PRAMS: The Pregnancy Risk Assessment Monitoring System, is a surveillance project of the Centers for Disease Control and Prevention (CDC) and state health departments. PRAMS collects state-specific, population-based data on maternal attitudes and experiences before, during, and shortly after pregnancy. PRAMS provides data for state health officials to use to improve the health of mothers and infants; allows CDC and the states to monitor changes in maternal and child health indicators (e.g., unintended pregnancy, prenatal care, breastfeeding, smoking, drinking, infant health); and enhances information from birth certificates used to plan and review state maternal and infant health programs. The PRAMS sample is chosen from all women who had a live birth recently, so findings can be applied to the state's entire population of women who have recently delivered a live-born infant. PRAMS not only provides state-specific data but also allows comparisons among participating states because the same data collection methods are used in all states. SID/SUID (Sudden infant Death/Sudden Unexplained Infant Death): The SUID Case Registry aims to generate public health surveillance information about SUID at the national, state, and local levels that is more detailed than what is currently available. Instead of creating an entirely new system, the SUID Case Registry enhances the National Center for Child Death Review program and their Case Reporting System. The SUID Case Registry generates public health surveillance information that can comprehensively describe the circumstances and events surrounding SUID cases. This will allow researchers, medicolegal investigators, and program prevention planners to better understand characteristics associated with SUID, evaluate case investigation practices, and ultimately prevent infant deaths. Validation of Prenatal Substance Use Screening Tools: The purpose of this research is to validate and compare the performance of the most promising substance abuse screening tools that are already available in the literature (for example, the 4Ps-plus, the 5Ps, the Substance Use Risk Profile Pregnancy Scale (SURP-P), the CRAFFT, the NIDA Quick Screen) and can be used among

pregnant women seeking medical services (e.g. antenatal or delivery care) in clinical settings in the United States. Medicaid Expansion and Reproductive Health Care for Women: The intent of this FOA is to study the use of medical services and health outcomes among low-income women of reproductive age (15-44 years), before and after expansion of Medicaid eligibility. This research will require linkage of state Medicaid data with other key maternal and child health datasets including, but not limited to, birth certificates, death certificates, and hospital discharge data. Perinatal Quality Collaboratives: This FOA will support states to enhance the capabilities of state-based perinatal quality collaboratives to improve the quality of perinatal care in their states, including but not limited to: reducing early elective deliveries, increasing use and documentation of use of antenatal steroids, increasing breastfeeding rates, and reducing central line-associated blood stream infections in neonates. Module B will continue to support the work of the 3 states that have successfully expanded their Perinatal Quality Collaborative through an existing FOA, CDC-RFA- DP11-1110, that ends September 29, 2014, and will support expansion of PQC projects and formal mentoring and capacity building for Module A awardees. Maternal and Child Health Capacity Building: The program promotes and improves the health and well-being of women, children, and families by building capacity at state, local, and tribal levels and to use and apply sound epidemiologic research and scientific information to maternal and child health programs and policies through collaborations with partners. Special Interest Project (SIP)/Progestin contraception and HIV risk: Clinical and laboratory follow-up of a cohort of HIV-infected and uninfected women: The purpose of this SIP is to establish a cohort of HIV-infected and HIV-uninfected women on different types of progestin-containing contraception to assess differences in women's continuation with a given method and the effects of long-term progestin use on markers of HIV risk and efficacy of ART. Also the project will support laboratory studies to analyze the effects of progestin on HIV shedding, inflammatory/immune markers in the genital tract, and the interaction of progestin with antiretroviral therapy on contraceptive and ART efficacy. Objectives in the topic area of Family Planning and HIV Prevention intend to increase the proportion of pregnancies that are intended; increase the proportion of sexually experienced persons who received reproductive health services; reduce pregnancy rates among adolescent females; and reduce the rate of HIV transmission among adolescents and adults. Teen Pregnancy Prevention: The program is supporting public and private entities to fund medically accurate and age appropriate evidence-based or innovative program models to reduce teen pregnancy. The purpose of the program is to reduce teen pregnancy by working directly with publicly funded clinics to increase access to and use of reproductive health services among vulnerable youth. Activities include building the capacity of staff and clinical providers, establishing partnerships with youth-serving systems, and developing communication efforts. The primary target population is 15- to 19-year-olds, the age group among whom the majority of teen births occur; however, since the Society of Adolescent Health and Medicine and the United Nations Family Planning Association define adolescents as 15-24, the target age group may be expanded. Development and Testing of a Clinic-Based Intervention to Increase Dual Protection against Unintended Pregnancy and STDs among High Risk Female Teens: The purpose of this funding opportunity is to develop and evaluate a clinic-based intervention addressing access to, motivation for, and adherence to dual protection strategies that concurrently protect against unintended pregnancies and sexually transmitted diseases (STDs), including human immunodeficiency virus (HIV) among high risk 15-19 year old females.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Funds may be used at the discretion of the States to achieve the statutory objectives, including the fulfillment of certain requirements. Not less than 20 percent of the funds shall be spent for programs for individuals who do not require treatment for substance abuse, but to educate and counsel such individuals and to provide for activities to reduce the risk of such abuse by the individuals by developing community-based strategies for prevention of such abuse, including the use of alcoholic beverages and tobacco products by individuals to whom it is unlawful to sell or distribute such beverages or products. States shall expend not less than 5 percent of the grant to increase (relative to fiscal year 1994) the availability of treatment services designed for pregnant women and women with dependent children (either by establishing new programs or expanding the capacity of existing programs). In addition, a State that has a rate of acquired immune deficiency syndrome in excess of the rate stipulated at 42 USC 300A-24(b) must expend the portion of its block grant specified by 300A-24(b) for HIV early intervention services as defined by the PHS Act. States must require programs of treatment for intravenous drug abuse to admit individuals into treatment within 14 days after making such a request or 120 days of such a request, if interim services are made available within 48 hours. States will provide, directly or through arrangements with other public or nonprofit entities, tuberculosis services such as counseling, testing, treatment, and early intervention services for substance abusers at risk for the human immunodeficiency virus (HIV) disease. Other statutory requirements also apply. Up to 5 percent of grant funds may be used for administering the grant.

Applicant Eligibility:

93.965 Coal Miners Respiratory Impairment Treatment Clinics and Services

Black Lung Clinics Program (BLCP) and the Black Lung Data and Resource Center (BLDRC),

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Sec. 427(a) of the Federal Mine Safety and Health Act of 1977, as amended (30 U.S.C. 937).

OBJECTIVES:

The Black Lung Clinics Program aims to reduce the morbidity and mortality associated with occupationally-related coal mine dust lung disease (CMDLD) through the provision of quality medical, outreach, educational, and benefits counseling services to coal miners. The primary objective of the Black Lung Data and Resource Center is to improve patient-level data collection and analysis, clinic operations, and the quality and breadth of services provided by the Black Lung Clinics Program (BLCP) recipients.

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants

USES AND USE RESTRICTIONS:

USES: Screening, diagnosis and treatment services to active, inactive, disabled, and retired coal miners, including provision of the following services: education and outreach; medical case management; compensation counseling; DOL medical exams in accordance with the authorizing legislation; patient data collection and analysis; and other treatments that may relieve symptoms.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); The BLCP is open

to any state or public or private entity that meets the requirements of the program. This includes faith-based and community-based organizations as well as federally-recognized Tribes and Tribal organizations. The requirements may be met by a state, a single entity in a state, or a newly-formed consortium within a state. The BLDRC is open to any state or public or private entity that meets the requirements of the program. This includes faith-based and community-based organizations as well as federally-recognized Tribes and Tribal organizations.

Beneficiary Eligibility:

Physically Afflicted (e.g. TB, Arthritis, Heart Disease); Per 42 CFR Part55a, a coal miner is defined as: Any individual who works or has worked in or around a coal mine or coal preparation facility in the extraction or preparation of coal. The term also includes an individual who works or has worked in coal mine construction or transportation in and around a coal mine, to the extent that the individual was exposed to coal dust as a result of employment.

Credentials/Documentation:

Applicants should review the individual HRSA notice of funding opportunity issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. the Secretary determines appropriate. Awardees will be required to submit a Performance Improvement Measurement System (PIMS) report through the EHB once a year throughout their project period. The awardee will be required to submit performance and progress reports as well as status-federal financial reports (see the program announcement and notice of award for details for each required report). The awardee must submit a quarterly electronic Federal Financial Report (FFR) Cash Transaction Report via the Payment Management System within 30 days of the end of each calendar quarter. A Federal Financial Report (SF-425) according to the following schedule:

<http://www.hrsa.gov/grants/manage/technicalassistance/federalfinancialreport/ffrcschedule.pdf>. A final report is due within 90 days after the project period ends. If applicable, the awardee must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation awardees, etc. may be subject to this requirement and will be so notified in the Notice of Award. A Non-competing Continuation report is required once a year throughout their project period. No expenditure reports are required. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-federal entities that expend financial assistance of \$750,000 or more in federal awards will have a single or a program-specific audit conducted for that year. Non-federal entities that expend less than \$750,000 a year in federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Awardees are required to maintain grant accounting records 3 years after the date they submit the Federal Financial Report (FFR). If any litigation, claim, negotiation, audit or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2020: The program recently implemented a new reporting system that will better allow the clinics, HRSA, and other stakeholders to understand the burden of disease in the coal miner patient population. BLCP recipients worked in concert with HRSA and the BLDRC to develop and implement the system which was fully deployed in FY19. Quality data for analysis should be available in FY20 and will be used to monitor medical, outreach, educational, and benefits counseling services provided.

REGULATIONS, GUIDELINES, AND LITERATURE:

This program is subject to the provisions of 45 CFR Part 92 for state, local and tribal governments and 45 CFR Part 74 for institutions of higher education, hospitals, other nonprofit organizations and commercial organizations, as applicable. HRSA awards are subject to the requirements of the HHS Grants Policy Statement (HHS GPS) that are applicable based on recipient type and purpose of award. 93.968 Funding in Support of the Pennsylvania Rural Health Model

N/A,

FEDERAL AGENCY:

CENTERS FOR MEDICARE AND MEDICAID SERVICES, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Social Security Act, section 1115A,

OBJECTIVES:

The purpose of this single source funding opportunity for the Funding in Support of Pennsylvanias Rural Health Model (Model) cooperative agreement is to provide Pennsylvania with the start-up and initial implementation funding component of the Model to assist Pennsylvania in accomplishing the health outcomes, financial, and rural hospital scale targets required of Pennsylvania under the Model. A single-source award to the State of Pennsylvania through first, the Pennsylvania Department of Health and later, the Rural Health Redesign Center once legislatively established, will enable CMS to expeditiously provide assistance to Pennsylvania for the following specific activities: model oversight, global budget administration, data analytics, technical assistance, and quality assurance. These activities are necessary for Pennsylvania to achieve the goals of the Model. We note that the other components of the Model (e.g., health outcomes, financial, and rural hospital scale targets) are governed by a separate State Agreement into which Pennsylvania and CMS have entered

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Model Oversight: provide oversight, approve global budgets and transformation plans. Advise on and approve changes to operational and payment mechanisms Global Budget Administration: Set the precise methodology to set the global budgets for each participating rural hospital, with contributions from all payers participating in the model. Data Analytics: perform ongoing reporting and analysis in support of Model financial targets, population health outcomes and quality metrics. Provide stakeholders with regular reports to inform decision-making. Securely collect and store data from payers and providers. Clean data for performance reporting and budget calculation. Technical Assistance: provide strategic and operational technical assistance to support care delivery transformation. Convene hospitals to share best practices on care management and implementation. Quality Assurance: provide an annual assessment of compliance with transformation plan and global budget targets. Recommend corrective action plans where needed. Contract with an independent outcome evaluation group to provide board and CEO with rigorous evaluation of Models progress against population health, quality of care, and cost targets. Engage stakeholders through an advisory panel for input on program policy and outcomes.

Applicant Eligibility:

State; This single source funding opportunity provides Pennsylvania with the necessary start-up funding for the Model and is open to Pennsylvanias Department of Health and later the Rural Health Redesign Center. First, the Pennsylvania Department of Health is uniquely positioned as the initial applicant under this funding opportunity to meet the objectives of this funding opportunity based on its existing knowledge of the Model, its regulatory authority over healthcare in Pennsylvania, and its capacity to administer the Pennsylvania Rural Health Model including operationalizing the Rural Health Redesign Center, and its existing partnerships and collaborations with Pennsylvania providers. Knowledge of the Model: The Pennsylvania Department of Health is intimately familiar with the objectives of the Model. Pennsylvanias Department of Health was a key member of the discussions between Pennsylvania and CMS during the development of the Model; the Pennsylvanias Secretary of Health and staff dedicated significant time, energy, and resources over the past year in partnering with CMS to establish the Models financial, health outcomes, and rural hospital scale targets. This existing familiarity and knowledge of the Model will help the Pennsylvania Department of Health to expediently deploy the start-up funding offered under this funding opportunity announcement and successfully operationalize the Rural Health Redesign Center. Authority and role in administering the Model: The Pennsylvania Department of Health is responsible for ensuring that changes in Pennsylvanias health system improve the conditions and well-being of Pennsylvanians. The Pennsylvania Department of Health has broad healthcare authority to administer the payments under the model and to improve the health of Pennsylvanians and control the rate of growth in healthcare costs. Additionally, the Pennsylvania Department of Health is a signatory to the Pennsylvania Rural Health Models State Agreement and will be supporting the State in achieving its obligations under the State Agreement. Existing partnership and collaboration: The Pennsylvania Department of Health is located in Pennsylvania and has existing relationships and a history of collaboration with Pennsylvania providers, payers, and community-based resources that would benefit from this funding opportunity. Pennsylvanias

ASSISTANCE LISTINGS DESCRIPTIONS

Department of Health has also been working with these stakeholders for their input and participation throughout the development of the Model. Second, the Rural Health Redesign Center as the second applicant, will also be uniquely positioned to meet the objectives of this funding opportunity. Pennsylvania's Department of Health will legislatively create the Rural Health Redesign Center as an independent entity with authority over the implementation of the Pennsylvania Rural Health Model. The RHRC will approve hospital transformation plans, global budgets, exception adjustments and changes to operational and payment mechanisms associated with the Model as defined under the State Agreement. The RHRC will also establish and build strong relationships with Pennsylvania rural hospitals as the rural hospitals implement the Model. The RHRC will continue to strengthen these relationships as it implements the activities required under the Model. Similar to Pennsylvania's Department of Health, the RHRC will be uniquely positioned to support this Model as it will be legislatively created solely to provide implementation support for the Model.

Beneficiary Eligibility:

State; CMS is committed to achieving better care for individuals, better health for populations, and reduced expenditures for Medicare, Medicaid, and CHIP. Through the Innovation Center, CMS strives towards these goals by testing innovative payment and service delivery models. CMS believes that states can be critical partners of the federal government and other health care payers to facilitate the design, implementation, and evaluation of community-centered health systems that can deliver significantly improved cost, quality, and population health performance results for all state residents, including Medicare, Medicaid, and CHIP beneficiaries. States have policy and regulatory authorities, as well as ongoing relationships with commercial healthcare payers, health plans, and providers that can accelerate delivery system reform. CMS has previously partnered with states to accelerate delivery system reform through initiatives such as the State Innovations Model (SIM) program. SIM provides state-based healthcare transformation efforts with funding to test the ability of states to utilize policy and regulatory levers to accelerate multi-payer health care transformation. Selected states have been working with state-based payers, including Medicaid and commercial payers, and providers to design and implement care delivery and payment reform. States participating in SIM were selected through two rounds of public Funding Opportunity Announcements released on August 23, 2012 (Round 1) and May 22, 2014 (Round 2). Additionally, CMS has released guidance to SIM state participants in which CMS indicated that in certain instances it will consider state proposals for Medicare alignment with state multi-payer payment and care delivery models. According to that guidance, CMS would assess such proposals with consideration of the following principles: 1) patient-centered, 2) accountable for total cost of care, 3) transformative, 4) broad-based, 5) feasible to implement, and 6) feasible to evaluate. Pennsylvania was one state that approached CMS with a desire for Medicare alignment with the states payment and care delivery model, and Pennsylvania submitted its proposal to CMS on May 23, 2016. CMS reviewed Pennsylvania's proposal and determined that it met the requirements necessary to explore in detail a potential Pennsylvania-specific model. CMS, the Governor of Pennsylvania and Pennsylvania's Department of Health, will enter into a State Agreement on the Pennsylvania Rural Health Model. Under the Model, CMS will test the effect of deliberate care delivery transformation of rural acute care hospitals and critical access hospitals (CAHs) on quality and costs of care. The Model places these hospitals on all-payer, prospective global budgets for inpatient and outpatient services. As part of the State Agreement, Pennsylvania committed to legislatively creating the Rural Health Redesign Center (the RHRC) to operate the Model. This funding opportunity offers \$5M in start-up funding to the Pennsylvania Department of Health to operationalize the RHRC. The RHRC will be the central independent entity operating the Model and supporting hospitals through technical assistance, data analytics, monitoring, and evaluation. This funding opportunity also offers the RHRC (once operationalized by the Pennsylvania Department of Health) to apply for an additional \$10 million to begin implementing activities under the Model. In return, Pennsylvania commits to achieving health outcomes, financial, and Rural Hospital scale (number of Rural Hospitals participating in the Model) targets both for Medicare and across all significant healthcare payers as defined in the State Agreement. CMS believes that model oversight, global budget administration, data analytics, technical assistance, and quality assurance will be necessary in order to implement the Model and achieve the financial, health outcomes, and rural hospital scale targets required under the Model. First, CMS will provide start-up funding to the Pennsylvania

Department of Health for 30 months from the date of award. Then, CMS will award a second separate cooperative agreement award. These cooperative agreement awards will support operationalizing the Rural Health Redesign Center and initial Model implementation efforts, and will better enable Pennsylvania to achieve the Models financial, health outcomes, and rural hospital scale targets as defined under the State Agreement.

Credentials/Documentation:

Employer Identification Number: All applicants must have a valid Employer Identification Number (EIN) assigned by the Internal Revenue Service. Dun and Bradstreet (D&B) Data Universal Numbering System (DUNS number): All applicants must have a Dun and Bradstreet (D&B) Data Universal Numbering System (DUNS) number in order to apply. The DUNS number is a nine-digit identification number that uniquely identifies business entities. Obtaining a DUNS number is free. To obtain a DUNS number, access the following website: www.dunandbradstreet.com or call 1-866-705-5711. See Section IV, Application and Submission Information, for more information on obtaining a DUNS number. System for Award Management (SAM) All applicants must register in the System for Award Management (SAM)* database (<https://www.sam.gov/portal/public/SAM/>) in order to be able to submit an application at <http://www.grants.gov>. In order to register, applicants must provide their DUNS and EIN numbers. Each year, organizations and entities, registered to apply for Federal grants through Grants.gov must renew their registration with SAM. Each year organizations and entities must renew their registration with SAM. Failure to renew SAM registration prior to application submission will prevent an applicant from successfully applying via Grants.gov. Similarly, failure to maintain an active SAM registration during the application review process can prevent CMS from issuing your agency an award under this program. Applicants should begin the SAM registration process as soon as possible after the announcement is posted to ensure that it does not impair your ability to meet required submission deadlines. Applicants must successfully register with SAM prior to submitting an application or registering in the Federal Funding Accountability and Transparency Act Sub-award Reporting System (FSRS) as a prime awardee user; awardees may make sub-awards only to entities that have DUNS numbers. Organizations must report executive compensation as part of the registration profile at <https://www.sam.gov/portal/public/SAM/> by the end of the month following the month in which this award is made, and annually thereafter (based on the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109-282), as amended by Section 6202 of Public Law 110-252 and implemented by 2 CFR Part 170). 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications will be submitted electronically through GrantSolutions in response to the Funding Opportunity Announcement (FOA). Applications will be submitted electronically through GrantSolutions in response to the Funding Opportunity Announcement (FOA). Application Materials: Application materials will be available for download at <http://www.grants.gov>. Please note that HHS requires applications for all announcements to be submitted electronically through <http://www.grants.gov>. For assistance with <http://www.grants.gov>, contact support@grants.gov or 1-800-518-4726. At Grants.gov, applicants will be able to download a copy of the application packet, complete it off-line, and then upload and submit the application via the Grants.gov website. Specific instructions for applications submitted via <http://www.grants.gov>: You may access the electronic application for this project at <http://www.grants.gov>. You must search the downloadable application page by the CFDA number. At the <http://www.grants.gov> website, you will find information about submitting an application electronically through the site, including the hours of operation. HHS strongly recommends that you do not wait until the application due date to begin the application process through <http://www.grants.gov> because of the time needed to complete the required registration steps. The applicant must be registered in the System for Award Management (SAM) database in order to be able to submit the application. Applicants are encouraged to register early, and must have their DUNS and EIN/TIN numbers in order to do so. Authorized Organizational Representative: The Authorized Organizational Representative (AOR) who will officially submit an application on behalf of the organization must

ASSISTANCE LISTINGS DESCRIPTIONS

register with grants.gov for a username and password. AORs must complete a profile with Grants.gov using their organizations DUNS Number to obtain their username and password at http://grants.gov/applicants/get_registered.jsp. AORs must wait one business day after successful registration in SAM before entering their profiles in Grants.gov. Applicants should complete this process as soon as possible after successful registration in SAM to ensure this step is completed in time to apply before application deadlines. When an AOR registers with Grants.gov to submit applications on behalf of an organization, that organization's E-Biz POC will receive an email notification. The email address provided in the profile will be the email used to send the notification from Grants.gov to the E-Biz POC with the AOR copied on the correspondence. The E-Biz POC must then login to Grants.gov (using the organization's DUNS number for the username and the special password called M-PIN) and approve the AOR, thereby providing permission to submit applications. Any files uploaded or attached to the Grants.gov application must be PDF file format and must contain a valid file format extension in the filename. Even though Grants.gov allows applicants to attach any file formats as part of their application, CMS restricts this practice and only accepts PDF file formats. Any file submitted as part of the Grants.gov application that is not in a PDF file format, or contains password protection, will not be accepted for processing and will be excluded from the application during the review process. In addition, the use of compressed file formats such as ZIP, RAR, or Adobe Portfolio will not be accepted. The application must be submitted in a file format that can easily be copied and read by reviewers. It is recommended that scanned copies not be submitted through Grants.gov unless the applicant confirms the clarity of the documents. Pages cannot be reduced in size, resulting in multiple pages on a single sheet, to avoid exceeding the page limitation. All documents that do not conform to the above specifications will be excluded from the application materials during the review process. After you electronically submit your application, you will receive an acknowledgement from Grants.gov that contains a Grants.gov tracking number. CMS will retrieve your application package from Grants.gov. Please note that applicants may incur a time delay before they receive acknowledgement that the application has been accepted by the Grants.gov system. Applicants should not wait until the application deadline to apply because notification by Grants.gov that the application is incomplete may not be received until close to or after the application deadline, eliminating the opportunity to correct errors and resubmit the application. Applications submitted after the deadline, as a result of errors on the part of the applicant, will not be accepted. After CMS retrieves your application package from Grants.gov, a return receipt will be emailed to the applicant contact. This will be in addition to the validation number provided by Grants.gov. Applications cannot be accepted through any email address. Full applications can only be accepted through <http://www.grants.gov>. Full applications cannot be received via paper mail, courier, or delivery service. All grant applications must be submitted electronically and be received through <http://www.grants.gov> by 3:00 pm Eastern Daylight Time on the applicable due date. Applications not successfully submitted to Grants.gov by the due date and time will not be eligible for review. All applications will receive an automatic time stamp upon submission and applicants will receive an email reply acknowledging the applications receipt. Please be aware of the following: 1) Search for the application package in Grants.gov by entering the CFDA number. This number is shown on the cover page of this announcement. 2) If you experience technical challenges while submitting your application electronically, please contact Grants.gov Support directly at: www.grants.gov/customersupport or (800) 518-4726. Customer Support is available to address questions 24 hours a day, 7 days a week (except on Federal holidays). 3) Upon contacting Grants.gov, obtain a tracking number as proof of contact. The tracking number is helpful if there are technical issues that cannot be resolved. To be considered timely, applications must be received by the published deadline date. However, a general extension of a published application deadline that affects all State applicants or only those in a defined geographical area may be authorized by circumstances that affect the public at large, such as natural disasters (e.g., floods or hurricanes) or disruptions of electronic (e.g., application receipt services) or other services, such as a prolonged blackout. This statement does not apply to an individual entity having internet service problems. In order for there to be any consideration there must be an effect on the public at large. Grants.gov complies with Section 508 of the Rehabilitation Act of 1973. If an individual uses assistive technology and is unable to access any material on the site including forms contained with an application package, they can email the Grants.gov contact center at support@grants.gov or call 1-800-518-4726. Form of Application Submission The application must include

all contents described below, in the order indicated, and conform to the following specifications: o Use 8.5 x 11 letter-size pages (one side only) with 1 margins (top, bottom, and sides). Other paper sizes will not be accepted. This is particularly important because it is often not possible to reproduce copies in a size other than 8.5 x 11. o All pages of the project and budget narratives must be paginated in a single sequence. o Font size must be at least 12-point with an average of 14 characters per inch (CPI). o The Project Narrative must be double-spaced. o The Budget Narrative may be single-spaced and should follow the justifications and table formats provided in Appendix A, Guidance for Preparing a Budget Request and Narrative in Response to SF 424A. o Tables included within any portion of the application should have a font size of at least 12-point with a 14 CPI and may be single spaced. o The project abstract is restricted to a one-page summary which may be single-spaced. o The application may not exceed 45 pages. Although tables are counted towards the page limitation, the additional required documentation, including Standard Forms and Project Abstract is excluded from the page limitation. The following standard forms are found in the Grants Application Package at www.grantsolutions.gov and must be completed with an electronic signature and submitted as part of the proposal: o Project abstract summary o SF-424: Official Application for Federal Assistance (see note below) o SF-424A: Budget Information Non-Construction o SF-424B: Assurances-Non-Construction Programs o SF-LLL: Disclosure of Lobbying Activities Project Site Location Form(s)

Award Procedure:

Applications will be forwarded to a review panel. The review panel will evaluate the proposal based on how well applicant addresses the evaluation criteria outlined in the FOA. Based on the advice of the review panel, the CMS selection official will approve the selected application and issue a Notice of Award. Successful applicant will receive a Notice of Award (NoA) signed and dated by the CMS Grants Management Officer that will set forth the amount of the award and other pertinent information. The award will also include standard Terms and Conditions. Applicant should be aware that special requirements could apply to cooperative agreement awards based on the particular circumstances of the effort to be supported and/or deficiencies identified by the review panel.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Anticipated Notice of Award dates are 60 days after application submission

Appeals:

Other. CMS reserves the right to approve or deny any or all proposals for funding. Note that section 1115A of the Social Security Act, which creates the Center for Medicare and Medicaid Innovation (CMMI). Section 1115A(d)(2) states that there is no administrative or judicial review of the selection of organizations, sites, or participants to test models.

Length and Time Phasing of Assistance:

The period of performance was 30 months from the date of award for Pennsylvania Department of Health and 36 months from the date of award for the Pennsylvania Department of Health of awarding/releasing assistance: quarterly. Method of awarding/releasing assistance: quarterly

Reports:

The Grantee must submit quarterly progress reports as well as a final progress report. CMS will provide a reporting template for all progress reports. Each quarterly progress report must include the information outlined below. A separate reporting template will be provided by CMS for the final progress report. The purpose of the final progress report is to summarize the grantees progress throughout the entire project period to include overarching lessons learned, unanticipated challenges or successes, etc. All reports must be submitted to www.grantsolutions.gov. The minimum program progress narrative report elements are as follows: i. Program Name; ii. Project Director Name; iii. Reporting Period; iv. Data and Reporting Requirements (refer to Section I.6.b Data and

Reporting Requirements for the required data elements);v.Additional Metrics Proposed by Applicant (if applicable);vi.Budget Status - include amounts for planned expenditure, actual expenditure, and deficit/surplus;vii.Project description - short summary;viii.Progress on Goals Status on goals that were previously projected to be completed in this reporting period, including explanation of and remediation plans for any goals not met; ix.Accomplishments Specific tasks that were accomplished during this reporting period;x.Project Goals - Goals projected to be completed during the next reporting period; andxi.Issues - Issues that must be addressed for the project to be successful.Quarterly progress reports are due 30 days after the end of the quarterly period. The final progress report is due 90 days after the end of the project period. The Grantee must also agree to cooperate with any federal evaluation of the Model. The Federal Financial Report (FFR or Standard Form 425) has replaced the SF-269, SF-269A, SF-272, and SF-272A financial reporting forms. Recipient must utilize the FFR to report cash transaction data, expenditures, and any program income generated (if applicable for the program). As detailed above, award recipient must agree to cooperate with any federal evaluation of the model and performance results and provide required quarterly and final reports in a form prescribed by CMS. Reports will be submitted electronically. These reports will include how cooperative agreement funds were used, describe project or model progress, and describe any barriers, delays, and measurable outcomes. CMS will provide the format for project or model reporting and technical assistance necessary to complete required report forms. Successful applicant must also agree to respond to requests that are necessary for the evaluation of the Model Design, pre-testing assistance, or Model Testing efforts and provide data on key elements of model performance and on results from the cooperative agreement activities. As detailed above. Successful applicants must submit reports to Federal Funding Report and meet Payment Management System reporting requirements. Pennsylvania will submit to CMS quarterly reports on the financial targets and annual reports on the health outcomes and rural hospital participation and payer scale targets as stipulated outside of this cooperative agreement but in the Models State Agreement.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Award recipient is required to maintain proper records including financial records, supporting documents, statistical records, and all other records pertinent to the program for the duration of the award, and retain these for a minimum of three years. If any litigation, claim, negotiation, audit, or other action involving the award has been started before the expiration of the three years, the records should be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular three year period, whichever is later

93.969 PPHF Geriatric Education Centers

Geriatric Workforce Enhancement Program (GWEP),

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Section 750 and 753(a) of the Public Health Service Act, Health Professions Education Partnerships Act of 1998, Public Law 105-392 as amended by the Coronavirus Aid, Relief, and Economic Security (CARES) Act Public Law No: 116-13; and Section 865 of the Public Health Service Act.,

OBJECTIVES:

The purpose of this program is to improve health outcomes for older adults by developing a healthcare workforce that maximizes patient and family engagement, and by integrating geriatrics and primary care. The goals of this program are: 1) to educate and train the primary care and geriatrics workforce to care for older adults in integrated geriatrics and primary care models, and 2) to partner with community based organizations (CBOs) to address gaps in healthcare for older adults, promote age-friendly health systems and dementia-friendly communities, and address the social determinants of health.

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants

USES AND USE RESTRICTIONS:

Projects must develop collaborations with at least one non-profit community organization and one primary care facility to ensure integrated delivery systems. Grantees must use funds for the following activities: 1. Develop and implement integrated geriatrics and primary care health care delivery systems to provide clinical experiences for trainees with the goal of improving comprehensive, coordinated care for older adults; 2. Partner with, or create as appropriate, community-based outreach resource centers to address the learning and support needs of older adults, their families and their caregivers. Such programs must address local needs, taking into account available care settings, social resources, and community culture. Topics in addressing psychosocial needs, disease self-

ASSISTANCE LISTINGS DESCRIPTIONS

management, patient engagement, and population health are encouraged; and 3. Provide training to individuals who will provide care to older adults within the context of the above focus areas. Categories of individuals may include: patients, families, caregivers, direct care providers, primary care providers, students, residents, fellows, and faculty. 4. In addition, projects may include Alzheimer's disease and related dementias education and training for patients, families, caregivers, direct care providers, and health professions students, faculty, and providers. Restricted Uses: Student support through stipends, tuition, and fees from other funding sources is not eligible for support. The exception to this restriction is individuals who are preparing for certified nursing assistant certification or advanced education nursing degrees in geriatric nursing, long-term care, geropsychiatric nursing or other nursing areas that specialize in the care of the elderly population. These individuals are eligible for traineeship support. Funds may not be used for the constructions of buildings or the acquisition of land. Indirect costs under training awards to organizations other than State, local or American Indian tribal governments will be budgeted and reimbursed at 8 percent of modified total direct costs rather than on the basis of a negotiated rate agreement, and are not subject to upward or downward adjustment. Funds may not be used for trainee costs, the constructions of buildings or the acquisition of land.

Applicant Eligibility:

This program has MOE requirements, see funding agency for further details. Additional Information: The recipient must agree to maintain non-federal funding for grant activities at a level which is not less than expenditures for such activities during the fiscal year prior to receiving the award.

Length and Time Phasing of Assistance:

This funding opportunity provides support for a five-year project period. Method of awarding/releasing assistance: other

Reports:

Both program and financial reports are required. The recipient will be required to submit annual performance and progress reports. A Federal Financial Report (SF-425) is required according to the schedule in HRSA's Application Guide. A final report is due within 90 days after the project period ends. If applicable, the recipient must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (The FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation recipients may be subject to this requirement and will be so notified in the Notice of Award.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Recipients are required to maintain grant accounting records 3 years after the date they submit the Federal Financial Report (FFR). If any litigation, claim, negotiation, audit or other action involving the award has been started before the expiration of the 3 year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3 year period, whichever is later.

CRITERIA FOR SELECTING PROPOSALS:

Procedures for assessing the technical merit of grant applications have been instituted to provide an objective review of applications and to assist the applicant in understanding the standards against which each application will be judged. Critical indicators have been developed for each review criterion to assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by non-Federal expert consultant(s) for technical merit recommendations. Applications will be reviewed and evaluated against the following criteria: (1) Purpose and Need; (2) Response to Program Purpose; (3) Impact; (4) Organizational Information, Resources and Capabilities; and (5) Support Requested. See the most recent Notice of Funding Opportunity for detailed selection criteria.

ASSISTANCE LISTINGS DESCRIPTIONS

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Payments of grant funds are made through the DHHS Payment Management System (PMS) or DHHS Electronic Transfer System. Information will be forwarded to new grantees regarding the process of obtaining funds. Awards are for a twelve month period. Method of awarding/releasing assistance: quarterly

Reports:

Grantees will be required to submit quarterly Federal Financial Report (SF-425 or FFR) to Payment Management Services. Progress reports are required annually, semi-annually or quarterly depending on the time lines set by the IHS program. A final progress report is due 90 days after the end of each budget period and at the end of the final project period. For Indians into Nursing, program progress reports are required semi-annually, within 30 days after the budget period ends. These reports must include a brief comparison of actual accomplishments to the goals established for the period, or, if applicable, provide sound justification for the lack of progress, and other pertinent information as required. A final report must be submitted within 90 days of expiration of the budget/project period. Federal Financial Report FFR (SF-425), Cash Transaction Reports are due 30 days after the close of every calendar quarter to Payment Management Services, HHS at: www.dpm.psc.gov. It is recommended that the applicant also send a copy of the FFR (SF-425) report to the Grants Management Specialist. Failure to submit timely reports may cause a disruption in timely payments to the organization. IHS grants are monitored by the Division of Grants Management for financial compliance and by the IHS Program Staff for programmatic compliance.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Nonprofit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

HHS and the Comptroller General of the United States or any of their authorized representatives, shall have the right of access to any books, documents, papers, or other records of a grantee, subgrantee, contractor, or subcontractor, which are pertinent to the HHS grant, in order to make audits, examinations, excerpts and transcripts. Grantees are required to maintain grant accounting records 3 years after the end of a budget period. If any litigation, claim, negotiation, audit or other action involving the records has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

AUTHORIZATION:

Section 1848(s)(6) of the Social Security Act, as added by section 102 of the Medicare Access and Childrens Health Insurance Program Reauthorization Act of 2015.,

OBJECTIVES:

In accordance with section 1848(s)(6) of the Social Security Act, as added by section 102 of the Medicare Access and Childrens Health Insurance Program Reauthorization Act of 2015, this funding opportunity will be used for developing, improving, updating or expanding quality measures for use in the Quality Payment Program under the Merit-Based Incentive Payment System and/or Advanced Alternative Payment Models. Recognizing the benefits of measure development by external stakeholders with

TYPES OF ASSISTANCE:

Formula Grants (Cooperative Agreements), Salaries and Expenses

USES AND USE RESTRICTIONS:

Funds are to be used for measure development activities to provide for a fully developed measure suitable for use in the CMS Quality Payment Program. Funds may be used to secure technical measure development expertise with external (to the recipient) experts. Funds should be used in accordance with generally accepted measure development principles.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Specialized group (e.g. health professionals, students, veterans); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Other private institutions/organizations; Anyone/general public; Clinical specialty societies, clinical professional organizations, patient advocacy organizations, educational institutions, independent research organizations, health systems, and other entities engaged in quality measure development. For this funding opportunity, the above categories are referenced collectively as entity or entities. The language, engaged in quality measure development, pertains to each of the above referenced entities. Entities must: 1) demonstrate, or partner with an organization with demonstrated, quality measure development expertise 2) be engaged in quality measure conceptualization, development, or evaluation 3) be involved in developing evidence-based clinical practice guidelines. Otherwise eligible entities must not be actively receiving federal funding for quality measure development, implementation, maintenance, or public reporting activities for quality measures. However, such an entity may be a sub-recipient on one or multiple applications.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Profit organization; Private nonprofit institution/organization; Quasi-public nonprofit organization; Other private institution/organization; Anyone/general public; Public nonprofit institution/organization; Other public institution/organization; Quality Payment Program provides new opportunities to improve care delivery by supporting and rewarding clinicians as they find new ways to engage patients, families, and caregivers and to improve care coordination and population health management. The quality measures in MIPS and APMs serve as the mechanism of measuring the improved care delivery. With this funding opportunity, CMS is engaging eligible entities to develop the quality measures as a way of enhancing the measure portfolio with additional measures for specialties. An enhanced measure portfolio helps to ensure that a higher percentage of providers can use quality measurement to improve their practice. This results in consumers making more informed decisions regarding their healthcare and overall health care quality improvements. The ultimate beneficiaries from this work are providers, consumers, healthcare stakeholders, and anyone interested in quality as the quality measures developed better reflect the complexity and diversity of our healthcare system and improve the quality of healthcare for everyone.

