecipients to carryout approved projects or programs. Interested third parties may contact the Council members listed above to learn more about how the eligible entities select proposed activities.

Beneficiary Eligibility:

Private nonprofit institution/organization; Interstate; Intrastate; State; Local; Public nonprofit institution/organization; Other public institution/organization; Federally Recognized Indian Tribal Governments; Beneficiaries are the people, wildlife, and natural resources of the Gulf Coast region.

Credentials/Documentation:

The Gulf Coast Ecosystem Restoration Council Initial Comprehensive Plan, August 2013, and Comprehensive Plan Update 2016, December 2016, apply to this program. Department of the Treasury Regulations for the Gulf Coast Restoration Trust Fund, 31 CFR Part 34, publication of Final Rule December 14, 2015 (80 FR 77239), and Final Rule Amending 31 CFR 34.204(a), publication April 3, 2019 (84 FR 12929), apply to this program. All proposals must demonstrate that best available science has been taken into consideration and must clearly articulate how it meets each part of the definition of best available science provided by the RESTORE Act. Best available science is defined in the RESTORE Act as science that (A) maximizes the quality, objectivity, and integrity of information, including statistical information; (B) uses peer-reviewed and publicly available data; and (C) clearly documents and communicates risks and uncertainties in the scientific basis for such projects. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact assessment is required for this listing. This program is excluded from coverage under E.O. 12372. To receive funding under the Council-Selected Restoration Component, Council members must take part in a two-phase submission and application process. Both phases of the submission and application process must be completed before a member will receive an official award from the Council and be able to receive funding. This process was outlined in the Notice of Application Process, published May 4, 2015 (80 FR 25294), and further explained in the Request for Applications for Funding for the 12/09/2015 Funded Priorities List, published December 31, 2015 (80 FR 81819).

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The Councils automated grants management system will be utilized for submission of all proposals, applications and supporting information. Eligible entities submitted project and program proposals to the Council, and selected projects and programs were included on the Funded Priorities List (FPL) Addendums to the Comprehensive Plan in 2015, 2017, 2020, and 2021. Following the publication of an FPL Addendum, eligible entities must submit a complete application package to request funding for individual approved projects. Required application materials are specified in the Request for Applications (RFA) for Funding for the 2015 FPL, published December 31, 2015 (80 FR 81819), the Notice of Funding Availability (NOFA) for the 2017 FPL for Comprehensive Commitment and Planning Support, published January 30, 2018 (83 FR 4206), the Notice of Funding Availability (NOFA) for the Council-Selected Restoration Component 2020 Funded Priorities List 3a, effective March 16, 2020, and the Notice of Funding Availability for the Council-Selected Restoration Component 2021 Funded Priorities List 3b, effective April 28, 2021. The full text of each announcement is available at www.restorethegulf.gov.

87.052 Gulf Coast Ecosystem Restoration Council Oil Spill Impact Program

RESTORE Council Oil Spill Impact Program,

FEDERAL AGENCY:

GULF COAST ECOSYSTEM RESTORATION COUNCIL

AUTHORIZATION:

Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies of the Gulf Coast States (RESTORE) Act of 2012, Title 33, Part 1321(t)(3), Section 1603(3), Statue 126-588, Public Law 112-141, 33 USC Code 1321(t)(2).

OBJECTIVES:

The primary objective of this program is to disburse funds to eligible entities for the purpose of restoring and protecting the natural resources, ecosystems, fisheries, marine and wildlife habitats, beaches, coastal wetlands, and economy of the Gulf Coast region using the best available science in accordance with an approved State Expenditure Plan.

TYPES OF ASSISTANCE:

Project Grants, Project Grants (for specified projects)

USES AND USE RESTRICTIONS:

The intent of this program is to disburse funds to eligible entities for the purpose of restoring and protecting the natural resources, ecosystems, fisheries, marine and wildlife habitats, beaches, coastal wetlands, and economy of the Gulf Coast region using the best available science in accordance with an approved State Expenditure Plan. All projects, programs, and activities must be eligible activities pursuant to clauses (i) and (ii) of 33 U.S.C. 1321(t)(1)(B) and must be included in an approved State Expenditure Plan (SEP). The projects, programs and activities must contribute to the overall economic and ecological recovery of the Gulf Coast; the State Expenditure Plan must take into consideration the Gulf Coast Ecosystem Restoration Council Comprehensive Plan (Comprehensive Plan), August 2013 with update December 2016, and be consistent with the goals and objectives of the Comprehensive Plan. States may select subrecipients to carryout approved projects in the State Expenditure Plan.

Applicant Eligibility:

State; Eligible applicants are specified by the RESTORE Act and regulations at 31 C.F.R. Part 34 as the five Gulf Coast States or their administrative agents, as defined in 33 U.S.C. 1321(t)(3), Alabama, Florida, Louisiana, Mississippi, and Texas. For the development of the State Expenditure Plan, the eligible entities for each Gulf Coast State are as follows: in Alabama, the Alabama Gulf Coast Recovery Council; in Florida, a consortia of local political subdivisions that includes at a minimum 1 representative of each affected county; in Louisiana, the Coastal Protection and Restoration Authority of Louisiana; in Mississippi, the Office of the Governor or an appointee of the Office of the Governor; and in Texas, the Office of the Governor or an appointee of the Office of the Governor [33 U.S.C. 1321(t)(3)(B)(iii)]. Only the above-named entities are eligible applicants who may apply for funding. The RESTORE Council does not make Spill Impact Program grants directly to other entities or individuals. States may select subrecipients to carryout approved projects in the State Expenditure Plan. Interested third parties may contact their jurisdiction listed above to learn more about how the eligible entities select proposed activities.

Beneficiary Eligibility:

Private nonprofit institution/organization; Interstate; Intrastate; State; Local; Public nonprofit institution/organization; Other public institution/organization; Federally Recognized Indian Tribal Governments; The principal beneficiaries are the people, wildlife, economy/businesses, and natural resources of the Gulf Coast region.

Credentials/Documentation:

The Gulf Coast Ecosystem Restoration Council Comprehensive Plan, August 2013, and Comprehensive Plan Update 2016, December 2016, apply to this program. Department of the Treasury Regulations for the Gulf Coast Restoration Trust Fund, 31 CFR Part 34, publication of the Final Rule December 14, 2015 (80 FR 77239), and the Final Rule Amending 31 CFR 34.204(a), published April 3, 2019 (84 FR 12929), apply to this program. (80 FR 1584), and RESTORE Act Spill Impact Component Allocation, 40 CFR 1800, publication date of Final Rule December 15, 2015 (80 FR 77580) and effective date of April 12, 2016 (81 FR 21478), also apply to this program. All State Expenditure Plans must (1) describe the best available science, as applicable, that informed the State's selection of each project or program, and (2) include a certification that projects and programs are based on the best available science as defined in the RESTORE Act. Best available science is defined in the RESTORE Act as science that (A) maximizes the quality, objectivity, and integrity of information, including statistical information; (B) uses peer-reviewed and publicly available data; and (C) clearly documents and communicates risks and uncertainties in the scientific basis for such projects. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. Eligible entities may apply to the Council through a two-phase application process. The first part of the application process is the submission of a State Expenditure Plan (SEP), which must be approved by the RESTORE Council Chairperson. The second part of the application process is the submission of grant application materials by the eligible entities for individual projects or programs contained within the approved SEP. State Expenditure Plan Guidelines have been published by the Council and are available at www.restorethegulf.gov. A Notice of Funding Availability (NOFA) for the Spill Impact Component was published June 3, 2016 (81 FR 35769 and Grants.gov grant opportunity number GCC-SEP-16-001). Eligible applicants must develop and submit a State Expenditure Plan in accordance with the requirements of 33 U.S.C. 1321(t)(3) for approval by the Gulf Coast Ecosystem Restoration Council Chairperson. Projects and programs implemented under an SEP will be required to comply with all environmental and permitting requirements, as applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. After submission and approval of an SEP, eligible entities must submit complete application packages to request funding for individual approved projects and programs. The Councils automated grants management system will be utilized for submission of all grant applications and supporting information. Required application materials are specified in the NOFA published June 3, 2016 (81 FR 35769). The full text of the NOFA and the Councils Guidelines for Development of State Expenditure Plans are available at www.restorethegulf.gov. FEDERAL AGENCY:

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

AUTHORIZATION:

National Archives and Records Administration Act of 1984, , Statue 98-2280,
Public Law 98-497

OBJECTIVES:

Objectives: To provide professional reference service to members of the general public and employees of the Federal government who are conducting research in Federal records or in historical materials in Presidential Libraries; provide advice and information to the public through conferences, workshops and other outreach activities on the availability and use of Federal records and publications in NARA's custody.

TYPES OF ASSISTANCE:

Advisory Services and Counseling, Dissemination of Technical Information, Salaries and Expenses, Use of Property, Facilities, and Equipment

USES AND USE RESTRICTIONS:

The assistance provided by NARA is designed to assist the public in obtaining access to information contained in records which are in the custody of the National Archives. Restrictions on the use of accessioned records in the National Archives of the United States are divided into two categories: general restrictions and specific restrictions. General restrictions apply to all records regardless of origin and apply to types of information or classes of records exempt from disclosure under the Freedom of Information Act, for example, national security information. Specific restrictions are specified by the transferring agency or donor and apply only to records in a particular record group or a portion of that record group. Access to records in the records center operations within NARA's regional records services facilities; in the National Personnel Records Center; and in the Washington National Records Center is controlled by the agency which created the records.

Applicant Eligibility:

To see records in person, NARA Form 14003, Researcher Application, is required. To obtain information or copies by mail, contact the depository; if a form is required, applicant will be notified. The use of publications, such as microfilm publications of the U.S. Census, does not require the completion of a Researcher Application. Microfilm publications are available in regional facilities in self-service reference rooms. Request for civilian and military personnel records should be addressed to the National Personnel Records Center. Requests for court records should be addressed to the appropriate regional records services facility. Requests for records held in records center operations of the NARA regional records services facility and in the Washington National Records Center should be addressed directly to the agency having legal custody.

DELTA REGIONAL AUTHORITY

90.200 Delta Regional Development

(Delta Program).

FEDERAL AGENCY:

DELTA REGIONAL AUTHORITY

AUTHORIZATION:

Departments Of Labor, Health And Human Services, And Education, And Related Agencies Appropriations Act, 2001, 2000) as amended by H.R. 2646; The Farm Security And Rural Investment Act of 2002 (2002 Farm Bill).

OBJECTIVES:

The Delta Regional Authority (DRA) is a federal-state partnership serving a 240-county/parish area in an eight-state region. Led by a Federal Co-Chairman and the governors of each participating state, the DRA is designed to remedy severe and chronic economic distress by stimulating economic development and fostering partnerships that will have a positive impact on the region's economy. Help economically distressed communities to leverage other federal and state programs which are focused on basic infrastructure development, transportation improvements, business development, and job training services.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

In considering programs and projects to be provided assistance under the Act, and in establishing a priority of the requests for assistance provided by the Authority, the Authority shall follow procedures to ensure, to the maximum extent practicable, consideration of the following: (1) the relationship of the project or class of projects to overall regional development; (2) the per capita income and poverty and unemployment rates in an area; (3) the financial resources available to the applicants for assistance seeking to carry out the project, with emphasis on ensuring that projects are adequately financed to maximize the probability of successful economic development; (4) the importance of the project or class of projects in relation to other projects or classes of projects that may be in competition for the same funds; (5) the prospects that the project for which assistance is sought will improve, on a continuing rather than temporary basis, the opportunities for employment, the average level of income, or the economic development of the area served by the project; and (6) the extent to which the project design provides for detailed outcome measurements by which grant expenditures and the result of the expenditures may be evaluated. Each State is required to file a State Delta development plan, appraising prospects for development in its Delta area and relating to them a strategic program for which Delta funding is requested in that year. Once an application is submitted for individual projects and given final approval the grant is administered either by the Federal agency involved in that type of program, a local development district, or directly by DRA. The counties (including any political subdivision located within such area) in which investment under the Delta Act can be made are: Alabama, the counties of Barbour, Bullock, Butler, Choctaw, Clarke, Conecuh, Dallas, Escambia, Greene, Hale, Lowndes, Macon, Marengo, Monroe, Perry, Pickens, Russell, Sumter, Washington, Wilcox; in Arkansas the counties of Arkansas,

OBJECTIVES:

ASSISTANCE LISTINGS DESCRIPTIONS

Delta Regional Authority's mission is to be an advocate for and partner with the people of the Delta to create opportunities for self-sustaining economic development and improved quality of life. This program focuses on activities which support DRA's mission. Specific program goal are: (1) to develop the transportation infrastructure of the region for the purpose of facilitating economic development in the region (except that grants for this purpose may only be made to state and local government); (2) to assist the region in obtaining the job training, employment related education, and business development (with an emphasis of entrepreneurship) that are needed to build and maintain strong local economies; (3) to provide assistance to severely distressed and underdeveloped areas that lack financial resources for improving basic public services; (4) to provide assistance to severely distressed and underdeveloped areas that lack financial resources for equipping industrial parks and related facilities; and (5) to otherwise achieve the purpose of the Act. Grants are made either directly by the Authority or grants may supplement other Federal grants.

TYPES OF ASSISTANCE:

Formula Grants, Project Grants

USES AND USE RESTRICTIONS:

The grants may be used for providing supplemental funds under Federal grant-in-aid programs. To be eligible for special basic grants, projects must be of high priority in the State's Delta development plan and be within the clarification guidelines of the clarification notes which are part of the pre-application used to determine eligibility. The Authority must prioritize use of federal funds in the following order, with 75% of appropriated funds used in distressed counties and transportation and basic public infrastructure projects receiving at least 50% of the appropriated funds: (1) Basic public infrastructure in distressed counties and isolated areas of distress; (2) Transportation infrastructure for the purpose of facilitating economic development, (3) Business development with emphasis on entrepreneurship; (4) Job training or employment-related education, with emphasis on use of existing public educational institutions located in the region.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); State, their subdivisions and instrumentalities and private nonprofit agencies.

Beneficiary Eligibility:

Anyone/general public; General public.

Credentials/Documentation:

The governor of each Delta state shall submit a State Delta Development Plan within 10 months after taking office, and must be approved by the board. Prior to December 15 of each year, the Governor of each state shall submit a Strategy Statement and Investment Program describing the state's program for achieving the goals and objectives contained in its state Development Plan, and must be approved by the board. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Upon completion of his eligibility determinations, the Federal Co-Chairman will forward that list to each participating state member, and he will also notify the pre-applicants and the Administering Agencies. With the singular independence as prescribed by the Delta Regional Authority Act of 2000, as amended, each Governor will select his projects for funding, and will do so within the context of his own Authority-approved state plan and priorities. When the Governors have selected their projects, these selections basically become pre-certified for DRA funding, needing now an application (business plan) sufficient to satisfy the Authority and the (if needed) Administering Agency that the project will work as described and be able to comply with all appropriate Federal regulations. Using the DRA Federal Grant Uniform Grant Application Form, which will include the Administering Agency's required checklists and documents; the Federal Co-Chairman will invite a full application from each participating states lists of eligible and pre-certified projects. Upon receiving each application for their state, each participating Governor shall

evaluate and certify each application conforming to the State Strategy Statement and Investment Program. The Governors will then forward their lists of evaluated and certified applications to the Federal Co-Chairman. Each application will be voted on and approved by the participating state members and the Federal Co-Chairman, together, the Delta Regional Authority.

Award Procedure:

Once projects are approved, the administration of each project will proceed in accordance with the Memorandum of Agreement between DRA and the appropriate Administering Agencies. The DRA notifies Congressional Offices and the Office of the Governor of grant awards.

Deadlines:

A timeline is posted on the DRA web site for each fiscal grant cycle covering pre-application to grant awards.

90.204 States' Economic Development Assistance Program

SEDAP,

FEDERAL AGENCY:

DELTA REGIONAL AUTHORITY

AUTHORIZATION:

12372,

OBJECTIVES:

The Delta Regional Authority works to improve regional economic opportunity by helping to create jobs, build communities, and improve the lives of the 10 million people who reside in the 252 counties and parishes of the eight state Delta region. Led by the Delta Regional Authority Board- comprised of the Federal Co-Chairman, appointed by the President and confirmed by the U.S. Senate, and the governors of the eight states- the Delta Regional Authority fosters local and regional partnerships that address economic and social challenges to ultimately strengthen the Delta economy and the quality of life for Delta residents. Established in 2000 by Congress, the DRA makes strategic investments of federal appropriations into the physical and human infrastructure of Delta communities. Through the States' Economic Development Assistance Program, referred to as SEDAP, these investments help to improve transportation and basic public infrastructure and to strengthen our workforce development system and local business environments. The DRA supports job creation and economic development through innovative approaches to growing local and regional leadership, increasing access to quality healthcare, and boosting opportunities for entrepreneurs to obtain affordable capital.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Under federal law, at least 75 percent of DRA funds must be invested in economically distressed counties and parishes. Half of these funds are targeted to transportation and basic infrastructure improvements. The remaining funds are directed to DRAs other funding priorities of workforce development and business development with a focus on entrepreneurship. The DRA works closely with the 44 Local Development Districts in the DRA footprint that serve as front-line project managers to ensure community-relevant project development and investment. SEDAP investments emphasize job creation, regional collaboration, and health and safety for communities. Through 14 SEDAP funding cycles, the DRA has leveraged its \$138.4 million of federal-state investments into nearly \$3 billion in public and private investment into community-based and regional projects--investments that have helped to create and retain 26,000 jobs, train more than 7,200 Delta workers for 21st century jobs, and connect nearly 65,000 families to clean water and/or sewer service.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); The 252 counties and parishes served by the Delta Regional Authority make up the most distressed area of the country. According to the USDA, the most severe rates of poverty are historically found in the South, especially in the Mississippi River delta region. In fact, 4 of the 10 most impoverished counties and parishes in the country are located within the DRA footprint.

Beneficiary Eligibility:

Anyone/general public; Local; Rural; Public nonprofit institution/organization; For more information, please visit the DRA website at www.dra.gov

Credentials/Documentation:

This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program.

Award Procedure:

1. Innovation and Small Business Projects that include business and industry prospects committed to creating, retaining or maintaining jobs, through the execution of a DRA Participation Agreement. The Participation Agreement is a common claw-back instrument used in economic development to guarantee outcomes. As stewards of public resources, it is advantageous to provide outcome metrics which are validated through the protection this document provides.2. Regional Impact Projects that provide benefit to constituents in multiple counties or parishes, or multiple municipalities within a single county or parish. Applications for regional water and/or wastewater systems will be considered more competitive than stand-alone municipal systems.3. Multiple Funding Partners Applications for projects which include multiple funding sources (both public and/or private) and significantly leverage DRA dollars to other federal or non-federal dollars will be considered more competitive than applications which only include DRA funding or minimal investment leverage.4. Emergency Funding Need Projects that can clearly demonstrate, but for DRA funding, the negative implications of inaction would result in immediate and detrimental health and/or safety issues for the constituents served. Projects posing an immediate health or safety risk which have already met at least one of the four funding categories (listed above) will be considered for funding ahead of all other applications. Sufficient documentation must be provided from the appropriate state or federal agency (DEQ, EPA, etc.), specifically stating the cause or reason for the issue and the agency's concurrence that an immediate health or safety concern exists.5. Funding Partner Initiatives As DRA establishes federal partnerships, through program initiatives, designed to provide supplemental funding support, DRA will give additional consideration to applicants, such as communities receiving the Investing in Manufacturers Community Partnership (IMCP) designation, a Promise Zone designation, or other awards and program designations as identified by the Federal Co-Chairman.6. Small Business Framework Must clearly demonstrate how the project aligns with the policies set forth in DRAs Small Business Framework document, found on dra.gov.7. Incorporated Resiliency Planning Projects located in communities or service areas which have incorporated disaster and resiliency planning into the local planning efforts.

ELECTION ASSISTANCE COMMISSION

90.401 Help America Vote Act Requirements Payments

Requirements Payment,

FEDERAL AGENCY:

ELECTION ASSISTANCE COMMISSION

AUTHORIZATION:

42 U.S.C., , 42 USC Code 15401-15408.

OBJECTIVES:

HAVA Section 251 authorizes requirements payments to assist States (including the District of Columbia and U.S. Territories) in meeting the Uniform and Nondiscriminatory Election Technology and Administration Requirements in Title III of the Act (voting systems standards, provisional voting and voting information requirements, computerized statewide voter registration list requirements and requirements for voters who register by mail) and, under certain circumstances, for other activities to improve the administration of Federal elections.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use, Formula Grants

USES AND USE RESTRICTIONS:

HAVA Section 251(b) provides that these funds are to be used only to meet the requirements of HAVA Title III, except that States may use the payments to carry out other activities to improve the administration of elections for Federal office if the State certifies to EAC that: (1) the State has implemented the requirements of Title III; or (2) the amount to be expended with respect to such other activities does not exceed an amount equal to the minimum requirements payment amount applicable to the State. Section 251(c) also explains that a State may use a requirements payment: (1) as a reimbursement for costs incurred in obtaining voting equipment which meets the requirements of section 301 (voting systems standards) if the State obtains the equipment after the regularly scheduled general election for Federal office held in November 2000, notwithstanding the Act's maintenance of effort requirements; and (2) for any costs for voting equipment which meets the requirements of section 301 that were incurred pursuant to a multi-year contract on or after January 1, 2001, except that the amount that the State is otherwise required to contribute under the maintenance of effort requirements must be increased by the amount of the payment made with respect to such multiyear contract. Funds are available until expended.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Section 253(d) provides that States may not file a statement of certification to receive a requirements payments until the expiration of a 45-day period (or, in the case of a fiscal year other than the first fiscal year for which a requirements payment is made to the State, a 30-day period) that begins on the date the EAC publishes the State plan in the Federal Register. State, or designee, in consultation with the chief State election official, to file with EAC a statement certifying that the State is in compliance with the conditions set forth in Section 253(b). The State may meet this certification requirement by filing the following statement: hereby certifies that it is in compliance with the requirements referred to in To receive funds for a fiscal year, HAVA Section 253 requires the chief executive officer of the State, or designee, in consultation with the chief State election official, to file with EAC a statement certifying that the State is in compliance with the conditions set forth in Section 253(b). For the purpose of this requirement, the chief State election official is the individual designated by the State under section 10 of the National Voter Registration Act of 1993 (42 U.S.C. 1973gg-8) to be responsible for coordination of the States responsibilities under such Act. Section 253(b) requires the State to: have filed with EAC a State plan covering the fiscal year that the State certifies: contained each of the elements required to be in the State plan, according to HAVA Section 254, including how the State will establish a State Election Fund in accordance with Section 254(b); was developed in accordance with Section 255, which describes the process of using a committee of appropriate individuals, including the chief election officials of the two most populous jurisdictions, other local election officials, stake holders (including representatives of groups of individuals with disabilities), and other citizens to develop the plan; and met the 30-day public notice and comment requirements of Section 256. have filed with the EAC a plan for the implementation of the uniform, non-discriminatory administrative complaint procedures required under Section 402 (or has included such a plan in the State plan), and have such procedures in place. If the State did not include such an implementation plan in the State plan, the Federal Register publication and the committee development requirements of Sections 255(b) and 256 apply to the implementation plan in the same manner as they apply to the State plan. be in compliance with each of the following federal laws: The Voting Rights Act of 1965; The Voting Accessibility for the Elderly and Handicapped Act; The Uniformed and Overseas Citizens Absentee Voting Act; The National Voter Registration Act of 1993; The Americans with Disabilities Act of 1990; and The Rehabilitation Act of 1973. to the extent that any portion of the requirements payment is used for activities other than meeting the requirements of title III, have provided that: the State's proposed uses of the requirements payment are not inconsistent with the requirements of title III; and the use of the funds under this paragraph is consistent with the requirements of Section 251(b); have appropriated funds for carrying out the activities for which the requirements payment is made in an amount equal to 5 percent of the total amount to be spent for such activities (taking into account the requirements payment and the amount spent by the State) and, in the case of a State that uses a requirements payment as a reimbursement for

ASSISTANCE LISTINGS DESCRIPTIONS

voting equipment under Section 251(c)(2), an additional amount equal to the amount of such reimbursement.

Beneficiary Eligibility:

State; Fifty States, the District of Columbia, American Samoa, Guam, Puerto Rico, and the U.S. Virgin Islands.

Credentials/Documentation:

Qualifying jurisdictions must follow the procedures set forth in the Help America Vote Act, 42 U.S.C. 15401 et. seq., entitled Requirements Payments. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HAVA Section 253 requires the chief executive officer of the section 253(b) of the Help America Vote Act of 2002. (with the blank to be filled in with the name of the State involved). In addition, the General Services Administration (GSA), which disburses the Title II requirements payments to States on behalf of EAC, requests that a representative from each State contact Sharon Pugh (Sharon.Pugh@GSA.gov) or Brad Farris (Brad.Farris@GSA.gov) on (816) 823-3108 to provide information on State contact points, including name, telephone number, address and email address. GSA then contacts the State representatives to obtain banking information required for an Electronic Funds Transfer (EFT).

Award Procedure:

Based upon the certification statement filed by the State, EAC notifies GSA that a State is due receipt of its Title II payment for a particular fiscal year (i.e., either FY 2003 funds, FY 2004 funds, or both). GSA disburses the Title II funds for a particular fiscal year to the account specified by the State, and notifies the State and EAC of the disbursement in writing, specifying the amounts disbursed by fiscal year. EAC provides separate notification to States specifying the amount to be disbursed by GSA. All funds are disbursed via EFT.

Reports:

The Grantees submit monthly reports that to the Governors of the Broadcasting Board of Governors. These reports include updates on programming initiatives, program reviews, research, human resources issues, legal status, budget issues, financial reports, security issues and any other items of importance. SF 425 Grantees provide monthly obligation and expenditure reports to the BBG for comparison against the approved financial plan. The Grantees are required to perform yearly program reviews on their language and support services. In addition, the Board conducts its own annual Language Service Review to aid in determining overall resource allocation. These reviews require services to report on a wide variety of performance measures, including: audience, credibility, weekly reach, budget information, signal quality, affiliate information, etc.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503 The Grantees are required to undergo an annual audit.

Records:

All reports described above and business documents such as bid solicitations, evidence of shipment for commodities procured in the United States and procurement and service contracts, shall be maintained for a period of 3 years from the date of the initial submission in a manner that will permit verification of the grantee's compliance with its representations, warranties, and obligations contained in this agreement. If any litigation, claim or audit is started before the expiration of the 3-year period, the records shall be retained until all open matters have been resolved.

NORTHERN BORDER REGIONAL COMMISSION

90.601 Northern Border Regional Development

Direct Grants,

FEDERAL AGENCY:

NORTHERN BORDER REGIONAL COMMISSION

AUTHORIZATION:

The 2008 Farm Bill, , Statue 122-2230, Public Law 110-346

OBJECTIVES:

The Northern Border Regional Commission is a Federal-State governmental agency concerned with the economic well-being of the citizens, businesses, and communities within a thirty-six (36) county region of Maine, New Hampshire, New York, and Vermont. (12 counties in Maine, 4 counties in New Hampshire, 14 counties in New York, and six counties in Vermont). The region has had chronic and continuous long-term economic distress. The NBRC partnership is made up of a Federal Co-Chair and the Governors of the four participating States.

TYPES OF ASSISTANCE:

Project Grants, Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

The following funding categories represent eligible activities for NBRC investment dollars.**TRANSPORTATION INFRASTRUCTURE: Transportation Infrastructure shall mean basic physical structures needed to support and/or create a transportation system; A term connoting the physical underpinnings of transportation systems, including, but not limited to, roads, bridges, rail, port facilities, airports, transit, and sidewalks. In transit systems, all the fixed components of the transit system, such as rights-of-way, tracks, signal equipment, stations, park-and-ride lots, bus stops, maintenance facilities. Regular maintenance or deferred maintenance, such as funding for resurfacing, restoring, rehabilitating and reconstructing will NOT be eligible for funding. Federal roads and bridges will

ASSISTANCE LISTINGS DESCRIPTIONS

NOT be eligible for funding. **TELECOMMUNICATIONS

INFRASTRUCTURE: Broadband and Geographic Information System (GIS) projects (not to include speculative or feasibility-type studies rather, complete and sustainable projects) will be considered. The physical components of interrelated systems providing services essential to enable, sustain, or enhance communications that encourage business growth and development. Applicants should identify gaps in current regional inventory of telecommunication needs. The gap between a community's broadband today (existing infrastructure, including capacity, speed and pricing, and level of adoption) and its needs should define the type, technology, size and scale of the project. ****BASIC PUBLIC INFRASTRUCTURE:** The term Basic Public Infrastructure shall mean water and wastewater facilities, electric and gas utilities, and solid waste landfills - or any structures that aid in the reduction of the need for landfills such as recycling and composting, all of which are fundamental services necessary to promote growth and attract business and which have a useful life of 20 years or more. NBRC investments funds will NOT be used for projects deemed to be Maintenance or Deferred Maintenance. Maintenance shall mean the work of keeping something in proper condition or upkeep. Deferred Maintenance shall mean to put off, postpone, or procrastinate the act of maintenance. ****BUSINESS AND WORKFORCE DEVELOPMENT:** Business Development shall mean those areas of business development which include entrepreneurship, the creation of new businesses or the retention or expansion of existing businesses in the local communities, and are deemed eligible, projects shall document job-creation or job-retention. Funding of start-up projects, such as business incubators or industrial parks, must have committed business tenants. Expansion of existing business incubators and industrial parks are also allowed. Business Incubator projects must document that a need exists, per standards of research described by the International Business Innovation Association. A plan should also be developed to coincide with standards and operations as set forth by the International Business Innovation Association. Business Incubation shall mean a business support process that accelerates the successful development of start-up and fledgling companies by providing entrepreneurs with an array of targeted resources and services. Workforce Development shall mean job training or employment-related education for a specific employer to fill immediate job openings or retain current jobs which are documented as such by that specific employer. Delivery of such training shall be through the use of existing public educational facilities (EPEFs) located in the Region. However, if, the applicant demonstrates (1) sufficient information demonstrating an EPEF's inability (as example, insufficient capacity, curriculum, and/or accessibility) to satisfy the defined need, and the applicant (2) demonstrates a compelling need to use a non-EPEF for such training, then the Federal Co-Chairman can waive this requirement and deem a project eligible. To be deemed eligible, project shall document job-creation or job-retention. Other than for Workforce Development projects, as described above, start up or ongoing, operating costs (including, but, not limited to, salaries, vehicles, equipment, and maintenance) will NOT be deemed eligible. **BASIC HEALTH CARE:** The cost of basic health care facilities, such as clinics, will be eligible. Operating costs of facilities will NOT be deemed eligible. **RESOURCE CONSERVATION, TOURISM, RECREATION:** While easements and land purchases are eligible under the federal criteria, an economic development case needs to be made to substantiate the use of funds. Construction projects that promote resource conservation, tourism, recreation, and preservation of open space, such as access roads, bridges, signage, etc., are eligible projects. All projects must also be consistent with the economic development goals of the region. ****RENEWABLE AND ALTERNATIVE ENERGY:** Renewables are generally defined as any naturally occurring, theoretically inexhaustible source of energy, such as biomass, solar, wind, tidal, wave, and hydroelectric power, that is not derived from fossil or nuclear fuel. Facilities that are owned by a for profit entity will NOT be eligible. Publicly owned and non-profit entities are eligible.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. By statute (40 U.S.C. 15702) the NBRC is required to annually assess the level of economic and demographic distress among the 36 counties in its service area. Assessing distress is important as the resulting designations reflect whether or not the NBRC can provide grants within a county as well as what level of match is required of NBRC funded projects. Counties are designated as either: Distressed - and are eligible for 80% funding and require a 20% match Transitional - and are eligible for 50% funding and require a 50% match Attainment - and are not eligible for funding expect for certain circumstances. In general, NBRC funds may not be provided to projects located within a designated Attainment County. However, if a municipality is distressed or the project has a greater effect on distressed and transitional counties surrounding it, there is a possibility that it could be an eligible project see the Program Director. www.nbrc.gov MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

The grant agreement stipulates the time period for completion of the project. All projects must be completed within three years from the date of the grant award. Method of awarding/releasing assistance: other

CRITERIA FOR SELECTING PROPOSALS:

Each State scores the applications received within their state independently. Generally, each state creates a team of reviewers and in addition have access to a group of consultants as referrals who have specialized knowledge on scientific or technical expert opinion to provide guidance when needed. Final decisions about awards are approved jointly between the Federal Co-Chair and the Governors Alternates (the five members that make up the Northern Border Regional Commission). The scoring system for each state is provided below. If the application is for a multi-state project, each state will score the application independently. While States will consult with one another in order to strive for consistency, a multi-state application may be awarded in one state and not in another.

93.011 National Organizations of State and Local Officials

NOSLO,

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Sections 311(a) of the Public Health Service (PHS) Act, as amended., Title , Section

OBJECTIVES:

The purpose of the HRSA NOSLO cooperative is to support technical assistance, promotion of best practices and innovative solutions to emerging and ongoing national health priorities such as communicable disease prevention and suppression, childhood obesity, substance use disorders and/or mental health. Award recipients preserve and improve public health by: (1) strengthening the organizational capacities of state and local health departments, state Primary Care Offices (PCOs), state Offices of Rural Health (SORHs), small rural hospitals and clinics, state and local Ryan White HIV/AIDS Program (RWHAP) entities, state Medicaid agencies, and state legislatures through information exchanges and learning communities that support quality improvement and innovative public and private sector initiatives;(2) developing technical assistance materials and training activities that can be used by states, local governments, and their political subdivisions to benefit HRSA award recipients such as health centers, state maternal and child health programs, health professions training programs, state and local RWHAP entities, and state and local public health agencies/entities providing services to underserved communities; and (3) engaging national organizations representing state and local officials to provide education, training and technical assistance to promote integration of primary care, behavioral health, and public health initiatives for their constituencies. By promoting collaboration and partnership among major stakeholder organizations representing state and local public health officials and other HRSA award recipients, this cooperative agreement helps develop and promote public and private sector strategies to improve access to quality services and help to build a skilled health workforce, key

tenets of HRSA's mission and in support of the Secretary's key principles of service and sustainability. Program Expectations: The NOSLO award recipients will carry out initiatives which: advise states and their political subdivisions in the prevention and suppression of communicable diseases to carry out public health activities, including establishing and maintaining adequate public health services to protect and improve population health; focus on health promotion and prevention of disease, illness, and psychosocial problems through quality improvement activities at the state, local, and practice levels using mechanisms such as resource sharing, data collection and analysis of outcome measures and documentation of benefits across sites; support the organizational capacity for state primary care offices/associations, health centers, and other HRSA award recipients to address the education and training needs of the core safety net provider workforce, including coordination efforts associated with emergency preparedness and response; help states and local government entities to address the needs of uninsured, underserved and special needs populations in states and local areas, including improving access to quality care; create useful, effective forms of collaboration with partners, within and beyond the health sector, to facilitate opportunities for program development and implementation of initiatives that support vulnerable and underserved populations; promote workforce development in state and local public health agencies; and increase collaborative efforts with federal/state supported resources with a shared goal to improve the capacity and efficiency of the public health and health care systems by leveraging resources to avoid duplication of efforts. Core Functions: The NOSLO program will address three core functions related to the program purpose and expectations: (1) training and technical assistance (T/TA) in program management and operational support; (2) policy, program development/analysis and information exchange; and (3) collaboration, coordination and promoting partnerships. Applicants must outline specific activities under each required core function targeted to strengthening the organizational capacities of state and local health departments, their political subdivisions, and HRSA award recipients. The projects will also address program priorities for the U.S. Department of Health and Human Services, such as the implementation of the Healthy People 2030, and the evolving health care landscape at the national, state and local levels. This includes projects that can assist states and local governments to achieve improved health outcomes for underserved populations and better services and value for state programs.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

This program will support national organizations that represent the following groups: State/Territorial Health Department Officials, Local County and City Health Department Officials, State Medicaid Directors, and State Legislatures to address cross-cutting, publicly-funded health program integration and health access issues identified by the states and local governments and entities. Specifically, under the NOSLO program, each award recipient will be responsible for carrying out activities tailored to its own constituency's needs (i.e., its target audience). The NOSLO cooperative agreements are multi-faceted and include opportunities for policy information exchange and collaboration, as well as for providing training and technical assistance to state and local governments and their political subdivisions, health centers, other HRSA grantees, and other health care entities to address the needs of the underserved and targeted populations.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Quasi-public nonprofit institution/organization; Eligible applicants include nonprofit service and/or membership organizations that can provide training and technical assistance on a national level to strengthen the infrastructure capacities of states and local government entities. Applicants must be national in scope with a broad reach, and have established long-term relationships with at least one of the following groups: state and local health departments; state government entities such as state PCOs, SRHAs, and SORHs; state Medicaid Offices; state policymakers; state legislatures; and local county and city government entities.

Beneficiary Eligibility:

OBJECTIVES:

To encourage State Agencies on Aging and Area Agencies on Aging to concentrate resources to develop and implement comprehensive and coordinated community-based systems of service for older individuals via Statewide planning, and area planning and provision of supportive services, including multipurpose senior centers. The objective of these services and centers is to maximize the informal support provided to older Americans to enable them to remain in their homes and communities. Providing transportation services, in-home services, and other support services, this program insures that elders receive the services they need to remain independent.

Alzheimer's Disease Supportive Services Program,

FEDERAL AGENCY:

ADMINISTRATION FOR COMMUNITY LIVING (ACL), HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Sec 398 of the Public Health Service Act (P.L. 78-410; 42 U.S.C. 280c-3,

OBJECTIVES:

To expand the availability of diagnostic and support services for persons with Alzheimer's Disease and Related Dementias (ADRD), their families, and their caregivers, as well as to improve the responsiveness of the home and community-based care system to persons with dementia. ADSSPS grantees continue to implement two types of ADSSP projects, dementia capability and translation projects. Dementia capability grants require states to help ensure that people with dementia and their family caregivers have access to a home and community-based services system. Such a system identifies those with dementia, ensures that program staff have appropriate dementia care training, and assures delivery of quality home and community-based services. Evidence-based grants require states to demonstrate how existing evidence-based interventions designed to help people with ADRD and their family caregivers can be translated into effective supportive service programs at the community level.

ASSISTANCE LISTINGS DESCRIPTIONS

OBJECTIVES:

To reward effective performance by States and Tribes in the efficient delivery of nutritious meals to older adults through the use of cash or USDA Foods.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Funds are made available to State Units on Aging (SUA) and Indian Tribal Organizations (ITO) to purchase domestically produced foods or to access USDA Foods from the United States Department of Agriculture (USDA) Food and Nutrition Service (FNS). The funds or USDA Foods are to be used in the preparation of congregate and home-delivered meals by nutrition services programs. USDA Foods may not be sold, exchanged, or otherwise disposed of (authorized distribution excepted) without prior, specific approval of USDA. Each SUA and ITO shall promptly and equitably disburse funds received to recipients.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; State; State Units on Aging (SUA) and Indian Tribal Organizations (ITO) that receive funding through Titles III and VI of the OAA may receive grants of cash from the Administration for Community Living, and/or USDA Foods.

Beneficiary Eligibility:

Disabled (e.g. Deaf, Blind, Physically Disabled); Physically Afflicted (e.g. TB, Arthritis, Heart Disease); Mentally Disabled; Senior Citizen (60+); For Title III congregate meals, persons who are older adults (age 60 years and above) or a spouse of an older adult, regardless of age; disabled adults who live in housing facilities primarily occupied by older adults where a congregate site is located; disabled adults under age 60, who reside at home with older adults; and volunteers, regardless of age, who assist in meal service during meal hours. For Title III home-delivered meals, an older individual (age 60 years and above) must be assessed to be homebound. The spouse of a homebound individual regardless of age or condition may receive a meal if receipt of the meal is assessed to be in the best interest of the homebound older adult. For Title VI, all of these criteria apply. In addition, an ITO may select the age that defines who is an older adult.

Credentials/Documentation:

State Units on Aging (SUA) and Indian Tribal Organizations (ITO) must complete agreements with the Administration for Community Living. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

CRITERIA FOR SELECTING PROPOSALS:

Procedures for assessing the technical merit of grant applications have been instituted to provide an objective review of applications and to assist the applicant in understanding the standards against which each application will be judged. Critical indicators have been developed for each review criterion to assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by non-Federal expert consultant(s) for technical merit recommendations. Applications will be reviewed and evaluated against the following criteria: (1) Purpose and Need; (2) Response to Program Purpose; (3) Impact; (4) Organizational Information, Resources and Capabilities; and (5) Support Requested. See the most recent Notice of Funding Opportunity for detailed selection criteria.

93.060 Sexual Risk Avoidance Education

SRAE,

FEDERAL AGENCY:

ADMINISTRATION FOR CHILDREN AND FAMILIES, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

OBJECTIVES:

The purpose of this program is to promote sexual risk avoidance education as defined by section 1110 of the Social Security Act, for adolescents. The focus of the program is to teach participants how to voluntarily refrain from non-marital sexual activity, and teach the benefits associated with self-regulation, success sequencing for poverty prevention, healthy relationships, goal setting, resisting sexual coercion, dating violence, and other youth risk behaviors such as underage drinking or illicit drug use without normalizing teen sexual activity. Recipients use an evidenced based approach and/or evidence-informed strategies to educate youth

on how to avoid risks that could lead to non-marital sexual activity. SRAE projects are implemented using a Positive Youth Development (PYD) framework as part of risk avoidance strategies, to help participants build healthy life skills, develop individual protective factors that reduce risks, empower youth to make healthy decisions, and provide tools and resources to prevent pregnancy and sexually transmitted infections (STIs). Linking program participants to services provided by local community partners that support the safety and well-being of youth is also a key component to the program. The services are targeted to youth ages 10 to 19 and participants that reside in areas with high rates of teen births and/or are at greatest risk of contracting STIs. The programs goals are to empower participants to make healthy decisions, and provide tools and resources to prevent pregnancy, STIs, and youth engagement in other risky behaviors. Recipients must agree to use medically accurate information referenced to peer-reviewed publications by educational, scientific, governmental, or health organizations and implement an evidence-based approach integrating research findings with practical implementation that aligns with the needs and desired outcomes for the intended audience.

TYPES OF ASSISTANCE:

Project Grants, Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Funds are for awarding competitive grants which exclusively implement education in sexual risk avoidance (defined as voluntarily refraining from non-marital sexual activity) and for federal costs of administering the grant. Funds may be used to educate youth on how to voluntarily refrain from non-marital sexual activity and to avoid related risky behaviors. SRAE projects must address the following requirements: 1. Evidence-Based Strategies 2.Positive Youth Development Approach 3.Medically Accurate and Age Appropriate 4.Curriculum Fit and Selection 5. Referrals to Healthcare and Other Community Services (SRAE Programs should provide referrals for necessary services, as needs are identified, but may not pay for the services themselves with ACF funding) 6. Performance Measurement 7. National Evaluation. Funds may not be used to supplant or replace current public or private funding or to fund the ongoing or usual activities of any organization.

Applicant Eligibility:

Government - General; State; Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Small business (less than 500 employees); Profit organization; U.S. Territories and possessions; State (includes District of Columbia, public institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Other private institutions/organizations; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Grants made under the authority of section 1110 of the Social Security Act, 42 U.S.C. 1310 shall be made only to public and private entities that agree to use medically accurate information referenced to peer-reviewed publications by educational, scientific, governmental, or health organizations; implement an evidence-based approach integrating research findings with practical implementation that aligns with the needs and desired outcomes for the intended audience; and teach the benefits associated with self-regulation, success sequencing for poverty prevention, healthy relationships, goal setting, and resisting sexual coercion, dating violence, and other youth risk behaviors such as underage drinking or illicit drug use without normalizing teen sexual activity. Applicants eligible for SRAE funding are as follows: State, territorial, or county governments; City or township governments; Special district governments; Independent, regional, and local school districts; Public and state controlled institutions of higher education; Native American tribal governments (federally recognized); Public housing authorities/Indian housing authorities; Native American tribal organizations (other than federally recognized tribal governments); Non-profits having 501(c)(3) status with the IRS other than institutions of higher education; Non-profits without 501 (c)(3) status with the IRS other than institutions of higher education; Private institutions of higher education; For-profit organizations other than small businesses; Small businesses, Faith-based and community organizations that meet the eligibility requirements are eligible to receive awards. Applicants serving an emerging, unserved, or underserved population or remote geographic area are encouraged to apply for funding.

ASSISTANCE LISTINGS DESCRIPTIONS

Beneficiary Eligibility:

Youth (16-21); Minority group; Juvenile Delinquent; School; Moderate Income; Low Income; Individual/Family; Black; American Indian; Spanish Origin; Asian; Other Non-White; Child (6-15); Youth populations, ages 10-19 and those that are at risk for non-marital sexual activity and other risk behaviors, benefit from the assistance. Vulnerable populations of youth include, but are not limited to: youth living in under resourced regions and areas with high rates of teen births and STIs, including HIV; culturally underrepresented youth populations, especially Hispanic, African American, or Native American teenagers; youth in or aging out of foster care or adjudication systems; youth who are victims of trafficking; runaway and homeless youth; and other vulnerable youth populations.

Credentials/Documentation:

Nonprofit organizations must submit proof of nonprofit status. The Department of Health and Human Services (HHS) adopted the Office of Management and Budget (OMB) Guidance in 2 CFR part 200, and has codified the text, with HHS-specific amendments in 45 CFR Part 75. ACF recipients must follow the requirements in 45 CFR Part 75. For-profit organizations (including small businesses) applying for funding must submit the following to provide proof of their legal status:

Documentation establishing the power granted to the entity to enter into contractual relationships and/or accept awards (i.e. articles of incorporation, bylaws). Small businesses must submit a certification signed by the chief executive officer or designee that states that the entity qualifies as a small business under 13 CFR 121.101-121.201. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants may find NOFOs on <https://www.grants.gov> or on the ACF website at <https://ami.grantsolutions.gov/>. Applicants may apply on <https://grants.gov>. The Department of Health and Human Services (HHS) adopted the Office of Management and Budget (OMB) Guidance in 2 CFR part 200, and has codified the text, with HHS-specific amendments in 45 CFR Part 75. ACF recipients must follow the requirements in 45 CFR Part 75. Notice of Funding Opportunities (NOFO) for this listing will be posted on Grants.gov.

Award Procedure:

Each application will be screened to determine whether it meets any of the disqualifying factors: missing the application deadline, required electronic submission or waiver requested and approved, or exceeding the Award Ceiling. Disqualified applications are considered to be non-responsive and are excluded from the competitive review process. Applications competing for financial assistance will be reviewed and evaluated by objective review panels using only the criteria described in FOA. Each panel is composed of experts with knowledge and experience in the area under review. Generally, review panels include three reviewers and one chairperson. Results of the competitive objective review are taken into consideration by ACF in the selection of projects for funding; however, objective review scores and rankings are not binding. Scores and rankings are only one element used in the award decision-making process. ACF reserves the right to evaluate applications in the larger context of the overall portfolio by considering geographic distribution of federal funds (e.g. ensuring coverage of states, counties, or service areas) in its pre-award decisions. ACF will complete a review of risk posed by applicants as described in 45 CFR 75.205. ACF may elect not to fund applicants with management or financial problems that would indicate an inability to successfully complete the proposed project. Applications may be funded in whole or in part. Successful applicants may be funded at an amount lower than requested. Scores and recommendations are reviewed by the Deputy Associate Commissioner of the Family and Youth Services Bureau. Recommendations are made to the ACYF Commissioner, who makes the final funding decisions.

Deadlines:

See the Notice of Funding Opportunity for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days.

93.064 Laboratory Training, Evaluation, and Quality Assurance Programs

(Quality Assurance in Pathology and Laboratory Medicine),

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Executive Order 13272, Section 317(k)(2), Public Health Service Act, Section 317(k)(2), 42 USC Code 247b(k)(2).

OBJECTIVES:

To improve the quality of laboratory testing practices relevant to clinical and public health settings and to determine standardized approaches to quality assurance in pathology and laboratory medicine that can be applied in multiple, diverse settings (e.g. community hospitals, academic medical centers, and independent laboratories) that demonstrate measurable and sustainable improvements over time.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funding opportunities are made available to evaluate quality assurance methods for addressing the pre-analytic, analytic, and post-analytic components of laboratory testing in clinical and public health laboratory settings; and to provide technical assistance and training to public health laboratory scientists and leaders on laboratory standards and quality improvement models applicable to laboratory management services.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); U.S. Territories and possessions; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Applications may be submitted by public and private nonprofit organizations and by governments and their agencies, such as: Public nonprofit organizations, private nonprofit organizations, universities, colleges, research institutions, hospitals, community and faith based organizations, State and local governments or their Bona Fide Agents (this includes the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, the Commonwealth of the Northern Mariana

93.069 Public Health Emergency Preparedness

PUBLIC HEALTH EMERGENCY PREPAREDNESS (PHEP),

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Services Act, Section 317(a), Public Health Services Act, Section 317(d), Public Health Service Act, Section 319C-1, Public Law 112-10

OBJECTIVES:

The PHEP program is a critical source of funding, guidance, and technical assistance for state, territorial, and local public health departments. Preparedness activities funded by the PHEP program are targeted specifically for the development of emergency-ready public health departments that are flexible and adaptable. These efforts support the National Response Framework (NRF), which guides how the nation responds to all types of hazards including infectious disease outbreaks; natural disasters; biological, chemical, and radiological incidents; and explosions. To help public health departments with their strategic planning, CDC identified 15 public health preparedness capabilities to serve as national public health preparedness standards. State and local jurisdictions can use CDC's Public Health Preparedness Capabilities: National Standards for State and Local Planning to better organize their work and identify the capabilities they have the resources to build or sustain. These standards help ensure that federal preparedness funds are directed to priority areas within individual jurisdictions. The 2020 PHEP program is currently funded via a cooperative agreement award. PHEP program guidance assists the 62 PHEP awardees in demonstrating measurable and sustainable progress toward achieving the 15 public health preparedness capabilities and other activities that promote safer and more resilient communities.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The purpose of the Public Health Emergency Preparedness (PHEP) program is to assist state, local, and territorial/freely associated state health departments in demonstrating measurable and sustainable progress toward achieving the 15 public health preparedness capabilities and other activities that promote safer and more resilient communities.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and

hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; U.S. Territories and possessions; State health departments of all 50 States, the District of Columbia, the nation's three largest municipalities (New York City, Chicago and Los Angeles County), the Commonwealths of Puerto Rico and the Northern Mariana Islands, the territories of American Samoa, Guam and the U.S. Virgin Islands, the Federated States of Micronesia, and the Republics of Palau and the Marshall Islands.

Beneficiary Eligibility:

U.S. Territories; State; Local; All State, County, and Local Health Departments.

Credentials/Documentation:

Applicants should review the individual CDC Guidance documents issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. n/a

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. CDC provides an Internet-based system for submitting applications, including narrative and budget, electronically. This system will also enable applicants to complete most required forms electronically, which can then be signed and uploaded into the system. Applicants are required to use this system in lieu of paper-based applications. Under separate cover, CDC will provide detailed instructions on obtaining a digital certificate to access the CDC web portal <https://sdn.cdc.gov> and use the electronic application system. This program is subject to the provisions of 45 CFR Parts 74 and 92, as appropriate.

Award Procedure:

After review and approval of an application, a notice of award is made in writing and issued by the Grants Management Officer, Procurement and Grants Office, CDC. Also, appropriate notification is made to the public.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days.

Appeals:

Not Applicable.

Renewals:

Other. Project periods are for 5 years with 12-month budget periods. Applications must be submitted in the same manner as a new application.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 10%. Requirement: Matching requirements are mandatory. This program has a statutory formula. This program has MOE requirements, see funding agency for further details. Additional Information: Maintenance of Funding (MOF) PHEP awardees must maintain expenditures for healthcare preparedness and public health security at a level that is not less than the average level of such expenditures maintained by the awardee for the preceding two-year period. This represents an awardees historical level of contributions or expenditures (money spent) related to federal programmatic activities that have been made prior to the receipt of federal funds. The MOF is used as an indicator of nonfederal support for public health security and healthcare preparedness before the infusion of federal funds. These expenditures are calculated by the awardee without reference to any federal funding that also may have contributed to such programmatic activities in the past. The definition of eligible state expenditures for public health security and healthcare preparedness includes: Appropriations specifically designed to support healthcare or public health emergency preparedness as expended by the entity receiving the award; and Funds not specifically appropriated for healthcare or public health emergency preparedness

are awarded upon approval of a State Plan. The review process for grants/cooperative agreements consists of initially screening applications for completeness and relevancy to ACL priority areas. If the application is not relevant to ACL priority areas, it will be returned to the applicant. If accepted as submitted it will be reviewed and evaluated. The review will be conducted by a panel of not less than three experts. ACL Project officer or designee will coordinate the panels review, but will not vote. This individual or supervisor will also prepare the panels recommendation to the ACL Administrator. The panels recommendations will contain numerical ratings, rankings of applications, and a written assessment of each application. The recommendations will be based on published criteria as stated in the program announcement. The review process is also stated in the program announcement.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Health Professional; Education Professional; Student/Trainee; Scientist/Researchers; Public nonprofit institution/organization; Other public institution/organization; This Tobacco Control Regulatory Research Program will support research aimed at providing guidance and evidence to develop regulation for tobacco product manufacturing, distribution and marketing. The general public will ultimately benefit.

Credentials/Documentation:

This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. Preapplication coordination is generally not applicable, though applicants requesting direct costs of \$500,000 or more for any one year must contact the appropriate NIH Institute or Center no later than 6 weeks before the anticipated submission date.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Most applications must be prepared and submitted electronically. Most applicants use the SF 424 (Research & Related) for electronic submission. Information about the SF 424 form may be found on <http://grants.nih.gov/grants/funding/424/index.htm>, but application packages should be accessed through the appropriate funding opportunity announcement, found either on the NIH Guide to Grants and Contracts (<http://grants1.nih.gov/grants/guide/index.html>) or through the Grants.gov website (<http://www.grants.gov/>). Some institutions may submit the grant data directly (using what is called a system-to-system transfer). For further details, see grants.gov or eRA Commons. Application forms for SBIR and STTR grants may be obtained through the SBIR/STTR funding announcements posted on the NIH Guide to Grants and Contracts and the Grants.gov sites (see URLs listed above). All SBIR and STTR applications must be submitted electronically. The timeline for transition to electronic applications and the new forms may be found at: <http://era.nih.gov/ElectronicReceipt/>. For further assistance contact GrantsInfo, Telephone (301) 435-0714, Email: GrantsInfo@nih.gov. Consultation on a proposed project may be obtained from the Office of Disease Prevention in the Division of Program Coordination, Planning, and Strategic Initiatives at NIH. Applications are reviewed by principally nonfederal consultants recruited nationwide. The amounts of the award and period of support are determined on the basis of merit of the project and the nature of the grant mechanism. Electronic applications are submitted through the Grants.gov website.

Award Procedure:

All applications for research grants, cooperative agreements, training, and SBIR and STTR grants are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by the National Advisory Council of the NIH Institute or Center that will manage the award. All competitive applications compete for available funds on the basis of scientific and technical merit, program relevance, and program balance. FDA Center for Tobacco Control will make final decisions on the relevance and program balance.

93.079 Cooperative Agreements to Promote Adolescent Health through School-Based HIV/STD Prevention and School-Based Surveillance

ASSISTANCE LISTINGS DESCRIPTIONS

NA.

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Title III, Part B, Section 317(b)(k)(2), 42 USC Code 247(b)(k)(2).

OBJECTIVES:

Funding is to improve the health and well-being of our nations youth by working with education and health agencies, and other organizations to reduce HIV, STD, teen pregnancy, and related risk behaviors among middle and high school students. Notice of Funding Opportunity PS18-1807 offers an approach that includes three overall components: 1) school-based surveillance; 2) school-based HIV/STD prevention; and 3) technical assistance and capacity building.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funding will build the capacity of districts and schools to contribute to reducing HIV infection, other STD, and related risk behaviors among adolescents, as well as reducing disparities in HIV infection and other STD among specific adolescent sub-populations. Recipients will improve the health of middle school and high school students by:* collecting and using quality surveillance data;* strengthening HIV/STD instruction and delivery;* strengthening access to/use of key health services; and* establishing / maintaining safe and supportive environments.

Applicant Eligibility:

93.082 Sodium Reduction in Communities

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

This program is authorized under Section 317(k)(2) of the Public Health Services Act (PHS Act), 42 U.S.C. 247b(k)(2) as amended.,

OBJECTIVES:

The purpose of this program is to reduce Americans sodium intake to limits recommended by the Dietary Guidelines. Because the majority of sodium that people consume is already present in foods before purchase or preparation, reducing sodium intake may require increased availability and accessibility of lower sodium items. Efforts to reduce sodium in the food supply are occurring at a national level; however movement is also needed at the community level to affect change. Because community-wide efforts to reduce sodium intake are relatively new, more practice-based evidence would support identification and refinement of effective strategies. Therefore, this program will aim to implement and evaluate population-based strategies to increase access to lower sodium food in communities, and decrease sodium intake.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Project funds may be used for costs associated with planning, organizing, conducting, and supporting sodium reduction strategies at the community and/or state level. Applicants must adhere to all CDC guidelines regarding allowable and unallowable expenses. CDC will have substantial involvement with the award recipient during performance of the funded activity.

Applicant Eligibility:

93.086 Healthy Marriage Promotion and

Responsible Fatherhood Grants

(HMRF).

FEDERAL AGENCY:

ADMINISTRATION FOR CHILDREN AND FAMILIES, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Social Security Act, Title IV, Part A, Section 403(a)(2); 42 USC 603(a)(2), The Claims Resolution Act of 2010 (CRA), , Public Law 111-291

OBJECTIVES:

The funds awarded under the HMRF appropriation (which includes funds for Tribal TANF-Child Welfare (TTCW)) have three objectives: (1) To fund Healthy Marriage (HM) Promotion projects that provide a broad array of healthy marriage promotion activities and services designed to integrate skills-based healthy marriage education, along with additional services to address relationship skills and job and career advancement opportunities, for adults (age 18 and older); as well as projects that provide a broad array of healthy marriage promotion services designed to support healthy relationships and marriage, including the value of marriage in future family formation and skills-based healthy relationship and marriage education to youth in high school (grades 9-12), high-school-aged youth (ages 14-17), and/or youth in late adolescence to early adulthood (ages 18-24); (2) To fund Responsible Fatherhood (RF) promotion projects designed to provide a broad array of services to promote or sustain healthy marriage and relationships (including couple and co-parenting), strengthen positive father-child engagement, and improve employment and economic stability opportunities for adult fathers (ages 18 and older); and (3) To fund demonstration projects designed to test the effectiveness of tribal governments or tribal consortia in coordinating the provision to tribal families at risk of child abuse or neglect of child welfare services and services under tribal programs.

TYPES OF ASSISTANCE:

Dissemination of Technical Information, Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Healthy Marriage Promotion activities include the following: (I) Public advertising campaigns on the value of marriage and the skills needed to increase marital stability and health. (II) Education in high schools on the value of marriage, relationship skills, and budgeting. (III) Marriage education, marriage skills, and relationship skills programs, that may include parenting skills, financial management, conflict resolution, and job and career advancement. (IV) Pre-marital education and marriage skills training for engaged couples and for couples or individuals interested in marriage. (V) Marriage enhancement and marriage skills training programs for married couples. (VI) Divorce reduction programs that teach relationship skills. (VII) Marriage mentoring programs which use married couples as role models and mentors in at-risk communities. (VIII) Programs to reduce the disincentives to marriage in means-tested aid programs, if offered in conjunction with any activity described in this subparagraph. Responsible Fatherhood activities include: (I) Activities to promote marriage or sustain marriage through activities such as counseling, mentoring, disseminating information about the benefits of marriage and 2-parent involvement for children, enhancing relationship skills, education regarding how to control aggressive behavior, disseminating information on the causes of domestic violence and child abuse, marriage preparation programs, premarital counseling, marital inventories, skills-based marriage education, financial planning seminars, including improving a family's ability to effectively manage family business affairs by means such as education, counseling, or mentoring on matters related to family finances, including household management, budgeting, banking, and handling of financial transactions and home maintenance, and divorce education and reduction programs, including mediation and counseling. (II) Activities to promote responsible parenting through activities such as counseling, mentoring, and mediation, disseminating information about good parenting practices, skills-based parenting education, encouraging child support payments, and other methods. (III) Activities to foster economic stability by helping fathers improve their economic status by providing activities such as work first services, job search, job training, subsidized employment, job retention, job enhancement, and encouraging education, including career-advancing education, dissemination of employment materials, coordination with existing employment services such as welfare-to-work programs, referrals to local employment training initiatives, and other methods. For Tribal TANF Child

ASSISTANCE LISTINGS DESCRIPTIONS

Welfare, recipients may use funds to (I) to improve case management for families eligible for assistance from such a tribal program; (II) to provide supportive services and assistance to tribal children in out-of-home placements and the tribal families caring for such children, including families who adopt such children; and (III) to provide prevention services and assistance to tribal families at risk of child abuse and neglect. For Healthy Marriage Promotion and Responsible Fatherhood Grants, the Secretary may not award funds on a noncompetitive basis, and may not provide any such funds to an entity for the purpose of carrying out healthy marriage promotion activities or for the purpose of carrying out activities promoting responsible fatherhood unless the entity has submitted to the Secretary an application which describes how the programs or activities proposed in the application will address, as appropriate, issues of domestic violence; and what the applicant will do, to the extent relevant, to ensure that participation in the programs or activities is voluntary, and to inform potential participants that their participation is voluntary; and contains a commitment by the entity to not use the funds for any other purpose; and to consult with experts in domestic violence or relevant community domestic violence coalitions in developing the programs and activities. All appropriations are considered discretionary within this funding stream.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Other private institutions/organizations; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Under the Healthy Marriage Promotion provision of the authorizing legislation, all public and private entities are eligible to apply (including, but not limited to, state, territorial, local, and quasi-governmental agencies, Native American tribal governments and tribal organizations, nonprofit organizations, independent school districts, public, private or Tribal institutions of higher education, and for-profit entities). Eligible applicants under Responsible Fatherhood provision of the authorizing legislation include: states, territories, Native American tribes and tribal organizations (including state, territorial, and tribal post-secondary educational institutions), and public and nonprofit community entities (including religious organizations and public and private nonprofit post-secondary educational institutions). The Responsible Fatherhood provision of the authorizing legislation, however, does not permit for-profit entities to be eligible to receive funds (including, but not limited to, for-profit businesses, corporations, agencies or organizations, or for-profit institutions of higher education, trade, or technical schools). Faith-based and community organizations that meet the eligibility requirements are eligible to receive awards under both the Healthy Marriage and Responsible Fatherhood promotion provisions of the authorizing legislation. The eligible applicants under the Tribal TANF and Child Welfare Services program are: Indian tribes and Alaska Native regional non-profits that administer a Tribal TANF program or a consortia of two or more Indian tribes that administers a Tribal TANF program. For all programs under this listing: Applications from individuals (including sole proprietorship) and foreign entities are not eligible.

Beneficiary Eligibility:

Individual/Family; Specialized group (e.g. health professionals, students, veterans); U.S. Citizen; Refugee/Alien; Local; Low Income; Public nonprofit institution/organization; Persons who may benefit from the assistance includes, individuals, couples, and youth in need of assistance with Healthy Marriage services. For the Responsible Fatherhood programs, beneficiaries are fathers (with children who are up to age 24) interested in Responsible Fatherhood activities, including parenting education, economic stability services, and marriage and relationship education (grantees may not discriminate on the basis of race, gender, age, disability, or religion). Tribal TANF Child Welfare funds assist in the efforts to enhance and expand the ability of States, Native American governments, local governments, for-profit organizations, non-profit community organizations and other public entities to provide family formation and responsible fatherhood services to those in need.

Credentials/Documentation:

Any nonprofit agency was required to provide proof of its nonprofit status. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. No applications are currently being accepted. Applicants may find Notices of Funding Opportunities (NOFOs) on <https://grants.gov> or on the ACF website at <https://ami.grantsolutions.gov/>. Applicants may apply on <https://grants.gov>.

Award Procedure:

The previous competitive award for all three programs under this listing was conducted in September 2020 for a 5-year project period. We do not anticipate the award of new grants until 2025, assuming congressional appropriation. The award procedure for the most recent cohort was: Each application will be screened to determine whether it meets any of the disqualifying factors: missing the application deadline, required electronic submission or waiver requested and approved, or exceeding the Award Ceiling. Disqualified applications are considered to be non-responsive and are excluded from the competitive review process. Applications competing for financial assistance will be reviewed and evaluated by objective review panels using only the criteria described in NOFO. Each panel is composed of experts with knowledge and experience in the area under review. Generally, review panels include three reviewers and one chairperson. Results of the competitive objective review are taken into consideration by ACF in the selection of projects for funding; however, objective review scores and rankings are not binding. Scores and rankings are only one element used in the award decision-making process. ACF reserves the right to evaluate applications in the larger context of the overall portfolio by considering geographic distribution of federal funds (e.g. ensuring coverage of states, counties, or service areas) in its pre-award decisions. ACF will complete a review of risk posed by applicants as described in 45 CFR 75.205. ACF may elect not to fund applicants with management or financial problems that would indicate an inability to successfully complete the proposed project. Applications may be funded in whole or in part. Successful applicants may be funded at an amount lower than requested.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

From 60 to 90 days. All grants were approved/disapproved by September 2020. Non-Competitive Continuations awards will be approved/disapproved by September 2021.

Appeals:

Not Applicable. There is no appeal process for unsuccessful applicants. For existing recipients, appeals in regards to disputes may take place in accordance with 45 CFR Part 16, subject to the limitations of the Appendix A.

Renewals:

>180 Days. Non-competing continuations will be issued based on availability of funds, satisfactory progress, compliance with grant terms and conditions and a determination that continuation funding is in the best interest of the federal government.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

If an applicant can demonstrate that their organization meets either of these descriptions, then that organization can be an eligible applicant and may operate as a lead agency. Additional Partner Information. While the relevant court and court offices are mandatory partners only when the partnership is proposing to serve children in out-of-home placement, CB strongly encourages the participation of courts, judicial offices, judges, court personnel, and juvenile justice officials in Regional Partnerships. If the Regional Partnership is located in a state-supervised, county-administered state, the county child welfare agency satisfies the administration of the state plan requirement. In such a Regional Partnership, the state agency that is ultimately responsible for state plan compliance under title IV-B and title IV-E is not required to be a partner in the Regional Partnership but also is not precluded from participating as a member of the Regional Partnership. In a state-administered system, a local office of the state child welfare agency can participate in the Regional Partnership and satisfy this statutory requirement. As required by the legislation, if an Indian tribe or tribal consortium is the lead applicant for a Regional Partnership, the Indian tribe may (but is not required to) include the state child welfare agency as a partner in the collaborative agreement. If the Regional Partnership is an Indian tribe or tribal consortia, they may not enter into a collaborative agreement only with tribal child welfare agencies (or a consortium of such agencies). The Indian tribe or tribal consortium applicant should enter into a collaborative agreement with at least two of the parties listed above. If the partnership proposes to serve children in out-of-home placements, the partnership may include tribal court organizations in lieu of other judicial partners. Applications from individuals (including sole proprietorships) and foreign entities are not eligible. Faith-based and community organizations that meet the eligibility requirements are eligible to receive awards.

Beneficiary Eligibility:

Individual/Family; Specialized group (e.g. health professionals, students, veterans); Drug Addict; Infant (0-5); Child (6-15); Youth (16-21); Agencies or organizations serving children and families who have experienced or are at risk of experiencing an out of home placement as a result of a parent's or caregiver's opioid or other substance abuse.

Credentials/Documentation:

Nonprofit organizations must provide proof of nonprofit status. Title 45 CFR Part 75 applies to this program. The Department of Health and Human Services (HHS) adopted the Office of Management and Budget (OMB) Guidance in 2 CFR Part 200, and has codified the text, with HHS-specific amendments in 45 CFR Part 75. ACF recipients must follow the requirements in 45 CFR Part 75. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants may find NOFOs on <https://grants.gov> or on the ACF website at <https://ami.grantsolutions.gov/>. Applicants may apply on <https://grants.gov>. The Department of Health and Human Services (HHS) adopted the Office of Management and Budget (OMB) Guidance in 2 CFR part 200, and has codified the text, with HHS-specific amendments in 45 CFR Part 75. ACF recipients must follow the requirements in 45 CFR Part 75. Notice of Funding Opportunities (NOFO) for this listing will be posted on [Grants.gov](https://grants.gov).

Award Procedure:

Each application will be screened to determine whether it meets any of the disqualifying factors: missing the application deadline, required electronic submission or waiver requested and approved, or exceeding the Award Ceiling. Disqualified applications are considered to be non-responsive and are excluded from the competitive review process. Applications competing for financial assistance will be reviewed and evaluated by objective review panels using only the criteria described in NOFO. Each panel is composed of experts with knowledge

and experience in the area under review. Generally, review panels include three reviewers and one chairperson. Results of the competitive objective review are taken into consideration by ACF in the selection of projects for funding; however, objective review scores and rankings are not binding. Scores and rankings are only one element used in the award decision-making process. ACF reserves the right to evaluate applications in the larger context of the overall portfolio by considering geographic distribution of federal funds (e.g. ensuring coverage of states, counties, or service areas) in its pre-award decisions. ACF will complete a review of risk posed by applicants as described in 45 CFR 75.205. ACF may elect not to fund applicants with management or financial problems that would indicate an inability to successfully complete the proposed project. Applications may be funded in whole or in part. Successful applicants may be funded at an amount lower than requested.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Three to six months.

Appeals:

Other. There is no appeal process for unsuccessful applicants. For existing recipients, appeals may take place in accordance with 45 CFR Part 16, subject to the limitations of the Appendix A.

Renewals:

Other. Non-competing continuations will be issued based on availability of funds, satisfactory progress, compliance with grant terms and conditions and a determination that continuation funding is in the best interest of the federal government.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are mandatory. The required match must increase over the course of the grant period, such that recipients must contribute 15 percent of the costs of grant-funded services and activities in year 1 and year 2; 20 percent of such costs in year 3 and year 4; and 25 percent of such costs in year 5. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Grants are available for a 36-month or 60-month project period. Renewal funding for multiple-year grants is dependent upon recipient performance and availability of funds. Method of awarding/releasing assistance: other

Reports:

Recipients must select and track performance indicators that measure the extent to which grant-funded activities and services enhance the safety, permanency, and well-being of children and their families. Performance progress reports are required using the SF-PPR ACF Performance Progress Report. The frequency of reporting will be listed in the NOFO and in the award terms and conditions. For more information, see: <https://www.acf.hhs.gov/grants/post-award-requirements> Expenditure reports are required using the SF-425 Federal Financial Report. The frequency of reporting will be listed in the NOFO and in the award terms and conditions. For more information, see: <https://www.acf.hhs.gov/grants/post-award-requirements> Recipients must select, track and semi-annually report on performance indicators that measure the extent to which grant-funded activities and services enhance the safety, permanency, and well-being of children and their families. In addition, recipients are required to have a local evaluation that is of sufficient rigor to assess impacts on service delivery and outcomes, as well as participate in the national cross-site evaluation. Tangible Personal Property Reports: If requesting funds to purchase equipment, the recipient must request prior approval. When the equipment is no longer needed, the SF-428 Tangible Personal Property Cover Page with the SF-428 Attachment C must be submitted to the Office of Grants Management. Please see the ACF Property, Tangible Personal Property Reporting instructions at https://www.acf.hhs.gov/tangible-personal-property#book_content_1 and the ACF Property, Tangible Personal Property Disposition instructions at https://www.acf.hhs.gov/tangible-personal-property#book_content_2.

93.090 Guardianship Assistance

FEDERAL AGENCY:

ADMINISTRATION FOR CHILDREN AND FAMILIES, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Social Security Act, Title IV, Part E, Section 473

OBJECTIVES:

The objective of the Guardianship Assistance Program (GAP) is to provide Federal financial participation (FFP) to states, Indian tribes, tribal organizations and tribal consortia (tribes) who opt to provide guardianship assistance payments to relatives who have assumed legal guardianship of eligible children that they previously cared for as foster parents. This assistance is intended to prevent inappropriately

ASSISTANCE LISTINGS DESCRIPTIONS

long stays in foster care and to promote the healthy development of children through increased safety, permanency, and well-being.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Federal assistance may be used only in support of the care of children who meet the eligibility requirements and their siblings under certain situations as specified in the statute. All relatives assuming guardianship of such children are eligible for the nonrecurring expenses associated with obtaining legal guardianship up to \$2,000. A state or tribe may receive FFP only if its Title IV-E plan has been approved by the Secretary.

Applicant Eligibility:

State; Federally Recognized Indian Tribal Governments; Funds are available to states (including the District of Columbia, Puerto Rico, the U.S. Virgin Islands, Guam and American Samoa) and to tribes with approved Title IV-E plans.

Beneficiary Eligibility:

Individual/Family; Infant (0-5); Child (6-15); Youth (16-21); Beneficiaries are children who meet the following requirements: (1) the child has been eligible for Title IV-E foster care maintenance payments while residing for at least six consecutive months in the home of the prospective relative guardian; (2) the state or tribe has determined that the permanency options of being returned home or adoption are not appropriate for the child; (3) the child demonstrates a strong attachment to the prospective relative guardian and the prospective guardian is committed to caring permanently for the child; and (4) for children who have attained the age of 14, the child has been consulted regarding the kinship guardianship arrangement. Beneficiaries may also be siblings of eligible children placed in the same kinship guardianship arrangement. FFP is available to states and tribes for payments made to a relative guardian in accordance with a kinship guardianship agreement that is in writing, negotiated, and binding. The program was amended (through Public Law 113-183) effective September 29, 2014 to allow continuation of Title IV-E kinship guardianship assistance payments if the relative guardian dies or is incapacitated and a successor legal guardian is named in the agreement (or in any amendments to the agreement.)

Credentials/Documentation:

No credentials or documentation required. Federal Financial Participation is available to a state or tribe operating under an approved title IV-E plan. The Department of Health and Human Services (HHS) adopted the Office of Management and Budget (OMB) Guidance in 2 CFR part 200, and has codified the text, with HHS-specific amendments in 45 CFR Part 75. ACF recipients must follow the requirements in 45 CFR Part 75. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The Department of Health and Human Services (HHS) adopted the Office of Management and Budget (OMB) Guidance in 2 CFR part 200, and has codified the text, with HHS-specific amendments in 45 CFR Part 75. ACF recipients must follow the requirements in 45 CFR Part 75. Consultation is available to states and tribes from ACF Regional Offices. Applications are made in the form of a Title IV-E Plan, prepared in the format provided by the ACF Children's Bureau. An SF-424 and the Title IV-E plans and amendments must be submitted through the Online Data Collection (OLDC) system.

Award Procedure:

Quarterly awards are made on the basis of estimated expenditures, which are later revised to include only actual allowable claimed expenditures. Quarterly estimates are due on July 30, October 30, January 30 and April 30 each year. Final decisions and awards are made by the headquarters office. Post award, the Division of Payment Management will establish an account from which a recipient may draw down award funds.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. The Administration for Children and Families (ACF) will approve/disapprove applications (Title IV-E plans or amendments to them) within 45 days of receipt by ACF.

Appeals:

Other. Appeals may take place in accordance with 45 CFR Part 16, subject to the limitations of the Appendix A.

Renewals:

Not Applicable. Awards remain effective without plan renewal but Title IV-E plans may be amended as necessary.

Formula and Matching Requirements:

Statutory Formula: Title IV, Chapter Section 471(a)(28), Part E, Subpart N/A, Public Law 110-351. Matching Requirements: Percent: 0%. Requirement: Matching requirements are mandatory. The non-Federal share of program costs (difference between total cost and FFP) in each funding category constitutes the required match to be met by the Title IV-E agency. Matching funds from state agencies must be appropriated monies raised from non-Federal revenue sources. Matching funds from tribal agencies must also be appropriated monies, but may, at the option of the tribe, include Federal funds specifically authorized by Federal statutes to be used as match for other Federal programs. Additionally, in accordance with 45 CFR 1356.68, for administration and training cost only, tribal matching funds may include in-kind expenditures (or contributions) from allowable third-party sources. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

The Title IV-E agency may implement and claim allowable guardianship assistance program costs beginning on the first day of the quarter in which an approvable title IV-E plan amendment is submitted to the Administration for Children and Families (ACF) to implement the GAP. Method of awarding/releasing assistance: quarterly

Reports:

Title IV-E agencies must report semi-annually on the children assisted, as required by the Secretary. A report of estimated expenditures, actual expenditures, and number of children assisted (Form CB-496) is required 30 days after the end of each quarter. Other reports may be necessary as required by the Secretary. Tangible Personal Property: If requesting funds to purchase equipment, the recipient must request prior approval. When the equipment is no longer needed, the SF-428 Tangible Personal Property Cover Page with the SF-428 Attachment C must be submitted to the Office of Grants Management. Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. The Department of Health and Human Services (HHS) adopted the Office of Management and Budget (OMB) Guidance in 2 CFR part 200, and has codified the text, with HHS-specific amendments in 45 CFR Part 75. ACF recipients must follow the requirements in 45 CFR Part 75. 45 CFR Part 75 Subpart F applies to this program.

Records:

States and tribes must maintain all financial and programmatic records necessary for the proper and efficient operation of the program, including records of applications, determinations of eligibility, utilization of awarded grants and other funds for the provision of financial assistance and allocated indirect and direct administrative and training costs. Retention requirements for records are covered of 45 CFR 75.361-365.

AUTHORIZATION:

PREP is authorized and funded by Section 513 of the Social Security Act, Public Law 115-123, (42 U.S.C. 713), as amended by Section 50503 of the Bipartisan Budget Act of 2018 (Pub. L. No. 115-123) extended by Division CC, Title III, Section 302 of the Consolidated Appropriations Act, 2021 (Pub. L. No. 116-260), Title Social Security Act, Section 513, Public Law 115-123, 42 USC Code 713.

OBJECTIVES:

The purpose of this program is to support projects that educate youth between 10 and 19 years of age and pregnant and parenting youth under age 21 on abstinence and contraception for the prevention of pregnancy and sexually transmitted infections (STIs), including human immunodeficiency virus (HIV)/acquired immunodeficiency syndrome (AIDS). Funds will support the implementation of projects that replicate evidence-based, effective programs, or substantially incorporate elements of effective programs that have been proven on the basis of rigorous scientific research to change behavior, which means delaying sexual activity, increasing condom or contraceptive use for sexually active youth, or reducing pregnancy among youth. Projects are further required to incorporate at least three of six adulthood of six adult preparation subjects, to include healthy life skills, adolescent development, parent-child communication, financial literacy,

educational and career success, and healthy relationships. The overall goal of the Competitive PREP program is to educate adolescents on both abstinence and contraception for the prevention of pregnancy and STIs, including HIV/AIDS. The following are objectives of the Competitive PREP program: 1. Replicate evidence-based effective programs or incorporate elements of effective programs that are proven to change behaviors, including delaying sexual activity, increasing condom and contraceptive use for sexually active youth, or reducing pregnancy among youth; 2. Implement curricula that includes medically accurate information (referenced in peer-reviewed publications by educational, scientific, governmental, or health organizations) and is age-appropriate, culturally appropriate, and inclusive; 3. Promote successful and healthy transition to adulthood through the implementation of at least three of six adulthood preparation subjects; and 4. Target prevention education to youth between the ages of 10 and 19, or pregnant and parenting youth under 21 years of age, who are at high-risk for becoming pregnant or who have special circumstances.

TYPES OF ASSISTANCE:

Formula Grants, Project Grants, Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

The purpose of this program is to carry out personal responsibility education programs designed to educate adolescents on both abstinence and contraception for the prevention of pregnancy and sexually transmitted infections, including HIV/AIDS.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Non-Government - General; Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Other private institutions/organizations; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); This program has a total annual appropriation of \$75,000,000 from which funds in the amount of \$55,250,000 are allocated annually to fund 59 states and territories to enable them to carry out Personal Responsibility Education Programs (PREP). Eligible applicants include the 50 United States, the District of Columbia, Puerto Rico, Virgin Islands, Guam, American Samoa, Northern Mariana Islands, Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau. States or territories that did not apply for funding in FY 2010 or 2011, are no longer eligible to apply for this program for the five year project period and their allotments are made available as Competitive PREP grants to community-based organizations for the same State or territory. Competitive PREP eligible applicants are organizations or entities, including faith-based organizations or consortia, located in the following states or territories only: Florida, Indiana, Kansas, North Dakota, Texas, Virginia, American Samoa, and Marshall Islands. Funds (\$10,000,000) were reserved to award PREP Innovative Strategies (PREIS) grants to entities to implement innovative youth pregnancy prevention strategies and target services to high-risk, vulnerable, and culturally under-represented youth populations. Funds (\$3,250,000) were reserved for Tribal PREP grants to Indian tribes and tribal organizations. Funds (\$6,500,000) were reserved for program support that may be provided directly or through a competitive award process. Program support includes research, training and technical assistance, providing consultation and resources on a broad array of teen pregnancy prevention strategies, and developing materials to support grant activities. Funds shall also be reserved to evaluate PREP programs and activities.

Beneficiary Eligibility:

Individual/Family; Child (6-15); Youth (16-21); Education (0-8); Education (9-12); PREP will provide services to adolescents and young adults. Applicants are encouraged to serve youth populations that are the most high-risk or vulnerable for pregnancies or otherwise have special circumstances, including youth in and aging of out foster care, homeless youth, youth with HIV/AIDS, victims of human trafficking, pregnant youth who are under 21 years of age, mothers who are under 21 years of age, and youth residing in areas with high birth rates for youth. Applicants must include the most recent pregnancy data for the State for youth

ages 10 to 14 and youth ages 15-19, the most recent birth rates among the same age groups, and trends in those rates for the most recently preceding 5-year period for which data are available.

Credentials/Documentation:

A signed letter from the authorized representative must accompany each application; it should include documentation establishing the authorized representatives authority to apply for and administer the PREP grant program funds on behalf of the State or Territory. For other funding available under this CFDA number, non-profit organizations applying for funding are required to submit proof of their non-profit status. The Department of Health and Human Services (HHS) adopted the Office of Management and Budget (OMB) Guidance in 2 CFR part 200, and has codified the text, with HHS-specific amendments in 45 CFR Part 75. ACF recipients must follow the requirements in 45 CFR Part 75. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The Department of Health and Human Services (HHS) adopted the Office of Management and Budget (OMB) Guidance in 2 CFR part 200, and has codified the text, with HHS-specific amendments in 45 CFR Part 75. ACF recipients must follow the requirements in 45 CFR Part 75. The PREP program includes formula and competitive grant awards to a range of entities for which Notices of Funding Opportunities are published. Applicants for competitive programs may find the Notice of Funding Opportunity (NOFO) on <https://www.grants.gov> or on the ACF website at <https://ami.grantsolutions.gov/>, and may apply on <https://grants.gov>. State PREP, a formula grant program, recipients submitted an application in FY2010 or FY2011. Applications, to include state plans, were rated Approved or Approved with Conditions by Program Administrators. States that received an Approved rating were awarded grants without a requirement to submit additional information. States submitting state plans that were Approved with Conditions" received grant awards with a request to submit documentation to address areas of weakness as noted in the review process. States and territories awarded FY2010 or FY2011 funds submitted a letter of intent in order to receive their FY2021 award.

Award Procedure:

Each State or Territory shall be allotted at least \$250,000 or an amount determined by a formula, using the number of individuals who have attained age 10, but not attained age 19 in the State or Territory to the total number of such individuals in the entire U.S. based on the most recent Census data, whichever is greater. For competitive funds allotted to states and territories (States), the Administration for Children and Families (ACF) advises states and territories of available funds through a NOFO. States and territories submitted a letter of intent in order to receive awards in FY2020 and FY2021. There are 51 State PREP grantees. In FY2022, it is anticipated that states and territories will submit a letter of intent to receive awards. For discretionary awards, each application will be screened to determine whether it meets any of the disqualifying factors: missing the application deadline, required electronic submission or waiver requested and approved, or exceeding the Award Ceiling. Disqualified applications are considered to be non-responsive and are excluded from the competitive review process. Applications competing for financial assistance will be reviewed and evaluated by objective review panels using only the criteria described in the NOFO. Each panel is composed of experts with knowledge and experience in the area under review. Generally, review panels include three reviewers and one chairperson. Results of the competitive objective review are taken into consideration by ACF in the selection of projects for funding; however, objective review scores and rankings are not binding. Scores and rankings are only one element used in the award decision-making process. ACF reserves the right to evaluate applications in the larger context of the overall portfolio by considering geographic distribution of federal funds (e.g. ensuring coverage of states, counties, or service areas) in its pre-award decisions. ACF will complete a review of risk posed by applicants as described in 45 CFR 75.205. ACF may elect not to fund applicants with management or financial problems that would indicate an inability to successfully complete the proposed project. Applications may be funded in whole or in part.

Successful applicants may be funded at an amount lower than requested.

Deadlines:

See the Notice of Funding Opportunity for deadline information.

Range of Approval/Disapproval Time:

From 60 to 90 days. Consult the NOFO or contact the headquarters office, as appropriate, for application deadlines.

Appeals:

Not Applicable. There is no appeal process for unsuccessful applicants. For existing recipients, appeals may take place in accordance with 45 CFR Part 16, subject to the limitations of the Appendix A.

Renewals:

>180 Days. A competitively funded PREP awardee may request non-competing continuation awards in subsequent budget periods of the designated project period. For the State PREP formula grants, after the initial award, states can submit a letter of intent to receive subsequent annual awards throughout the five-year grant cycle. Non-competing continuations will be issued based on availability of funds, satisfactory progress, compliance with grant terms and conditions and a determination that continuation funding is in the best interest of the federal government.

Formula and Matching Requirements:

Statutory Formula: Title , Chapter , Part , Subpart ,Public Law .Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Funds allotted to states and territories for a fiscal year shall remain available for expenditure by the State through the end of the second succeeding fiscal year. If a State or territory did not submit an application for FY2016 or FY2017, they are no longer be eligible to submit an application to receive funds during the current five-year project period. State PREP grantees awarded in FY2016 and FY2017 submitted a letter of intent to receive funds in FY2018 through FY2020. The Competitive PREP grant funding is available over a 36-month project period from the date of award. Annual funding for this program is to be expended within 12 months of award. The PREIS grantees were awarded funding through cooperative agreements over a five-year project period. The annual funding is to be expended at the end of the project period. A FY2021 funding opportunity for a second cohort of PREIS grants with a five-year project period was published and it is estimated that 12 grants will be awarded. Tribal PREP grants are discretionary awards with a five-year project period. Annual awards are to be expended at the end of the project period. An FY2021 funding opportunity for a second cohort of Tribal PREP grants with a five year project period was published and it is anticipated that 8 programs will be awarded. Post award, the Division of Payment Management will establish an account from which a recipient may draw down award funds, based on need and project progress. Reports:

There is a requirement for performance measurement data collection and performance progress reporting (e.g., monitoring requirements) for the State PREP, PREIS, Tribal PREP and Competitive PREP grantees. Grantees must submit all required reports in a timely manner. The grantees shall submit an annual Financial Status Report (FSR). An FSR is due no later than 90 days after the end of the applicable 12 month period and failure to submit these in a timely manner could affect future funding. The report is an accounting of expenditures for each budget year of the project. Performance progress reports for discretionary programs are required using the SF-PPR ACF Performance Progress Report. The frequency of reporting is semi-annual. For more information, see:

<https://www.acf.hhs.gov/grants/post-award-requirements> Expenditure reports are required using the SF-425 Federal Financial Report. The frequency of reporting is quarterly. For more information, see: <https://www.acf.hhs.gov/grants/post-award-requirements>. Tangible Personal Property - If requesting funds to purchase equipment, the recipient must request prior approval. Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. The Department of Health and Human Services (HHS) adopted the Office of Management and Budget (OMB) Guidance in 2 CFR part 200, and has codified the text, with HHS-specific amendments in 45 CFR Part 75. ACF recipients must follow the requirements in 45 CFR Part 75. Audits are conducted in accordance with the requirements of 45 CFR Part 75 Subpart F. 45 CFR Part 75 Subpart F applies to this program.

Range and Average of Financial Assistance:

In FY2021, the anticipated range for State PREP awards to 51 states and territories is \$250,000 or an amount determined by a formula, using the number of individuals who have attained age 10 but not attained age 19 in the State or Territory to the total number of such individuals in the entire U.S. based on the most recent Census data, whichever is greater. The anticipated range for awards to 12 PREP Innovative Strategies grantees is \$600,000 to \$900,000, with an average award amount anticipated to be \$750,000. The anticipated range for awards to 8 Tribal PREP grantees is \$350,000 to \$600,000, with an average award amount of \$400,000. The range for awards to 30 anticipated Competitive PREP grantees is \$250,000 to \$700,000, with an average anticipated award amount of \$475,000. Each State or Territory shall be allotted at least \$250,000 or an amount determined by a formula, using the number of individuals who have attained age 10 but not attained age 19 in the State or Territory to the total number of such individuals in the entire U.S. based on the most recent Census data, whichever is greater. Applicants for which Census data are not available will be eligible for the minimum allocation of \$250,000. The FY2020 range for State PREP awards to 51 states and territories was \$250,000 or an amount determined by a formula, using the number of individuals who have attained age 10 but not attained age 19 in the State or Territory to the total number of such individuals in the entire U.S. based on the most recent Census data, whichever is greater. The range for the awards to 12 PREP Innovative Strategies grantees was \$483,609 to \$860,338. The range for the awards to 8 Tribal PREP grantees was \$314,681 to \$594,259. The range for awards to the 21 Competitive PREP grantees was \$250,000 to \$791,193.

EXAMPLES OF FUNDED PROJECTS:

Not Applicable.

CRITERIA FOR SELECTING PROPOSALS:

Funded State programs must replicate evidence-based, effective programs or strategies that substantially incorporate elements of effective programs that have been proven on the basis of rigorous scientific research to change behavior, which means delaying sexual activity, increasing condom or contraceptive use for sexually active youth, or reducing pregnancy among youth. The programs must include activities to educate youth who are sexually active regarding responsible sexual behavior with respect to both abstinence and the use of contraception. Such activities should teach adulthood preparation subjects including healthy relationships, adolescent development, financial literacy, parent-child communication, educational and career success, and healthy life skills. The programs must: be medically-accurate and complete; include activities to educate youth who are sexually active regarding responsible sexual behavior with respect to both abstinence and the use of contraception; place substantial emphasis on both abstinence and contraception for the prevention of pregnancy among youth and sexually transmitted infections; and must provide age-appropriate information and activities. The information and activities carried out under the program must be provided in the cultural context that is most appropriate for individuals in the particular population group to which they are directed. REQUIREMENTS OF INNOVATIVE STRATEGIES PROJECTS: Proposals are funded based on how effectively they can develop, replicate, refine, and test innovative strategies for preventing teenage pregnancy. Programs must be medically accurate, age appropriate, and target services to identified vulnerable and at-risk populations. The programs must include activities to educate youth who are sexually active regarding responsible sexual behavior with respect to both abstinence and the use of contraception. Such activities should teach adulthood preparation subjects including healthy relationships, adolescent development, financial literacy, parent-child communication, educational and career success, and healthy life skills. Funded projects are expected to generate lessons learned so others can benefit from these strategies and innovative approaches and increase the capacity of communities to develop, implement, and evaluate interventions for dissemination and replication by others. Funded projects must show that the proposed intervention is: (a) based on some preliminary evidence of effectiveness; (b) a significant adaptation of an evidence-based program; or (c) is a new and innovative approach to teenage pregnancy prevention with a sound basis in research. REQUIREMENTS OF TRIBAL PROJECTS: Criteria for Tribal projects were developed by the Secretary, in consultation with Indian Tribes and Tribal Organizations that were deemed appropriate. Tribal PREP funding is directed toward the development of culturally appropriate comprehensive teen pregnancy prevention programs that incorporate medically accurate approaches replicating effective programs or elements of programs that have been demonstrated to change behavior. Tribal PREP focuses on the same fundamental requirements as the State PREP projects-the education of youth on both abstinence and contraception and on other adulthood preparation subjects with the goal of preventing teen pregnancy and sexually transmitted infections (STIs) including HIV/AIDS. Funds support PREP efforts that are dedicated to the development of comprehensive, high quality interventions and services that rely on the best available research evidence to inform and guide practice. Since there are few studies of teen pregnancy prevention programs targeting youth in Tribal communities, adaptation and innovation are important. Further, programs that currently serve Native youth have not been rigorously evaluated and may not offer strong models for replication. Tribes and tribal organizations are encouraged, therefore, to adapt evidence-based (EB) models (or elements of EB models) that address the unique cultural needs of their communities. Adaptation must retain core elements of proven effective programs. REQUIREMENTS OF COMPETITIVE PREP PROJECTS: Competitive PREP funds support projects that educate youth between the ages of 10 and 19, and pregnant and parenting youth, under age 21, on abstinence and contraception for teen prevention of pregnancy and sexually transmitted infections (STIs), including

ASSISTANCE LISTINGS DESCRIPTIONS

HIV/AIDS. Applicants must also provide programming on at least three of six adulthood preparation subjects that are discussed in the published FOA. Further PREP funding is directed toward the development of comprehensive, teen pregnancy prevention programs that incorporate medically accurate approaches, while replicating evidence-based programs or elements of programs that have been demonstrated to change behavior. FYSB's Competitive PREP funding supports efforts that are dedicated to the development of comprehensive, culturally appropriate interventions and services that rely on the best available research to inform and guide practice.

93.093 Health Profession Opportunity Grants

HPOG,

FEDERAL AGENCY:

ADMINISTRATION FOR CHILDREN AND FAMILIES, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Social Security Act, Title XX, Section 2008, 42 USC Code 1397g.

OBJECTIVES:

HPOG provides grants to support demonstration projects that are designed to provide Temporary Assistance to Needy Families (TANF) program recipients and other low-income individuals with the opportunity to obtain education and training for occupations in the health care field that pay well and are expected to either experience labor shortages or be in high demand. HPOG participants are given the opportunity to obtain higher education, training, and support services needed to secure positions that have opportunity for advancement and sustainability, ultimately leading these individuals on a pathway to financial self-sufficiency. HPOG grantees offer educational and training programs in a wide variety of healthcare occupations that result in an employer- or industry-recognized certificate or degree. Many programs have been designed as career pathways connecting progressive levels of education and training with employment opportunities.

TYPES OF ASSISTANCE:

Cooperative Agreements (Discretionary Grants)

USES AND USE RESTRICTIONS:

The funds may be used to provide education and training to TANF recipients and other low-income individuals for occupations in the health care field that pay well and are expected to either experience labor shortages or be in high demand. Funds may be used for participant supportive services, including financial aid, child care, and case management.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); State; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); An eligible applicant is a State, an Indian tribe or tribal organization, an institution of higher education, a local workforce investment board established under section 117 of the Workforce Investment Act of 1998, a sponsor of an apprenticeship program registered under the National Apprenticeship Act or a community-based organization. Applications from individuals (including sole proprietorships) and foreign entities are not eligible. Faith-based and community organizations that meet the eligibility requirements are eligible to receive awards.

Beneficiary Eligibility:

Individual/Family; Student/Trainee; Black; American Indian; Spanish Origin; Asian; Other Non-White; U.S. Citizen; Refugee/Alien; Veteran/Service person/Reservist (including dependents); Women; Youth (16-21); Unemployed; Welfare Recipient; Low Income; Eligible individual beneficiaries are individuals receiving assistance under the State TANF program; or other low-income individuals described by the eligible entity in its application for a grant under this section. Eligible individuals for the HPOG program are further described under

section 2008(a)(4)(B) of the Social Security Act.

Credentials/Documentation:

Non-profit organizations applying for funding are required to submit proof of their non-profit status. The Department of Health and Human Services (HHS) adopted the Office of Management and Budget (OMB) Guidance in 2 CFR part 200, and has codified the text, with HHS-specific amendments in 45 CFR Part 75. ACF recipients must follow the requirements in 45 CFR Part 75. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. Applicants must demonstrate that they have consulted with the State agency responsible for administering the State TANF program, the local workforce investment board in the area in which the project is to be conducted (unless the applicant is such board), the State workforce investment board established under section 111 of the Workforce Investment Act of 1998, and the State Apprenticeship Agency recognized under the Act of August 16, 1937 (commonly known as the National Apprenticeship Act) (or if no agency has been recognized in the State, the Office of Apprenticeship of the Department of Labor) and that the project will be carried out in coordination with such entities.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants may find funding opportunity announcements (FOAs) on <https://www.grants.gov> or on the ACF website at <https://ami.grantsolutions.gov/>. Applicants may apply on <https://www.grants.gov>. The Department of Health and Human Services (HHS) adopted the Office of Management and Budget (OMB) Guidance in 2 CFR part 200, and has codified the text, with HHS-specific amendments in 45 CFR Part 75. ACF recipients must follow the requirements in 45 CFR Part 75. Notice of Funding Opportunities (NOFO) for this listing will be posted on Grants.gov.

Award Procedure:

Each application will be screened to determine whether it meets any of the disqualifying factors: missing the application deadline, required electronic submission or waiver requested and approved, or exceeding the Award Ceiling. Disqualified applications are considered to be non-responsive and are excluded from the competitive review process. Applications competing for financial assistance will be reviewed and evaluated by objective review panels using only the criteria described in FOA. Each panel is composed of experts with knowledge and experience in the area under review. Generally, review panels include three reviewers and one chairperson. Results of the competitive objective review are taken into consideration by ACF in the selection of projects for funding; however, objective review scores and rankings are not binding. Scores and rankings are only one element used in the award decision-making process. ACF reserves the right to evaluate applications in the larger context of the overall portfolio by considering geographic distribution of federal funds (e.g. ensuring coverage of states, counties, or service areas) in its pre-award decisions. ACF will complete a review of risk posed by applicants as described in 45 CFR 75.205. ACF may elect not to fund applicants with management or financial problems that would indicate an inability to successfully complete the proposed project. Applications may be funded in whole or in part. Successful applicants may be funded at an amount lower than requested.