Reports:

The Federal Financial Report (FFR or Standard Form 425) has replaced the SF-269, SF-269A, SF-272, and SF-272A financial reporting forms. All grantees must utilize the FFR to report cash transaction data, expenditures, and any program income generated. Grantees must report on a quarterly basis cash transaction data via the Payment Management System (PMS) using the FFR in lieu of completing a SF-272/SF272A. Failure to submit the report may result in the inability to access funds. CMS may enlist a third party entity to assist CMS in monitoring the results and outcomes. The FFR, containing cash transaction data, is due within 30 days after the end of each quarter. A Quick Reference Guide for completing the FFR in PMS is at:

www.dpm.psc.gov/grant_recipient/guides_forms/ffr_quick_reference.aspx. The CMS Center for Clinical Standards and Quality will take an active and substantial role in the management, implementation, evaluation, and monitoring of the Medicare Access and CHIP Reauthorization Act (MACRA) Funding Opportunity: Measure Development for the Quality Payment Program awards. The activities funded under the cooperative agreement and their resulting recipient responsibilities will be part of performance tracking, measuring, and evaluation responsibilities of CMS. CMS will examine how the entities that receive funds used the money. In addition to submitting the quarterly FFR to PMS, Grantees must also provide, on an annual basis, a report to be uploaded into Grant Solutions which includes their expenditures and any program income generated in lieu of completing a Financial Status Report (FSR) (SF269/269A). Expenditures and any program income generated should only be included on the annually submitted FFR, as well as the final FFR. Annual hard-copy FFRs should be mailed and received within 30 calendar days of the applicable year end date. The final FFR should be uploaded in Grants Solutions within 90 calendar days of the project period end date. Awardees must agree to cooperate with any Federal evaluation of the project

Reports will be submitted electronically. These reports will include how cooperative agreement funds were used, describe progress in their quality measure development work, and describe any barriers, delays, and measurable outcomes. CMS will provide the format for project reporting and technical assistance necessary to complete required report forms. All awardees will be required to cooperate in providing the necessary information to CMS and/or a CMS contractor for ongoing performance monitoring. The contractor would assist CMS in developing appropriate monitoring protocols and tracking performance across awardees and providing for rapid cycle evaluation and early detection of performance problems, including coordination between awardees and CMS and its other contractors. Performance monitoring will include but is not limited to monthly calls with CMS and/or a CMS contractor.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503 N/A

Records:

Financial records, supporting documents, statistical records, and all other records pertinent to an award shall be retained by the grantee for a period of 3 years from the date of submission of the final SF-425 (FFR) except if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records shall be retained until all litigation, claims or audit findings involving the records have been resolved and final action taken.

93.989 International Research and Research Training

Global Health Research and Research Training.

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Sections 301 and 405, as amended; 42 U.S.C. 241 and 284.,

OBJECTIVES:

The John E. Fogarty International Center (FIC) supports research and research training to reduce disparities in global health and to foster partnerships between U.S. scientists and their counterparts abroad. FIC supports basic biological, behavioral, and social science research, as well as related research training and career development. The research portfolio is divided into several programs that support a wide variety of funding mechanisms to meet programmatic objectives.

TYPES OF ASSISTANCE:

Project Grants, Project Grants (including individual awards), Training

USES AND USE RESTRICTIONS:

Research and Research Training Grants provide funds for salaries, equipment, supplies, travel, tuition, career development activities and other expenses associated with research training and scientific investigation concerning global health issues. These grants are awarded to universities; colleges; medical, nursing and dental schools; hospitals; and other non-profit institutions. Awards include grants, cooperative agreements, international research training grants, and career development awards.

Applicant Eligibility:

Government - General; Federal; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Non-Government - General; Minority group; Specialized group (e.g. health professionals, students, veterans); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Other private institutions/organizations; State; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); In general, universities, colleges, hospitals, laboratories, Federal institutions and other public or private non-profit and for-profit domestic and foreign institutions, and State and local units of government are eligible to submit applications for research grants, research training grants, cooperative agreements, and career development

awards. The grantee institution must agree to administer the grant in accordance with prevailing regulations and policies. The eligibility requirements may differ amongst FIC programs, based on the eligibility section found in our Requests For Applications (RFAs) and Program Announcements (PAs) at:

<http://www.fic.nih.gov/Funding/Pages/default.aspx>

Beneficiary Eligibility:

Federal; Profit organization; Private nonprofit institution/organization; Quasi-public nonprofit organization; Other private institution/organization; Scientist/Researchers; Public nonprofit institution/organization; Other public institution/organization; Usually any non-profit or for-profit organization, company or institution engaged in health and biomedical research.

Credentials/Documentation:

Applications for research grants must present the objectives, methodology, and resources for the specific research project, and must demonstrate the applicant's competence and interest. For training grants, the applicant's academic record, research experience, and the proposed area and plan of training must be included in the application. The applicant institution must present the objectives, training program, and resources for the research-training program, the research qualifications and experience of directing staff in training students (the criteria to be used in selecting individuals for awards), a detailed budget, and justification for the amount of grant funds requested. Costs will be determined in accordance with 45 CFR 75 and 2 CFR 200. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Standard application forms, as required by 45 CFR, Part 75, must be used for this program. Detailed instructions for submitting applications to our programs are provided in our Requests For Applications (RFAs) and Program Announcements (PARs) at: <http://www.fic.nih.gov/Funding/Pages/default.aspx>

Award Procedure:

Applications are reviewed initially for scientific and technical merit by a review group that is assembled by the Center for Scientific Review at the National Institute of Health. This is followed by a second level review by the Fogarty International Center's Advisory Board. Decisions to fund are then made by FIC program officers and FIC Executive Leadership based on reviews by the original review group and the Advisory Board.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Grants: From six to nine months.

Appeals:

Other. A Principal Investigator (PI) may question the substantive or procedural aspects of the initial scientific review of his or her application by communicating with FIC staff.

Renewals:

Other. Non-competing renewal applications may be made for all multi-year awards. Applicants must submit their Research Performance Progress report (RPPR) approximately two months before the end of the last budget period. Competing renewal applications may be submitted only if allowed in the RFA or PAR.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Approval of a project includes determination of support for the authorized project period (not to exceed five years). Awards to support the project are usually made on an annual basis. At the time of initial award, the grant provides funds for the conduct of the project during the first budget period (usually 12 months) and the Notice of Award (Form PHS-1533) indicates the support recommended and

expected to be made available for the remainder of the project beyond the approved initial project period. Funds are disbursed via the Payment Management System Electronic Transfer System for domestic and foreign grantees. Loan Repayment Program Awards are for two years with the opportunity for renewal. Method of awarding/releasing assistance: other

Reports:

For most projects, Federal Financial Reports (FFR), Form SF425, must be filed 90 days after each competitive segment is completed. Reports must be provided to FIC staff in accordance with the CFR Title 42 Part 52 - Grants for Research Projects and the CFR Title 45 Part 75 - Uniform Administrative Requirements for grants and cooperative agreements. The grantee is responsible for annual progress reports. These reports are required for program analysis as part of all continuation applications. In addition, a final report must be filed within 120 days of the termination of the grant. The final report includes an account of progress made toward achievement of the originally stated aims; a list of the significant results; and a list of publications and inventions resulting from the projects. All grantees should use the Research Performance Progress Reporting (RPPR) forms to submit the annual progress report. For the final projects report and the final FFR at the end of the project period, the RPPR format is highly recommended, but the older 2590 form may be used for all grants and cooperative agreements. Performance is monitored annually by the NIH/Fogarty Center program staff.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FFR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FFR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FFR to NIH. See 45 CFR 75 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 75 for record retention and access requirements for contracts under grants. In accordance with 45 Code of Federal Regulations, Part 75, the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

Range and Average of Financial Assistance:

Fogarty International Center offered two new programs in 2020. The first was HIV-Associated Non-Communicable Diseases Research at Low- and Middle-Income Country (LMIC) Institutions, for research examining the intersection of HIV and non-communicable diseases. The second was an expansion of our program in Mobile Health: Technology and Outcomes in Low and Middle Income Countries (mHealth R21/R33), which supports exploratory and developmental research to study the development, validation, feasibility and effectiveness of

innovative mobile health interventions or tools specifically suited for LMICs. The current funding opportunity announcement provides support for up to two years (R21 phase) for technology development and feasibility studies, followed by a possible transition to expanded research support (R33 phase) for validation, larger-scale feasibility, and effectiveness studies. Transition to the R33 depends on the completion of applicant-defined milestones, as well as program priorities and the availability of funds. We continued to offer opportunities in our standing program announcements including Career Development Awards for US Scientists (International Research Scientist Development Award for US Scientists, IRSDA K01); Career Development Awards for Scientists from Low and Middle Income Countries (Emerging Global Leader Award for LMIC scientists, K43); Global Infectious Diseases Research Training, Research Training in Non-communicable Diseases Across the Lifespan; HIV Research Training Program; Bioethics Educational Development and Bioethics Research Training Programs; Ecology and Evolution of Infectious Diseases; Reducing Stigma to Improve HIV Prevention, Treatment, and Care in Low and Middle Income Countries (R21); and Brain Disorders across the Lifespan (R21 and R01). Information on all our programs is available on our website: www.fic.nih.gov. We continued to administer and lead a Bioinformatics training program through Human Health and Heredity in Africa (H3Africa), a trans-NIH program sponsored by the Common Fund in the office of the NIH Director. We also participated in Funding Opportunities led by other Institutes at NIH including HIV-Associated Malignancy Research Centers (HAMRCs) with NCI (<https://grants.nih.gov/grants/guide/rfa-files/RFA-CA-20-001.html>); Heart, Lung, and Blood Co-morbidity Implementation Models in People Living with HIV (HLB SIMPLE) with NHLBI (<https://grants.nih.gov/grants/guide/rfa-files/RFA-HL-20-025.html>); Minority Health and Health Disparities Research Training Program (MHRT; <https://www.nimhd.nih.gov/programs/extramural/domestic-international-research-training.html>); and Dissemination and Implementation Research in Health R03 (<https://grants.nih.gov/grants/guide/pa-files/PA-19-276.html>). We participated in several administrative supplement programs. These provide additional funding to awarded grants to add a component, and included opportunities to support investigators from under-represented minorities (Research Supplements to Promote Diversity in Health-Related Research: <https://grants.nih.gov/grants/guide/pa-files/pa-18-586.html>); to build capacity to address Sexual Harassment in LMIC institutions active in HIV/AIDS research with support from the Office of AIDS research; trans-NIH opportunities in the areas of Alzheimers Disease and Related Dementias with the National Institute on Aging, and Bioethics Research with the Office of Science Policy at NIH. Fiscal Year 2021 We continued to offer our ongoing programs mentioned above and described on our website. In addition, we made awards for Research Hubs (U54) and Data Science Training programs (U2R) in a new trans-NIH initiative supported by the NIH Directors Common Fund on Harnessing Data Science for Health Discovery and Innovation in Africa (see <https://www.fic.nih.gov/Programs/Pages/harnessing-data-science-for-health-discovery-innovation-africa.aspx>). We reissued the Funding Opportunity Announcement (FOA) for our Global Environmental and Occupational Health (GEOhealth) program, which supports linked awards for training and research in environmental and occupational health in LMICs, with new awards anticipated in FY22. We also reissued a FOA for our Trauma and Injury Training program for LMICs, with new grants to be awarded in FY21. We solicited and awarded supplements to our portfolio of active awards to include work related to covid-19, including supplements to look at the intersection of HIV/AIDS and covid-19 in partnership with the Office of AIDS Research, as well as supplements for training grants and K awardees impacted by covid-19, to ensure completion of training and fellowship activities. Finally, we partnered with NIDDK and NIEHS on an initiative entitled: Chronic Kidney Diseases of Uncertain Etiology (CKDu) in Agricultural Communities (CURE) Research Consortium - Field Site (U01) and co-funded new awards. Fiscal Year 2022: We will continue to offer the programs mentioned above. We have reissued the Global Fellows and Scholars program (Launching Future Leaders in Global Health (LAUNCH) Research Training Program (RFA-TW-21-004)), with anticipated awards in FY22. This program supports young investigators from the U.S. and LMICs representing a large diversity of biomedical and clinical fields for one-year research training at NIH sites in LMICs. As mentioned in FY21, we anticipate making new awards for our GEOhealth program in FY22. Information on all our programs is available on our website: www.fic.nih.gov.

Autism and Other Developmental Disabilities,

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Executive Order 317(k)(2), Title 42, Part 241(a), Section 301(a), 42 U.S.C 247b(k)(2), Title 42, Part 241(A), Section 301(a)

OBJECTIVES:

This funding supports State health agencies, universities, and public and private nonprofit organizations in planning, implementing, coordinating, or evaluating programs related to autism and other developmental disabilities and the improvement of infant and child health and developmental outcomes. Programs may include the following activities: conducting epidemiologic research or surveillance; providing a national, State or local platform in the area of autism and developmental disabilities prevention that focuses on improving early identification of children with autism and other developmental disabilities so children and families can get the services and support they need; enhancing existing research or surveillance programs to better address research questions, monitor changes in prevalence and contributing factors, and inform policy and program activities; employing epidemiological methods to set priorities, build capacity and direct health promotion interventions for persons with autism and other developmental disabilities; disseminating data and health information; employing strategies to reduce racial/ethnic disparities in the identification of autism and other developmental disabilities; and expanding public health training opportunities through fellowships to introduce geneticists, epidemiologists, and clinicians to public health practice through education, training and career-enhancing experiences.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funds may be used to strengthen, expand, build upon or enhance research, surveillance, health promotion, education, and prevention/intervention activities that contribute to the mission and activities of the Division of Human Development and Disability (DHDD). Funds may be used to improve and strengthen State and local public health infrastructure by providing technical assistance to other appropriate health agencies, organizations, special groups or coalitions. Funds may be used to support capacity building, program planning, development, implementation, evaluation, and surveillance for autism and other developmental disabilities, and infant and child health and developmental outcomes, including related health promotion, education and training, and prevention/intervention. Funds may also be used to coordinate the dissemination of prevention information to the general public, target populations, state and local agencies, and public and private sector organizations in the United States. Funds may not be used for direct curative or rehabilitative services.

Applicant Eligibility:

Credentials/Documentation:

Various records and forms required for first time applicants, as well as a copy of the applicant's last audit, may be requested. First time applicants must certify financial systems. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. See programs Notice of Funding Opportunity and application instructions for information on other application procedures.

Award Procedure:

See programs Notice of Funding Opportunity and application instructions for information on award procedures.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days. See program's Notice of Funding Opportunity.

Appeals:

From 60 to 90 days. AmeriCorps does not offer an appeals process.

Renewals:

From 60 to 90 days. See program's Notice of Funding Opportunity.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. See programs Notice of Funding Opportunity for matching information. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Assistance is usually awarded for project periods of three or more years; funding must be obligated during the award project period and liquidated by the end of the closeout period. Method of awarding/releasing assistance: lump sum.

Reports:

Cash management reports are required. AmeriCorps uses the US HHS Payment Management System for payments and cash management reporting. Progress reporting requirements are described in the awarded grant terms and conditions or provisions. AmeriCorps electronically collects Federal Financial Reports (FFRs) in the eGrants system. AmeriCorps and its award recipients are required to practice risk-based monitoring and routine field and desk-based oversight of all project/grant awards and expenditures.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. AmeriCorps grants are subject to audit by AmeriCorps employees, the AmeriCorps Inspector General, the Government Accountability Office, and auditors contracted by AmeriCorps.

Records:

Grant recipients must maintain all grant financial and program records for a period of three years from the date of submission of the final Federal Financial Report for the award. This includes but is not limited to all financial records including receipts, disbursements, and vouchers for federal and non-federal costs; time cards,

copies of all contracts, personnel records, and job descriptions; program execution and performance records, criminal history checks, and similar records to reflect all activities and spending performed under the award. Note that all individuals receiving a salary, living allowance, stipend, National Trust Education Award or similar compensation through a national service program funded by AmeriCorps must first clear a National Service Criminal History Check and those check records must be maintained within grant records.

AUTHORIZATION:

Domestic Volunteer Service Act of 1973, as amended, Title I, Part A, , Statue 87-394, Public Law 93-113, 42 USC Code 4951-49600.

OBJECTIVES:

AmeriCorps VISTA is the national service program of AmeriCorps designed specifically to fight poverty. VISTA supports efforts to alleviate poverty by engaging individuals, 18 years and older, from all walks of life, in a year of full-time service with a sponsoring organization (sponsor) to create or expand programs designed to bring individuals and communities out of poverty.

TYPES OF ASSISTANCE:

Provision of Specialized Services

USES AND USE RESTRICTIONS:

See program's Notice of Funding Opportunity and Annual Program Guidance at

ASSISTANCE LISTINGS DESCRIPTIONS

<https://americorps.gov/partner/funding-opportunities>. This is not a grant-based program.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); State; The proposed project must have a clear anti-poverty focus, include the involvement of the low-income community, and the activities must lead towards sustainability of the project. The activities of the VISTA members may not supplant staff or current volunteers. See program's Notice of Federal Funding for more information.

Beneficiary Eligibility:

Private nonprofit institution/organization; State; Local; Low Income; Public nonprofit institution/organization; Federally Recognized Indian Tribal Governments; VISTA activities must benefit low-income persons and communities by building the capacity of the sponsoring organization to find permanent solutions to poverty. VISTAs live and serve in some of our nations poorest areas. They receive a modest living allowance and other benefits during their service. After successfully completing a term of service, VISTAs and Summer Associates may receive a Segal AmeriCorps Education Award, which can be used to pay for college or student loans, or an end-of-service cash stipend. Sponsors may contribute to the cost of a VISTA through "cost share," but are under no obligation to do so.

Credentials/Documentation:

Various records and forms required for first time applicants, as well as a copy of the applicant's last audit, may be requested. First time applicants must certify financial systems. 94.016 Senior Companion Program

SCP,

FEDERAL AGENCY:

Corporation for National and Community Service, CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

AUTHORIZATION:

Domestic Volunteer Service Act of 1973, as amended, Title 2, Part C, Section 213, Public Law 93-113, 42 USC Code 5011.

OBJECTIVES:

The Senior Companion Program (SCP) provides grants to qualified agencies and organizations for the dual purpose of engaging persons 55 and older, particularly those with limited incomes, in volunteer service to meet critical community needs; and to provide a high quality experience that will enrich the lives of the volunteers. Program funds are used to support Senior Companions in providing supportive, individualized services to help adults with special needs maintain their dignity and independence.

TYPES OF ASSISTANCE:

Project Grants, Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

The grants may be used for: Senior Companion stipends, transportation, physical examinations, insurance, and meals; staff salaries and fringe benefits, staff travel, equipment, space costs, etc. Assignment of Senior Companions to adults may occur in residential and non-residential facilities and in their own homes. Volunteers do not supplant hiring or displace employed workers, or impair existing contracts for

service. No agency supervising volunteers shall request or receive compensation for services of the volunteers. Volunteers are not to be involved in and funds are not to be used for religious activities, labor or anti-labor organizations, lobbying, or partisan or non-partisan political activities. In addition, eligible agencies or organizations may, under a Notice of Grant Award from AmeriCorps, receive technical assistance and materials to aid in establishing and operating non-AmeriCorps funded SCP projects using state, local and private funds.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); See the program's Notice of Funding Availability/Opportunity.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Senior Companions must be: 55 years of age or older, with an income of up to 200 percent of poverty, based on the Department of Health and Human Services Poverty Guidelines; interested in serving special-needs adults, especially the frail elderly, and must be physically, mentally and emotionally capable, and willing to serve on a person-to-person basis. However, non-income eligible individuals may serve as non-stipended volunteers under certain conditions.

Credentials/Documentation:

Various record and forms required for first time applicants, as well as a copy of the applicant's last audit, may be requested. First time applicants must certify financial systems. 94.019 Social Innovation Fund

Social Innovation Fund (SIF),

FEDERAL AGENCY:

Corporation for National and Community Service, CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

AUTHORIZATION:

National and Community Service Act of 1990, as amended, , Public Law 101-610, 42 USC Code 12653k. Federal Grant and Cooperative Agreement Act, , 31 USC Code 6301-6308.

OBJECTIVES:

To grow the impact of innovative community-based solutions that have compelling evidence of improving the lives of people in low-income communities throughout the United States. Direct resources toward increasing the evidence-base-capacity and scale of the organizations SIF funds in order to improve the lives of people served by those organizations. AmeriCorps defines social innovation as the development of a potentially transformative practice or approach to meeting critical social needs. By investing in social innovation as a driver of results and accountability, the federal government will play a central role in accelerating the spread of promising solutions to address our most pressing national and local challenges. SIF awards are focused on improving measurable outcomes in the following priority areas: Economic Opportunity Increasing the economic opportunities and financial stability for economically disadvantaged individuals and families Youth Development Preparing Americas children and youth for success in school, active citizenship, productive work, and healthy and safe lives, including crime reduction initiatives focused on juvenile delinquency and victimization prevention and response Healthy Futures Improving health outcomes, promoting healthy lifestyles and decreasing health disparities that disproportionately affect low-income communities. SIF competitively selects experienced grant-making institutions (recipients) to do the critical work of identifying promising solutions to community problems and selecting high-performing nonprofit community organizations (subrecipients) on a competitive basis. To be awarded funding, intermediaries must demonstrate: they have advanced beyond the beginning stages, are showing signs of effectiveness and have the potential for greater scale (larger programmatic and scaling dollars are awarded to programs that show higher levels of evidence and have the potential for greater impact); also must have at least preliminary evidence of effectiveness and then undergo rigorous, independent, formal evaluations a track record of using rigorous evidence to select, invest in, and monitor the growth and progression of their grantees expertise and demonstrated impact in the proposed issue area(s) of focus depth and breadth of relationships with stakeholders in the issue area or region of focus. The SIF will also attract and leverage private donors to match federal dollars, bringing new resources to support promising organizations. The statute requires both the SIF intermediaries and their subgrantees to match their grants dollar-for-dollar, in cash, with non-federal funding.

TYPES OF ASSISTANCE:

Cooperative Agreements, Direct Payments for Specified Use (Cooperative

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2021: The Social Innovation Fund (SIF) grantmaking investment used public and private resources to find and grow community-based nonprofits with evidence of results. The SIF awarded backbone Intermediaries with five-year funding to build portfolios and pass through subgrants to smaller nonprofits that focused on overcoming challenges in economic opportunity, healthy futures, and youth development in underserved communities. SIF was no longer appropriated by Congress in 2016; There were a total of 6 cohorts from FY2010 through FY2016 with a total of 39 grantees. Total federal investment was \$317.8M and generated over \$650.1M in leveraged match for the Intermediary and community based subgrantee grantee organizations. A total of 126 intervention/model evaluation reports, additional national assessment including a rigorous impact evaluation as well as meta-analysis research and knowledge documents contribute to the evidence footprint and legacy of the grantmaking conducted. 94.020 CNCS Disaster Response Cooperative Agreement

AmeriCorps Disaster Response Team,

FEDERAL AGENCY:

Corporation for National and Community Service, CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

AUTHORIZATION:

National and Community Service Act of 1990, as amended., , Public Law 101-610, Robert T. Stafford Disaster Relief and Emergency Assistance Act (Stafford Act), , Public Law 100-707, 42 USC Code 5121-5208.

OBJECTIVES:

The AmeriCorps Disaster Response Cooperative Agreement (DRCA) is an initiative through which national service programs provide support to communities affected by disaster and are reimbursed for expenses in times of disasters. Programs that hold a DRCA are part of the AmeriCorps Disaster Response Team (A-DRT) Program, a national service disaster focused program. Only programs with an executed Disaster Response Cooperative Agreement will be eligible for deployment and reimbursement of expenses. Through the A-DRT Program, AmeriCorps establishes cooperative agreements with eligible organizations that can provide national service participants to support disaster response. Organizations that want to be part of the A-DRT Program must be AmeriCorps grantees and sub-grantees, to include AmeriCorps State, AmeriCorps Seniors, State Service Commissions, and AmeriCorps National Direct. Only programs with an executed Disaster Response Cooperative Agreement will be eligible for deployment and reimbursement of expenses.

TYPES OF ASSISTANCE:

Cooperative Agreements, Direct Payments for Specified Use (Cooperative Agreements)

USES AND USE RESTRICTIONS:

These agreements will allow reimbursement of approved disaster-related expenses for existing CNCS grantees deployed by CNCS to disaster impacted areas.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); State; See application instructions.

Beneficiary Eligibility:

U.S. Territories; Individual/Family; Private nonprofit institution/organization; Anyone/general public; State; Local; School; Public nonprofit institution/organization; Other public institution/organization; Federally Recognized Indian Tribal Governments; See application instructions.

Credentials/Documentation:

Various records and forms required for first time applicants and a copy of the applicant's last audit may be requested. Applicants will need proof of liability

coverage. First time applicants must certify financial systems. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. Eligible organizations include the following groups: AmeriCorps subgrantees: AmeriCorps State, Senior Corps programs (including youth corps, local volunteer and service programs, etc.) with the capacity to deploy and support national service participants to impacted areas to provide disaster service functions. State Service Commissions and AmeriCorps National Direct Grantees: These organizations administer, support, represent and/or coordinate networks of national service programs. AmeriCorps National Direct grantees will deploy AmeriCorps members currently assigned to their program to provide disaster service functions, while State Service Commissions can utilize their networks to engage other national service participants in disaster response activities.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Federal Acquisition Regulations (FAR) also apply to for-profit entities.

Award Procedure:

Awards are given as a reimbursement for approved, actual disaster related costs. If an organization is not deployed on a disaster, no award is given.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

From 60 to 90 days. Rolling application process.

Appeals:

Other. AmeriCorps does not offer an appeals process.

Renewals:

Other. Agreements are renewed every three years. Agreements are dependent on base grants. If the base grant is terminated, so is the agreement.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Reimbursement is provided per deployment for actual costs incurred. Method of awarding/releasing assistance: lump sum.

Reports:

Daily reporting on progress and accomplishments are required when programs are deployed on a disaster. A deployment reimbursement form must be completed and submitted to claim reimbursement. Performance monitoring is incorporated into base grant performance monitoring requirements.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. EXECUTIVE OFFICE OF THE PRESIDENT

95.001 High Intensity Drug Trafficking Areas Program

(HIDTA).

FEDERAL AGENCY:

EXECUTIVE OFFICE OF THE PRESIDENT

AUTHORIZATION:

Reauthorization of the Office of National Drug Control Policy, , Public Law 115-

271

OBJECTIVES:

To reduce drug trafficking and drug production in the United States by-- (A) facilitating cooperation among federal, state, local, and tribal law enforcement agencies to share information and implement coordinated enforcement activities; (B) enhancing law enforcement intelligence sharing among federal, state, local, and tribal law enforcement agencies; (C) providing reliable law enforcement intelligence to law enforcement agencies needed to design effective enforcement strategies and operations; and (D) supporting coordinated law enforcement strategies which maximize use of available resources to reduce the supply of illegal drugs in designated areas and in the United States as a whole.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

This program, established by the Anti-Drug Abuse Act of 1988, authorizes the Director of ONDCP to designate areas within the United States which exhibit serious drug trafficking problems and harmfully impact other areas of the country as High Intensity Drug Trafficking Areas. Grant funds are provided to law enforcement initiatives in areas that have been designated as a HIDTA. Initiatives must include collocated federal and state/local/tribal law enforcement officers. Initiatives must also share information with regional intelligence or information centers and deconflict their operations. The reauthorization statutes provide the restrictions for the HIDTA program. Discretionary funding availability is based upon appropriated amounts.

Applicant Eligibility:

Government - General; In order to apply for and receive funds, the law enforcement initiatives must be located and operate in an area designated as a HIDTA by the Director of ONDCP. The request for funding must be supported by the Executive Board of the regional HIDTA under which they will operate. Petitions may be submitted for consideration to become a new HIDTA or to become a part of an already existing HIDTA. In both cases the petition must be submitted by a coalition of law enforcement leaders. In the case of submitting to become a new HIDTA region, a funding request will be provided by the coalition of law enforcement officers. In the case where the petition is to become a part of an already established HIDTA, the funding request will be submitted to the Executive Board for their consideration/action. Applicants must agree to operate in accordance with HIDTA Program Policy and Budget Guidance and the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

Beneficiary Eligibility:

Federal; State; Local; Federally Recognized Indian Tribal Governments; Law enforcement drug task forces; drug-related law enforcement initiatives; drug-related intelligence or information centers located in designated HIDTAs.

Credentials/Documentation:

Operate in an area designated as HIDTA. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The Office of National Drug Control Policy administer and manage the HIDTA Program. Applicants must submit a proposal to the office on Standard Form 424, Federal Assistance Applications. Additional application procedures are included in HIDTA Program Policy and Budget Guidance. The receipt, review, and analysis of applications will follow ONDCP policies and procedures for the administration of grant applications.

Award Procedure:

Upon approval by ONDCP, a letter is sent to the applicant agency with copies of the Grant Award. The signed copy of the Grant Award must be signed by the authorized official and returned to the National HIDTA Assistance Center.

Deadlines:

June 15, 2021. June 15th annually.

95.005 Drug Court Training and Technical Assistance

FEDERAL AGENCY:

EXECUTIVE OFFICE OF THE PRESIDENT

AUTHORIZATION:

Reauthorization of the Office of National Drug Control Policy, Public Law 115-271,

OBJECTIVES:

The Administration supports a combined public health and public safety approach to reducing drug use and its consequences. The National Drug Control Strategy recognizes that for individuals who come into contact with the justice system, substance use disorders must be identified and treated as early in the justice process as possible, and incarceration cannot be the only (or even the primary) response to people with substance use disorders. Drug courts and other evidence-based diversion programs are key to the success of this approach. The Office of National Drug Control Policy (ONDCP) will award one or more federal grants to establish training, technical assistance, and other resources to advance criminal justice reforms, including drug courts that respond to the needs of justice-involved individuals with substance use disorders.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

ONDCP is seeking providers for the following issue areas: 1. Evidence-based Interventions and Systemic Implementation 2. Behavioral Management and Science of Addiction 3. Current and Emerging Issues Facing Drug Courts

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Organizations with expert knowledge of drug courts and extensive experience in brokering and developing training and technical assistance for drug court professionals are eligible. The trainings and technical assistance will require organizations with relevant subject matter expertise and extensive experience in developing and providing training and technical assistance for a variety of disciplines (e.g. judges, prosecutors, public defenders, defense counsel, probation and parole officers, law enforcement officers, law enforcement executives, court administrators, and treatment providers). Applicants can partner with other entities to achieve required expertise.

Beneficiary Eligibility:

Private nonprofit institution/organization; Public nonprofit institution/organization; Not applicable.

SOCIAL SECURITY ADMINISTRATION

96.001 Social Security Disability Insurance

Social Security Disability Insurance,

FEDERAL AGENCY:

SOCIAL SECURITY ADMINISTRATION

AUTHORIZATION:

Social Security Act of 1935, Title II, as amended; Public Laws 96-265; 97-123, and 97-35. 42 U.S.C. 401; 42 U.S.C. 402; 42 U.S.C. 416; 42 U.S.C. 420-425, , Public Law 96-265, II

OBJECTIVES:

To replace part of the earnings lost because of a physical or mental impairment, or a combination of impairments, severe enough to prevent a person from working.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use, Direct Payments with Unrestricted Use

USES AND USE RESTRICTIONS:

Monthly cash benefits are paid to entitled disabled persons and to entitled auxiliary

beneficiaries throughout the period of disability generally after a 5-month waiting period. Costs of vocational rehabilitation also are paid for certain beneficiaries.

There are no restrictions on the use of benefits received by beneficiaries, although the right to future benefits is not transferable or assignable. In general, State agencies make initial disability determinations for the Federal Government. The Federal Government gives the States funds, in advance or by way of reimbursement, for necessary costs in making disability determinations under 20 CFR 404.1503.

Applicant Eligibility:

Individual/Family; A disabled worker is entitled to Social Security disability benefits if he or she has worked for a sufficient period of time under Social Security to be insured, has not attained "full-benefit retirement age" (66 years old for workers age 62 in 2005), has filed an application, and is under a disability as defined in the Social Security law. The law defines disability as the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months. The insured status requirements depend upon the age of the applicant and the date he or she became disabled. Coverage credits under the social security systems of certain foreign countries with which the U.S. has reciprocal agreements may be taken into account to meet the requirements. Certain family members of disabled workers are also entitled to benefits: (1) Unmarried children under age 18, or under age 19 for full-time students in elementary or secondary school; (2) unmarried adult offspring at any age if continuously disabled since before age 22; (3) wife or husband at any age if child in his or her care is receiving benefits on worker's Social Security record and is under age 16 or disabled; (4) spouse age 62 or over; and (5) divorced wives or husbands age 62 or over who were married to the worker for at least 10 years. (Benefits are also payable to auxiliaries, including certain disabled widow(er)s, disabled surviving divorced spouses, children under age 19 who are full-time students in an elementary or secondary school, and disabled children of the worker, after the worker dies. See 96.004 "Social Security-Survivors' Insurance".) For workers who are first entitled after 1985 for both (a) a pension based on non-covered employment; and (b) Social Security disability (or retirement) benefits, a less generous benefit formula applies. In addition, Social Security disability benefits are reduced (offset) by the amount that the sum of all disability benefits payable under Social Security and certain Federal, State, or local public disability and workers' compensation laws or plans exceeds the higher of 80 percent of the worker's average current earnings or the total Social Security benefit that would otherwise be payable on the disabled worker's record. The Social Security benefit for a spouse of a disabled worker is subject to a pension offset if the spouse receives a governmental pension based on his or her own work in non-covered employment. However, the offset does not apply if: (i) the person received or became eligible to receive the pension before December 1, 1982, and can meet requirements for Social Security auxiliaries' benefit as they existed in January 1977; or (ii) if the person received, or was eligible to receive, the pension before July 1, 1983, and the person was dependent on his or her spouse for at least one-half support at the time the spouse died, became disabled or became entitled to Social Security benefits. The amount of the public pension used for purposes of the offset against Social Security spouse's benefits is equal to two-thirds of the public pension. The Social Security benefit for the spouse of a disabled worker is also offset dollar for dollar by the amount of any Social Security benefit the spouse receives based on his or her own work. All benefits to spouses and children of disabled workers are subject to an earnings test unless those beneficiaries are full-benefit retirement age or older. Beginning with the year 2000, the retirement earnings test was eliminated beginning with the month in which the beneficiary reaches full-benefit retirement age (FRA). A person at and above FRA will not have Social Security benefits reduced because of earnings. In the calendar year in which a beneficiary reaches FRA, benefits are reduced \$1 for every \$3 of earnings above the limit allowed by law, \$31,800 in 2005, but this reduction is applied only to months prior to attainment of FRA. For years before the year the beneficiary attains FRA, the reduction in benefits is \$1 for every \$2 of earnings over the annual exempt amount. Further, no benefit can be paid to an alien in the United States unless he or she is lawfully present in the United States. In addition, an alien cannot qualify for benefits if he or she never had a work-authorized Social Security Number (SSN) (effective for benefit applications based on SSNs issued after 2003).

Beneficiary Eligibility:

ASSISTANCE LISTINGS DESCRIPTIONS

Individual/Family; Student/Trainee; Women; Disabled (e.g. Deaf, Blind, Physically Disabled); Physically Afflicted (e.g. TB, Arthritis, Heart Disease); Infant (0-5); Child (6-15); Youth (16-21); Senior Citizen (60+); Qualified disabled workers under full retirement age (FRA). Under the definition of disability in the Social Security Law, disability benefits are provided to a person who is unable to engage in any substantial gainful activity by reason of a medically determinable physical or mental impairment that has lasted or is expected to last at least 12 months, or to result in death. Disabled widow(er)s' benefits are covered under survivors insurance. Felony-related impairments and confinement-related impairments cannot be considered in determining whether an individual is under a disability if the individual has been convicted of a felony which was committed after October 19, 1980. Effective for claims finally adjudicated on or after March 29, 1996, (or for claims approved before then, with benefits payable beginning January 1, 1997) eligibility can no longer be based on drug addiction or alcoholism.

Credentials/Documentation:

Range and Average of Financial Assistance:

Monthly cash benefits for a worker disabled in 2005 range up to a maximum of \$2,099 based on the level of the worker's earnings and the age at which a worker becomes disabled. The corresponding maximum for such a worker with a family is \$3,148.60 As of December 31, 2004, the average benefit paid to a disabled worker alone was \$880 and the average amount payable to a disabled worker with eligible dependents was \$1,496. This takes into account stipulations set forth in Public Law 96-265 and Public Law 97-35. Under Public Law 97-123, the minimum amount is no longer applicable for workers who either become disabled or first met the insured status requirements after December 1981, and a lesser amount can be paid, depending on the worker's average earnings.

credits under the social security systems of certain foreign countries with which the U.S. has reciprocal agreements may be taken into account to meet the requirements. If an eligible worker age 62 or over receives benefits before full-benefit retirement age (FRA)(age 66 for workers age 62 in 2005), the individual's retirement benefit will be permanently reduced. Also, certain family members can receive benefits including: (1) A wife or husband age 62 or over; (2) a spouse at any age, if a child who is under age 16 or is disabled is in his or her care and is entitled to benefits based on the worker's record; (3) unmarried children under age 18 (or under age 19 for students in elementary or secondary school); (4) unmarried adult offspring at any age if disabled before age 22; and (5) divorced wives or husbands age 62 or over who were married to the worker for at least 10 years. Beginning January 1985, spouses ages 62 or over who have been divorced for at least 2 years (and married to the worker for at least 10 years) may become entitled to benefits regardless of whether the former spouse who is at least age 62 and fully insured has applied for benefits. Effective January 1991, the 2-year waiting period for payment of divorced spouse's benefits without regard to the former spouse's earnings was waived if the former spouse was entitled to benefits prior to the divorce. All benefits, other than benefits to disabled beneficiaries, and beneficiaries FRA and older, are subject to an earnings test. Beginning with the year 2000, the retirement earnings test was eliminated beginning with the month in which the beneficiary reaches FRA. A person at and above FRA will not have Social Security benefits reduced because of earnings. In the calendar year in which a beneficiary reaches FRA, benefits are reduced \$1 for every \$3 of earnings above the limit allowed by law, \$31,800 in 2005, but this reduction is applied only to months prior to attainment of FRA. For years before the year the beneficiary attains FRA, the reduction in benefits is \$1 for every \$2 of earnings over the annual exempt amount, \$16,920 in 2017. For workers who are first eligible after 1985 for both (a) a pension based on non-covered employment; and (b) Social Security retirement (or disability) benefits, a different benefit formula applies which provides somewhat lower benefits. The Social Security benefit for a spouse of a retired worker is subject to a pension offset if the spouse receives a governmental pension based on his or her own work in non-covered employment. However, the offset does not apply if: (i) the person has received or became eligible to receive the pension before December 1, 1982, and met eligibility requirements for Social Security auxiliaries' benefits as they existed in January 1977; or (ii) if the person receives, or is eligible to receive, the pension before July 1, 1983, and the person was dependent on his or her spouse for at least one-half support at the time the spouse died, became disabled or became entitled to Social Security benefits. The amount of the public pension used for purposes of the offset against Social Security spouse's benefits is equal to two-thirds of the public pension. The benefit for the spouse of a retired worker is also offset dollar for dollar by the amount of any Social Security benefit the spouse receives based on his or her own work. Effective for those who have reached age 62 since August 1981, a retired worker or spouse can receive benefits only for months in which he or she has attained at least age 62 for the entire month. No benefit can be paid to an alien in the United States unless he or she is lawfully present in the United States. In addition, an alien cannot qualify for benefits if he or she never had a work-authorized Social Security Number (SSN) effective for benefit applications based on SSNs issued after 2003.

Beneficiary Eligibility:

Individual/Family; Women; Infant (0-5); Child (6-15); Youth (16-21); Senior Citizen (60+); Pension Recipient; Benefits are paid to retired workers age 62 and over who have worked the required number of years under Social Security, and to certain family members.

Credentials/Documentation:

Proof of age is required. If applying for benefits for auxiliaries, additional proofs of age, dependency, and relationship to the retired worker may be required. To receive benefits, auxiliaries must have a SSN. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

FEDERAL AGENCY:

SOCIAL SECURITY ADMINISTRATION

AUTHORIZATION:

Executive Order as amended, Title II, , Social Security Act of 1935, Title II, , 42 USC Code 401-433.

OBJECTIVES:

To replace part of the earnings lost to dependents because of the worker's death.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use, Direct Payments with Unrestricted Use

USES AND USE RESTRICTIONS:

Monthly cash benefits are paid to eligible family members of deceased workers. There are no restrictions on the use of benefits, although the right to future benefits is not transferable or assignable. The Federal government gives the States funds, in advance or by way of reimbursement, for necessary costs in making disability determinations under 20 CFR part 404 subparts P and Q. Necessary costs are direct as well as indirect costs as defined in 41 CFR Part 1-15, Subpart 1-15.7 of the Federal Procurement Regulations System for costs incurred before April 1, 1984; and 48 CFR 31, Subpart 31.6 of the Federal Acquisition Regulations System and Federal Management Circular A-74-4 as amended or superseded for costs incurred after March 31, 1984.

Applicant Eligibility:

Individual/Family; Benefits are payable only if the deceased was insured for survivors insurance protection. Coverage credits under the social security systems of certain foreign countries with which the U.S. has reciprocal agreements may be taken into account to meet the requirements. Survivors eligible for monthly cash benefits are the following: widows or widowers age 60 or over; surviving divorced spouses age 60 or over (married to the deceased worker for at least 10 years); disabled widows, widowers or surviving divorced spouses ages 50- 59; widows, widowers, or surviving divorced spouses at any age who have in their care a child under age 16 or disabled and entitled to benefits on the deceased worker's Social Security record; unmarried children under age 18, under age 19 and a full time student in elementary or secondary school; or age 18 or older and under a disability which began before age 22; and dependent parents age 62 and over. All survivors benefits, other than for beneficiaries at full retirement age (FRA) or older, are subject to an earnings test. Beginning with the year 2000, the retirement earnings test was eliminated beginning with the month in which the beneficiary reaches FRA. A person at and above FRA will not have Social Security benefits reduced because of earnings. In the calendar year in which a beneficiary reaches FRA, benefits are reduced \$1 for every \$3 of earnings above the limit allowed by law, \$44,880 in 2017, but this reduction is applied only to months prior to attainment of FRA. For years before the year the beneficiary attains FRA, the reduction in benefits is \$1 for every \$2 of earnings over the annual exempt amount, \$16,920 in 2017 . Except for benefits to children and dependent parents, all survivors benefits are subject to a pension offset if the person is also receiving a governmental pension based on his or her own work in non-covered employment. However, the offset does not apply: (1) If the person receives, or is eligible to receive, the pension before December 1, 1982, and can meet the requirements for the Social Security auxiliary's benefit as they existed in January 1977; or (2) if the person receives, or is eligible to receive, the pension before July 1, 1983, and the person was dependent on his or her spouse for at least one-half support at the time the spouse died, became disabled or became entitled to Social Security benefits; or (3) if the last 60 months of a persons government service before retirement was covered by both Social Security and the pension plan that provides the government pension. The amount of the public pension used for purposes of the offset against

Social Security survivor's benefits is equal to two-thirds of the public pension. Benefits for widows/widowers and surviving divorced spouses are also offset dollar for dollar by any Social Security benefit the surviving spouse receives based on his or her own work. Under certain conditions, a lump-sum death payment of \$255 is payable to the widow or children of the deceased worker. Further, no benefit can be paid to an alien in the United States unless he is lawfully present in the United States. Also, an alien cannot qualify for benefits if he or she never had a work-authorized Social Security Number (SSN) (effective for benefit applications based on SSNs issued after 2003).

Beneficiary Eligibility:

Student/Trainee; Women; Infant (0-5); Child (6-15); Youth (16-21); Senior Citizen (60+); Widows, widowers, and surviving divorced spouses age 60 or over are entitled as long as the worker met the insurance requirements. Widows, widowers, and surviving divorced spouses also qualify at any age if they have entitled children of the worker under age 16 or disabled children in their care; unmarried children: under age 18, under age 19 and a full-time student in elementary or secondary school or age 18 or older and under a disability which began before age 22; and dependent parents age 62 and over. To claim benefits as disabled widows, widowers, or surviving divorced spouses, individuals ages 50-59 must show that they have a disability that started no later than 7 years after the insured died or 7 years after certain other events. "Disability" currently has the same meaning for these entitlements as it does for workers who claim disability insurance (see 96.001). As in worker disability claims, there is also a 5-month waiting period after the disability began before benefits begin and entitlement to Medicare after 24 months of entitlement to benefits. Children of the worker claiming benefits because of disability are also subject to the definition of disability used for workers and must show that they have been disabled since before they reached age 22. There is no waiting period for these benefits.

FEDERAL AGENCY:

SOCIAL SECURITY ADMINISTRATION

AUTHORIZATION:

Social Security Act of 1935, Title XVI, as amended; 42 U.S.C. 1381-1383f., Title XVI, , 42 USC Code 1381-1383f.

OBJECTIVES:

To ensure a minimum level of income to persons who have attained age 65 or are blind or disabled, and whose income and resources are below specified levels.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use, Direct Payments with Unrestricted Use

USES AND USE RESTRICTIONS:

Supplemental Security Income (SSI) payments are made to persons who have attained age 65 or who are blind or disabled and meet the means-tested and other requirements of the program. Generally, there are no restrictions on the use of benefits received by beneficiaries, although the right to future benefits is not transferable or assignable. The Federal government gives the States funds, in

advance or by way of reimbursement, for necessary costs in making disability determinations under 20 CFR 404 subparts P and Q and part 416 subparts I and J. Necessary costs are direct as well as indirect costs as defined in 41 CFR 1-15, subpart 1-15.7 of the Federal Procurement Regulations System for costs incurred before April 1, 1984; and 48 CFR 31, Subpart 31.6 of the Federal Acquisition Regulations System and Federal Management Circular No. A-74-4 as amended or superseded for costs incurred after March 31, 1984.

Applicant Eligibility:

Individual/Family; To be found disabled for SSI purposes: an individual age 18 or older must be unable to perform any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of at least 12 months; an individual under age 18 must have a medically determinable physical or mental impairment or combination of impairments that causes marked and severe functional limitations, and that can be expected to cause death or that has lasted or can be expected to last for a continuous period of at least 12 months. An individual under age 18 who files a new application for benefits and is engaging in substantial gainful activity will not be considered disabled. To be found blind for SSI purposes, an individual of any age must be "statutorily blind." This means central visual acuity of 20/200 or less in the better eye with use of a correcting lens. The eligibility of an individual who has attained age 65 or who is blind or disabled is determined on the basis of an assessment of the individual's monthly income and resources, citizenship or alien status, U.S. residency, and certain other eligibility requirements. In determining a month's income, the first \$20 of Social Security or other unearned income is not counted. An additional \$65 of earned income (\$85 if the person had no unearned income) received in a month plus one-half of the remainder above \$65 (or \$85) also is not counted. If, after these (and other) exclusions, an individual's countable income, effective January 2018, is less than \$750 per month (\$1,125 for a couple, both of whom are aged, blind or disabled) and countable resources are less than \$2,000 (\$3,000 for a couple), the individual may be eligible for payments. The values of household goods, personal effects, an automobile, life insurance, and property needed for self support are, if within limits set out in regulations, excluded in determining value of resources. Burial spaces for an individual and immediate family and burial funds, up to \$1,500 each for an individual and spouse, are excluded from resources. The value of a home which serves as the principal place of residence is also excluded in resource valuation.

Beneficiary Eligibility:

Individual/Family; Disabled (e.g. Deaf, Blind, Physically Disabled); Physically Afflicted (e.g. TB, Arthritis, Heart Disease); Senior Citizen (60+); Low Income; Individuals who have attained age 65 or are blind or disabled, who continue to meet the income and resources tests, citizenship/qualified alien status, U.S. residence, and certain other requirements. Eligibility may continue for beneficiaries who engage in substantial gainful activity despite disabling physical or mental impairments.

Credentials/Documentation:

Proof of age, marital status, income and resources, establishment of blindness or disability, proof of residence in the U.S. and citizenship, or alien status is required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

96.008 Social Security - Work Incentives Planning and Assistance Program

(SSA Work Incentives Planning and Assistance (WIPA) Program) or Work Incentives Outreach Program,

FEDERAL AGENCY:

ASSISTANCE LISTINGS DESCRIPTIONS

SOCIAL SECURITY ADMINISTRATION

AUTHORIZATION:

Social Security Act, Title 1, Section 1149, Statute 1860-1887-1891, Public Law 106-170

OBJECTIVES:

To comply with the Ticket-to-Work and Work Incentives Improvement Act (TWWIA) which was passed in December 1999, and reauthorized by the Social Security Protection Act of 2004, which requires the SSA to establish a community-based work incentives planning and assistance program. The purpose of the program is to support beneficiaries who want to return to work to make a successful and profitable transition to the workforce. Beneficiaries that continue to work improve their economic independence and financial security. WIPA projects help beneficiaries take advantage of our work incentives programs, which may delay or reduce the effect of work on monetary benefits and health insurance. Additionally, WIPA projects act as repositories for information about other work incentives, benefits counseling services, and other resources that may help beneficiaries succeed in their work attempts, or may assist beneficiaries to improve financial stability as they return to work.

TYPES OF ASSISTANCE:

Project Grants, Salaries and Expenses

USES AND USE RESTRICTIONS:

Cooperative agreements are awarded to organizations to: (1) Provide statewide work incentives planning and assistance, including information on the availability of protection and advocacy services, to all Social Security Disability Insurance (SSDI) and Supplemental Security Income (SSI) beneficiaries with disabilities, and to conduct ongoing outreach to those beneficiaries with disabilities and to their families that are potentially eligible to participate in State or Federal work incentives programs. (2) Disseminate accurate information to beneficiaries with disabilities (including transition-to-work aged youth) about work incentives programs and issues related to such programs, to enable them to make informed choices about working and whether or when to assign their Ticket to Work, as well as how available work incentives can facilitate their transition into the workforce. Cooperative agreement funds may not be used for construction or major renovation of buildings.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Applicants applying for cooperative agreement funds may include State or local governments (excluding any State administering the State Medicaid program), public or private organizations, or nonprofit or for-profit organizations (for-profit organizations may apply with the understanding that no cooperative agreement funds may be paid as profit to any awardee), as well as Native American tribal organizations that the Commissioner determines is qualified to provide work incentives planning and assistance to all SSDI and SSI beneficiaries with disabilities, within the targeted geographic area. These may include Centers for Independent Living established under Title VII of the Rehabilitation Act of 1973, protection and advocacy organizations, Native American tribal entities, client assistance programs established in accordance with Section 112 of the Rehabilitation Act of 1973, State Developmental Disabilities Councils established in accordance with Section 124 of the Developmental Disabilities Assistance and Bill of Rights Act, and State agencies administering the State program funded under Part A of Title IV of the Act. The Commissioner may also award a cooperative agreement to a State or local Workforce Investment Board, a Department of Labor (DOL) One-Stop Career Center System established under the Workforce Improvement Act of 1998, or a State Vocational Rehabilitation agency. Cooperative agreements may not be awarded to any individual, the Social Security Administration Field Offices, any State agency administering the State Medicaid program under Title XIX of the Act, any entity that the Commissioner determines would have a conflict of interest if the entity were to receive a cooperative agreement under the Work Incentives Planning and Assistance (WIPA) Program or any organization described in Section 501(c)(4) of the Internal Revenue Code of 1968 that engages in lobbying (in accordance with Section 18 of the Lobbying Disclosure Act of 1995, 2 U.S.C. 1611).

Beneficiary Eligibility:

Profit organization; Private nonprofit institution/organization; State; Local; Public nonprofit institution/organization; WIPA projects serve beneficiaries who are age 14 and older, and receive any of the following benefits based on their own disabilities: Social Security Disability Insurance Benefits; Childhood Disability Benefits; Disabled Widow(er)s Benefits; SSI based on blindness or disability; Medicare under the Extended Period of Medicare Coverage (for former disability beneficiaries performing substantial work); Medicaid under Section 1619(b) of the Social Security Act (for SSI beneficiaries ineligible for payment due to work income); A State supplementary SSI payment (even if the beneficiary is not due a Federal SSI payment); or Medicare coverage based on disability and Medicare qualified government employment.

Credentials/Documentation:

Costs and administrative requirements for grantees will be determined in accordance with 2 CFR 200. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The standard application forms furnished by SSA must be used for this program. When cooperative agreement opportunities are available, SSA publishes a notice in the Federal Register soliciting cooperative agreement applications. Application packages will be provided at www.grants.gov. If extenuating circumstances prevent you from submitting an application through www.grants.gov please contact the Grants Management Team at Office of Acquisition and Grants (OAG), Social Security Administration, Attention: Dionne Mitchell, 1540 Robert. M. Ball Building, 6401 Security Boulevard, Baltimore Maryland 21235. To be considered for a cooperative agreement award, all applicants must complete the prescribed application forms, through www.grants.gov unless the applicant has received prior approval from OAG to submit a paper application to the Grants Management Team. The application shall be executed by an individual authorized to act for the applicant agency or organization who will assume the obligations imposed by the terms and conditions of the cooperative agreement. At least three independent reviewers prepare written assessments of each program relevant cooperative agreement application. Applications found irrelevant or unresponsive to program objectives are returned to the applicants.

Award Procedure:

OAG provides a Notice of Cooperative Agreement Award as official notice for approved applications. The notice indicates award amount, the purpose of the award, award terms and conditions, the budget period, the anticipated project period, and the awardee's cost sharing requirement.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Generally, 3 to 6 months after the closing date established in the Federal Register announcement.

Appeals:

Other. There are no formal appeal procedures. If an application is not approved, the reasons will be stipulated in the denial notice.

Renewals:

Other. Cooperative agreements can be continued via formal continuation application, which is subject to approval. If an application is recommended for approval for 2 or more budget periods, the awardee must submit a formal request for funding continuation each year. Continuation applications are evaluated prior to a recommendation of additional funding.

Formula and Matching Requirements:

Statutory Formula: Title 1, Chapter Ticket to Work Incentives Improvement Act of 1999, Part C, Subpart Sec. 1149, [42 U.S.C. 1320b20], Public Law 106-170. Matching Requirements: Percent: 5%. Requirement: Matching requirements are mandatory. Awardees of SSA cooperative agreements are required to contribute a non-Federal match of at least 5 percent toward the total cost of each project. The total cost of the project is the sum of the Federal Award (up to 95

97.005 State and Local Homeland Security National Training Program

Homeland Security National Training Program National Domestic Preparedness Consortium (NDPC) and Continuing Training Grants (CTG),

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Section 1204 of the Implementing Recommendations of the 9/11 Commission Act of 2007, , Public Law 110-53, 6 USC Code 1102.

OBJECTIVES:

Continuing Training Grants: Through its Continuing Training Grants (CTG) program, the Department of Homeland Security Fiscal Year (FY) 2021 Homeland Security National Training Program (HSNTP) plays an important role in the National Preparedness System. The CTG program supports building, sustaining, and delivering core capabilities through the development and delivery of training to achieve the National Preparedness Goal (the Goal), which is a secure and resilient Nation with the capabilities required across the whole community to prevent, protect against, mitigate, respond to, and recover from the threats and hazards that pose the greatest risk. Specifically, the CTG program provides funding for eligible applicants to support and target training solutions for state, local, tribal, and territorial (SLTT) partners, which supports the objective of the National Preparedness System to facilitate an integrated, whole community, risk-informed, capabilities-based approach to preparedness. The FY 2021 CTG programs purpose is to address specific threats and gaps through the development and delivery of learning solutions and facilitate a national whole community approach to focus on the challenges with the greatest impact on the Nations preparedness. FEMA, through CTG recipients, will concentrate on developing training to address national priorities while considering the challenges presented by a pandemic environment. Continuing Training Grants National Cybersecurity Preparedness Consortium: The Department of Homeland Security Fiscal Year (FY) 2021 Homeland Security National Training Program (HSNTP), Continuing Training Grants (CTG), National Cybersecurity Preparedness Consortium (NCPC) provides funding to the eligible applicant to develop and deliver cybersecurity training solutions to address national preparedness gaps, map training to the core capabilities, and ensure training is available and accessible to a nationwide audience. The NCPC addresses the below Presidential Policy Directives through training of State, Local, Tribal and Territorial (SLTT) first responders. Presidential Policy Directive 8: National Preparedness Presidential Policy Directive 21: Critical Infrastructure Security and Resilience The NCPC plays an important role in the National Training and Education System (NTES), which is part of the larger National Preparedness System (the System). The System is designed to build, sustain, and deliver the core capabilities and achieve the desired outcomes identified in the National Preparedness Goal (the Goal). The Goal is a secure and resilient nation with the capabilities required across the whole community to prevent, protect against, mitigate, respond to, and recover from the threats and hazards that pose the greatest risk. TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants

USES AND USE RESTRICTIONS:

Civil Defense/Disaster Prevention and Relief/Emergency Preparedness Provides funding through cooperative agreements to the National Domestic Preparedness Consortium, and Continuing Training Grants program for the purpose of the development and delivery of all-hazards training for Federal, State, local, and tribal emergency responders. Refer to the NDPC and CTG NOFOs for specific information on eligibility. These funds must be used to develop and deliver all hazards training to State, local, tribal, and territorial whole communities. Other special conditions will apply to the recipients of the award. NDPC: These funds must be used to develop and deliver all hazards training to State, local, tribal, and territorial whole communities. Other special conditions will apply to the recipients of the award. A portion of these funds will be awarded in specific focus areas identified in the NOFO. Grant funds must be used in accordance with 2 C.F.R. Part 200.

Applicant Eligibility:

Government - General; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; The HSNTP/NDPC is a closed solicitation, available only to eligible organizations. Non-Federal members that make up the National Domestic Preparedness Consortium (NDPC) which consist of the following institutions: Louisiana State University, Texas A&M, New Mexico Institute of Mining and Technology, and the University of Hawaii. The Continuing Training Grants (CTG) program is an open competition to develop and

deliver training in selected focus areas. Through the CTG, FEMA identifies important focus areas for applicants to use in the development of their application. Applicants may submit only one application per focus area. Applications will undergo a review to determine whether all required guidelines are followed and selection criteria are met. The full application review process will conclude with a rigorous, competitive review process used to select programs for recommendation for award. NDPC To receive funding under this program, recipients must be members of the NDPC as defined by 6 U.S.C. 1102PC

Beneficiary Eligibility:

State; Local; Public nonprofit institution/organization; Federally Recognized Indian Tribal Governments; State and Local units of government, public nonprofits, and Federally recognized tribal entities.

Credentials/Documentation:

Training Expertise. Applicants must currently administer an existing training program, consistent with the National Incident Management System (NIMS), relevant to the selected Training Topic(s), or have demonstrable expertise to create and administer a training program capable of developing and delivering training for a national whole community audience, relevant to the selected Training Topic(s). For the purposes of the CTG program, the minimum standard for training expertise is defined as the principal activities that an organization conducts which are primarily focused on the development and delivery of training for an external audience, but may include an internal audience, resulting in a change or increase of knowledge, skills, and/or abilities. Training types/modes that meet this definition include web-based training, instructor-led courses conducted in classrooms and/or training areas (to include mobile courses), and seminars and workshops that measure a change in knowledge, skill, and/or abilities. Drill and exercise-only type activities, without a learning component, do not meet the definition of training expertise for the CTG program. Organizations that do not describe suitable expertise in training are ineligible. Organizational Partnerships. Eligible applicants may apply individually or as the submitting member (e.g., executive agent) of a partnership such as a consortium. However, only one organization may serve as the applicant. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 C.F.R. 200.503. The audit must be performed in accordance with the requirements of Government and Accountability Offices (GAO) Government Auditing Standards, located at: <http://www.gao.gov/govaud/ybk01.htm>, and the requirements of Subpart F of 2 C.F.R. Part 200, located at: <https://www.gpo.gov/fdsys/browse/collectionCfr.action?collectionCode=CFR>.

Records:

Financial records, supporting documents, statistical records, and all other non-federal entity records pertinent to a federal award generally must be maintained for at least three years from the date the final Federal Financial Report (FFR) is submitted. See 2 C.F.R. 200.334. Further, if the recipient does not submit a final FFR and the award is administratively closed, FEMA uses the date of administrative closeout as the start of the general record retention period. The record retention period may be longer than three years or have a different start date in certain cases. These include: Records for real property and equipment acquired with federal funds must be retained for three years after final disposition of the property. See 2 C.F.R. 200.334(c). If any litigation, claim, or audit is started before the expiration of the three-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken. See 2 C.F.R. 200.334(a). The record retention period will be extended if the recipient is notified in writing of the extension by FEMA, the cognizant or oversight agency for audit, or the cognizant agency for indirect costs. See 2 C.F.R. 200.334(b). Where FEMA requires recipients to report program income after the period of performance ends, the program income record retention period begins at the end of the recipients fiscal year in which program income is earned. See 2 C.F.R. 200.334(e). For indirect cost rate proposals, cost allocation plans, or other rate computations records, the start of the record retention period

depends on whether the indirect cost rate documents were submitted for negotiation. If the indirect cost rate documents were submitted for negotiation, the record retention period begins from the date those documents were submitted for negotiation. If indirect cost rate documents were not submitted for negotiation, the record retention period begins at the end of the recipients fiscal year or other accounting period covered by that indirect cost rate. Each recipient will conduct these specific activities to support either State Emergency Management Directors, Homeland Security Advisors to further build SLTT capabilities. An additional key purpose for the HSPTAP is that the program also furthers the building of a national system of emergency management capabilities that can effectively and efficiently utilize the full measure of the Nation's resources to respond to catastrophic incidents, including natural disasters, acts of terrorism, and other man-made emergencies or events. HSPTAP recipients will conduct activities that bring together the collective perspectives of state and local elected officials and the private sector to provide a broad-based sounding board on homeland security issues for all national stakeholders. The program will serve to establish, provide, and maintain a forum for organizations to exchange ideas, conduct targeted discussions, as well as to provide technical assistance to governors offices, associations and organizations on all relevant homeland security policy areas. Finally, HSPTAP will engage the recipient organizations which can work closely with FEMA to develop, transfer, and institutionalize pertinent knowledge at the State and local level for addressing current public policy challenges facing State EM Directors, HSAs and other state and local emergency management officials. HSPTAP recipients, through collaboration with FEMA and other national, regional, state and local entities, will facilitate focused and enhanced communication and coordination among all disciplines and levels of government to address the complex challenges of developing and implementing homeland security policies and practices including: intelligence sharing; State homeland security organization, structure and governance; communications interoperability; critical infrastructure protection; and all hazards disaster prevention, protection, mitigation, preparedness, response and recovery to include areas of emergency management, homeland security, fire, law enforcement, Emergency Management Services (EMS), agriculture, National Guard, emergency communications, and public works. In sum, in addition to building state and local capabilities, the activities conducted under the HSPTAP are structured to address the full spectrum of mission areas, national priorities, and core capabilities outlined in the National Preparedness System and are critical to achieving the National Preparedness Goal.

Fiscal Year 2020: Hosted a panel discussion on resilience during National Governors Associations (NGA) biannual gathering of Governors. Featured three HSAs alongside private sector partners to discuss the innovative ways governors can make smart investments in critical infrastructure, land development, and local economies to advance preparedness. Highlighted how states and private partners could work together to identify and utilize private equity, tailored financing, and federal pre-disaster mitigation funding. As well as partnership to support emergency management goals.

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Department of Homeland Security Appropriations Act, 2021 USC Code (Pub. L. No. 116-260) and Sections 2003 and 2004.

OBJECTIVES:

The FY 2021 Nonprofit Security Program (NSGP) provides funding support for physical security enhancements and other security-related activities to nonprofit organizations that are at high risk of a terrorist attack. The FY 2021 NSGP seeks to integrate the preparedness activities of nonprofit organizations with broader state and local preparedness efforts. There are two funding sources appropriated for nonprofit organizations: 1) Nonprofit Security Grant Program - Urban Area (NSGP-UA): NSGP-UA funds nonprofit organizations located within Urban Area Security Initiative (UASI)-designated urban areas. 2) Nonprofit Security Grant Program - State (NSGP-S): Under NSGP-S, each state will receive a target allocation for nonprofit organizations located outside of UASI-designated urban areas.

TYPES OF ASSISTANCE:

Formula Grants, Project Grants

USES AND USE RESTRICTIONS:

Grant funds must be used in accordance with 2 C.F.R. Part 200. Grant funds may not be used for matching funds for other Federal grants or cooperative agreements, lobbying, or intervention in Federal regulatory or adjudicatory proceedings. In addition, Federal funds may not be used to sue the Federal Government or any other government entity. Pre-award costs are allowable only with the prior written approval of DHS/FEMA and if they are included in the award agreement. To request pre-award costs a written request must be included with the application, signed by the Authorized Organizational Representative of the entity. The letter

must outline what the pre-award costs are for, including a detailed budget break-out of pre-award costs from the post-award costs, and a justification for approval.

Applicant Eligibility:

Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals) The SAA is the only entity eligible to apply for FY 2021 NSGP funds on behalf of eligible nonprofit organizations.

Nonprofit organizations must apply for FY 2021 NSGP through their SAA. A list of SAA points of contact is available at: <http://www.fema.gov/media-library/assets/documents/28689?id=6363>. SAAs, in coordination with the Urban Area Working Groups (UAWG) or other relevant state partners, are encouraged to notify and actively inform eligible nonprofit organizations of the availability of FY 2021 NSGP funding. Eligible nonprofit organizations are those organizations that are: 1. Described under section 501(c)(3) of the Internal Revenue Code of 1986 (IRC) and exempt from tax under section 501(a) of such code. Note: The Internal Revenue Service (IRS) does not require certain organizations such as churches, mosques, and synagogues to apply for and receive a recognition of exemption under section 501(c)(3) of the IRC. Such organizations are automatically exempt if they meet the requirements of section 501(c)(3). These organizations are not required to provide recognition of exemption. For organizations that the IRS requires to apply for and receive a recognition of exemption under section 501(c)(3), the state may or may not require recognition of exemption, as long as the method chosen is applied consistently. Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. 2 C.F.R. Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. For more information, refer to the NSGP NOFO located online at <http://www.fema.gov/grants> as well as on www.grants.gov. Each eligible nonprofit organization must submit the following to their SAA: Vulnerability/Risk Assessment: A vulnerability/risk assessment specific to the location/facility for which the nonprofit organization is applying. Currently, there are no other FEMA specific requirements for the vulnerability assessment. NSGP Investment Justification (IJ): The IJ is the application form used to apply for NSGP. It must include the nonprofit organizations risks, vulnerabilities, and the proposed projects that are intended to address/mitigate the identified risks and vulnerabilities. Proposed projects must be for the locations that the nonprofit occupies at the time of application. Applicants can find the NSGP IJ DHS/FEMA Form 089-24 (OMB Control Number: 1660-0110) on grants.gov (Search Grants Tab; CDF: 97.008). Mission Statement: A Mission Statement and any mission implementing policies or practices that may elevate the organizations risk. The SAA will use the Mission Statement along with the information provided in the IJ to determine the central purpose of the organization and will validate the nonprofits organization type selected by the nonprofit organization on the IJ. The organization type may be one of the following: 1) Ideology-based/Spiritual/Religious; 2) Educational; 3) Medical; or 4) Other. Supporting documentation related to actual incidents that have occurred at the location/facility: If applicable, nonprofit organizations may include any proof of actual incidents that have occurred at the location or facility; this includes items such as police reports or photographs (include a brief description of the items you are submitting in your IJ). Any other SAA required documentation: Contact your SAA to get information on any additional requirements. Notice of Funding Opportunities (NOFO) for this listing will be posted on Grants.gov.

Award Procedure:

Financial Integrity Criteria: Prior to making a federal award, DHS/FEMA is required by 31 U.S.C. 3354, as amended, by the Payment Integrity Information Act of 2019, Pub. L. No. 116-117 (2020); 41 U.S.C. 2313; and 2 C.F.R. 200.206 to review information available through any OMB-designated repositories of government wide eligibility qualification or financial integrity information. Therefore, application evaluation criteria may include the following risk-based considerations of the applicant: 1. Financial stability. 2. Quality of management systems and ability to meet management standards. 3. History of performance in managing federal award. 4. Reports and findings from audits. 5. Ability to effectively implement statutory, regulatory, or other requirements. Supplemental Financial Integrity Criteria and Review Prior to making a federal award where the anticipated total federal share will be greater than the simplified acquisition threshold, currently \$250,000: 1. DHS/FEMA is required to review and consider any information about the applicant that is in the designated integrity and performance system accessible through the System for Award Management (SAM), which is currently the Federal Awardee Performance and Integrity Information System (FAPIS) and is accessible through the SAM website. 2. An applicant, at its option, may review information in FAPIS and comment on any information about itself that a federal awarding agency previously entered. DHS/FEMA will consider any comments by the applicant, in addition to the other information in FAPIS, in making a judgment about the applicants integrity, business ethics, and record of performance under federal awards when completing the review of risk posed by applicants as described in 2 C.F.R. 200.206. Security Review DHS Intelligence and Analysis (I&A) receives a list of potential NSGP awardee organizations, which it reviews against U.S. intelligence community (IC) reporting. Any potentially derogatory information, as well as any potentially mitigating information, that could assist in determining if a security risk exists is sent to FEMA and is used in making final award decisions. All successful applicants for all DHS grant and cooperative agreements are required to comply with DHS Standard Administrative Terms and Conditions. Upon approval of an application, the award will be made in the form of a grant. The date the approval of award is entered in the system is the award date. Notification of award approval is made through the ND Grants system through an automatic e-mail to the grantee point of contact listed in the initial application. Once an award has been approved and recorded in the system, a notice is sent to the authorized grant official. The authorized grant official should carefully read the award package for instructions on administering the grant and to learn more about the terms and conditions associated with responsibilities under Federal awards. For more information, refer to the FY 2021 NSGP NOFO.

Reports:

Recipients are responsible for providing updated performance reports on a biannual basis as an attachment in ND Grants. The Program Performance Report (PPR) should include the following: A brief narrative of overall project(s) status A summary of project expenditures A description of any potential issues that may affect project completion Federal Financial Report (FFR) Recipients must report obligations and expenditures ported on a quarterly basis through the FFR (SF-425) to DHS/FEMA. Recipients must file the FFR electronically using the Payment and Reporting Systems (PARS). A FFR must be submitted quarterly throughout the period of performance, including partial calendar quarters, as well as for periods where no grant award activity occurs. The final FFR is due 120 days after the end of the performance period. Progress Reports: Recipients will be required to report on progress towards implementing projects described in their application on a biannual basis. The following periods and due dates apply to the PPR: Reporting Period Report Due date January 1 - June 30: July 30; July 1 - December 31: January 30. For additional details, see the NSGP NOFO and the Preparedness Grants Manual. Grantees Recipients are obligated to submit various financial and programmatic reports as a condition of their award acceptance. Please see below for a summary of financial and/or programmatic reports as required. Future awards and funds drawdown may be withheld if these reports demonstrate lack of progress, or are insufficient in detail. Monitoring. Grant recipients will be monitored periodically by FEMA staff, both programmatically and financially, to ensure that the project goals, objectives, performance requirements, timelines, milestone completion, budgets, and other related program criteria are being met. Monitoring may be accomplished through either a desk-based review or on-site monitoring visits, or both. Monitoring will involve the review and analysis of the financial, programmatic, performance, compliance and administrative processes, policies, activities, and other attributes of each Federal assistance award and will identify areas where technical assistance, corrective actions and other support may be needed.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503 FEMA grant recipients are subject to audit oversight from multiple entities including the DHS OIG, the GAO, the pass-through entity, or independent auditing firms for single audits, and may cover activities and costs incurred under the award. Auditing agencies such as the DHS OIG, the GAO, and the pass-through entity, if applicable, and FEMA in its oversight capacity, must have access to records pertaining to the FEMA award. Recipients and subrecipients must retain award documents for at least three years from the date the final FFR is submitted, and longer in some cases, subject to the requirements of 2 C.F.R. 200.334. In the case of administrative closeout, documents must be retained for at least three years from the date of closeout, or longer, subject to 2 C.F.R. 200.334. If documents are retained longer than the required retention period, the DHS OIG, GAO, and pass-through entity, as well as FEMA in its oversight capacity, have the right to access these records as well. See 2 C.F.R. 200.334, 200.337. Additionally, non-federal entities must comply with the single audit requirements at 2 C.F.R. Part 200, Subpart F. Specifically, non-federal entities, other than for-profit subrecipients, that expend \$750,000 or more in federal awards during their fiscal year must have a single or program-specific audit conducted for that year in accordance with Subpart F. 2 C.F.R. 200.501. A single audit covers all federal funds expended during a fiscal year, not just FEMA funds. The cost of audit services may be allowable per 2 C.F.R. 200.425, but non-federal entities must select auditors in accordance with 2 C.F.R. 200.509, including following the proper procurement procedures. The objectives of single audits are to: Determine if financial statements conform to generally accepted accounting principles (GAAP); Determine whether the schedule of expenditures of federal awards is presented fairly; Understand, assess, and test the adequacy of internal controls for compliance with major programs; and Determine if the entity complied with applicable laws, regulations, and contracts or grants. For single audits, the auditee is required to prepare financial statements reflecting its financial position, a schedule of federal award expenditures, and a summary of the status of prior audit findings and questioned costs. The auditee also

is required to follow up and take appropriate corrective actions on new and previously issued but not yet addressed audit findings. The auditee must prepare a corrective action plan to address the new audit findings. 2 C.F.R. 200.508, 200.510, 200.511. Non-federal entities must have an audit conducted, either single or program-specific, of their financial statements and federal expenditures annually or biennially pursuant to 2 C.F.R. 200.504. Non-federal entities must also follow the information submission requirements of 2 C.F.R. 200.512, including submitting the audit information to the Federal Audit Clearinghouse within the earlier of 30 calendar days after receipt of the auditors report(s) or nine months after the end of the audit period. The audit information to be submitted include the data collection form described at 2 C.F.R. 200.512(c) and Appendix X to 2 C.F.R. Part 200 as well as the reporting package described at 2 C.F.R. 200.512(b). The non-federal entity must retain one copy of the data collection form and one copy of the reporting package for three years from the date of submission to the Federal Audit Clearinghouse. 2 C.F.R. 200.512; see also 2 C.F.R. 200.517 (setting requirements for retention of documents by the auditor and access to audit records in the auditors possession). FEMA, the DHS OIG, the GAO, and the pass-through entity, if applicable, as part of monitoring or as part of an audit, may review a non-federal entity's compliance with the single audit requirements. In cases of continued inability or unwillingness to have an audit conducted in compliance with 2 C.F.R. Part 200, Subpart F, FEMA and the pass-through entity, if applicable, are required to take appropriate remedial action under 2 C.F.R. 200.339 for noncompliance, pursuant to 2 C.F.R. 200.505.