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Awards will be made for 60 months with five 12-month budget periods. Awards made in 2015 received an additional 12-month supplement and extension. Funding for each budget period is contingent on satisfactory progress, the availability of funds, and the continued best interests of the Federal government. Method of awarding/releasing assistance: other

Reports:

The recipients shall submit an annual Federal Financial Report (FFR). An FFR is due no later than 90 days after the end of the applicable 12-month period and failure to submit these timely could affect future funding. The SF-425 FFR will be used to report Financial Status and Cash Transactions. The report is an accounting of expenditures under the project that year. Recipients must submit semi-annual performance progress reports. Each semi-annual progress report is due no later than 30 days after the end of the reporting period. Performance progress reports are required using the OMB approved, Performance Progress Report (PPR) specific to HPOG. The PPR is generated from PAGES (the HPOG management information system) and submitted through GrantSolutions. The frequency of reporting will be listed in the funding opportunity announcement, cooperative agreement, and in the award terms and conditions. For more information, see:

https://www.acf.hhs.gov/discretionary-post-award-requirements#book_content_1. Federal staff primarily use the semi-annual performance progress reports for the purpose of performance monitoring. Actual progress is compared to projected outcomes. Expenditure reports are required using the SF-425 Federal Financial Report. The frequency of reporting will be listed in the funding opportunity announcement, cooperative agreement, and in the award terms and conditions. For more information, see:

<https://www.acf.hhs.gov/grants/discretionary-post-award-requirements>. Tangible Property - If requesting funds to purchase equipment, the recipient must request prior approval. When the equipment is no longer needed, the SF-428 Tangible Personal Property-Cover Page with the SF-428 Attachment C must be submitted to the Office of Grants Management. Please see the ACF Property, Tangible Personal Property Reporting instructions at https://www.acf.hhs.gov/tangible-personal-property#book_content_1 and the ACF Property, Tangible Personal Property Disposition instructions at https://www.acf.hhs.gov/tangible-personal-property#book_content_2.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. The Department of Health and Human Services (HHS) adopted the Office of Management and Budget (OMB) Guidance in 2 CFR part 200, and has codified the text, with HHS-specific amendments in 45 CFR Part 75. 93.097 Strengthening the Nation's Public Health System through a National Voluntary Accreditation Program for State, Tribal, Local and Territorial Health Departments

A National Voluntary Accreditation Program for State, Tribal, Local and Territorial Health Departments,

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

This program is authorized under section 317(k) (2) of the Public Health Service Act [42 U.S.C. 247(b)(k)(2)].

OBJECTIVES:

This project will support the operations and continuous improvement of a national accreditation program for state, tribal, local and territorial public health departments. This program will result in increased visibility for accreditation, a stronger public health accreditation program, increased demonstration of accountability of public health programs to decision makers and to the public, increased adoption of evidence based practices, increased use of quality improvement, improved capacity for state, tribal, local and territorial health departments to meet nationally established accreditation standards, and increased recognition of public health roles and value by leaders and the public. Specific objectives may/will include but are not limited to: 1. Support communications and education regarding the accreditation program. 2. Establish a process of continuous improvement of the accreditation standards, tools, and processes to ensure a relevant, current and smoothly functioning program (all elements of the current program can be found at www.phaboard.org). 3. Strengthen strategic partnerships to support accreditation. 4. Strengthen the evidence base for accreditation.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Project funds may be used for costs associated with planning, organizing, conducting, and supporting the National Voluntary Accreditation Program for State, Tribal, Local and Territorial Health Departments, and for the implementation

ASSISTANCE LISTINGS DESCRIPTIONS

of the Public Health Accreditation Board (PHAB) program elements as described in Section 050 above and through CDC allowable and unallowable expenses.

Applicant Eligibility:

Other private institutions/organizations; 1. Eligible Applicants: Public Health Accreditation Board (PHAB), a nonprofit with 501(c)3 IRS status. 2. Special Eligibility Requirements: The only eligible applicant for this award is the Public Health Accreditation Board (PHAB), a 501(c)3 independent accrediting body that administers the national voluntary public health department accreditation program. 3. Justification for Less than Maximum Competition: The nature of the activities under this award are best employed by focusing on the entity to which this cooperative agreement is limited, per memorandum for approval for single-eligibility competition, which was approved and dated December 20, 2012. PHAB was found to be uniquely qualified, as it is the organization that has been established as the national accrediting body for state, tribal, local and territorial health departments. PHAB was determined to have the experience and program infrastructure, which includes field-driven and tested standards, measures and accreditation assessment process. PHAB is also widely accepted as the national accrediting body for state, local tribal and territorial health departments by the constituency organizations for these agencies and as evidenced by the visible mention of PHAB within national policy documents (e.g., Institute of Medicine reports, Healthy People 2020).

Beneficiary Eligibility:

U.S. Territories; State; Local; State, Tribal, Local and Territorial Public Health Departments via a National Voluntary Accreditation Program administered by the Public Health Accreditation Board (PHAB), a 501(c)3 independent accrediting entity.

Credentials/Documentation:

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program.

Award Procedure:

Phase I Review: Eligible application will be initially reviewed for completeness by the CDC's Procurement and Grants Office (PGO) staff. In addition, eligible application will be jointly reviewed for responsiveness by CDC OSTLTS and PGO. Incomplete and/or non-responsive application to the eligibility criteria will not advance to Phase II review. Applicant will be notified that the application did not meet eligibility and/or published submission requirements. Phase II Review: An objective review panel will evaluate complete and responsive application according to the criteria listed in the criteria section of the FOA. Applicant will be notified electronically if the application did not meet eligibility and/or published submission requirements thirty (30) days after the completion of Phase II review. Successful applicant will receive a Notice of Award (NoA) from the CDC Procurement and Grants Office. The NoA shall be the only binding, authorizing document between the recipient and CDC. The NoA will be signed by an authorized CDC Grants Management Officer.

Deadlines:

93.099 Collaboration With the World Health Organization and its Regional Offices for Global Health Security and the International Health Regulations (IHR 2005)

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Section 307 as amended [42 U.S.C. 241 and 2421].

OBJECTIVES:

On September 19, 2011, the Government of the United States of America and the World Health Organization (WHO) signed a memorandum of understanding (MOU) to help WHO Member States strengthen their capabilities to support the International Health Regulations (IHR), an international agreement that requires Member States to prevent and respond to acute public health risks that have the potential to cross borders. The MOU includes specific statements that authorize WHO and its regional offices to pursue activities that improve the ability of all nations to detect, report, and respond to infectious diseases quickly and accurately. The purpose is to assist WHO in implementing the MOU regarding the International Health Regulations, including the development and implementation of coordinated plans and networks that enable national governments and regional authorities globally to better address infectious diseases, particularly emerging infections. Specific activities will focus on improving infectious disease surveillance and response; enhancing knowledge generation, innovation, and tools for improved management that build public health infrastructure and strengthen regional health leadership and collaboration; sharing knowledge, tools and other resources in support of applied epidemiology; and developing improved infectious disease surveillance, prevention and control strategies.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Support implementation of the IHR by analyzing regional, national, and local resources devoted to infectious diseases and identifying areas for implementation of infectious disease activities consistent with the purpose of this cooperative agreement. Develop, implement, and conduct projects to enhance infectious disease surveillance, response, prevention, and control. Strengthen regional and national public health networks and inter-sectorial co-operation and collaborate with other health organizations, academic institutions, and community groups as appropriate to accomplish program activities. Strengthen regional and national public health leadership and collaboration. Monitor and evaluate overall program performance and the progress of individual projects or activities. Publish and disseminate findings, program evaluations, and lessons learned.

Applicant Eligibility:

Other public institution/organization; Only the World Health Organization and its regional offices are eligible to apply. For purposes of this document, the term WHO includes its regional offices (e.g., PAHO, EMRO, AFRO, SEARO, etc). WHO is the only international and intergovernmental agency qualified to conduct activities under this cooperative agreement because: WHO is an international public health agency that works to improve health and living standards globally. WHO is part of the United Nations system. As such, WHO has a unique position among the world's health agencies as the lead technical agency for health globally. For additional information, please see <http://www.who.org> WHO and its Regional Offices are at the apex of global public health organizations and thus have an exclusive status as the United States governments key partners for global public health. On September 19, 2011, the Government of the United States of America and the World Health Organization signed a memorandum of understanding (MOU) to help developing nations strengthen their capabilities to support the International Health Regulations (IHR). The IHR (2005) is an international agreement that requires WHO Member States to prevent and respond to acute public health risks that have the potential to cross borders and threaten people worldwide. The U.S. Government and WHO share a commitment to strengthen cooperation in the area of global health security to ensure that the international community effectively manages public health risks. Improving the ability of all nations to detect, report, and respond to infectious diseases quickly and accurately lies at the heart of the global community's ability to address all infectious disease threats, as reflected in the IHR. The MOU establishes a framework for collaboration in line with the provisions set forth in the IHR, which provides a construct for coordinating the management of actions in the event of a public health emergency of international concern. The MOU was signed by Secretary Kathleen Sebelius, Department of Health and Human Services, and Director-General Margaret Chan, World Health Organization, and subsequently by

ASSISTANCE LISTINGS DESCRIPTIONS

Ambassador Betty E. King, United States Permanent Representative to the United Nations in Geneva. The full text of the MOU can be accessed at:

<http://www.globalhealth.gov/global-health-topics/health-diplomacy/agreements-and-regulations/20110922-mem.html>. The MOU includes the following specific statements that support sole-source consideration of WHO and its regional offices (including PAHO) for funding activities that fall under the scope of the MOU: Section 8.a.: The United States Department of Health and Human Services (DHHS) continues to serve as the primary substantive interface with WHO on global health and health security. DHHS plans to ensure coordination with other U.S. Government departments, agencies, and entities that collaborate on health matters within the scope of this Memorandum to enhance the effectiveness of such activities. The U.S. Government agencies intend to develop programs and provide funds through mechanisms that may be determined jointly by the U.S. Government agency and WHO. Section 8.b.: Specific funding mechanisms are intended to be developed and U.S. Government agencies intend to collaborate with WHO to define specific work to be undertaken by the Participants and the division of responsibilities.

Beneficiary Eligibility:

Minority group; Health Professional; Scientist/Researchers; Physically Afflicted (e.g. TB, Arthritis, Heart Disease); Infant (0-5); Child (6-15); Youth (16-21); Senior Citizen (60+); Low Income; Other public institution/organization; The World Health Organization and its regional offices work will benefit individuals worldwide, including in the U.S., through collaboration with National Ministries of Health and other organizations/institutions. The purpose is to support WHO to reduce the global disease burden through improved international capacity to detect, respond to, prevent and control infectious diseases and other threats.

Applicants must download and submit the SF424 application package associated with specific Notice of Funding Opportunity (NOFO) issued by CDC via Grants.gov. Specific application instructions will be included in the NOFO. Applications are not solicited nor will they be accepted outside of a published NOFO process.

Award Procedure:

Eligible applications submitted in response to published NOFOs will be initially reviewed for completeness by the Office of Grant Services (OGS) staff. In addition, eligible applications will be jointly reviewed for responsiveness by CDC program staff and OGS. Incomplete applications and applications that are non-responsive to the eligibility criteria will not advance through the review process. Applicants will be notified the application did not meet eligibility and/or published submission requirements. A review will be conducted to evaluate the eligible, complete, and responsive applications according to the criteria listed in the applicable NOFO. As part of the review process, the applicant will receive a written Technical Review that summarizes the review findings regarding strengths, weaknesses, and recommendations. The eligible application will be selected and funded based on the findings of the review process. Successful applicants will receive a Notice of Award (NoA) from the CDC Office of Grant Services. ASSISTANCE LISTINGS DESCRIPTIONS

93.107 Area Health Education Centers

AHEC Simulation Education Training (SET),

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Title VII, Sec. 751 of the Public Health Service Act (42 U.S.C. 294a),

OBJECTIVES:

The Area Health Education Centers (AHEC) Program enhances access to high quality, culturally competent health care through academic-community partnerships. The goal of the AHEC Program is three fold: (1) to prepare a diverse, culturally-competent primary care workforce representative of the communities served; (2) to improve health workforce distribution through the nation, particularly among rural and underserved areas and population; and (3) to develop and maintain a healthcare workforce that is prepared to deliver high quality care in a transforming health care delivery system with emphasis on rural and underserved areas and communities. The AHEC Simulation Education Training (AHEC-SET) Program develops and enhances education and training networks within communities, academic institutions, and community-based organizations through the expansion of experiential learning opportunities, including the use of simulation-based technology, as well as equipment. The program will support projects to enhance simulation labs that will provide realistic, clinical environments and scenarios designed to educate and train healthcare professionals serving rural and medically underserved communities.

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants

USES AND USE RESTRICTIONS:

Funds shall be used to recruit individuals from underrepresented, disadvantaged, or rural backgrounds into the health professions; establish and maintain community-based placements or preceptorships with an emphasis on primary care; conduct interdisciplinary/interprofessional training involving an array of health professionals; deliver or facilitate continuing education; propose and implement outcomes measurement and evaluation strategies. Not less than 75 percent of the total amount provided to an AHEC Program under subsection 751(a) (2) shall be allocated to the AHEC centers participating in the program. The aggregate amount of awards to schools in the state for the fiscal year under Point of Service Maintenance and Enhancement AHEC authority shall be not less than \$103,000 annually per AHEC center, including program office funds. If amounts appropriated to carry out Section 751 are not sufficient to comply with the amount stated in the preceding sentence, the Secretary may reduce the per center amount as necessary. Restricted Uses: Indirect costs under training awards to organizations other than State, local or American Indian tribal governments will be budgeted and reimbursed at 8 percent of modified total direct costs rather than on the basis of a negotiated rate agreement, and are not subject to upward or downward adjustment.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Entities eligible to apply for AHEC Infrastructure Development awards under 751(a)(1) are public or nonprofit private accredited schools of allopathic medicine and osteopathic medicine and incorporated consortia made up of such schools, or the parent institutions of such schools. In states and territories in which no AHEC program is in operation, an accredited school of nursing is an eligible applicant. An entity eligible to apply for AHEC Point of Service Maintenance and Enhancement awards under section 751 (a) (2) means an entity has received funds under this section (751), is operating an area health education center program, including an area health education center or centers, and has a center or centers that are no longer eligible to receive financial assistance under subsection (a)(1). Eligible entities are accredited public or nonprofit schools of allopathic medicine or osteopathic medicine, the parent institution on behalf of such schools, and accredited schools of nursing, which have received funds under section 751 to operate an AHEC program. Federally

Recognized Indian Tribal Government and Native American Organizations may apply if they are otherwise eligible. Eligibility for AHEC-SET supplements is limited to current AHEC recipients as specified above.

Beneficiary Eligibility:

Private nonprofit institution/organization; Public nonprofit institution/organization; Beneficiaries include a full range of trainees: high school students from underrepresented minority populations or from disadvantaged or rural backgrounds, health professions students, and practicing health professionals.

Credentials/Documentation:

Appeals:

Not Applicable.

Renewals:

Other. Depending on Agency priorities and availability of funding, during the final budget year of the approved project period competing continuation applications may be solicited from interested applicants.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 50%. Requirement: Matching requirements are voluntary. With respect to the costs of operating a program through a grant under section 751, to be eligible for assistance under section 751, an entity shall make available (directly or through contributions from state, county, municipal governments or the private sector) recurring nonfederal contributions in cash or in kind toward such costs in an amount that is equal to not less than 50 percent of such costs. Thus, the matching ratio for AHEC awards is 1:1 (federal funds to non-federal contributions). At least 25 percent of the total required non-Federal contributions shall be in cash. This program has MOE requirements, see funding agency for further details. Additional Information: The recipient must agree to maintain non-federal funding for grant activities at a level which is not less than expenditures for such activities during the fiscal year prior to receiving the award.

Length and Time Phasing of Assistance:

AHEC provides support for a five-year project period. AHEC-SET provides support for a one-year project period. Reports:

Both program and financial reports are required. The recipient will be required to submit annual performance and progress reports. A Federal Financial Report (SF-425) is required according to the schedule in HRSA's Application Guide. A final report is due within 90 days after the project period ends. If applicable, the recipient must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (The FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation recipients may be subject to this requirement and will be so notified in the Notice of Award.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Recipients are required to maintain grant accounting records 3 years after the date they submit the Federal Financial Report (FFR). If any litigation, claim, negotiation, audit or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

CRITERIA FOR SELECTING PROPOSALS:

Procedures for assessing the technical merit of grant applications have been instituted to provide an objective review of applications and to assist the applicant in understanding the standards against which each application will be judged. Critical indicators have been developed for each review criterion to assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by nonfederal reviewers for technical merit recommendations. Applications will be reviewed and evaluated against the following criteria: (1) Purpose and Need; (2) Response to Program Purpose; (3) Impact; (4) Organizational Information, Resources and Capabilities; and (5) Support Requested. See the most recent Notice of Funding Opportunity for detailed review criteria.

93.110 Maternal and Child Health Federal Consolidated Programs

Special Projects of Regional and National Significance (SPRANS), including the Community Integrated Service Systems (CISS); Heritable Disorders Program; Pediatric Mental Health Care Access Program; and Screening and Treatment for Maternal Depression and Related Behavioral Disorders Program,

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Social Security Act, Title V, Section 502(a)(1) and (b)(1), as amended; 42 U.S.C. 702.; Sections 1109, 1110, 1111 and 1112 of the Public Health Service Act and Section 399T of the Public Health Service Act; Public Health Service Act, 330M (42 U.S.C. 254c-19), as amended.,

OBJECTIVES:

To carry out special maternal and child health (MCH) projects of regional and national significance; to conduct training and research; to conduct genetic disease testing, counseling, and information development and dissemination programs; for the screening of newborns for sickle cell anemia, and other genetic disorders; and to support comprehensive hemophilia diagnostic and treatment centers. These grants are funded with a set-aside from the MCH Block grant program. SPRANS grants are funded with 15 percent of the Block Grant appropriation of up to \$600 million. When the appropriation exceeds \$600 million, 12.75 percent of the amount over \$600 million is set aside for the Community Integrated Service Systems grants. 15 percent of the balance remaining over \$600 million is also for SPRANS. The CISS program is to develop and expand the following: (1) Home visitation; (2) increased participation of obstetricians and pediatricians; (3) integrated service delivery systems; (4) maternal and child health centers for women and infants, under the direction of a not-for-profit hospital; (5) services for rural populations; and (6) integrated state and community service systems for children and youth with special health care needs. First funded in 2004, the Heritable Disorders Program is established to improve the ability of States to provide newborn and child screening for heritable disorders and affect the lives of all of the nations infants and children.

ASSISTANCE LISTINGS DESCRIPTIONS

Newborn and child screening occur at intervals across the life span of every child. Newborn screening universally provides early identification and follow-up for treatment of infants affected by certain genetic, metabolic, hormonal and/or functional conditions. It is expected that newborn and child screening will expand as the capacity to screen for genetic and congenital conditions expands.

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants

USES AND USE RESTRICTIONS:

Training grants are made to institutions of higher learning for training personnel for health care and related services for mothers and children. Research grants are for the purpose of research activities which show promise of a substantial contribution to the advancement of maternal and child health (MCH) services. Technical assistance grants support the effective and accurate use of data and evidence to support program development and implementation as well as performance measurement and evaluation. Genetic grants are for genetic disease testing, counseling and information development and dissemination. Hemophilia grants are for the support of centers which provide hemophilia diagnostic and treatment services. Sickle cell disease grants are made to support follow up for infants with sickle cell identified through newborn screening. Heritable Disorders grants are made to improve the ability of States to provide newborn and child screening for heritable disorders, coordinate services and long-term follow-up for newborns and children identified with a condition through newborn screening, and to provide newborn screening education resources to patients, parents, and families. Environmental health grants are made to decrease maternal and child morbidity and mortality associated with pre- and post-natal environmental exposures. Pediatric Mental Health Care Access grants promote behavioral health integration into pediatric primary care by supporting pediatric mental health care telehealth access programs. Screening and Treatment for Maternal Depression and Related Behavior Disorders expands health care providers capacity to screen, assess, treat, and refer pregnant and postpartum women for depression and related disorders. Other special project grants are designed to support activities of a demonstration nature, which are designed to improve services for mothers and children. Restricted Uses: Indirect costs that are allowed for administrative costs incurred as a result of the training grants project, are limited to 8 percent of direct costs.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Training grants may be made to public or private nonprofit institutions of higher learning. Research grants may be made to public or private nonprofit institutions of higher learning and public or private nonprofit private agencies and organizations engaged in research or in MCH or Children with Special Health Care Needs (CSHCN) programs. Any public or private entity is eligible for hemophilia, genetics, and environmental health grants and other special project grants, including CISS. Eligible entities for the Heritable Disorders Program include a State or a political subdivision of a State; a consortium of two or more States of political subdivisions of States; a territory; a health facility or program operated by or pursuant to a contract with or grant from the Indian Health Service; or any other entity with appropriate expertise in newborn screening, as determined by the Secretary. Eligible entities for the Pediatric Mental Health Care Access Program include States, political subdivisions of states, and Indian tribes and tribal organizations. Eligible entities for the Screening and Treatment for Maternal Depression and Related Behavior Disorders Program are states.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Health Professional; Student/Trainee; Women; Infant (0-5); Child (6-15); For training grants: (1) Trainees in the health professions related to MCH; and (2) mothers and children who receive services through training programs. For research grants: public or private nonprofit agencies and organizations engaged in research in MCH or CSHCN programs. For hemophilia, sickle cell, thalassemia, genetics, newborn

screening, environmental health, and other special projects: (1) Public or private agencies, organizations and institutions; and (2) mothers and children, and individuals with genetic conditions (any age) who receive services through the programs. For Pediatric Mental Health Care Access Program: pediatric mental health care teams; pediatric primary care providers; children, youth and families who receive services from pediatric primary care providers.

Credentials/Documentation:

Applicants should review the individual HRSA notice of funding opportunity issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. Listed.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov. All qualified applications will be forwarded to an objective review committee. Based on the advice of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions.

Award Procedure:

Notification is made in writing by a Notice of Award.

Awards are made on an annual basis for the duration of the grant period, and payments are made through an Electronic Transfer System or Cash Demand System. Method of awarding/releasing assistance: other

Reports:

Please refer to "progress reports" information below. The awardee will be required to submit performance and progress reports as well as status-federal financial reports (see the program announcement and notice of award for details for each required report). The awardee must submit a quarterly electronic Federal Financial Report (FFR) Cash Transaction Report via the Payment Management System within 30 days of the end of each calendar quarter. A Federal Financial Report (SF-425) according to the following schedule:

<http://www.hrsa.gov/grants/manage/technicalassistance/federalfinancialreport/ffrc-hedule.pdf>. A final report is due within 90 days after the project period ends. If applicable, the awardee must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (FFATA details are available online at

ASSISTANCE LISTINGS DESCRIPTIONS

<http://www.hrsa.gov/grants/ffata.html>). Competing continuation awardees, etc. may be subject to this requirement and will be so notified in the Notice of Award. Refer to the notice of funding opportunity for further information.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Grantees are required to maintain grant accounting records for 3 years after the date they submit the Federal Financial Report (FFR). If any litigation, claim, negotiation, audit, or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2020: In FY 2019, the Leadership Education in Adolescent Health (LEAH) program provided interdisciplinary leadership training to 2,197 health and related professionals at the graduate and postgraduate levels; enhanced the knowledge and skills of nearly 30,000 practicing professionals through the provision of 538 continuing education events; and strengthened the capacity of Title V and other MCH partners through 650 technical assistance activities to 136,660 recipients in local, state, and community entities. In FY 2020, the Strengthen the Evidence in Maternal and Child Health Program provided 44 technical assistance (TA) sessions to states and jurisdictions, including several regional TA sessions, topic-specific TA, and TA to all Pacific Basin and Atlantic jurisdictions; worked extensively with a team of expert reviewers to publish two Evidence Analysis Reports, for updates of National Performance Measure (NPM) Online Toolkits, and for TA requests; engaged 16 experts in the webinar development of evidence-based, informed strategies for the 15 Title V national performance measures, made available to all Title V states and jurisdictions. The heritable disorders program has supported the widespread adoption of SCID newborn screening since 2014. In 2012, only six states screened for SCID. By 2018, all 50 states and 3 U.S. territories screen for SCID. Despite the success of broad SCID newborn screening, gaps remain in optimizing outcomes for infants with SCID that is detected by newborn screening. Additionally, almost 50% of states have implemented the four new conditions (Pompe [2015], X-ALD [2016], MPS I [2016], and SMA [2018]) added to the recommended screening panel since 2015.

REGULATIONS, GUIDELINES, AND LITERATURE:

This program is subject to the provisions of 45 CFR Part 75 State, local and tribal governments, institutions of higher education, hospitals, other nonprofit organizations and commercial organizations, as applicable. 42 CFR Part 51a Project Grants for Maternal and Child Health.HRSA awards are subject to the requirements of the HHS Grants Policy Statement (HHS GPS) that are applicable based on recipient type and purpose of award. 93.113 Environmental Health

National Institute of Environmental Health Sciences,

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Sections 301, 401, 437, 463 and 487, Public Laws 78-410 and 99-158, as amended, 42 U.S.C. 241, and 42 U.S.C. 288, as amended, SBIR and STTR Reauthorization Act of 2011, Public Law 113-6,

OBJECTIVES:

To foster understanding of human health effects of exposure to environmental agents in the hope that these studies will lead to: the identification of agents that pose a hazard and threat of disease, disorders and defects in humans; the development of effective public health or disease prevention strategies; the overall improvement of human health effects due to environmental agents; the development of products and technologies designed to better study or ameliorate the effects of environmental agents; and the successful training of research scientists in all areas of environmental health research. Supported grant programs focus on the following areas: (1) Understanding biological responses to environmental agents by determining how chemical and physical agents cause pathological changes in molecules, cells, tissues, and organs, and become manifested as respiratory disease, neurological, behavioral and developmental abnormalities, cancer, and other disorders; (2) Determining the mechanisms of toxicity of ubiquitous agents like metals, natural and synthetic chemicals, pesticides, and materials such as nanoparticles, and natural toxic substances, and their effects of on various human organ systems, on metabolism, on the endocrine and immune systems, and on other biological functions; (3) Developing and integrating scientific knowledge about potentially toxic and hazardous chemicals by concentrating on toxicological research, testing, test development, validation and risk estimation; (4) Identifying interactions between environmental stressors and genetic susceptibility and understanding biologic mechanisms underlying these interactions, including the study of environmental influences on epigenomics and

ASSISTANCE LISTINGS DESCRIPTIONS

transcriptional regulation; (5) Conducting environmental public health research, including in areas of environmental justice and health disparities, that requires communities as active participants in all stages of research, dissemination, and evaluation to advance both the science and the development of practical materials for use in communities, with a focus on translating research findings into tools, materials, and resources that can be used to prevent, reduce, or eliminate adverse health outcomes caused by environmental exposures; (6) Expanding and improving the SBIR program; to increase private sector commercialization of innovations derived from Federal research and development; to increase small business participation in Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation; (7) Expanding and improving the STTR program to stimulate and foster scientific and technological innovation through cooperative research and development carried out between small business concerns and research institutions; to foster technology transfer between small business concerns and research institutions; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation; (8) Providing support for broadly based multi-disciplinary research and training programs in environmental health. These programs include the Environmental Health Sciences Core Centers, which serve as national focal points and resources for research and manpower development. Through these programs, NIEHS expects to achieve the long-range goal of developing new clinical and public health applications to improve disease prevention, diagnosis, and therapy. Additional Centers programs developed in recent years, include the Centers for Oceans and Human Health (co-funded with NSF), Children's Environmental Health Centers (co-funded with US EPA) and the Autism Centers of Excellence (co-funded with other NIH Institutes), and the Human Health Exposure Analysis Resource (HHEAR) program; (9) Supporting research training programs which serve to increase the pool of trained research manpower with needed expertise in the Environmental Health Sciences through support of Individual and Institutional National Research Service Awards (NRSAs); (10) The Outstanding New Environmental Scientist Program which provides first time research grant funding to outstanding junior scientists in the formative stages of their career who are proposing to make a long term commitment to environmental health sciences research and to address the adverse effects on environmental exposures on human biology, human pathophysiology and human disease.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Research Grants and Cooperative Agreements are intended to support the direct costs of a project, in accordance with an approved budget, plus an appropriate amount for indirect costs. SBIR Phase I grants (of approximately 6-months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research initiated in Phase I and that are likely to result in commercial products or processes. Only Phase I awardees are eligible to receive Phase II support. STTR Phase I grants (normally of 1-year duration) are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I, scientific and technical merit, and commercial potential of the Phase II application. A number of Career Development awards are supported. The Independent Scientist Award provides up to five years of salary support for newly independent scientists who have recently obtained independent research funding, generally an R01 research grant from NIEHS. The award is intended to allow the candidate protected time to focus on the further development of the independent research career and does not include additional research support. The Mentored Clinical Research Career Development Award provides three to five years of salary support for investigators with clinical degrees (e.g., M.D., D.V.M.). The Transition to Independent Environmental Health Research (TIEHR) Career Development Award provides three years of support for candidates who are within three years of their first independent faculty appointment and who have not yet obtained significant research grant funding (an R01 or equivalent). The award includes salary support and pilot funding. The Mentored Patient-Oriented Research Career Development Award provides up to

five years of support for clinically trained investigators who make a commitment to focus on patient-oriented research. The Mid Career Investigator Award in Patient-Oriented Research provides up to five years of support to outstanding clinical scientists who are actively engaged in patient-oriented research and who are within 15 years of their specialty training. The Mentored Quantitative Research Development Award provides up to five years of support for junior faculty with quantitative scientific and engineering backgrounds outside of biology or medicine that are transitioning to behavioral or biomedical research. The NIH Pathway to Independence Award is divided into two phases. The initial award (K99) provides up to two years of mentored, postdoctoral support. The second phase (R00) provides up to three years of independent research support, when the awardee accepts a full-time tenure track, or equivalent, faculty position. All these Career Development awards provide salary consistent with the level of effort devoted to the research career development activities, plus fringe benefits, an allowance for career development activities and 8 percent fiscal and administrative costs. All Career Development Awards, except for the NIH Pathway to Independence Award, have a US citizenship requirement. Details of specific restrictions for the Career Development Awards can be found at <http://www.niehs.nih.gov/careers/research/trainingfrom/career/index.cfmt>. NIEHS Core Center grants (P30) are primarily intended to provide infrastructure support and the support of core research facilities. In addition, an appropriate facilities and administrative cost is provided as determined by negotiated agreement with the grantee's cognizant government organization. National Research Service Awards (NRSAs): Individual predoctoral and postdoctoral training awards are made for the support of fellows who engage in research training in environmental toxicology, environmental pathology, environmental mutagenesis, or environmental epidemiology/biostatistics. In addition to individual training awards, institutional training grants (T32) are made to institutions to enable institutions to make awards to individuals selected by them, for both predoctoral and postdoctoral research training in the aforementioned areas. Each individual who receives a postdoctoral NRSA, either through an institutional or individual training award mechanism, is obligated upon termination of the award to comply with certain service and payback provisions.

Applicant Eligibility:

Federal; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; U.S. Territories and possessions; U.S. Territories and possessions (includes institutions of higher education and hospitals); Non-Government - General; Specialized group (e.g. health professionals, students, veterans); Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Other private institutions/organizations; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Research Grants, Cooperative Agreements, Science Education Grants, SBIR Grants, Independent Scientist Awards, Mentored Research Scientist Development Award, Mentored Clinical Scientist Development Award, and the Academic Career Awards: A university, college, hospital, State, local or tribal governments, nonprofit research institution, or for-profit organization may submit an application and receive a grant for support of research by a named principal investigator. Candidates for Academic Career Awards Awards and Midcareer Investigator Awards in Patient Oriented Research must have a doctoral degree and peer-reviewed, independent, research support at the time the award is made. Candidates for Mentored Clinical Scientist Development Awards and Mentored Patient Oriented Research Career Development Awards must have a clinical degree or its equivalent and must have initiated post graduate clinical training. Candidates holding a Ph.D. degree are ineligible. Candidates who have served as principal investigators on PHS-supported research projects are ineligible. A candidate for Academic Career Awards must have a clinical or research doctorate degree. Those eligible for the Development Award must be able to devote at least 75 percent effort. SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be

ASSISTANCE LISTINGS DESCRIPTIONS

performed in the U.S. and its possessions. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500 employees) which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. Centers: A university-based, nonprofit research institution, or for-profit organization proposing an integrated research program established to accomplish a stated mission, covering activities ranging from very basic research to the actual application of research results in the prevention and control of environmental health problems, may submit an application under the direction of a named Center Director. National Research Service Awards: (1) Nonprofit domestic organizations may apply for the Institutional NRSA; (2) Individual NRSA awardees must be nominated and sponsored by a public for-profit or nonprofit private institution having staff and facilities appropriate to the proposed research training program; (3) all awardees must be citizens or have been admitted to the United States for permanent residence; (4) to be eligible, predoctoral awardees must have completed the baccalaureate degree and postdoctoral awardees must have a professional or scientific degree (M.D., Ph.D., D.D.S., D.O., D.V.M., Sc.D., D.Eng., or equivalent domestic or foreign degree).

Beneficiary Eligibility:

Federal; U.S. Territories; Specialized group (e.g. health professionals, students, veterans); Small business; Profit organization; Private nonprofit institution/organization; Other private institution/organization; Native American Organizations; Education Professional; Student/Trainee; Graduate Student; Scientist/Researchers; State; Local; Sponsored organization; Public nonprofit institution/organization; Other public institution/organization; Federally Recognized Indian Tribal Governments; For Research Grants: Any nonprofit or for-profit organization, company, or institution engaged in biomedical research. For Centers and Training Grants: University-based nonprofit institutions; for-profit organizations conducting research; and individuals nominated by a private institution conducting research.

Credentials/Documentation:

Applications must be signed by appropriate officials of the submitting institution. The cost principles for awards under this program are set forth in HHS regulations at 45 CFR 75, Subpart E and Appendix IX (hospitals) to Part 75. Commercial organizations are subject to the cost principles located at 48 CFR 31.2 Federal Acquisition Regulation. See the NIH Grants Policy Statement (NIH GPS) for further guidance on the applicability of cost principals (<http://grants.nih.gov/grants/policy/nihgps/index.htm>). 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Awards made under this program are subject to 2 CFR 200, as implemented by 45 CFR 75 Public Welfare, Uniform Administrative Requirements, Cost Principles and Audit Requirements for HHS Awards. The policies and procedures generally applicable to NIH grants are set forth in the NIH GPS (<http://grants.nih.gov/grants/policy/nihgps/index.htm>). Application forms and instructions for their submission are available at <http://grants.nih.gov/grants/forms.htm>. Applicants are encouraged and in some cases required to consult with NIEHS Program Officials prior to submission of an application. Detailed information about NIEHS grant programs and staff contacts can be found at <http://www.niehs.nih.gov/research/supported/index.cfm>.

Award Procedure:

Made on the basis of dual review by peer groups of all applications. The first level of reviews is by a study section for scientific merit. In addition, a national advisory council provides a secondary level of review for all applications. As required by P.L. 109-482, the NIH Health Reform Act of 2006, all research grant and cooperative agreements must undergo Advisory Council/Board review and approval prior to funding. Review of Individual NRSA applications by an Advisory Council/Board is not required. Final approval of these recommendations and

decisions concerning funding are made by the Director, NIEHS.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

>180 Days. Receipt, review and approval processes range in length from six to nine months.

Appeals:

Other. A principal investigator (P.I.) may question the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Institute. A description of the NIH Peer Review Appeal procedures is available on the NIH home page <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-064.html>.

Renewals:

Other. Research Grants, Cooperative Agreements, Center Grants, and Institutional Training Grants: Renewal applications are subject to same criteria as new applications. Independent Scientist Awards, Mentored Research Scientist Development Awards, Mentored Clinical Scientist Development Award, Academic Career Awards, and Individual Training grants are non-renewable.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Research Grants, Cooperative Agreements, Center Grants, and NRSA Institutional grants may be awarded for up to 5 years, generally in 12-month budget periods and may be extended through a competitive renewal. Science Education Grants may be awarded for up to 5 years, in 12-month budget periods, and are not renewable. Independent Scientist Awards are awarded for 5 years in 12-month budget periods, and are non-renewable. Mentored Research Scientist Awards are for up to 5 years, 12-month budget periods, and are non-renewable. Mentored Clinical Scientist Development Awards and Academic Career Awards are for up to 5 years and are renewable. SBIR: Normally, Phase I awards are for 6 months; normally, Phase II awards are for 2 years. STTR: Normally, Phase I awards are for 1 year; normally, Phase II awards are for 2 years. CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating proposals include assessments of: (1) The scientific merit and general significance of the proposed study and its objectives; (2) the technical adequacy of the experimental design and approach; (3) the competency of the proposed investigator or group to successfully pursue the project; (4) the adequacy of the available and proposed facilities and resources; (5) the necessity of the budget components requested in relation to the proposed project; and (6) the relevance and importance to stated program objectives. The following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the qualifications of the proposed principal investigator, supporting staff, and consultants; (3) the technological innovation of the proposed research; (4) the potential of the proposed research for commercial application; (5) the appropriateness of the budget requested; (6) the adequacy and suitability of the facilities and research environment; and (7) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation, originality, or societal importance of the proposed research; (5) the potential of the proposed research for commercial application; (6) the reasonableness of the budget requested for the work proposed; (7) the adequacy and suitability of the facilities and research environment; and (8) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment.

93.116 Project Grants and Cooperative Agreements for Tuberculosis Control Programs

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

National strategy for combating and eliminating tuberculosis, Title 42 Public Health Service Act, Part B, Section 317E(a), 42 USC USC Code 247b-6(a).

OBJECTIVES:

To assist State, local health agencies, political subdivisions, and other government entities to conduct TB preventive health service programs to assist in carrying out tuberculosis (TB) control activities designed to prevent transmission of infection and disease. Financial assistance is provided to TB programs to ensure that the program needs for core TB prevention and control activities, human resource development and public health laboratories are met. In addition, objectives include: finding all cases of active tuberculosis and ensuring completion of therapy; finding and screening persons who have had contact with TB patients, evaluating them for TB infection and disease, and ensuring completion of appropriate treatment; and conducting TB surveillance and TB public health laboratory activities that are essential to addressing these priorities. Each of these core activities (completion of therapy, contact investigation, TB surveillance, and TB laboratory activities) is essential to effective TB prevention and control.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Project funds may be used to support both local personnel and individuals in direct assistance (i.e., "in lieu of cash") positions under Section 317 of the Public Health

Reports:

See notice of funding opportunity (NOFO) for details. CDC programs must require awardees to submit performance measures annually as a minimum, and may require reporting more frequently. Performance measure reporting must be limited to data collection. When funding is awarded initially, CDC programs must specify required frequency, data fields, and format. The Annual Performance Report is due no later than 120 days prior to the end of the budget period. The Annual Performance Report serves as the continuing application. This report should include the information specified in the notice of funding opportunity (NOFO). The Annual Federal Financial Report is required 90 days after the end of each budget period. Final Financial Reports are required 90 days after the end of a project period. Annual Federal Financial Reports are required 90 days after the end of each budget period. Annual financial status reports are required no later than 90 days after the end of each budget period. Final financial status reports are required 90 days after the end of a project period. See notice of funding opportunity (NOFO) for details. Awardees will meet the annual requirement to report on performance measures with the submission of an Annual Performance Report. However, CDC may request an additional report, the Performance Measure Report, in certain instances such as a jurisdiction's response to a large TB outbreak.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

Records:

Financial records, supporting documents, statistical records, and all other records pertinent to an award shall be retained for a period of three years from the date of submission of the final expenditure report or, for awards that are renewed quarterly or annually, from the date of the submission of the quarterly or annual financial report. If any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records shall be retained until all litigation, claims or audit findings involving the records have been resolved and final action taken. Property records must be retained in accordance with 45 CFR 74.53 and HHS Grants Policy Statement requirements.

93.117 Preventive Medicine Residency

Preventive Medicine Residency Program (PMR),

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Sections 768 of the Public Health Service Act (42 U.S.C. 295c),

OBJECTIVES:

Grants are intended to promote postgraduate medical education in the specialty of preventive medicine. Preventive Medicine is the specialty of medical practice which focuses on the health of individuals and defined populations in order to protect, promote, and maintain health and well-being and prevent disease, disability and premature death. Preventive medicine training includes direct patient care, biostatistics, epidemiology, social and behavioral sciences, health services administration, environmental health sciences, and practicing prevention in clinical medicine. It is one of the 40 medical specialties recognized by the American Board of Medical Specialties. Preventive Medicine encompasses three areas of specialization: (1) Public Health and General Preventive Medicine, (2) Occupational Medicine, and (3) Aerospace Medicine.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Awards are intended to assist in meeting the costs of planning and developing new preventive medicine programs; maintaining or improving existing residency training programs in preventive medicine, and providing financial assistance to medical residents enrolled in such programs. The applicants are required to propose a plan for evaluating any improvements in the educational program, such as the effect of the interventions on the knowledge, skills, and practices of the residents. Indirect costs under training awards to organizations other than State, local or American Indian tribal governments will be budgeted and reimbursed at 8 percent of modified total direct costs rather than on the basis of a negotiated rate agreement, and are not subject to upward or downward adjustment. Funds may not be used for the following purposes: new construction or major renovation activities, international training or travel, or specialty board certification exam fees.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes

institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Eligible Preventive Medicine Residency program grants are: (1) an accredited school of public health or school of medicine or osteopathic medicine; (2) an accredited public or private nonprofit hospital; (3) a State, local, or tribal health department; or (4) a consortium of 2 or more entities described in (1) through (3). Refer to the relevant Notice of Funding Opportunity for more specific information regarding eligibility. Federally Recognized Indian Tribal Government and Native American Organizations may apply if they are otherwise eligible.

Beneficiary Eligibility:

Individual/Family; Minority group; Specialized group (e.g. health professionals, students, veterans); Private nonprofit institution/organization; Scientist/Researchers; U.S. Citizen; Women; Public nonprofit institution/organization; For Preventive Medicine Residency program grants, each trainee receiving stipend support must: (a) be a citizen of the United States, a non-citizen U.S. national, or a foreign national having in his or her possession a visa permitting permanent residence in the United States; (b) be a physician who has graduated from an accredited school of medicine or osteopathic medicine in the United States; or if a graduate from a foreign school, meet the criteria of the Educational Commission for Foreign Medical Graduates, for entry into the program supported by this grant; and (c) plan to complete the grant-supported program and engage in the practice and/or teaching of preventive medicine, especially in positions which meet the needs of medically underserved populations.

Credentials/Documentation:

Applicants should review the individual HRSA Notice of Funding Opportunity issued under this CFDA program for any required proof or certifications which must be submitted with an application package. The preventive medicine residency must provide documentation of current accreditation from ACGME or AOA or documentation from ACGME related to submission of an application for accreditation. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov. All eligible, qualified applications will be forwarded to an objective review committee. Based on the advice of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions. Notice of Funding Opportunities (NOFO) for this listing will be posted on Grants.gov.

Award Procedure:

Notification is made in writing through a Notice of Award.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Approximately 120 to 180 days after receipt of applications.

Appeals:

Not Applicable.

Renewals:

Other. Depending on Agency priorities and availability of funding, during the final budget year of the approved project period competing continuation applications may be solicited from interested applicants.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. This program has MOE requirements, see funding agency for further details. Additional Information: The recipient must agree to maintain non-federal funding for grant activities at a level which is not less than expenditures for such activities during the fiscal year prior to receiving the award..

ASSISTANCE LISTINGS DESCRIPTIONS

Length and Time Phasing of Assistance:

The PMR funding opportunity provides support for a 5-year project period. Method of awarding/releasing assistance: Recipients drawdown funds, as necessary, from the Payment Management System (PMS). PMS is the centralized web based payment system for HHS awards. Method of awarding/releasing assistance: other

Reports:

Both program and financial reports are required. The recipient will be required to submit annual performance and progress reports. A Federal Financial Report (SF-425) is required according to the schedule in HRSA's Application Guide. A final report is due within 90 days after the project period ends. If applicable, the recipient must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170. (The FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation recipients may be subject to this requirement and will be so notified in the Notice of Award.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Recipients are required to maintain grant accounting records 3 years from the date they submit the Federal Financial Report (FFR). If any litigation, claim, negotiation, audit or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2020: In academic year (AY) 2020-2021, the PMR Program awardees continued to provide assistance and learning experiences in state and local health departments and to address current public health issues. Each program focused on meeting the needs of underserved populations. In addition, all programs required their residents to have both academic and practicum experience focused on the proposed Healthy People 2030 Objectives, clinical preventive services, as well as clinical and population health practice. In AY 2019-2020 (the most recent year with available data), the National Center of Health Workforce Analysis reported that the PMR Program financially supported 85 residents, the majority of whom received clinical or experiential training in a primary care setting (81 percent) and/or a medically underserved community (71 percent). Approximately 79 percent of residents received COVID-19 related training in response to the COVID-19 pandemic. Of the 57 residents who completed their residency training programs during the academic year, 33 percent intended to pursue employment or further training in medically underserved communities. PMR awardees collaborated with 195 sites to provide 239 clinical training experiences for PMR residents (e.g., academic institutions, ambulatory care sites, state and local health departments,

health centers and hospitals).

REGULATIONS, GUIDELINES, AND LITERATURE:

All administrative and audit requirements and the cost principles that govern Federal monies associated with this activity will be subject to the Uniform Guidance 2 CFR 200 as codified by HHS at 45 CFR 75. HRSA awards are also subject to the requirements of the HHS Grants Policy Statement (HHS GPS) that are applicable based on recipient type and purpose of award. CRITERIA FOR SELECTING PROPOSALS:

Procedures for assessing the technical merit of grant applications have been instituted to provide an objective review of applications and to assist the applicant in understanding the standards against which each application will be judged. Critical indicators have been developed for each review criterion to assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by nonfederal expert consultant(s) for technical merit recommendations. Applications will be reviewed and evaluated against the following criteria: (1) Purpose and Need; (2) Response to Program Purpose; (3) Impact; (4) Organizational Information, Resources and Capabilities; and (5) Support Requested. See the most recent Notice of Funding Opportunity for detailed selection criteria.

An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicant must download application forms from www.grants.gov. Applications must be submitted electronically at www.grant.gov. If an applicant does not have access to the Internet, or if they have difficulty accessing the forms on-line, contact the CDC Office of Grants Services Technical Information Management Section (OGSTIMS) staff. For this, or further assistance, contact OGSTIMS: Telephone (770) 488-2700, Email: OGSTIMS@cdc.gov. This program is subject to the provisions of 45 CFR, Parts 74 or 92, as appropriate.

Award Procedure:

After review and approval, a notice of award (NoA) is prepared and processed, along with appropriate notification to the public. Initial award provides funds for first budget period (12 months) and NoA indicates support provided in the initial award and the recommended funding amounts for the remainder of project period, allocation of Federal funds by budget categories, and special conditions, if any.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

93.121 Oral Diseases and Disorders Research

Dental, Oral and Craniofacial Research.,

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Title IV, Section 301, Public Law 78-410

OBJECTIVES:

To improve oral, dental and craniofacial health through performing and supporting basic, translational, and clinical research; conducting and funding research training and career development programs to ensure an adequate number of talented, well-prepared, and diverse investigators; coordinating and assisting relevant research and research-related activities among all sectors of the research community; and promoting the timely transfer of knowledge gained from research and its implications for health to the public, health professionals, researchers, and policy-makers. 1. The Behavioral and Social Sciences (BSS) Research Program supports basic and applied BSS research to promote oral health, to prevent oral diseases and related disabilities, and to improve management of craniofacial conditions, disorders and injury. 2. The Clinical and Practice-Based Research Program supports cross-sectional descriptive, case-control, prospective cohort and retrospective studies of dental, oral, and craniofacial diseases and disorders. The NIDCR-supported National Dental Practice-Based Research Network is a program in which national oral health studies are conducted in dental practices on topics of importance to practitioners and their patients. 3. The Clinical Trials Program supports improving oral health with high-quality evidence derived from well-executed Phase I, II, III, and IV clinical trials. 4. The Data Science, Computational Biology and Bioinformatics Program focuses on challenges in integrating and interpreting diverse and high-volume data to better understand dental, oral, and craniofacial conditions and their health consequences including the areas of bioinformatics, data science, computational biology and computational genomics, and systems biology approaches to dental, oral, and craniofacial research. 5. The Dental Materials and Biomaterials Program supports development of innovative approaches to restore tissue function by replacement and/or enhancement of dental, oral and craniofacial tissues compromised by trauma or disease. NIDCR encourages basic and translational extramural research in dental materials, medical devices, biosensors, imaging, dental implants, biocompatibility of dental materials, and biomaterials for craniofacial restoration and reconstruction. 6. The Developmental Biology and Genetics program supports basic and translational research to better understand the development of craniofacial structures from the early embryonic specification of the neural crest through the later development of teeth and craniofacial sutures. This program also supports research into the genetic and environmental contributions to craniofacial disorders, particularly their study in model organisms. 7. The Health Disparities Research Program supports studies that: provide a better understanding of the basis of oral health disparities and inequities; develop and test interventions tailored/targeted to underserved populations; seek to understand a broadened array of determinants of disparities/inequities in oral health status and care at multiple levels; take a holistic, social ecological, multi-level interventional approach designed to have a meaningful impact on oral health status and quality of life of vulnerable and underserved populations. 8. The HIV/AIDS and Oral Health Research Program supports extramural basic, translational and clinical research on HIV/AIDS to advance understanding of the underlying molecular, cellular, immunological and genetic mechanisms of HIV infection, the development of oral co-morbidities associated with HIV/AIDS, and the effects of HIV treatments on oral and dental tissues. 9. The Microbiology Program supports basic research examining the role of the oral microbiota (comprising bacteria, archaea, fungi and viruses) in dental health and disease as well as preclinical studies aimed at developing new prevention and treatment options for dental infections. Topics include examining the oral microbiota through studies in microbial ecology, physiology and genetics;

polyomic technologies (genomics, metagenomics and systems biology); mechanisms of microbial virulence and pathogenesis; and classical prevention and treatment strategies for combating infectious disease. 10. The Mineralized Tissue Physiology Program supports basic and translational science research on craniofacial skeletal biology and pathobiology, and pharmacogenetics, and promotes interdisciplinary and multidisciplinary approaches to advance the understanding of normal and abnormal processes underlying oral, dental, and craniofacial diseases and disorders. 11. The Neuroscience of Orofacial Pain and Temporomandibular Disorders Program supports basic, translational, and clinical research on: orofacial pain and neuropathies, temporomandibular joint and muscle disorders, development of biomarkers for diagnostics and prognostics, and development of therapeutics. 12. The Oral and Salivary Cancer Biology Program supports basic and translational research to improve detection and treatment of cancers of the oral cavity, pharynx, and salivary glands. Basic research focuses on susceptibilities and mechanisms that influence tumor initiation, promotion, and progression. Translational research focuses on development of innovative biomarkers, novel diagnostic technologies, and appropriate human specimens to better characterize cancers and improve medical decision making and treatment response evaluation. 13. The NIDCR research training and career development programs span the career stages of scientists, supporting training for basic, clinical, behavioral, and other research related to the NIDCR mission. 14. The Salivary Biology and Immunology Program encourages basic and translational research that furthers our understanding of the biology of saliva and salivary gland, immunology of oral diseases, and oral manifestations of systemic and infectious diseases; develops new tools and technologies to address challenges in these areas, and explores pathways toward commercialization and therapeutics. 15. The Tissue Engineering and Regenerative Medicine Program supports basic and translational research on employing bioengineering- and stem cell biology- based approaches for the reconstruction, repair, and regeneration of dental, oral, and craniofacial (DOC) tissues damaged because of disease or injury. The goal of this program is to advance engineering of biocompatible DOC tissue constructs and their functional integration into the host tissue microenvironment, and to support efforts aimed at healing and regeneration of endogenous host tissues. 16. The Translational Genetics and Genomics Program supports research designed to identify the genetic and molecular mechanisms underlying dental, oral, and craniofacial diseases and health. 17. The Small Business Innovation Research (SBIR) program seeks to increase private sector commercialization of innovations derived from Federal research and development; to increase small business participation in Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation. 18. The Small Business Technology Transfer (STTR) program seeks to stimulate and foster scientific and technological innovation and foster technology transfer through cooperative research and development carried out between small business concerns and research institutions; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation.