Records:

Financial records, supporting documents, statistical records, and all other non-federal entity records pertinent to a federal award generally must be maintained for at least three years from the date the final Federal Financial Report (FFR) is submitted. See 2 C.F.R. 200.334. Further, if the recipient does not submit a final FFR and the award is administratively closed, FEMA uses the date of administrative closeout as the start of the general record retention period. The record retention period may be longer than three years or have a different start date in certain cases. These include: Records for real property and equipment acquired with federal funds must be retained for three years after final disposition of the property. See 2 C.F.R. 200.334(c). If any litigation, claim, or audit is started before the expiration of the three-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken. See 2 C.F.R. 200.334(a). The record retention period will be extended if the recipient is notified in writing of the extension by FEMA, the cognizant or oversight agency for audit, or the cognizant agency for indirect costs. See 2 C.F.R. 200.334(b). Where FEMA requires recipients to report program income after the period of performance ends, the program income record retention period begins at the end of the recipients fiscal year in which program income is earned. See 2 C.F.R. 200.334(e). For indirect cost rate proposals, cost allocation plans, or other rate computations records, the start of the record retention period depends on whether the indirect cost rate documents were submitted for negotiation. If the indirect cost rate documents were submitted for negotiation, the record retention period begins from the date those documents were submitted for negotiation. If indirect cost rate documents were not submitted for negotiation, the record retention period begins at the end of the recipients fiscal year or other accounting period covered by that indirect cost rate. See 2 C.F.R. 200.334(f).

RELATED PROGRAMS:

97.042 Emergency Management Performance Grants;

EXAMPLES OF FUNDED PROJECTS:

2021 FY 2021 NSGP allowable costs are focused on security-related activities. Generally, funding can be used for contracted security personnel, as well as security-related planning; exercises; training; and the acquisition and installation of security equipment on real property (including buildings and improvements) owned or leased by the nonprofit organization at the time of application. Below are some examples of each: Planning Activities related to the development of plans such as: o Security Risk Management Plans o Continuity of Operations Plans o Response Plans Equipment: Authorized Equipment List Sections 14 and 15 only; examples include: o Access control equipment o Surveillance equipment o Physical protective measures such as fences, blast-proof windows, and concrete barriers Training: Active Shooter Training o Security Training for employees, or members/congregation Exercises: Response exercises For a complete description on allowable investments, see the FY 2021 NSGP Notice of Funding Opportunity (NOFO).

CRITERIA FOR SELECTING PROPOSALS:

FY 2021 NSGP applications will be scored by the SAA in coordination with its state, territory, and urban area partners, as applicable. The SAA will submit a prioritized list of IJs with all scores to FEMA. FEMA will review the highest state scored applications. In the final scoring process, organizations that are at risk due to their ideology, beliefs, or mission are prioritized; additionally, organizations that have never received NSGP funding are also prioritized. For additional information on how IJs are reviewed and scored at the SAA and Federal levels, please refer to the FY 2021 NSGP NOFO.

97.010 Citizenship Education and Training

FEDERAL AGENCY:

U.S. CITIZENSHIP AND IMMIGRATION SERVICES, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Consolidated Appropriations Act, 2021, Title IV, Section , Public Law 116-260-93

OBJECTIVES:

The Office of Citizenship (OoC), within U.S. Citizenship and Immigration Services (USCIS), Department of Homeland Security (DHS), is charged with promoting instruction and training on the rights and responsibilities of citizenship. USCIS recognizes that naturalization is the most important milestone in the civic integration of immigrants. Naturalization requirements, such as knowledge of English and of U.S. history and civics, encourage civic learning and build a strong foundation upon which immigrants can fully integrate into society. Through preparing for naturalization, immigrants will gain the tools to become successful citizens and meet their responsibilities as United States citizens. The goal of the Citizenship and Integration Grant Program is to expand the availability of high quality citizenship preparation services for lawful permanent residents (LPRs)

across the nation and to provide opportunities for lawful permanent residents to gain the knowledge and training necessary to integrate into the fabric of American society. Additional activities that support this goal include developing, identifying, and sharing best practices in citizenship preparation; increasing the use of and access to technology in citizenship preparation programs; working with local libraries and museums which serve as vital resources for immigrant communities; and incorporating strategies to foster welcoming communities as part of the citizenship and civic integration process. Furthermore, the goals of the Citizenship and Integration Grant Program address the DHS mission to Enforce and Administer Our Immigration Laws as stated in the 2014 Quadrennial Homeland Security Review as the program provides lawful permanent residents instruction on the rights and responsibility of U.S. citizenship and information and support on how to apply for naturalization within the authorized practice of immigration law.

The number of students is lower than normal because all resident courses were canceled from March September due to COVID-19. Financial assistance/stipends were paid to 2,007 students attending 129 resident 6- and 10-day course offerings at the NETC campus. With continued restrictions due to COVID-19, the NFA did not resume on-campus classes until April 12, 2021. Only a limited number of stipends have been processed since classes just resumed. It is anticipated that the amount paid to stipends will be significantly lower than previous years due to cancellation of courses until the April timeframe, and delivering courses for the remainder of the FY at 50% capacity.

97.022 Flood Insurance

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

The National Flood Insurance Act of 1968, 42 U.S.C. 4001 et seq. authorized the National Flood Insurance Program (NFIP), Title 13, Public Law 90-448, 44 CFR, Ch. 1, Subch. B,

OBJECTIVES:

To enable personal and business property owners and renters to purchase flood insurance coverage for buildings and/or contents in low-to-moderate flood risk areas, as well as in high-risk flood zones to reduce taxpayer provided federal

ASSISTANCE LISTINGS DESCRIPTIONS

disaster assistance and to promote wise floodplain management practices in the Nation's high-risk flood zones.

TYPES OF ASSISTANCE:

Insurance

USES AND USE RESTRICTIONS:

The maximum limits of flood insurance coverage for a building and/or personal property, eligible building types, and more detailed additional flood insurance information is contained in the Flood Insurance Manual available online at <https://www.fema.gov/flood-insurance-manual>. In a Regular Program Community the residential building limit is \$250,000 and non-residential building limit is \$500,000. The residential contents limit is \$100,000 and the non-residential contents limit is \$500,000. Lower limits apply to a limited number of Emergency Program buildings and buildings in Alaska, Guam, Hawaii and U.S. Virgin Islands and are listed in the Flood Insurance Manual. The Flood Disaster Protection Act of 1973, as amended by the Flood Insurance Reform Act of 1994, requires the purchase of flood insurance as a condition of receiving any form of Federal or federally-related financial assistance for acquisition or construction, including Federal grants, disaster assistance, the Small Business Administration (SBA) low-interest disaster assistance loans, and mortgage loans from federally regulated lending institutions and Federal Housing Administration (FHA), Farm Credit Administration, Veterans Administration (VA) or guaranteed mortgages secured by buildings in high-risk flood zones, which are called the Special Flood Hazard Areas (SFHAs). Communities having one or more identified SFHAs must enter into the NFIP within 1 year of the official identification of the SFHAs or be denied Federal financial assistance for acquisition or construction purposes within those areas. Federally regulated conventional sources (i.e., banks, savings and loan associations, or similar lending institutions) are permitted to make conventional loans secured by improved real estate or Manufactured Housing located or to be located in SFHAs of a nonparticipating community which has been formally identified as flood-prone for more than 1 year, but Federal disaster assistance for acquisition or construction purposes will not be available in the event of flood or flood-related property damage. The conventional lender is statutorily required to notify the borrower, before making a loan in such an area, that Federal flood insurance and disaster assistance will not be available to the property. The Coastal Barrier Improvement Act of 1990 amended the Coastal Barrier Resources Act of 1982 by greatly expanding the acreage included in the designated coastal barrier resources system. The 1990 Act also added "otherwise protected areas." "Otherwise protected areas" are defined as an undeveloped coastal barrier within the boundaries of an area established under Federal, State, or local law, or held by a qualified organization, primarily for wildlife refuge, sanctuary, recreational or natural resource conservation purposes. The 1990 Act prohibits the sale of new flood insurance on or after November 16, 1990 for new construction or substantial improvements of structures located on any new coastal barrier within the Coastal Barrier Resources System designated or modified by this Act. It also prohibits the sale of new flood insurance on or after November 16, 1991 for new construction or substantial improvements of structures located in an otherwise protected area that are not used in a manner consistent with the purpose of the otherwise protected area. Subsequent pieces of legislation have added or deleted areas.

Applicant Eligibility:

Government - General; Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Federal flood insurance can be made available in any community (a State or political subdivision thereof with authority to adopt and enforce floodplain management measures for the areas within its jurisdiction) that adopts and enforces floodplain management measures consistent with the National Flood Insurance Program regulations.

Beneficiary Eligibility:

Individual/Family; Homeowner; Land/Property Owner; Residential and business property owners, renters and state owned property.

Credentials/Documentation:

Same as Applicant Eligibility. 2 CFR Part 200, Subpart E - Cost Principles does not apply to this program. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Community officials must submit an NFIP eligibility application form, which is available from the FEMA, together with: copies of adopted floodplain management measures meeting the minimum standards of 44 CFR Section 60.3(a), 60.3(b), 60.3(c), 60.3(d), and/or 60.3(e), as appropriate for the type of flood hazards identified; a list of any incorporated communities within the applicant's boundaries; and estimates of population and, by kind, of buildings situated in the known flood-prone areas of the community. Such Applications should be submitted to the Mitigation Directorate, FEMA, Washington, DC 20024.

Award Procedure:

FEMA reviews the application and if complete, designates the community as participating. The community is informed of its admission, and notice is published in the Federal Register. Residents and property owners may then purchase flood insurance through any property insurance agent or broker.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. For complete applications, a maximum of 10 working days is allowed for review and notification. Communities with one or more identified special flood hazard areas must enter the program within 1 year after the identification of those areas or else prohibitions against Federally related financial assistance for acquisition or construction purposes in identified special flood hazard areas take force. Once the community does qualify, after the prescribed date, these prohibitions are removed. Adequate floodplain management measures must be in effect within 6 months of the date that the special flood hazard area is identified and within 6 months of the date flood water surface elevations are provided.

Appeals:

Other. Communities are allowed to appeal flood-prone identification and are also given an opportunity to appeal proposed flood elevation determinations for new construction and substantial improvement of existing structures in the special flood hazard areas. Notice of the proposed elevations is published in the Federal Register and is sent directly to the local governments. Following notification to the local government, the notice of proposed flood elevation determinations is published twice during a 10-day period in a prominent newspaper. The local community and its individual residents then have 90 days following the second newspaper notice to submit any scientific or technical data that tend to negate or contradict FEMA's findings. If a conflict in data exists and cannot be resolved at the community level, the community consolidates all individual appeals for review by FEMA. FEMA shall resolve the appeals by consultation with officials of the local government, or by submission of conflicting data to an independent scientific body, or by administrative hearings. When a flood insurance claim from a policyholder is denied in writing by an insurer participating in the NFIP, the policyholder may appeal the denial to FEMA. See 44 C.F.R. 62.20. The policyholder must submit the appeal within 60 days of the date of the denial letter, include a copy of the denial letter, state the basis for the appeal in writing, and include any relevant information that supports a different claim decision. FEMA will review the information submitted by the policyholder, as well as the claim file documentation from the insurer, and submit its decision in writing to the policyholder.

97.023 Community Assistance Program State Support Services Element (CAP-SSSE)

(CAP-SSSE),

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

The National Flood Insurance Act of 1968, , Public Law 90-448, 42 USC Code 4001 et seq.

OBJECTIVES:

The Community Assistance Program State Support Services Element (CAP-SSSE) program provides funding to states and territories to provide technical assistance to communities in the National Flood Insurance Program (NFIP) and to evaluate community performance in implementing NFIP floodplain management activities. CAP-SSSE aligns with and supports Presidential Policy Directive 8 and DHS Strategic Goal 5: to Strengthen National Preparedness and Resilience. CAP-SSSE strives to leverage state knowledge and expertise to provide support to communities through activities that most effectively reduce flood losses. The CAP-SSSE cooperative agreement funds eligible activities to enable state NFIP coordinating offices to meet the provisions set forth in 44 C.F.R. 60.25 and the goals and performance expectations of the funding agency: FEMA and the NFIP.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

CAP-SSSE funds are used for activities that support the NFIP. Such activities include the fostering of effective floodplain management programs in participating communities and assisting non-participating communities in enrolling in the NFIP.

Applicant Eligibility:

Government - General; The Cooperative Agreement is only available to the state or territorial agency so designated by the Governor, as the state or territorial National Flood Insurance Program State Coordinating Agency, (44 C.F.R. 60.25). The CAP-SSSE is administered through the Mitigation Division, Floodplain Management and Insurance Branch (FM&I) of each FEMA Regional Office. FEMA's Regional Offices work with eligible states and territories to negotiate a mutually acceptable grant agreement. Funding is made available when the grant agreement is negotiated and agreed upon. Continued participation in the CAP-SSSE is dependent upon completing activities described in the grant agreement. The CAP-SSSE is designed to utilize the floodplain management capabilities of individual states and territories in a cost-effective cooperative agreement with FEMA. Grantees must complete a Tiered State Framework (TSF) assessment to receive the grant and be assessed every three years (starting in 2020). Grantees must achieve designated performance measures to continue to receive funding.

Beneficiary Eligibility:

State; Local; The direct beneficiary of the CAP-SSSE is the individual state or territory receiving financial assistance. In addition, participating NFIP communities and local governments which receive flood plain management and flood loss reduction assistance provided by the state or territory are also (indirect) beneficiaries because of the services they receive.

Credentials/Documentation:

A State's participation in the CAP-SSSE is voluntary and is contingent upon need and skill level capability as determined by FEMA. In addition, applicant states are required to provide any relevant documentation contained in the grant agreement package provided by FEMA. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

ASSISTANCE LISTINGS DESCRIPTIONS

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Preapplication coordination is required. This program is excluded from coverage under E.O. 12372. FEMA's ten Regional Offices will provide each State Governor's Office with the grant application package. The Cooperative Agreement is only available to that state or territorial agency so designated by the Governor, as the state or territorial National Flood Insurance Program State Coordinating Agency. The CAP-SSSE is administered through the Mitigation Division of each FEMA Regional Office. FEMA's Regional Offices will contact eligible States to negotiate a mutually acceptable grant agreement. Funding is made available when the grant agreement is negotiated and agreed upon. Continued participation in the CAP-SSSE is dependent upon completing activities described in the grant agreement. The CAP-SSSE is designed to utilize the floodplain management capabilities of individual States in a cost effective cooperative agreement with FEMA. A State's participation in the CAP-SSSE is voluntary and is contingent upon need and skill level capability.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Application deadline and other information are contained in the application/program guidance. States must have a completed TSF Assessment and approved Activity Planning and Pricing (APP) tool to develop projected costs of activities.

Award Procedure:

Applications are reviewed by FEMA Regional Office program and administrative staff. Any issues or concerns noted in the application will be negotiated with the successful applicant prior to the award being issued.

Awards are for 12 months with no cost extensions allowed. Refer to program guidance. Method of awarding/releasing assistance. Method of awarding/releasing assistance: other

Reports:

States or territories must report quarterly to the Regions to demonstrate progress in meeting agreed upon performance measures. Grantees are expected to cooperate with Regions by submitting documentation or other evidence that demonstrates completion of approved activities. Activities are required to be entered digitally into the NFIP Community Information System (CIS) as the tasks are completed. Grantees must provide a final status report on meeting their performance measures to the Region within 120 days from the end of the Period of Performance (POP) of each year in which the state or territory was granted CAP-SSSE funds. For complete reporting requirement information refer to program guidance. Refer to program guidance. Refer to program guidance. Refer to program guidance.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal

awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503 In accordance with the provisions of 2 C.F.R. Part 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 C.F.R. 200.503 These audits are due to the cognizant Federal agency, submitted through the Federal Audit Clearinghouse, the earlier of 30 calendar days after receipt of the auditors report or 9 months after the end of the audit period.

Records:

Financial records, supporting documents, statistical records, and all other non-federal entity records pertinent to a federal award generally must be maintained for at least three years from the date the final Federal Financial Report (FFR) is submitted. See 2 C.F.R. 200.334. Further, if the recipient does not submit a final FFR and the award is administratively closed, FEMA uses the date of administrative closeout as the start of the general record retention period. The record retention period may be longer than three years or have a different start date in certain cases. These include: Records for real property and equipment acquired with federal funds must be retained for three years after final disposition of the property. See 2 C.F.R. 200.334(c). If any litigation, claim, or audit is started before the expiration of the three-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken. See 2 C.F.R. 200.334(a). The record retention period will be extended if the recipient is notified in writing of the extension by FEMA, the cognizant or oversight agency for audit, or the cognizant agency for indirect costs. See 2 C.F.R. 200.334(b). Where FEMA requires recipients to report program income after the period of performance ends, the program income record retention period begins at the end of the recipients fiscal year in which program income is earned. See 2 C.F.R. 200.334(e). For indirect cost rate proposals, cost allocation plans, or other rate computations records, the start of the record retention period depends on whether the indirect cost rate documents were submitted for negotiation. If the indirect cost rate documents were submitted for negotiation, the record retention period begins from the date those documents were submitted for negotiation. If indirect cost rate documents were not submitted for negotiation, the record retention period begins at the end of the recipients fiscal year or other accounting period covered by that indirect cost rate. See 2 C.F.R. 200.334(f).

TSF sets forth a process by which states are assessed at least every three years and aligned to a tier which guides the work activities and performance expectations. Created the Advanced State Partner Group (ASPG) which includes the nine states that achieved Advanced TSF tier rating. They participate in quarterly meetings with Floodplain Management HQ to discuss current and future priorities of national Floodplain Management program. 43 states developed a State Substantial Damage Plan to lead their communities in conducting substantial damage work. States have worked to improve compliance with the NFIP regulations for state-owned property in the Special Flood Hazard Area (SFHA). States have set and achieved goals of a designated percentage of community contacts to document their ongoing efforts to provide technical support to communities in their state. States have set and achieved goals of a designated percentage of community engagements to ensure adoption of higher standards for floodplain management beyond what is minimally required by the NFIP. 97.024 Emergency Food and Shelter National Board Program

(EFSP).

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Stewart B. McKinney Homeless Assistance Act of 1987, as amended, Title 3, Section 301, Public Law 100-77, 42 USC Code 11331-11346.

OBJECTIVES:

EFSP funding supplements the on-going efforts of local service organizations to provide emergency food and shelter to those in need. Program funds support the National Preparedness Goal (NPG) by complementing actions undertaken to achieve an all-of-Nation preparedness approach that optimizes the use of available resources. When a disaster strikes, it is often the poor or those with economic vulnerabilities who suffer the most. By providing emergency economic assistance that keeps people off the streets, from being evicted from their homes, or with groceries to prevent hunger, the EFSP prepares a population that could otherwise be even more adversely impacted by a disaster situation and mitigates potential burdens imposed on recovery efforts to assist such people. For additional details on the NPG, please refer to <http://www.fema.gov/pdf/prepared/npg.pdf> Supplemental program funds appropriated under the Coronavirus Aid, Relief, and Economic Security Act (Pub. L. No.116-136) in FY 2020 address the impacts of the economic consequences of the COVID-19 public health emergency by providing food, shelter, and supportive services to those in need as is done with the programs annually appropriated funds. Supplemental program funds appropriated under Section 4007 and Section 4008 of the American Rescue Plan Act of 2021 (Pub. L. No. 117-2) provide funding in addition to amounts otherwise made available to the

EFSP and for the purposes of providing humanitarian relief to migrant families and individuals encountered by the U.S. Department of Homeland Security, respectively.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Food and related expenses (such as transporting food/food preparation and serving equipment); mass shelter; other shelter (such as hotels and motels); and rent/mortgage and/or utility assistance limited to one month. Emergency Food and Shelter National Board Program (EFSP) funds cannot be used for: security deposits of any kind, cash payments of any kind, lobbying efforts, salaries (except as administrative allowance and limited to that total allowance of 2 percent of total award where provided by Local Boards), purchases or improvements of an individual's private property, telephone costs, repairs to government-owned or profit-making facilities and any payments for services not incurred. For a complete listing on eligible and ineligible costs under this program, refer to the Responsibilities and Requirements Manual of the current Phase (fiscal year) issued by the Emergency Food and Shelter Program National Board. See www.efsp.unitedway.org.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Public nonprofit institution/organization (includes institutions of higher education and hospitals), Private nonprofit institution/organization (includes institutions of higher education and hospitals), Quasi-public nonprofit institution/organization Since funds are initially distributed to jurisdictions based on either a National Board formula or recommendations from State Set-Aside Committees, there is no application process for jurisdictions. All jurisdictions are considered within the National Board formula and all jurisdictions in an individual State may be considered by the State Set-Aside Committee for either initial or additional (if the jurisdiction had previously been selected by the National Board) funding. At the local level, following award notification by the National Board to the jurisdiction, a Local Board is formed. The Local Board then advertises the availability of the funds to local nonprofit agencies and governments. The Local Board must conduct a local application process for agencies to apply for funding. The Local Board selects which local nonprofit and governmental organizations are to receive funding and submits their selections via a Local Board Plan to the National Board. For American Rescue Plan Act of 2021, Section 24008, Humanitarian Relief, funding, there is a different process the National Board determines which local nonprofit and governmental organizations are to be awarded funds in providing humanitarian relief to migrant families and individuals encountered by the U.S. Department of Homeland Security.

Beneficiary Eligibility:

Anyone/general public; Public nonprofit institution/organization; Other public institution/organization; Public nonprofit institution/organization, Other public institution/organization The law directs that the Local Boards, which manage the program at the local level, shall "determine which private nonprofit organizations or public organizations of the local government in the individual locality shall receive grants to act as service providers." The range of participant groups on the Local Boards include the affiliates of the National Board membership which consists of American Red Cross, Catholic Charities USA, The Jewish Federations of North America, National Council of Churches of Christ in the USA, The Salvation Army, and United Way Worldwide, with a local government representative replacing FEMA. Also participating are thousands of independent nonprofits (such as Community Action Agencies and Food Banks and food pantries) which provide food and/or shelter services. Due to the broad category of people in need of such emergency services, the providers can include specialized groups such as domestic violence shelters and organizations providing food or shelter to: AIDS patients, handicapped individuals, the elderly, homeless veterans, non-wards of the State teenage runaways, and many other groups with emergency food and shelter needs. As noted earlier, the decisions on selections are made through the consensus of the Local Board as they have assessed their community's most urgent needs. It is important that such agencies use these funds to supplement, not replace, their current efforts. This program is intended to supplement ongoing programs and allow them to extend and expand upon their existing services. Under

ASSISTANCE LISTINGS DESCRIPTIONS

the American Rescue Plan Act of 2021, Section 24008, Humanitarian Relief, funding is for the purpose of providing humanitarian relief to migrant families and individuals encountered by the U.S. Department of Homeland Security.

Credentials/Documentation:

The program employs a Local Recipient Organization Certification Form. This form certifies an applicant's status (i.e., that it is a nonprofit or government agency capable of delivering eligible services) and that it will abide by the program guidelines (both on eligible spending and reporting requests), and comply with other fiscal and program rules so stipulated. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. There is no application process for local jurisdictions since the award notification to local jurisdictions is based on either a National Board formula or recommendations from State Set-Aside Committees. The local jurisdiction (i.e., Local Board) must conduct a local application process for local agencies to apply for funding. For American Rescue Plan Act of 2021, Section 24008, Humanitarian Relief, funding, the National Board establishes the application process and determines which local nonprofit and governmental organization are to be awarded funds.

Award Procedure:

At the local level, following award notification by the National Board, a Local Board is formed. The Local Board then advertises the availability of the funds to local government and nonprofit agencies. The Local Board must conduct a local application process for these local agencies to apply for funding. The Local Board selects which agencies are to receive funding and submits their selections via a Local Board Plan to the National Board. The National Board confirms all pertinent information has been submitted and disburses funds directly to the awarded local agencies.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2021: In FY 2020, 1,774 students required housing at the NETC Campus in Emmitsburg, Maryland. There were only a limited number of students requiring housing for FY2020 due to the COVID-19 closure of campus. During this time, EMI delivered more virtual training courses. In FY 2021, we estimate 1,919 students will require housing at the NETC Campus in Emmitsburg, Maryland. The limited number of students requiring housing for FY2021 is due to the COVID-19 closure of campus and reduction of students in classes in order to properly social distance. EMI continues to deliver more virtual training, using Video-teleconferencing, virtual tabletop exercises, Zoom, and Adobe Connect webinars. In FY 2022, we estimate 3,833 students required housing at the NETC Campus in Emmitsburg, Maryland. EMI will also continue to deliver more off-site and virtual training, using Video-teleconferencing, virtual tabletop exercises, Zoom, and Adobe Connect webinars.

97.029 Flood Mitigation Assistance

(FMA),

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

The National Flood Insurance Act of 1968, 42 U.S.C. 4001 et seq. authorized the National Flood Insurance Program (NFIP), Title 13, Public Law 90-448, see also the Flood Disaster Protection Act of 1973, the National Flood Insurance Act of 1994, the Flood Insurance Reform Act of 2004, the Biggert-Waters Flood Insurance Reform Act of 2012, the Homeowner Flood Insurance Affordability Act of 2014; and implementing regulations at 44 C.F.R., Ch. 1, Subch. B.,

OBJECTIVES:

The Flood Mitigation Assistance (FMA) Program makes Federal funds available to States, U.S Territories, Indian Tribal governments, and local communities to reduce or eliminate the risk of repetitive flood damage to buildings and structures insured under the National Flood Insurance Program (NFIP). The FMA program strengthens national preparedness and resilience and supports the mitigation mission area through Strategic Goal #1 Building a Culture of Preparedness, Objectives 1.1, 1.2, 1.3, and 1.4 of the 2018 2022 FEMA Strategic Plan. In Fiscal Year (FY) 2020, the FMA Program will prioritize proposals that address community flood risk by setting aside \$70 million for this purpose. FEMA will seek to fund two types of community flood mitigation activities: Project Scoping for flood mitigation design and development of community flood mitigation projects that will subsequently reduce flood claims, up to \$4 million. Mitigation projects that address community flood risk for the purpose of reducing NFIP flood claim payments, with the remaining balance of the \$70 million after Advance Assistance applications are selected. The remaining funding, at least \$90 million, will be used for FMA technical assistance, flood mitigation planning, and mitigation projects that reduce the risk of flooding to severe repetitive loss (SRL) and repetitive loss (RL) properties. See Section E, Application Review Information, of this Notice of Funding Opportunity (NOFO) for more information on FY 2020 FMA funding priorities.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Flood mitigation projects to reduce or eliminate the long-term risk of flood damage to properties insured under the National Flood Insurance Program (NFIP) are eligible for the FMA program. Eligible project types include: acquisition-demolition and acquisition-relocation; elevation of existing structures to the Base Flood Elevation (BFE) or an Advisory Base Flood Elevation (ABFE) or higher; minor localized flood risk reduction projects; and dry-flood proofing (historic properties and non-residential structures). FMA funds can only be used for the flood hazard component of a hazard mitigation plan that meets the planning criteria outlined in 44 CFR Part 201. See also 44 CFR 79.6(b),(d)(1). Individual planning grants using FMA funds shall not exceed \$50,000 to any applicant or \$25,000 to

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. For fiscal years beginning on or after December 26, 2014, recipients that expend \$750,000.00 or more from all federal funding sources during their fiscal year are required to submit an organization-wide financial and compliance audit report, also known as a single audit report. The audit must be performed in accordance with the requirements of Government and Accountability Offices (GAO) Government Auditing Standards, located at <https://www.gao.gov/yellowbook/overview>, and the requirements of Subpart F of 2 C.F.R. Part 200, located at <http://www.ecfr.gov/cgi-bin/text-idx?node=sp2.1.200.f>.

Records:

Financial records, supporting documents, statistical records, and all other non-federal entity records pertinent to a federal award generally must be maintained for at least three years from the date the final Federal Financial Report (FFR) is submitted. See 2 C.F.R. 200.334. Further, if the recipient does not submit a final FFR and the award is administratively closed, FEMA uses the date of administrative closeout as the start of the general record retention period. The record retention period may be longer than three years or have a different start date in certain cases. These include: Records for real property and equipment acquired with federal funds must be retained for three years after final disposition of the property. See 2 C.F.R. 200.334(c). If any litigation, claim, or audit is started before the expiration of the three-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken. See 2 C.F.R. 200.334(a). The record retention period will be extended if the recipient is notified in writing of the extension by FEMA, the cognizant or oversight agency for audit, or the cognizant agency for indirect costs. See 2 C.F.R. 200.334(b). Where FEMA requires recipients to report program income after the period of performance ends, the program income record retention period begins at the end of the recipients fiscal year in which program income is earned. See 2 C.F.R. 200.334(e). For indirect cost rate proposals, cost allocation plans, or other rate computations records, the start of the record retention period

depends on whether the indirect cost rate documents were submitted for negotiation. If the indirect cost rate documents were submitted for negotiation, the record retention period begins from the date those documents were submitted for negotiation. If indirect cost rate documents were not submitted for negotiation, the record retention period begins at the end of the recipients fiscal year or other accounting period covered by that indirect cost rate. Fiscal Year 2020: Cutover to Pivot as new NFIP System of Record Leveraged remote claims adjusting techniques to protect the health and safety of policyholders and insurance professionals during COVID-19. Delivered an enhanced data analytics tool set. Published updated claims and underwriting manuals. Delivered targeted messages to consumers to encourage flood insurance purchase.

Implemented the Disaster Recovery Reform Act of 2018 (DRRA), Section 1212 for Group Flood Insurance Policy (GFIP) which doubled the maximum coverage limit. Increased oversight of WYO claims and underwriting processes from triennial operation reviews to annual operation reviews. Launched customer service surveys through the NFIP Direct for improved policyholder claims experience. Strengthened partnerships with industry partners (insurance adjusters, WYO companies, vendors) through increased engagement. For FY20, FEMA selected 117 subapplications totaling \$199,947,302 federal share in projects that will reduce future flood claims to the National Flood Insurance Fund (NFIF). 97.030 Community Disaster Loans

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Robert T. Stafford Disaster Relief and Emergency Assistance Act, Section 417, 42 USC Code 5184.

OBJECTIVES:

To provide loans subject to Congressional loan authority, to any local government that has suffered substantial loss of revenues in an area in which the President designates a major disaster in order to assist communities affected by an incident to recover effectively. The funds can only be used to maintain existing functions of a municipal operating character and the local government must demonstrate a need for financial assistance.

TYPES OF ASSISTANCE:

Direct Loans

USES AND USE RESTRICTIONS:

Civil Defense/Disaster Prevention and Relief/Emergency Preparedness Loans are made only to local governments or other political subdivisions of the State and are based on need. The funds cannot be used to meet the non-federal share of any Federal program, finance capital improvements, or repair or restore public facilities. Applicants must be in a designated major disaster area and unless specified differently through a particular public law must demonstrate that they meet the specific conditions of FEMA Emergency Management and Assistance Regulations at 44 C.F.R. Part 206, Subpart K, Community Disaster Loans. To be eligible, the applicant must demonstrate: 1) a substantial loss of revenues as a result of a major disaster; 2) a need for financial assistance to perform its governmental functions. For traditional CDLs, the amount of the loan is based on the demonstrated need, and shall not exceed 25% of the applicants Operating Budget expenditures, up to \$5 million. The interest rate is the U.S. Treasury rate for 5-year maturities on the date the Promissory Note is executed, adjusted to the nearest 1/8th. The term of the loan is usually 5 years but may be extended. Interest accrues on the funds as they are disbursed. When applicable, the Assistant Administrator of the Recovery Directorate may cancel repayment of all or part of the traditional loan if the revenues of the applicant in the 3 fiscal years following the disaster are insufficient to meet the operating budget because of disaster-related revenue losses and un-reimbursed disaster related operating expenses.

Applicant Eligibility:

Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and some hospitals) government applicants must be in a designated major disaster area and must demonstrate that they meet the specific conditions of FEMA Emergency Management and Assistance Regulations at 44 C.F.R. Part 206, Subpart K, Community Disaster Loans. To be eligible, the applicant must demonstrate: 1) a substantial loss of revenues as a result of a major disaster; 2) a need for financial assistance to perform its governmental functions. During the 2017 hurricane season, a supplemental provided funding and new guidance specific to Hurricanes Harvey, Irma, and Maria. Public Law 115-72 and Public Law 115-123 provide additional supplemental appropriations and eligibility criteria for disaster relief requirements for the fiscal year ending September 30, 2018. Further, P.L. 116-260 removed the loan cap, provided alternate eligibility criteria, and extended the deadline for FEMA to issue a loan only for those disasters that were declared in calendar year 2018.

Beneficiary Eligibility:

Local; Local governments in a designated disaster area.

Credentials/Documentation:

The CDL application is developed from financial information contained in the local government's published financial reports and current annual operating budget. Loan awards will be determined in accordance with 2 C.F.R. Grants and Agreements, Part 200 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, Subparts B, C, D, E, and F. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Upon declaration of a major disaster, an application for a Community Disaster Loan is made through the Governor's Authorized Representative to the FEMA Regional Administrator in accordance with FEMA Emergency Management and Assistance Regulations at 44 C.F.R. 206.364. The Assistant Administrator of the Recovery Directorate or designee approves or disapproves the loan. The Designated Loan Officer will execute a Promissory Note with the applicant. The promissory note must be co-signed by the State, or if the State cannot legally co-sign the note, the local government must pledge collateral security.

Award Procedure:

Funds are disbursed to the local government when requested in accordance with the Schedule of Loan Increments in the Promissory Note, or submittal of the Disbursement Request Form. All borrowers must follow requirements of 2 C.F.R. Part 200.

Deadlines:

The Assistant Administrator for the Recovery Directorate may approve a loan in either the fiscal year in which the disaster occurred or the fiscal year immediately following that year. For 2018 disasters only, the period was extended to a total of four fiscal years starting with the fiscal year of the disaster. Contact FEMA Headquarters for appropriate application deadlines.

Range of Approval/Disapproval Time:

Other. From 1 to 6 months. The loan must be approved in the fiscal year of the disaster or the fiscal year immediately following. For disasters declared in calendar year 2018, the loan must be approved by the end of the third fiscal year following the fiscal year of the disaster.

Appeals:

Other. If a loan application is disapproved, in whole or in part, a revised application may be resubmitted by the local government within 60 days of the date of the disapproval.

97.032 Crisis Counseling

(CCP),

FEDERAL AGENCY:

ASSISTANCE LISTINGS DESCRIPTIONS

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5183., Section 416, Public Law 93-288

OBJECTIVES:

The Crisis Counseling Assistance and Training Program (CCP) supports the Recovery core capability and mission area as defined in the National Preparedness Goal. It accomplishes this by assisting individuals and communities in recovering from the challenging effects of natural and human-caused disasters through the provision of community-based outreach and psycho-educational services. The CCP goals are to: Reach large numbers of people affected by disasters through face-to-face outreach to shelters, homes, and other locations. Assess the emotional needs of survivors and make referrals to traditional behavioral health services when necessary. Identify tangible needs and link survivors to community resources and disaster relief services. Provide emotional support, education, basic crisis counseling, and connection to familial and community support systems. Train and educate CCP staff and other community partners about disaster reactions, appropriate interventions, and CCP services. Develop partnerships with local disaster and other organizations. Work with local stakeholders to promote community resilience and recovery. Collect and evaluate data to ensure quality services and justify program efforts. Leave behind a permanent legacy of improved coping skills, educational and resource materials, and enhanced community linkages.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

The Crisis Counseling Assistance and Training Program (CCP) provides supplemental funding to states, the District of Columbia, U.S. territories and Federally recognized Tribes for technical assistance and training as well as short-term crisis counseling services to individuals impacted by a presidentially-declared major disaster that includes Individual Assistance. CCP services involve the counseling goals of assisting disaster survivors in understanding their current situations and reactions, mitigating additional stress, assisting survivors in reviewing their options, promoting the use or development of coping strategies, providing emotional support and encouraging linkages with other individuals and agencies who may help survivors recover to their pre-disaster level of functioning. The CCP is comprised of the Immediate Services Program (ISP) and the Regular Services Program (RSP). The Immediate Services Program grant provides 60 days of services from the declaration date and enables the State or local agency to respond to the immediate behavioral health needs of people affected by the disaster. The Regular Services Program grant provides up to nine months of crisis counseling, outreach, consultation and education services to people affected by a disaster. Funding for the ISP and RSP programs is considered separate and distinct as these are two different grants.

Applicant Eligibility:

Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; State; Federally Recognized Indian Tribal Governments, U.S. Territories, States, District of Columbia, States, territories, tribes, and the District of Columbia (collectively referred to here as states) are eligible for grants. If the Governor determines, during an assessment of the need for crisis counseling services, that because of unusual circumstances or serious conditions within the state or local mental health network, the state cannot carry out the crisis counseling program, he/she may identify a public or private mental health agency or organization to carry out the program, or request FEMA to identify, with the assistance of the Department of Health and Human Services, such an agency or organization.

Beneficiary Eligibility:

Individual/Family; In order to be eligible for services under this program, an individual must be a resident of the designated disaster area or must have been in the designated area at the time the disaster occurred.

Credentials/Documentation:

Grant awards will be determined in accordance with 2 CFR Part 200 for State and local governments. States, territories, and tribes are eligible for grants. FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Robert T. Stafford Disaster Relief and Emergency Assistance Act, Section 416, Public Law 93-288, 42 USC Code 5182.

OBJECTIVES:

The Disaster Legal Services Program (DLS) supports the NPG Mission Area of Recovery and the specific capability targets of economic recovery and health and social services. DLS accomplishes this by providing legal assistance to low-income individuals who, prior to or as a result of a Presidentially declared disaster, are unable to secure legal services adequate to meet their disaster-related needs.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use, Provision of Specialized Services

USES AND USE RESTRICTIONS:

The Disaster Legal Services program provides free legal advice for individuals impacted by a Presidentially-declared major disaster that includes Individual Assistance. Legal advice is limited to cases that do not produce a fee. This free legal advice includes assistance with insurance claims; counseling on landlord/tenant problems; assistance with home repair contracts; assistance in consumer protection matters; counseling on mortgage foreclosure problems; replacement of wills and other important legal documents; drafting powers of attorney; estate administration; preparation of guardianships and conservatorships; and referrals to local and State agencies for additional assistance.

Applicant Eligibility:

Following a Presidential declaration, grants may be made for: removal of wreckage and debris from private and public lands; performance of emergency protective measures; emergency transportation assistance; emergency communications; and permanent restoration of eligible facilities.

Credentials/Documentation:

Cost will be determined in accordance with FEMA Disaster Assistance Regulations, 44 CFR Part 206 and Part 13, and the FEMA Schedule of Equipment Rates. Grant awards will be determined in accordance with 2 CFR Part 200, and for declarations that precede issuance of 2 CFR Part 200, with OMB Circulars No. A-102 and No. A-87 for States, local governments and Indian Tribes. Awards made to Institutions of Higher Education, Hospitals and other Non-Profit Organizations will be required to follow the requirements of OMB Circulars No. A-110 and No. A-21. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on

the process the State requires to be followed in applying for assistance, if the State has selected the program for review. The State Governor makes a request for a Presidential declaration of an emergency or a major disaster through the FEMA Regional Director. Requests for assistance must be made by the Governor in accordance with FEMA Disaster Assistance Regulations, 44 CFR 206.36, except as provided in Part 206.35(d) for emergency declarations involving primarily Federal responsibility.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. A Presidential Disaster or Emergency Declaration must be issued, following which an applicant may submit a Request for Public Assistance through the Governor's Authorized Representative to the FEMA Regional Administrator

Award Procedure:

Funds are allocated from the Disaster Relief Fund for use in a designated emergency or major disaster area. FEMA approves grants from this allocation on the basis of project applications for eligible applicants, eligible facilities, eligible work, and eligible costs. State and Tribal recipients are responsible for distributing funds to subrecipients. As a condition of receiving assistance under the Stafford Act, the applicable State, Territorial, or Tribal government must enter into an agreement with FEMA regarding the understanding, commitments, and conditions under which FEMA provides assistance known as a FEMA-State/Territory/Tribe Agreement. Applicants must also maintain a FEMA-approved State Mitigation Plan and an Administrative Plan.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. From 1 day to 6 weeks . A Request for Public Assistance must be submitted by the applicant at the Applicants' Briefing or within 30 days of the respective area being designated in the emergency declaration or major disaster declaration for the Public Assistance Program.

Appeals:

recipients of Public Assistance funds awarded. Program Performance Reports must be submitted quarterly for Public Assistance. Recipients need to plan for the due dates and pass-through entities need to make sure subrecipients submit reports with enough time for the pass-through entity to complete reports and get them into FEMA on time. PA Recipients must submit Large Project Quarterly Progress Reports (QPR) on all open Large Projects quarterly. This is a tool that allows FEMA and the Recipient to track the progress of all Large Projects. The Recipient, once it receives the report, must submit the QPR to FEMA no later than 30 days after the end of each quarter. Recipients must also submit Federal Financial Reports (FFRs) (SF-425s) quarterly to the respective FEMA Regional Office. The FFR provides the status of funds for the prime award, the Recipients expenditure drawdowns, and whether the Recipient is meeting its cost-share requirements. Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Recipient and Subrecipients are subject to Federal and non-Federal audits. Records are subject to audit by State or Territorial government auditors, FEMA, the U.S. Department of Homeland Security Office of Inspector General (OIG), and the U.S. Government Accountability Office (GAO). FEMA may adjust project funding based on audit findings. A single audit or program-specific audit is performed when a Recipient or Subrecipient expends \$750,000 or more in Federal funds during its fiscal year. The Department of Homeland Security's OIG conducts independent audits and investigations on FEMA programs, operations, activities, and functions; how Recipients and Subrecipients expend Federal funds; and oversight of non-Federal audits such as single audits. The OIG evaluates activities to identify, deter, and address fraud, waste, and abuse. The OIG has authority to audit any project, including Alternative Procedures Projects. The GAO is the investigatory arm of Congress and is under the direction of the Comptroller General of the United States. GAO is an independent, nonpartisan agency that investigates how the Federal Government spends taxpayer dollars. Its mission is to help improve the performance and accountability of the Federal Government. Although the GAO usually audits FEMA programs, it has authority to audit any project.

Records:

Subrecipients must maintain all source documentation for each Project for 3 years after the date of transmission of the final expenditure report for the project completion as certified by the Recipient. The Recipient must keep all financial and program documentation for 3 years after the date it submits the final SF-425. There are several exceptions to this timeframe that may require longer retention periods, including: Records for real property and equipment acquired with federal funds must be retained for three years after final disposition of the property. See 2 C.F.R. 200.334(c). If any litigation, claim, or audit is started before the expiration of the three-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken. See 2 C.F.R. 200.334(a). The record retention period will be extended if the recipient is notified in writing of the extension by FEMA, the cognizant or oversight agency for audit, or the cognizant agency for indirect costs. See 2 C.F.R. 200.334(b). Where FEMA requires recipients to report program income after the period of performance ends, the program income record retention period begins at the end of the recipients fiscal year in which program income is earned. See 2 C.F.R. 200.334(e). When records are transferred to or maintained by the Federal awarding agency or pass-through entity, the 3-year retention requirement is not applicable to the non-Federal entity. See 2 C.F.R. 200.334(d).

OBJECTIVES:

ASSISTANCE LISTINGS DESCRIPTIONS

The objective of the program is to provide funding support to states, Indian tribal governments, territories, communities, and other eligible applicants to reduce the risk of future damage, loss of life and property in any area affected by a major disaster. This program promotes implementation of activities designed to reduce injuries, loss of life, hardship, suffering, and damage and destruction to property from natural hazards which is consistent with DHS QHSR Goal 5.1, Mitigate Hazards and links to Presidential Policy Directive (PPD-8) - National Preparedness, Security, Resilience, Prevention, Mitigation, Response, Protection, and Recovery.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Except for HMGP Postfire which is triggered by a Stafford Act, Section 420 Fire Management Assistant Grant (FMAG) declaration, restricted to major Presidential-declared disasters, such as an earthquake, hurricane, tornado, or wildfire.

Following a major disaster Presidential declaration, grants may be made for: construction activities that will result in reduction of risk from natural hazards; retrofitting of facilities; acquisition of real property, relocation, demolition of structures; elevation of residential structures; major or minor flood reduction projects; structural retrofitting of existing structures; safe room construction; initial implementation of vegetation management programs; elevation or dry flood-proofing of non-residential structures; initial training of building officials and other professionals to facilitate the implementation of newly adopted State or local mitigation standards and codes, and mitigation planning actions. Projects must meet all eligibility criteria including technical feasibility; cost-effectiveness; compliance with environmental and historic preservation laws and regulations and other program requirements. Please see the Hazard Mitigation Assistance (HMA) Guidance on the FEMA website for detailed information:

<http://www.fema.gov/media-library/assets/documents/103279>.

Applicant Eligibility:

Government - General; State (includes District of Columbia, public institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Government - General, State (includes District of Columbia), Federally Recognized Indian Tribal Governments, certain U.S. Territories States Federally-recognized Indian tribal governments, Territories in designated major disaster areas shall serve as the Applicant to FEMA for HMGP assistance. A State is defined as any State of the United States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands. Applicants that have a current, approved Standard State/Tribal Mitigation Plan at the time of the declaration of a major disaster are eligible to receive up to 15% of the value of all other disaster assistance grants for HMGP. Applicants that have an approved Enhanced State/Tribal Mitigation Plan in effect may receive 20 percent of the value of all other disaster assistance grants for HMGP.

Beneficiary Eligibility:

U.S. Territories; Individual/Family; Native American Organizations; Homeowner; Land/Property Owner; State; Local; Public nonprofit institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories, Individual/Family, Homeowner, Land/Property Owner, State, Local, Public nonprofit institution/organization, Federally Recognized and non-Federally recognized Indian Tribal Governments, State and local governments; other political subdivisions such as a special districts, private, non-profit organizations that own or operate a private, non-profit public facility; certain qualified conservation organizations may apply as subapplicants for acquisition or relocation for open space projects; Indian tribes (non-Federally-recognized) or authorized tribal organizations and Alaska Native villages or organizations, but not Alaska native corporations with ownership vested in private individuals in designated emergency or major disaster areas are eligible to apply as subapplicants for assistance. All interested subapplicants must apply to the Applicant, who then applies to FEMA. Homeowners are not eligible to apply as subapplicants but may request their local jurisdiction to apply on their behalf. See program guidance.

Credentials/Documentation:

Refer to HMA program guidance document. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is

required for this listing. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Preapplication coordination is required. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Rather than require applicants to submit a separate pre-application in order for FEMA and the State to identify the need for assistance, FEMA will employ the administrative and Mitigation plans in this manner. When States submit plans for review and indicate their intention to apply for assistance to implement one or more projects described in it, FEMA will use the plan to identify a need for funding assistance, and to discourage applications that are unlikely to be funded. An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. 2 CFR Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. A major Disaster Presidential Declaration must be issued, which is then followed by an application for the HMGP through the Governor's Authorized Representative to the Regional Administrator of FEMA. For applications under HMGP Postfire, a Stafford Act Section 420 Fire Mitigation Assistance Grant (FMAG) declaration must be issued. A major disaster Presidential declaration is not required for HMGP Postfire.

Award Procedure:

Funds are allocated from the President's Disaster Relief Fund for use in an area under a major disaster Presidential declaration. The FEMA Regional Administrator approves grants from this allocation on the basis of project applications from eligible applicants. Applicants are responsible for distributing funds to subapplicants.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with the provisions of 2 CFR Part 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. These audits are due to the cognizant Federal agency, submitted through the Federal Audit Clearinghouse, not later than 9 months after the end of the grantees fiscal year.

Records:

Financial records, supporting documents, statistical records, and all other non-federal entity records pertinent to a federal award generally must be maintained for at least three years from the date the final Federal Financial Report (FFR) is submitted. See 2 C.F.R. 200.333. Further, if the recipient does not submit a final FFR and the award is administratively closed, FEMA uses the date of administrative closeout as the start of the general record retention period. The record retention period may be longer than three years or have a different start date in certain cases. These include: Records for real property and equipment acquired with federal funds must be retained for three years after final disposition of the property. See 2 C.F.R. 200.333(c). If any litigation, claim, or audit is started before the expiration of the three-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken. See 2 C.F.R. 200.333(a). The record retention period will be extended if the recipient is notified in writing of the extension by FEMA, the cognizant or oversight agency for audit, or the cognizant agency for indirect costs. See 2 C.F.R. 200.333(b). Where FEMA requires recipients to report program income after the period of performance ends, the program income record retention period begins at the end of the recipients fiscal year in which program income is earned. See 2 C.F.R. 200.333(e). For indirect cost rate proposals, cost allocation plans, or other rate computations records, the start of the record retention period depends on whether the indirect cost rate documents were submitted for negotiation. If the indirect cost rate documents were submitted for negotiation, the record retention period begins from the date those documents were submitted for negotiation. If indirect cost rate documents were not submitted for negotiation, the record retention period begins at the end of the recipients fiscal year or other accounting period covered by that indirect cost rate. 97.041 National Dam Safety Program

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Title The National Dam Safety Program Act, , Public Law Pub. L. No. 104-303 (codified as amended at 33 U.S.C. 467-467n)

OBJECTIVES:

Both the National Dam Safety Program (NDSP) state assistance grant and the Rehabilitation of High Hazard Potential Dams (HHPD) grant programs improve the safety of dams in the United States and strive to achieve the key objective of national dam safety hazard reduction. Both grant programs implement the

Department of Homeland Security and Presidential Preparedness Directive (PPD)-8 objective of hazard mitigation, to develop and maintain those capabilities necessary to reduce the loss of lives and property by lessening the impact of the failure of dams. NDSP State Assistance Grant Program: The NDSP accomplishes this objective by supporting state and U.S. territory governments in the development and maintenance of dam safety programs, and enabling states and U.S. territories to take precautions that ensure the safety of the dams, such as the development of regulatory authority for the design, construction, operation, and maintenance of dams, the undertaking of dam inspections, and development of Emergency Action Plans (EAPs) for dams. Rehabilitation of HHPD Grant Program: The HHPD grant program accomplishes this objective by providing technical, planning, design, and construction assistance in the form of grants to non-Federal governmental organizations or nonprofit organizations. The grants will be used for planning for rehabilitation of eligible high hazard potential dams to address risk and bring the dams into compliance with state dam safety regulations.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

For costs associated with the establishment and maintenance of effective State dam safety programs. Restrictions: Funds may only be used for the purposes set forth in the grant and must be consistent with the statutory authority for the award. Grant funds must be used in accordance with 2 C.F.R. Part 200. Funds may not be used for matching funds for other Federal grants or cooperative agreements. Funds may not be used for lobbying, or intervention in federal regulatory or adjudicatory proceedings. Funds awarded under this grant may not be used to construct or repair any Federal or non-Federal dam. In addition, funds may not be used to sue the Federal government or any other government entity. Federal employees are prohibited from serving in any capacity (paid or unpaid) on any proposal submitted under this program. Federal employees may not receive funds under this award. Pre-award costs are allowable only with the written consent of DHS and such costs must be reflected in the award agreement. For complete information on Uses and Restrictions, refer to program guidance. Eligible applicants are States, as defined by the National Dam Safety Program Act. This includes the 50 States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and any other territory or possession of the United States that has a legislated dam safety program. Eligible states and territories must be working toward and/or developing a State dam safety program that is 1) authorized and budgeted by State or territory legislation and 2) includes, at a minimum, the 10 specified criteria and budgeting requirements outlined in the program guidance. For complete information regarding applicant eligibility and the 10 specified criteria and budgeting requirements refer to program guidance. The grant is intended to encourage dam safety through assisting States to develop and establish effective dam safety programs. Funding provided is for approved State Dam Safety Program activities.

Applicant Eligibility:

Government - General; All States and U.S. territories with a legislated and approved dam safety program are eligible for the National Dam Safety Program Assistance.

Beneficiary Eligibility:

State; Local; The State Dam Safety Program Office of eligible States.

Credentials/Documentation:

NDSP State Assistance Grant Program: For a State to be eligible for assistance under the NDSP program, the state must be working toward and/or developing a dam safety program that 1) is authorized and budgeted by State legislation and 2) includes, at a minimum, the 10 specified criteria and budgeting requirements outlined in the program guidance. For complete information, refer to the Department of Homeland Security (DHS) Notice of Funding Opportunity (NOFO) FY 2021 National Dam Safety Program. Rehabilitation of HHPD Grant Program: For a state to be eligible for assistance under the HHPD program, the state must submit a list of all eligible dams in that state. For each eligible dam, the state must submit official documentation that the dam owner has been notified of the deficiencies and unacceptable risk to the public that make the dam eligible for HHPD grant funding. Official documentation must be on official state or state dam safety program letterhead and may include official citations issued from the state dam safety program to the dam owner. Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503 For fiscal years beginning on or after December 26, 2014, recipients that expend \$750,000.00 or more from all federal funding sources during their fiscal year are required to submit an organization-wide financial and compliance audit report, also known as a single audit report. The audit must be performed in accordance with the requirements of Government and Accountability Offices (GAO) Government Auditing Standards, located at <https://www.gao.gov/yellowbook/overview>, and the requirements of Subpart F of 2 C.F.R. Part 200, located at <http://www.ecfr.gov/cgi-bin/text-idx?node=sp2.1.200.f>.

Records:

Financial records, supporting documents, statistical records, and all other non-federal entity records pertinent to a federal award generally must be maintained for at least three years from the date the final Federal Financial Report (FFR) is submitted. See 2 C.F.R. 200.333. Further, if the recipient does not submit a final FFR and the award is administratively closed, FEMA uses the date of administrative closeout as the start of the general record retention period. The record retention period may be longer than three years or have a different start date in certain cases. These include: Records for real property and equipment acquired with federal funds must be retained for three years after final disposition of the property. See 2 C.F.R. 200.333(c). If any litigation, claim, or audit is started before the expiration of the three-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken. See 2 C.F.R. 200.333(a). The record retention period will be extended if the recipient is notified in writing of the extension by FEMA, the cognizant or oversight agency for audit, or the cognizant agency for indirect costs. See 2 C.F.R. 200.333(b). Where FEMA requires recipients to report program income after the period of performance ends, the program income record retention period begins at the end of the recipients fiscal year in which program income is

97.042 Emergency Management Performance Grants

EMPG,

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

OBJECTIVES:

The FY 2021 Emergency Management Performance Grant (EMPG) Program is one of the grant programs that constitute the Department of Homeland Security

(DHS)/Federal Emergency Management Agency (EFMA) focus on all-hazards emergency preparedness. These grant programs are part of a comprehensive set of measures authorized by Congress and implemented by the Administration. Among the five basic homeland security missions noted in the DHS Quadrennial Homeland Security Review, the EMPG supports the goal to Strengthen National Preparedness and Resilience. The 2018-2022 FEMA Strategic Plan creates a shared vision for the field of emergency management and sets an ambitious, yet achievable, path forward to unify and further professionalize emergency management across the country. The EMPG Program supports the goals of Building a Culture of Preparedness and Ready the Nation for Catastrophic Disasters. The purpose of EMPG is to provide Federal funds to states to assist state, local, territorial, and tribal governments in preparing for all hazards, as authorized by Section 662 of the Post-Katrina Emergency Management Reform Act (6 U.S.C. 762) and the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.). Title VI of the Stafford Act authorizes DHS/FEMA to make grants for the purpose of providing a system of emergency preparedness for the protection of life and property in the United States from all hazards and to vest responsibility for emergency preparedness jointly in the Federal Government, states, and their political subdivisions. The Federal Government, through EMPG, provides direction, coordination, and guidance, and provides necessary assistance, as authorized in this title, to support a comprehensive all-hazards emergency preparedness system. The FY 2021 EMPG Program will provide Federal funds to assist state, local, tribal, and territorial emergency management agencies to obtain the resources required to support implementation of the National Preparedness System and the National Preparedness Goal (the Goal) of a secure and resilient Nation. EMPG Program objectives include 1) closing capability gaps that are identified in the states or territories most recent Stakeholder Preparedness Review (SPR), and 2) building or sustaining those capabilities that are identified as high priority through the Threat and Hazard Identification and Risk Assessment (THIRA)/SPR process and other relevant information sources. The American Rescue Plan Act (ARPA) of 2021 provides an extra \$100 million in funding for the EMPG-ARPA Program to assist State, local, tribal, and territorial emergency management agencies in their continuing efforts with preventing, preparing for, and responding to the Coronavirus Disease 2019 (COVID-19) public health emergency. Funding will support planning and operational readiness for COVID-19 preparedness and response, as well as the development of tools and strategies for prevention, preparedness, and response, and ensure ongoing communication and coordination among federal, State, local, tribal, and territorial partners throughout the response. In addition, in FY 2020, the Coronavirus Aid Relief and Economic Security Act provided supplemental EMPG funding (EMPG-S) to assist State, local, tribal, and territorial emergency management activities supporting the prevention of, preparation for, and response to the COVID-19 public health emergency.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

DHS grant funds may only be used for the purpose set forth in the grant, and must be consistent with the statutory authority for the award.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); U.S. Territories and possessions (includes institutions of higher education and hospitals); All EMPG and EMPG-ARPA applicants are required to develop and submit a Work Plan as described in the EMPG Work Plan section of the Preparedness Grants Manual (PGM). The submitted Work Plan must address all the information requirements included in the template, the FY 2021 EMPG Program Notice of Funding Opportunity (NOFO)/FY 2021 EMPG-ARPA NOFO, and PGM. Recipients shall ensure that their EMPG Program Work Plans and Integrated Preparedness Plans (IPPs) align with and are complementary to one another and are used in tandem to support shared priorities for building and sustaining the state/territories preparedness capabilities. States/territories must coordinate with the FEMA Regional Administrator (RA) to identify 3-5 mutually agreed priorities, which will serve as the primary focus for developing the required Work Plan. Applicants are required to account for the supplemental EMPG-ARPA allocation in a Work Plan. Additionally, new for FY 2021, recipients will set outcome-oriented performance goals for closing capability gaps related to the three to five priorities agreed upon with the region, aligning funding with high-priority strategic preparedness needs. An outcome-oriented approach will allow recipients

to define success, benchmark their projects, and measure their progress in building capability. Prior to submission, the applicant must work with the FEMA Regional Administrator, or designated FEMA Regional Program Manager, to ensure that appropriate regional and state/territory priorities are effectively addressed in the Work Plan. All EMPG and EMPG-ARPA Work Plans will require final approval by the applicable FEMA Regional Administrator. EMPG Regional Program Managers will work closely with states/territories to monitor Work Plans during the performance period and may request further documentation from the recipients to clarify the projected work plan. In addition, the applicable EMPG Regional Program Manager must approve final Work Plans before States may draw down EMPG or EMPG-ARPA Program funds.

Beneficiary Eligibility:

U.S. Territories; State; Local; Federally Recognized Indian Tribal Governments; Funding under this program is ultimately used by emergency management organizations and programs of States, the District of Columbia, territories and possessions of the United States, local, and Indian Tribal governments.

Credentials/Documentation:

In addition, applicants must submit a Program Work Plan. The Work Plan requirements are outlined in the applicable EMPG NOFO and the PGM, which are available online at <http://www.fema.gov/grants>. The EMPG NOFO is also available on www.grants.gov. Notice of Funding Opportunities (NOFO) for this listing will be posted on Grants.gov.

Award Procedure:

Applications or plans are reviewed by DHS/FEMA program and administrative staff. Any issues or concerns noted in the application will be negotiated with the successful applicant prior to award being issued. All DHS/FEMA grant recipients are required to comply with DHS Standard Administrative Terms and Conditions. Upon approval of an application, the award will be made in the form of a grant. The date the approval of award is entered in the system is the award date. Notification of award approval is made through the ND Grants system through an automatic e-mail to the recipient point of contact listed in the initial application. Once an award has been approved and recorded in the system, a notice is sent to the authorized grant official. The authorized grant official should carefully read the award package for instructions on administering the grant and to learn more about the terms and conditions associated with responsibilities under Federal awards. Reports:

Recipients are responsible for providing updated performance reports on a quarterly basis as an attachment in ND Grants. The Performance Progress Report (PPR) should report on progress toward completing activities and projects as outlined in the approved Work Plan, to include: A brief narrative of overall project(s) status A summary of project expenditures A description of any potential issues that may affect project completion Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund drawdowns may be withheld if these reports are delinquent. The final FFR is due 120 days after the end date of the performance period. Recipients are responsible for providing updated performance reports to FEMA using a Microsoft Word (Word) document summary attached in ND Grants, and this must be done on a quarterly basis. The Quarterly Performance Progress Reports must be based on the approved EMPG Work Plan and are due no later than 30 days after the end of the quarter (i.e., on January 30, April 30, July 30, and October 30). Recipients must complete the summary of activities and submit it as an attachment to the ND Grants system. Recipients are required to report quarterly on progress toward completing activities and projects approved in their EMPG Work Plans, how expenditures support maintenance and sustainment of core capabilities, and progress made toward implementing the National Preparedness System. This includes reporting on the following information: List of completed training courses and exercises and the Training and Exercise Data Table Percent completion of the Training and Exercise Plan (TEP) outlined in the EMPG Work Plan Grantees are obligated to submit various financial and programmatic reports as a condition of their award acceptance. Please see below for a summary of financial and/or programmatic reports as required. Future awards and funds drawdown may be withheld if these reports are delinquent, demonstrate lack of progress, or are insufficient in detail. Grant recipients will be monitored periodically by FEMA staff, both programmatically and financially, to ensure that the project goals, objectives, performance requirements, timelines, milestone completion, budgets, and other related program criteria are being met. Monitoring may be accomplished through either a desk-based review or on-site monitoring visits, or both. Monitoring will involve the review and analysis of the financial, programmatic, performance, compliance and administrative processes, policies, activities, and other attributes of each Federal assistance award and will identify areas where technical assistance, corrective actions and other support may be needed.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503 In accordance with the provisions of 2 C.F.R. Part 200, Subpart F - Audit Requirements, non-federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 C.F.R. 200.503 FEMA grant recipients are subject to audit oversight from multiple entities including the DHS OIG, the GAO, the pass-through entity, or independent auditing firms for single audits, and may cover activities and costs incurred under the award. Auditing agencies such as the DHS OIG, the GAO, and the pass-through entity, if applicable, and FEMA in its oversight capacity, must have access to records pertaining to the FEMA award. Recipients and subrecipients must retain award documents for at least three years from the date the final FFR is submitted, and longer in some cases, subject to the requirements of 2 C.F.R. 200.334. In the case of administrative closeout, documents must be retained for at

least three years from the date of closeout, or longer, subject to 2 C.F.R. 200.334. If documents are retained longer than the required retention period, the DHS OIG, GAO, and pass-through entity, as well as FEMA in its oversight capacity, have the right to access these records as well. See 2 C.F.R. 200.334, 200.337. Additionally, non-federal entities must comply with the single audit requirements at 2 C.F.R. Part 200, Subpart F. Specifically, non-federal entities, other than for-profit subrecipients, that expend \$750,000 or more in federal awards during their fiscal year must have a single or program-specific audit conducted for that year in accordance with Subpart F. 2 C.F.R. 200.501. A single audit covers all federal funds expended during a fiscal year, not just FEMA funds. The cost of audit services may be allowable per 2 C.F.R. 200.425, but non-federal entities must select auditors in accordance with 2 C.F.R. 200.509, including following the proper procurement procedures. The objectives of single audits are to: Determine if financial statements conform to generally accepted accounting principles (GAAP); Determine whether the schedule of expenditures of federal awards is presented fairly; Understand, assess, and test the adequacy of internal controls for compliance with major programs; and Determine if the entity complied with applicable laws, regulations, and contracts or grants. For single audits, the auditee is required to prepare financial statements reflecting its financial position, a schedule of federal award expenditures, and a summary of the status of prior audit findings and questioned costs. The auditee also is required to follow up and take appropriate corrective actions on new and previously issued but not yet addressed audit findings. The auditee must prepare a corrective action plan to address the new audit findings. 2 C.F.R. 200.508, 200.510, 200.511. Non-federal entities must have an audit conducted, either single or program-specific, of their financial statements and federal expenditures annually or biennially pursuant to 2 C.F.R. 200.504. Non-federal entities must also follow the information submission requirements of 2 C.F.R. 200.512, including submitting the audit information to the Federal Audit Clearinghouse within the earlier of 30 calendar days after receipt of the auditors report(s) or nine months after the end of the audit period. The audit information to be submitted include the data collection form described at 2 C.F.R. 200.512(b) and Appendix X to 2 C.F.R. Part 200 as well as the reporting package described at 2 C.F.R. 200.512(c). The non-federal entity must retain one copy of the data collection form and one copy of the reporting package for three years from the date of submission to the Federal Audit Clearinghouse. 2 C.F.R. 200.512; see also 2 C.F.R. 200.517 (setting requirements for retention of documents by the auditor and access to audit records in the auditors possession). FEMA, the DHS OIG, the GAO, and the pass-through entity, if applicable, as part of monitoring or as part of an audit, may review a non-federal entity's compliance with the single audit requirements. In cases of continued inability or unwillingness to have an audit conducted in compliance with 2 C.F.R. Part 200, Subpart F, FEMA and the pass-through entity, if applicable, are required to take appropriate remedial action under 2 C.F.R. 200.339 for noncompliance, pursuant to 2 C.F.R. 200.505.

Records:

Financial records, supporting documents, statistical records, and all other non-federal entity records pertinent to a federal award generally must be maintained for at least three years from the date the final Federal Financial Report (FFR) is submitted. See 2 C.F.R. 200.334. Further, if the recipient does not submit a final FFR and the award is administratively closed, FEMA uses the date of administrative closeout as the start of the general record retention period. The record retention period may be longer than three years or have a different start date in certain cases. These include: Records for real property and equipment acquired with federal funds must be retained for three years after final disposition of the property. See 2 C.F.R. 200.334(c). If any litigation, claim, or audit is started before the expiration of the three-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken. See 2 C.F.R. 200.334(a). The record retention period will be extended if the recipient is notified in writing of the extension by FEMA, the cognizant or oversight agency for audit, or the cognizant agency for indirect costs. See 2 C.F.R. 200.334(b). Where FEMA requires recipients to report program income after the period of performance ends, the program income record retention period begins at the end of the recipients fiscal year in which program income is earned. See 2 C.F.R. 200.334(e). For indirect cost rate proposals, cost allocation plans, or other rate computations records, the start of the record retention period depends on whether the indirect cost rate documents were submitted for negotiation. If the indirect cost rate documents were submitted for negotiation, the record retention period begins from the date those documents were submitted for

ASSISTANCE LISTINGS DESCRIPTIONS

negotiation. If indirect cost rate documents were not submitted for negotiation, the record retention period begins at the end of the recipients fiscal year or other accounting period covered by that indirect cost rate. See 2 C.F.R. 200.334(f).

97.043 State Fire Training Systems Grants

National Fire Academy State Fire Training Grants,

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF AUTHORIZATION:

Homeland Security Act of 2002, , Public Law 107-296, U.S.A. Patriot Act of 2001, , Public Law 107-56, Federal Fire Prevention and Control Act of 1974, Title 21, , Public Law 93-498, Title Federal Fire Prevention and Control Act of 1974,

OBJECTIVES:

The National Fire Academy (NFA) promotes the professional development of the fire and the emergency response community and its allied professionals. NFA supports State and local training organizations to fulfill their obligation to the career and volunteer fire and emergency services. NFA also develops, delivers, and manages educational and training programs having a national focus that are outside State and local training missions or that exceed State and local capabilities because of cost or audience. The programs are designed to support PPD-8 through training programs which support State and local response agencies to prevent, mitigate, prepare for, and respond to local, regional, and national emergencies. NFA training helps to strengthen the States abilities to meet individual training mandates and bridge the gaps in their training programs with delivery of NFA courses and programs.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Grant funds are to be used within each State to deliver NFA training courses/programs and for marketing, administrative costs, and electronic feedback of student data. Each State Fire Training System (State) will receive a total of \$20,000 with \$15,000 earmarked for delivery of NFA training programs and \$5,000 for marketing, administrative costs, and electronic feedback of student data. DHS grant funds may only be used for the purpose set forth in the grant, and must be consistent with the statutory authority for the award. Grant funds may not be used for matching funds for other federal grants / cooperative agreements, or for lobbying or intervention in federal regulatory or adjudicatory proceedings. In addition, federal funds may not be used to sue the federal government or any other government entity. Federal employees are prohibited from serving in any capacity (paid or unpaid) on any proposal submitted under this program. Federal employees may not receive funds under this award. States must use funds for the purpose of delivering NFA-developed courses. Pre-award costs are allowable only with the written consent of DHS and such costs must be reflected in the award agreement. See program guidance for information on eligibility. Applicant eligibility is restricted to the 50 State Fire Training Systems.

Applicant Eligibility:

Other public institution/organization; Representatives from the 50 State Fire Training Systems.

Beneficiary Eligibility:

State; Local; Specialized Group; fire and emergency response personnel.

Credentials/Documentation:

Credentials: Applicants must provide a work plan that includes a narrative project description along with the proposed costs for the project. The work plan will be used as a guide by the program office to approve / disapprove payment requests, therefore, the plan must be specific and must align with the amount of funding requested / received for the project description. Documentation: All beneficiaries / students must submit the standard FEMA Form 75-5 (long form) to the State or sponsoring host organization prior to the start of the class. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. FEMA participates in the Administrations e-government initiative. As part of that initiative, all applicants must file their application using the Federal electronic storefront portal Grants.gov. Eligible applicants must apply through this portal, accessible on the Internet at <http://www.grants.gov>. Only applications made through www.grants.gov will be accepted. The on-line application requires (among other documentation), the Standard Forms 424, Project Narrative, and Budget. For complete information on all required forms, attachments, submission instructions / requirements, deadlines, and other procedural information, refer to program guidance.

Award Procedure:

ASSISTANCE LISTINGS DESCRIPTIONS

The application will be reviewed and recommended for funding by the DHS/FEMA/USFA/NFA Project Officer based on the program criteria identified in the announcement / guidance. Notification of award is made through the electronic Non Disaster Grant System (NDGrants). Once an award has been approved, a notice is sent to the authorized grantee official. Awards are subject to certain administrative, national policy, and cost principle requirements delineated in 2 CFR For complete information on the award procedure, and CFR (and other) requirements, refer to program guidance.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503 For fiscal years beginning on or after December 26, 2014, recipients that expend \$750,000.00 or more from all federal funding sources during their fiscal year are required to submit an organization-wide financial and compliance audit report, also known as a single audit report. The audit must be performed in accordance with the requirements of Government and Accountability Offices (GAO) Government Auditing Standards, located at <https://www.gao.gov/yellowbook/overview>, and the requirements of Subpart F of 2 C.F.R. Part 200, located at <http://www.ecfr.gov/cgi-bin/text-idx?node=sp2.1.200.f>

Records:

Grant records shall be retained for a period of at least 3 years from the day the recipient submits its final expenditure report. Grant records include financial and program/progress reports, support documents, statistical records, and other documents that support the activity and/or expenditure of the recipient or sub-recipient under the award. 2 C.F.R. 200.3343 requires the retention of records beyond 3 years of the date of the final expenditure report for other reasons as well. The record retention period may be longer than three years in certain cases or the retention period might start a different point in time. These include: Records for real property and equipment acquired with Federal funds must be retained for 3 years after final disposition of the property. See 2 C.F.R. 200.3334(c). If any litigation, claim, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken. See 2 C.F.R. 200.3334(a). The record retention period will be extended if the recipient is notified in writing of the extension by DHS/FEMA, the cognizant or oversight agency for audit, or the cognizant agency for indirect costs. See 2 C.F.R. 200.3343(b). Where DHS/FEMA requires recipients to report program income after the period of performance ends, the program income record retention period begins at the end of the recipients fiscal year in which program income is earned. See 2 C.F.R. 200.3334(e). For indirect cost rate proposals, cost allocation plans, or other rate computation records, the start of the record retention period depends on whether the indirect cost rate documents were submitted for negotiation. If the indirect cost rate documents were submitted for negotiation, the record retention period begins from the date those documents were submitted for negotiation. If indirect cost rate documents were not

submitted for negotiation, the record retention period begins at the end of the recipients fiscal year or other accounting period covered by that indirect cost rate. See 2 C.F.R. 200.3334(f).

97.044 Assistance to Firefighters Grant

(Fire Grants),

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF AUTHORIZATION:

The Federal Fire Prevention and Control Act of 1974, , Public Law 112-239, 15 USC Code 2229 et seq. Title Coronavirus Aid, Relief, and Economic Security (CARES) Act, Div. B, Public Law 116-136,

OBJECTIVES:

The purpose of the Assistance to Firefighters Grants (AFG) Program is to enhance the safety of the public and firefighters with respect to fire and fire-related hazards by providing direct financial assistance to eligible fire departments, nonaffiliated emergency medical service (EMS) organizations, and State Fire Training Academies (SFTA) for critically needed resources to equip and train emergency personnel to recognized standards, enhance operational efficiencies, foster interoperability, and support community resilience. The purpose of the Fire Prevention and Safety (FP&S) Grant Program is to enhance the safety of the public and firefighters with respect to fire and fire-related hazards and support firefighter health and safety research and development by providing financial assistance directly to eligible fire departments, national, regional, state, local, tribal and non-profit organizations such as academic (e.g., universities), public health, occupational health, and injury prevention institutions.

TYPES OF ASSISTANCE:

ASSISTANCE LISTINGS DESCRIPTIONS

Project Grants

USES AND USE RESTRICTIONS:

AFG Program grants are both competitive and discretionary and are direct financial assistance awards to support firefighting and EMS operations and safety, vehicle acquisition and regional projects. Specific activities funded include professional training, wellness and fitness programs, equipment, PPE, modifications to facilities for first responder safety, other equipment and supplies that support firefighting and EMS operations and safety; firefighting vehicles, and emergency vehicles. Grants also are awarded for the FP&S Program are awarded to support activities to protect the public from fire and fire-related hazards. Specific activities funded include general public education and awareness; code enforcement and awareness; fire and arson investigation; national, state, and regional programs and studies; and firefighter safety and research and development. Grantees must adhere to the restrictions stated in the NOFO for the program and fiscal year in which they receive the award. Furthermore, as a condition of receiving an award, recipients also must agree to adhere to the award articles of agreement that require grantees to use the funds for the purpose stated in the awarded grant applications, and to meet the special conditions specified in the articles of agreement.