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants, Project Grants (Contracts), Project Grants (Fellowships), Project Grants (Special)

USES AND USE RESTRICTIONS:

Research Project Grants and Cooperative Agreements: provide funds for salaries, equipment, supplies, travel, and other expenses associated with scientific investigation in the dental, oral and craniofacial health sciences. They are awarded to universities, colleges, medical and dental schools, hospitals, and other nonprofit and for-profit institutions. Awards include investigator-initiated project grants, exploratory and developmental grants, small grants, center grants, conference grants, and career development awards. Individual and institutional dual degree (DDS or DMD/PhD) awards provide support for research career development in both clinical and basic science. National Research Service Awards (NRSAs) provide support for research training in specified biomedical areas, and can be made to institutions to enable them to accept individuals for research training. Individuals who receive NRSAs may be obligated upon termination of the award to comply with service and payback provisions. SBIR Phase I grants (duration of approximately 6 months) provide support to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or

ASSISTANCE LISTINGS DESCRIPTIONS

process. Phase II grants support the continuation of the research initiated in Phase I to further develop the commercial products or process initiated in Phase I. Only Phase I awardees are eligible to receive Phase II support. STTR Phase I grants (duration of typically 1 year) support cooperative efforts between small businesses and research institutes to determine the scientific and technical merit, and commercial feasibility of a product or process with potential for commercial application. Phase II funding is based on the results of the research initiated in Phase I and the scientific and technical merit, and commercial potential of the Phase II application.

Applicant Eligibility:

Government - General; Interstate; Intrastate; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Sponsored organization; Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; U.S. Territories and possessions (includes institutions of higher education and hospitals); Non-Government - General; Specialized group (e.g. health professionals, students, veterans); Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Other private institutions/organizations; State; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Research Project Grants: Scientists at universities, colleges, medical and dental schools, hospitals, laboratories, and other public or private nonprofit and for-profit institutions. NRSA and career development awards: (1) Nonprofit domestic organizations may apply for institutional awards. (2) Individual candidates or applicants must arrange sponsorship by a public or nonprofit private institution having staff and facilities appropriate to the proposed research training program. (3) All awardees must be citizens, or non-citizen nationals, of the United States or have been admitted to the United States for permanent residence, except for K99/R00, F99/K00, and T90/R90 grants. (4) To be eligible, postdoctoral NRSA and career development awardees must have a professional or scientific degree (M.D., Ph.D., D.D.S., D.V.M., Sc.D., D.Eng., or equivalent domestic or foreign degree). Institutional applicants must be able to provide the staff and facilities suitable for the proposed research training. SBIR and STTR grants: Can be awarded only to domestic small business concerns that meet the following criteria: 1) Is organized for profit, with a place of business located in the United States, which operates primarily within the United States or which makes a significant contribution to the United States economy through payment of taxes or use of American products, materials or labor; 2) Is in the legal form of an individual proprietorship, partnership, limited liability company, corporation, joint venture, association, trust or cooperative, except where the form is a joint venture, there must be less than 50 percent participation by foreign business entities in the joint venture; 3) Be a concern which is more than 50% directly owned and controlled by one or more individuals (who are citizens or permanent resident aliens of the United States), other business concerns (each of which is more than 50% directly owned and controlled by individuals who are citizens or permanent resident aliens of the United States), or any combination of these; no single venture capital operating company, hedge fund, or private equity firm may own more than 50% of the concern, 4) Has, including its affiliates, not more than 500 employees, and 5) meets the other regulatory requirements found in 13 C.F.R. Part 121. For STTR awards, the small business must "partner" with a research institution in a cooperative research and development project. In both Phase I and Phase II for both SBIR and STTR, the research must be performed in the U.S. and its possessions. To be eligible for funding, all grant applications must be evaluated for scientific merit and program relevance by a scientific peer review group and the National Advisory Dental and Craniofacial Research Council.

Beneficiary Eligibility:

Small business; Profit organization; Private nonprofit institution/organization; Health Professional; Education Professional; Student/Trainee; Graduate Student; Scientist/Researchers; Industrialist/ Business person; Small Business Person; Public nonprofit institution/organization; Other public institution/organization; Health professionals, graduate students, undergraduate students, health professional students, scientists, researchers, and any nonprofit or for-profit organization, company or institution engaged in biomedical research.

Credentials/Documentation:

Research Project Grants: Applications must include the specific aims (objectives) of the research, background and significance, research design and methods, investigator qualifications, innovation, approach/methodology, and environment/resources for the proposed project. NRSA and career development awards: (1) Individual Award Candidates: the applicant's academic record, research experience, citizenship, institutional sponsorship, proposed research area, and plan for training, must be included in the application. (2) Institutional Award Candidates: the application must include the objectives, methodology, and resources for the research training program, the research qualifications and experience of participating faculty in training students and fellows, and the criteria to be used in selecting individuals for support. Costs will be determined in accordance with OMB Circular No. A-87 for State and Local Governments. Costs for for-profit organizations are determined in accordance with the Federal Acquisition Regulations Subpart 31.2. For other than State and Local Government grantees, costs will be determined by Health and Human Services (HHS) Regulations 45 CFR, Part 74, Subpart Q. For SBIR and STTR grants, the applicant organization (small business) must present an idea in the research plan that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications for Federal assistance must be submitted electronically through Grants.gov (<http://www.grants.gov>) using the SF424 Research and Related (R&R) forms and the SF424 (R&R) Application Guide (<http://grants.nih.gov/grants/forms.htm>). A registration process through Grants.gov is necessary before submission. Applicants are strongly encouraged to start the registration process at least four weeks prior to the applications submission date. Notice of Funding Opportunities (NOFO) for this listing will be posted on Grants.gov.

Award Procedure:

All accepted grant applications competing for research project grants, career development awards, and NSRA awards are reviewed by two advisory groups. Primary review is conducted by an initial review group composed of extramural peer scientists, and secondary review by the National Advisory Dental and Craniofacial Research Council (NADCRC). Secondary review of NRSA fellowship applications is conducted by NIDCR staff rather than by the NADCRC. All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate initial review group and by the NADCRC. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

>180 Days. Research Project Grants, SBIR/STTR, and NSRA: From 6 to 9 months.

Appeals:

From 90 to 120 days. A Principal Investigator (PI) may question the technical or procedural aspects of the review of his/her application by communicating with the program staff of the Institute. CRITERIA FOR SELECTING PROPOSALS:

The primary criteria for evaluating grant applications include assessment of: (1) the scientific merit, significance and overall impact of the proposed study and its objectives; (2) the competency of the proposed investigator(s) to successfully pursue the project; (3) the innovation and novelty of the concepts, approaches, or methodologies; (4) the technical adequacy of the experimental design and approach; (5) the adequacy of the available proposed facilities and resources; (6) the necessity of the budget components requested in relation to the proposed project; and (7) the relevance and importance to the posted institute program objectives. Also evaluated, where applicable, but not scored are: (1) protections for human subjects; (2) inclusion of women, minorities, and children; (3) vertebrate animal welfare; and (4) adequate protection of research personnel and/or the environment, biosafety, biocontainment and the security of select agents; (5) resource sharing plans; (6) authentication of key biological and/or chemical resources, (7) budget and period of support. In addition, the following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: the potential of the proposed research for commercial application. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the technological innovation, originality, or societal importance of the proposed research; and (4) the potential of the proposed research for commercial application. NRSA individual fellowship applications will be evaluated for: (1) overall impact/merit; (2) suitability of the applicant; (3) qualifications of the sponsor(s)/collaborator(s); (4) scientific merit of the research training plan; (5) training potential; and (6) institutional environment and commitment to training. NRSA institutional training grants are assessed for: (1) overall impact; (2) merit of the training program and institutional environment; (3) the experience and success of the training program directors, PIs, and mentors; (4) the trainee recruitment plan and selection; and (5) the training record of the program and/or institution. Career Development applications will be evaluated for: (1) overall impact; (2) qualifications of the candidate; (3) the career plan and career goals/objectives of the candidate; (4) scientific merit of the research plan. (5) qualifications of the mentor(s), consultant(s) and collaborator(s); and (5) institutional environment and commitment to career development.

93.123 Health Professions Pre-graduate Scholarship Program for Indians

FEDERAL AGENCY:

INDIAN HEALTH SERVICE, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF
AUTHORIZATION:

Indian Health Care Improvement Act, , Public Law 94-437

OBJECTIVES:

To provide scholarships to American Indians and Alaska Natives for the purpose of completing pre-graduate education leading to a baccalaureate degree only in the following areas: (1) Pre-medicine: priority as follows: senior, junior, sophomore, freshman; (2) Pre-dentistry: priority as follows: senior, junior, sophomore, freshman; (3) Pre-optometry: priority as follows: senior, junior, sophomore, freshman; (4) Pre-podiatry: priority as follows: senior, junior, sophomore, freshman.

TYPES OF ASSISTANCE:

descent. Support is limited to 4 years of full-time education, or part-time equivalent for a maximum of 8 years.

Applicant Eligibility:

Minority group; Individuals of American Indian or Alaska Native descent, who have successfully completed high school education or high school equivalency, and have been accepted for enrollment or are enrolled in an accredited pre-graduate program in a pre-medicine, pre-dentistry, pre-optometry or pre-podiatry curriculum.

Beneficiary Eligibility:

American Indian; Other Non-White; Individuals of American Indian or Alaska Native descent.

Credentials/Documentation:

Individuals of American Indian or Alaska Native descent, who have successfully completed high school education or high school equivalency, and have been accepted for enrollment or are enrolled in an accredited pre-graduate program in a pre-medicine, pre-dentistry, pre-podiatry or pre-optometry curriculum. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Application form OMB No. 0917-0006 and instructions are provided by the Indian Health Service and are usually available to interested individuals in December (www.ihs.gov/scholarship/applynow). An application form and required documentation (official transcripts, letter of acceptance by college, curriculum verification, Indian eligibility, tuition verification, faculty evaluations) are submitted to IHS Headquarters for review and approval/disapproval.

Award Procedure:

Grants are awarded on a competitive basis. Funding covers only Tuition and Fees. Tuition and fee payments are made to the recipient's college or university.

Deadlines:

December 15, 2020 - March 28, 2021. The application cycle opens in mid-December 2020 and closes on February 28, 2021 for current scholarship recipients interested in extending their scholarship for another year. The application deadline for new scholarship applicants is March 28, 2021.

Range of Approval/Disapproval Time:

From 60 to 90 days. Grants are approved or disapproved by July 1, 2021, by the Indian Health Service, Division of Grants Management.

Nurse Anesthetist Traineeship (NAT).

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Section 811 of the Public Health Service (PHS) Act, (42 U.S.C. 296j).

OBJECTIVES:

The purpose of the Nurse Anesthetist Traineeship Program is to support eligible entities to meet the cost of traineeships for individuals in Nurse Anesthesia degree programs and increase the number of Certified Registered Nurse Anesthetists (CRNAs) providing care, especially to rural and underserved populations.

TYPES OF ASSISTANCE:

ASSISTANCE LISTINGS DESCRIPTIONS

Formula Grants

USES AND USE RESTRICTIONS:

Funds may be used for traineeship support to licensed registered nurses enrolled as full-time students in accredited graduate-level nurse anesthesia programs.

Traineeships may include full or partial costs of the tuition, books/eBooks, fees, and reasonable living expenses (stipends) for the individual during the traineeship. Restricted Uses: Funds may not be used for travel, daily commuting costs of trainees, non-trainee expenses, or indirect costs of the educational institution.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Eligible applicants are accredited schools of nursing, nursing centers, academic health centers, state or local governments, and other public or private nonprofit entities determined appropriate by the Secretary. Domestic faith-based and community-based organizations, tribes, and tribal organizations are eligible to apply for these funds, if otherwise eligible. Any school(s) of nursing affiliated with the application must be accredited by the Council on Accreditation of Nurse Anesthesia Educational Programs at the time of application, and for the duration of the award, to provide registered nurses with full-time anesthetist education. In addition to the 50 states, eligible applicants from the District of Columbia, Guam, the Commonwealth of Puerto Rico, the Northern Mariana Islands, American Samoa, the U.S. Virgin Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau may apply.

Beneficiary Eligibility:

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2020: The Living Organ Donation Reimbursement Program: At the end of calendar year 2020, there were close to 3360 transplant programs in the United States participating in NLDAC. In calendar year 2020, NLDAC received more than 800 applications for assistance, and more than 725 (89 percent) met the NLDAC eligibility guidelines. NLDAC provided approximately \$1.3 million in travel expense reimbursement and facilitated nearly 350 living organ transplants. The median household income of the transplant recipients was \$30,670 and the donors median household income was \$52,094. Since its inception in 2007, the NLDAC received more than 11,000 applications for financial assistance and facilitated more than 6,000 living organ transplants. The NLDAC has provided more than \$20 million in financial assistance to living donors and potential donors. Increasing Organ Donation Awareness Grant Program: A broad spectrum of interventions to increase donation has been implemented at the national, State, and local levels by a variety of public and private organizations, ranging from large-scale national media and public education programs and statewide donor registries to community-based activities to raise awareness among various population groups. These projects have contributed to the knowledge base about important factors associated with the donation decision-making process and methods for motivating people to make the commitment to become deceased organ donors as well as educating the public about living donation and vascularized composite allograft (VCA) donation.

REGULATIONS, GUIDELINES, AND LITERATURE:

This program is subject to the provisions of 45 CFR Part 92 for State, local and

EXAMPLES OF FUNDED PROJECTS:

2020 Living Organ Donation Reimbursement Program: HRSA awards one cooperative agreement for a national program to provide reimbursement of travel, housing, meals, and other expenses that may the Secretary of Health may allow. The current grantee through partnership with other private non-profit entities established the National Living Donor Assistance Center to operate this national program to support living donors. The current 5-year grant was awarded in FY 2019 and runs through August 31, 2024. Increasing Organ Donation Awareness Grant Program: Three projects were funded in FY 2018: Two focused on increasing awareness and knowledge about opportunities for as well as the risks and benefits associated with living donation. These grantees and their project titles are Erie County Medical Center Corporation, Living Donation and Kidney Transplantation Information Made Easy (Kidneytime) with Animated Video Education, and, University of California, Los Angeles, Ensuring Informed Decision-Making for Paired Kidney Donation: A National Kidney Registry Education Collaborative. The third funded project focused on increasing knowledge about vascularized composite allografts (VCA) and willingness to become a VCA deceased donor or provide authorization for a deceased relative to become a VCA donor. The grantee is Beth Israel Deaconess Medical Center whose project focused on A Randomized Trial to Increase Donor Registration and VCA Donation Willingness in Veterans. No new funding opportunities in FYs 2019, 2020, and 2021. Lost Wages Support for Living Organ Donors (Demonstration Project): One cooperative agreement awarded under this program in FY 2019. The grantee is assessing the impact of reimbursement of lost wages on individuals willingness to become living organ donors, and will inform HRSA on the most effective and efficient mechanism to provide this support to living donors. No new funding opportunities in FYs 2020 and 2021.

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. This program is subject to the provisions of 45 CFR Part 75 as appropriate. Funding Opportunity Announcements for this program are posted on www.Grants.gov, the official federal agency wide e-grant Web site. Application forms and instructions specific to each announcement are posted at that site. Electronic Submission: CDC strongly encourages the applicant to submit applications electronically by utilizing the forms and instructions posted on www.Grants.gov. Registering your organization through www.Grants.gov is the first step in submitting applications online. Registration information is located in the "Get Started" screen of www.Grants.gov and the one-time registration process will take three to five days to complete. While application submission through www.Grants.gov may be optional for various announcements, we strongly encourage you to use this online tool. Please visit www.Grants.gov at least 30 days prior to filing your application to familiarize yourself with the registration and submission processes. We suggest submitting electronic applications prior to the closing date so if difficulties are encountered, you can resolve them prior to the deadline. For further assistance contact GrantsInfo, Telephone: (301) 435-0714, E-mail: GrantsInfo@nih.gov. For the hearing impaired: TTY (770) 488-2783. If you do not have access to the Internet, or if you have difficulty accessing the forms on-line, you may contact the CDC Office of Grant Services Technical Information Management Section (OGS-TIM) staff at: (770) 488-2700. Award Procedure:

Applications will be reviewed for completeness by the Office of Grant Services (OGS) staff, and for responsiveness by the National Center for Injury Prevention and Control and OGS. Incomplete applications and applications that are non-responsive to the eligibility criteria will not advance through the review process. Applicants will be notified the application did not meet submission requirements. Successful applicants will receive a Notice of Award (NOA) from the CDC Office of Grant Services. The NOA shall be the only binding, authorizing document between the recipient and CDC. The NOA will be signed by an authorized Grants Management Officer, and mailed to the recipient fiscal officer identified in the application. FOR RESEARCH GRANTS: Applications that are complete and responsive to the announcement will be evaluated for scientific and technical merit by an appropriate peer review group convened by NCIPC in accordance with the review criteria stated below. All applications will: undergo a selection process in which only those applications deemed to have the highest scientific merit, generally the top half of applications under review, will be discussed and assigned a priority score; receive a written critique; receive a second level of review by the Board of Scientific Counselors. FOR NON-RESEARCH GRANTS/COOPERATIVE AGREEMENTS: Applicants are required to provide measures of effectiveness that will demonstrate the accomplishment of the various identified objectives of the grant or cooperative agreement. Measures of effectiveness must relate to the performance goals stated in the "Purpose" section of the announcement. Measures must be objective and quantitative and must measure the intended outcome. The measures of effectiveness must be submitted with the application and will be an element of evaluation. An objective review panel will evaluate complete and responsive applications according to the criteria listed.

93.140 Intramural Research Training Award

IRTA,

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF
AUTHORIZATION:

Health Professionals Education Partnerships Act, Title IV, Section 409, 42 USC Code 282(b)(13).

OBJECTIVES:

The National Institutes of Health (NIH) IRTA Traineeships are established for the principal benefit of the participants and to provide opportunities for developmental training and practical research experience in a variety of disciplines related to biomedical research, medical library research, and related fields. The IRTA components are: 1) Postdoctoral IRTA - designed to provide advanced practical research experience to physicians and other doctoral researchers who are at the beginning stages of their professional research careers; 2) Predoctoral IRTA - designed to provide practical research training and experience to students, by supplementing academic course work and/or encouraging pursuit of professional careers in biomedical research to students enrolled in doctoral degree programs in biomedical sciences; 3) Postbaccalaureate IRTA - designed to provide recent college graduates, particularly minorities, women, and persons with disabilities, an opportunity to postpone application to graduate or medical school and to provide a

means to introduce individuals early in their careers to research, encourage their pursuit of professional careers in biomedical research, and allow additional time to pursue successful application to either graduate or medical school programs; and 4) Student IRTA - designed to provide a developmental training experience to promising high school, undergraduate, and graduate or professional students who have expressed a strong interest in or are studying disciplines related to biomedical sciences.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

Participants in the IRTA Program will be provided access to NIH facilities and equipment and assistance in their training from senior NIH researchers. Trainees may not engage in primary patient care activities, be assigned official supervisory responsibilities, or sign documents on behalf of the Government. Funding support will come from the individual National Research Institutes, Centers and Divisions (ICD) that comprise the National Institutes of Health. All funding is discretionary and subject to the availability of appropriations and apportionment. The IRTA Program does not include financial loans.

Applicant Eligibility:

Individual/Family; Candidates for the IRTA Program must be U.S. Citizens or Permanent Residents: 1) Postdoctoral IRTA participants must possess a Ph.D., M.D., D.D.S., D.M.D., D.V.M. or equivalent degree in biomedical, behavioral, or related sciences; or certification by a university as meeting all the requirements leading to such a doctorate; 5 or fewer years of relevant postdoctoral experience and up to 2 additional years of experience not oriented toward research (i.e., clinical training for physicians); 2) Predoctoral IRTA participants must be: a) students enrolled in Ph.D., M.D., D.D.S., D.M.D., D.V.M., or equivalent degree programs at any accredited U.S. or foreign university, which frequently involves dissertation research. The research experience is undertaken as an integral part of the student's ongoing academic preparation and is credited toward completion of degree requirements; or b) students who have been accepted into graduate or medical degree programs and who have written permission from their school to interrupt their current schooling and to return within 1 year to their degree granting programs; 3) Postbaccalaureate IRTA participants are individuals who have received a bachelor's degree no more than 3 years prior to the activation date of the traineeship or a master's degree no more than 6 months prior to the activation date of the traineeship, and who intend to apply to graduate, other doctoral, or medical degree programs during the program or students who have been accepted into graduate, other doctoral, or medical degree programs and who have written permission of their school to delay entrance for up to 1 year; and 4) Student IRTA participants are at least 17 years of age and are enrolled at least half-time in high school or have been accepted for or are enrolled as an undergraduate or graduate student in an accredited college or university and are in good academic standing. U.S. citizens may be enrolled anywhere in the world; permanent residents must be enrolled in the U.S.

Beneficiary Eligibility:

Scientist/Researchers; The IRTA Program benefits the participants by combining an opportunity for study with practical work experience and valuable research training experience at the NIH.

Credentials/Documentation:

These standards are contained in the Applicant Eligibility section. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under 2 CFR 200, Subpart E, Cost Principles.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Postdoctoral applicants submit their materials directly to NIH investigators; all other applicants submit materials to the NIH Office of Intramural Training & Education via online application systems : 1) Postdoctoral IRTA applicants must submit the documents requested by the investigator, generally a CV and letters of reference; 2) Predoctoral IRTA applicants must submit CV, bibliography, 3 letters of reference

emphasizing research potential, statement of research goals, an official copy of undergraduate, graduate, and/or medical school transcript(s), and verification from the university that the applicant is in good academic standing, is enrolled in a doctoral degree program, and has the school's approval to participate. In addition, (if applicable), they must have written permission from their institutions to interrupt their educational program including a written agreement allowing students to return to their degree program within 1 year; 3) Postbaccalaureate applicants must submit CV, 3 letters of reference emphasizing potential, statement of research goals, and official copy of undergraduate school transcript; and 4) student IRTA applicants must submit a resume or CV, 2 letters of reference, official copy of school transcript, and statement of interest in biomedical research.

Award Procedure:

Awards are made by the interested Institutes or Centers based on the information provided by the applicant, the availability of NIH researchers to provide training, and the availability of financial and other resources to support the research training.

Deadlines:

November 15, 2020 - March 01, 2021. This is the standard application period for the NIH Summer Internship Program. The bulk of Student IRTAs are summer interns. Applications are accepted from mid-November to March 1. August 01, 2020 - December 01, 2020. This is the standard application period for several NIH Graduate Partnerships Program Institutional Partnerships. This is one path for admission for Predoctoral IRTAs.

Additional admissions paths for Predoctoral IRTAs are available year round.

Applications for Postbaccalaureate and Postdoctoral IRTA positions are accepted year round.

93.142 NIEHS Hazardous Waste Worker Health and Safety Training

Superfund Worker Training Program (WTP),

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

Superfund Amendments and Reauthorization Act of 1986, as amended, Title I,
Section 126, Public Law 99-499; Public Health Service Act, Section 405(b)(1)(C),
as amended, Public Law 99-158.,

OBJECTIVES:

To provide cooperative agreements and project grant support for the development and administration of model worker health and safety training programs consisting of classroom, online, and practical health and safety training of workers and their supervisors, who are engaged in activities related to hazardous materials, hazardous waste generation, treatment, storage, disposal, removal, containment, transportation, or emergency response. To assist organizations in the development of institutional competency to provide appropriate training and education to hazardous waste workers.

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

Cooperative agreements and project grants are intended to support the direct costs of a project, in accordance with an approved budget, plus indirect costs at a pre-established rate. Both the award and use of funds are subject to applicable provisions of basic statutory authorities, appropriations acts, pertinent regulations, and operating policies of the National Institute of Environmental Health Sciences (NIEHS), the National Institutes of Health (NIH), and the Department of Health and Human Services (DHHS).

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; U.S. Territories and possessions (includes institutions of higher education and hospitals); Non-

Government - General; Specialized group (e.g. health professionals, students, veterans); Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Other private institutions/organizations; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); U.S. Territories and possessions; Federally Recognized Indian Tribal Governments; A public or private nonprofit entity, Nonprofits with 501(c)(3) IRS Status (Other than Institutions of Higher Education), including tribal governments, that provide worker health and safety education and training, may submit an application and receive a cooperative agreement or project grant for support of waste worker education and training by a named principal investigator. Recipients/grantees may use services, as appropriate, of other public or private organizations necessary to develop, administer, or evaluate proposed worker training programs, as long as the requirement for awards to nonprofit organizations is not violated. Nonprofit organizations which are incorporated under 501(c)(4) are prohibited from receiving grants.

Beneficiary Eligibility:

U.S. Territories; Specialized group (e.g. health professionals, students, veterans); Small business; Profit organization; Private nonprofit institution/organization; Other private institution/organization; Native American Organizations; State; Local; Public nonprofit institution/organization; Other public institution/organization; Any public or private entity providing worker safety and health education and training will benefit from this program.

Credentials/Documentation:

The cost principles for awards under this program are set forth in HHS regulations at 45 CFR 75, Subpart E and Appendix IX (hospitals) to Part 75. Commercial organizations are subject to the cost principles located at 48 CFR 31.2 Federal Acquisition Regulation. See the NIH Grants Policy Statement (NIH GPS) for further guidance on the applicability of cost principals (<http://grants.nih.gov/grants/policy/nihgps/index.htm>). 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Awards made under this program are subject to 2 CFR 200, as implemented by 45 CFR 75 Public Welfare, Uniform Administrative Requirements, Cost Principles and Audit Requirements for HHS Awards. The policies and procedures generally applicable to NIH grants are set forth in the NIH GPS (<http://grants.nih.gov/grants/policy/nihgps/index.htm>). Application forms and instructions for their submission are available at <http://grants.nih.gov/grants/forms.htm>. Applicants are encouraged and, in some cases, required to consult with NIEHS Program Officials prior to submission of an application. Detailed information about NIEHS grant programs and staff contacts can be found at <http://www.niehs.nih.gov/research/supported/index.cfm>. Notice of Funding Opportunities (NOFO) for this listing will be posted on Grants.gov.

Award Procedure:

As required in HHS Regulations, 42 CFR Part 65, applications will be reviewed administratively by NIEHS staff for completeness and responsiveness to the program announcement. Applications then will be reviewed on a competitive basis for technical merit by an ad hoc review committee composed primarily of non-government members with expertise in occupational safety and health training and hazardous waste operations convened by the NIEHS. A second level of review will be conducted by the National Advisory Environmental Health Sciences Council. This second level of review will be for program relevance. The final approval of these recommendations and decisions concerning funding is made by the Director, National Institute of Environmental Health Sciences (NIEHS) or, in conflict, by appropriate NIH staff. Formal award notices are sent to successful applicants.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

The NIEHS Superfund Research Program is administered under Regulation 42 CFR 65a NIEHS Hazardous Substances Basic Research and Training Grants.,

OBJECTIVES:

To support innovate research and training through multi-project, interdisciplinary grants; individual investigator research grants; research education program grants;

ASSISTANCE LISTINGS DESCRIPTIONS

Small Business Innovative Research (SBIR) grants; time-sensitive grants; and conference grants. Areas of research may include: (1) advanced techniques for the detection, assessment, and evaluation of the effect on human health of hazardous substances; (2) methods to assess the risks to human health presented by hazardous substances; (3) methods and technologies to detect hazardous substances in the environment; and (4) basic biological, chemical, and physical methods to reduce the amount and toxicity of hazardous substances.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Research grants are intended to support the direct costs of a project, in accordance with an approved budget, plus an appropriate amount for indirect costs. Grants made under this program are for university-based programs, and the objective is to establish and maintain coordinated research efforts that link basic biomedical research with related engineering, hydrogeological and ecological studies. In addition, the Superfund Research Program supports small business research through the Small Business Innovative Research (SBIR) program. The award and use of funds are subject to applicable provisions of basic statutory authorities, appropriations acts, pertinent regulations, and operating policies of the National Institute of Environmental Health Science (NIEHS), the National Institutes of Health (NIH), and the Department of Health and Human Services (DHHS).

Applicant Eligibility:

Federal; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; U.S. Territories and possessions; U.S. Territories and possessions (includes institutions of higher education and hospitals); Non-Government - General; Specialized group (e.g. health professionals, students, veterans); Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Other private institutions/organizations; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); An accredited institution of higher education, as defined in the Higher Education Act, 20 U.S.C. (annotated) 3381, may submit an application and receive a grant for support of research by a named principal investigator. Subcontracts may be made with public and private organizations, including: generators of hazardous wastes; persons involved in the detection, assessment, evaluation, and treatment of hazardous substances; owners and operators of facilities at which hazardous substances are located; and State, local and Tribal governments. Nonprofit organizations which are incorporated under 501(c)(4) are prohibited from receiving grants. Organizations applying for a grant under the SBIR/STTR programs must qualify as a U.S.-owned Small Business Concern (SBC).

Beneficiary Eligibility:

U.S. Territories; Specialized group (e.g. health professionals, students, veterans); Small business; Profit organization; Private nonprofit institution/organization; Other private institution/organization; Native American Organizations; State; Local; Public nonprofit institution/organization; Other public institution/organization; Any accredited institution of higher education engaged in biomedical research and/or engineering and ecological research. SBIR awards are restricted to small business that meet NIH's criteria for SBC. Tribal entities that meet these requirements are eligible to apply.

Credentials/Documentation:

The cost principles for awards under this program are set forth in HHS regulations at 45 CFR 75, Subpart E and Appendix IX (hospitals) to Part 75. Commercial organizations are subject to the cost principles located at 48 CFR 31.2 Federal Acquisition Regulation. Ryan White HIV/AIDS Program (RWHAP) Part D Women, Infants, Children and Youth (WICY) Program,

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

42 U.S.C. 300ff-71.,

OBJECTIVES:

Part D (base): The purpose of this program is to provide family-centered care in the outpatient or ambulatory care setting (directly or through contracts or MOU) to low income, uninsured, and medically underserved women (25 years and older) with HIV, infants (up to two years of age) exposed to or with HIV, children (ages two to 12) with HIV, and youth (ages 13 to 24) living with HIV and additional support services to affected family members. Part D (supplemental): The purpose of the Ryan White HIV/AIDS Program Part D -- Women, Infants, Children, and Youth (WICY) Grants Supplemental Funding is to strengthen organizational capacity to respond to the changing health care landscape and to increase capacity to develop, enhance, or expand access to high quality family-centered care services for low income, uninsured, and underserved women, infants, children, and youth (WICY) with HIV.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

All funds must be expended solely for carrying out the approved project in accordance with the notice of funding opportunity, the terms and conditions of the award, and the applicable cost principles. No more than 10 percent of total grant funds may be used for administrative costs. All indirect costs count toward this 10% limit. Funds may not be used for purchase, construction, or major alterations or renovations on any building or other facility; purchase or improvement of land; payments for clinical research; payments for nursing home care; cash payments to intended recipients of RWHAP services; research; foreign travel; to directly provide housing or health care services (e.g., HIV care, counseling and testing) that duplicate existing services; or for any item or service to the extent that payment has been made, or reasonably can be expected to be made, with respect to that item or service under any State compensation program, insurance policy, Federal or State health benefits program or by an entity that provides health services on a prepaid basis (except for a program administered by or providing the services of the Indian

Health Services). Funds may also not be used towards PrEP or nPEP medications or medical services. As outlined in the June 22, 2016 RWHAP and PrEP program letter, the RWHAP legislation provides grant funds to be used for the care and treatment of people with HIV, thus prohibiting the use of RWHAP funds for PrEP medications or related medical services, such as physician visits and laboratory costs. However, RWHAP Part D funds can be used toward Psychosocial Support Services, a component of family-centered care, which may include counseling and testing and information on PrEP to eligible clients partners and affected family members, within the context of a comprehensive PrEP program. Additionally, the purchase of sterile needles or syringes for the purposes of hypodermic injection of any illegal drug is not allowable. Some aspects of Syringe Services Programs are allowable with HRSA's prior approval and in compliance with HHS and HRSA policy (see: <https://www.aids.gov/federal-resources/policies/syringe-services-programs/>).

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; Private nonprofit institution/organization (includes institutions of higher education and hospitals); State; Public and nonprofit private entities (including a health facility operated by or pursuant to a contract with the Indian Health Service) that provide family-centered care involving outpatient or ambulatory care (directly or through contracts or memoranda of understanding (MOUs) for WICY with HIV/AIDS.

Beneficiary Eligibility:

Section 123 of P.L. 110-275, the Medicare Improvements for Patients and Providers Act of 2008 (MIPPA); Section 711 (b) of the Social Security Act (42 U.S.C. 912(b)) as amended by section 432 of the Medicare Prescription Drug Improvement and Modernization Act of 2003. Section 2302 and Section 2401 of the American Rescue Plan Act of 2021 (P.L. 117-2),

OBJECTIVES:

The Rural Health Research Center and Telehealth Focused Rural Health Research Center programs are designed to increase the amount of publically available, high quality, impartial, policy-relevant research to assist decision makers at the federal, state, and local levels to better understand the challenges faced by rural communities and providers. The research conducted by these research centers provides information that will improve access to health care and population health. The Rapid Response Rural Data Analysis and Issue Specific Rural Research Studies program recipient assists rural communities with conducting rapid data analyses and short-term research studies to understand the impact of current and proposed policies and regulations as well as to provide information that will

ASSISTANCE LISTINGS DESCRIPTIONS

improve access to health care and population health in rural communities across the United States. Due to the nature of rural policy analysis and formulation, rural organizations and health care providers often require timely information that is available only through specialized analysis of databases of information compiled by the Centers for Medicare & Medicaid (CMS), and other federal and state agencies or provider organizations. Most rural groups and individuals do not have the capacity to store the data sets, the staff expertise to refine and analyze the data, nor the technology necessary to run statistical analyses. Findings from these analyses are used to help inform rural health care providers and stakeholders that set policies impacting rural communities. The Rural Health Research Dissemination Program recipient disseminates and markets policy-oriented information for use by diverse audiences, such as rural stakeholders at national, state, and community levels and policy decision-makers, to inform and raise awareness of issues regarding policy implications, access, quality and status of health care delivery, services, and management on behalf of rural communities. The information includes the body of research funded by the Federal Office of Rural Health Policy (FORHP) and is designed to help decision-makers and policy analysts concerned with a variety of rural health issues at national, state, and community levels better understand the problems rural communities face in assuring access to health care and promoting good health for their members. The Rural Policy Analysis Program supports research and analysis of key policy issues affecting rural communities to inform rural policy makers. Funded projects focus on the changing rural environment and (1) facilitate public dialogue on key rural policy issues by tracking emerging rural health and human services policy issues; (2) identify opportunities for integrating health and human services in rural policy, program, and evaluation in a local community context; (3) identify opportunities to demonstrate broad community impact of policies and programs in rural health and human services, consistent with policy goals related to rural revitalization and sustainability of rural regions; and (4) provide analysis of policies and regulations in the form of policy briefs, reports, webinars, and oral presentations. The purpose of the Rural Health Innovation and Transformation Technical Assistance Program (formerly called Rural Health Value) is to provide technical assistance to rural stakeholders and the public to help them understand and engage in the value-based care landscape in the context of rural health care. The Medicare Rural Hospital Flexibility Program Evaluation Cooperative Agreement supports monitoring, and evaluation to Critical Access Hospitals nationwide and to the State Rural Hospital Flexibility Program recipients to inform hospital performance improvement efforts. The Information Services to Rural Hospital Flexibility Program provides technical assistance, support, and education to the Rural Hospital Flexibility Program and the Small Rural Hospital Improvement Program. The goal of the program is to provide support and resources to assist in building capacity for rural providers. The purpose of the National Rural Health Policy, Community, and Collaboration Program is to identify, educate, engage, and collaborate with rural stakeholders on national rural health and policy issues and promising practices in an effort to improve the health of people living in rural communities nationwide. Program objectives include: identifying and educating rural stakeholders about national policy issues and promising practices for rural health; maintaining projects that will help support engagement of rural communities in a broad range of activities; facilitating partnerships and collaborations at the local, regional, state, and national levels to improve the exchange of information and promising practices that support rural health; and identifying and promoting broader collaborative federal efforts to support, promote, and address unique rural health issues. The State Offices of Rural Health Coordination and Development Program (SORHCDP) builds the capacity of the 50 State Offices of Rural Health (SORH) and rural stakeholders nationwide through strengthening leadership, increasing opportunities for collaboration, offering education on policy and emerging health issues, and supporting the core functions of the SORH. The goal of the SORHCDP is to support the 50 SORH and rural stakeholders nationwide to better coordinate and improve rural health services. The Rural Quality Improvement Technical Assistance Cooperative Agreement provides technical assistance to Federal Office of Rural Health Policy (FORHP) recipients, Critical Access Hospitals (CAHs), and other rural providers, to assist them in demonstrating improvement in quality of care for rural patients. Assistance will be provided to Flex grantees in the areas of: data collection and analysis, understanding measure specifications, benchmarking and target setting, developing and implementing efficient and effective improvement strategies, and tracking the outcomes of quality improvement efforts. The Frontier Community Health Integration Program (FCHIP) Technical Assistance, Tracking, and Analysis program provides technical assistance, site

implementation assistance, and other tracking and analytic activities to support providers participating in the FCHIP Demonstration. Activities are in support of identifying potential new approaches to health care delivery, reimbursement, and coordination in sparsely populated areas. The Rural Health Clinic Technical Assistance Cooperative Agreement provides technical assistance to rural health clinics (RHCs) and disseminates information regarding RHC issues such as Medicare survey and certification, billing and payment, quality improvement, best practices, disease management, and applicable regulatory issues. The program provides technical assistance calls or webinars, and an electronic mailing list (listserv) for RHC staff that serves as a resource for RHCs needing assistance to understand and comply with applicable regulations. The Rural Coronavirus Technical Assistance program provides TA to RHCs and small rural hospitals on COVID-19 testing, mitigation, and responding to COVID-19. The Rural Health Clinic Vaccine Confidence Technical Assistance program provides TA to RHCs on addressing COVID-19 related health equity gaps and improving health care in rural areas by engaging RHCs to improve vaccine confidence and counter vaccine hesitancy in rural communities. The Rural Residency Planning and Development - Technical Assistance program establishes a rural residency planning and development technical assistance center to assist HRSA Rural Residency Planning and Development (RRPD) program recipients creating new allopathic medicine rural residency programs associated with specialties such as primary care, internal medicine, psychiatry, general surgery, obstetrics and gynecology, and public health and general preventive medicine. Subsequent to the availability of resources, the secondary purpose of the cooperative agreement is to provide technical assistance to other entities that a) would have been eligible for the RRPD program, and b) are not selected for RRPD program awards. The RRPD program and this cooperative agreement are complementary and will expand the number of rural residency training programs and subsequently increase the number of physicians who choose to practice in rural areas. The purpose of the Vulnerable Rural Hospitals Assistance Program is to provide targeted in-depth assistance to vulnerable rural hospitals within communities struggling to maintain health care services. The goal is for residents in rural communities to continue to have access to essential health services. The Rural Residency Planning and Development (RRPD) Program develops newly, accredited and sustainable rural residency programs in family medicine, internal medicine, public health and general preventive medicine, psychiatry, general surgery, and obstetrics and gynecology, to support expansion of the physician workforce in rural areas. The funds will support planning and development costs accrued while achieving program accreditation through the Accreditation Council for Graduate Medical Education (ACGME). The purpose of the Rural Communities Opioid Response Program-Evaluation cooperative agreement is to evaluate the impact of RCORP initiatives, which currently include RCORP-Planning, RCORP-Implementation, and a number of RCORP pilot programs. The evaluation activities include data collection and analyses of RCORP activities, as well as developing valuable RCORP-based evaluation tools and resources for use in rural communities and to inform future rural health initiatives. The purpose of the Rural Communities Opioid Response Program-Rural Centers of Excellence on Substance Use Disorder is to support the identification, translation, dissemination, and implementation of evidence-based programs and best practices related to the treatment for and prevention of substance use disorders (SUD) within rural communities, with a focus on the current opioid crisis and developing methods to address future SUD epidemics. The program outlines three Focus Areas, to each be addressed by one RCORP-RCOE recipient. Focus Area 1 emphasizes innovative and effective treatment interventions for SUD, particularly OUD, in rural communities; Focus Area 2 emphasizes recovery housing programs for SUD intervention in rural communities; and Focus Area 3 emphasizes the burden of overdose mortality related to the misuse of synthetic opioids in rural communities in the Delta and/or Appalachian regions. The Rural Healthcare Provider Transition Project provides technical assistance that will assist eligible small rural hospitals and RHCs in strengthening their foundation in key elements of value-based care, including, but not limited to quality, efficiency, patient experience, and safety of care. This program will help small rural hospitals and RHCs that are in need of assistance in building the foundation for participating in value-based healthcare, but that are not yet at the level to participate in value-based programs. The purpose of the Rural Telementoring Training Center program is to train academic medical centers and other centers of excellence (COEs) to create or expand technology-enabled collaborative learning and capacity building models (such as Project ECHO, ECHO-like models, and other emerging models in the field). The recipient will develop and share freely accessible tools and resources

ASSISTANCE LISTINGS DESCRIPTIONS

that are adaptable to culturally and regionally diverse populations to provide training nationwide to facilitate the dissemination of best practice specialty care to primary care providers and care teams in rural and underserved areas. The purpose of the Rural Health and Economic Development Analysis program is to increase public and stakeholder awareness of the economic impacts of rural health care sectors on rural, state, and national economies. Additionally, the Rural Health and Economic Development Analysis Program seeks to quantify the impact of rural health care and conduct analyses of the link between the health of the economy in a rural community and the health outcomes of the residents of those communities. The purpose of the Small Rural Hospital Improvement Program (SHIP) COVID-19 Testing and Mitigation Program will provide one-time funding to support hospitals for testing education, establishment of alternate testing sites, test result processing, arranging for the processing of test results, and engaging in other activities within the CDC Community Mitigation Framework to address COVID-19 in rural communities.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2021: The Medicare Rural Hospital Flexibility Program Evaluation Cooperative Agreement continues to provide program evaluation resources, data analysis and reports, and evidence-based best practices to Critical Access Hospitals. In FY20, they published 11 policy briefs and their data and research findings were cited in articles appearing in 14 peer-reviewed journals and 2 books. In FY 2020, rural research programs completed and published 107 research reports, including policy briefs posted on the Rural Health Research Gateway website and manuscripts published in peer-reviewed journals. The Rural Quality Improvement Technical Assistance (RQITA) Cooperative Agreement fielded a total of 723 technical assistance requests in FY 2020, and continued to provide program-wide assistance in the area of quality improvement. During this Fiscal Year, RQITA also worked in partnership with FORHP to modify quality measure reporting requirements during the COVID-19 pandemic and adapted materials and resources to ensure that states and Critical Access Hospitals received timely information about these requirements. Despite the impacts of the COVID-19 pandemic on rural healthcare providers, the Rural Healthcare Provider Transition Project, currently in its first program year, is providing comprehensive, virtual technical assistance to four small rural hospitals and rural health clinics in building the foundation for participating in value-based healthcare. The State Offices of Rural Health Coordination and Development (SORHCD) responded to the Covid-19 pandemic by holding listening call sessions with SORHs and continue to developed resources on emergency preparedness, broadband, and health equity. The Information Services for Rural Hospital Flexibility Program participant grantees rated 4.52 on a five point Likert Scale that knowledge gain from program activities helped improve their grant program performance. The Vulnerable Rural Hospital Assistance Program was able to serve 16 additional hospitals in FY20 due to the shift to virtual TA during the COVID pandemic. The Rural Communities Opioid Response Program-Evaluation has conducted analyses of grantee-reported performance data. In May 2021, the evaluation team launched a data dashboard that allows grantees to better track and benchmark their performance. The Rural Communities Opioid Response Program-Rural Centers of Excellence on Substance Use Disorder developed 257 resources, including research briefs, toolkits, webinars, and other training materials for rural providers and community members; and provided training to more than 9,700 rural providers, paraprofessionals, and community members in FY 2019.

REGULATIONS, GUIDELINES, AND LITERATURE:

These programs are subject to the provisions of 45 CFR Part 92 for state, local and tribal governments and 45 CFR Part 74 for institutions of higher education, hospitals, other nonprofit organizations and commercial organizations, as applicable. Centers of Excellence (COE),

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Title VII, Section 736, 42 U.S.C. 293.,

OBJECTIVES:

The goal of this program is to assist eligible schools in supporting programs of excellence in health professions education for underrepresented minority (URM) individuals. The Centers of Excellence (COE) program is a catalyst for institutionalizing a commitment to underrepresented minority (URM) students/faculty and to serve as a national resource and educational center for diversity and minority health issues. Additionally, the COE program will help to strengthen the national capacity to produce a culturally competent healthcare workforce whose diversity is representative of the United States population.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Health professions schools awarded a COE grant are required to use funds to offer programming that will meet the following seven legislative purposes of the program: (1) Increase the competitive applicant pool for health professions schools; (2) Expand programs to enhance underrepresented minority student academic performance; (3) Improve recruitment, training and retention of underrepresented minority faculty; (4) Improve information resources curriculum, clinical education and cultural competency of graduates as it relates to minority health issues; (5)

Facilitate faculty and student research on health issues affecting underrepresented minority groups; (6) Engage students in practice-based training in community-based settings serving significant numbers of underrepresented minority individuals; and (7) Provide stipends, as appropriate. In addition, the four designated HBCU institutions must also propose activities to carry out the following purposes: (1) Develop a plan to achieve institutional improvements, including financial independence, to enable the school to support programs of excellence in health professions education for underrepresented minority individuals; and (2) Provide improved access to the library and informational resources of the school. Restricted Uses: Indirect costs under training awards to organizations other than State, local or American Indian tribal governments will be budgeted and reimbursed at 8 percent of modified total direct costs rather than on the basis of a negotiated rate agreement, and are not subject to upward or downward adjustment.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Eligible applicants include designated HBCUs and health professions schools that are accredited schools of allopathic medicine; osteopathic medicine; dentistry; pharmacy; or a graduate program in behavioral or mental health; or other public and nonprofit health or educational entities that meet the required conditions regarding: underrepresented minorities as described in Section 736 of the Public Health Service Act. Native American Centers of Excellence are eligible, as specified in statute. Eligible applicants must also have: (1) a significant number of underrepresented minority individuals enrolled in the schools; (2) been effective in assisting underrepresented minority students of the schools to complete the program of education and receive the degree involved; (3) been effective in recruiting underrepresented minority individuals to enroll in and graduate from the school, including providing scholarships and other financial assistance to such individuals and encouraging underrepresented minority students from all levels of the educational pipeline to pursue health professions careers; and (4) made significant recruitment efforts to increase the number of underrepresented minority individuals serving in faculty or administrative positions at the school.

Beneficiary Eligibility:

Individual/Family; Minority group; Specialized group (e.g. health professionals, students, veterans); Anyone/general public; Native American Organizations; Health Professional; Education Professional; Student/Trainee; Graduate Student; Black; American Indian; Spanish Origin; Asian; Other Non-White; U.S. Citizen; Refugee/Alien; Women; Disabled (e.g. Deaf, Blind, Physically Disabled); Preschool; School; Child (6-15); Youth (16-21); Moderate Income; Low Income; Other Urban; Suburban; Rural; Education (0-8); Education (9-12); Education (13+); Designated HBCUs and eligible health professions schools must recruit and train a significant number of underrepresented minority students in medicine, dentistry, and pharmacy; recruit, train, and retain underrepresented minority faculty recruitment; and facilitate faculty and student research activities.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2020: In Academic Year (AY) 2019-2020, the COE program supported 141 training programs and activities designed either to prepare individuals to apply to a health professions training program or maintain enrollment in such programs. In partnership with 216 health care delivery sites, COE grantees provided 3,728 clinical training experiences to health professions trainees. These clinical experiences are designed to help prepare health professions students to provide quality health care to diverse populations. The training emphasizes the importance of cultural competency and the impact of health disparities on overall health outcomes. Approximately 30 training sites used by COE grantees were primary care settings and 43 were in medically underserved communities. Award recipients provided stipend support to 1,359 trainees across the country, of whom 99% were considered URMs in the health professions. In addition, 72% of the trainees were from financially and/or educationally disadvantaged backgrounds.

REGULATIONS, GUIDELINES, AND LITERATURE:

All administrative and audit requirements and the cost principles that govern Federal monies associated with this activity will be subject to the Uniform Guidance 2 CFR 200 as codified by HHS at 45 CFR 75. CRITERIA FOR SELECTING PROPOSALS:

Procedures for assessing the technical merit of grant applications have been instituted to provide an objective review of applications and to assist the applicant in understanding the standards against which each application will be judged. Critical indicators have been developed for each review criterion to assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by nonfederal reviewers for technical merit recommendations. Applications will be reviewed and evaluated against the following criteria: (1) Purpose and Need; (2) Response to Program Purpose; (3) Impact; (4) Organizational Information, Resources and Capabilities; and (5) Support Requested. See the most recent Notice of Funding Opportunity for detailed review criteria.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2020: Since its inception in 1972, the National Health Service Corps (NHSC) has worked to support qualified health care providers dedicated to

working in underserved communities in urban, rural, and tribal areas. Across the nation, NHSC clinicians serve patients in HPSAs communities with limited access to health care. As of September 30, 2020, there were 7,203 primary care HPSAs, 6,487 dental HPSAs, and 5,733 mental health HPSAs. The NHSC seeks clinicians who demonstrate a commitment to serve the Nations medically underserved populations at NHSC-approved sites located in HPSAs. NHSC-approved sites provide care to individuals regardless of ability to pay; currently, there are over 16,400 NHSC-approved sites. Eligible sites include Federally Qualified Health Centers (FQHC) and FQHC Look-Alikes, American Indian and Native Alaska health clinics, rural health clinics, critical access hospitals and hospitals managed or owned by the Indian Health Service (IHS), school-based clinics, mobile units, free clinics, community mental health centers, state or local health departments, community outpatient facilities, federal facilities such as the Bureau of Prisons, U.S. Immigration and Customs Enforcement, IHS, and private practices. In particular, the NHSC has partnered closely with HRSA-supported FQHCs to help meet their staffing needs. Over 60 percent of NHSC clinicians serve in Health Centers around the nation, and 15 percent of clinical staff at FQHCs are NHSC clinicians. The NHSC also places clinicians in other community-based systems of care that serve underserved populations, targeting HPSAs of greatest need. As of September 30, 2020, there are more than 13,000 primary care medical, dental, and mental and behavioral health practitioners providing service nationwide under the NHSC LRP covered under this document.

(IHS Loan Repayment Program),

FEDERAL AGENCY:

INDIAN HEALTH SERVICE, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

Indian Health Care Amendments of 1988, Section 108, Public Law 100-713

OBJECTIVES:

To ensure that the Indian Health Service (IHS) has an adequate supply of trained health professionals for Indian health program facilities by providing for the repayment of educational loans for participants who agree (by written contract) to serve an applicable period of time at a facility IHS has designated as a loan repayment priority site or in a designated specialty at a site with an appropriate position.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

This program will provide repayment of loans incurred for health professions educational expenses in exchange for service in a designated loan repayment priority site. Recipients must agree by written contract to serve an applicable period of time in such a site; individuals who have conflicting service obligations may not participate in this program until those obligations are satisfied. The minimum period of participation is 2 years. Maximum payment to a program participant is \$20,000 per year and an additional 20 percent of the award amount for tax liability.

Applicant Eligibility:

CRITERIA FOR SELECTING PROPOSALS:

The IHS defined "Health Profession" to mean family medicine, internal medicine, pediatrics, geriatric medicine, obstetrics and gynecology, podiatric medicine, nursing, public health nursing, dentistry, psychiatry, osteopathy, optometry, pharmacy, psychology, public health, social work, marriage and family therapy, chiropractic medicine, environmental health and engineering, and allied professions. Other factors that will be employed to determine which applicant is selected for awards include: (a) An applicant's length of current employment in the IHS, tribal or urban program; (b) availability for service earlier than other applicants (first come, first served); and (c) date the completed application was received. Not all health professions receive funding. Please contact the program for more information.

93.165 Grants to States for Loan Repayment

State Loan Repayment Program (SLRP),

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Title III, Section 338I, 42 U.S.C. 254 q-1(h), as amended; Medicare Access and CHIP Reauthorization Act of 2015 (P.L. 114-10), , Section 2602 of the American Rescue Plan Act of 2021 (P.L.117-2),

OBJECTIVES:

To increase the availability of primary health care clinicians in Health Professional Shortage Areas (HPSAs) by assisting States in operating programs for the repayment of educational loans of health professionals in return for their practice in HPSAs.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use, Project Grants

USES AND USE RESTRICTIONS:

Funds under this grant must only be used to repay the qualifying educational loans of health professionals who have entered into a SLRP contract with the States.

Funds cannot be used for the following purposes: costs of administering the program, State matching funds, or any other purpose.

Applicant Eligibility:

Government - General; State (includes District of Columbia, public institutions of

higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; Eligible entities include the 50 States, the District of Columbia, Guam, the Commonwealth of Puerto Rico, the Northern Mariana Islands, the U.S. Virgin Islands, American Samoa, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau.

Beneficiary Eligibility:

Individual/Family; Minority group; Specialized group (e.g. health professionals, students, veterans); Health Professional; Graduate Student; Black; American Indian; Spanish Origin; Asian; Other Non-White; U.S. Citizen; Veteran/Service person/Reservist (including dependents; Women; Applicants for State programs must have completed a course of study required to practice independently without supervision as one of the following health care professionals: Doctor of Allopathic Medicine or Osteopathic Medicine, General Practice Dentist (D.D.S. or D.M.D.), Pediatric Dentist, Primary Care Certified Nurse Practitioner, Certified Nurse-Midwife, Primary Care Registered Nurse, Pharmacist, Primary Care Physician Assistant, Registered Clinical Dental Hygienist, Health Service Psychologist (formerly Clinical or Counseling Psychologist (Ph.D. or equivalent), Licensed Clinical Social Worker (masters or doctoral degree in social work), Psychiatric Nurse Specialist, Mental Health Counselor, Licensed Professional Counselor (masters or doctoral degree with a major study in counseling), Marriage and Family Therapist (masters or doctoral degree with a major study in marriage and family therapy), Registered Nurse and Pharmacist. The primary care specialties approvable for physicians are: family medicine (and osteopathic general practice), internal medicine, including geriatricians, pediatrics, obstetrics/gynecology, and geriatrics and general psychiatry. General practitioners (physicians who have not completed residency training programs) are not eligible for funding under the SLRP. The primary care specialties approval for registered nurses, nurse practitioners and physician assistants are: adult, family, pediatrics, psychiatry/mental health, geriatrics, or womens health. Participants must provide full-time clinical service for a minimum of two years in a public or non-profit entity located in a federally designated HPSA. Refer to the NHSC SLRP Notice of Funding Opportunity for specific requirements.

Credentials/Documentation:

Applicants should review the individual HRSA Notice of Funding Opportunity announcement issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov.

Award Procedure:

Notification is made in writing by Notice of Award

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Approximately 120 to 180 days after receipt of application.

Appeals:

Not Applicable.

Renewals:

Not Applicable. Depending on Agency priorities and availability of funding, during the final budget year of the approved project period competing continuation applications may be solicited from interested applicants.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are mandatory. States must agree to make available (directly or through donations from public or private entities) non-Federal contributions in cash toward SLRP contracts in an amount not less than \$1 for each \$1 of Federal funds provided in the grant. A State

ASSISTANCE LISTINGS DESCRIPTIONS

may not use any Federal funds or in-kind contributions to satisfy the non-Federal match requirement. A State must verify that contributions from sources other than State appropriated funds are non-Federal. States may use non-Federal funds in excess of the \$1 for \$1 minimum match to supplement the repayment of qualifying loans of health professionals. The Federal share must be used to repay the government and commercial loans of health professionals for tuition, educational expenses and living expenses described in Section 338B(g)(1) of the Public Health Service Act. States must assume administrative costs. For the FY 22 American Rescue Plan Act funding, new program flexibilities include: (1) A maximum of 10 percent of funding may be requested per year for administrative and management of the program; e.g. Project staff time, indirect costs, etc.; and (2) Cost-Sharing Requirement In the upcoming SLRP competition, States will not be required to demonstrate a \$1 for \$1 match for the federal funding received through the grant. However, States are encouraged to secure some level of funding match through public or private entities. The additional effort may assure funding sources to support the continuity of the States primary care workforce that may require a match beyond FY 2026. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

This funding opportunity provides support for a 4-year project period. States are asked to commit the full amount of funding for their loan repayment awards to practitioners in the current fiscal year to avoid out-year commitments for additional Federal funds. Method of awarding/releasing assistance: Recipients drawdown funds, as necessary, from the Payment Management System (PMS). PMS is the centralized web based payment system for HHS awards. Method of awarding/releasing assistance: other

Reports:

Both program and financial reports are required. The recipient will be required to submit annual performance and progress reports. A Federal Financial Report (SF-425) is required according to the schedule in HRSA's Application Guide. A final report is due within 90 days after the project period ends. If applicable, the recipient must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this Notice of Funding Opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170. (The FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation recipients may be subject to this requirement and will be so notified in the Notice of Award.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Recipients are required to maintain grant accounting records 3 years after the date they submit the Federal Financial Report (FFR). If any litigation, claim, negotiation, audit or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2021: Since its inception in 1972, the National Health Service Corps (NHSC) has worked to support qualified health care providers dedicated to working in underserved communities in urban, rural, and tribal areas. Across the nation, NHSC clinicians serve patients in HPSAs communities with limited access to health care. As of September 30, 2020, there were 6,815 primary care HPSAs, 5,632 dental HPSAs, and 4,929 mental health HPSAs. The NHSC seeks clinicians who demonstrate a commitment to serve the Nations medically underserved populations at NHSC-approved sites located in HPSAs. NHSC-approved sites provide care to individuals regardless of ability to pay; currently, there are over 16,400 NHSC-approved sites. Eligible sites include Federally Qualified Health Centers (FQHC) and FQHC Look-Alikes, American Indian and Native Alaska health clinics, rural health clinics, critical access hospitals and hospitals managed or owned by the Indian Health Service (IHS), school-based clinics, mobile units, free clinics, community mental health centers, state or local health departments, community outpatient facilities, federal facilities such as the Bureau of Prisons, U.S. Immigration and Customs Enforcement, IHS, and private practices. In particular, the NHSC has partnered closely with HRSA-supported FQHCs to help meet their staffing needs. Over 60 percent of NHSC clinicians serve in Health Centers around the nation, and 15 percent of clinical staff at FQHCs are NHSC clinicians. The NHSC also places clinicians in other community-based systems of care that serve underserved populations, targeting HPSAs of greatest need. As of September 30, 2020, there are more than 13,000 primary care medical, dental, and mental and behavioral health practitioners providing service nationwide.

REGULATIONS, GUIDELINES, AND LITERATURE:

All administrative and audit requirements and the cost principles that govern Federal monies associated with this activity will be subject to the Uniform Guidance 2 CFR 200 as codified by HHS at 45 CFR 75.. HRSA awards are also subject to the requirements of the HHS Grants Policy Statement (HHS GPS) that are applicable based on recipient type and purpose of award. The HHS GPS is available at <http://www.hrsa.gov/grants/hhsgrantspolicy.pdf>.

93.172 Human Genome Research

Human Genome Project,

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Sections 301, 461 and 487, as amended; Public Laws 78-410 and 99-158, 42 U.S.C. 241, as amended; 42 U.S.C. 285k; 42 U.S.C. 288; Small Business Research and Development Enhancement Act of 1992, Public Law 102-564.,

OBJECTIVES:

NHGRI supports the development of resources and technologies that will accelerate genome research and its application to human health and genomic medicine. A critical part of the NHGRI mission continues to be the study of the ethical, legal and social implications (ELSI) of genome research. NHGRI also supports the training and career development of investigators and the dissemination of genome information to the public and to health professionals. The Small Business Innovation Research (SBIR) program is used to increase private sector commercialization of innovations derived from Federal research and development; to increase small business participation in Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation. The Small Business Technology Transfer (STTR) program is used to foster scientific and technological innovation through cooperative research and development carried out between small business concerns and research institutions; to foster technology transfer between small business concerns and research institutions; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation.

TYPES OF ASSISTANCE:

Project Grants, Project Grants (with Formula Distribution), Training

USES AND USE RESTRICTIONS:

The research project grant is awarded to an eligible institution in the name of a principal investigator for a discrete project or group of related projects representing the investigator's interest and competence. Funds may be used for salaries and wages, equipment, supplies, travel and other costs required to carry out the research project. National Research Service Awards are made directly to individuals for research training in disciplines supporting the research areas. In addition, grants may be made to institutions to enable them to select individuals for National Research Service Awards. Each individual who receives a National Research Service Award is responsible for certain service and payback provisions. Small Business Innovation Research (SBIR) Program: SBIR Phase I grants (of approximately 6 months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of research initiated in Phase I and which are likely to result in commercial products or processes. Only Phase I awardees are eligible to apply for Phase II support. STTR Phase I grants (normally of 1-year duration) are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential of Phase II application. Responsibilities of grantees and restrictions on use of funds are set forth in the Public Health Service policy statement on grants for research projects, which is available on request from the Division of Extramural Outreach and Information Resources, Office of Extramural Research, National Institutes of Health (NIH), 6701 Rockledge Drive, Room 6207, MSC 7910, Bethesda, MD 20892-7910. Telephone: (301) 435-0714. Fax (301) 480- 0525. E-mail: asknih.od.nih.gov.

Applicant Eligibility:

Government - General; Interstate; Intrastate; State (includes District of Columbia,

public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Sponsored organization; Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; U.S. Territories and possessions (includes institutions of higher education and hospitals); Non-Government - General; Minority group; Specialized group (e.g. health professionals, students, veterans); Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Other private institutions/organizations; State; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Research Projects: Awards can be made to any public or private, for-profit or nonprofit university, college, hospital, laboratory, or other institution, including State and local units of government, qualifying small businesses (through the Small Business Innovation Research/STTR Programs, and to individuals. SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. or its territories. To be eligible for funding, an SBIR grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500 employees) which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. Applicants to the Small Business Innovation Research/STTR Programs must meet special requirements for small businesses, as defined by the Small Business Administration. Non-federal public and private domestic organizations may apply for an Institutional National Research Service Award. Individual National Research Service awardees must be nominated and sponsored by a public or nonprofit private institution having staff and facilities appropriate to the proposed research training program. All awardees must be citizens or have been admitted to the United States for permanent residence. Predoctoral awardees must have completed the baccalaureate degree, and postdoctoral awardees must have a professional or scientific degree (M.D., Ph.D., D.O., D.V.M., Sc.D., E.Eng., or equivalent domestic or foreign degree). To be eligible for funding for any award, an application must be reviewed for scientific merit by a scientific review group and for program relevance by a national advisory council.

Beneficiary Eligibility:

U.S. Territories; Minority group; Small business; Profit organization; Private nonprofit institution/organization; Other private institution/organization; Native American Organizations; Health Professional; Education Professional; Student/Trainee; Graduate Student; Scientist/Researchers; Engineer/Architect; Small Business Person; Black; American Indian; Spanish Origin; Asian; Other Non-White; State; U.S. Citizen; Women; Disabled (e.g. Deaf, Blind, Physically Disabled); Physically Afflicted (e.g. TB, Arthritis, Heart Disease); Local; Sponsored organization; Education (13+); Public nonprofit institution/organization; Other public institution/organization; Federally Recognized Indian Tribal Governments; Any nonprofit or for-profit organization, company, or institution engaged in biomedical research can apply for research support.

Credentials/Documentation:

Each applicant for a research project must present a research plan and furnish evidence that scientific competence, facilities, equipment, and supplies are appropriate to carry out the plan. The applicant must have the expertise to carry out the project. Applications must submit an electronic grant application form SF424 which can be accessed from the funding opportunity announcement. For applicants for National Research Service Awards, the academic record, research experience, citizenship, institutional sponsorship, and the proposed area and plan of training must be included in the application. The applicant institution must show the objectives, methodology, and resources for the research training program, the

ASSISTANCE LISTINGS DESCRIPTIONS

qualifications and experience of directing staff, the criteria to be used in selecting individuals for the award, and a detailed budget and justification for the grant funds requested. For-profit organizations, costs are determined in accordance with 48 CFR. For other grantees, costs will be determined in accordance with HHS Regulation 45 CFR 75. For SBIR and STTR grants, applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. SF424 applications are used for SBIR and STTR programs. SBIR and STTR applicant organizations must comply with the SBA's definition of a small business. In order to be eligible for a NRSA award, the individual must be a US citizen or permanent resident of the US. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Only application submitted in response to a funding opportunity announcement will be accepted. The standard application forms, as furnished in the Funding Opportunity Announcements at www.grants.gov, must be used for this program. This program is subject to the provisions of 45 CFR 75. The SBIR and STTR Solicitations may be obtained electronically through the NIH "Small business Funding Opportunities" homepage at: <https://sbir.nih.gov/>

Award Procedure:

All applications must respond to a funding opportunity announcement, must be reviewed for scientific merit by an appropriate initial review group, and must be considered by the National Advisory Council for Human Genome Research (NACHGR) for program relevance. Individual NRSA applications are not reviewed by council. All scored applications compete for available funds on the basis of scientific merit and program emphasis, and availability of funds.

Applications in response to a Request for Applications have council approved set aside funds, but awards are based primarily on the quality of the applications. Awards are issued throughout the year. All applications receiving a impact score ranging from the best (10) to worst (90) compete for the available funds on the basis of scientific and technical merit (SBIR/STTR applications must also demonstrate the potential for commercial application for SBIR/STTR applications), program relevance, and program balance among the areas of research. However, in reality, applications with impact scores of 30 or greater are rarely considered for funding.

Deadlines:

October 05, 2017 - October 05, 2020. Receipt dates for applications can be found at this URL:
<https://grants.nih.gov/grants/how-to-apply-application-guide/due-dates-and-submission-policies/due-dates.htm>. Requests for Applications and Program Announcements for Special Review or Set Aside are not submitted on standard due dates. The submission dates of these funding opportunity announcements can be found at:
<https://grants.nih.gov/funding/searchguide/index.html#/>.

Range of Approval/Disapproval Time:

Not Applicable. From submission to award of funds: Individual, project and institutional grants about 9 months; SBIR/STTR and AIDS projects about 6 months.

Appeals:

Other. A description of the NIH Peer Review Appeal procedures is available on the NIH home page <https://nexus.od.nih.gov/all/2011/04/27/the-right-step-for-filing-an-appeal/>.

Renewals:

Not Applicable. Renewal grants are competitively awarded. This means that the PI must submit an application in response to a funding opportunity announcement, the application must undergo scientific and technical merit review and must be considered by a national advisory council before an award is made.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Research and program projects are awarded for 2-5 years. Institutional training grants are awarded for 5 years. Individual fellowships and career development awards are from 2-5 years. For SBIR and STTR applications, normally Phase I awards are for 6 months and Phase II awards are or 2 years. Method of awarding/releasing assistance: letter

Reports:

Annual progress and financial status reports for continuing projects and final reports on all projects upon conclusion are required. For more complex grants, more frequent written reports and/or onsite program reviews may be required. Annual progress and financial status reports for continuing projects and final reports on all projects upon conclusion are required. For annual progress reports, information about past progress, publications and proposed research for the next year are reported. Depending on the complexity of the grant, a budget may also be required. The expenditure reports consists of whether there is 25% or more unspent funds on the grant. If so, the principal investigator is asked to explain why there is a large unobligated balance. The explanation is subject to staff review and action. Program Directors review the reports and contact the PIs for a verbal discussion that expands upon the written report. If problems are noted, the program director will note this in the report and talk with the PI about what can be done to ensure progress is satisfactory. For more complex grants, the Program Director may request the PI to provide more frequent accounting of progress and/or teleconferences. The Grants Management Specialist/Officer reviews applications for the appropriateness of the budget requested.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Expenditures and other financial records must be retained for 3 years from the day on which the grantee submits the last expenditure report for the report period.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2021: Clinical Sequencing Evidence-Generating Research (CSER) Program A key feature of CSER was integrated and coordinated efforts to address challenges and opportunities in targeted areas, implemented largely through Working Groups: Actionability-Return of Results, Electronic Health Records, Genetic Counseling, Informed Consent and Governance, Outcomes and Measures, Pediatrics, Practitioner Education, Sequencing Standards, and Tumor. At individual sites and across CSER, investigators have produced over 340 papers describing challenges and opportunities across the spectrum of clinical sequencing and its implementation. Findings are also disseminated through talks and plenary sessions at major national meetings, such as the ASHG, ACMG, NSGC, ASCO, AACR, and ASBH annual meetings. These efforts have culminated in numerous scientific advances, including models for genomics-oriented informed consent tailored to the care setting, recommendations to improve the consistency of genomic variant interpretation, and approaches to the disclosure of primary pediatric and tumor findings and of secondary findings more broadly. Collaborating with the Electronic Medical Records and Genomics (eMERGE) network, CSER identified barriers and

ASSISTANCE LISTINGS DESCRIPTIONS

recommended approaches to incorporating genomic information in electronic health records. Valuable CSER products also included contributions to and leadership on three sets of ACMG recommendations (relating to secondary findings, variant interpretation, and clinical laboratory standards), case studies and single site publications, methodological and tool development, and collaborations with other consortia. CSER research products are available at: <https://cser-consortium.org/cser-research-materials>. The second phase of CSER is building on work produced in the first phase to rigorously assess the clinical utility of genome sequencing and to support the integration of genomic, clinical, and healthcare utilization data in real-world healthcare systems to inform clinical decision making. In February 2017, NHGRI Council reviewed a funding plan for 6 CSER sites to be funded under RFA-HG-16-011, and a Coordinating Center to be funded under RFA-HG-16-012, and awards were made in August 2017. Across the CSER sites, approximately 8,000 participants, at least 60% of whom will be from racial or ethnic minority or medically underserved populations, will be recruited. Crucial and complementary to these efforts is a continuing focus on ELSI research across the aims of each funded project and a dedicated focus on engaging stakeholders such as patients and parents of pediatric patients, clinicians, community members, patient advocates, health system leadership, and payers. The CSER sites and their goals are described further in the September 2018 marker paper (Amendola, et al. AJHG, PMID 30193136). Goals of the consortium include assessing the clinical utility of genomic sequencing, exploring medical follow up and cascade testing of relatives, and evaluating patient-provider-laboratory level interactions that influence the use of this technology. Five of the 6 extramural sites are focused on pediatric populations. Recruitment is underway at all clinical sites, and 8 Working Groups are developing ideas for manuscripts to leverage cross-CSER data. Having just begun its fourth project year, CSER has developed a set of harmonized baseline and follow-up measures for study participants and providers, a decliner survey, and a survey of health system experts (<https://cser-consortium.org/cser-research-materials>). These measures were chosen to align with a comprehensive framework for genomic medicine integrative research (Horowitz, et al. AJHG, PMID 31104772). Bruce Korf (UAB/SouthSeq study) created a CSER schema that outlines the workflow and major research questions surrounding the clinical application of genome sequencing. This schema is being used to categorize CSER publications according to which part of the workflow they address. Participant recruitment and follow-up, establishment of a consortium-wide data sharing platform, and data collection for CSER-wide manuscripts are in process. Ultimately, the findings from the CSER consortium will offer patients, healthcare systems, and policymakers a clearer understanding of the opportunities and challenges of providing genomic medicine in diverse populations and settings, and contribute evidence toward developing best practices for the delivery of clinically useful and cost-effective genomic sequencing in diverse healthcare settings. The NHGRI Genomic Data Science Analysis, Visualization, and Informatics Lab-Space (AnVIL) Since its soft launch in June 2019, AnVIL has publicly released high-value datasets, such as GTEx version 8 and the high-coverage 1000 Genomes data, and currently holds data from the NHGRI Genome Sequencing Program (GSP) and the Electronic Medical Records and Genomics (eMERGE) for access by GSP consortium members. Key analysis tools and packages such as Jupyter Notebooks, RStudio, and Bioconductor have also been made available in the users workspaces. To get objective advice on technical achievements and future milestones, the AnVIL team has convened two meetings with the projects External Consultant Committee (ECC). As a training event for researchers of the Centers for Common Disease Genomics (CCDGs) and Centers for Mendelian Genomics (CMGs) programs, the AnVIL Outreach working group held the Massive Genome Informatics in the Cloud (MaGIC) Jamboree on June 10 11, 2020 an event to introduce consortium researchers to the available data, tools, workflows, training materials, and support channels on AnVIL. AnVIL is also a component of the emerging NIH federated data resource ecosystem and is expected to collaborate and integrate with other genomic data resources through the adoption of the FAIR (Findable, Accessible, Interoperable, Reusable) principles, as their specifications emerge from the genomics community. AnVIL program staff have a major role in current trans-NIH activities to facilitate interoperability and maintain communication among NIH cloud-based genomic resources, such as the NCI Cancer Research Data Commons, the NHLBI BioData Catalyst, and the Gabriella Miller Kids First Pediatric Research Program. The AnVIL program team leads and coordinates the cross-platform interoperability projects and workshops with key personnel of these resources, under the project name NIH Cloud Platforms Interoperability (NCPI). Within one year since the project began, the AnVIL team

has hosted a virtual, project-wide conference for the NCPI working groups to share their progress and collaborate. Additionally, the AnVIL project team led a Train Your Colleague workshop, a cross-training event where users and developers of the NCPI project learned about each of the four platforms.

CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating proposals include assessments of: (1) The scientific merit and general significance of the proposed study and its objectives; (2) the technical adequacy of the experimental design and approach; (3) the competency of the proposed investigator or group to successfully pursue the project; (4) the adequacy of the available and proposed project; and (5) the relevance and importance to announced program objectives. The following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the qualifications of the proposed principal investigator, supporting staff, and consultants; (3) the technological innovation of the proposed research; (4) the potential of the proposed research for commercial application; (5) the appropriateness of the budget requested; (6) the adequacy and suitability of the facilities and research environment; and (7) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation, originality, or societal importance of the proposed research; (5) the potential of the proposed research for commercial application; (6) the reasonableness of the budget request for the work proposed; (7) the adequacy and suitability of the facilities and research environment; and (8) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment.

93.173 Research Related to Deafness and Communication Disorders

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,

ASSISTANCE LISTINGS DESCRIPTIONS

DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Sections 301, 464 A-F, and 487, as amended; 42 U.S.C. 241, 285m, 285m-3, and 288; Public Law 100-553; 102 Stat. 2769; Small Business Research and Development Enhancement Act of 1992, Public Law 102-564.,

OBJECTIVES:

To investigate solutions to problems directly relevant to individuals with deafness or disorders of human communication in the areas of hearing, balance, smell, taste, voice, speech, and language. The National Institute on Deafness and Other Communication Disorders (NIDCD) supports research and research training, including investigation into the etiology, pathology, detection, treatment, and prevention of disorders of hearing and other communication processes, primarily through the support of basic and applied research in anatomy, audiology, biochemistry, bioengineering, epidemiology, genetics, immunology, microbiology, molecular biology, the neurosciences, otolaryngology, psychology, pharmacology, physiology, psychophysics, speech-language pathology, and other scientific disciplines. The NIDCD supports: (1) Research into the evaluation of techniques and devices used in diagnosis, treatment, rehabilitation, and prevention of disorders of hearing and other communication processes; (2) research into prevention and early detection and diagnosis of hearing loss and speech, voice, and language disorders and research into preventing the effects of such disorders by means of appropriate referral and rehabilitation; (3) research into the detection, treatment, and prevention of disorders of hearing and other communication processes in the elderly population and its rehabilitation to ensure continued effective communication skills; and (4) research to expand knowledge of the effects of environmental agents that influence hearing or other communication processes. Small Business Innovation Research (SBIR) program: To increase private sector commercialization of innovations derived from Federal research and development; to encourage small business participation in Federal research and development; and to foster participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation. Small Business Technology Transfer (STTR) program: To stimulate and foster scientific and technological innovation through cooperative research and development carried out between small business concerns and research institutions; to foster technology transfer between small business concerns and research institutions; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Project Grants and Centers Grants may be used to provide salaries, equipment, supplies, travel, and other expenses for research. The grantee institution is obliged to expend grant funds prudently for the purposes as stated in the application and award document. Some National Research Service Awards (NRSAs) are issued on behalf of an individual for research training in specified biomedical and behavioral research areas. Other training grants are made to institutions to enable them to make NRSAs to individuals selected by them. Each postdoctoral individual who receives an NRSA may be obligated, upon termination of the award, to comply with certain service and payback provisions. Mentored and unmentored career development awards are made to enhance the independent research capability of highly promising individuals during the formative stages of their careers. Small Business Innovation Research (SBIR) Program: Phase I grants, typically 6 months in duration, are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. SBIR Phase II grants are for the continuation of the research efforts initiated in Phase I and that are likely to result in commercial products or processes. STTR Phase I grants, normally of 1-year duration, are to determine the scientific, technical, and feasibility of the proposed cooperative effort. Phase II funding is based on scientific and technical merit and commercial potential of the application. Grant funds may be expended only for the purpose stated in the application and award document.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Specialized group (e.g. health

professionals, students, veterans); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Other private institutions/organizations; Project Grants and Centers Grants: Any public, private, nonprofit, or for-profit institution is eligible to apply. For-profit institutions are not eligible for institutional National Research Service Awards. All proposals are reviewed for scientific merit, for evaluation of the qualifications of the investigators, for adequacy of the research and/or research training environment and for significance of the problem. Approved proposals compete for available funds. Awardees of almost all Research Career Development Programs must be citizens or have been admitted to the United States for permanent residence.

Candidates must be nominated for the program by a nonfederal public or private nonprofit institution located in the United States, its possessions or Territories. To be eligible, postdoctoral NRSA trainees and fellows must have a professional or scientific doctoral degree (PhD, MD, DO, DC, DDS, DVM, OD, DPM, ScD, EngD, Dr PHPhD, MD, DO, DC, DDS, DVM, OD, DPM, ScD, EngD, Dr PH, DNSc, ND {Doctor of Naturopathy}, PharmD, DSW, PsyD, AUD or equivalent doctoral degree from an accredited domestic or foreign institution). SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the United States or its possessions. To be eligible for funding, an SBIR grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. STTR grants can be awarded only to domestic small business concerns which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council.

Beneficiary Eligibility:

Health Professional; Education Professional; Student/Trainee; Graduate Student; Scientist/Researchers; Health professionals; student/trainee; scientists/researchers; consumer.

Credentials/Documentation:

Project Grants are awarded to an institution in the name of an individual investigator. Centers Grants are also awarded to an institution in the name of an investigator designated as the Program Director. Persons qualified to carry out research related to the NIDCD grant programs described above may apply for funds through their institution to support their investigations. Mentored career development must be conducted under the direction of a competent sponsor. A candidate for a Career Award must have an earned M.D., Ph.D. or equivalent degree and have had prior research experience. National Research Service Awards: (1) Individual NRSA Fellowship Awards for predoctoral and postdoctoral training: The candidate's academic record, research experience, citizenship, institutional sponsorship, and the proposed area and plan of training must be included in the application. (2) Institutional Training Grants for predoctoral and postdoctoral training: The applicant institution must show the objectives, design and resources for the research training program; the qualifications and experience of directing staff and training preceptors; the criteria to be used in selecting individuals for stipend support; and a detailed, justified budget for the numbers and type of trainee positions requested. The cost principles for awards under this program are set forth in HHS regulations at 45 CFR 75, Subpart E and Appendix 1X (hospitals) to Part 75. Commercial organizations are subject to the cost principles located at 48 CFR 31.2 Federal Acquisition Regulation. See the NIH Grants Policy Statement for further guidance on the applicability of cost principles (<http://grants.nih.gov/grants/policy/nihgps/index.htm>). For SBIR and STTR grants, the applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under

ASSISTANCE LISTINGS DESCRIPTIONS

E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Awards made under this program are subject to 2 CFR 200, as implemented by 45 CFR 75 "Public Welfare, Uniform Administrative Requirements, Cost Principles and Audit Requirements for HHS Awards." The policies and procedures generally applicable to NIH grants are set forth in the NIH Grants Policy Statement (<http://grants.nih.gov/grants/policy/nihgps/index.htm>).

Award Procedure:

Research grant, career development, and research training program applications are reviewed initially by technical panels composed of scientific authorities, and by the National Deafness and Other Communication Disorders Advisory Council composed of 18 leaders in medicine, science, education, and public affairs. Approved applications will compete on a merit basis for available funds. Formal award notices are transmitted to the grantee or awardee. All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Research Grants and Centers Grants: Approximately 6 to 9 months. Career Program: From 6 to 9 months. SBIR/STTR applications: About 6 to 9 months. Institutional Training Grants: From 10 to 12 months. Individual Fellowships: From 4 to 6 months.

Appeals:

Other. A principal investigator (PI) may question the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Institute. A description of the NIH Peer Review Appeal procedure is available at <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-064.html>. Final decisions on unresolved appeals are made with the advice of the National Deafness and Other Communication Disorders Advisory Council.

Renewals:

Other. By application and review in the same manner as new applications. Research career awards are not renewable.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Research Grant awards are made for a 12-month period with recommendation of up to 4 years of additional support. Center Grant awards support may be for a period not to exceed 5 years. Career development awards provide support for up to 5 years. NRSA fellowship and traineeship awards are usually for a 12-month period, with recommendation of additional support of no more than 5 years for predoctoral training and no more than 3 years for postdoctoral training. SBIR Phase I awards are generally for 6 months; STTR Phase I awards are generally for 1 year. Method of awarding/releasing assistance: other

Reports:

The grantee organization submits quarterly Federal Financial Reports (SF-425). A progress report is required yearly for each grant. A financial status report is due either annually or at the end of the project period, depending upon the type of grant. Performance monitoring is covered in the annual progress report.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Expenditures and other financial records must be retained for 3 years from the day on which the grantee submits the last financial status report for the report period.

ASSISTANCE LISTINGS DESCRIPTIONS

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Section 821 of the Public Health Service Act (42 U.S.C. 296m).

OBJECTIVES:

NWD: Supports projects that increase nursing education opportunities for individuals who are from disadvantaged backgrounds, including racial and ethnic minorities that are underrepresented among registered nurses. Eldercare Enhancement (E2): supports projects that provide enhanced eldercare education and training opportunities to nursing students from disadvantaged backgrounds, including racial and ethnic minorities underrepresented among registered nurses.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Funds may be used for salaries of personnel specifically employed for the project; consultant fees; supplies and equipment necessary to conduct the project; essential travel expenses and student stipends or scholarships; and other expenses related to the project.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Eligible applicants are collegiate schools of nursing, nursing centers, academic health centers, State or local governments, and other private or public entities accredited by a recognized body or bodies or state agency, approved for the purpose of nursing education by the Secretary of Education. In addition to schools in the 50 states, only those in the District of Columbia, the Commonwealth of Puerto Rico, the Northern Mariana Islands, American Samoa, Guam, the U.S. Virgin Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau are eligible to apply. Federally Recognized Indian Tribal Government and Native American organizations may apply if they are otherwise eligible.

Beneficiary Eligibility:

Individual/Family; Specialized group (e.g. health professionals, students, veterans); Private nonprofit institution/organization; Native American Organizations; Health Professional; Student/Trainee; U.S. Citizen; Education (13+); Public nonprofit institution/organization; Federally Recognized Indian Tribal Governments; Accredited public and nonprofit private schools of nursing and other public or nonprofit private entities. Project participants must be in an accredited program, a citizen of the United States, a non-citizen national of the United States or a foreign national who possesses a visa permitting permanent residence in the United States. Individuals on temporary or student visas are not eligible participants and may not receive NWD grant support.

Credentials/Documentation:

Applicants should review the individual HRSA Notice of Funding Opportunity announcement issued under this CFDA program for any required proof or certifications which must be submitted with an application package. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov. All eligible, qualified applications will be forwarded to an objective review committee. Based on the advice of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions. Notification is made in writing by a Notice of Award.

Award Procedure:

Notification of award is made in writing (electronic) through a Notice of Award.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Approximately 120 to 180 days after receipt of applications.

Appeals:

Not Applicable.

Renewals:

Other. Depending on Agency priorities and availability of funding, during the final budget year of the approved project period competing continuation applications may be solicited from interested applicants.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. This program has MOE requirements, see funding agency for further details. Additional Information: The recipient must agree to maintain non-federal funding for grant activities at a level which is not less than expenditures for such activities during the fiscal year prior to receiving the award..

Length and Time Phasing of Assistance:

The NWD funding opportunity provides support for a 4-year project period. The NWD-E2 funding opportunity provides support for a 2-year project period. Method of awarding/releasing assistance: Recipients draw down funds, as necessary, from the Payment Management System (PMS); the centralized web based payment system for HHS awards. Method of awarding/releasing assistance: other

Reports:

Both program and financial reports are required. The recipient will be required to submit annual performance and progress reports. A Federal Financial Report (SF-425) is required according to the schedule in HRSAs Application Guide. A final report is due within 90 days after the project period ends. If applicable, the recipient must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (The FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation recipients may be subject to this requirement and will be so notified in the Notice of Award.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Recipients are required to maintain grant accounting records 3 years after the date they submit the Federal Financial Report (FFR). If any litigation, claim, negotiation, audit or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2020: In Academic Year 2019-2020, the NWD Program supported 66 college-level degree programs as well as 157 training programs and activities designed to recruit and retain health professions students. These programs trained 11,620 students, including 5,027 students who graduated or completed their programs. Degree programs had 5,888 enrolled students and academic support programs had 5,732 participants this academic year. In addition to providing support to students, NWD grantees partnered with 963 training sites during the academic year to provide 10,811 clinical training experiences to trainees across all programs. Approximately 43 percent of training sites were located in medically underserved communities and 35 percent were in primary care settings.NWD-E2: No data available

CRITERIA FOR SELECTING PROPOSALS:

Procedures for assessing the technical merit of grant applications have been instituted to provide an objective review of applications and to assist the applicant in understanding the standards against which each application will be judged. Critical indicators have been developed for each review criterion to assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by nonfederal reviewers for technical merit recommendations. Applications will be reviewed and evaluated against the following criteria: (1) Purpose and Need; (2) Response to Program Purpose; (3) Impact; (4) Organizational Information, Resources and Capabilities; and (5) Support Requested. See the most recent Notice of Funding Opportunity for detailed selection criteria.

93.184 Disabilities Prevention

(Disability and Health).

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Executive Order This program is authorized under Section 317C [42 U.S.C. 247b-4] of the Public Health Service Act., Title 42, Part 241(a), Section 301(a), Public Health Service Act, Title 42, Part 241(a), Section 301(a), Public Law USC-42 U.S.C. 247(b)

OBJECTIVES:

(1) Support National Centers on Disability to develop, implement, evaluate, and disseminate non-research activities aimed at reducing health disparities and improving the health of people with mobility limitations and/or intellectual disabilities (ID) across their lifespans, and (2) Develop and strengthen the capacity of state-based disability and health programs to improve the health and quality of life among people with disabilities through adaptation and implementation of evidence-based strategies in states, U.S. territories, and tribal governments.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

In April, 2016 CDC issued new competitive awards to two National Centers on Health Promotion for People with Disabilities. New competitive awards were also issued to 19 State-based Disability and Health programs in July 2016. In subsequent years, CDC issues continuation awards to the two National Centers on Health Promotion for People with Disabilities and the 19 State-based Disability and Health cooperative agreements. In addition, supplemental funds were given to one National Center (Special Olympics) and six Disability and Health States (Arkansas, Massachusetts, New Hampshire, New York, Oregon and South Carolina) to supplement existing programmatic activities. National Centers on Disability: These cooperative agreements are providing financial assistance to: (1) improve knowledge and awareness about the usefulness and effectiveness of health promotion programs and policy, systems and environmental improvements for people with mobility limitations and/or intellectual disabilities, (2) develop, implement, evaluate, and disseminate multi-level strategies (e.g., programmatic, policy, systems and environmental changes) that improve the health and quality of life of people with mobility limitations and/or intellectual disabilities, (3) implement the Healthy Athletes Program for people with ID, and (4) collaborate with and support states and academic centers to improve the health of people with mobility limitations and/or intellectual disabilities. State-based Disability and Health Programs: These cooperative agreements are providing financial assistance to develop and strengthen internal capacity and health-related disability programs to (1) improve knowledge and awareness about the usefulness and effectiveness of programmatic, policy, systems and environmental changes for people with select functional disability types (i.e., mobility limitations and/or Intellectual Disabilities, and (2) support states to plan, implement, evaluate, and disseminate non-research activities aimed at promoting inclusion and accessibility and reducing health disparities between people with and without disabilities. In these cases, project funds may not be used to supplant State, local, or institutional funds available for these activities, or for construction costs, or to purchase facilities or space. Grantees may enter into contracts as necessary to help achieve the objectives of their respective programs.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Based on available funding for fiscal year 2016, CDC issued competitive awards to two National Centers on Disability and 19 State-based Disability and Health Programs. Eligibility for the National Centers on Disability included: Public and State controlled institutions of higher education; Native American tribal organizations (other than Federally recognized tribal governments); Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; Nonprofits without 501(c)(3) status with the IRS, other than institutions of higher education; and Private colleges and universities. Eligibility for the State-based Disability and Health Programs included: State governments; Native American tribal governments (Federally recognized); and Government Organizations (States, including the District of Columbia, Territorial

governments or their bona fide agents in the Commonwealth of Puerto Rico, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, American Samoa, Guam, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau.

Beneficiary Eligibility:

Individual/Family; Private nonprofit institution/organization; State; Local; Public nonprofit institution/organization; Federally Recognized Indian Tribal Governments; In addition to the eligible applicants, other groups who will receive benefits from the program include persons with disabilities and their family members of persons with disabilities, persons with limb loss, minority populations, refugees, infants, children, youth, adults, senior citizens, women, all educational levels, all income levels, urban, suburban, and rural populations, health/rehabilitation professionals, scientists, educators, and researchers.

Credentials/Documentation:

State disability and health and National Center grantees documented in their fiscal year 2016 applications the need for assistance, indicated the objectives of their projects, presented their approaches to meet set objectives, and outlined the method of operation. Grantees funded in subsequent fiscal years followed the criteria set forth in the respective Funding Opportunity Announcements. These National Centers and State disability and health grantees documented in their continuing applications the need for assistance, indicated the objectives of their projects, and presented their approaches to meet set objectives. For nonprofit recipients, costs will be determined in accordance with HHS Regulation 45 CFR 74. 2 CFR 200, Subpart E - Cost Principles applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. The guidelines will indicate whether or not an application is subject to Executive Order 12372. If the application is subject for review per State Executive Order 12372, please follow these instructions: 1. The SPOC should be contacted as early as possible to receive any necessary instructions on the State process. If the project serves more than one State, the department should contact the SPOC of each affected State. 2. The necessary information should be mailed to the SPOC. 3. Please provide a copy of the cover letter sent to the SPOC to Grants & Contracts along with the hard copy application. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. To apply for this funding opportunity, use application form PHS 398 (OMB number 0925-0001 rev. 5/2001). Forms and instructions are available in an interactive format on the Grants.gov web site, at the following Internet address: www.grants.gov. Submit the final application using the www.grants.gov website. This program is subject to the provisions set forth in 45 CFR 92, for State and local governments and OMB Circular No. A-110 for nonprofit organizations.

Award Procedure:

The National Centers on Disability and the State-based Disability and Health Program competitive awards were determined by an internal objective review process at CDC. Research project grant competitive awards are determined by an external peer review. At such times, awards will be based on evaluation criteria set forth in the respective Program Announcements, the availability of funds, and such other significant factors as deemed necessary and appropriate by CDC. The awards for National Centers on Disability and the State-based Disability and Health Programs were both issued for a five year project period. The Notices of Grant Award indicate financial support for the first budget year, allocations of Federal funds by budget category, and special conditions, if any.

OBJECTIVES:

To provide service-conditioned scholarships to individuals from disadvantaged backgrounds who agree to pursue undergraduate education at accredited institutions. Individuals must pursue a course of academic study which prepares them for professions needed by the National Institutes of Health (NIH). NIH expects to facilitate interest of these individuals in pursuing careers in the biomedical/biobehavioral sciences at the NIH.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

This program will provide scholarships to individuals who have completed their first academic term of studies at an accredited 4-year undergraduate institution of higher education. Recipients must be full-time students and who are from disadvantaged backgrounds. Each award recipient must agree by written contract to serve as a full-time NIH employee for not less than 10 consecutive weeks during the summer immediately following the year of the award. No later than 60 days after obtaining a qualified educational degree, each recipient must begin serving as a full-time NIH employee for one year in exchange for each year of NIH scholarship support (a deferment of the service obligation may be obtained if the Director, NIH, determines that such is appropriate). Applicants must submit a proposed academic program for each academic year and agree that this program will not be altered without prior approval. The applicant must be in good academic (maintain a minimum GPA of 3.3) standing with their educational institution for continuation under the scholarship program. Maximum scholarship per academic year is \$20,000. Scholarship funds may only be used for tuition expenses and qualified educational and living expenses incurred while attending school.

Applicant Eligibility:

Individual/Family; Minority group; Specialized group (e.g. health professionals, students, veterans); Anyone/general public; An eligible applicant must be (1) A U.S. citizen, national, or permanent resident; (2) enrolled or accepted for enrollment as a full-time student at an accredited undergraduate institution (4 year school) of higher education; (3) from a disadvantaged background as determined by the Secretary of Health and Human Services; (4) in good academic standing (minimum GPA of 3.3 or be in the top 5 percent) with his/her educational institution; and (5) submit an application to participate in the Undergraduate Scholarship (UGS) Program; (6) agree to serve as a full-time NIH employee for not less than 10 consecutive weeks of each year during which the individual is attending the educational institution and receiving a scholarship; (7) agree to serve as a full-time NIH employee for 12 months for each academic year during which the scholarship was provided, not later than 60 days after obtaining his or her academic degree, unless a service deferment is granted.

Beneficiary Eligibility:

Individual/Family; Minority group; Specialized group (e.g. health professionals, students, veterans); Anyone/general public; Student/Trainee; U.S. Citizen; Low Income; Education (13+); Undergraduate students from disadvantaged backgrounds pursuing academic programs supporting professions needed by the NIH.

Credentials/Documentation:

Applicants must submit documentation of the following, as appropriate: (1) Verification of enrollment or acceptance to a 4-year accredited institution of higher education (4 year school); (2) a proposed academic program for the school year; (3) certification from the academic institution that the applicant is in good academic standing (minimum GPA of 3.3, or be in the top 5 percent); (4) certification from the academic institution that the applicant qualifies for participation in an educational assistance program for individuals from disadvantaged backgrounds as defined by the Secretary of Health and Human Services; and (5) other documentation as may be required by law, statute, or regulation. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. Candidates for the award must meet the minimum eligibility requirements to be considered for award.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Application, a signed contract, and other required information (as listed in the application packet) are submitted to the Program office. Once an application package is received by the administering Program Office, preliminary eligibility will be determined and highly qualified applicants will be interviewed. Final determination of awards will be made upon review by the Undergraduate Scholarship Program Scientific Review Committee at a regularly scheduled meeting.

Award Procedure:

Priority will be given to applicants who are prior recipients. The NIH Undergraduate Scholarship Program Committee will review, rank, and approve or disapprove applications submitted for program participation. Criteria which determine competitive ranking for awards may include: (1) career goal in biomedical/biobehavioral research; (2) academic performance; and (3) letters of recommendation. A student's financial need alone does not affect selection. Applicants approved for award will be notified by the Program Director. The Secretary, and his/her designee will sign the service contract of approved applicants, provide a copy to the participant and under graduate institution notice of approved award amount. Scholarship payments, including room and board, books, fees and transportation are made to the college or university for dispersal.