Applicant Eligibility:

Government - General; Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; U.S. Territories and possessions (includes institutions of higher education and hospitals); Specialized group (e.g. health professionals, students, veterans); Eligible applicants for the AFG program are limited to fire departments, nonaffiliated EMS organizations, and SFTAs operating in any of the 50 States plus the District of Columbia, the Commonwealth of the Northern Mariana Islands, the Virgin Islands, Guam, American Samoa, and Puerto Rico. A "fire department" is defined as an agency or organization that has a formally recognized arrangement with a State, territory, local, or tribal authority (city, county, parish, fire district, township, town, or other governing body) to provide fire suppression to a population within a fixed geographical area on a first-due basis. A "nonaffiliated EMS organization" is defined as a public or private nonprofit emergency medical services organization that provides direct emergency medical services, including medical transport, to a specific geographic area on a first-due basis but is not affiliated with a hospital and does not serve a geographic area where emergency medical services are adequately provided by a fire department. A State Fire Training Academy is defined as the primary state fire training academy, agency, or institution, for each state; which provides entity-wide delivery of fire training (and EMS training if applicable) as specified by legislative authorization, by general statutory authorization or charter, or is ad-hoc in nature with the general acceptance of the fire service.

Beneficiary Eligibility:

U.S. Territories; Specialized group (e.g. health professionals, students, veterans); State; Local; The ultimate beneficiaries of this program are the local or tribal communities serviced by the applicants, including, but not limited to, local businesses, homeowners and property owners. Additionally, children under 16 years of age, senior citizens, and firefighters would be the beneficiaries since these groups are the targeted "risk groups" for the fire prevention program.

Credentials/Documentation:

Applicant must certify that they are an eligible applicant, i.e., a fire department, as described in program guidance documents: fire departments; and national, regional, state, local, federally recognized tribal, and non-profit organizations that are recognized for their experience and expertise in fire prevention and safety programs and activities. Both private and public non-profit organizations are eligible to apply for funding in the Fire Prevention and Safety Grant Program. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is excluded from coverage under E.O. 12372. Preapplication coordination is required. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit

Requirements for Federal Awards applies to this program. NOFOs for The AFG and FP&S NOFOs are published on grants.gov and fema.gov. The online applications are available through the AFG Programs FEMA GO (FEMA Grants Outcomes) application portal, at <https://go.fema.gov>. All applicants for this award must: 1. Be registered and active in System for Award Management (SAM) in order to apply; 2. Provide a valid DUNS number in its application; and 3. Continue to maintain an active SAM registration with current information at all times during which it has an active federal award or an application or plan under consideration by DHS FEMA.

Award Procedure:

Submitted applications are reviewed by peer review panelists and then by DHS program and administrative staff. Any issues or concerns noted in the application will be negotiated with the successful applicant prior to the award being issued.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Refer to the program guidance and application kit document.

Appeals:

Other. Applicants whose grant requests are not recommended for funding after the peer review panel evaluation may request a reconsideration of that decision. Such a request may be successful if it is determined that the rating criteria were not appropriately applied, or there was a flaw in the competitive process that unfairly disadvantaged the applicant, or there was human error in the processing of the grant application. Requests for reconsideration must be submitted in writing within 30 days of the date of the notification of denial.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title , Chapter , Part , Subpart .Public Law .Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. AFG Matching Requirements: Applicants who protect a population of over 1,000,000 are required to provide a nonfederal cost-share of not less than 15 percent of the grant awarded. Applicants who protect a population between 20,000 and 1,000,000 are required to provide a nonfederal cost-share of not less than 10 percent of the grant awarded. Applicants who protect a population of less than 20,000 are required to provide a nonfederal cost-share of not less than 5 percent of the grant awarded. Generally, Nno waivers of this requirement will be granted except for fire departments of Insular Areas as provided for in 48 U.S.C. 1469a. FP&S Matching Requirements: An eligible applicant seeking an FP&S Grant Program award to carry out an activity shall agree to make available non-federal funds to carry out such activity in an amount equal to and not less than 5 percent of the grant awarded. This program has MOE requirements, see funding agency for further details. Additional Information: These programs have Maintenance of Effort (MOE) in that grantees/recipients are required to maintain operating expenditures during the grants period of performance in the areas funded by a grant at a level equal to or greater than the average of their operating expenditures in the 2 years preceding the year in which the grant is received. This requirement is intended to ensure that the Federal funds are used to supplement, not supplant, existing resources. Applicants may apply for an economic hardship waiver of these requirements in accordance with the instructions of the applicable NOFO..

Length and Time Phasing of Assistance:

Grants are available during the period of performance, which is 12-36 months. Refer to the NOFOs for specific details. Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. For fiscal years beginning on or after December 26, 2014, recipients that expend \$750,000.00 or more from all federal funding sources during their fiscal year are required to submit an organization-wide financial and compliance audit report, also known as a single audit report. The audit must be performed in accordance with the requirements of Government and Accountability Offices (GAO) Government Auditing Standards, located at <https://www.gao.gov/yellowbook/overview>, and the requirements of Subpart F of 2 C.F.R. Part 200, located at <http://www.ecfr.gov/cgi-bin/text-idx?node=sp2.1.200.f>.

Records:

Financial records, supporting documents, statistical records, and all other non-federal entity records pertinent to a federal award generally must be maintained for at least three years from the date the final Federal Financial Report (FFR) is submitted. See 2 C.F.R. 200.333. Further, if the recipient does not submit a final FFR and the award is administratively closed, FEMA uses the date of administrative closeout as the start of the general record retention period. The record retention period may be longer than three years or have a different start date in certain cases. These include: Records for real property and equipment acquired with federal funds must be retained for three years after final disposition of the property. See 2 C.F.R. 200.333(c). If any litigation, claim, or audit is started before the expiration of the three-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken. See 2 C.F.R. 200.333(a). The record retention period will be extended if the recipient is notified in writing of the extension by FEMA, the cognizant or oversight agency for audit, or the cognizant agency for indirect costs. See 2 C.F.R. 200.333(b). Where FEMA requires recipients to report program income after the period of performance ends, the program income record retention period begins at the end of the recipients fiscal year in which program income is earned. See 2 C.F.R. 200.333(e). For indirect cost rate proposals, cost allocation plans, or other rate computations records, the start of the record retention period depends on whether the indirect cost rate documents were submitted for negotiation. If the indirect cost rate documents were submitted for negotiation, the record retention period begins from the date those documents were submitted for negotiation. If indirect cost rate documents were not submitted for negotiation, the record retention period begins at the end of the recipients fiscal year or other accounting period covered by that indirect cost rate. See 2 C.F.R. 200.333(f).

EXAMPLES OF FUNDED PROJECTS:

2020 The AFG Program funds critically needed fire and EMS personal protective equipment (PPE), Equipment and Vehicle projects that aim to help recipients reach 100% compliance with national, state, and local standards; Facility Modification projects that enhance health and safety of the emergency personnel; and Wellness and Fitness activities that aim to strengthen emergency responders to withstand the demands of all hazardous operations. The FP&S Program funds fire prevention education and training, community risk reduction, fire code enforcement, fire/arson investigation projects, and research and development activities aimed at improving firefighter safety, health, and wellness and reduce firefighter fatalities and injuries.

CRITERIA FOR SELECTING PROPOSALS:

Funding priorities and programmatic criteria for evaluating AFG and FP&S applications are established by FEMA based on the recommendations from the Criteria Development Panel (CDP). Each year, FEMA convenes a panel of fire service professionals to develop funding priorities for the AFG Program. The panel makes recommendations about funding priorities as well as developing criteria for awarding grants. FEMA will rank all complete and submitted applications based on how well they respond to the evaluation criteria. Answers to the applications activity specific questions provide information used to determine each applications ranking. Prior to making a federal award, FEMA is required by 31 U.S.C. 3354, as amended, by the Payment Integrity Information Act of 2019, Pub. L. No. 116-117 (2020); 41 U.S.C. 2313; and 2 C.F.R. 200.206 to review information available through any Office of Management and Budget (OMB)-designated repositories of government-wide eligibility qualification or financial integrity information, including whether the applicant is suspended or debarred. FEMA may also pose additional questions to the applicant to aid in conducting the pre-award risk review. Therefore, application evaluation criteria may include the following risk-based considerations of the applicant: financial stability; quality of management systems and ability to meet management standards; history of performance in managing federal award; reports and findings from audits; and ability to effectively implement statutory, regulatory, or other requirements. Refer to the current fiscal year AFG and FP&S Program NOFOs for specific eligibility and award criteria.

Flood Insurance Act of 1968, , 42 USC Code 4101. Biggert-Waters Flood Insurance Reform Act of 2012, , National Flood Insurance Reform Act of 1994, , Flood Disaster Protection Act of 1973,

OBJECTIVES:

The Cooperating Technical Partners (CTP) Program exists to strengthen and enhance the effectiveness of the National Flood Insurance Program (NFIP). The CTP Program supports efforts to Strengthen National Preparedness and Resilience, one of six main goals of the DHS 2020-2024 Strategic Plan. Additionally, the program supports the National Mitigation Investment Strategy, a supporting document to Presidential Policy Directive (PPD-8) on National Preparedness and

ASSISTANCE LISTINGS DESCRIPTIONS

Strategic Goal One and Two of FEMAs 2018-2022 Strategic Plan, Building a Culture of Preparedness and Ready the Nation for Catastrophic Disaster. It helps achieve these goals by fostering strong federal, state, tribal, territorial, regional, and local partnerships to identify flood risks, reduce flood losses and promote community resiliency. The goals of the CTP Program are to primarily support the mission and objectives of the NFIPs Flood Hazard Mapping Program through FEMAs flood hazard identification and risk assessment programs, including the Risk Mapping, Assessment and Planning (RiskMAP) initiative. The vision for Risk MAP is to deliver quality data that increases public awareness of flood hazard risk and leads to action that reduces flood risk to life and property. The CTP supports Risk MAP to develop flood hazard data and maps for communities that have never had identified risks as well as building on effective flood hazard data and flood insurance rate maps (FIRMS); increase public awareness of risk and potential mitigation options to reduce risk and better inform mitigation planning. Additional information about Risk MAP (including goals, strategies, progress and success stories), can be found on FEMAs website at Risk Mapping, Assessment and Planning (RiskMAP) | FEMA.gov.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Civil Defense/Disaster Prevention and Relief/Emergency Preparedness Assistance may be used for costs associated with Community Engagement and Risk Communication, Program Management, Technical Risk Analysis and Mapping, Letter of Map Revision (LOMR) Review and Special Project activities as detailed in the FY2021 NOFO. Grant funds must be used in accordance with 2 C.F.R. Part 200. Use of funds must be consistent with the statutory authority for the award. Restrictions: The recipient must have in-house staff capabilities in the appropriate technical area for the activity approved in the award. If the work for any portion of a mapping activity is contracted, the recipient of the award must have in-house staff with the technical capability to monitor the contractor(s) and approve the product(s) developed by the contractor(s). Applicants must meet the eligibility criteria outlined in the FY2021 NOFO. This criteria includes (but is not limited to) the requirement that potential partners have existing processes and/or systems in place to support mapping or data collection activities that contribute to flood hazard identification and that potential partners have the demonstrated capability and capacity to implement, or contract, the activities for which funding is being sought. Yes, all funds are discretionary.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Only qualified CTPs are eligible for federal assistance awards through this program. Eligible recipients generally include entities who already perform certain functions in flood risk analysis, flood hazard identification, flood risk communication and mitigation processes in States and local communities to reduce flood losses and protect life and property from the risk of future flood damage. Specifically, eligible CTPs include three main groups: (1) NFIP-participating communities, as defined in 44 CFR 59 (typically this includes State, Tribal and local governments), who are in good standing with the NFIP (i.e., not on probation or suspended); (2) State, local and regional governmental agencies, such as water management districts, river authorities, municipal utility districts, State Universities, etc., whose activities support floodplain management and flood mitigation actions within the NFIP communities they serve; and (3) non-profit organizations whose primary mission is to support the ability of NFIP communities to more effectively understand and manage their flood risk. In accordance with Section 1361 of the National Flood Insurance Act of 1968 (42 U.S.C. 4102), these entities and organizations must have existing facilities and services to carry out studies and investigations with respect to land management and use, flood control, flood zoning and flood damage prevention in flood-prone areas, floodways, building codes and permits, and associated laws, regulations and ordinances. For additional information, see the Eligibility Criteria in the Funding Opportunity Announcement.

Beneficiary Eligibility:

U.S. Territories; Specialized group (e.g. health professionals, students, veterans);

Small business; Private nonprofit institution/organization; Anyone/general public; State; Local; Federally Recognized Indian Tribal Governments; State, local, specialized group, small business, general public.

Credentials/Documentation:

At a minimum, potential recipients must have entered into a signed Partnership Agreement (Memorandum of Agreement) with FEMA confirming they are a partner in FEMAs Cooperating Technical Partners Program to receive funds under the CTP Program. The details for how to enter into a Partnership Agreement with FEMA are described in the FY2021 Notice of Funding Opportunity (NOFO) under Appendix B: Establishing a Partnership Agreement. In addition, an applicant must meet all eligibility criteria to qualify for federal assistance through a cooperative agreement under the CTP Program as defined in the FY2021 NOFO. Potential partners/applicants must meet the criteria outlined in the FY2021 NOFO, including (but not limited to): evidence that they have sufficient technical capability (including credentials or certifications) and capacity necessary to perform program activities, a signed Partnership Agreement with the appropriate FEMA office (Region or HQ), and meet the eligibility requirements. Applicants must be NFIP participating communities in good standing or serve communities in good standing. Documentation: Allowable costs are determined by reference to OMB Uniform Administrative Requirements, 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Non-profits should also consult with FEMA HQ for pre-approval, application information and/or technical assistance. Environmental impact information is outlined in the FY21 NOFO.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Eligible applicants must apply through <http://www.grants.gov>. For complete information on all required forms, attachments, submission instructions / requirements, deadlines, and other procedural information, please refer to program guidance. Notice of Funding Opportunities (NOFO) for this listing will be posted on Grants.gov.

Award Procedure:

Qualified FEMA programmatic staff (regional and/or Headquarters), with sufficient program knowledge and expertise in floodplain mapping, flood risk assessment, flood risk communication and floodplain management, review and select CTP projects for funding. Applications are reviewed to ensure compliance with the eligibility criteria and selected primarily on FEMAs priorities and the availability of FEMA funds (i.e., funding is not guaranteed to new or existing applicants). FEMA considers the following elements when prioritizing funding for and selecting CTPs for awards: program priorities, past performance, technical capability and capacity, and partner contribution. Applications are also reviewed by qualified FEMA grants management staff to ensure compliance with grants management principles, such as administrative requirements and cost principles. Applicants/applications that do not meet eligibility or submission requirements are removed from consideration. Any issues or concerns noted in the application might be addressed with the successful applicant prior to the award being issued.

Records:

Financial records, supporting documents, statistical records, and all other non-federal entity records pertinent to a federal award generally must be maintained for at least three years from the date the final Federal Financial Report (FFR) is submitted. See 2 C.F.R. 200.334. Further, if the recipient does not submit a final FFR and the award is administratively closed, FEMA uses the date of administrative closeout as the start of the general record retention period. The record retention period may be longer than three years or have a different start date in certain cases. These include: Records for real property and equipment acquired with federal funds must be retained for three years after final disposition of the property. See 2 C.F.R. 200.334(c). If any litigation, claim, or audit is started before the expiration of the three-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken. See 2 C.F.R. 200.334(a). The record retention period will be extended if the recipient is notified in writing of the extension by FEMA, the cognizant or oversight agency for audit, or the cognizant agency for indirect costs. See 2 C.F.R. 200.334(b). Where FEMA requires recipients to report program income after the period of performance ends, the program income record retention

period begins at the end of the recipients fiscal year in which program income is earned. See 2 C.F.R. 200.334(e). For indirect cost rate proposals, cost allocation plans, or other rate computations records, the start of the record retention period depends on whether the indirect cost rate documents were submitted for negotiation. If the indirect cost rate documents were submitted for negotiation, the record retention period begins from the date those documents were submitted for negotiation. If indirect cost rate documents were not submitted for negotiation, the record retention period begins at the end of the recipients fiscal year or other accounting period covered by that indirect cost rate. See 2 C.F.R. 200.334(f).

(FMAG),

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Robert T. Stafford Disaster Relief and Emergency Act, Section 420, Public Law 93-288, 42 USC Code 5187.

OBJECTIVES:

ASSISTANCE LISTINGS DESCRIPTIONS

The Fire Management Assistance Grant Program is authorized by the Stafford Act. Grants are provided to States, Indian tribal and local governments for the mitigation, management and control of any fire burning on publicly (non-federal) or privately owned forest or grassland that threatens such destruction as would constitute a major disaster. The funds are primarily used for fire suppression services (response) but also for essential assistance (emergency protective measures) as described in Section 403 (42 U.S.C 5170b) of the Stafford Act. This includes, but is not limited to evacuation and sheltering, police barricading, equipment and supplies, and other costs related to fire suppression operations and administration in support of these operations. Of the 32 core capabilities described in the National Preparedness Goal, Second Edition, 2015, this program fits into several including Fire Management and Response), Physical Protective Measures, Public Information and Warning, Infrastructure Systems, and On-Scene Security, Protection, and Law Enforcement categories.

TYPES OF ASSISTANCE:

Project Grants, Provision of Specialized Services

USES AND USE RESTRICTIONS:

The Fire Management Assistance Grant Program, authorized by the Stafford Act, provides for cost-shared Fire Management Assistance Grants for the mitigation, management and control of fires that threaten such destruction as would constitute a major disaster.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); The State (includes District of Columbia, U.S. Territories and possessions, and State governments) and Indian tribal governments are eligible for fire management assistance grants. The State or Indian tribal government may be the Recipient. The Recipient is the government entity that receives the award and is accountable for the use of funds provided. A State, local, or Indian tribal government may apply as a subrecipient under the Recipients award.

Beneficiary Eligibility:

State; Federally Recognized Indian Tribal Governments; Civil Defense/Disaster Prevention and Relief/Emergency Preparedness The Fire Management Assistance Grant Program, authorized by the Stafford Act and amended by the Disaster Mitigation Act of 2000, provides for cost-shared Fire Management Assistance grants for the mitigation, management, and control of any fire on publicly (nonfederal) or privately-owned forestland or grassland that threatens such destruction as would constitute a major disaster.

Credentials/Documentation:

A State must request a Fire Management Assistance Declaration. After FEMA approves a declaration, the State or Indian Tribal Government Applicant must apply for assistance by completing an SF 424 (Application for Federal Assistance). In addition, the Applicant must also provide documentation that shows they have met the Fire Cost Threshold for the calendar year in which the fire was declared, and must have prepared, submitted, and received approval for a State Administrative Plan and a Hazard Mitigation Plan. Costs are determined in accordance with FEMA Regulations, at 44 CFR Part 204, and agency policies. Federal funds will be awarded to subrecipients in accordance with State law and procedure and in compliance with 44 CFR Part 204. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is excluded from coverage under E.O. 12372. Preapplication coordination is required via a FEMA-State/Tribal/Territorial FMAG Agreement. This program is excluded from coverage under E.O. 12372. A FEMA-State/Tribal/Territorial Agreement for the Fire Management Assistance Grant Program (the agreement) is signed by the Governor or designated tribal executive and the Regional Administrator at the beginning of the calendar year or after a State's first fire management assistance grant declaration in a calendar year. The agreement is amended for subsequent approvals of assistance for the remainder of the year. This agreement contains the terms and conditions for requesting and receiving assistance.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit

Requirements for Federal Awards applies to this program. After an FMAG declaration is approved, a State Governor, Governor's Authorized Representative, or Tribal executive may request a fire management assistance grant as a recipient or subrecipient in accordance with IAW the procedures in the immediate preceding paragraph above.

Award Procedure:

To receive fire management assistance grant funds, a State (Recipient) must have requested and received approval for a Fire Management Assistance Declaration and must complete and submit an SF-424 (Request for Federal Assistance). The Recipient must also provide documentation that shows they have met the Fire Cost Thresholds for the calendar year in which the fire was declared. The Recipient must submit its application within 9 months of the declaration (with a possible 6-month extension). The Regional Administrator has 45 days from receipt of the Recipient's grant application or an amendment to the Recipient's grant application, including attached supporting Project Worksheet(s), to review and approve or deny the grant application or amendment or to notify the recipient of a delay in processing funding. Indian tribal governments are eligible for fire management assistance grants as a Recipient or Subrecipient. The Recipient is the government entity that receives the award and is accountable for the use of funds provided. A Subrecipient is an applicant that is awarded a subaward and is accountable to the Recipient for the use of grant funding provided. A Subaward is a n award of financial assistance is provided by a pass-through entity (the Recipient) to a Subrecipient for the Subrecipient to carry out part of a Federal award received by the pass-through entity.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. From 1 hour to 72 hours. The application timelines for an FMAG declaration are found in 44 C.F.R. part 204.22-24. FMAG grant application timelines are in 44 C.F.R. part 204.51-52.

Appeals:

Other. States may appeal the denial of a Fire Management Assistance Declaration and may also appeal any other decision related to the Fire Management Assistance Grant Program. To appeal a denied Fire Management Assistance Declaration, the Governor or GAR may appeal the decision in writing within 30 days after the date of the denied declaration. The State submits the request to the FEMA Administrator through the Regional Administrator. The Administrator will reevaluate the State's request and notify the State of the final determination within 90 days of receipt of the appeal. An eligible subrecipient, or recipient may appeal any determination FEMA makes related to an application for the provision of Federal assistance. The subrecipient makes the appeal in writing through the recipient to the Regional Administrator. The recipient will review and evaluate all subrecipient appeals before submission to the Regional Administrator. The appeal must include documented justification supporting the appellant's position, the monetary figure in dispute, and the provisions in Federal law, regulation, or policy with which the appellant believes the initial action was inconsistent. The Regional Administrator will render a determination on first appeals for fire management assistance grant-related decisions within 90 days following receipt of the appeal or requested additional information. In the event the Regional Administrator denies the appeal, the appellant may submit a second-level appeal to the Director of the Public Assistance Division in the Recovery Directorate at FEMA Headquarters. Within 90 days following receipt of a second appeal, the Director of the Public Assistance Division will notify the appellant (i.e., recipient) in writing of the final decision or of the need for additional information. If the decision is to grant the appeal, the Regional Administrator will take appropriate implementing action. The decision of the Director of the Public Assistance Division at the second appeal level is the final decision of FEMA.

declared fire meet or exceed the individual fire cost threshold or total costs of all declared and non-declared fires in a given calendar year meet the cumulative fire cost threshold. The individual fire cost threshold for a State for FY 2021 is the greater of \$100,000 or five percent x \$1.55 x state population. The cumulative fire cost threshold for a State for FY 2021 is the greater of \$500,000 or three times the five percent x \$1.553 x State population. Both formulas are adjusted annually for inflation using the Consumer Price Index for All Urban Consumers published annually by the Department of Labor. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

There are two time-related periods. The first is the incident period, which is the time interval during which a declared fire occurs and is actively burning. Generally, costs must be incurred during the incident period to be eligible for assistance. The incident period varies from several days to more than a month depending on the severity and duration of the declared fire. The second time interval is the Period of Performance. Grant funds are normally available for a period of three years following a fire management assistance grant declaration with time extensions possible. This Period of Performance is stated in the FEMA-State/Tribal/Territorial Agreement and the SF-424 Application for Federal Assistance. Method of awarding/releasing assistance: Reimbursement for State grant costs is accomplished via the U.S. Department of Health and Human Services Payment Management System in compliance with 2 C.F.R. 200.305 and U.S. Treasury 31 C.F.R. Part 205, Cash Management Improvement Act. Recipients and subrecipients prepare and submit Project Worksheets that document costs associated with fire suppression activities. Cost eligibility information is provided in 44 C.F.R. Part 204 and the Fire Management Assistance Grant Program Guide. Method of awarding/releasing assistance: other

Reports:

Within 120 days of the Performance Period expiration date, the State must submit a Federal Financial Report (SF-425) which reports all costs incurred within the incident period and all administrative costs incurred within the performance period. Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Financial records, supporting documents, statistical records, and all other non-federal entity records pertinent to a federal award generally must be maintained for at least three years from the date the final Federal Financial Report (FFR) is submitted. See 2 C.F.R. 200.333. Further, if the recipient does not submit a final FFR and the award is administratively closed, FEMA uses the date of administrative closeout as the start of the general record retention period. The record retention period may be longer than three years or have a different start date in certain cases. These include: Records for real property and equipment acquired with federal funds must be retained for three years after final disposition of the property. See 2 C.F.R. 200.333(c). If any litigation, claim, or audit is started before the expiration of the three-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken. See 2 C.F.R. 200.333(a). The record retention period will be extended if the recipient is notified in writing of the extension by FEMA, the cognizant or oversight agency for audit, or the cognizant agency for indirect costs. See 2 C.F.R. 200.333(b). Where FEMA requires recipients to report program income after the period of performance ends, the program income record retention period begins at the end of the recipients fiscal year in which program income is earned. See 2 C.F.R. 200.333(e). For indirect cost rate proposals, cost allocation

plans, or other rate computations records, the start of the record retention period depends on whether the indirect cost rate documents were submitted for negotiation. If the indirect cost rate documents were submitted for negotiation, the record retention period begins from the date those documents were submitted for negotiation. If indirect cost rate documents were not submitted for negotiation, the record retention period begins at the end of the recipients fiscal year or other accounting period covered by that indirect cost rate. Section 203 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (Stafford Act), as amended (Pub. L. No. 93-288) (42 U.S.C. 5133)., Title Section 203 of the Robert T. Stafford Disaster Relief and Emergency Assistance

ASSISTANCE LISTINGS DESCRIPTIONS

Act.

OBJECTIVES:

The Building Resilient Infrastructure and Communities (BRIC) program makes federal funds available to states, U.S territories, federally recognized tribal governments, and local communities for hazard mitigation activities. The guiding principles of the program are to (1) support state and local governments, tribes, and territories through capability- and capacity-building to enable them to identify mitigation actions and implement projects that reduce risks posed by natural hazards; (2) encourage and enable innovation while allowing flexibility, consistency, and effectiveness; (3) promote partnerships and enable high-impact investments to reduce risk from natural hazards with a focus on critical services and facilities, public infrastructure, public safety, public health, and communities; (4) provide a significant opportunity to reduce future losses and minimize impacts on the Disaster Relief Fund; (5) promote equity, including by helping members of vulnerable groups; and (6) support the adoption and enforcement of building codes, standards, and policies that will protect the health, safety, and general welfare of the public, take into account future conditions, prominently including the effects of climate change, and have long-lasting impacts on community risk reduction, including for critical services and facilities and for future disaster costs.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Capability- and Capacity-Building (C&CB) Activities: Activities which enhance the knowledge, skills, expertise, etc., of the current workforce to expand or improve the administration of mitigation assistance. This includes activities in the following sub-categories: building codes activities, partnerships, project scoping, mitigation planning and planning-related activities, and other activities. Mitigation Projects: Cost-effective projects designed to increase resilience and public safety; reduce injuries and loss of life; and reduce damage and destruction to property, critical services, facilities, and infrastructure from natural hazards. Management Costs: Financial assistance to reimburse the recipient and subrecipient for eligible and reasonable indirect costs, direct administrative costs, and other administrative expenses associated with a specific mitigation measure or project in an amount up to 15 percent of the total amount of the grant award, of which not more than 10 percent of the total award amount may be used by the recipient and 5 percent by the subrecipient for such costs. Non-financial Direct Technical Assistance: Non-financial Direct Technical Assistance to build a community's capacity and capability to improve its resiliency to natural hazards and to ensure stakeholders are capable of building and sustaining successful mitigation programs, submitting high-quality applications, and implementing new and innovative projects that reduce risk from a wide range of natural hazards.

Applicant Eligibility:

Government - General; State (includes District of Columbia, public institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); States/District of Columbia/U.S. territories Federally recognized tribal governments Each state, territory, the District of Columbia, and federally recognized tribal governments shall designate one agency to serve as the applicant for BRIC funding. Each applicant's designated agency may submit only one BRIC grant application to FEMA. Subapplications under which two or more entities would carry out the award are eligible, such as a multi-state or multi-tribal initiative; however, only one entity may be the applicant with primary responsibility for carrying out the award. Communities, including local governments, including cities, townships, counties, special district governments, and tribal governments (including federally recognized tribes who choose to apply as subapplicants) are considered subapplicants and must submit subapplications for financial assistance to their state/territory/tribal applicant agency. Contact information for the State Hazard Mitigation Officers (SHMOs) is provided on the FEMA website at <http://www.fema.gov/state-hazard-mitigation-officers>. OBJECTIVES:

To provide financial assistance, and if necessary, direct services to individuals and households affected as a direct result of a Presidentially declared major disaster or emergency, who have uninsured or under-insured, necessary expenses and serious needs and are unable to meet such expenses or needs through other means. This program supports disaster recovery by providing the financial means or direct services to disaster survivors for Temporary Housing, Repair Assistance, Replacement Assistance, or Permanent or Semi-permanent Housing Construction in addition to financial assistance to address Other Needs.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use, Project Grants

USES AND USE RESTRICTIONS:

Restricted to presidentially-declared disasters or emergencies which designate Individual Assistance, such as an earthquake, hurricane, tornado, wildfire, or flood, etc. Program activates only after issuance of a presidential declaration. Housing Assistance, either Financial or Direct, may be provided for the following: (1) Temporary Housing, (2) Home Repair, (3) Home Replacement and (4) Permanent Housing Construction. Assistance not used for the specified purpose will be required to be returned. Other Needs Assistance may be provided for: (1) Medical, (2) Dental, (3) Child Care, (4) Funeral, (5) Personal Property, (6) Transportation, (7) Group Flood Insurance Policy, and (8) Other Necessary Expenses and Serious Needs: the expense or need must be caused by the disaster and approved by FEMA.

Applicant Eligibility:

Individual/Family; Individuals and households, in areas declared a major disaster or emergency by the President that include Individual Assistance, who have necessary expenses and serious needs they are unable to meet through insurance or other means, are eligible to apply for this program. All needs must be caused by the disaster. Basic conditions of eligibility include: the individual or a member of the household must be a citizen of the United States, a non-citizen national, or a qualified alien. Housing Assistance: 1) Temporary Housing Assistance (financial) - proof of primary residence, proof of occupancy, disaster-caused displacement, and/or paid receipts for Rent or Lodging Expenses; 2) Temporary Housing Assistance (direct) Authorized on a disaster-by-disaster basis when applicants are unable to make use of financial assistance to secure temporary housing proof of primary residence, proof of occupancy, disaster-caused displacement; 3) Repair - primary residence, proof of occupancy and ownership, disaster caused home damage; 3) Replacement - primary residence, proof of occupancy and ownership, home destroyed by the disaster; 4) Permanent Housing Construction - primary

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Based on damage assessments and an agreement to commit state funds and resources to the long-term recovery, the state or territorial Governor or Indian Tribal Chief Executive makes a request (through the FEMA Regional Administrator) for a Presidential Declaration for an emergency or major disaster. Requests for assistance must be made in accordance with Emergency Management and Assistance regulations, 44 C.F.R. Part 206, except as provided in Part 206.24(d) for emergency declarations involving primarily federal responsibility. A Presidential Disaster or Emergency Declaration must first be issued. To receive the grant, the state, territorial, or tribal government must have a Housing Strategy approved by FEMA. The state, territorial, or tribal government must also provide a plan demonstrating its ability to manage the program, how assistance will be provided, and how it will comply with applicable federal and state, territorial, or tribal laws and regulations.

Award Procedure:

A Presidential Disaster or Emergency Declaration must be issued before individuals and households can register an application for assistance with FEMA via a toll-free number or FEMA's Internet Application or by visiting a Disaster Recovery Center. Assistance for real property damages will not be awarded to individuals residing outside of the area declared as a disaster. Funds are allocated from the Disaster Relief Fund for use in a designated emergency or major disaster. Households receive assistance directly from FEMA or through the state, territory, or tribe for Direct Temporary Housing Assistance, Permanent Housing Construction, or Other Needs Assistance.

EXAMPLES OF FUNDED PROJECTS:

2020 In 2020, FEMA approved the State of Louisiana State-Administered Direct Housing Grant application in response to Hurricane Laura (DR-4559-LA). Recognizing the necessity of the State of Louisiana to establish procedures for assessing the unmet needs for housing and supporting services for families and persons in need, the State of Louisiana was approved for a grant to support FEMA in joint recertifications of occupants in all forms of Direct Temporary Housing Assistance. The State of Louisiana supports disaster survivors in the identification of potential housing and recovery issues and facilitate problem-solving and partnerships to support the recovery needs by sharing state-wide information and utilizing community resources. The State also validates properties listed on the State-supported rental resource portal. This approval was granted as a pilot program and was authorized by Section 1211 of the 2018 Disaster Recovery Reform Act. The authority for state, territorial, or tribal governments to apply for a State-Administered Direct Housing Grant during this pilot period expired on October 5, 2020. FEMA is currently pursuing the regulatory changes needed to permanently implement this authority.

97.048 Disaster Housing Assistance to Individuals and Households in Presidential Declared Disaster Areas ;

EXAMPLES OF FUNDED PROJECTS:

2020 In 2020, FEMA did not provide any states (including the fifty states and the District of Columbia), territories, or tribes with Other Needs Assistance under the Joint or State, Territorial, or Tribal Option in which the state, territory, or tribe administers its own Other Needs Assistance. Under a Joint Option, the state, territorial, or tribal government administers Other Needs Assistance jointly with FEMA. Under the State, Territorial, or Tribal Option, FEMA provides Other Needs Assistance as a grant to the state, territorial, or tribal government who then administers the assistance. Additionally, on August 8, 2020, a Presidential Memorandum authorized FEMA to expend up to \$44 billion from the Disaster Relief Fund to ease the economic burden for those who experienced lost wages due to the COVID-19 pandemic. FEMA delivered this supplemental assistance through the Other Needs Assistance provision of the Individuals and Households Program. FEMA provided lump sum grants to participating states, territories, tribes, and the District of Columbia to administer delivery of Lost Wages Assistance for which they could have received an additional amount up to 5% of the total grant award to cover administrative costs, subject to the 75% federal and 25% state, territory, or tribe cost share. The state, territory, or tribe grant amounts were established in coordination with the participating states, territories, and tribes based on estimated participant data compiled through their respective unemployment offices. The Period of Assistance and funding for Lost Wages Assistance ended on December 27, 2020.

97.056 Port Security Grant Program

PSGP,

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Maritime Transportation Security Act of 2002, Section 102, Public Law 107-295, 46 USC Code 70107.

OBJECTIVES:

The Fiscal Year (FY) 2021 Port Security Grant Program (PSGP) is one of four grant programs that constitute DHS/FEMAs focus on transportation infrastructure security activities. These grant programs are part of a comprehensive set of measures authorized by Congress and implemented by the Administration to help strengthen the Nations critical infrastructure against risks associated with potential terrorist attacks. The PSGP provides funds to state, local, and private sector maritime partners to support increased port-wide risk management and protect critical surface transportation infrastructure from acts of terrorism, major disasters, and other emergencies. Among the five basic homeland security missions noted in the DHS Strategic Plan, PSGP supports the goal to Strengthen National Preparedness and Resilience.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

The vast majority of U.S. maritime critical infrastructure is owned and/or operated by State, local, and private sector maritime industry partners. PSGP funds available to these entities are intended to improve port-wide maritime security risk management; enhance maritime domain awareness; support maritime security training and exercises; and to maintain or reestablish maritime security mitigation

protocols that support port recovery and resiliency capabilities. PSGP investments must address U.S. Coast Guard identified vulnerabilities in port security and support the prevention, detection, response, and/or recovery from attacks involving IEDs and other non-conventional weapons. PSGP grant recipients and sub-recipients may only use PSGP grant funds for the purpose set forth in the grant and must be consistent with the statutory authority for the award. Grant funds must be used in accordance with 2 C.F.R. Part 200. Grant funds may not be used for matching funds for other Federal grants/cooperative agreements, lobbying, or intervention in Federal regulatory or adjudicatory proceedings. In addition, Federal funds may not be used to sue the Federal government or any other government entity. Federal employees are prohibited from serving in any capacity (paid or unpaid) on any proposal submitted under this program. Federal employees may not receive funds under this award. PSGP grant recipients and sub-recipients may only use PSGP grant funds for the purpose set forth in the grant, and must be consistent with the statutory authority for the award. Grant funds may not be used for matching funds for other Federal grants/cooperative agreements, lobbying, or intervention in Federal regulatory or adjudicatory proceedings. In addition, Federal funds may not be used to sue the Federal government or any other government entity. Federal employees are prohibited from serving in any capacity (paid or unpaid) on any proposal submitted under this program. Federal employees may not receive funds under this award. See FY 2021 PSGP NOFO and PGM.

Applicant Eligibility:

Government - General; Non-Government - General; Quasi-public nonprofit institution/organization; All entities subject to an Area Maritime Security Plan (AMSP), as defined by 46 U.S.C. 70103(b), may apply for PSGP funding. Eligible applicants include but are not limited to port authorities, facility operators, and state and local government agencies. A facility operator owns, leases, or operates any structure or facility of any kind located in, on, under, or adjacent to any waters subject to the jurisdiction of the United States. Examples of facility operators include, but are not limited to terminal operators, ferry systems, bar/harbor pilots, and merchants exchanges. See the Applications Submitted by Eligible Entities section below for further detail.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Private nonprofit institution/organization; Critical national seaports and terminals.