93.191 Graduate Psychology Education

Graduate Psychology Education (GPE) Program,

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Sections 750 and 756 (a)(2) of the Public Health Service Act (USC 42 USC 294; 294e-1).

OBJECTIVES:

The Graduate Psychology Education Program supports training of doctoral health psychology students, interns, and post-doctoral residents to provide integrated, interdisciplinary, behavioral health and Opioid Use Disorder (OUD) and other Substance Use Disorder (SUD) prevention and treatment services in high need and high demand areas. The program also supports faculty development of health service psychologists. The overarching goal of the program is to prepare and build capacity of the doctoral health psychology workforce, to provide mental/behavioral health care, including OUD and other SUD prevention and treatment services, in high need and high demand areas. Grants will be awarded to assist eligible entities in meeting the costs to develop, operate, and maintain graduate psychology doctoral programs, internships, and post-doctoral residency programs in health psychology.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Eligible entities are required to provide a budget, with narrative, that includes no less than sixty (60) percent of a recipients overall requested budget (direct and indirect costs) dedicated and distributed as stipends to trainees in practice, internships, and residencies. Up to forty (40) percent of funding may be dedicated to (1) development or enhancement of didactic and experiential training activities in integrated and team-based care; (2) financial support for the supervision of students, interns, residents and other allowable trainee-related expenses; (3) program administration and management; and (4) data collection. Restricted Uses: Indirect costs under training awards to organizations other than State, local or American Indian tribal governments will be budgeted and reimbursed at 8 percent of modified total direct costs rather than on the basis of a negotiated rate agreement, and are not subject to upward or downward adjustment.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Non-Government - General; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Other private institutions/organizations; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Public or private nonprofit schools, universities, or other educational entities which provide for graduate psychology education and training or other public or private nonprofit entities capable, as determined by the Secretary, of carrying out the objectives of the project. Eligible entities are American Psychological Association (APA)-accredited doctoral-level schools and programs of health service psychology, APA-accredited doctoral internships in professional psychology, and APA-accredited post-doctoral residency programs in practice psychology. Federally Recognized Indian Tribal Government and Native American Organizations may apply if otherwise eligible. The eligible entity must demonstrate that the training within an APA accredited psychology training school or program, internship, and post-doctoral residency program will occur in collaboration with two or more health disciplines other than psychology.

Beneficiary Eligibility:

Individual/Family; Minority group; Physically Afflicted (e.g. TB, Arthritis, Heart Disease); Doctoral students, doctoral interns, and post-doctoral residents receiving a stipend in the GPE Program must be in an APA-accredited program, a citizen of the United States, a non-citizen national of the United States, or a foreign national who possesses a visa permitting permanent residence in the United States. Individuals on temporary or student visas are not eligible participants.

Credentials/Documentation:

Applicants should review the individual HRSA Notice of Funding Opportunity issued under this CFDA program for any required proof or certifications which must be submitted with an application package. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov. All eligible, qualified applications will be forwarded to an objective review committee. Based on the advice of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions. Notification is made in writing by a Notice of Award.

Award Procedure:

Notification of award is made in writing (electronic) through a Notice of Award.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Approximately 120-180 days after receipt of applications.

ASSISTANCE LISTINGS DESCRIPTIONS

Appeals:

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. This program has MOE requirements, see funding agency for further details. Additional Information: The recipient must agree to maintain non-federal funding for grant activities at a level which is not less than expenditures for such activities during the fiscal year prior to receiving the award..

Length and Time Phasing of Assistance:

This funding opportunity provides support for a 3-year project period. Method of awarding/releasing assistance: Recipients draw down funds, as necessary, from the Payment Management System (PMS), the centralized web based payment system for HHS awards. Method of awarding/releasing assistance: other

Reports:

Both program and financial reports are required. The recipient will be required to submit annual performance and progress reports. A Federal Financial Report (SF-425) is required according to the schedule in HRSA's Application Guide. A final report is due within 90 days after the project period ends. If applicable, the recipient must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (The FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation recipients may be subject to this requirement and will be so notified in the Notice of Award.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Recipients are required to maintain grant accounting records 3 years after the date they submit the Federal Financial Report (FFR). If any litigation, claim, negotiation, audit or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2020: In Academic Year 2018-2019, the GPE Program provided stipend support to 267 students participating in practica, internships, or post-doctoral residency programs in health psychology. The majority of students who received a stipend were trained in medically underserved communities (96 percent)

and/or a primary care setting (87 percent). The GPE students provided 136,678 patients care hours in a primary care setting, 199,989 in a medically underserved community and 30,372 in a rural area. In Academic Year 2019-2020, the GPE Program trained and provided stipends to 251 students participating in practica, internships, or post-doctoral residency programs in health psychology that focused on integrated, interdisciplinary, behavioral health and Opioid Use Disorder (OUD) and other Substance Use Disorder (SUD) prevention and treatment services in high need and high demand areas. Of the 251 GPE students trained, 33% were trained in medically underserved communities, 32% were trained in a primary care setting, and 15% were trained in a rural setting. Lastly, 3,920 faculty received training in the provision of OUD and other SUD.

REGULATIONS, GUIDELINES, AND LITERATURE:

All administrative and audit requirements and the cost principles that govern Federal monies associated with this activity will be subject to the Uniform Guidance 2 CFR 200 as codified by HHS at 45 CFR 75. 93.197 Childhood Lead Poisoning Prevention Projects, State and Local Childhood Lead Poisoning Prevention and Surveillance of Blood Lead Levels in Children

(Childhood Lead Poisoning Prevention Program (CLPPP)),

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Executive Order Section 317 (k)(2) and 3171 of the Public Health Service Act, 42 U.S.C. Sections 247b and 247b-10, as amended, Title 42, Part 247b, Section 247b-10

OBJECTIVES:

To (1) Develop and/or enhance a surveillance system that monitors all blood lead levels; (2) assure that children who are potentially exposed to lead receive follow up care; (3) assure awareness and action among the general public and affected professionals in relation to preventing childhood lead poisoning in high risk areas in collaboration with other government and community based organizations.

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants

USES AND USE RESTRICTIONS:

Awards are to be used by State and local government agencies to develop, improve, and expand their capacity to address the problem of childhood lead poisoning in communities with demonstrated high-risk populations. Recipients of awards are expected to: (a) write, implement and evaluate a jurisdiction-wide childhood lead poisoning elimination plan; (b) write, implement and evaluate screening plans to target resources to children at the highest risk for lead poisoning; (c) maintain a jurisdiction-wide childhood lead surveillance program, with an analysis plan for collected data, (d) conduct primary prevention activities for pregnant women and/or families with children at high risk for lead poisoning, (e) develop an assurance plan for timely and appropriate case management of children with elevated blood lead levels, (f) demonstrate strategic partnering with community organizations and with other state/local agencies involved in environmental and child health activities, (g) coordinate with organizations and agencies involved in lead-based paint hazard reduction activities and development of protective policy; and (h) evaluate programmatic impact on childhood lead poisoning within the applicant's jurisdiction. Awards cannot supplant existing funding for childhood lead poisoning prevention programs or activities. Grant awards may not be expended for medical care and treatment, or for environmental remediation of lead sources, however, there must be an acceptable plan to ensure that these program activities are appropriately carried out. The surveillance component of this grant is intended to assist State health departments in implementing or enhancing a complete surveillance system to track all PbB levels in children. This is essential for grant recipients to target interventions to high-risk populations and to track progress toward eliminating childhood lead poisoning.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Assistance will be provided to State health departments or their bonafide agents and the health departments of the following five local jurisdictions (or their bonafide agents) that have the highest estimated number of children with elevated blood lead levels : New York, NY; Chicago, IL; Detroit, MI; Los Angeles County, CA, and Philadelphia, PA, or their bona fide agents. Also eligible are health departments or other official organizational authorities of the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, American Samoa, Guam, the Federated States of Micronesia, the Republic of the Marshall Islands, the Republic of Palau, and federally recognized Indian tribal governments. Competition is limited by authorizing legislation.

Beneficiary Eligibility:

Individual/Family; Specialized group (e.g. health professionals, students, veterans); Anyone/general public; Infant (0-5); Child (6-15); In addition to the eligible applicants, others who receive benefits from the program include infants and children from six months to six years of age who are screened for lead poisoning and family members who care for lead-poisoned children. Lead poisoning potentially affects all children, but disproportionately affects minority children and children of low-income families. Since the effects of lead poisoning can be long lasting, benefits of the program can also affect youth and adults, persons at all educational and income levels, and urban, suburban, and rural populations.

Credentials/Documentation:

Applicants should document the need for assistance, state the objectives of the project, present their approach to meeting the objectives, and outline the methods of operation. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. .

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Application forms are both available from and submitted to the Grants Management Branch, Centers for Disease Control and Prevention, 2920 Brandywine Road, Room 3000, Atlanta, GA 30341. Standard application forms, as furnished by CDC and required by 45 CFR 92 must be used for this program. This program is subject to the provisions set forth in 45 CFR 92 for State and local governments.

Award Procedure:

Approved grants are funded based on a priority score ranking from an objective review process coordinated by the Centers for Disease Control and Prevention. CDC will give funding preference to state programs with significant estimated numbers of children with elevated blood lead levels that direct federal funds to localities with high concentrations of children at risk for childhood lead poisoning. CDC will also give funding preference to the five local jurisdictions with the highest estimated number of children with elevated blood lead levels. Awards are made based on availability of funds and other significant factors as deemed necessary and appropriate by the agency. Funds are awarded for a one-year (12 month period). A Notice of Grant Award (Form PHS 5161-1) is provided which indicates the current award as well as support recommendations for the remainder of the project period (up to three years). The Notice of Grant Award indicates allocations for Federal funds by budget categories and any special conditions, if applicable.

CRITERIA FOR SELECTING PROPOSALS:

Applications will be evaluated based upon the applicant's ability to identify populations and communities at high risk and the overall balance of the program's design to address the childhood lead poisoning problem. This requires the development of specific and measurable objectives and a sound operational plan that includes screening of high risk populations, medical and environmental management, lead hazard remediation, and health education and risk reduction activities to appropriately address the problem. Applications also will be evaluated on the ability of the program to carry out childhood lead poisoning prevention program activities utilizing the core public health functions as well as establishing working relations or partnerships with other agencies, organizations or groups that have interest in the prevention of childhood lead poisoning.

93.209 Contraception and Infertility Research Loan Repayment Program

(CIR LRP).

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, 42 U.S.C. 288-2, Title IV (National Research Institutes), Part G (Awards and Training), Section 487B (Loan Repayment Program for Research with Respect to Contraception and Infertility), as amended by Public Law 113-235.

OBJECTIVES:

This listing is no longer in use. The CIR-LRP is designed to provide an incentive for health professionals to work in areas of reproductive extramural contraception and/or infertility research (which are defined, respectively, as research that has the ultimate goal to provide new or improved methods of preventing pregnancy and research that has long-range objective to evaluate, treat, or ameliorate conditions which result in the failure of couples to either conceive or bear young) by repaying educational loans. The CIR-LRP will pay up to \$50,000 (\$20,000 for ACGME fellows) of the principal of a participant's educational loans for each year of commitment not to exceed 25% of the remaining loan balance for new awards and 50% for renewals. LRP loan repayments are considered taxable income and can significantly affect an awardee's taxable income. To offset the tax burden resulting from LRP repayments, the LRPs also make a tax payment to the Internal Revenue Service (IRS) equal to 39 percent of the annual LRP repayment. In return for these loan repayments, awardees must agree to conduct contraception and/or infertility research for not less than one year for each year of support awarded. The long-range objective of the CIR-LRP is to stimulate the commitment of researchers to sustaining a career focus on contraception and/or infertility research, as defined above.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

The assistance provided by the CIR-LRP is entirely of a financial nature in the form of loan repayments. The monies provided by this program are restricted to the repayment of pre-existing, qualified loans procured by the participant for educational expenses incurred in the pursuit of undergraduate or graduate degrees.

Applicant Eligibility:

Specialized group (e.g. health professionals, students, veterans); Applicants must be U.S. citizens (or U.S. nationals or permanent residents) Applicants for LRP-CIR must be qualified health and/or allied health professionals including, but not limited to, physicians, Ph.D.-level scientists, nurses and physician assistants, as well as graduate students and postgraduate research fellows training in the health professions, who must be (a) engaged in employment/training at an NICHD extramural laboratory, or (b) engaged in qualifying research activities in a qualified institution. Applicants for new awards must commit to conduct contraception and infertility research for at least 50% of their time (at least 20 hours weekly based on a 40 hour week) for two years and must be funded by a domestic nonprofit or U.S. Government (Federal, state or local) entity. Also, the research must not be prohibited by Federal law or NIH policy. Complete eligibility and other important information is available at <https://grants.nih.gov/grants/guide/notice-files/NOT->

ASSISTANCE LISTINGS DESCRIPTIONS

OD-19-120.html

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Graduate Student; Scientist/Researchers; Assistance in the form of loan repayments will be made to the lender of participants in the CIR-LRP.

Credentials/Documentation:

In order to be considered for selection into the CIR-LRP, eligible new applicants must complete and submit the electronic application materials located at www.lrp.nih.gov, which include: (1) a Loan Verification Form for each loan to be considered for repayment; (2) an institutional statement providing assurance that the applicant will be engaged in employment/training at a qualified domestic nonprofit institution (tax-exempt under 26 USC 501) or U.S federal, state or local government entity, for not less than two years from the anticipated effective date of the NIH Loan Repayment Program Contract between the individual and NICHD (this assurance is conducted electronically); and (3) a signed NIH Loan Repayment Program Contract by which the applicant agrees to serve the obligated minimum period, one year for each year of support awarded, conducting contraception and/or infertility research at a qualified domestic nonprofit institution (tax-exempt under 26 USC 501). Renewal applicants may request one or two year awards. For these applicants, a one-year institutional statement providing assurance and NIH Loan Repayment Program Contract is sufficient. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. Information regarding the CIR-LRP and the preparation of forms for application to the CIR-LRP can be obtained at <https://grants.nih.gov/grants/guide/notice-files/NOT-OD-19-120.html> and by contacting the LRP Info Center at www.lrp.nih.gov, (866) 849-4047 (Mon-Fri 9AM - 5PM Eastern Time) and lrp@nih.gov.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Qualified individuals interested in participating in the CIR-LRP should visit the NIH Loan Repayment Program Website at www.lrp.nih.gov for all application forms and requirements. The application will be evaluated by a Review Committee, convened for this purpose by the Scientific Review Branch, NICHD, NIH, HHS. In selecting applicants for participation in the CIR-LRP, the panel will consider the review criteria listed under Application Review Process at <https://www.lrp.nih.gov/faqs>. All selections are subject to final approval by the Director, NICHD. The NIH Division of Loan Repayment will notify the applicant of the outcome of the review.

Award Procedure:

Once the applicant is selected to participate in the CIR-LRP, the applicant and the Director, NICHD, as a designee of the Secretary of Health and Human Services, will sign a written binding contract stating the terms and conditions for participating in the CIR- LRP. The effective date of the contract will be the date it is signed by the Director, NICHD, or the date employment/training begins at an NICHD-funded Specialized Contraception or Infertility Research Center, whichever is later.

Deadlines:

September 01, 2020 - November 15, 2020. Applications can be received at the deadlines established and announced each year at <http://www.lrp.nih.gov/>.

93.210 Tribal Self-Governance Program: IHS Compacts/Funding Agreements

(OTSG Compacts),

FEDERAL AGENCY:

INDIAN HEALTH SERVICE, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

ASSISTANCE LISTINGS DESCRIPTIONS

Indian Self-Determination and Education Assistance Act (ISDEAA), , 25 USC Code 458aaa. Tribal Self-Governance Amendments of 2000, , 42 USC Code 137.1-450.

OBJECTIVES:

To allow Federally recognized Indian Tribes to enter into an agreement with the Indian Health Service (IHS) to assume full funding and control over programs, services, functions and activities (PSFA) (or portions thereof) that the IHS would otherwise provide for Indians because of their status as Indians. Such assumptions shall be through compact and funding agreement or construction project agreement under Title V of the ISDEAA.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

Funds must be spent in accordance with the Indian Self-Determination and Education Assistance Act (ISDEAA), applicable regulations and terms of the negotiated compact, funding agreement, or construction project agreement. Per 42 CFR 137.167-168, a Tribe participating in the IHS Self-Governance Program (Self-Governance Tribe) must apply the cost principles of the applicable OMB Circular, except as modified by: (a) 25 U.S.C. 450j-1, (b) other provisions of law, or (c) any exemptions to applicable, subsequent OMB circulars. No other audit or accounting standards shall be required by the Secretary. Per 25 U.S.C 458aaa-7(h) and 42 CFR 137.100, a Self-Governance Tribe may retain and spend interest earned on any funds paid under a compact or funding agreement. Per 42 CFR 137.101, a Self-Governance Tribe must invest and manage the funds as a prudent investor would, in light of the purpose, terms, distribution requirements, and provisions in the compact or funding agreement and ISDEAA Title V. This duty requires the exercise of reasonable care, skill, and caution, and is to be applied to investments not in isolation, but in the context of the investment portfolio and as a part of an overall investment strategy that should incorporate risk and return objectives reasonably suitable to the Self-Governance Tribe. In making and implementing investment decisions, the Self-Governance Tribe must diversify the investments, unless it is imprudent under the circumstances. In addition, the Self-Governance Tribe must: (a) conform to fundamental fiduciary duties of loyalty and impartiality; (b) act with prudence in deciding whether and how to delegate authority and in the selection and supervision of agents; and (c) incur only costs that are reasonable in amount and appropriate to the investment responsibilities of the Self-Governance Tribe.

Applicant Eligibility:

Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Per 42 CFR 137.18, to be eligible to participate in the IHS Tribal Self-Governance Program (Program), any Federally recognized Indian tribe must: (a) successfully complete the planning phase described in 42 CFR 137.20; (b) request participation in the Program by resolution or other official action by the governing body of each Indian tribe to be served; and (c) demonstrate financial stability and financial management capability for three fiscal years. Per 42 CFR 137.21, the Indian tribe provides evidence that, for the three years prior to participation in the Program, the Indian tribe has had no uncorrected significant and material audit exceptions in the required annual audit of the Indian tribe's self-determination contracts or self-governance funding agreements with any federal agency. Per 42 CFR 137.22, if the Indian Tribe chooses to centralize its self-determination or self-governance financial and administrative functions with non-self-determination or non-self-governance financial and administrative functions, such as personnel, payroll, property management, etc., the Secretary may consider uncorrected significant and material audit exceptions related to the integrity of a cross-cutting centralized function in determining the Indian Tribe's eligibility for participation in the self-governance program. Per 42 CFR 137.26, an Indian tribe does not need to receive a planning or negotiation cooperative agreement to be eligible to participate in the IHS Tribal Self-Governance Program. An Indian tribe may use other resources to meet the planning requirement and to negotiate. Under 25 U.S.C. 458aaa-2(b)(1), each year, an additional 50 Indian tribes that meet the eligibility criteria are entitled to participate in the IHS Tribal Self-Governance Program.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Native American Organizations; American Indian; Federally Recognized Indian Tribal Governments; Federally-recognized Indian tribes and tribal organizations (as

defined in 25 U.S.C. 458aaa-(b)) may benefit.

Credentials/Documentation:

Per 42 CFR 137.167 and 137.168, a self-governance tribe must apply the cost principles of the applicable OMB Circular, except as modified by: (a) section 106(k) of the Act (25 U.S.C. 450j-1), (b) other provisions of law, or (c) any exemptions to applicable OMB circulars subsequently granted by the OMB. No other audit or accounting standards shall be required by the Secretary. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Per 42 CFR 137.18, to be eligible to participate in the IHS Tribal Self-Governance Program, any Federally recognized Indian tribe must: (a) successfully complete the planning phase described in 42 CFR 137.20; (b) request participation in the IHS Tribal Self-Governance Program by resolution or other official action by the governing body of each Indian tribe to be served; and (c) demonstrate financial stability and financial management capability for three fiscal years. Per 42 CFR 137.21, the Indian tribe provides evidence that, for the three years prior to participation in the IHS Tribal Self-Governance Program, the Indian tribe has had no uncorrected significant and material audit exceptions in the required annual audit of the Indian tribe's self-determination contracts or self-governance funding agreements with any federal agency. Per 42 CFR 137.22, if the Indian Tribe chooses to centralize its self-determination or self-governance financial and administrative functions with non-self-determination or non-self-governance financial and administrative functions, such as personnel, payroll, property management, etc., the Secretary may consider uncorrected significant and material audit exceptions related to the integrity of a cross-cutting centralized function in determining the Indian Tribe's eligibility for participation in the self-governance program. Per 42 CFR 137.26, an Indian tribe does not need to receive a planning or negotiation cooperative agreement to be eligible to participate in the IHS Tribal Self-Governance Program. An Indian tribe may use other resources to meet the planning requirement and to negotiate. Under 25 U.S.C. 458aaa-2(b)(1), each year, an additional 50 Indian tribes that meet the eligibility criteria shall be entitled to participate in the IHS Tribal Self-Governance Program.

Award Procedure:

Funds are transferred to Indian tribes who have successfully negotiated (1) a compact and funding agreement or (2) a compact, funding agreement, and construction project agreement entered into under ISDEAA Title V.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Not Applicable. Not applicable.

Appeals:

Not Applicable. See 42 CFR 137.410-445 for regulations governing compacts, funding agreements, and construction project agreements entered into under ISDEAA Title V.

Renewals:

Other. Per 42 CFR 137.35, upon approval and execution of an ISDEAA Title V compact, the compact remains in effect for so long as permitted by Federal law or until terminated by mutual written agreement or retrocession or reassumption of all PSFAs. Per 42 CFR 137.55, a funding agreement shall have the term mutually agreed to by the parties. Under 25 U.S.C. 458aaa-4(e), absent notification from an Indian tribe that it is withdrawing or retroceding the operation of one or more PSFA identified in the funding agreement, the funding agreement shall remain in full force and effect until a subsequent funding agreement is executed.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Not applicable. Method of awarding/releasing assistance: lump sum.

ASSISTANCE LISTINGS DESCRIPTIONS

Reports:

See 42 CFR 137.200-207 for reporting requirements for Self-Governance Tribes under ISDEAA Title V. Per 25 U.S.C. 458aaa-6(a)(1) and 42 CFR 137.200, compacts or funding agreements negotiated between the Secretary and a Self-Governance Tribe must include a provision that requires the Self-Governance Tribe to report on health status and services delivery. These reports may only impose minimal burdens on the Self-Governance Tribes; cash reports, progress reports, expenditure reports, and performance monitoring are not applicable; see 42 CFR 137.351 for reporting requirements for construction project agreements.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503 Per 25 U.S.C. 458aaa-5(c) and 42 CFR 137.165, Self-Governance Tribes must undertake annual audits pursuant to the Single Audit Act, 31 U.S.C. 7501 et seq. Per 42 CFR 137.166, exceptions are described in 31 U.S.C. 7502 of the Single Audit Act.

OBJECTIVES:

The purpose of the Telehealth Network Program (TNGP) is to fund programs that demonstrate how telehealth networks improve healthcare services in rural communities. The current cohort is aimed towards promoting rural Tele-emergency services by enhancing telehealth networks to deliver 24-hour Emergency Department (ED) consultation services via telehealth to rural providers without emergency care specialists. The National Telehealth Resource Center Program (NTRC) and the Regional Telehealth Resource Center Program (RTRC) are designed to expand the availability of technical assistance in the development of telehealth services, leveraging the experience of mature programs with expertise in providing and implementing telehealth services. In Fiscal Year 2020, additional funds were allocated to the program to prevent, prepare for, and respond to the COVID-19 pandemic. Efforts include promoting the use of telehealth to reduce the risk of COVID-19, enhancing readiness and training to respond to COVID-19 through telehealth, and providing access to telehealth to limit the spread of COVID-19. The Licensure Portability Program (LPP) supports state professional licensing boards to carry out programs under which licensing boards of various states cooperate to develop and implement state laws and related policies that will reduce statutory and regulatory barriers to the provision of health care services through telemedicine technology. In Fiscal Year 2020, additional funds were allocated to the program to increase the ability to address the COVID 19 pandemic. Efforts include adding new capacity to aid in helping a range of clinicians working with different boards (e.g., nurses, psychologists) develop and implement strategies that will encourage a streamlined process for multi-state licensure procedure(s). The Evidence-Based Telehealth Network Program (EB-TNP) The current cohort supports the use of telehealth networks to increase access to behavioral health care services in rural and frontier communities. While the Evidence-Based Tele-Behavioral Health Network Program seeks to expand access to services for rural patients, its primary goal is to significantly contribute to the evidence base for assessing the effectiveness of tele-behavioral health care services for patients, providers, and payers. Funding for this cohort will end August 31, 2021. The program will start a new project period on September 1, 2021 and the primary aims of the program will be the following: demonstrating how healthcare systems can increase access to healthcare services utilizing Direct to Consumer technologies and conducting evaluations of those efforts to establish an evidence base for assessing the effectiveness of Direct to Patient telehealth care for patients, providers, and payers. The Telehealth Center of Excellence (COEs) assess specific telehealth uses, operate as incubators to pilot, track and refine telehealth, examine the efficacy of telehealth services in rural and urban areas and explore new

telehealth applications for telehealth research and resources. The programs focus on the delivery and impact of telehealth across diagnosis based projects, numerous care settings and telehealth education and incorporate wide ranging technology and modalities to advance telehealth. Telehealth Technology-Enabled Learning Program (TTELP) purpose is to connect specialists at academic medical centers with primary care providers in rural and underserved areas, providing evidence-based training and support to help them treat patients with complex conditions in their communities. TTELP recipients will develop telehealth technology-enabled collaborative learning and capacity building models (such as Project ECHO, ECHO-like models, distance learning, tele-mentoring, clinical decision support, and other emerging models in the field), and share freely accessible tools and resources that are adaptable to culturally and regionally diverse populations to provide training nationwide to facilitate the dissemination of best practice specialty care to primary care providers and care teams in rural and underserved areas. Telehealth Broadband Pilot (TBP) Program aims to assess the broadband capacity available to rural healthcare providers and patient communities and to improve their ability to participate in telehealth services through cross-agency collaboration. A Telehealth Resource Center will implement the TBP in four state community locations, including Alaska, Michigan, Texas and West Virginia. TTAC will also work with the Rural Telehealth Initiatives federal partners to improve rural communities access to broadband and telehealth services through existing funding opportunities and grant programs. A Telehealth-Focused Research Center will evaluate the TBP program across all participating communities

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Telehealth Network Grant Program (TNGP) Funds support the use of telehealth networks (electronic information and telecommunications technologies to support and promote long-distance health care and ancillary services) for improving access to health care services; provide a baseline of information for a systematic evaluation of telehealth systems; purchase or lease and install equipment; and to operate and evaluate the telehealth system. Overall, not more than 20 percent of program funds may be expended for equipment. Not more than 15 percent of program funds may be expended for indirect costs. Program funds may not be used for purchasing and installing telecommunications transmission equipment (e.g., microwave towers, satellite dishes, amplifiers, digital switching equipment or laying cable or telephone lines) or to acquire real property. Construction costs are allowable only for minor renovations related to the installation of equipment. National Telehealth Resource Center Program (NTRC) and the Regional Telehealth Resource Center Program (RTRC) Funds support the establishment and development of Telehealth Resource Centers, which serve as a focus for the provision of telehealth technical assistance across the country. One National TRC will focus on providing specialized technical assistance in telehealth technology. The other National TRC will focus on policy issues such as state and national policies and initiatives regarding telehealth. Twelve Regional Telehealth Resource Centers are located across the United States. Funds are used for salaries, equipment, operating, travel expenses, or other costs for: providing technical assistance, training and support; disseminating information and research findings related to telehealth services; promoting effective collaboration among telehealth resource centers and HRSA; promoting the integration of the technologies used in clinical information systems with other telehealth technologies; fostering the use of telehealth technologies to effectively provide healthcare information and education for health care providers and consumers; and, implementing special projects that involve collaboration among TRCs to advance the field of telehealth. Funds may not be used for: acquiring real property; equipment costs of more than 40 percent of total program funds; for equipment or transmission costs not directly related to the program purposes; to purchase or install general-purpose voice telephone systems; construction costs; and indirect costs exceeding 15 percent of total program funds. The Licensure Portability Program (LPP) Funds may be used for salaries, equipment, software development, operating, or other costs associated with developing legislative, administrative, and technical projects to address licensure barriers that hinder the practice of telemedicine across state lines. Under the CARES Act, the Coronavirus Licensure Portability Grant Program provided one-time funding to create resources to address challenges for telehealth providers and to add new capacity to help a range of clinicians working with different licensure boards (e.g., physician, nurses, psychologists) to develop and implement strategies to streamline the process for multi-state licensure procedure(s). Evidence-

Based Telehealth Network Program (EB-TNP) Award funds may be used for salaries, equipment, and operating or other costs, including: Developing and delivering clinical telehealth services that enhance access to health care services in rural and frontier communities; Developing and acquiring, through lease or purchase, computer hardware and software, audio and video equipment, computer network equipment, interactive equipment, data terminal equipment, and other equipment that furthers the objectives of the telehealth network program; Developing and acquiring instructional programming; Providing for transmission of medical data, and maintenance of equipment; Providing for compensation (including travel expenses) of specialists, and referring health care providers, who are providing rural telehealth services through the telehealth network, if third party payment is not available for the telehealth services delivered through the telehealth network; Developing projects to use telehealth technology to facilitate collaboration between rural health care providers; and Collecting and analyzing usage statistics and data to document the cost-effectiveness of telehealth services and answer similar research questions that will contribute to the evidence-base for rural telehealth care. Overall, not more than 20 percent of program funds may be expended for equipment. Under the Evidence-Based Tele-Behavioral Network Program, any program income, including reimbursements for the third party claims, should be added to funds committed to the project and used to further eligible program objectives. Telehealth Centers of Excellence (COE) The Telehealth Centers of Excellence share expertise operating a successful, high volume, clinically diverse telehealth program and will use that base to explore new telehealth applications, examine the efficacy of telehealth, plan better integration of telehealth services into health care delivery, and examine the impact of telehealth on federal health care spending. The Telehealth Centers of Excellence demonstrate over the course of the project period how telehealth programs and networks can improve access to health care services in rural and underserved communities, particularly those with high rates of poverty and chronic disease. Through YR3 of the HRSA award the COEs have served over 6,000 patients and supported Community Health Centers and School Districts with telehealth services spanning 30 individual projects including focus on COVID-19 resulting in over 40 publications and reports on telehealth. Funds under this notice may not be used for the following purposes: to acquire real property; for expenditures to purchase or lease equipment, to the extent that the expenditures would constitute the majority of the total program funds; to purchase or install transmission equipment (such as laying cable or telephone lines, or purchasing or installing microwave towers, satellite dishes, amplifiers, or digital switching equipment); to pay for any equipment or transmission costs not directly related to the purposes of the award; to purchase or install general purpose voice telephone systems; for construction; and for expenditures for indirect costs (as determined by the Secretary), to the extent that the expenditures would exceed 15 percent of the total program funds. Telehealth Technology-Enabled Learning Program (TTELP) Funds support the use of technology-enabled learning collaborative building models for improving the knowledge base for primary care providers to effectively treat complex disease states in rural communities. Telehealth Broadband Pilot Program: Funds support the use of broadband assessment for improving access to health care services and assessing the pilot program. Under the CARES Act, the Telehealth Broadband Pilot program was provided one-time supplemental funding to assess the broadband capacity available to rural healthcare providers and patient communities and to improve their ability to participate in telehealth services through cross-agency collaboration. As a restriction, it is incumbent upon project directors, program directors, and principal investigators to make results and accomplishments of their activities available to the public All eligible applicants and their eligible OAT-funded network members must apply for a Universal Service subsidy as soon as possible or demonstrate to OAT that applying would not provide any financial advantage. Applicants accepting this award will be required to provide data and to collaborate with the HRSA-funded partners designated to perform evaluation activities associated with the Telehealth Broadband Pilot Program. Applicants accepting this award will be required to provide data and to collaborate with the HRSA-funded Telehealth-Focused Rural Health Research Center designated to perform evaluation activities associated with the Telehealth Broadband Pilot Program.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes

institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Telehealth Network Grant Program (TNGP) - Eligible applicants shall be domestic public or private, non-profit or for-profit entities with demonstrated experience utilizing telehealth technologies to serve rural underserved populations. This includes faith-based, community-based organizations, and federally-recognized tribes and tribal organizations. National Telehealth Resource Center Program (NTRC) and Regional Telehealth Resource Center Program (RTRC) - Eligible applicants include public, private non-profit and for-profit entities. Faith-based and community-based organizations, Tribes, and tribal organizations are eligible to apply. Licensure Portability Grant Program (LPGP) - Eligible applicants are limited by statute to state professional licensing boards. Eligible applicants include domestic public or private entities. Evidence-Based Telehealth Network Program (EB-TNP) FY18 EB THNP Funding: Eligible applicants shall be domestic public or private, non-profit entities. This includes faith-based, community-based organizations, and tribes and tribal organizations. FY21 EB THNP Funding: Eligible applicants shall be domestic public or private, non-profit or for-profit entities with demonstrated experience utilizing telehealth technologies to serve rural underserved populations. This includes faith-based, community-based organizations, and federally-recognized tribes and tribal organizations. The Telehealth Centers of Excellence Program - Eligible applicants must be public academic medical centers located in states with high chronic disease prevalence, high poverty rates, and a large percentage of medically underserved rural areas. The Telehealth Centers of Excellence will be located in a public academic medical center that: 1. Has a successful telehealth program with a high annual volume of telehealth visits; 2. Has an established reimbursement structure that allows telehealth services to be financially self-sustaining; and 3. Has established programs that provide telehealth services in medically underserved areas with high chronic disease prevalence and high poverty rates. Telehealth Technology-Enabled Learning Program (TTELP) All domestic public and private entities, nonprofit and for-profit, are eligible to apply. Domestic faith-based and community-based organizations, tribes, and tribal organizations and organizations based in the territories and freely associated states are also eligible to apply. Telehealth Broadband Pilot Program - Eligible applicants are limited by applicant eligibility requirements to the Telehealth Resource Centers and the Telehealth-Focused Research Center.

Beneficiary Eligibility:

U.S. Territories; Specialized group (e.g. health professionals, students, veterans); Private nonprofit institution/organization; State; Local; Rural; Public nonprofit institution/organization; Federally Recognized Indian Tribal Governments; Telehealth Network Grant Program (TNGP) - Health care providers in rural areas, in medically underserved areas, in frontier communities, and for medically underserved populations. TNGP grantees include in the network at least two (2) of the following entities (at least one (1) of which shall be a community-based health care provider: (a) community or migrant health centers or other federally qualified health centers; (b) health care providers, including pharmacists, in private practice; (c) entities operating clinics, including rural health clinics; (d) local health departments; (e) nonprofit hospitals, including community (critical) access hospitals; (f) other publicly funded health or social service agencies; (g) long-term care providers; (h) providers of health care services in the home; (i) providers of outpatient mental health services and entities operating outpatient mental health facilities; (j) local or regional emergency health care providers; (k) institutions of higher education; or (l) entities operating dental clinics; and (m) school based health centers/clinics. National Telehealth Resource Center Program (NTRC) and Regional Telehealth Resource Center Program (RTRC) - Health care providers in rural areas, in medically underserved areas, in frontier communities, and medically underserved populations. The TRCs must support the activities of existing or developing telehealth networks to meet the health care needs of rural or other populations to be served, including the improvement of access to services and the quality of the services received by those populations. American Indian and/or Alaska Native Tribal Organizations are eligible beneficiaries provided those organizations meet the beneficiary requirements above. Licensure Portability Grant Program (LPGP) - State professional licensing boards carry out programs under which licensing boards of various states cooperate to develop and implement state

policies that will reduce statutory and regulatory barriers to telemedicine. State licensing boards, their members, and the general public are beneficiaries of the services conducted under this grant. Evidence-Based Tele-Emergency Network Grant Program (EB TNGP) - The Tele-Emergency Network shall include at least five members. Network members may include representation from the following categories: Hospitals, including community (critical) access hospitals; Local or regional emergency health care providers; Institutions of higher education with experience in data collection and analysis including but not limited to claims-level data; Medical research institutions; Tertiary providers with specialized experience in emergency medicine, stroke and the use of telehealth services in those clinical areas. The Rural Child Poverty Telehealth Network Grant Program (RCP-TNGP) - Health care providers serving rural areas and frontier communities. The RCP-TNGP Network shall include at least two (2) of the following entities (at least one of which shall be a community-based health care provider): Community or migrant health centers or other federally-qualified health centers; Health care providers, including pharmacists, in private practice; Entities operating clinics, including rural health clinics; Local health departments; Nonprofit hospitals, including community access hospitals; Other publicly funded health or human/social service agencies; Long-term care providers; Providers of health care services in the home; Providers of outpatient mental health services and entities operating outpatient mental health facilities; Local or regional emergency health care providers; Institutions of higher education; and Entities operating dental clinics. If available in their area, applicants should consider partnering or collaborating with other federally-funded programs that target or have demonstrable effects on the health of impoverished children living in rural areas, including: USDA Cooperative Extension System Offices; Healthy Start; Healthy Tomorrows Partnership for Children; WIC; Maternal, Infant and Early Childhood Home Visitation programs; Head Start and Early Head Start; Temporary Assistance to Needy Families; Community Action Agencies; and other human/social service-focused providers. The Substance Abuse Treatment Telehealth Network Grant Program (SAT-TNGP) - The network must include at least two (2) of the following entities (at least one of which shall be a community-based health care provider): (a) Small hospital (defined as less than 50 available beds, as reported on the hospitals most recently filed Medicare Cost Report); (b) Community or migrant health centers or other federally-qualified health centers; (c) Health care providers, including pharmacists, in private practice; (d) entities operating clinics, including rural health clinics; (e) local health departments; (f) nonprofit hospitals, including community (critical) access hospitals; (g) other publicly funded health or social service agencies; (h) long-term care providers; (i) providers of health care services in the home; (j) providers of outpatient mental health services and entities operating outpatient mental health facilities; (k) local or regional emergency health care providers; (l) institutions of higher education; or (m) entities operating dental clinics. As noted in the Consolidated Appropriations Act 2017 (Public Law No. 115-31), preference will be given to networks that include small hospitals serving communities with high rates of poverty, unemployment, and substance abuse. The Telehealth Center of Excellence Program (COE) - Health care providers in rural areas, in medically underserved areas, in frontier communities, and medically underserved populations. The TRCs must support the activities of existing or developing telehealth networks to meet the health care needs of rural or other populations to be served, including the improvement of access to services and the quality of the services received by those populations.

Credentials/Documentation:

Applicants should review the individual HRSA notice of funding opportunity issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. An applicant should consult the office or official designated as the single point of contact in his or her state for more information on the process the state requires to be followed in applying for assistance, if the state has selected the program for review. There are

two FORHP programs that require the respective State Offices of Rural Health to be notified that they are applying, which are the Regional Telehealth Resource Center Program (RTRC) and the National Telehealth Resource Center Program (NTRC). Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications are generally solicited by a notice of funding opportunity in the HRSA Preview. HRSA requires applicants (for new competitions) or awardees (for continuation applications) to submit applications electronically through Grants.gov. The program guidance contains detailed application and submission instructions, including information on the non-competitive continuation application and submission process. Awardees must submit proposals according to the program guidance, which specifies required forms, contains additional general information and instructions for grant applications, including proposal narratives, and budgets. The program guidance, when available, may be obtained by: Downloading from <http://www.grants.gov>; or, Contacting the HRSA Grants Application Center: The Legin Group, Inc., 910 Clopper Road, Suite 155 South Gaithersburg, MD 20878, Telephone:877-477-2123, HRSA@hrsa.gov. Application information may also be found by visiting <http://www.hrsa.gov/grants/>. All qualified applications will be forwarded to an objective review committee. Based on the advice of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions.

Award Procedure:

For FY 2021, a new competition for the COE, EB TNP, TTELP and TRC programs will be conducted. All final funding decisions are made by and independent review panel that is conducted by the Health Resources and Services Administrations Division of Independent Review. Notification is made in writing by a Notice of Award.

Length and Time Phasing of Assistance:

Programs are competed every three to five years. Projects awarded under a competition must complete a non-competing continuation application every year to release funds for the following budget period. See the following for information on how assistance is awarded/released: N/A. Method of awarding/releasing assistance: other

Reports:

Six-month Progress Reports are required. The awardee will be required to submit performance and progress reports as well as status-federal financial reports (see the program announcement and notice of award for details for each required report). The awardee must submit a quarterly electronic Federal Financial Report (FFR) Cash Transaction Report via the Payment Management System within 30 days of the end of each calendar quarter. A Federal Financial Report (SF-425) according to the following schedule:

<http://www.hrsa.gov/grants/manage/technicalassistance/federalfinancialreport/ffsr-hedule.pdf>. A final report is due within 90 days after the project period ends. If

applicable, the awardee must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this funding opportunity announcement are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation awardees, etc. may be subject to this requirement and will be so notified in the Notice of Award.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in federal awards will have a single or a program-specific audit conducted for that year. Non-federal entities that expend less than \$750,000 a year in federal awards are exempt from federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Awardees are required to maintain grant accounting records 3 years after the date they submit the Federal Financial Review (FFR). If any litigation, claim, negotiation, audit or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues that arise from it, or until the end of the regular 3-year period, whichever is later.

Range and Average of Financial Assistance:

TNGP Awards range from approximately \$276,900 to \$300,000, with an average award of approximately \$295,000. LPGA - Awards range from approximately \$76,250 to \$249,603 between the two grantees. Coronavirus provided \$2,500,000 per awardee in FY 2020. COE - Awards are distributed evenly at \$3,000,000 a year for each awardee. In FY21 the award will be \$3,250,000 per awardee per year. EB-TNP - FY20 awards range from approximately \$296,779 to \$350,000 with an average award of approximately \$339,210. In FY21 the anticipated award will be up to \$350,000 per awardee per year. TRC - Awards are distributed evenly at \$325,000 a year for each awardee. Coronavirus provided \$828,571 evenly per awardee in FY 2020. TTELP - FY 21 awards are estimated to be \$475,000 per year for each award recipient.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2020: Telehealth Network Grant Program By August 2020, 204 rural schools, in high poverty areas, received telehealth services as a result of this Program. Evidence Based Tele-Behavioral Health Program Improved access to quality services through offering continuity of behavioral health care with a trusted provider at over 60 sites. Increased access to specialty providers (i.e. Psychiatry) closer to home. Increased innovative ways to utilize telehealth. One program is utilizing telehealth on a mobile van to provide Medication Assisted Treatment for Substance Use Disorder patients. In year 2 (Aug. 2019-Sept. 2020) awardees presented at local, regional, and national conferences about tele-behavioral health data and best practices. 93.213 Research and Training in Complementary and Integrative Health

National Center for Complementary and Integrative Health,

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Section 485D, Title VI, Section 601, Statute 112-2681-387, Public Law 105-277, 42 USC Code 281. 42 USC Code Chapter 6A Subchapter III Part E Subpart 5 287c21. Public Law 113-235, Section 224

OBJECTIVES:

To evaluate complementary and integrative health approaches. The following objectives support this goal: (1) coordinate and facilitate the investigation of complementary and integrative health approaches through peer-reviewed grant solicitations; (2) interface with the NCCIH National Advisory Council; (3) conduct technology assessment conferences for the purpose of establishing areas of Clinical and Pre-clinical research that need to be further developed within complementary health approaches; and (4) maintain a comprehensive bibliographic data base in conjunction with the National Library of Medicine.The National Center for Complementary and Integrative Health (NCCIH) regularly examines and redefines its research priorities. In setting research priorities, NCCIH considers its existing research portfolio, its 5-year strategic plan, the recommendations of the National Advisory Council for Complementary and Integrative Health, current scientific advances, the plans of other NIH institutes and centers, and input from expert panels and stakeholders. Research constituting a rigorous evidence base for complementary health approaches will be developed through a range of research strategies including basic and translational research, and clinical investigation. Priority setting also takes into account: 1)scientific promise, 2)amenability to rigorous scientific inquiry,3) potential to change health practices, and 4) relationship to use and practice.Research ApproachesBasic, translational, efficacy/effectiveness, and implementation research for Complementary and Integrative Health approaches need to be studied across the research continuum. NCCIH continues to emphasize basic research that defines biological effects and mechanisms of action; this research is aimed at understanding the nature of complementary health approaches such as their biology, physiology, and physical, chemical and behavioral properties. NCCIH also supports the development of tools, models, and methodologies for studying these approaches. NCCIH continues to encourage efficacy studies to determine specific clinical effects of complementary health approaches under carefully controlled conditions that minimize nonspecific and contextual effects. There is also the need to strengthen translational and preliminary clinical research required to design and implement definitive clinical research and "real world" outcomes and effectiveness research that capitalizes on the reality that many complementary health approaches are in widespread public use.NCCIH's support of translational research addresses the need for valid, reliable and relevant research tools, outcome measures, and innovative methodology to enhance the rigor of complementary health approaches within clinical studies and to ensure that they are maximally informative. NCCIH emphasizes studies that inform the design of future trials such as those that will: develop and validate outcome measures; standardize treatment protocols or algorithms; validate treatment algorithms and/or; develop measures of quality control or treatment fidelity; assess effects of various doses or intervention durations; develop preliminary clinical evidence regarding efficacy and safety to support estimates of sample size; or establish feasibility of interventions or study designs in specific populations for future studies.NCCIH's clinical research portfolio utilizes clinical trial, case-control, observational, cohort, qualitative, and other experimental methodologies to determine safety and estimate the efficacy of complementary health approaches. The clinical research portfolio includes effectiveness studies of the contribution to improved health and wellness made by complementary health approaches as they are practiced in "real-world" settings.In

ASSISTANCE LISTINGS DESCRIPTIONS

general, phase III clinical trials will be supported under the cooperative agreement mechanism after careful consideration by NCCIH Staff. Investigators interested in proposing phase III studies are strongly encouraged to contact a relevant NCCIH Program Officer (<https://nccih.nih.gov/tools/emailprogramofficers>). Areas of Special Interest Fundamental scientific inquiry is essential to the progress of biomedicine by enhancing the understanding of how living systems work. This understanding serves as a foundation for translational and clinical studies that can lead to improved approaches to the management, treatment, and prevention of diseases and symptoms. One key goal is to advance our understanding of basic biological mechanisms of action of natural products, including prebiotics and probiotics. NCCIH will continue to sponsor research on compounds isolated from natural products as well as complex mixtures from which they originate.

Additionally, NCCIH will continue to support research to elucidate the effects of prebiotics and probiotics on the microbiota naturally present in the human body. Another key goal is to advance our understanding of the mechanisms of action by which mind and body approaches (including, but not limited to: meditation, spinal manipulation, massage, yoga, tai chi, hypnosis and acupuncture) affect health, resiliency, and well-being. A third key goal is to develop new and improved research methods and tools for conducting rigorous studies of complementary health approaches and their integration into health care. These new methods could catalyze advances in natural product methodology and support development of novel technology and instruments to carry out rigorous research on symptom management and functional changes primarily for mind and body approaches. To improve care for hard-to-manage symptoms such as pain, anxiety, and depression, both mind and body practices and natural products will be rigorously studied using well-established methodology. NCCIH will also support studies in "real world" clinical settings to test the safety and efficacy of complementary health approaches, including their integration into health care. Individual behavior plays a key role in health promotion and disease prevention. It is well established that adopting and maintaining healthy behaviors (e.g., diet and exercise) and modifying unhealthy behaviors reduces risks of major chronic diseases. NCCIH will investigate mechanisms of action of complementary and integrative health approaches in health resilience and practices that improve health and prevent disease. These approaches will be studied across the lifespan and in diverse populations. NCCIH will also explore research opportunities to study and access the safety and efficacy of complementary health approaches in nonclinical settings such as community- and employer-based wellness programs. Top Scientific Priorities The top scientific priorities include the nonpharmacologic management of pain, neurobiological effects and mechanisms, innovative approaches for establishing biological signatures of natural products, disease prevention and health promotion across the lifespan, and clinical trials utilizing innovative study designs to access complementary health approaches and their integration into health care. Pain is the condition for which adults in the United States most often use complementary and integrative health approaches. Growing evidence indicates that some complementary health approaches may help in its treatment and management. Discovering the mechanisms by which a complementary approach exerts its effects could help in the design of better treatments and predict which people are most likely to respond. Whether and how complementary health approaches directly modulate or modify the structure and/or the function of the entire or part of the nervous system remains understudied. Advances in genomics, neuroscience, stem cells, systems biology, and neuroimaging offer excellent conceptual resources and opportunities for innovative and impactful mechanistic studies of complementary health approaches. The purpose of innovative approaches for establishing biological signatures of natural products is to advance the characterization of the biologic activity of complex natural products broadly with an emphasis on determining metabolic profiles. There has been a growing interest in the use of complementary health approaches for the prevention of mental, emotional, and behavioral disorders and for the promotion of psychological and physical health, well-being, and resilience. However, the evidence for the use of complementary modalities in the context of prevention and health promotion is modest. Rigorously designed, developmentally appropriate studies are needed to determine the efficacy and effectiveness of complementary health approaches for health promotion and disease prevention across the lifespan. Early Stage and New Investigators NCCIH is strongly committed to assisting new and early stage investigators in establishing a research career. Early stage investigators are those within 10 years of completing their terminal research degree, or their medical residency, or its equivalent. New investigators are those who have yet to compete successfully for a substantial (e.g., R01) NIH research grant. Each Advisory Council round, based on available funds,

NCCIH: 1) will consider early stage or new investigator status as one of the criteria for designating grant applications as being of high program priority and 2) may make additional R01 grant awards to new and early stage investigators with percentiles or scores out of payline order. NCCIH continues to accept applications in areas not listed as a specific priority area via the investigator initiated funding opportunities. All investigators are urged to discuss potential applications with the relevant NCCIH Program Officer

TYPES OF ASSISTANCE:

Project Grants, Training

USES AND USE RESTRICTIONS:

Research Grants provide funds for salaries, equipment, supplies, travel, and other expenses associated with scientific investigation relevant to program objectives. Individual National Research Service Awards (NRSA) are made to individuals for research training in specified biomedical shortage areas. In addition, grants may be made to institutions to enable them to make NRSA to individuals selected by them. Each individual who receives a NRSA is obligated upon termination of the award to comply with certain service and payback provisions. Small Business Innovation Research (SBIR) Phase I grants (of approximately 6-months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research initiated in Phase I that are likely to result in commercial products or processes. Only Phase I awardees are eligible to receive Phase II support. Small Business Technology Transfer (STTR) Phase I grants (normally of 1-year duration) are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential on Phase II application.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Small business (less than 500 employees); Private nonprofit institution/organization (includes institutions of higher education and hospitals); U.S. Territories and possessions; Federal; Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Profit organization; Quasi-public nonprofit institution/organization; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Universities, colleges, hospitals, laboratories, and other public or private nonprofit domestic institutions, including State and local units of government, and individuals are eligible to make application for grant support of research by a named principal investigator or a research career development candidate. For-profit organizations are also eligible, with the exception of NRSA. Individual NRSA awardees must be nominated and sponsored by a public or nonprofit private institution having staff and facilities appropriate to the proposed research training program. All NRSA awardees must be citizens or have been admitted to the United States for permanent residence. To be eligible, predoctoral candidates must have completed the baccalaureate degree, and postdoctoral awardees must have a professional or scientific degree (e.g., M.D., Ph.D., D.D.S., D.O., N.D., D.C., D.V.M., Sc.D., D.Eng., or equivalent domestic or foreign degree). SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is being proposed and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. or its possessions. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which researches proposed and have no more than 500 employees) which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group

and a national advisory council.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Profit organization; Private nonprofit institution/organization; Student/Trainee; Scientist/Researchers; State; Local; Public nonprofit institution/organization; Federal; Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories; Small business; Other private institution/organization; Native American Organizations; Any nonprofit or for-profit organization, company, or institution engaged in biomedical research.