Credentials/Documentation:

Eligible entities may submit only one application within each Port Area. An application may contain up to five investment justifications. All PSGP applicants must be fully compliant with relevant Maritime Security Regulations (33 C.F.R. Parts 101-106). Any applicant who, as of the grant application deadline, has an open or outstanding Notice of Violation (NOV) will not be considered for PSGP funding if: 1. The applicant has failed to pay the NOV within 45 days of receipt of the NOV and the applicant has failed to decline the NOV within 45 days of receipt resulting in the U.S. Coast Guard (USCG) entering a finding of default; or 2. The applicant appealed the NOV and received a final appeal decision from the Commandant, U.S. Coast Guard, and failed to come into compliance with the terms of the final appeal decisions within the appropriate timeline. FY 2021 PSGP recipients must adopt and/or maintain implementation of the National Incident Management System (NIMS). 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. ASSISTANCE LISTINGS DESCRIPTIONS

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applying for an award under this program is a multi-step process. Failure to comply with any of the required steps before the deadline for submitting the application may disqualify the application from funding. The steps involved in applying for an award under this program are: Failure of an applicant to comply with any of the required steps before the deadline for submitting an application may disqualify that application from funding. To apply for an award under this program, all applicants must: a. Apply for, update, or verify their Data Universal Numbering System (DUNS) number from Dun & Bradstreet and Employer Identification Number (EIN) from the Internal Revenue Service; b. In the application, provide a valid DUNS number, which is currently the unique entity identifier; c. Have an account with login.gov; d. Register for, update, or verify their SAM account and ensure the account is active before submitting the application; e. Create a Grants.gov account; f. Add a profile to a Grants.gov account; g. Establish an Authorized Organizational Representative (AOR) in Grants.gov; h. Register in ND Grants i. Submit an initial application in Grants.gov; j. Submit the final application in ND Grants, including electronically signing applicable forms; and k. Continue to maintain an active SAM registration with current information at all times during which it has an active federal award or an application or plan under consideration by a federal awarding agency. As part of this, applicants must also provide information on an applicant's immediate and highest-level owner and subsidiaries, as well as on all predecessors that have been awarded federal contracts or federal financial assistance within the last three years, if applicable. Notice of Funding Opportunities (NOFO) for this listing will be posted on Grants.gov.

Award Procedure:

All successful applicants for all PSGP grants are required to comply with DHS Standard Administrative Terms and Conditions. Upon approval of an application, the award will be made in the form of a grant. The date the approval of award is entered in the system is the award date. Notification of award approval is made through the ND Grants system through an automatic e-mail to the grantee point of contact listed in the initial application. Once an award has been approved and recorded in the system, a notice is sent to the authorized grant official. The authorized grant official should carefully read the award package for instructions on administering the grant and to learn more about the terms and conditions associated with responsibilities under Federal awards.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are mandatory. All applicants will be required to commit to the cost share requirement at the time of application. All public sector and non-governmental, nonprofit PSGP award recipients meaning recipients other than private, for-profit entities must provide a non-Federal entity contribution supporting 25 percent (25%) of the total of all project costs. Private, for-profit PSGP award recipients must provide a non-Federal entity contribution supporting 50 percent (50%) of the total of all project costs. The non-Federal entity contribution should be specifically identified for each proposed project. The non-Federal entity contribution can be cash or third-party in-kind, with the exception of construction activities, which must be a cash-match (hard). The non-Federal contribution, whether cash or third party in-kind, has the same eligibility requirements as the Federal share (e.g. operational costs for routine patrol are ineligible, and operational costs for overtime to conduct an approved exercise may be eligible as part of the investment justification) and must be justified as part of the project within the investment justification. Exceptions to the cost match requirement may apply. For example, the cost share requirements for projects that have a port-wide benefit need only to be funded at the public sector matching fund level of 25 percent. These projects must be certified by the COTP as

having a port-wide benefit. Maintenance of Effort requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

The period of performance is 36 months. For more information, refer to the FY 2021 PSGP NOFO. Recipients must accept their awards no later than 60 days from the award date. The recipient shall notify FEMA of its intent to accept and proceed with work under the award or provide a notice of intent to decline through the ND Grants system. For instructions on how to accept or decline an award in the ND Grants system, please see the Grant Recipient User Guide. Failure to accept a grant award within the 60-day timeframe may result in a loss of Method of awarding/releasing assistance: other

Reports:

Recipients are responsible for providing updated performance progress reports (PPR) on a biannual basis as an attachment in ND Grants. The PPR should include the following: A brief narrative of overall project(s) status A summary of project expenditures A description of any potential issues that may affect project completion Recipients must report obligations and expenditures on a quarterly basis through the Federal Financial Report (FFR) (SF-425) to FEMA. Recipients must file the FFR electronically using the Payment and Reporting System (PARS). A FFR must be submitted quarterly throughout the period of performance, including partial calendar quarters, as well as for periods where no grant award activity occurs. The final FFR is due 90 days after the end of the performance period. Future awards and fund drawdowns may be withheld if these reports are delinquent, demonstrate lack of progress, or are insufficient in detail. The Federal Financial Reporting Form (FFR) is available online at:

[forms.html#sortBy=1, SF-425](https://www.grants.gov/web/grants/forms/post-award-reporting-forms.html#sortBy=1,SF-425) Recipients are responsible for providing updated PPRs on a biannual basis as an attachment in ND Grants. The PPR should include the following: Status Summary: Provide a brief narrative of the overall project status; Identify accomplishments and milestones achieved as they relate to the approved project; and Describe any potential issues that may affect project completion. Best Practices / Lessons Learned Summary, which describes any best practices or lessons learned identified to date through the program. The purpose of this information is to develop and enhance guidance materials, tools, templates, and lessons learned and best practices summaries. Issues List, which identifies any program-related challenges that may require assistance or impact successful and on time completion of the funded project. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund draw downs may be withheld if these reports are delinquent. The final FFR is due 90 days after the end date of the performance period. FFRs must be filed electronically through PARS. Grant Close-Out Process. Within 90 days after the end of the period of performance, or after a Grant Adjustment Notice (GAN) has been issued to close out a grant, whichever comes first, grantees must submit a final FFR and final progress report detailing all accomplishments throughout the period of performance. After these reports have been reviewed and approved by FEMA, a close-out notice will be completed to close out the grant. The notice will indicate the period of performance as closed, list any remaining funds that will be deobligated, and address the requirement of maintaining the grant records for three years from the date of the final FFR. The grantee is responsible for returning any funds that have been drawn down but remain as unliquidated on grantee financial records. Grant recipients will be monitored on an annual and as needed basis by recipients will be monitored on an annual and as needed basis by FEMA staff, both programmatically and financially, to ensure that the project goals, objectives, performance requirements, timelines, milestone completion, budgets, and other related program criteria are being met. Monitoring may be accomplished through either a desk-based review or on-site monitoring visits, or both. Monitoring will involve the review and analysis of the financial, programmatic, performance, compliance and administrative processes, policies, activities, and other attributes of each Federal assistance award and will identify areas where technical assistance, corrective actions and other support may be needed.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-

ASSISTANCE LISTINGS DESCRIPTIONS

Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. For fiscal years beginning on or after December 26, 2014, recipients that expend \$750,000.00 or more from all federal funding sources during their fiscal year are required to submit an organization-wide financial and compliance audit report, also known as a single audit report. The audit must be performed in accordance with the requirements of Government and Accountability Offices (GAO) Government Auditing Standards, located at <https://www.gao.gov/yellowbook/overview>, and the requirements of Subpart F of 2 C.F.R. Part 200, located at <http://www.ecfr.gov/cgi-bin/text-idx?node=sp2.1.200.f>.

Records:

Financial records, supporting documents, statistical records, and all other non-federal entity records pertinent to a federal award generally must be maintained for at least three years from the date the final Federal Financial Report (FFR) is submitted. See 2 C.F.R. 200.333. Further, if the recipient does not submit a final FFR and the award is administratively closed, FEMA uses the date of administrative closeout as the start of the general record retention period. The record retention period may be longer than three years or have a different start date in certain cases. These include: Records for real property and equipment acquired with federal funds must be retained for three years after final disposition of the property. See 2 C.F.R. 200.333(c). If any litigation, claim, or audit is started before the expiration of the three-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken. See 2 C.F.R. 200.333(a). The record retention period will be extended if the recipient is notified in writing of the extension by FEMA, the cognizant or oversight agency for audit, or the cognizant agency for indirect costs. See 2 C.F.R. 200.333(b). Where FEMA requires recipients to report program income after the period of performance ends, the program income record retention period begins at the end of the recipients fiscal year in which program income is earned. See 2 C.F.R. 200.333(e). For indirect cost rate proposals, cost allocation plans, or other rate computations records, the start of the record retention period depends on whether the indirect cost rate documents were submitted for negotiation. If the indirect cost rate documents were submitted for negotiation, the record retention period begins from the date those documents were submitted for negotiation. If indirect cost rate documents were not submitted for negotiation, the record retention period begins at the end of the recipients fiscal year or other accounting period covered by that indirect cost rate. See 2 C.F.R. 200.333(f).

RELATED PROGRAMS:

97.075 Rail and Transit Security Grant Program;

EXAMPLES OF FUNDED PROJECTS:

2020 Given the evolving threat landscape, it is incumbent upon DHS/FEMA to continuously evaluate the national risk profile and set priorities that help ensure appropriate allocation of scarce security dollars. In assessing the national risk profile for FY 2021, one area attracts the most concern: 1) Enhancing cybersecurity. Likewise, there are several enduring security needs that crosscut the homeland security enterprise. The following are second-tier priorities that help recipients implement a comprehensive approach to securing critical maritime transportation infrastructure: 1) Enhancing the protection of soft targets/crowded places; 2) Addressing emerging threats (e.g., transnational criminal organizations, weapons of mass destruction [WMD], unmanned aerial systems [UASs], etc.); 3) Effective planning; 4) Training and awareness campaigns; 5) Equipment and capital projects; and 6) Exercises.

CRITERIA FOR SELECTING PROPOSALS:

The PSGP uses a risk-based methodology for making funding decisions whereby each Port Area relative threat, vulnerability, and consequences from acts of terrorism are considered. This approach helps ensure that program funding is directed toward those Port Areas that present the highest risks in support of the Goal of a secure and resilient Nation. Please refer to the Preparedness Grants Manual for further information on the Goal. The PSGP will only fund those eligible projects that close or mitigate maritime security risk vulnerabilities gaps as identified in the applicable AMSP, FSP, VSP, and/or Port-wide Risk Management Plan (PRMP). Projects that enhance business continuity and resumption of trade within a Port Area will also be considered for funding. FY 2021 PSGP applications will be evaluated through a three-part review and selection process that encompasses: 1) an Initial Screening; 2) a Field Review; and 3) a National Review. There are five core PSGP scoring criteria applied in each step of this process: 1) Projects that support development and sustainment of the core capabilities in the Goal. Projects are ranked and weighted based on alignment with core capabilities across the five mission areas of the Goal: Prevention, Protection, Mitigation, Response, and Recovery. A composite score is given to each project to determine a Port Area prioritized ranking of all reviewed projects. The following scale shall be used: 0=None; 1=Minimal; 3=Moderate; 9=Significant/Gap Filled 2) Projects that address priorities outlined in the applicable AMTSP, FSP, and/or VSP, as mandated under the MTSA and/or in an applicable PRMP. AMSP priorities are the top three Transportation Security Incidents (TSIs) (as defined in 46 U.S.C. 70101(6)) ranked and correspondingly weighted. Each IJ will be given a score (using the same scale as the National Priorities module) based on how well it addresses one or more TSIs within the context of the five mission areas of the Goal. The following scale shall be used: 0=None; 1=Minimal; 3=Moderate; 9=Significant/Gap Filled 3) Projects that address additional maritime security priorities based on the USCG Caption of the Port (COTP) s expertise and experience within the specific Port Area. 4) Projects that are eligible and feasible, based on the available period of performance. In addition, a recipients past performance demonstrating competent stewardship of Federal funds may influence funding decisions. IJs should justify the scope, breadth, and cost of a project, as well as a timeline for completing the project as required within this NOFO. Projects failing to demonstrate these minimum funding considerations may be denied funding. The following scale shall be used: 0=No Funding Recommended; 1=Funding Recommended 5) Projects submitted by a public sector applicant or projects otherwise certified by the USCG COTP as having a port-wide benefit (please see the Preparedness Grants Manual as well as the cost match section of this NOFO for further information regarding what constitutes a port-wide benefit) will have their final scores increased by a multiplier of 10 percent.

The on-line application includes the following required form: Standard Form 424, Application for Federal Assistance Applying for FY 20210 IBSGP funds require a two-step process. Step 1: initial submission to determine eligibility and Step 2: full application. Step 1 involves submitting a complete Standard Form 424 to www.grants.gov. The Standard Form 424 will be retrieved by ND Grants and the system will automatically populate the relevant data fields in the application. Successful completion of this step is necessary for FEMA to determine eligibility of the applicant. Late submissions to grants.gov to complete Step 1 could result in applicants missing the application deadline in Step 2. Once FEMA has determined an applicant to be eligible, applicants can proceed to Step 2 which involves submitting the full application package via the ND Grants system. The application must be completed and final submission made through the ND Grants system located at <https://portal.fema.gov>. Unless otherwise referenced, the ND Grants system includes the following required forms and submissions: Standard Form 424A, Budget Information (Non-construction) Standard Form 424B, Standard Assurances (Non-construction) Standard Form 424C, Budget Information (Construction) Standard Form 424D, Standard Assurances (Construction) Standard Form LLL, Disclosure of Lobbying Activities (if the grantee has engaged or intends to engage in lobbying activities) Grants.gov (GG) Lobbying Form, **Award Procedure:**

All successful applicants for all DHS grants are required to comply with DHS Standard Administrative Terms and Conditions. Upon approval of an application, the award will be made in the form of a grant. The date the approval of award is entered in the system is the award date. Notification of award approval is made through the ND Grants system through an automatic e-mail to the recipient point of contact listed in the initial application. Once an award has been approved and recorded in the system, a notice is sent to the authorized grant official. The authorized grant official should carefully read the award package for instructions on administering the grant and to learn more about the terms and conditions associated with responsibilities under Federal awards.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. Matching Requirements: Percent: 50 The FY 2021 IBSGP has a cost share requirement. Cash (Hard Match): The only acceptable form of cost sharing is a hard match, meaning cash, by the recipient. In-kind contributions, also known as soft matches, are not acceptable for the recipients cost share requirement. Eligible IBSGP applicants shall agree to make available non-federal funds to carry out an IBSGP award in an amount equal to, and not less than, 50 percent of the total project cost as submitted in the application and approved in the award. The

ASSISTANCE LISTINGS DESCRIPTIONS

recipients contribution should be specifically identified for each proposed project. The non-federal contribution has the same eligibility requirements as the Federal share and must be justified as part of the project within the investment justification. These cash, hard-match contributions must consist of eligible costs and must be identified as part of the submitted application. A cash match includes cash spent for project related costs. The cost match requirement for the IBSGP award may not be met by funds from another federal grant or assistance program or funds used to meet matching requirements for another federal grant or assistance program, unless otherwise permitted by federal statute. Additionally, normal routine operational costs cannot be used as a cost match unless a completely new capability is being awarded. Please see 2 C.F.R. 200.306, as applicable, as well as the FEMA Preparedness Grants Manual (PGM) for additional guidance regarding cost matching. Maintenance of Effort requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

The period of performance for the FY 2021 IBSGP is 24 months. Refer to the annual Notice of Funding Opportunity and the Preparedness Grants Manual (insert hyperlink) for more information. Awards are subject to the Cash Management Improvement Act for payment and/or reimbursement of expenditures. IBSGP Notification of award approval is made through the ND Grants system through an automatic email to the awardee point of contact (the authorized official) listed in the initial application. The award date for IBSGP is the date that FEMA approves the award, and marks the beginning of the period of performance POP. Recipients must accept their awards no later than 960 days from the award date. Failure to accept the grant award within the 60 -day timeframe may result in a loss of funds . Method of awarding/releasing assistance: Payment based on Project need. Method of awarding/releasing assistance: other

Reports:

Recipients are responsible for providing updated performance reports on a biannual basis as an attachment in ND Grants. The PPR should include the following: A brief narrative of overall project(s) status A summary of project expenditures A description of any potential issues that may affect project completion. Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund draw downs may be withheld if these reports are delinquent. The final FFR is due 90 days after the end date of the performance period. FFRs must be filed electronically through PARS. IBSGP recipients are responsible for providing updated performance progress reports (PPRs) using the SF-PPR on a semi-annual basis. The SF-PPR is due within 30 days after the end of the reporting period (July 30 for the reporting period of January 1 through June 30; and January 30 for the reporting period of July 1 through December 31). The Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund draw downs may be withheld if these reports are delinquent. The final FFR is due 120 days after the end date of the performance period. FFRs must be filed electronically through PARS. Grant recipients will be monitored periodically by FEMA staff, both programmatically and financially, to ensure that the project goals, objectives, performance requirements, timelines, milestone completion, budgets, and other related program criteria are being met. Monitoring may be accomplished through either a desk-based review or on-site monitoring visits, or both. Monitoring will involve the review and analysis of the financial, programmatic, performance, compliance and administrative processes, policies, activities, and other attributes of each Federal assistance award and will identify areas where technical assistance, corrective actions and other support may be needed.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503 For fiscal years beginning on or after December 26, 2014, recipients that expend \$750,000.00 or more from all federal funding sources during their fiscal year are required to submit an organization-wide financial and compliance audit report, also

known as a single audit report. The audit must be performed in accordance with the requirements of Government and Accountability Offices (GAO) Government Auditing Standards, located at <https://www.gao.gov/yellowbook/overview>, and the requirements of Subpart F of 2 C.F.R. Part 200, located at <http://www.ecfr.gov/cgi-bin/text-idx?node=sp2.1.200.f>.

Records:

Financial records, supporting documents, statistical records, and all other non-federal entity records pertinent to a federal award generally must be maintained for at least three years from the date the final Federal Financial Report (FFR) is submitted. See 2 C.F.R. 200.333. Further, if the recipient does not submit a final FFR and the award is administratively closed, FEMA uses the date of administrative closeout as the start of the general record retention period. The record retention period may be longer than three years or have a different start date in certain cases. These include: Records for real property and equipment acquired with federal funds must be retained for three years after final disposition of the property. See 2 C.F.R. 200.333(c). If any litigation, claim, or audit is started before the expiration of the three-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken. See 2 C.F.R. 200.333(a). The record retention period will be extended if the recipient is notified in writing of the extension by FEMA, the cognizant or oversight agency for audit, or the cognizant agency for indirect costs. See 2 C.F.R. 200.333(b). Where FEMA requires recipients to report program income after the period of performance ends, the program income record retention period begins at the end of the recipients fiscal year in which program income is earned. See 2 C.F.R. 200.333(e). For indirect cost rate proposals, cost allocation plans, or other rate computations records, the start of the record retention period depends on whether the indirect cost rate documents were submitted for negotiation. If the indirect cost rate documents were submitted for negotiation, the record retention period begins from the date those documents were submitted for negotiation. If indirect cost rate documents were not submitted for negotiation, the record retention period begins at the end of the recipients fiscal year or other accounting period covered by that indirect cost rate. See 2 C.F.R. 200.333(f).

97.061 Centers for Homeland Security

(COE),

FEDERAL AGENCY:

SCIENCE AND TECHNOLOGY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Homeland Security Act of 2002, Section 1205, Public Law 107-296, 6 USC Code 188(b).

OBJECTIVES:

DHS S&T seeks to establish a university-led consortium that work closely with DHS Components and their partners to conduct research, develop and transition mission-relevant science and technology and educate the next generation of homeland security technical and scientific challenges identified by DHS components. To accomplish this objective, DHS S&T has developed the following Centers of Excellence (COEs) and associated objectives: The Arctic Domain Awareness Center (ADAC) will focus on interdisciplinary research, education, and technology transition in maritime security, maritime domain awareness, and extreme and remote maritime environment issues. ADAC will focus on interdisciplinary research, education, and technology transition in maritime security, maritime domain awareness, and extreme and remote maritime environment issues. An interdisciplinary and experienced team of researchers is required to create an integrated array of research and education programs in the following areas: 1) maritime risk, threat analysis, and resilience research; 2) maritime domain awareness; and 3) maritime technology research. DHS is interested in pursuing research that will address the needs and technological shortfalls that enable the USCG and other Arctic maritime operators to respond to catastrophic events. Greater situational awareness in the Arctic maritime domain, including the Northern Bering Sea and Bering Strait, is a requirement to prevent and respond to incidents of national significance. The Center for Accelerating Operational Efficiency (CAOE) will conduct end-user focused research to enhance the application of analytic tools to enable the DHS components and offices to realize achievable improvements in operational efficiency, and to support real-time decision making to address homeland security-related threats and hazards. The research will provide technologies, education and training to improve data management and analysis, to facilitate operations research and systems analysis, to identify the economic impact of security threats and hazards, and to critically assess risks to DHS missions and the people and property they protect. DHS expects this Center to develop the next generation of applied mathematical, computational, and statistical theory (including algorithms and methods), and to advance the quantitative analytical capabilities of DHS components and offices and their partners. This Center also will provide quantitative and analytical tools to administrators, investigators, field operators, and analysts across DHS components. The Cross Border Threat Screening and Supply Chain Defense (CBTS) Center will research and develop solutions, protocols, and capabilities to

support DHS operations that detect, assess, and respond to known and unknown biological threats and hazards that could adversely impact the Nations people, agriculture, and economy. This Centers research will provide innovations and methods to improve biothreat screening and detection, prevention, and support response. Researchers will seek to understand how advances in bioengineering can support the needs of operators in the field when confronted with emerging threats, both naturally occurring and in situations involving intentional exposures. The Center will also research how to make sense of large amounts of data emerging from diagnostics, genetics, sensors, and the environment. Today's analysts, first responders, professionals in public and animal health, and operators in the field are confronted with enormous amounts of data which, if understood, could assist in improving our ability to identify threats earlier and make decisions that save lives and the economy. The Criminal Investigations and Network Analysis (CINA) Center will provide solutions to enhance investigation strategies to counter the proliferation of transnational criminal networks, cross-border criminal activities, and the growth in criminal use and exploitation of the cyber domain. CINA will develop and conduct research and education programs that will help DHS and its partners enhance investigation strategies to counter the proliferation of transnational criminal networks, cross-border criminal activities, and the growth in criminal use and exploitation of the cyber domain. The Center will provide education and professional development to improve the cost-effectiveness of criminal investigations, prosecution, prediction and prevention. CINA will also develop data, methods, tools, knowledge-products, and technology-based solutions for agents, officers and investigators to better coordinate investigative strategies and operations to predict, avert and prosecute trans-national crimes. The Critical Infrastructure Resilience Institute (CIRI) will conduct research and education that will enhance the Nations ability to prepare and more rapidly recover from catastrophic disruptions, supporting DHS and its partners in solving complex, interdisciplinary challenges that affect the Nations infrastructure. Using a place-based approach, researchers will investigate multiple linked industrial sectors, utilities, and public services. These entities collectively prove critical to business continuity and community recovery within a specific metropolitan area. The place-based approach will allow CIRI to develop solutions to enhance preparedness and recovery of the nations critical infrastructure systems. Critical infrastructures are the assets, systems, and networks, whether physical or virtual, so vital to the United States that their incapacitation or destruction would have a debilitating effect on security, national economic security, national public health or safety, or any combination thereof. The Coastal Resilience Center (CRC) will conduct research and education to enhance the Nations ability to safeguard people, infrastructure, and economies from catastrophic coastal natural disasters such as floods and hurricanes. The Coastal Resilience Center also will consider future climate trends and their impacts on coastal resilience. Areas of research will include coastal infrastructure resilience, building resilient communities, and disaster dynamics. The overarching goal of the Center will be to advance our understanding of coastal hazards to benefit a large number of public and private entities. DHS anticipates this research will produce tangible research and education results for use by DHS, other federal agencies, state and local governments, and other relevant entities. The Engineering Secure Environments from Targeted Attacks (ESE) Center will focus efforts in protecting transportation environments and public venues, improving systems of collaboration across public and private entities, and producing new engineering approaches to securing crowded spaces with novel design concepts. There are growing threats from malicious threat actors that target unsecure spaces where they can inflict the gravest injury to human life and property. These threats result in physical, psychological, and financial losses on the individual, collective and societal level to the American population. To address these threats, DHS can make a difference by ensuring future public and private investment in urban infrastructure includes security principals. DHS seeks research that will ensure the Departments long-term needs are considered when infrastructure recapitalization occurs. ESEs research will directly support the departments strategic framework to counter terrorism and targeted violence. The goal of ESE is to advance research that safeguards spaces where traditional methods to physical security are impractical to implement at scale. The Maritime Security Center (MSC) will continue ongoing research and education activities in coordination with U.S. Coast Guard and other customers to facilitate transition of appropriate projects to DHS components and advance integrated education efforts. MSC research projects focus on the following areas: Maritime Risk, Threat Analysis, and Resilience Research; Maritime Domain Awareness (MDA) Research; Maritime Technology Research; and Integration of Science and Engineering with Maritime Security Governance

ASSISTANCE LISTINGS DESCRIPTIONS

and Policy Research. In addition to pursuing key research and education initiatives based on DHS challenges, the Center will also focus on enhancing the knowledge, technical skills, and leadership capabilities of the Nations current and prospective maritime security workforce. At the core of the Centers mission is the transfer of its research and expertise into relevant, innovative educational programs. The Centers educational programs leverage the subject matter expertise and research assets of its academic partners and stakeholder network to provide multidisciplinary and experiential learning opportunities for students and tailored programs for professional audiences. The National Counterterrorism Innovation, Technology, and Education (NCITE) Center will conduct research and develop solutions, protocols, and capabilities to support DHS operations that detect, assess, and respond to domestic terrorist activities that would harm the people and infrastructure of the United States. The Centers research portfolio will focus on four major theme areas: the nature of counterterrorism operations, development of the Nationwide Suspicious Activity Reporting Initiative, Terrorism Prevention, and Workforce Development. The Center will provide education and professional development to ensure that the current and future homeland security enterprise workforce is adequately trained and educated to prepare for and respond to terrorist activities.

TYPES OF ASSISTANCE:

USES AND USE RESTRICTIONS:

Proposals must be submitted by an accredited U.S. institution of higher education that, along with its chosen partners, has the ability and capacity to conduct the required research. An accredited public and private institution of higher education in the United States must be identified as the official lead for proposal submission and subsequent negotiations. COEs may partner with other academic institutions, historically black colleges and universities (HBCUs) and/or other MSIs and institutions in states that are part of the Experimental Program to Stimulate Competitive Research (EPSCoR), public or private sector, and non-profit organizations, including any organizations that meet the definition of nonprofit in OMB Circular A-122, relocated to 2 CFR Part 230. However, nonprofit organizations described in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible to apply. Partnering entities will generally be funded through subawards from the lead institutions. National laboratories funded by Federal agencies may not apply.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; U.S. Territories and possessions (includes institutions of higher education and hospitals); Eligible applicants are accredited U.S. institutions of higher education.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2020: Continuation Applications of 8 COEs. OUP awarded one new COE in FY20. ADAC - completed successful tests of the Long-range Autonomous Vehicle (LRAUV) and marine induced polarization technologies under development and transitioned the High-Resolution Ice-Ocean Modeling and Assimilation System (HIOMAS) to USCG customer. BTI - completed Border Management/Cross Border Trade Course Curriculum and university offering courses for CBP officers and general public. Completed Cross-Border E-Commerce Challenges with Emerging Technologies research utilized by CBP and posted on its website. CAO E - developed tools that predict fluctuating demands at airport screening facilities at Phoenix Sky Harbor, helping to improve the efficiency of screening checkpoints without compromising security. This is a large-scale educational collaboration between airports in Phoenix, Las Vegas and San Diego contributed to the work. CBTS - In response to the COVID19 pandemic, the COE quickly initiated several new research projects examining the pandemics impact on various global supply chains. CIRI - provided funding and research opportunities to over 29 graduate students from 10 universities. These students collaborated alongside faculty researchers to address homeland security challenges. CRC developed a Graduate Certificate in Disaster Resilient Policy.

ASSISTANCE LISTINGS DESCRIPTIONS

Engineering and Design that was approved and implemented by the North Carolina State University (NCSSU) Curriculum Committee and the Graduate School in May 2020. CRC researchers developed the certificate program to further interdisciplinary education focused on achieving disaster resilience. CINA - produced its first and second prototypes in digital forensics and network analysis. The Hash prototype allows the U.S. Immigration and Customs Enforcement (ICE) Homeland Security Investigations (HSI) Cyber Crimes Center (C3) to reduce dramatically the number of hours searching for evidence on recovered devices. MSC - developed a two-day Maritime Cybersecurity Professional Development Course in conjunction with U.S. Coast Guard (USCG) Cyber Command and USCG Sector NY. The course provides Coast Guard personnel with foundational knowledge in cyber security concepts and increased awareness of cyber security vulnerabilities and mitigations, to assist in making cyber assessments as part of facility and vessel inspections and cyber incident response efforts. NCITE - supported the analysis and dissemination of a monthly report about ISIS in America, which details updated state-level statistics about recent U.S. Persons charged with material support charges across the United States. The report was sent to 78 DHS Fusion Centers and FBI's Joint Terrorism Task Force listserv, which allows for information sharing about threats across FLSTT boundaries at an UNCLASSIFIED level for broad consumption from stakeholders. Fiscal Year 2021: 2021 (estimated): Continuation Applications of 8 COEs. OUP will award one new COE in FY21. ADAC developed and filed a provisional patent for a Long-Range Autonomous Vehicle (LRAUV) System and developed Arctic All-Hazard WebGIS software, which was successfully integrated into Homeland Security Information Network (HSIN) Geospatial Information Infrastructure (GII) and incorporated a USCG Automatic Identification System (AIS) feed into the application. CAO E - developed and filed a provisional patent for an invention that advances the characterization of network scanning for vulnerable machines in the Internet or to perform reconnaissance, which is often the first step in a cyberattack, advancing automated characterization of network scanning that that will enable actionable cyber defense intelligence. CBTS - completed the development of Animal and Plant Disease Epidemiology 101 and 102 Courses and provided training classes to CBP Training Officers and completed a Comprehensive Curriculum Gap Analysis and Needs Assessment of CBP Training and Education programs. CIRI - developed the Probabilistic Resilient Interdependent Infrastructure System Modeling (PRIISM), a software product that conducts interdependent infrastructure risk assessments. The tool aims to provide a way to conduct more comprehensive risk assessments of critical infrastructure considering interdependencies between multiple networks. CRCs - ADCIRC model was incorporated into the National Oceanic and Atmospheric Administrations (NOAA) Global Extratropical Surge & Tide Operational Forecast System (ESTOFS-Global). Used by forecasters at Weather Forecasting Offices and the Ocean Prediction Center (OPC) to generate their storm surge forecasts during winter storms, the model also now offers improved spatial resolution in U.S. waters and enhanced physics. CINA - produced its third and fourth prototypes in multimedia analytics. The third prototype, voice analysis, provides U.S. Coast Guard (USCG) and Federal Bureau of Investigation (FBI) investigators with new and valuable information about the speaker in voice recordings (e.g. from 911 calls, interviews, etc.). The fourth prototype, video analytics system, increases the capacity of HSI, TSA, and the U.S. Customs and Border Protection (CBP) to perform face and body identification and reidentification and edge processing, even using low-quality equipment. MSC - conducted two successful pilots of its Maritime Cybersecurity Professional Development Course. The course was piloted remotely on October 1-2, 2020, and December 3-4, 2020, and included a total of 34 marine safety personnel representing 18 Sectors from nine USCG Districts. NCITE - successfully involved 66 students within their core operations, research, and internships. Students were able to enhance their technical expertise, awareness of the Departments missions, and were provided stipends and/or tuition. Fiscal Year 2022: Estimated to receive continuation applications of 7 COEs. OUP will award 2 new COEs in FY22.

SCIENCE AND TECHNOLOGY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Homeland Security Act of 2002, Section 308, Public Law 107-296, 6 USC Code 188(b); 182(10).

OBJECTIVES:

In support of the Science and Technology Directorate's mission to build a pipeline of diverse talent knowledgeable in the Department of Homeland Security, the Office of University Programs administers the Scientific Leadership Awards (SLA) for Minority Serving Institutions (MSI). SLAs fund homeland security-related science, technology, engineering, and mathematics research at MSIs and supplement existing academic institution curricula with homeland security challenges to prepare MSI students for successful careers within the homeland security enterprise. OBJECTIVES: The objectives of this program are: (1) increase the intellectual capacity, skills and talents, especially those of U.S. citizens in areas of relevance to homeland security; (2) to attract undergraduate and graduate students to obtain advanced degrees in disciplines of importance to homeland security; (3) provide advanced professional and research development opportunities for fellows, scholars and faculty in targeted areas; and (4) to increase the diversity of and highly talented cadre of new and emerging science and technology expertise working in areas of importance and need to homeland security.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use, Project Grants

USES AND USE RESTRICTIONS:

Support is provided to Minority Serving Institutions (MSIs) to develop capacity in HS-STEM and provide financial support and career guidance to students.

Applicant Eligibility:

97.067 Homeland Security Grant Program

(HSGP).

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Title Homeland Security Act of 2002 , Public Law 107-296,

OBJECTIVES:

The objective of the FY 2021 HSGP is to provide funds to eligible entities to support state, local, tribal, and territorial efforts to achieve core capabilities related to preventing, preparing for, protecting against, and responding to acts of terrorism. HSGP consists of three components: the State Homeland Security Program (SHSP), Urban Area Security Initiative (UASI), and Operation Stonegarden (OPSG). SHSP supports state, local, tribal, and territorial preparedness activities in efforts to build, sustain, and deliver the capabilities necessary to prevent, protect against, mitigate, respond to, and recover from acts of terrorism. UASI assists high-threat, high-density Urban Areas in efforts to build, sustain, and deliver the capabilities necessary to prevent, protect against, mitigate, respond to, and recover from acts of terrorism. OPSG supports enhanced cooperation and coordination among Customs and Border Protection (CBP), United States Border Patrol (USBP), and federal, state, local, tribal, and territorial law enforcement agencies. OPSG provides funding to support joint efforts to secure the United States borders along routes of ingress from international borders to include travel corridors in states bordering Mexico and Canada as well as states and territories with international water borders. For FY 2020/2021, DHS/FEMA will award SHSP and UASI funds based on DHS/FEMAs relative risk methodology pursuant to the Homeland Security Act of 2002, as amended. National Priority Investments for SHSP and UASI: SHSP and UASI applicants will be required to submit an Investment Justification (IJ) for each of the following four five national priorities for at least between 5% and 7.5% of their total award per priority area: 1. Enhancing cybersecurity (including election security); 2.7.5%); 2. Enhancing the protection of soft targets/crowded places (including election security);5%); 3. Enhancing information and intelligence sharing and cooperation with federal agencies, including DHS; and (5%); 4. Combatting domestic violent extremism (7.5%); 45. Addressing emerging threats (e.g., transnational criminal organizations, weapons of mass destruction [WMDs], unmanned aerial systems [UASs], etc.).The Tribal Homeland Security Grant Program (THSGP) is a carve-out of SHSP. The objective of the THSGP is to provide funding directly to eligible tribes to strengthen their capacities to prevent, prepare for, protect against, and respond to

potential terrorist attacks.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Civil Defense/Disaster Prevention and Relief/Emergency Preparedness
DHS/FEMA grant funds may only be used for the purpose set forth in the grant and must be consistent with the statutory authority for the award. Grant funds must be used in accordance with 2 C.F.R. Part 200. Grant funds may not be used for matching funds for other Federal grants/cooperative agreements, lobbying, or intervention in Federal regulatory or adjudicatory proceedings. In addition, Federal funds may not be used to sue the Federal government or any other government entity. Pre-award costs are allowable only with the written consent of DHS and if they are included in the award agreement. For additional information on allowable activities, please refer to <http://www.fema.gov/grants>. Federal employees are prohibited from serving in any capacity (paid or unpaid) on any proposal submitted under this program. Federal employees may not receive funds under this award. There may be limitations on the use of HSGP funds for the following categories of costs: Management and Administration Planning Organization Equipment Training Exercises Maintenance and Sustainment Critical Emergency Supplies Construction and Renovation. For additional details on restrictions on the use of funds, please refer to the FY 2021 HSGP NOFO. Funds Transfer Restriction: The recipient is prohibited from transferring funds between programs (includes SHSP, UASI, and OPSG). Recipients are allowed to submit an investment/project where funds come from multiple funding sources (i.e., SHSP/UASI); however, recipients are not allowed to divert funding from one program to another due to the risk-based funding allocations, which were made at the discretion of DHS/FEMA. Awards made to the SAA for HSGP carry additional pass-through requirements. Pass through is defined as an obligation on the part of the SAA to make funds available to local units of government, combinations of local units, tribal governments, or other specific groups or organizations. The SAA must obligate at least 80 percent (80%) of the funds awarded under SHSP and UASI to local or Tribal units of government within 45 days of receipt of the funds. Receipt of the funds occurs either when the SAA accepts the award or 15 calendar days after the SAA receives notice of the award, whichever is earlier. Four requirements must be met to pass through grant funds: There must be some action to establish a firm commitment on the part of the SAA; The action must be unconditional on the part of the awarding entity (i.e., no contingencies for availability of SAA funds); There must be documentary evidence (i.e., award document, terms and conditions) of the commitment; and The award terms must be communicated to the official recipient. The signatory authority of the SAA must certify in writing to DHS/FEMA that pass-through requirements have been met. A letter of intent (or equivalent) to distribute funds is not considered sufficient. The pass-through requirement does not apply to SHSP awards made to the District of Columbia, Guam, American Samoa, the U.S. Virgin Islands, or the Commonwealth of the Northern Mariana Islands. Under SHSP, the SAA may retain more than 20 percent of funding for expenditures made by the state on behalf of the local unit(s) of government. This may occur only with the written consent of the local unit of government, specifying the amount of funds to be retained and the intended use of funds. States shall review their written consent agreements yearly and ensure that they are still valid. If a written consent agreement is already in place from previous fiscal years, DHS/FEMA will continue to recognize it for FY 2021, unless the written consent review indicates the local government is no longer in agreement. If modifications to the existing agreement are necessary, the SAA should contact their assigned FEMA HQ Program Analyst. OPSG: The recipient is prohibited from obligating or expending funds provided through this award until each unique and specific county-level or equivalent Operational Order/Fragmentary Operations Order budget has been reviewed and approved through an official electronic mail notice issued by DHS/FEMA removing this special programmatic condition. Risk Methodology: Based upon the requirements of the Homeland Security Act of 2002, as amended, DHS/FEMA continues to use risk to determine final HSGP allocations. DHS/FEMA defines risk as: potential for an unwanted outcome resulting from an incident, event, or occurrence, as determined by its likelihood and the associated consequences (see <http://www.dhs.gov/xlibrary/assets/dhs-risk-lexicon-2010.pdf>). The risk methodology determines the relative risk of terrorism faced by a given area considering the potential risk of terrorism to people, critical infrastructure, and economic security. The analysis includes threats from violent domestic extremists, international terrorist groups, and individuals inspired by

terrorists abroad.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); U.S. Territories and possessions (includes institutions of higher education and hospitals); State (includes District of Columbia, public institutions of higher education and hospitals), Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals, U.S. Territories and possessions (includes institutions of higher education and hospitals))The SAA is the only entity eligible to submit HSGP applications to DHS/FEMA, including those applications submitted on behalf of UASI and OPSG applicants. All 56 states and territories, including any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands, are eligible to apply for SHSP funds. Tribal governments may not apply directly for HSGP funding; however, funding may be available to tribes under the SHSP and OPSG through the SAA. Eligible high-risk urban areas for the FY 2021 UASI program have been determined through an analysis of relative risk of terrorism faced by the 100 most populous Metropolitan Statistical Areas (MSAs) in the United States. Subwards will be made by the SAAs to the designated high-risk urban areas. Eligible subrecipients under FY 2021 OPSG are local units of government at the county level or equivalent level of government and federally-recognized tribal governments in states on or near the border with Canada or Mexico, and states and territories with international water borders. All applicants must have active ongoing USBP operations coordinated through a CBP sector office to be eligible for OPSG funding. Under FY 2021 OPSG, subrecipients eligible to apply for and receive a subaward directly from the SAAs are divided into three Tiers. Tier 1 entities are local units of government at the county level or equivalent and federally recognized tribal governments that are on a physical border in states bordering Canada or Mexico, and states and territories with international water borders. Tier 2 eligible subrecipients are those not located on the physical border or international water but are contiguous to a Tier 1 eligible subrecipient. Tier 3 eligible subrecipients are those not located on the physical border or international water but are contiguous to a Tier 2 eligible subrecipient. Tier 2 and Tier 3 eligible subrecipients may be eligible to receive funding based on border security risk as determined by the USBP. Tribes that meet the eligibility criteria outlined in the Notice of Funding Opportunity are eligible to apply under THSGP.