Credentials/Documentation:

Each applicant for research projects must present a research plan and furnish evidence that scientific competence, facilities, equipment, and supplies are appropriate to carry out the plan. For SBIR and STTR grants, the applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. Individual NRSA applications for postdoctoral training must include the candidate's academic record, research experience, citizenship, institutional sponsorship, and the proposed area and plan of training. Institutional Training grant applications for predoctoral and postdoctoral training must show the objectives, methodology and resources for the research training program; the qualifications and experience of directing staff; the criteria to be used in selecting individuals for stipend support; and a detailed budget and justification for the amount of grant funds requested. For-profit organizations' costs are determined in accordance with Subpart 31.2 of the Federal Acquisition Regulations. For other grantees, costs will be determined in accordance with HHS Regulations 45 CFR, Part 74, Subpart Q. Grant form PHS 398 is used to apply for SBIR and STTR Phase I Phase II and Phase I/Phase II Fast Track. OMB Circular No. A-87 applies to this program. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Research grants: Single project grant applications must be prepared electronically through grants.gov (<http://www.grants.gov>) using the SF 424 (Research and Research-Related) and PHS 398 instructions. Multi-project grant applications must be submitted through the A.S.I.S.T (Application Submission System & Interface for Submission Tracking) system. Individual funding opportunity announcements will indicate the appropriate application format to be used. A listing of NCCIH and other funding opportunities can be found through the NCCIH web site (<http://www.nccih.nih.gov/grants/funding>), through the Grants.gov web site (<http://www.grants.gov/>), or on the NIH Guide to Grants and Contracts (https://grants.nih.gov/funding/searchguide/index.html#). For applications that require the PHS 398, the most recent version of the form and instructions are available at <http://grants.nih.gov/grants/funding/phs398/phs398.html> in an interactive format. Electronic applications are submitted through the Grants.gov website. Completed PHS 398 applications should be submitted to the National Institutes of Health, Center for Scientific Review, 6701 Rockledge Drive, Room 1040 - MSC 7710, Bethesda, MD 20892-7710 or Bethesda, MD 20817 (for express/courier service). For assistance contact GrantsInfo, Telephone: (301) 435-0714, Email: GrantsInfo@nih.gov. National Research Services Awards: Completed application forms should be submitted to the Office of Research Manpower, Center for Scientific Review, Grants, National Institutes of Health, Bethesda, MD 20892. This program is subject to the provisions of 45 CFR, Part 92 for State and local governments and OMB Circular No. A-110 for nonprofit organizations. SBIR and STTR Grant Solicitations and SBIR Contract Solicitation may be obtained electronically through the NIH's "Small Business Research Funding Opportunities" web page at <http://grants1.nih.gov/grants/funding/sbir.htm>. A limited number of hard copies of these publications are produced. Subject to availability, they may be obtained by contacting the NIH support services contractor: Telephone: (301) 206-9385; Fax: (301) 206-9722; E-mail: a2y@cu.nih.gov. The Solicitations include submission procedures, review considerations, and grant application or contract

proposal forms. SBIR and STTR grant applications should be submitted to the Center for Scientific Review, 6701 Rockledge Drive, Room 1040 - MSC 7710, Bethesda, MD 20892-7710. Application forms for SBIR and STTR grants may be obtained through the SBIR/STTR funding announcements posted on the Grants.gov sites and the NIH Guide to Grants and Contracts (see URLs listed above). All SBIR and STTR applications must be submitted electronically. Electronic applications are submitted through the Grants.gov website. This program is subject to the provisions of 45 CFR Part 92 for State and local governments, OMB Circular No. A-110 for nonprofit organizations, cost principles of A-21 for educational institutions, and 42 CFR Part 42. Notice of Funding Opportunities (NOFO) for this listing will be posted on Grants.gov.

Award Procedure:

Award Procedure: All accepted applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council or board. All applications receiving a priority score ranging from the best (10) to worst (90) compete for available funds based on scientific merit, program relevance, and program balance and are made annually. Initial award provides funds for the first budget period (usually 12 months) and Notice of Grant Award (Form PHS 1533) indicates support recommended for remainder of project period, allocation of Federal funds by budget categories, and special conditions, if any. All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council or board. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

>180 Days. Overall from 180 to 300 days. Research Grants and Cooperative Agreements: approximately 6-10 months; National Service Research Awards: 6-9 months; SBIR/STTR awards 6 - 7 months.

Appeals:

Other. An applicant institution (including the Authorized Business Official and the Program Director/Principal Investigator (PD/PI)) may question the substantive or procedural aspects of the review of their application by submitting an appeal. An appeal is a written communication from the applicant that meets the following three criteria: 1) is received after issuance of the summary statement and up to 30 calendar days after the second level of peer review, 2) describes a flaw or perceived flaw in the review process for a particular application, 3) is based on one or more of four allowable issues (described below). The four allowable issues are: (1) evidence of bias on the part of one or more peer reviewers; (2) conflict of interest, as specified in regulation at 42 CFR 52h.5. Scientific Peer Review of Research Grant Applications and Research and Development Contract Projects, on the part of one or more peer reviewers; (3) lack of appropriate expertise within the scientific review group (which performed the peer review); and (4) factual error(s) made by one or more reviewers that could have substantially altered the outcome of review. A description of the NIH Peer Review Policy and Procedures is available at <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-064.html>.

Renewals:

Other. Research grants: renewals by competitive application and review. Extension by request and administrative action. National Research Service Awards: individual awards may be made for 1, 2, or 3 years. No individual may receive NIH fellowship support at the postdoctoral level for more than 3 years.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Research Project Grants (including most Cooperative Agreements): Awards are usually made for a 12-month period with recommendation of up to 4 years of additional support. SBIR: Normally, Phase I awards are for 6 months; normally, Phase II awards are for 2 years. STTR: Normally, Phase I awards are for 1 year; normally, Phase II awards are for 2 years. See the following for information on how assistance is awarded/released: The Notice of Award (NoA) is the legal

ASSISTANCE LISTINGS DESCRIPTIONS

document issued to notify the grantee that an award has been made and that funds may be requested from the designated HHS payment system or office. A NoA is issued for the initial budget period. If subsequent budget periods are also approved, the NoA will include a reference to those budgetary commitments. Funding for subsequent budget periods are generally provided in annual increments following the annual assessment of progress. This funding is also contingent on the availability of funds. The NoA includes all applicable terms of award either by reference or specific statements. It provides contact information for the assigned program officer and grants management specialist. The grantee accepts an NIH award and its associated terms and conditions by drawing or requesting funds from the Payment Management System, or upon the endorsement of a check from the US Treasury for foreign awardees. Method of awarding/releasing assistance: lump sum.

Reports:

Final progress reports must be submitted within 90 days after the expiration of the award. The progress reported in a competitive renewal application may be accepted in lieu of a final progress report. The final progress report should include (at a minimum): summary of progress toward the achievement of the originally stated aims; list of results (positive or negative) considered significant; list of publications resulting from the project as well as plans for further publications and copies of manuscripts that have been accepted for publication, but not yet published. Project Grants: Expenditures and other financial records, including documents supporting accounting records and substantive charges to each grant, must be retained for 3 years from the day on which the grantee submits the last expenditure report for the report period. The Federal Financial Report (FFR) is due 120 days after the final day of the project period. NRSAs: Documentation of expenditures and other fiscal records must be kept readily available for examination by authorized Government personnel and must be retained for 3 years from the day on which the grantee submits the last expenditure report for the report period. Reports are required after termination of NRSAs to ascertain compliance with service and payback provisions. Expenditure reports on a quarterly basis are sent to the data warehouse.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503 For specific audit requirements, please see 45 CFR 75.

Records:

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual financial status reports (FSR) is submitted. For awards under the Streamlined Non-competing Award Process (SNAP) (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 75 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 75 for record retention and access requirements for contracts under grants. In accordance with 45 CFR 75 the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating proposals include assessments of: (1) the scientific merit innovation and general significance of the proposed study and its objectives; (2) the technical adequacy of the experimental design and approach; (3) the competency of the proposed investigator or group to successfully pursue the project; (4) the adequacy of the available and proposed facilities and resources; (5) the necessity of the budget components requested in relation to the proposed project; (6) the relevance and importance to the announced program objectives and when applicable, and (7) the adequacy of assurances detailing the proposed means for safeguarding human or animal subjects. The following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the qualifications of the proposed principal investigator, supporting staff, and consultants; (3) the technological innovation of the proposed research; (4) the potential of the proposed research for commercial application; (5) the appropriateness of the budget requested; (6) the adequacy and suitability of the facilities and research environment; and (7) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility

demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation, originality, or societal importance of the proposed research; (5) the potential of the proposed research for commercial application; (6) the reasonableness of the budget requested for the work proposed; (7) the adequacy and suitability of the facilities and research environment; and (8) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment.

93.217 Family Planning Services

Title X Services,

FEDERAL AGENCY:

OFFICE OF ASSISTANT SECRETARY FOR HEALTH, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Title X of the Public Health Service Act, 42 U.S.C. 300 et seq. and in the implementing regulations which govern project grants for family planning services (42 CFR part 59, subpart A.), Title Title X of the Public Health Service Act, Section 1001, Public Law 2021-116-260, 42 USC Code 300 et seq..

OBJECTIVES:

To establish and operate voluntary family planning services projects, which shall provide family planning services to all persons desiring such services, with priority for services to persons from low-income families. These projects will serve the areas and/or populations within the United States, Washington DC, Puerto Rico, the US Virgin Islands, and the six pacific jurisdictions.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Grants must be used for family planning services including contraceptive services, infertility services and special services to adolescents. Family planning services include information on all medically approved methods of contraception including natural family planning methods; counseling services, physical examinations including cancer detection and laboratory tests; STD and HIV prevention education, screening and referral; contraceptive supplies, and periodic follow-up examinations. Infertility services include assessment, information, education, and arrangements for referral if necessary. Special services to adolescents include in-depth information, education including abstinence education counseling, and referral to and from other social and medical service agencies, and such ancillary services as are necessary to facilitate clinic attendance for adolescents who need contraceptive services. These family planning services must be available without coercion and with respect for the privacy, dignity, social and religious beliefs of the individuals being served. To the extent possible, entities which receive grants under this subsection shall encourage family participation in projects assisted under this subsection. Funds may not be used in programs where abortion is a method of family planning. Funds may not be used for purchase or construction of buildings; salaries of personnel paid from other Federal grant funds; and certain other miscellaneous items as specified in the regulations. Priority in the provision of services will be given to persons from low-income families.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); U.S. Territories and possessions; State; Federally Recognized Indian Tribal Governments; Any public (including city, county, local, regional, or State government) entity or nonprofit private entity located in a State (including the District of Columbia, Puerto Rico, Guam, the Commonwealth of the Northern Mariana Islands, American Samoa, the Virgin Islands, the Federated States of Micronesia, the Republic of Marshall Islands and the Republic of Palau) is eligible to apply for a grant. Faith based organizations are

eligible to apply.

Beneficiary Eligibility:

Individual/Family; Low Income; Persons who desire family planning services and who would not otherwise have access to them. Priority to be given to persons from low-income families. Individuals from other than low-income families will be charged a fee in accordance with an established fee schedule although inability to pay must not be a deterrent to services.

Credentials/Documentation:

A nonprofit private entity must provide evidence of its nonprofit status. Allowability of costs charged to the grant will be determined in accordance with the cost principles found in 45 C.F.R. part 75. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. To apply, applicants must access the announcement through www.grants.gov. Enter the Assistance Listing (formerly CFDA) # and follow the website instructions. Applications submitted after the deadlines will not be accepted for review. The submission deadline will not be extended. Applications which do not conform to the requirements of the opportunity announcement will be deemed ineligible and not be reviewed. Applications may only be submitted electronically via www.grants.gov, unless an exception has been granted by the grants management officer as described in the notice of funding opportunity. Any applications submitted via any other means of electronic communication, including facsimile or electronic mail, will not be accepted for review. Notice of Funding Opportunities (NOFO) for this listing will be posted on Grants.gov.

Award Procedure:

Final award recommendations will be made by the Deputy Assistant Secretary for Population Affairs, using information from the independent review panel and the Federal staff reviews. The Grants Management Officer will conduct a risk assessment on the recommended applications and issue Notices of Award. Funded organizations receive a Notice of Award that includes all of the details of their award, including terms and requirements, and are assigned to a project officer from OPA and a Grants Management Specialist from the OASH Grants and Acquisitions Management Division. All decisions, including the level of funding, are final and not appealable.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 120 to 180 days.

Appeals:

Not Applicable. All decisions, including the level of funding, are final and not appealable.

Renewals:

>180 Days. Recipients apply for their non-competing continuation application 90 days prior to the end of the budget period. Guidance for applying for the non-competing continuation application is provided to the recipient by OPA. Decisions regarding continuation awards and the funding level of such awards will be made after consideration of such factors as the recipients progress and management practices, and the availability of funds. In all cases, continuation awards require a determination by HHS that continued funding is in the best interest of the government (42 C.F.R. 59.8(b)).

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are mandatory. While there is not a fixed cost-sharing percentage or amount, projects must include financial support from sources other than Title X.MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Reports:

Grantees will submit semi-annual or quarterly progress reports. Quarterly cash reporting to the HHS Payment Management System on the FFR is required. Grantees will submit semi-annual or quarterly progress reports. A final progress report covering the entire project period is due 120 days after the end of the project period. Quarterly cash reporting to the HHS Payment Management System on the FFR is also required. Please note these FFR reports are separate submissions via the Division of Payment Services. At this time, data is not transferable between the two systems and you will report twice on certain data elements. Grantees will submit performance measure data through the Family Planning Annual Report (FPAR) on an annual basis.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. Audit requirements covered by 45 CFR part 75.

Records:

HHS and the Comptroller General of the United States or any of their authorized representatives, shall have the right of access to any books, documents, papers, or other records of a grantee, subgrantee, contractor, or subcontractor, which are pertinent to the HHS grant, in order to make audits, examinations, excerpts and transcripts. In accordance with 45 CFR 75.361, grantees are required to maintain grant accounting records 3 years after the end of a project period. If any litigation, claim, negotiation, audit or other action involving the records has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

CRITERIA FOR SELECTING PROPOSALS:

An independent review panel evaluates applications that pass the screening and meet the responsiveness criteria if applicable. These reviewers are experts in their fields, and are drawn from academic institutions, non-profit organizations, state and local government, and Federal government agencies. Based on the Application Review Criteria as outlined in the notice of funding opportunity, the reviewers will comment on and score the applications, focusing their comments and scoring decisions on the identified criteria. In addition to the independent review panel, Federal staff will review each application for programmatic, budgetary, and grants management compliance.

93.220 National Institutes of Health Intramural Loan Repayment Program

NIH Intramural LRP,

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

21st Century Cures Act, Title II, Part C, Section 2022, Public Law 114-255, 42 USC Code 288-1.

OBJECTIVES:

To recruit and retain health professionals performing research in fields required by the NIH to carry out its mission by providing educational loan repayment for participants with substantial amounts of educational debt relative to income, who agree by written contract to engage in laboratory or clinical research as employees of the NIH for a minimum period of two years for AIDS or Clinical Research or three years for General Research. There are three subcategories of research: AIDS research, general research, and clinical research for individuals from disadvantaged backgrounds.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

To provide repayment of extant educational loans incurred by health professionals engaged, as employees of the NIH, in laboratory or clinical research. Recipients must agree by written contract to engage in such research, initially, for a minimum of 2 or 3 years; individuals who have conflicting service obligations may not participate in this program until those obligations are satisfied or have been deferred during the period of program service. Continuation contracts for 1-year terms are available, dependent upon the level of debt and continued involvement in

93.225 National Research Service Awards Health Services Research Training

FEDERAL AGENCY:

AGENCY FOR HEALTHCARE RESEARCH AND QUALITY, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Law 106-129, Public Law 116-260

OBJECTIVES:

To provide predoctoral and postdoctoral training opportunities in health services research. Individual fellowships will be awarded directly to applicants for postdoctoral research training. Domestic institutions will also be awarded grants to enhance predoctoral and postdoctoral training programs and provide support to trainees selected by them. The purpose of these awards is to provide fellows and trainees with both academic training and actual experience in the application of research methods to the systematic analysis and evaluation of the organization, financing, utilization, and delivery of health care services.

TYPES OF ASSISTANCE:

Training

USES AND USE RESTRICTIONS:

Fellowship support is available for full-time health services research training. An institutional allowance is provided to the sponsoring institution for each fellow. Also, research training grants are awarded to institutions to provide support to trainees selected by the training program director at the grantee institution. This support is available for predoctoral and postdoctoral trainees. Offsets for tuition and fees are allowable for trainees, and an amount for training related expenses will be provided. Indirect costs are not allowed for Fellowships. For training grants, indirect costs are capped at 8% MTDC. Postdoctoral fellows and trainees in the first 12 months of postdoctoral NRSA support incur one month of payback obligation for each month of support. The thirteenth and subsequent months of postdoctoral NRSA support are considered payback service for prior postdoctoral support. Predoctoral fellows and trainees do not incur a service payback obligation.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Domestic public or private nonprofit organizations or institutions may apply for training grants. The applicant institutions must have or expand training programs designed to develop competent investigators in the methods and techniques of conducting health services research. Profit-making organizations are not eligible. Individual applicants for postdoctoral fellowships

must have received a clinical or research doctoral degree. All persons supported as fellows or trainees must be citizens or noncitizen nationals of the United States, or have been lawfully admitted for permanent residence.

Beneficiary Eligibility:

Public nonprofit institution/organization; Private nonprofit institution/organization; Individuals and public or private nonprofit organizations or institutions are the beneficiaries of this program.

Credentials/Documentation:

An individual applicant for a postdoctoral fellowship must document receipt of a doctoral degree and acceptance by an appropriate institutional sponsor. Institutional applicants for training grants must document their research and training experiences, staff, curriculum, facilities, and other resources available. Costs will be determined in accordance with HHS Regulations 45 CFR Part 75. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Information about health services research areas being supported is available from AHRQ. Individual fellowship applicants and institutions should submit Form SF 424 R&R. Notice of Funding Opportunities (NOFO) for this listing will be posted on Grants.gov.

Award Procedure:

Applications are reviewed for scientific merit by a committee including nonfederal consultants who are selected from appropriate scientific fields. AHRQ considers the recommendations of the review committee, program interest, and the availability of funds in the final selection of grantees. When such decisions are made, applicants are notified and a Notice of Award is issued. Before receiving support, all individual fellows and institutional postdoctoral trainees must submit required forms, including a payback agreement.

Reports:

Grantees must submit quarterly SF425 reports to PSC. Annual and final progress reports are required. For Institutional Training Grants, a final progress report is due at the close of the project period. Annual reports of activities for tracking payback

provisions are required of all fellows and trainees upon termination of support. Annual and final Federal Financial Reports (FFR; SF425) are required for Institutional National Research Service Awards. Annual FFRs must be submitted within 90 days after the end of the calendar quarter in which the budget period ends. The final FFR must be submitted within 90 days after the end date of the project period.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, grants records are subject to audit and inspection by Federal auditors.

Records:

Records must be retained for at least three years; records shall be retained beyond the three year period if audit findings have not been resolved. Records relating to individual payback obligations are retained for one year after the individual has fulfilled or has been excused from fulfilling the payback obligation.

93.226 Research on Healthcare Costs, Quality and Outcomes

FEDERAL AGENCY:

AGENCY FOR HEALTHCARE RESEARCH AND QUALITY, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Law 106-129, Public Law 116-260, Public Law 116-94

OBJECTIVES:

To support research and evaluations, demonstration projects, research networks, and multidisciplinary centers and to disseminate information on health care and on systems for the delivery of such care involving: (1) The quality, effectiveness, efficiency, appropriateness and value of health care services; (2) quality measurement and improvement; (3) the outcomes, cost, cost-effectiveness, and use of health care services and access to such services; (4) clinical practice, including primary care and practice-oriented research; (5) health care technologies, facilities and equipment; (6) health care costs, productivity, organization, and market forces; (7) health promotion and disease prevention, including clinical preventive services; (8) health statistics, surveys, database development, and epidemiology; (9) digital healthcare research; and (10) patient safety research, including healthcare-associated infections. In support of this research, the Agency has a special interest in health care and its delivery in the inner city, in rural areas, and for priority populations (low-income groups, minority groups, women, children, the elderly, and individuals with special health care needs).

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

The research should contribute to the health services knowledge base from which empirically based information can be derived by policymakers, both immediately and over the coming decades. Grants include funds for direct costs (such as personnel, travel, equipment, or supplies) necessary to carry out an approved project as well as funds for the reimbursement of applicable indirect costs (also referred to as facilities and administrative costs). Unallowable costs are indicated in the HHS Grants Policy Statement.

Applicant Eligibility:

Federal; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Federal, State or local government agencies, federally-recognized Indian Tribal Governments, U.S. Territories, non-government organizations, public or private institutions of higher education, and other public or nonprofit private agencies, institutions, or organizations. For-profit organizations are eligible to apply for these grants only if "cooperative agreement" is the designated funding mechanism. Organizations described in section 501(c)4 of the Internal Revenue Code that engage in lobbying are not eligible.

Beneficiary Eligibility:

Federal; U.S. Territories; Specialized group (e.g. health professionals, students, veterans); Private nonprofit institution/organization; Anyone/general public; Native American Organizations; Consumer; State; Local; Public nonprofit institution/organization; Other public institution/organization; Federally Recognized Indian Tribal Governments; Federal, State or local government agencies, federally-recognized Indian Tribal Governments, public or private nonprofit institutions, U.S. territories, Native American organizations, consumers, students, minority groups, specialized groups, health or education professionals, individuals, scientist/researchers, and the general public.

Credentials/Documentation:

Nonprofit organizations must submit proof of their nonprofit status when applying for grants. Costs will be determined in accordance with DHHS Regulations 45 CFR 75. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications must be submitted in response to a Funding Opportunity Announcement (FOA). All FOAs are posted on www.Grants.gov. Refer to the FOA of interest for specific requirements regarding the application procedure. For State agencies, no State Plan is required. Applications are reviewed and evaluated by a group composed primarily of nonfederal scientists. The review is conducted by a panel of experts in the specific study area proposed. Notice of Funding Opportunities (NOFO) for this listing will be posted on Grants.gov.

Award Procedure:

Applications are reviewed for scientific merit by a committee including nonfederal consultants who are selected from appropriate scientific fields. AHRQ considers the recommendations of the review committee, program interest, and the availability of funds in the final selection of grant applications for funding. When such decisions are made, applicants are notified and a Notice of Award is issued.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

>180 Days.

Appeals:

Not Applicable.

Renewals:

Other. If additional support is desired to continue a project beyond the approved project period, an application for competing continuation must be submitted for review in the same manner as a new application.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Grants may be approved for project periods of up to 5 years, depending on the grant program and based on the availability of funding. Refer to the FOA of interest for information regarding the maximum duration of the project period. Awards are made on an annual basis and it is expected that obligations will be made within the budget period awarded. After awards are issued, funds are released in accordance with the payment procedure established by the grantee institution with DHHS, which may be an Electronic Transfer System or a Monthly Cash Request System. Method of awarding/releasing assistance: lump sum.

Reports:

Grantees must submit quarterly SF425 reports to PSC. Progress reports are required on an annual basis. Some programs also require interim progress reports. A final progress report must be submitted within 90 days after the end of a project period. Inventions are to be reported immediately. A Final Invention Statement must be submitted within 90 days after the end of a project period. An annual Federal Financial Report (FFR; SF425) must be submitted within 90 days after the end of the calendar quarter in which the budget period ends. A final FFR must be submitted within 90 days after the end of the project period.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal government officials.

Records:

Records must be retained for at least three years; records shall be retained beyond the three year period if audit findings have not been resolved.

93.231 Epidemiology Cooperative Agreements

FEDERAL AGENCY:

INDIAN HEALTH SERVICE, HEALTH AND HUMAN SERVICES,

DEPARTMENT OF AUTHORIZATION:

Indian Health Care Improvement Act, , Public Law 94-437, 25 USC Code 1621m.

OBJECTIVES:

The purpose of this cooperative agreement program is to fund Tribes, Tribal and urban Indian organizations, and intertribal consortia to provide epidemiological support for the AI/AN population served by IHS. Tribal Epidemiological Center (TEC) activities should include, but are not limited to, enhancement of surveillance for disease conditions; research, prevention and control of disease, injury, or disability; assessment of the effectiveness of AI/AN public health programs; epidemiologic analysis, interpretation, and dissemination of surveillance data; investigation of disease outbreaks; development and implementation of epidemiologic studies; development and implementation of disease control and prevention programs; and coordination of activities with other public health authorities in the region. It is the intent of IHS to fund several TECs that will serve Tribes and urban Indian communities in all 12 IHS Administrative Areas.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Grant funds may be used to develop and conduct activities to achieve at least one epidemiology programs in each of the 12 Areas of Indian country. The recipient activities will coordinate and participate in projects, investigations, or studies of national scope; and share surveillance and other data collected. IHS activities will convene workshops/meetings; provide technical assistance and consultation; provide training; conduct site visits; and coordinate all epidemiological activities on a national basis.

Applicant Eligibility:

Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Federally Recognized Indian Tribal Governments; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); AI/AN Tribes, Tribal organizations, and eligible intertribal consortia or urban Indian organizations as defined by 25 U.S.C. 1603(e) may be eligible for a TEC cooperative agreement. Such entities must represent or serve a population of at least 60,000 AI/AN to be eligible as demonstrated by Tribal resolutions or the equivalent documentation from urban Indian clinic directors/Chief Executive Officers (CEOs). Applicants must describe the population of AI/ANs and Tribes that will be represented. The number of AI/ANs served must be substantiated by documentation describing IHS user populations, United States Census Bureau data, clinical catchment data, or any method that is scientifically and epidemiologically valid. An intertribal consortium or urban Indian organization is eligible to receive a cooperative agreement if it is incorporated for the primary purpose of improving AI/AN health, and represents the Tribes, AN villages, or urban Indian communities in which it is located. Resolutions from each Tribe, AN village and equivalent documentation from each urban Indian community represented must be included in the application package. Collaborations with IHS Areas, Federal agencies such as the Centers for Disease Control and Prevention (CDC), State, academic institutions or other organizations are encouraged (letters of support and collaboration should be included in the application).

Beneficiary Eligibility:

Minority group; Native American Organizations; American Indian; Federally Recognized Indian Tribal Governments; Federally-recognized Indian Tribe will benefit from the Tribal Epidemiology Centers. ASSISTANCE LISTINGS DESCRIPTIONS

USC Code 288-3.

OBJECTIVES:

This listing is no longer in use. To recruit and retain health professionals performing research in fields required by the NIH to carry out its mission by providing educational loan repayment for participants with substantial amounts of educational debt relative to income, who agree by written contract to engage in laboratory or clinical research as employees of the NIH for a minimum 3-year period.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use, Direct Payments for Specified Use (Cooperative Agreements)

USES AND USE RESTRICTIONS:

To provide repayment of extant educational loans incurred by health professionals engaged, as employees of the NIH, in laboratory or clinical research. Recipients must agree by written contract to engage in such research, initially, for a minimum of 3 years; individuals who have conflicting service obligations may not participate in this program until those obligations are satisfied or have been deferred during the period of program service. Continuation contracts for 1-year terms are available, dependent upon the level of debt and continued involvement in research that supports the research and institutional needs and the mission of the NIH. Maximum program benefit is \$35,000 per year in loan repayments and \$16,275 per year in Federal tax reimbursements. Recipients must have qualified educational debt in excess of 20 percent of their annual salary, which is referred to as their "debt threshold."

Applicant Eligibility:

Government - General; State (includes District of Columbia, public institutions of higher education and hospitals); U.S. Territories and possessions; Individual/Family; Federal; Eligible applicants must: (1) Be a citizen, national, or permanent resident of the United States; (2) possess a M.D., Ph.D., D.O., D.D.S., D.M.D., D.V.M., D.P.M., A.D.N., B.S.N., or equivalent degree, or hold the position of Physician Assistant; (3) have qualified educational debt, which results from governmental or commercial loans obtained to support their undergraduate and/or graduate education, in excess of 20 percent of their annual NIH salary on the program eligibility date; (4) be appointed to the NIH Intramural Research Program under any temporary or permanent employment mechanism, so long as the employment has the potential to last a minimum of three years; (5) not be under any existing service obligation to Federal, State, or other entities, until such obligation is discharged or unless it is deferred during the period of program service; (6) submit an application to participate in the Loan Repayment Program for General Research; and (7) sign and submit to the Secretary of Health and Human Services, at the time of application submission, a contract agreeing to engage in research as an employee of the NIH for a minimum of 3 years.

Beneficiary Eligibility:

Health Professional; Scientist/Researchers; NIH researchers who possess substantial unpaid educational debt relative to income will benefit from this program.

Credentials/Documentation:

Applicants must submit documentation of the following, as appropriate: (1) Copies of loan applications and agreements from government or commercial educational loans which are being submitted for repayment; (2) copies of the standard student budget from each school attended during the period in which the debt was incurred; and (3) other documentation as may be required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants must access and submit the Loan Repayment Program application electronically via the website www.lrp.nih.gov; seek qualified employment with a sponsoring Institute or Center (IC) of the NIH. Once an application has been submitted, the Loan Repayment Committee reviews it at a regularly scheduled review meeting and a determination of loan repayment recipients is made.

Award Procedure:

The NIH Loan Repayment Committee (LRC) will review, rank, and approve or disapprove applications recommended for program participation by each Institute or Center (IC). Applications approved for participation by the LRC will be notified by the Program Director. The Secretary, or his designee, will sign the service contract of program participants, provide a copy to the participant, and notice of the amount of approved loan repayment.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days. The approximate time for approval/disapproval is 3 months.

Appeals:

From 90 to 120 days. Employees of the NIH who are not approved as a result of this process may ask for reconsideration through the standard appeal procedures available to NIH employees.

Renewals:

From 90 to 120 days. At the conclusion of the initial 3-year contract, participants may apply and be considered for subsequent 1-year continuation contracts under the application and approval procedures specified above.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Assistance is available for a minimum 3-year period. One-year continuation contracts are available for individuals whose educational debt exceeds the maximum repayable amount for 3 years. Payments will be made directly to lenders, following each quarter of the participant's satisfactory service, unless otherwise agreed upon by the participant and Secretary of Health and Human Services. Method of awarding/releasing assistance: quarterly

Reports:

No reports are required.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. Records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO). In accordance with 45 Code of Federal Regulations, Part 74.26, for-profit (commercial) organizations are subject to audit requirements for a non-Federal audit if, during its fiscal year, it expended \$500,000 or more under HHS awards and at least one award is a HHS grant or subgrant. The regulation incorporates the thresholds and deadlines of OMB Circular No. A-133, but provides for profit organizations with two options for the type of audit that will satisfy the audit requirement: 1. a financial related audit of the HHS awards in accordance with Government Auditing Standards, or 2. an audit that meets the requirements of OMB Circular No. A-133. In accordance with NIH grants policy, Foreign grantees are subject to the same audit requirements as for-profit (commercial) organizations.

Records:

The NIH will maintain applicant records for 3 years after rejection and participant records for 6 years after completion of final service obligation. Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 74.53 and 92.42 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections

ASSISTANCE LISTINGS DESCRIPTIONS

also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 74.48 and 92.36 for record retention and access requirements for contracts under grants. In accordance with 45 Code of Federal Regulations, Part 74.53(e), the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

EXAMPLES OF FUNDED PROJECTS:

Not Applicable.

CRITERIA FOR SELECTING PROPOSALS:

Applicants are approved for participation in the NIH General Research Loan Repayment Program after the LRC determines that the applicant will conduct qualified research and has qualifying educational debt. LRC approval, in part, is based upon the scientific merit of the research, its priority to the research institutes, and the credentials of the applicant.

93.233 National Center on Sleep Disorders Research

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

NIH Reauthorization Act of 1993, Public Health Service Act, Section 503: Subpart 2, Part C, Title IV, Section 424, 42 U.S.C. 285b et seq.,

OBJECTIVES:

The National Center on Sleep Disorders Research (NCSDR) supports research and research training related to sleep disordered breathing, and the fundamental functions of sleep and circadian rhythms. The center also stewards several forums that facilitate the coordination of sleep research across NIH, other federal agencies and outside organizations, including the Sleep Disorders Research Advisory Board and a Trans-NIH Sleep Research Coordinating Committee. The center also participates in the translation of new sleep research findings for dissemination to health care professionals and the public. Small Business Innovation Research (SBIR) program: To stimulate technological innovation; use small business to meet Federal research and development needs; foster and encourage participation in innovation and entrepreneurship by socially and economically disadvantaged persons; and increase private-sector commercialization of innovations derived from Federal research and development funding. Small Business Technology Transfer (STTR) program: To stimulate technological innovation; foster technology transfer through cooperative R&D between small businesses and research institutions, and increase private sector commercialization of innovations derived from federal R&D.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Grants may support stipends, research expenses, supplies, travel, and research training tuition as required to perform the research effort. Restrictions or limitations are imposed against the use of funds for entertainment, foreign travel, general-purpose equipment, alterations and renovations, and other items not regularly required for the performance of research. Individual Predoctoral and Postdoctoral National Research Service Awards (NRSAs) are made directly to individuals for research training in specified biomedical shortage areas. Institutional NRSA awards may be made to eligible institutions to enable them to appoint individuals selected by the institution for research training. Certain service and payback provisions may apply to postdoctoral individuals upon termination of the award or termination of the appointment. SBIR Phase I awards (of approximately 6 to 12 months duration) are to establish the scientific and technical merit of the proposed research effort, and feasibility of ideas that appear to have commercial potential. Phase II awards are for the continuation of research initiated in Phase I that meets particular program needs and exhibits potential for commercial application. Direct to Phase II SBIR awards are for projects that have been developed beyond the feasibility phase using resources other than NIH Phase I awards that meet program needs and exhibit potential for commercial application. SBIR Phase IIB awards are for promising projects that require additional time and funding to advance to commercialization. The Phase IIB program promotes partnerships between SBIR or STTR Phase II awardees and third-party investors and/or strategic partners by encouraging matching contributions. STTR Phase I awards (normally of 6 to 12 months duration) are to establish the scientific and technical merit of the proposed cooperative research effort between a small business and non-profit research institution, and feasibility of ideas that appear to have commercial potential. Phase II awards are for the continuation of research initiated in Phase I that meets particular program needs and exhibits potential for commercial application. Fast-Track is an option whereby Phase I and Phase II SBIR or STTR projects are submitted and reviewed concurrently with the aim of reducing or eliminating the funding gap between Phase I and Phase II. The SBIR/STTR Commercialization Readiness Pilot Program awards facilitate the transition of previously or currently funded SBIR and STTR Phase II and Phase IIB projects to the commercialization phase by providing additional support for technical assistance and later stage research and development not typically supported through Phase II or Phase IIB grants or contracts including replication of key studies, Investigational New Drug (IND)-enabling studies, clinical studies, manufacturing costs, regulatory assistance or a combination of services. While the intent of the SBIR/STTR programs is commercialization (Phase III), only SBIR/STTR technical and business assistance (TABAs) funds are allowed to be used for commercialization activities such as patents; market and sales; market research; business development/product development/market plans; legal fees, travel and other costs including labor relating to license agreements and partnerships. The remaining SBIR/STTR funds are for research and development purposes only and exclude these commercialization activities.

Applicant Eligibility:

Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes

ASSISTANCE LISTINGS DESCRIPTIONS

institutions of higher education and hospitals); Individual/Family; Small business (less than 500 employees); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Any nonprofit organization engaged in biomedical research and institutions or companies organized for profit may apply for almost any kind of grant. Only domestic, non-profit, private or public institutions may apply for NRSA Institutional Research Training Grants. An individual may apply for an NRSA or, in some cases, for a research grant if adequate facilities to perform the research are available. SBIR grants can be awarded only to United States small business concerns (entities that are independently owned and operated for profit, or owned by another small business that itself is independently owned and operated for profit or owned by multiple venture capital operating companies, hedge funds, private equity firms, or any combination of these, and have no more than 500 employees including affiliates). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. or its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. SBIR projects are generally performed at least 67% by the applicant small business in Phase I and at least 50% of the Project in Phase II. STTR grants can be awarded only to United States small business concerns (entities that are independently owned and operated for profit and have no more than 500 employees) that formally collaborate with a university or other nonprofit research institution in cooperative research and development. The principal investigator of an STTR award may be employed with either the small business concern or collaborating non-profit research institution as long as s/he has a formal appointment with or commitment to the applicant small business concern. At least 40% of the project is to be performed by the small business concern and at least 30% by the non-profit research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions.

Beneficiary Eligibility:

Individual/Family; Small business; Profit organization; Private nonprofit institution/organization; Health Professional; Education Professional; Public nonprofit institution/organization; Any nonprofit or for-profit organization, company or institution engaged in biomedical research. Only domestic for-profit small business firms may apply for SBIR and STTR programs.

Credentials/Documentation:

Individual NRSA awardees and Institutional NRSA trainees must be citizens or noncitizen nationals of the United States, or have been admitted for permanent residency. Two levels of training are available: graduate level predoctoral training and postdoctoral training. All potential trainees must possess a desire for training in one of the health or health-related areas specified by the National Institutes of Health. Each applicant must be sponsored by an accredited public or private nonprofit institution engaged in such training. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. For-profit organization costs are determined in accordance with Subpart 31.2 of the Federal Acquisition Regulations. For other grantees, costs will be determined in accordance with DHHS Regulations 45 CFR, Part 74, Subpart Q. For SBIR and STTR grants, the applicant organization (small business concern) must present a research plan that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. SBIR and STTR applicants must use the SF424 Research and Related (R&R) application for electronic submission through grants.gov. Electronic submission of NIH Research Performance Progress Reports (RPPR) apply for non-competing continuations (e.g., second year of Phase II). OMB Circular No. A-87 applies to this program. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Visit the following link to obtain application information and instructions (<http://grants1.nih.gov/grants/funding/424/index.htm>)

Award Procedure:

All accepted applications are evaluated by an appropriate initial review group (study section). All grant applications receive a final secondary review by the National Heart, Lung, and Blood Advisory Council. Staff informs applicants of the results of the review. If support is contemplated, staff initiates preparation of awards for grants. All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council or board. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating proposals include assessments of: (1) The scientific merit and general significance of the proposed study and its objectives;

(2) the technical adequacy of the experimental design and approach; (3) the competency of the proposed investigator or group to successfully pursue the project; (4) the adequacy of the available and proposed facilities and resources; (5) the necessity of the budget components requested in relation to the proposed project; and (6) the relevance and importance to announced program objectives. The following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the importance of the problem the proposed research will address; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation of the proposed research; (5) the potential of the proposed research for commercial application; (6) the appropriateness of the budget requested; (7) the adequacy and suitability of the facilities and research environment; (8) the adequacy of plans to include both genders and minorities and their subgroups as appropriate for the scientific goals of the research. Plans for the recruitment and retention of subjects will be evaluated; and (9) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation, originality, or societal importance of the proposed research; (5) the potential of the proposed research for commercial application; (6) the reasonableness of the budget requested for the work proposed; (7) the adequacy and suitability of the facilities and research environment; and (8) The adequacy of plans to include both genders and minorities and their subgroups as appropriate for the scientific goals of the research. 93.234 Traumatic Brain Injury State Demonstration Grant Program

TBI State Partnership Program,

FEDERAL AGENCY:

ADMINISTRATION FOR COMMUNITY LIVING (ACL), HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Title XII, Section 1252 (42 USC 300d-52) as amended by the Childrens Health Act of 2000, sec.1304, PL 106-310, as further amended by the Traumatic Brain Injury Act of 2008, sec. 6(a), PL 110-206. 2014 (P.L.113-196), (P.L. 115-377),

OBJECTIVES:

To create and strengthen a system of services and supports that maximizes the independence, well-being, and health of people with TBI across the lifespan and all other demographics, their family members, and support networks.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Project grants to States are to improve access to health and other Traumatic Brain Injury (TBI)-related services for people of all ages across the United States. Any State seeking TBI grant funds is required to agree to establish or have an advisory board within the appropriate health department of the State or within another department as designated by the Chief Executive Officer of the State. The Board's composition as specified must include representatives of the involved State agencies; public and nonprofit private health related organizations; disability advisory or planning groups; members of an organization or foundation representing individuals with TBI; State and local injury control programs if they exist, and a substantial number of individuals with TBI and their family members. People with TBI should comprise 50% of the Advisory Board. These grants are to be used in building a statewide system to assure access to comprehensive and

ASSISTANCE LISTINGS DESCRIPTIONS

coordinated TBI services. Grants can address a wide range of activities and should reflect gaps or needed system change identified through the TBI state plan. Funds under this announcement may not be used for the following purposes: construction projects or for pre-award costs (reimbursement is not given for costs incurred prior to receiving the award) or to support primary injury prevention initiatives, research initiatives, or the provision of direct services. For any available grant funds in excess of \$10,000,000, distribution of grants will be at the discretion of the Administration for Community Living (ACL), and will be made according to the criteria communicated to the States via a grant solicitation.

Applicant Eligibility:

Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; State; State, territorial governments, and federally recognized Indian Tribal governments and Native American organizations are the only eligible applicants for funding. The application for a TBI State Partnership Program Mentor State Grant may only come from the state agency designated by the Chief Executive Officer of the state as the lead agency for TBI within the state, territory, or Indian tribal government. Only one application from each state, territorial government, federally recognized Indian tribal government or Native American organization may enter the review process and be considered for a TBI State Partnership Program Grant.

Beneficiary Eligibility:

State; Physically Afflicted (e.g. TB, Arthritis, Heart Disease); State, Individuals with TBI and their families, including those in high risk groups, such as children and youth, older adults, Native Americans and Alaska Natives, military service members and veterans, and people in the criminal justice system.

Credentials/Documentation:

Applicants should review the individual ACL funding opportunity announcement issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Subpart E-Cost Principles applies to this program. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. ACL requires all applicants to apply electronically through Grants.gov. All qualified applications will be forwarded to an objective review committee. Based on the advice of the objective review committee, the ACL program official with delegated authority is responsible for final selection and funding decisions.

Award Procedure:

Application forms are submitted through a centralized depository and received by the awarding agency, Administration for Community Living. Applicants generally apply under a program announcement indicating all the necessary application procedures to be followed.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days.

Renewals:

Not Applicable. No renewals; grants are approved for three years for TBI State Partnership Program grants.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are mandatory. Cost Sharing/Matching is required for this program per 1252(c) of the Public

Health Service Act. The State or Territory must agree to make available non-Federal contributions in an amount that is not less than \$1 for each \$2 of Federal funds provided under the grant. Non-Federal funds may be cash or in-kind and fairly evaluated, including plant, equipment, or services. State, Territorial or Indian Tribal government contributions may not include any amounts provided by the Federal government. The match, as required by the TBI legislation, must come from State or local sources and may be governmental or non-governmental resources. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Awards are made annually in accordance with the project period method of awarding grants. Payments are made through a Letter of Credit or Cash Demand System. Project periods are for 1, 2, 3, 4 or 5 years. 93.235 Title V State Sexual Risk Avoidance Education (Title V State SRAE) Program

Title V State Sexual Risk Avoidance Education (Title V State SRAE) Program.

FEDERAL AGENCY:

ADMINISTRATION FOR CHILDREN AND FAMILIES, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

The Title V SRAE Program is authorized and funded by Section 510 of the Social Security Act (42 U.S.C. 710), as amended by Section 50502 of the Bipartisan Budget Act of 2018 (Pub. L. No. 115-123) and extended by Division CC, Title III, Section 303 of the Consolidated Appropriations Act, 2021 (Pub. L. No. 116-260), Title V Social Security Act, Section 510, Public Law 115-123, 42 USC Code 710.

OBJECTIVES:

The purpose of the Title V State SRAE program is to provide messages to youth that normalizes the optimal health behavior of avoiding non-marital sexual activity. Title V SRAE is a prevention education program targeted to youth ages 10 to 19. Programmatic services must be medically accurate and complete; age-appropriate; based on adolescent learning and developmental theories for the age group receiving the education; and culturally appropriate, recognizing the experiences of youth from diverse communities, backgrounds, and experiences. Education on sexual risk avoidance must address each of the following topics: (A) The holistic individual and societal benefits associated with personal responsibility, self-regulation, goalsetting, healthy decision making, and a focus on the future. (B) The advantage of refraining from non-marital sexual activity to improve the future prospects and physical and emotional health of youth. (C) The increased likelihood

of avoiding poverty when youth attain self-sufficiency and emotional maturity before engaging in sexual activity. (D) The foundational components of healthy relationships and their impact on the formation of healthy marriages and safe and stable families. (E) How other youth risk behaviors, such as drug and alcohol usage, increase the risk for teen sex. (F) How to resist and avoid, and receive help regarding, sexual coercion and dating violence, recognizing that even with consent teen sex remains a youth risk behavior.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Title V State SRAE funding will be used to award formula grants. Additionally, a set-aside of 20% of the total \$75,000,000 appropriation will fund program support activities. Funds (\$60,000,000) shall be reserved for state grant awards. Since FY2018, States have an opportunity to apply for formula funding by submitting an application or letter of intent. These Title V State SRAE projects have a two-year project period, as funds are available. Funds (a 20% set-aside of \$15,000,000) shall be reserved for program support. Program support includes research, training and technical assistance, a national evaluation, and the collection of performance measures.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); U.S. Territories and possessions; U.S. Territories and possessions (includes institutions of higher education and hospitals); Fifty-nine (59) entities are eligible, including all 50 states, the District of Columbia, Puerto Rico, U.S. Virgin Islands, Guam, American Samoa, Commonwealth of the Northern Mariana Islands, Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau.

Beneficiary Eligibility:

Individual/Family; Student/Trainee; Women; School; Child (6-15); Youth (16-21); Black; American Indian; Spanish Origin; Asian; Other Non-White; Juvenile Delinquent; Title V State SRAE will fund states to provide youth ages 10 to 19 with education on sexual risk avoidance (meaning voluntarily refraining from sexual activity) and other risky behaviors.

Credentials/Documentation:

States will not be required to submit full applications after the initial funding year unless there are material changes made to the program. Instead, states receiving funding in FY 2020 will be required to submit a written letter of intent and updated state plan to receive funding for FY 2021. To qualify for funding in FY 2022, states must submit an application and state plan for review and approval prior to the award of funds. A signed letter from the authorized representative must accompany each application; it should include documentation establishing the authorized representatives authority to apply for and administer the Title V SRAE grant program on behalf of the State and Territory. States are expected to submit program plans that are medically accurate and complete, age-appropriate based on adolescent learning and developmental theories for the age group receiving the education, and be culturally appropriate, recognizing the experiences of youth from diverse communities, backgrounds, and experiences. All programs incorporated by a state must ensure that sexual risk avoidance education has a holistic approach and demonstrate societal benefits with the focus being on the future. These projects must focus on the social, psychological, and health gains to be realized by refraining from non-marital-sexual activity and engaging in healthy relationships. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

A final progress report is due 90 days after the end of each budget period and at the end of the final project period. Grantees will be required to submit quarterly Federal Financial Report (SF-425 or FFR) to the Division of Payment Management Branch. IHS grants are monitored by the Division of Grants Management for financial compliance and by the IHS Program Staff for programmatic compliance. Semi-annual Progress and Annual Reports are required from grantees.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Financial records of the grant must be retained for 3 years after submission of the final expenditure report. If questions remain, such as those resulting from an audit, pertinent records must be kept until the matter is resolved. The Secretary, the Inspector General of the Department of Health and Human Services, and the Comptroller General of the United States or any of their authorized representatives shall have the right to access all records, reports, books, documents, papers, or other records of the grantee, contractor, or subcontractor, or of any entity pertinent to the DHHS grant in order to make audits, examinations, excerpts, and transcripts. In accordance with 45 CFR 75, Subpart D, as applicable, grantees are required to maintain grant records for 3 years after they submit their final expenditures report. If any litigation, claim, negotiation, audit or other action involving the records have been started before the end of the 3-year period, the records must be retained until completion of the action and resolution of all issues arising from it, or until the end of the regular 3-year period, whichever is later.

FEDERAL AGENCY:

IMMED OFFICE OF THE SECRETARY OF HEALTH AND HUMAN SERVICES, HEALTH AND HUMAN SERVICES, DEPARTMENT OF AUTHORIZATION:

Social Security Act, Section 1110, 42 U.S.C. 1310.,

OBJECTIVES:

The goals of this listing are to improve the effectiveness of public policies that reduce poverty, inequality, and their consequences, promote economic mobility and equity, and further develop knowledge of the structural causes of poverty, inequality, and economic insecurity. To that end, the National Research Center on Poverty and Economic Mobility will: (1) develop a fellowship program that will place researchers on site at HHS to work with federal policy, research, and/or program offices, (2) administer a grant program that will make multiple awards to policy researchers to conduct research and analysis to answer high-priority questions related to equity, inclusion, diversity, and access in economic mobility and human services policy and programs, and (3) collaborate with HHS to disseminate actionable findings which are relevant to primarily federal policy and research communities through co-hosted events.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2021: Accomplishments for the Medicare Rural Hospital Flexibility Program: In FY 2019, 1217 Critical Access Hospitals (CAHs) participated in the Medicare Beneficiary Quality Improvement Program (MBQIP), to report on quality measures aligned with those collected by the Centers for Medicare and Medicaid Services. Quality measures quantify health care processes, outcomes, patient perceptions, and organizational structure and systems to guide decisions about improvements to health care services. MBQIP provides the opportunity for rural hospitals to evaluate their quality data and compare outcomes with that of hospitals with similar characteristics (such as small bed size, limited resources, and health services). 64.4% of CAHs reported improvement in core MBQIP measures and 45.9% of CAHs reported improvement in additional MBQIP measures. Grantee Accomplishments for the Rural Veterans Health Access Program include: initiating Veterans Administration telehealth visits at community-based healthcare provider sites established to increase access to care for veterans in rural areas; and the creation of a new Project ECHO line specific for veteran-related health issues, that launched in FY20

Public Health Service Act, Title III, Section 301, Public Law 109-482, 42 USC Code 241. Public Health Service Act, Title IV, Section 401(a), Public Law 109-482, 42 USC Code 281. SBIR/STTR Reauthorization Act of 2011, , Public Law 106-554, Public Law 114-255

OBJECTIVES:

The mission of the National Institute of Mental Health (NIMH) is to transform the understanding and treatment of mental illnesses through basic and clinical research, paving the way for prevention, recovery, and cure. In May 2020, NIMH released its new Strategic Plan for Research. The new Strategic Plan builds on the successes of previous NIMH strategic plans by providing a framework for scientific research and exploration, and addressing new challenges in mental health. The new Strategic Plan outlines four high-level Goals: Goal 1: Define the Brain Mechanisms Underlying Complex Behaviors Goal 2: Examine Mental Illness Trajectories Across the Lifespan Goal 3: Strive for Prevention and Cures Goal 4: Strengthen the Public Health Impact of NIMH-Supported Research These four Goals form a broad roadmap for the Institutes research priorities over the next five years, beginning with the fundamental science of the brain and behavior, and extending through evidence-based services that improve public health outcomes. The Institutes overall funding strategy is to support a broad spectrum of investigator-initiated research in fundamental science, with increasing use of Institute-solicited initiatives for applied research where public health impact is a short-term measure of success. The new Strategic Plan also addresses a number of cross-cutting themes that are relevant to all research supported by NIMH; these themes highlight areas where NIMH-funded science may have the greatest impact, bridge gaps, and offer novel approaches to accelerate advances in mental health research. For example, NIMH values a comprehensive research agenda that takes an inclusive approach that ensures research interests are varied, maintain diverse participation and partnerships, and achieve research goals across multiple timeframes. This includes diverse methodologies, tools, and models; research addressing complex basic,

translational, and applied questions; research including both sexes and, as appropriate, genetic background; and, participants from diverse racial and ethnic backgrounds, and across gender identities, geographical context, socioeconomic status, neurotype, and age offering the best possible representation, for the broadest number of individuals who may ultimately benefit from these scientific advances. To accomplish the Goals outlined in the new Strategic Plan, NIMH will support research that aims: To characterize the genomic, molecular, cellular, and circuit components contributing to brain organization and function; to identify the developmental, functional, and regulatory mechanisms relevant to cognitive, affective, and social domains, across units of analysis; and, to generate and validate novel tools, techniques, and measures to quantify changes in the activity of molecules, cells, circuits, and connectomes. To discover gene variants and other genomic elements that contribute to the development of mental illnesses in diverse populations; to advance our understanding of the complex etiology of mental illnesses using molecular epidemiologic approaches that incorporate individual genetic information in large cohorts; to elucidate how human genetic variation affects the coordination of molecular, cellular, and physiological networks supporting higher-order functions and emergent properties of neurobiological systems; and, to develop novel tools and techniques for the analysis of large-scale genetic, multi-omic data as it applies to mental health. To utilize connectomic approaches to identify brain networks and circuit components that contribute to various aspects of mental function and dysfunction; to determine through brain-wide analysis how changes in the physiological properties of molecules, cells, and circuits contribute to mental illnesses; to develop molecular, cellular, and circuit-level biomarkers of impaired neural function in humans; and, to develop innovative technologies, including new imaging, computational, pharmacological, and genetic tools to interrogate and modulate circuit activity and structure altered in mental illnesses. To elucidate the mechanisms contributing to the trajectories of brain development and behavior; and, to characterize the emergence and progression of mental illnesses, and identifying sensitive periods for optimal intervention. To determine early risk and protective factors, and related mechanisms, to serve as novel intervention groups; and, to develop reliable and robust biomarkers and assessment tools to predict illness onset, course, and across diverse populations. To develop novel interventions using a mechanism-informed, experimental therapeutics approach; and, to develop and implement measurement strategies to facilitate mechanism-based intervention development and testing. To investigate personalized intervention strategies across disease progression and development; and, to develop and refine computational approaches and research designs that can be used to inform and test personalized interventions. To develop and test approaches for adapting, combining, and sequencing interventions to achieve the greatest impact on the lives and functioning of persons seeking care; to conduct efficient pragmatic trials that employ new tools to rapidly identify, engage, assess, and follow participants in the context of routine care; and, to enhance the practical relevance of effectiveness research via deployment-focused, hybrid, effectiveness-implementation studies. To employ assessment platforms within healthcare systems to accurately assess the distribution and determinants of mental illnesses and to inform strategies for improved services; to optimize real-world data collection systems to identify strategies for improving access, quality, effectiveness, and continuity of mental health services; and, to compare alternative financing models to promote effective and efficient care for individuals with serious emotional disturbances and serious mental illnesses. To strengthen partnerships with key stakeholders to develop and validate strategies for implementing, sustaining, and continuously improve evidence-based practices; to build models to scale-up evidence-based practices for use in public and private primary care, specialty care and other settings; and, to develop decision-support tools and technologies that increase the effectiveness and continuous improvement of mental health interventions in public and private primary care, specialty care, and other settings. To adapt, validate, and scale-up programs currently in use that improve mental health services for underserved populations; to develop and validate service delivery models that provide evidence-based care for individuals throughout the course of mental illness; to develop and validate systems-level strategies using technology and other approaches, to identify, support, and monitor the effectiveness of evidence-based care throughout the course of illness; and, to develop and validate decision-making models that bridge mental health, medical, and other care settings to integrate the appropriate care for people with serious mental illnesses and comorbid medical conditions.

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants, Training

USES AND USE RESTRICTIONS:

Research project grants provide support for clearly defined projects by a named investigator in an area representing his/her specific interests and competencies. Exploratory/Development and Clinical Exploratory/Developmental Grants encourage the development of new research activities in categorical program areas. Small Research Grants provide research support specifically limited in time and amount for studies in categorical program areas. Collaborative Clinical Research Grants support evaluations of various methods of therapy and/or prevention. Program Project and Center grants support large-scale, broad-based programs of research, usually interdisciplinary, consisting of several projects with a common focus. Cooperative Agreements support single or a group of related research activities with greater involvement of federal staff. SBIR and STTR grants are awarded in two stages: Phase I grants are awarded to establish the technical merit and feasibility of a proposed research and development effort; only Phase I awardees are eligible to receive Phase II support. Mentored Research Scientist Development Award (K01, MRSDA), Mentored Clinical Scientist Development Award (K08, MCSDA), and Mentored Quantitative Research Career Development Award (K25) provide support for individuals with research potential who need additional mentored development and/or experience in a productive research environment. Mentored Patient-Oriented Research Career Development Award (K23) supports the career development of individuals who have made commitment to focus their research endeavors on patient-oriented research. The NIH Pathway to Independence (PI) Award (K99/R00) provides up to 2 years of mentored support (K99) for a postdoctoral individual followed by up to 3 years of support after the awardee transitions to research independence (R00). K99/R00 awards are awards for up to 5 years of support. Salary support for all mentored awards may be supplemented by the sponsoring institution from nonfederal funds. The Independent Scientist Award (K02, ISA) is for independent scientists whose careers are developing rapidly; the Mid-career Investigator Award in Patient-Oriented Research (K24) is for outstanding clinical scientists engaged in patient-oriented research. No specialized training costs are available; limited research costs for K24s and K02s in theoretical areas are available. NRSA awards: Individual fellowships are made to students seeking predoctoral or postdoctoral support for full-time research training or who are enrolled in an formal Ph.D. or M.D./Ph.D. program. An institutional allowance will be provided to the sponsoring institution for each awardee. In addition, any domestic public or nonprofit institution may apply for an institutional research training grant in a specified area of research from which a number of stipend awards will be made to individuals selected by the training program director at the institution. Support is available for both predoctoral and postdoctoral trainees and will include an amount for institutional expenses. Indirect costs may be requested at 8 percent of total direct costs, exclusive of tuition and related fees and expenditures for equipment, or actual indirect costs, whichever is less. Postdoctoral students receiving fellowships or stipend support under either individual or institutional grants for 12 months or less are obligated to pay back this support through an equivalent period of continued postdoctoral training or a period of health related research and/or teaching activities after the completion of their training. Postdoctoral individuals in their thirteenth and subsequent months of support will incur no further obligation, and such support will be considered acceptable postdoctoral payback service. Research training support may not be used for internships or other clinical training.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Public, private, -profit, or nonprofit agencies (including State and local government agencies), eligible Federal agencies, universities, colleges, hospitals, and academic or research institutions may apply for research grants. SBIR grants can be awarded only to domestic small businesses, and STTR grants can be awarded only to domestic small businesses which "partner" with a research institution in cooperative research and development. An applicant for individual predoctoral fellowship support must be enrolled in a research doctoral degree program by the proposed activation date of the fellowship. A postdoctoral applicant must have received a Ph.D., Psy.D., M.D., D.D.S., Sc.D., D.N.S., D.O., D.S.W., or equivalent degree from an accredited institution to be eligible for an individual postdoctoral

fellowship. All research training awards are made to appropriate domestic research centers, medical schools, departments of psychiatry, non-medical academic departments, psychiatric hospitals or hospitals with psychiatric services, community mental health centers, and biomedical research institutes on behalf of individuals who need the opportunity to realize research potential. Except for the NIH Pathway to Independence (PI) Award (K99/R00), the individuals must be citizens or nationals of the United States or have been lawfully admitted for permanent residence. The NIH Pathway to Independence (PI) Award (K99/R00) is open to both U.S. citizens and non-U.S. citizens. Individuals must qualify by scholastic degree and previous training and/or experience.

Beneficiary Eligibility:

Profit organization; Private nonprofit institution/organization; Other private institution/organization; Scientist/Researchers; State; Local; Public nonprofit institution/organization; Individuals and public, private, profit, or nonprofit organizations.

Credentials/Documentation:

For-profit organizations' costs will be determined in accordance with 48 CFR, Subpart 31.2 of the Federal Acquisition Regulations. For all other grantees, costs will be determined in accordance with HHS Regulations 45 CFR 75. For SBIR and STTR grants, applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. Instructions for electronic submission may be found with the federal SF424 (R&R) form packages that are found in the SBIR/STTR funding opportunity announcements. Instructions are provided for SBIR Phase I and Phase II awards, respectively; as well as for STTR Phase I and Phase II awards, respectively. The cost principles for awards under this program are set forth in HHS regulations at 45 CFR 75, Subpart E and Appendix IX (hospitals) to Part 75. Commercial organizations are subject to the cost principles located at 48 CFR 31.2 Federal Acquisition Regulation. See the NIH Grants Policy Statement for further guidance on the applicability of cost principals (<http://grants.nih.gov/grants/policy/nihgps/index.htm>). 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Most applications must be prepared and submitted electronically. Most applicants use the SF 424 (Research & Related) for electronic submission. Information about the SF 424 form may be found on <http://grants.nih.gov/grants/funding/424/index.htm>, but application packages should be accessed through the appropriate funding opportunity announcement, found either on the NIH Guide for Grants and Contracts (<http://grants1.nih.gov/grants/guide/index.html>) or through the Grants.gov website (<http://www.grants.gov/>). Some institutions may submit the grant data directly (using what is called a system-to-system transfer). For further details, see grants.gov or eRA Commons. Application forms for SBIR and STTR grants may be obtained through the SBIR/STTR funding announcements posted on the NIH Guide for Grants and Contracts and the Grants.gov sites (see URLs listed above). All SBIR and STTR applications must be submitted electronically. The timeline for transition to electronic applications and the new forms may be found at: <http://era.nih.gov/ElectronicReceipt/>. For further assistance contact GrantsInfo, Telephone (301) 435-0714, Email: GrantsInfo@nih.gov. Consultation on a proposed project may be obtained from the NIMH branch or office responsible for the research area of interest. Applications are reviewed by principally nonfederal consultants recruited nationwide from the mental health field. The amounts of the award and period of support are determined on the basis of merit of the project and the nature of the grant mechanism. Electronic applications are submitted through the Grants.gov website. Awards made under this program are subject to 2 CFR 200, as implemented by 45 CFR 75 Public Welfare, Uniform Administrative Requirements, Cost Principles and Audit Requirements for HHS Awards. The policies and procedures generally applicable to NIH grants are set forth in the NIH Grants Policy Statement (<http://grants.nih.gov/grants/policy/nihgps/index.htm>).

Award Procedure:

All applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel. Applications other than fellowships must also be reviewed by the National Advisory Mental Health Council. All competitive applications compete for available funds on the basis of scientific and technical merit, program relevance, and program balance. All SBIR and STTR applications receiving a priority score compete for set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

>180 Days. Applications: From 180 to 270 days from submission of application. SBIR/STTR applications: About 7- 1/2 months; AIDS-related research is expedited and a determination is made within 180 days.

Appeals:

Other. A principal investigator may question the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Institute. A description of the NIH Peer Review Appeal procedures is available on the NIH homepage <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-064.html>

Renewals:

Other. Support is recommended for a specified project period, not in excess of 5 years. Prior to termination of a project period, the grantee may apply for renewal of support for a new project period. An application for renewal is processed as a new competing request. Small grants, exploratory, and dissertation grants are for 1-3 years (depending on program) and are not renewable. By law an individual may receive no more than 6 years of support in the aggregate at the predoctoral level and no more than 3 years of support in the aggregate at the postdoctoral level under the NRSA program (through an individual and/or institutional award). Any exception to these limitations requires a waiver from the Director of the awarding Institute based on review of justification from the awardee and the program director for the institutional grant. K01, K08, K23, K25 awards are made for up to 5-year periods with no renewal. K02 and K24 awards are made for a 5-year period, renewable once (unless holder has held a previous K02 or K24 award). K99 awards are made for up to 2-year periods with no renewal.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Varies, with a project periods ranging from 1 to 5 years. Funding commitments are made annually. See the following for information on how assistance is awarded/released: A formal notification in the form of a Notice of Award (NoA) will be provided to the applicant organization. SBIR: Generally, Phase I awards are for 6 months, and Phase II awards are for 2 years. STTR: Generally, Phase I awards are for 1 year and Phase II awards are for 2 years. Information on how assistance is awarded/released: A formal notification in the form of a Notice of Award (NoA) will be provided to the applicant organization. By law an individual may receive no more than 6 years of support in the aggregate at the predoctoral level and no more than 3 years of support in the aggregate at the postdoctoral level under the NRSA program (through an individual and/or institutional award). For an M.D./Ph.D. fellowship, 6 years may be requested. In practice, recommendations of review committees are generally for 2 or 3 years. Method of awarding/releasing assistance: other

Reports:

Reports must be submitted as follows: (1) Interim progress reports annually as part of a non-competing application for previously recommended support; (2) terminal progress report within 90 days after end of project support. Annual financial status report within 90 days after termination of annual grant for some programs. In addition, immediate and full reporting of any inventions is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-

ASSISTANCE LISTINGS DESCRIPTIONS

Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal government officials. Per the regulations, a for-profit (commercial) organization is subject to audit requirements for a non-Federal audit if, during its fiscal year, it expended \$500,000 or more under HHS awards and at least one award is a HHS grant. For-profit organizations have two options regarding the type of audit that will satisfy the audit requirements either: (1) a financial related audit (as defined in the Government Auditing Standards, GPO Stock #020-000-00-265-4, <http://www.gao.gov/govaud/ybk01.htm>) of the HHS awards in accordance with Government Auditing Standards, or (2) an audit that meets the requirements contained in OMB Circular No. A-133 (<http://www.whitehouse.gov/OMB/circulars/a133/a133.html>). Awards made under this program are subject to the audit requirements of OMB 2 CFR 200, as implemented by 45 CFR 75, Subpart F, and in the NIH Grants Policy Statement (<http://grants.nih.gov/grants/policy/nihgps/index.htm>).

93.243 Substance Abuse and Mental Health Services Projects of Regional and National Significance

(PRNS).

FEDERAL AGENCY:

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES
ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF
AUTHORIZATION:

Children's Health Act of 2000, Section 520 A-J,581,582, Public Law 106-310,
Public Health Service Act, Title V, Section 509; 516, 42 USC Code 290bb.

OBJECTIVES:

Substance Abuse and Mental Health Service Administration (SAMHSA) was reauthorized by the Children's Health Act of 2000, Public Law 106-310. Under this reauthorization, SAMHSA was given the authority to address priority substance abuse treatment, prevention and mental health needs of regional and national significance through assistance (grants and cooperative agreements) to States, political subdivisions of States, Indian tribes and tribal organizations, and other public or nonprofit private entities. Under these sections, CSAT, CMHS and CSAP seek to expand the availability of effective substance abuse treatment and recovery services available to Americans to improve the lives of those affected by alcohol and drug additions, and to reduce the impact of alcohol and drug abuse on individuals, families, communities and societies and to address priority mental health needs of regional and national significance and assist children in dealing with violence and traumatic events through by funding grant and cooperative agreement projects. Grants and cooperative agreements may be for (1) knowledge and development and application projects for treatment and rehabilitation and the conduct or support of evaluations of such projects; (2) training and technical assistance; (3) targeted capacity response programs (4) systems change grants including statewide family network grants and client-oriented and consumer run self-help activities and (5) programs to foster health and development of children; (6) coordination and integration of primary care services into publicly-funded community mental health centers and other community-based behavioral health settings funded under Affordable Care Act (ACA).

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Funds (including direct costs and indirect costs) may be used only for expenses clearly related and necessary to carry out approved activities that will provide immediately useful, practical knowledge that service providers need as they wrestle with the rapidly changing health care environment.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Sponsored organization; Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Public organizations, such as units of State and local governments and to domestic private nonprofit organizations such as community-based organizations, universities, colleges and hospitals.

Beneficiary Eligibility:

93.247 Advanced Nursing Education Workforce Grant Program

Advanced Nursing Education Workforce (ANEW) Advanced Nurse Education-Sexual Assault Nurse Examiner (ANE-SANE) Advanced Nursing Education Nurse Practitioner Residency (ANE-NPR) Program Advanced Nursing Education Nurse Practitioner Residency Integration Program (ANE-NPRIP),

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Section 811 of the Public Health Service Act, (42 U.S.C. 296j),.

OBJECTIVES:

ANEW: The ANEW Program supports innovative academic-practice partnerships to prepare advanced practice registered nursing students to practice in rural and underserved settings through academic and clinical training. The partnerships support enhanced didactic and clinical training opportunities in primary care for nursing students (including longitudinal clinical immersive training experiences), training for clinical preceptors, traineeships, and support for post-graduate employment in primary care, with a particular focus on rural and underserved populations. ANE-SANE: The purpose of the ANE-SANE funding is to increase the number of Registered Nurses (RNs), Advanced Practice Registered Nurses (APRNs), and Forensic Nurses trained and certified to conduct sexual assault nurse examinations in communities on a local, regional and/or state level. Ideal applicants will have an infrastructure to recruit eligible Nurses, coordinate didactic and clinical training with identified partners, monitor and track clinical practice hours and certification completion, and have demonstrated strategies to retain SANEs in practice. The goal of this program is to train providers to conduct sexual assault forensic examinations that provide better physical and mental health care for survivors, better evidence collection, and lead to higher prosecution rates. ANE-NPR: The purpose of this program is to prepare new nurse practitioners (NPs) in primary care for practice in community-based settings through clinical and academic focused 12-month Nurse Practitioner Residency (NPR) programs, with a preference for those projects that benefit rural or underserved populations. The ANE-NPR Program Notice of Funding Opportunity (NOFO) seeks to increase primary care providers in community-based settings. This program has been structured in a way so that training programs are encouraged to support the placement of participants in rural and underserved settings and also find ways to assist NPR completers to remain in these settings. ANE-NPRIP: The purpose of this grant program is to prepare new NPs for primary care or behavioral health practice in integrated, community-based settings, through expansions and/or enhancements to existing 12-month (NPR) programs. The ANE-NPRIP seeks to increase the number of new primary care or behavioral health NPs serving in integrated,

community-based settings.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Restricted Uses: Indirect costs under training awards to organizations other than State, local or American Indian tribal governments will be budgeted and reimbursed at 8 percent of modified total direct costs rather than on the basis of a negotiated rate agreement, and are not subject to upward or downward adjustment. Direct cost amounts for equipment, tuition and fees, and sub-awards and subcontracts in excess of \$25,000 are excluded from the direct cost base for purposes of this calculation. ANEW: Program support and student support through stipends, tuition, and fees are allowable costs. ANE-SANE: Funding supports program development (including personnel, indirect costs, and sub-awards to partners) and participant costs (including training fees, certification/recertification exam fees, travel, lodging, etc.). Participant support cannot exceed \$10,000 per participant per year. ANE-NPR: Program support includes NP resident salaries and all allowable project costs including direct and indirect, facilities and administrative costs. ANE-NPRIP Funds for this program cover NP resident salaries and all allowable project costs including direct and indirect, facilities, and administrative costs for the awardee.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; Specialized group (e.g. health professionals, students, veterans); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); ANEW: Eligible applicants are collegiate schools of nursing, nursing centers, academic health centers, State or local governments, and other public or private nonprofit entities accredited by a national nurse education accrediting agency recognized by the Secretary of the U.S. Department of Education. In addition to the 50 states, only the District of Columbia, Guam, the Commonwealth of Puerto Rico, the Northern Mariana Islands, American Samoa, the U.S. Virgin Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau are eligible to apply. Federally Recognized Indian Tribal Government and Native American Organizations may apply if they are otherwise eligible. ANE SANE: Eligible applicants include accredited schools of nursing, nursing centers, nurse-managed health clinics, academic health centers, State or local health departments, HRSA-supported health centers, Community Health Centers, Rural Health Clinics, public or non-profit Hospitals, other emergency health care service providers, Federally Qualified Health Centers, Clinics receiving funding under Title X and other relevant public or private non-profit entities. Federally recognized Indian Tribal Government and Native American Organizations, as well as nonprofit (Internal Revenue Service (IRS) 501(c)(3) status) community-based and faith-based organizations may apply if they are otherwise eligible. The eligible state government entities include the 50 states, and the District of Columbia, Guam, the Commonwealth of Puerto Rico, the Northern Mariana Islands, American Samoa, the U.S. Virgin Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau. ANE-NPR: Eligible applicants are schools of nursing, nurse managed health clinics/centers, academic health centers, state or local governments and other private or public nonprofit entities determined appropriate by the Secretary. Consortiums may apply for these funds, if otherwise eligible. HRSA will make one award per consortium to a lead entity for the consortium provided it is an eligible entity and has the legal authority to apply for and to receive the award on behalf of the other consortium members. Domestic faith-based and community-based organizations, tribes, and tribal organizations may apply for these funds, if otherwise eligible. In addition to the 50 states, only eligible applicants in the District of Columbia, Guam, the Commonwealth of Puerto Rico, the Northern Mariana Islands, American Samoa, the U.S. Virgin Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau may apply. ANE-NPRIP: Eligible applicants are accredited schools of nursing, Federally Qualified Health Centers, nurse managed health clinics/centers, academic health centers, consortiums, state or local governments and other private or public nonprofit entities determined appropriate by the HHS Secretary. PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2020: ANEW: In Academic Year 2019-2020, grantees of the ANEW Program trained 4,817 nursing students of which one third of them were underrepresented minorities and/or from disadvantaged backgrounds. The ANEW

program produced 1,604 graduates who were ready to enter the health care workforce. Of the 2,267 students who were directly funded by ANEW, the majority trained in primary care settings (75 percent) and/or medically underserved communities (65 percent) and received training in telehealth (60 percent) and/or opioid use treatment (45 percent). More than one in four students who were directly funded received COVID-19 related training. One year post graduation data showed that over half of the trainees were pursuing additional training in a medically underserved communities. In addition, 47 percent of the recently graduated individuals were working in a primary care setting. Additionally, ANEW grantees supported 116 faculty and 76 preceptors. To provide clinical training experiences to nursing students, grantees partnered with 2,433 clinical training sites in primary care settings (77 percent), medically underserved communities (68 percent), and/or rural areas (32 percent). ANEW grantees offered 500 curricula, provided 122 continuing education courses to practicing professionals, and offered 132 faculty and preceptor development programs. ANE-SANE: In Academic Year 2019-2020, grantees from the ANE-SANE program trained 1,467 students and produced 228 graduates. The majority of trainees were from a rural and/or disadvantaged background (56 percent). About one in five SANE trainees received their training in rural areas and just over 40 percent of them received their training in medically underserved communities. Approximately 28 percent of the students participated in COVID-19 related training. The ANE-SANE grantees partnered with 149 clinical training sites in primary care settings (18 percent), medically underserved communities (77 percent), and/or rural areas (24 percent). SANE grantees developed and/or enhanced 80 courses. ANE-NPR: In Academic Year 2019-2020 the ANE-NPR program trained 94 nurse practitioner (NP) residents and 84 preceptors. There were a total of 16 NP resident graduates in the first year of the program. Sixty-three percent of first year graduates are currently employed in FQHCs or look-alikes and Rural Health Clinics. In addition, grantees from this program provided direct support to 19 faculty. Almost all of the NP residents received training in medically underserved communities (99 percent) and/or a primary care setting (99 percent). The majority of the NP residents participated in trainings related to COVID-19 (93 percent), opioid use treatment (91 percent) and/or telehealth (84 percent). The ANE-NPR grantees partnered with 122 clinical training sites to provide experiential training experiences to students. The majority of these sites were located in primary care settings (58 percent) and/or medically underserved communities (80 percent). A total of 792 courses were enhanced or developed, and 173 continuing education courses were offered. This program also supported 65 faculty and preceptor development training and activities. ANE-NPRIP: In FY 2020, HRSA established the ANE-NPRIP Program with nurse practitioner optional fellowship funds to establish or expand community-based nurse practitioner that are accredited or in the accreditation process for practicing postgraduate nurse practitioners in primary care or behavioral health; 5 awards were planned, 10 new awards were made. This program gives preference to Federally Qualified Health Centers (FQHCs). Out of the 10 awards, 5 grantees are FQHCs (50%) and 3 of the grantees partner with FQHCs (30%). One of the 10 grantees is mainly focused on serving rural areas, while 3 of the 10 grantees are partnered with rural health clinics.

REGULATIONS, GUIDELINES, AND LITERATURE:

All administrative and audit requirements and the cost principles that govern Federal monies associated with this activity will be subject to the Uniform Guidance 2 CFR 200 as codified by HHS at 45 CFR 75. HRSA awards are also subject to the requirements of the HHS Grants Policy Statement (HHS GPS) that are applicable based on recipient type and purpose of award. CRITERIA FOR SELECTING PROPOSALS:

Procedures for assessing the technical merit of grant applications have been instituted to provide an objective review of applications and to assist the applicant in understanding the standards against which each application will be judged. Critical indicators have been developed for each review criterion to assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by non-Federal expert consultant(s) for technical merit recommendations. Applications will be reviewed and evaluated against the following criteria: (1) Purpose and Need; (2) Response to Program Purpose; (3) Impact; (4) Organizational Information, Resources and Capabilities; (5) Support Requested. In making grant awards under this Section, preference will be given to any qualified applicant with a project that will substantially benefit rural or underserved populations or help meet public health nursing needs in State or local health departments. This preference will only be applied to applications that rank above the 80th percentile of applications recommended for approval. See the most recent Notice of Funding Opportunity for detailed selection criteria.

93.250 Geriatric Academic Career Awards Department of Health and Human Services

Geriatric Academic Career Award (GACA)(K01),

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act (42 U.S.C. 294c) as amended by the Coronavirus Aid, Relief, and Economic Security (CARES) Act Public Law No: 116-13 ., Title VII, Part ., Section 753(c)

OBJECTIVES:

The purpose of the GACA program is to support the career development of individual junior faculty in geriatrics at accredited schools of allopathic medicine, osteopathic medicine, nursing, social work, psychology, dentistry, pharmacy, or allied health as academic geriatrics specialists and to provide clinical training in geriatrics, including the training of interprofessional teams of health care professionals. The goals of the program are for the GACA candidate to develop the necessary skills to lead health care transformation in a variety of age-friendly settings and to provide training in clinical geriatrics, including the training of interprofessional teams of healthcare professionals. Program Objectives include: 1. Develop junior faculty career as an academic geriatrics specialist; 2. Spend at least 75 percent of their time providing training in clinical geriatrics, including the training of interprofessional teams of healthcare professionals; and 3. Identify a

mentor who will advise and provide guidance and supervision to the GACA candidate regarding planning, directing, executing, and evaluating the proposed activities in the GACA candidates Faculty Career Development Plan.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

As provided by Section 753(c)(5) of the authorizing legislation, an individual receiving an award under this subsection shall provide training in clinical geriatrics, including the training of interdisciplinary teams of health care professionals. The provision of such training shall constitute at least 75 percent of the obligations for individuals under this award. See above. Indirect costs under training awards to organizations other than State, local or American Indian tribal governments will be budgeted and reimbursed at 8 percent of modified total direct costs rather than on the basis of a negotiated rate agreement, and are not subject to upward or downward adjustment.

Applicant Eligibility:

Specialized group (e.g. health professionals, students, veterans); Eligible applicant organizations include accredited schools of allopathic medicine, osteopathic medicine, nursing, social work, psychology, dentistry, pharmacy, or allied health. Eligible applicant organizations must submit applications on behalf of eligible individuals applying for a Geriatric Academic Career Award. Eligible individuals must meet the following: A. Be board certified or board eligible in and eligible discipline or have completed any required training in a discipline and be employed in an accredited health professions school that is approved by the Secretary; B. Have completed an approved fellowship program in geriatrics or have completed specialty training in geriatrics as required by the discipline and any additional geriatrics training as required by the Secretary; C. Have a junior (non-tenured) faculty appointment at an eligible, accredited school. D. Have a full-time junior faculty appointment in an eligible accredited school and commitment from the institution to spend 75 percent of the total time of the individual on teaching and developing skills in interprofessional education in geriatrics; and E. Be a citizen of the United States, a foreign national having in his/her possession a visa permitting permanent residence in the United States, or a non-citizen national. Federally Recognized Indian Tribal Government and Native American Organizations may apply if they are otherwise eligible.

Beneficiary Eligibility:

ASSISTANCE LISTINGS DESCRIPTIONS

HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Early Hearing Detection and Intervention Act of 2017, Public Health Service Act, Title III, Section 399M (as added by P.L. 106-310, Sec. 702; as amended by P.L. 111-337 and P.L. 115-71),.

OBJECTIVES:

The Early Hearing Detection and Intervention (EHDI) program supports comprehensive and coordinated state and territory EHDI systems, so families with newborns, infants, and young children up to three years of age who are deaf or hard of hearing (DHH) receive appropriate and timely services that include hearing screening, diagnosis, and early intervention. This program supports state/territory efforts to build systems of care focusing on increasing health professionals engagement in and knowledge of the EHDI system; improving access to early intervention services and language acquisition; and improving family engagement, partnership, and leadership. The EHDI program also provides support to two organizations that assist the states/territories with technical assistance.

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants

USES AND USE RESTRICTIONS:

This program supports state and territory health departments, departments of education, academic institutions with universal newborn hearing screening programs, and family and provider organizations to develop a system of services for children who are identified as DHH and their families. This program also supports the EHDI system with technical assistance by fostering family engagement, supporting workforce development and training, and working with pediatricians and health care providers.

Applicant Eligibility:

93.255 Children's Hospitals Graduate Medical Education Payment Program

Children's Hospital Graduate Medical Education (CHGME) Payment Program,

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

42 U.S.C. 256e (340E of the Public Health Service Act), as amended by the Dr. Benjy Frances Brooks Children's Hospital GME Support Reauthorization Act of 2018 (P.L. 115-241),.

OBJECTIVES:

ASSISTANCE LISTINGS DESCRIPTIONS

Freestanding childrens hospitals receive little to no Graduate Medical Education (GME) funding from Medicare because childrens hospitals have a low Medicare caseload. The purpose of the CHGME Payment Program is to compensate for the disparity in the level of Federal GME funding for freestanding childrens teaching hospitals versus other types of teaching hospitals. The CHGME program supports the education and training of future pediatricians, pediatric sub-specialists, and other non-pediatric residents in freestanding childrens teaching hospitals, including the training of residents in pediatric dentistry and pediatric psychology.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

Funds are restricted to eligible children's hospitals for direct expenses and the other indirect expenses associated with operating approved graduate medical residency programs.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); A childrens hospital is eligible to apply for CHGME Payment Program funding if it participates in an approved GME program; has a Medicare Provider Agreement; is excluded from the Medicare Inpatient Prospective Payment System (IPPS); and operates as a freestanding childrens teaching hospital. A freestanding childrens teaching hospital does not operate under a Medicare hospital provider number assigned to a larger health care entity that receives Medicare GME payments. A hospital remains eligible for payments as long as it trains residents as a freestanding childrens hospital during the federal fiscal year that HRSA makes CHGME program payments.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Private nonprofit institution/organization; Quasi-public nonprofit organization; Native American Organizations; Health Professional; Graduate Student; Public nonprofit institution/organization; Other public institution/organization; Any public or private nonprofit and profit freestanding children's teaching hospital with an accredited residency training program which meets all eligibility requirements may apply.

Credentials/Documentation:

This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles. Applicants should review the individual HRSA Notice of Funding Opportunity issued under this CFDA program for any required proof or certifications which must be submitted with an application package. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Support is provided for the direct costs of the program, plus certain indirect costs determined by Public Health Service policy on training programs. Amounts of stipends and other details are in accordance with Public Health Service policy. SBIR Phase I grants (of approximately 6-months duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research initiated in Phase I and that are likely to result in commercial products or processes. Only Phase I awardees are eligible to apply for Phase II support.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); U.S. Territories and possessions (includes institutions of higher education and hospitals); Specialized group (e.g. health professionals, students, veterans); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Eligible applicants include for-profit or non-profit organizations, public or private institutions, such as universities, colleges, hospitals, and laboratories, units of State and local governments, eligible agencies of the Federal government, domestic or foreign institutions/organizations, faith-based organizations, Indian Tribes, Tribal Government, College and/or Organizations. Racial/ethnic minority individuals, women, and persons with disabilities are encouraged to apply as Principal Investigators. Training Grants: Any public or private educational institution or agency that has demonstrated competency in occupational safety and health training at the technical, professional, or graduate level may apply. Trainees must be admissible to the grantee institution and must be enrolled in occupational safety and health training programs. SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500 employees). For SBIR grants primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions.

Beneficiary Eligibility:

Private nonprofit institution/organization; Other private institution/organization; Health Professional; Scientist/Researchers; Public nonprofit institution/organization; Research institutions and agencies as well as workers affected by occupational hazards.

Credentials/Documentation:

Applications must be signed by appropriate officials of the submitting institution. For-profit organizations' costs are determined in accordance with 48 CFR Subpart 31.2 of the Federal Acquisition Regulations. For other grantees, costs will be determined by HHS Regulations 45 CFR Part 74, Subpart Q. For SBIR grants applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications are prepared and submitted following instructions provided in Funding Opportunity Announcements (FOAs). NIOSH publishes FOAs at <http://www.Grants.gov>, and in the NIH Guide for Grants and Contracts at <http://grants1.nih.gov/grants/guide/index.html>. Grants.gov is the portal for applications. Appropriate forms are specified in each FOA. Research and training programs utilize either the SF-424 R&R for electronic submission or the PHS 398 application form and instructions which are available on the Internet at: <http://grants1.nih.gov/grants/forms.htm>.

Award Procedure:

Awards are made on the basis of a two-step review of an investigator-prepared application. Applications are initially reviewed for scientific and technical merit by a scientific peer review group. The second level of review is performed by the NIOSH Secondary Review Committee for program relevance. Final approval of funding recommendations is made by the Director, NIOSH.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

>180 Days. Research Grants and Awards: 7-9 months. Training Grants: 9-10 months. SBIR: 7-8 months.

Appeals:

From 120 to 180 days. A principal investigator may question the substantive or procedural aspects of the review of his/her application by communicating with the staff in the NIOSH Office of Extramural Programs.

Renewals:

>180 Days. Support is recommended for a specified project period, usually not in excess of 5 years. Prior to the end of a project period, the grantee may apply for renewal of support for a new project period. Applications for renewal (competing continuation, Type 2) will be reviewed in the same manner as a new application and will compete for available funds with other applications.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Research and Training Grants and Cooperative Agreements may be awarded for project periods ranging from one to five years depending on the recommendations of the scientific review group and the Secondary Review Committee, and on demonstration of successful performance and the availability of funds. SBIR Grants: Normally, Phase I awards are for 6 months; normally, Phase II awards are for 2 years. Method of awarding/releasing assistance: other

application for previously recommended support. Annual financial status report within 90 days after the conclusion of each budget period.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal government officials.

Records:

Financial records, including documents to support entries on accounting records and to substantiate charges to each grant, must be kept readily available for review by personnel authorized to examine PHS grant accounts. Records must be maintained for three years after the end of each budget period. If questions still remain, such as those raised as a result of an audit, related records should be retained until the matter is completely resolved.

CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating proposals include assessments of: (1) the scientific merit and general significance of the proposed study and its objectives; (2) the technical adequacy of the experimental design and approach; (3) the competency of the proposed investigator or group to successfully pursue the project; (4) the adequacy of the available and proposed facilities and resources; (5) the necessity of the budget components requested in relation to the proposed project; and (6) the relevance and importance to stated program objectives. Training Grants: Criteria used in evaluating training proposals include: (1) Overall potential contribution of the project toward meeting program objectives; (2) the need for training in the areas outlined in the application; (3) curriculum content and design; (4) previous record of training; (5) evaluation methods; (6) experience and training of the project director and staff; (7) institutional commitment; (8) academic and physical environment; (9) past performance; and (10) appropriateness of budget. The following criteria will be used in considering the scientific and technical merit of SBIR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the qualifications of the proposed principal investigator, supporting staff, and consultants; (3) the technological innovation of the proposed research; (4) the potential of the proposed research for commercial application; (5) the appropriateness of the budget requested; (6) the adequacy and suitability of the facilities and research environment; and (7) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation, originality, or societal importance of the proposed research; (5) the potential of the proposed research for commercial application; (6) the reasonableness of the budget requested for the work proposed; (7) the adequacy and suitability of the facilities and research environment; and (8) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment.

93.264 Nurse Faculty Loan Program (NFLP)

NFLP,

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Sections 846A (42 U.S.C. 297n-1) and Section 847(f) (42 U.S.C. 297o(f)) of the Public Health Service Act.

OBJECTIVES:

The purpose of the NFLP program is to increase the number of qualified nursing faculty nationwide. NFLP seeks to accomplish this by providing funding to accredited schools of nursing to establish and operate a student loan fund and provide loans to students enrolled in advanced education nursing degree programs who are committed to becoming nurse faculty. In exchange for completion of up to four years of post-graduation full-time nurse faculty employment in an accredited school of nursing, the program authorizes cancellation of up to 85 percent of any such student loan (plus interest thereon).

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

NFLP grantees must establish a distinct NFLP interest-bearing loan fund for the purpose of making NFLP loans to eligible students enrolled in advanced degree nursing programs who are committed to become qualified nurse faculty and for the costs associated with collection of these loans. Institutions may award a maximum loan amount of \$35,500 per student for an academic year to support the cost of tuition, fees, books, and other reasonable education expenses (including student nurse educator development activities). NFLP funds may only be used for loan support, with the exception of covering the costs of collection of loaned principal

and accrued interest and/or penalty, and the cost of student nurse educator development activities as reasonable expenses. Upon completion of the program and following graduation, an amount up to 85 percent of the loan (principal of and interest on) may be cancelled by the institution as follows: 20 percent upon completion of the first, second, and third years of full-time faculty employment in an accredited school of nursing; and 25 percent upon completion of the fourth year of full-time employment as faculty in an accredited school of nursing.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Eligible applicants are accredited public or private collegiate schools of nursing or departments within an academic institution, that offer graduate degree nursing education programs (master's or doctoral) that will prepare the graduate student to serve as nurse faculty. The school must be located in the 50 States, the Commonwealth of Puerto Rico, the District of Columbia, the Commonwealth of the Northern Mariana Islands, Guam, American Samoa, the U.S. Virgin Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, or the Republic of Palau. Funding priority is given to applicants with doctoral-level advanced degree nursing programs.

Beneficiary Eligibility:

Native American Organizations; U.S. Citizen; Eligible nursing students must: (1) be a citizen or national of the United States, or a lawful permanent resident of the United States, the Commonwealth of Puerto Rico, the District of Columbia, the Commonwealth of the Northern Mariana Islands, Guam, American Samoa, the U.S. Virgin Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, or the Republic of Palau; (2) be enrolled in an advanced degree program in nursing to become qualified nursing faculty; (3) not be in default on a Federal debt; and (4) maintain good academic standing.

Reports:

Program reports are required. The recipient will be required to submit Annual Performance Reports. No cash reports are required. NFLP award recipients are not required to submit the annual Federal Financial Report SF-425 to HRSA. For the purpose of this grant program, the quarterly Federal Cash Transaction Report submitted to the Payment Management System (PMS) will be used to fulfill the financial reporting requirement. Timely and accurate information provided to the PMS will be used in lieu of the Financial Status Report /Federal Financial Report. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier sub-award of \$25,000 or more in federal funds and executive total compensation for the recipients and sub-recipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (The FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation recipients may be subject to this requirement and will be so notified in the Notice of Award. No expenditure reports are required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. To assist states and communities in establishing and maintaining preventive health service programs to immunize individuals against vaccine-preventable diseases (including measles, rubella, poliomyelitis, diphtheria, pertussis, tetanus, hepatitis B, hepatitis A, varicella, mumps, haemophilus influenza type b, influenza, and pneumococcal pneumonia).

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants

USES AND USE RESTRICTIONS:

Cooperative Agreement funds may be used for costs associated with planning, organizing, and conducting immunization programs directed toward vaccine-preventable diseases and for the purchase of vaccine; and for the implementation of other program elements, such as assessment of the problem; surveillance and outbreak control; information and education; adequate notification of the risks and benefits of immunization; compliance with compulsory school immunization laws; vaccine storage, supply management, and delivery; citizen participation; and use of volunteers. Vaccine will be available "in lieu of cash" if requested by the applicants. Requests for personnel and other items "in lieu of cash" will also be considered. Vaccine purchased with Cooperative Agreement funds may be provided to private practitioners who agree not to charge for vaccine. Cooperative Agreement funds may be used to supplement (not substitute for) existing immunization services and operations provided by a state or locality.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; U.S. Territories and possessions; Any U.S. state,

93.270 Viral Hepatitis Prevention and Control

Integrated Viral Hepatitis Surveillance and Prevention,

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Sections 301 and 317K(k)(2) of the Public Health Service Act (42 U.S.C. section 241 and 274b-15), as amended, Title Integrated Viral Hepatitis Surveillance and Prevention Funding for Health Departments, Section Sections 301 and 317K(k)(2)

ASSISTANCE LISTINGS DESCRIPTIONS

of the Public Health Service Act (42 U.S.C. section 241 and 274b-15), as amended

OBJECTIVES:

Program activities support integrated viral hepatitis surveillance and prevention programs in states and large cities in the United States. Key strategies include viral hepatitis outbreak planning and response; and surveillance for acute hepatitis A, B and C, and chronic hepatitis C. Partners should develop a jurisdictional viral hepatitis elimination plan, increase comprehensive hepatitis B and C reporting, improve HBV and HCV testing and increase healthcare providers trained to treat hepatitis B and C. Contingent on funding, the following activities can be supported: surveillance for chronic hepatitis B and perinatal hepatitis C; increased hepatitis B and C testing and referral to care in high-impact settings (syringe services programs (SSPs), substance use disorder (SUD) treatment centers, correctional facilities, emergency departments and sexually transmitted disease clinics; and increased access to services preventing viral hepatitis and other infections among persons who inject drugs (PWID). Contingent on funding, an optional component will support improved access to prevention, diagnosis, and treatment of viral, bacterial and fungal infections related to drug use in settings disproportionately affected by drug use. Expected outcomes include improved surveillance for viral hepatitis, increased stakeholder engagement in viral hepatitis elimination planning, and improved access to viral hepatitis prevention, diagnosis, and treatment among populations most at risk.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funds may be used for costs associated with establishing and maintaining a prevention and control program directed towards prevention of viral hepatitis infections and their manifestations. Recipients may only expend funds for reasonable policies, systems and program purposes including personnel, travel, supplies and services, such as reducing transmission of HAV, HBV and HCV, preventing and delaying the progress of chronic infection, as well as educating and training of the general public and health care providers. The recipient must perform a substantial role in carrying out project objectives and not merely serve as a conduit for an award in another party or provider who is eligible.

Applicant Eligibility:

Intrastate; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Sponsored organization; Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Minority group; Specialized group (e.g. health professionals, students, veterans); Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Other private institutions/organizations; Anyone/general public; Applicants include State or local governments or their Bona Fide Agents, public and private nonprofit organizations, for profit organizations, small, minority, women-owned businesses, universities, colleges, research institutions, hospitals, community-based organizations, faith based organizations, Federally recognized Indian tribal governments, Indian tribes, and Indian tribal organizations. Additional guidance may be provided in individual program announcements. In addition, funds may be used for costs associated with establishing and maintaining a prevention and control program directed towards prevention of viral hepatitis infections and their manifestations. Recipients may only expend funds for reasonable policies, systems and program purposes including personnel, travel, supplies and services, such as reducing transmission of HAV, HBV and HCV, preventing and delaying the progress of chronic infection, as well as educating and training of the general public and health care providers. Recipients may not use funds for clinical care. Recipients may not generally use funding for the purchase of furniture or equipment. Any such proposed spending must be identified in the budget. The recipient must perform a substantial role in carrying out project objectives and not merely serve as a conduit for an award in another party or provider who is eligible.

Beneficiary Eligibility:

Individual/Family; Anyone/general public; State; Local; Public nonprofit institution/organization; Federally Recognized Indian Tribal Governments; The individual will benefit from the objectives of this program as well as the

community at large and society from the savings realized from treating those that are infected with viral hepatitis.

Credentials/Documentation:

Applicants should document the need for assistance, state the objectives of the project, outline the method of operation, describe the evaluation procedures and provide a budget justification of funds requested. Costs for nonprofit recipients will be determined in accordance with HHS Regulations, 45 CFR Part 74 and Part 92. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.