Beneficiary Eligibility:

U.S. Territories; State; Local; U.S. Territories, State, Local, Tribal

Credentials/Documentation:

As part of the FY 2021 HSGP application process for SHSP and UASI funds, applicants must develop formal investment justifications (IJs) that address the proposed investments. Each IJ must demonstrate how proposed investments: Support terrorism preparedness; Support closing capability gaps or sustaining capabilities identified in the 2020 Threat and Hazard Identification and Risk Assessment (THIRA)/Stakeholder Preparedness Review (SPR) process and national priorities as outlined in the National Preparedness Report; and Engage and/or impact the whole community, including children, older adults, pregnant women, and individuals with limited English proficiency, individuals with disabilities and others with access and functional needs, and ensure the protection of civil rights in the building, sustainment, and delivery of core capabilities. Applicants must propose at least one, and may include up to 10 investments. Within each investment in their IJ, applicants must propose at least one project to describe the activities they plan to implement with HSGP funds. There is no limit to the number of projects that may be submitted. Any projects funded with HSGP funds that are not included in the application must subsequently be included in the first Biannual Strategy Implementation Report (BSIR). Of the proposed HSGP-funded investments, one (1) single investment must be in support of a designated fusion center. Recipients must coordinate with the fusion center when developing a fusion center investment prior to submission. Of the proposed HSGP-funded investments, at least one (1) investment must be in support of the state or territories cybersecurity efforts. At least one (1) investment for SHSP and UASI must address each National Priority Area, and account for at between 5% - 7.5% of the state/urban areas total award (for a total of at least five investments and 30% of total award). Recipients must limit the use of HSGP funds for projects that support the security and functioning of critical infrastructure and core capabilities as they

ASSISTANCE LISTINGS DESCRIPTIONS

relate to terrorism preparedness and may simultaneously support enhanced preparedness for other hazards unrelated to acts of terrorism. All emergency communications investments must describe how such activities align with their Statewide Communication Interoperable Plan (SCIP). Recipients must coordinate with their Statewide Interoperability Coordinator (SWIC) and/or Statewide Interoperability Governance Body (SIGB) when developing an emergency communications investment prior to submission to ensure the project supports the statewide strategy to improve emergency communications and is compatible and interoperable with surrounding systems. As part of the FY 2021 OPSG application process, each eligible local unit of government at the county or Federally-recognized tribal government level must develop a strategic plan called a Concept of Operations (CONOP)/Application, which is a formal proposal of action to address a specific situation and forms the basis for Operations Orders, in coordination with state and Federal law enforcement agencies, to include, but not limited to CBP/USBP. CONOPs that are developed at the county level should be inclusive of city, county, tribal, and other local law enforcement agencies that are eligible to participate in OPSG operational activities, and the CONOP/Application should describe participating agencies in the Executive Summary. CONOP/Application details should include the names of the agencies, points of contact, and individual funding requests. All CONOPs/Applications must be developed in collaboration with the local USBP sector office, the State Administrative Agency (SAA) and the local unit of government. Requests for funding in CONOPs/Applications must be based on risks and the operational enforcement support requirements of its corresponding USBP Sector. Sector offices will forward the CONOPs to USBP Headquarters for vetting and coordination. Applicants will forward corresponding OPSG Applications to the SAA for submission to FEMA. USBP Headquarters will reconcile all submitted CONOPs with the OPSG Applications. For the FY 2021 THSGP, tribes must self-certify their eligibility based on the criteria outlined in the Notice of Funding Opportunity, and submit Investment Justifications for each proposed project that outline the capability gap to address, expected outcomes, milestones, and how the proposed project will address the capability gap. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Preapplication coordination is required. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. All applications must be received by the established deadline. The Non-Disaster (ND) Grants System has a date stamp that indicates when an application is submitted. Applicants will receive an electronic message confirming receipt of the full application. In general, DHS/FEMA will not review applications that are not received by the deadline or consider them for funding. DHS/FEMA may, however, extend the application deadline on request for any applicant who can demonstrate that good cause exists to justify extending the deadline. Application forms and instructions are available at [Grants.gov](https://www.grants.gov). To access the application package, select Applicants then Apply for Grants followed by Get Application Package. Enter the Funding Opportunity Number located on the first page of this NOFO. Select Apply and then Create Workspace. Follow the prompts to download the instructions and begin the application. Notice of Funding Opportunities (NOFO) for this listing will be posted on [Grants.gov](https://www.grants.gov).

Award Procedure:

SHSP Allocations: FY 2021 SHSP funds will be allocated based on two factors: minimum amounts as legislatively mandated, and DHS/FEMAs risk methodology. Each state and territory will receive a minimum allocation under the SHSP using thresholds established in the Homeland Security Act of 2002, as amended. All 50 States, the District of Columbia, and the Commonwealth of Puerto Rico will

receive 0.35 percent of the total funds allocated for grants under Section 2003 and Section 2004 of the Homeland Security Act of 2002, as amended. Each of the four territories (American Samoa, Guam, the Northern Mariana Islands, and the U.S. Virgin Islands) will receive a minimum allocation of 0.08 percent of the total funds allocated for grants under Section 2003 and 2004 of the Homeland Security Act of 2002, as amended. The remaining funds will be awarded based on risk. UASI Allocations: FY 2021 UASI funds will be allocated based on DHS/FEMAs risk methodology. Eligible candidates for the FY 2021 UASI program have been determined through an analysis of relative risk of terrorism faced by the 100 most populous MSAs in the United States, in accordance with the Homeland Security Act of 2002, as amended. Detailed information on MSAs is publicly available from the United States Census Bureau at <https://www.census.gov/programs-surveys/metro-micro.html>. OPSG Allocations: The FY 2021 OPSG Risk Assessment is designed to identify the risk to border security and to assist with the distribution of funds for the grant program. Funding under OPSG is distributed based on the risk to the security of the border. All successful applicants for all DHS grant and cooperative agreements are required to comply with DHS Standard Administrative Terms and Conditions. The date the approval of award is entered in the system is the award date. Notification of award approval is made through the ND Grants system through an automatic e-mail to the grantee point of contact listed in the initial application. Once an award has been approved and recorded in the system, a notice is sent to the authorized grant official. The authorized grant official should carefully read the award package for instructions on administering the grant and to learn more about the terms and conditions associated with responsibilities under Federal awards.

Reports:

All successful applicants for all DHS grant and cooperative agreements are required to comply with DHS Standard Administrative Terms and Conditions available within Section 6.1.1 of <http://www.dhs.gov/xlibrary/assets/cfo-financial-management-policy-manual.pdf>. Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund drawdowns may be withheld if these reports are delinquent. The final FFR is due 90 days after the end date of the performance period. FFRs must be filed electronically through PARS. Grant Close-Out Process. DHS/FEMA will close out the grant award when it determines that all applicable administrative actions and all required work of the HSGP award have been completed by the recipient. This section summarizes the actions that the recipient must take to complete the closeout process in accordance with 2 C.F.R. 200.343 at the end of the grants period of performance or the

ASSISTANCE LISTINGS DESCRIPTIONS

issuance of a Grant Amendment Notice issued to close out the grant. Within 90 days after the end of the period of performance, or after an amendment has been issued to close out a grant, whichever comes first, recipients must submit a final FFR and final progress report detailing all accomplishments and a qualitative summary of the impact of those accomplishments throughout the period of performance, as well as the following documentation: 1) Final request for payment, if applicable; 2) SF-425 Final Federal Financial Report; 3) SF-PPR Final Performance Progress Report; 4) A qualitative narrative summary on the impact of those accomplishments throughout the entire period of performance submitted to the respective Grant Programs Directorate (GPD) HQ Program Analyst in a Word document; 5) SF-428 Tangible Personal Property Report Inventory of all tangible personal property acquired using funds from this award. 6) Other documents required by program guidance or terms and conditions of the award. If applicable, an inventory of all construction projects that used funds from this program has to be reported using the Real Property Status Report (Standard Form SF 429) available at http://www.whitehouse.gov/sites/default/files/omb/grants/approved_forms/sf-429.pdf. Additionally, the recipient must liquidate all obligations incurred under the HSGP award no later than 90 calendar days after the end date of the period of performance or issuance of a Grant Amendment Notice that closes out the award, whichever comes first. Recipients who do not liquidate their obligations within this time period may have the costs of their unliquidated obligations disallowed. Recipients are also responsible for promptly returning to DHS/FEMA the balance of any funds that have been drawn down, but remain unliquidated. After these reports have been reviewed and approved by DHS/FEMA, a close-out notice will be completed to close out the grant. The notice will indicate the period of performance as closed, list any remaining funds the recipient has not drawn down that will be deobligated, and address requirements for record retention, and disposition and reporting requirements for any equipment or real property purchased using THSGP grant funding. In addition, any HSGP recipient that issues subawards to any subrecipient is responsible for closing out those subawards as described in 2 C.F.R. 200.343. HSGP recipients must ensure that they complete the closeout of their subawards in time to submit all necessary documentation and information to DHS/FEMA during the closeout of their own grant award. SHSP and UASI recipients are responsible for providing updated performance reports on a biannual basis as an attachment in ND Grants. The Program Performance Report (PPR) should include the following: A brief narrative of overall project(s) status A summary of project expenditures A description of any potential issues that may affect project completion. In addition to the quarterly financial and biannual performance progress reports, recipients are responsible for completing and submitting BSIRs through the Grants Reporting Tool (GRT). The BSIR is due within 30 days after the end of the reporting period. Updated obligations, expenditures, and significant developments must be provided within the BSIR to show the progress of implementation for every project as well as how expenditures support Planning, Organization, Equipment, Training, and Exercises (POETE). Recipients are also responsible for completing and submitting a closeout BSIR. When an awards POP or the liquidation period ends in the middle of a reporting period, a regular BSIR must be submitted with full accounting of actual project information/expenditures before a Closeout BSIR can be created/submitted. The last regular BSIR is required because the Closeout BSIR does not contain full functionality to edit any project information/expenditures. Once the last regular BSIR is approved by GPD, the Closeout BSIR can be created/submitted. Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund draw downs may be withheld if these reports are delinquent. The final FFR is due 120 days after the end date of the performance period. FFRs must be filed electronically through the Payment and Reporting System (PARS). Grant recipients will be monitored periodically by FEMA staff, both programmatically and financially, to ensure that the project goals, objectives, performance requirements, timelines, milestone completion, budgets, and other related program criteria are being met. Monitoring may be accomplished through either a desk-based review or on-site monitoring visits, or both. Monitoring will involve the review and analysis of the financial, programmatic, performance, compliance and administrative processes, policies, activities, and other attributes of each Federal assistance award and will identify areas where technical assistance, corrective actions and other support may be needed.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with the provisions of 2 C.F.R. Part 200, Subpart F - Audit Requirements, non-federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. FEMA grant recipients are subject to audit oversight from multiple entities including the DHS OIG, the GAO, the pass-through entity, or independent auditing firms for single audits, and may cover activities and costs incurred under the award. Auditing agencies such as the DHS OIG, the GAO, and the pass-through entity, if applicable, and FEMA in its oversight capacity, must have access to records pertaining to the FEMA award. Recipients and subrecipients must retain award documents for at least three years from the date the final FFR is submitted, and longer in some cases, subject to the requirements of 2 C.F.R. 200.334. In the case of administrative closeout, documents must be retained for at least three years from the date of closeout, or longer, subject to 2 C.F.R. 200.334. If documents are retained longer than the required retention period, the DHS OIG, GAO, and pass-through entity, as well as FEMA in its oversight capacity, have the right to access these records as well. See 2 C.F.R. 200.334, 200.337. Additionally, non-federal entities must comply with the single audit requirements at 2 C.F.R. Part 200, Subpart F. Specifically, non-federal entities, other than for-profit subrecipients, that expend \$750,000 or more in federal awards during their fiscal year must have a single or program-specific audit conducted for that year in accordance with Subpart F. 2 C.F.R. 200.501. A single audit covers all federal funds expended during a fiscal year, not just FEMA funds. The cost of audit services may be allowable per 2 C.F.R. 200.425, but non-federal entities must select auditors in accordance with 2 C.F.R. 200.509, including following the proper procurement procedures. The objectives of single audits are to: Determine if financial statements conform to generally accepted accounting principles (GAAP); Determine whether the schedule of expenditures of federal awards is presented fairly; Understand, assess, and test the adequacy of internal controls for compliance with major programs; and Determine if the entity complied with applicable laws, regulations, and contracts or grants. For single audits, the auditee is required to prepare financial statements reflecting its financial position, a schedule of federal award expenditures, and a summary of the status of prior audit findings and questioned costs. The auditee also is required to follow up and take appropriate corrective actions on new and previously issued but not yet addressed audit findings. The auditee must prepare a corrective action plan to address the new audit findings. 2 C.F.R. 200.508, 200.510, 200.511. Non-federal entities must have an audit conducted, either single or program-specific, of their financial statements and federal expenditures annually or biennially pursuant to 2 C.F.R. 200.504. Non-federal entities must also follow the information submission requirements of 2 C.F.R. 200.512, including submitting the audit information to the Federal Audit Clearinghouse within the earlier of 30 calendar days after receipt of the auditors report(s) or nine months after the end of the audit period. The audit information to be submitted include the data collection form described at 2 C.F.R. 200.512(c) and Appendix X to 2 C.F.R. Part 200 as well as the reporting package described at 2 C.F.R. 200.512(b). The non-federal entity must retain one copy of the data collection form and one copy of the reporting package for three years from the date of submission to the Federal Audit Clearinghouse. 2 C.F.R. 200.512; see also 2 C.F.R. 200.517 (setting requirements for retention of documents by the auditor and access to audit records in the auditors possession). FEMA, the DHS OIG, the GAO, and the pass-through entity, if applicable, as part of monitoring or as part of an audit, may review a non-federal entities compliance with the single audit requirements. In cases of continued inability or unwillingness to have an audit conducted in compliance with 2 C.F.R. Part 200, Subpart F, FEMA and the pass-through entity, if applicable, are required to take appropriate remedial action under 2 C.F.R. 200.339 for noncompliance, pursuant to 2 C.F.R. 200.505.

Records:

Financial records, supporting documents, statistical records, and all other non-federal entity records pertinent to a federal award generally must be maintained for at least three years from the date the final FFR is submitted. See 2 C.F.R. 200.334.

ASSISTANCE LISTINGS DESCRIPTIONS

Further, if the recipient does not submit a final FFR and the award is administratively closed, FEMA uses the date of administrative closeout as the start of the general record retention period. The record retention period may be longer than three years or have a different start date in certain cases. These include: Records for real property and equipment acquired with federal funds must be retained for three years after final disposition of the property. See 2 C.F.R. 200.334(c). If any litigation, claim, or audit is started before the expiration of the three-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken. See 2 C.F.R. 200.334(a). The record retention period will be extended if the recipient is notified in writing of the extension by FEMA, the cognizant or oversight agency for audit, or the cognizant agency for indirect costs. See 2 C.F.R. 200.334(b). Where FEMA requires recipients to report program income after the period of performance ends, the program income record retention period begins at the end of the recipients fiscal year in which program income is earned. See 2 C.F.R. 200.334(e). For indirect cost rate proposals, cost allocation plans, or other rate computations records, the start of the record retention period depends on whether the indirect cost rate documents were submitted for negotiation. If the indirect cost rate documents were submitted for negotiation, the record retention period begins from the date those documents were submitted for negotiation. If indirect cost rate documents were not submitted for negotiation, the record retention period begins at the end of the recipients fiscal year or other accounting period covered by that indirect cost rate. See 2 C.F.R. 200.334(f).

a Soft Target/Crowded Place from acts of terrorism and other potential catastrophic events.

CRITERIA FOR SELECTING PROPOSALS:

FEMA will evaluate the FY 2021 HSGP applications for completeness, adherence to programmatic guidelines, and anticipated effectiveness of the proposed investments. FEMA's review will include verification that each IJ or project: Aligns with at least one core capability identified in the Goal; Demonstrates how investments support closing capability gaps or sustaining capabilities identified in the THIRA/SPR process; and Supports a NIMS-typed resource and whether those assets are deployable/shareable to support emergency or disaster operations per existing EMAC agreements. SHSP and UASI applicants must also submit at least one investment for each of the National Priority Areas that is 5% or 7.5% (depending on the Area) of their total award. In addition to the above, FEMA will evaluate whether proposed projects are: 1) both feasible and effective at reducing the risks for which the project was designed; and 2) able to be fully completed within the three-year period of performance (POP). FEMA will use the information provided in the application and after the submission of the first BSIR to determine the feasibility and effectiveness of a grant project. Funding under OPSG is distributed based on the risk to the security of the border. For the purposes of OPSG, risk is defined as the potential for an adverse outcome assessed as a function of threats, vulnerabilities, and consequences associated with an incident, event, or occurrence. Based upon ongoing intelligence analysis and extensive security reviews, DHS/CBP continues to focus the bulk of OPSG funds based upon risk analyses. The risk model used to allocate OPSG funds considers the potential risk that certain threats pose to border security and estimate the relative risk faced by a given area. In evaluating risk, DHS/CBP considers intelligence, situational awareness, criminal trends, and statistical data specific to each of the border sectors, and the potential impacts that these threats pose to the security of the border area. For vulnerability and consequence, DHS/CBP considers the expected impact and consequences of successful border events occurring in specific areas. Threat and vulnerability are evaluated based on specific operational data from DHS/CBP. Threat components present in each of the sectors are used to determine the overall threat score. These components are terrorism, criminal aliens, drug trafficking organizations, and alien smuggling organizations. THSGP applications will be reviewed to ensure that the applicant meets all eligibility requirements, and that the application is complete. Eligible and complete applications are then reviewed based on the elements of the Investment Justification: Overview, Baseline, Project Management and Milestones, and Accomplishments and Impacts. FEMA HQ Grants Management Specialists then conduct a financial review of the top scoring investments on allowability, allocability, and financial reasonableness of the proposed budget; and whether the applicant meets the financial and legal requirements listed in 2 C.F.R. Part 200.

97.075 Rail and Transit Security Grant Program

TSGP/IPR (AMTRAK),

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Implementing Recommendations of the 9/11 Commission Act of 2007, Section 1406, Public Law 110-53, 6 USC Code 1135.

OBJECTIVES:

The Fiscal Year (FY) 2021 Intercity Passenger Rail (IPR) Amtrak program, and the FY 2021 Transit Security Grant Program (TSGP), are two of four grant programs that constitute the Department of Homeland Security (DHS)/FEMAs focus on transportation infrastructure security activities. These grant programs are part of a comprehensive set of measures authorized by Congress and implemented by the Administration to help strengthen the Nations critical infrastructure against risks associated with potential terrorist attacks. IPR provides funds to Amtrak to protect critical surface transportation infrastructure and the traveling public from acts of terrorism, major disasters, and other emergencies. The TSGP provides funds to transit agencies to protect critical surface transportation infrastructure and the traveling public from acts of terrorism, major disasters, and other emergencies. Among the five basic homeland security missions noted in the DHS Quadrennial Homeland Security Review, the IPR and TSGP programs support the goal to Strengthen National Preparedness and Resilience. The 2018-2022 FEMA Strategic Plan creates a shared vision for the field of emergency management and sets an ambitious, yet achievable, path forward to unify and further professionalize emergency management across the country. IPR and TSGP support the goal of Ready the Nation for Catastrophic Disasters. Given the evolving threat landscape, it is incumbent upon DHS/FEMA to continuously evaluate the national risk profile and set priorities that help ensure appropriate allocation of scarce security dollars. In assessing the national risk profile for FY 2021, three priority areas emerge that are applicable to IPR and TSGP: 1) Enhancing the protection of soft targets/crowded places; 2) Enhancing cybersecurity; and 3) Addressing emergent threats, such as unmanned aerial systems (UAS). Likewise, there are several enduring security needs that crosscut the Transportation Sector and form a second tier of priorities that help ensure a comprehensive approach to securing the Nations transportation systems. These are: 1) effective planning; 2) training and awareness campaigns; 3) equipment and capital projects; and 4) exercises.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Grant funds must be used in accordance with 2 C.F.R. Part 200. Grant funds may not be used for matching funds for other Federal grants/cooperative agreements, lobbying, or intervention in Federal regulatory or adjudicatory proceedings. In addition, Federal funds may not be used to sue the Federal government or any other government entity. Pre-award costs are allowable only with the written consent of DHS and if they are included in the award agreement. Federal employees are prohibited from serving in any capacity (paid or unpaid) on any proposal submitted under this program. Federal employees may not receive funds under this award. In accordance with Homeland Security Presidential Directive (HSPD)-5, Management of Domestic Incidents, the adoption of NIMS is a requirement to receive Federal preparedness assistance, through grants, contracts, and other activities. Federal NIMS implementation must be considered prior to allocation of any Federal preparedness awards in FY 2021. Refer to the FY 2021 TSGP or IPR Notice of Funding Opportunity (NOFO) for more information

Applicant Eligibility:

Sponsored organization; Non-Government - General; Agencies eligible for the FY 2021 TSGP are determined based upon daily unlinked passenger trips (ridership) and transit systems that serve historically eligible Urban Area Security Initiative

(UASI) jurisdictions as indicated below. Certain ferry systems are eligible to participate in the FY 2021 TSGP and receive funds under this program. However, any ferry system electing to participate in and receive funds under the FY 2021 TSGP will not be eligible to participate under the FY 2021 Port Security Grant Program (PSGP) and will not be considered for funding under the FY 2021 PSGP. Likewise, any ferry system that participates in the FY 2020 PSGP will not be eligible for funding under the TSGP. Sections 1405 (6 U.S.C. 1134) and 1406 (6 U.S.C. 1135) of the Implementing Recommendations of the 9/11 Commission Act of 2007 require that high risk public transportation agencies that receive grant funding develop a security plan based on a security assessment. Additionally, the statutes direct that grant funds be used to address items in the security assessment or the security plan. To be eligible for the FY 2021 TSGP, transit agencies must have developed or updated their security plan. The security plan must be based on a security assessment, such as the Baseline Assessment for Security Enhancement (BASE), which is performed by the Transportation Security Inspectors-Surface Division of the Transportation Security Administration (TSA). This security assessment must have been conducted within the three years prior to receiving an FY 2021 TSGP award. A copy of the security plan and security assessment must be provided to DHS/FEMA upon request. Please see the Preparedness Grants Manual for more information on security plan requirements. Entities providing transit security (e.g., city/county police departments or the public transportation agencies own police departments) for a public transportation agency must approve the security plan. The signature of a responsible official from the agencies transit security provider serves as this approval. If there is more than one provider in the core service area, all transit security providers must review and concur with the plan. Associated documentation of this approval must be provided to DHS/FEMA upon request. In addition, agencies transit security providers are encouraged to review the Investment Justifications (IJs) prior to submission. Each public transportation agency receiving funds through this program must also participate in a Regional Transit Security Working Group (RTSWG) or develop a RTSWG if one does not already exist. The RTSWG should serve as the forum for regional partners to discuss risk, planning efforts, and mitigation strategies. These discussions should be held regardless of funding to continue enhancing the overall security of the region. Regional working groups are a best practice for enhancing security and are encouraged for all jurisdictions. The National Passenger Railroad Corporation (Amtrak) is the only entity eligible to apply for funding under FY 2021 IPR Program. For more information, refer to the FY 2021 TSGP and IPR Program Notice of Funding Opportunity (NOFO) National Incident Management System (NIMS) Implementation. In accordance with Homeland Security Presidential Directive (HSPD)-5, Management of Domestic Incidents, the adoption of NIMS is a requirement to receive Federal preparedness assistance, through grants, contracts, and other activities. Prior to allocation of any Federal preparedness awards in FY 2021, grantee must ensure compliance and/or alignment with the NIMS implementation plan. The list of objectives against which progress and achievement are assessed and reported can be found at <http://www.fema.gov/emergency/nims/ImplementationGuidanceStakeholders.shtml#item2>. The primary grantee/administrator of FY 2021 TSGP and IPR Program award funds is responsible for determining if sub-awardees have demonstrated sufficient progress in NIMS implementation to disburse awards.

Beneficiary Eligibility:

Anyone/general public; Sponsored organization; Specialized group; general public.

Credentials/Documentation:

Sections 1405 (6 U.S.C. 1134) and 1406 (6 U.S.C. 1135) of the Implementing Recommendations of the 9/11 Commission Act of 2007 require that high risk public transportation agencies that receive grant funding develop a security plan based on a security assessment. Additionally, the statute directs that grant funds be used to address items in the security assessment or the security plan. Similarly, to be eligible for the FY 2021 IPR, Amtrak must have developed, or updated, its security plan based on a security assessment. For both programs, the security assessment must have been conducted within the last three years prior to receiving an FY 2021 award. A copy of the security plan and security assessment must be provided to DHS/FEMA upon request. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. EMA makes all funding opportunities available on the Internet at <http://www.grants.gov>. Application forms and instructions are available at [Grants.gov](http://www.grants.gov). The on-line application includes the following required form: Standard Form 424, Application for Federal Assistance Applying for FY 2021 TSGP and IPR Program funds require a two-step process. Step 1: initial submission to determine eligibility and Step 2: full application. Step 1 involves submitting a complete Standard Form 424 to www.grants.gov. The Standard Form 424 will be retrieved by ND Grants and the system will automatically populate the relevant data fields in the application. Successful completion of this step is necessary for FEMA to determine eligibility of the applicant. Once FEMA has determined an applicant to be eligible, applicants can proceed to Step 2 which involves submitting the full application package via the ND Grants system. The application must be completed and final submission made through the ND Grants system located at <https://portal.fema.gov>. Unless otherwise referenced, the ND Grants system includes the following required forms and submissions: Standard Form 424A, Budget Information (Non-construction) Standard Form 424B, Standard Assurances (Non-construction) Standard Form 424C, Budget Information (Construction) Standard Form 424D, Standard Assurances (Construction) Standard Form LLL, Disclosure of Lobbying Activities (if the grantee has engaged or intends to engage in lobbying activities) Grants.gov (GG) Lobbying Form, Certification Regarding Lobbying

Award Procedure:

All successful applicants for all DHS grant and cooperative agreements are required to comply with DHS Standard Administrative Terms and Conditions. The date the approval of award is entered in the system is the award date. Notification of award approval is made through the ND Grants system through an automatic e-mail to the grantee point of contact listed in the initial application. Once an award has been approved and recorded in the system, a notice is sent to the authorized grant official. The authorized grant official should carefully read the award package for instructions on administering the grant and to learn more about the terms and conditions associated with responsibilities under Federal awards.

Reports:

Recipients are responsible for providing updated performance reports on a biannual basis as an attachment in ND Grants. The PPR should include the following: A brief narrative of overall project(s) status A summary of project expenditures A description of any potential issues that may affect project completion. Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund draw downs may be withheld if these reports are delinquent. The final FFR is due 120 days after the end date of the performance period. FFRs must be filed electronically through PARS. TSGP and IPR Program awardees are responsible for providing updated performance progress (PPRs) reports using the SF-PPR (OMB Approval Number 0970-0334) on a semi-annual basis. The SF-PPR is due within 30 days after the end of the reporting period (July 30 for the reporting period of January 1 through June 30; and January 30 for the reporting period of July 1 through December 31). The SF-PPR can be accessed online at http://www.na.fs.fed.us/fap/SF-PPR_Cover%20Sheet.pdf. Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund draw downs may be withheld if these reports are delinquent. The final FFR is due 120 days after the end date of the performance period. FFRs must be filed electronically through PARS. Grant recipients will be monitored periodically by FEMA staff, both programmatically and financially, to ensure that the project goals, objectives, performance requirements, timelines, milestone completion, budgets, and other related program criteria are being met. Monitoring may be accomplished through either a desk-based review or on-site monitoring visits, or both. Monitoring will involve the review and analysis of the financial, programmatic, performance, compliance and administrative processes, policies, activities, and other attributes of each Federal assistance award and will identify areas where technical assistance, corrective actions and other support may be needed.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503 For fiscal years beginning on or after December 26, 2014, recipients that expend \$750,000.00 or more from all federal funding sources during their fiscal year are required to submit an organization-wide financial and compliance audit report, also known as a single audit report. The audit must be performed in accordance with the requirements of Government and Accountability Offices (GAO) Government Auditing Standards, located at <https://www.gao.gov/yellowbook/overview>, and the requirements of Subpart F of 2 C.F.R. Part 200, located at <http://www.ecfr.gov/cgi-bin/text-idx?node=sp2.1.200.f>.

Records:

Financial records, supporting documents, statistical records, and all other non-federal entity records pertinent to a federal award generally must be maintained for at least three years from the date the final Federal Financial Report (FFR) is submitted. See 2 C.F.R. 200.333. Further, if the recipient does not submit a final FFR and the award is administratively closed, FEMA uses the date of administrative closeout as the start of the general record retention period. The record retention period may be longer than three years or have a different start date in certain cases. These include: Records for real property and equipment acquired with federal funds must be retained for three years after final disposition of the property. See 2 C.F.R. 200.333(c). If any litigation, claim, or audit is started before the expiration of the three-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken. See 2 C.F.R. 200.333(a). The record retention period will be extended if the recipient is notified in writing of the extension by FEMA, the cognizant or oversight agency for audit, or the cognizant agency for indirect costs. See 2 C.F.R. 200.333(b). Where FEMA requires recipients to report program income after the period of performance ends, the program income record retention period begins at the end of the recipients fiscal year in which program income is earned. See 2 C.F.R. 200.333(e). For indirect cost rate proposals, cost allocation plans, or other rate computations records, the start of the record retention period

EXAMPLES OF FUNDED PROJECTS:

2021 Examples of funded IPR projects are found in the Notice of Funding Opportunity under Funding Priorities. Similarly, examples of funded projects for the TSGP can be found in the TSGP Notice of Funding Opportunity. The section includes examples relating to operational deterrence activities, cybersecurity risk assessments, physical security enhancements at critical transportation infrastructure, Chemical, Biological, Radiological, Nuclear, and Explosive (CBRNE) detection equipment, and more.

CRITERIA FOR SELECTING PROPOSALS:

he FY 2021 IPR applications will be evaluated through a review process for completeness, adherence to programmatic guidelines, and anticipated effectiveness of the proposed investments. Amtrak is the only entity eligible to submit an application for the IPR program. Investment justifications will be reviewed and selected based on the following criteria: 1. Alignment to funding priorities. 2. Ability to reduce risk of catastrophic events. 3. Sustainability without additional federal funds and leveraging of other funding. 4. Adherence to timelines. Grant projects must be both (1) feasible and effective at reducing the risks for which the

project was designed and (2) able to be fully completed within the 3-year period of performance. The FY 2021 TSGP applications will be scored based on four individual parts: an agency-based risk score, a score associated with an applications alignment to the funding priority areas, a score based on project risk mitigation, and the degree of regional collaboration.

FEDERAL AGENCY:

U.S. IMMIGRATION AND CUSTOMS ENFORCEMENT, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Title Department of Homeland Security Appropriations Act, 2021, Consolidated Appropriations Act 2021, Title II, Part Division F, Section U.S. Immigration and Customs Enforcement, Public Law 116-260., , Public Law -

OBJECTIVES:

This programs objectives are to promote public awareness of the CyberTipline, formerly known as the National Child Pornography Tip Line. The CyberTipline belongs to the National Center for Missing and Exploited Children and is a law enforcement priority. This funding opportunity is to support promotional global activities to educate law enforcement, the public, electronic service providers (ESPs) and other entities, of the benefits of using the CyberTipline to make reports of abduction, abuse and sexual exploitation of children and/or assist law enforcement globally in their investigations and/or recovery of those children.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Civil Defense/Disaster Prevention and Relief/Emergency Preparedness The CyberTipline award is designated for a non-profit with or without 501(3) IRS status other than institutions of higher education, for-profit organizations and small businesses which meet Congress objectives and programmatic criteria for promoting the CyberTipline for reporting the abduction, abuse, and sexual exploitation of children; and/or assisting law enforcement agencies in the investigation and recovery of those children. Refer to program guidance.

Applicant Eligibility:

Private nonprofit institution/organization (includes institutions of higher education and hospitals); Non-profits with 501(3) IRS status, other than institution of higher education Non-profits without 501(3) IRS status, other than institution of higher education For-profit organizations other than small businesses Small Businesses

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. These audits are due to the cognizant Federal agency, submitted through the Federal Audit Clearinghouse, not later than 9 months after the end of the grantees fiscal year.

Records:

Grant records shall be retained for a period of three (3) years from the day the recipient submits its final expenditure report. If any litigation, claim, negotiation, audit, or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later. Grant records include financial and program/progress reports, support documents, statistical records, and other documents that support the activity and/or expenditure of the recipient or sub-recipient under the award.

97.077 Evaluation and Demonstration of Technologies Related to Countering Weapons of Mass Destruction

Countering Weapons of Mass Destruction (CWMD),

FEDERAL AGENCY:

Countering Weapons of Mass Destruction, HOMELAND SECURITY,

DEPARTMENT OF

AUTHORIZATION:

Homeland Security Act of 2002, Title Homeland Security Act of 2002, 6 U.S.C. ss101, 592(a)(6), 596(amended 2018) as construed by Countering Weapons of Mass Destruction Act of 2019, P.L. 115-387, 132 Stat. 5162, 5166(b)(2)(2018).. Section 1906, Public Law 115-387, 6 USC Code 592.

OBJECTIVES:

Support the PPD-8 objective of prevention related to terrorist acts involving nuclear or radiological materials, or weapons using these materials. Support basic research to enhance national security's capability to detect and prevent the illicit entry, transport, assembly, or potential use within the United States of unauthorized chemical, biological, radiological, or nuclear (CBRN) materials, devices or agents and otherwise help protect against an attack using such materials, devices, or agents. The Academic Research Initiative (ARI) Program has two primary objectives: 1) Engage the academic community to advance fundamental knowledge for CBRN sciences applicable to countering Weapons of Mass Destruction (CWMD) with emphasis on fundamental research to solve long-term, high-risk challenges and 2) develop human capital for the CBRN science and engineering profession. Further, the program works to sustain a long-term commitment to basic research in this field and coordinates research efforts across the federal government to develop new capabilities to combat the threat of WMD threat detection.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Financial assistance under the ARI may be used for the execution of research at accredited universities and colleges. Financial assistance under the research and development activities funded by CWMD outside of ARI may be used to sponsor research within industry and academia. Supported costs include: salaries, materials and supplies, equipment, travel, publication costs, subcontractor, supporting costs and overhead required for technical and other activities necessary to achieve research objectives. Restrictions on use of funds will be identified in the announcement, program guidance and award provisions.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; State (includes District of Columbia, public institutions of higher education and hospitals), Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals), Public nonprofit institution/organization (includes institutions of higher education and hospitals), Other public institution/organization Eligible Applicants: The ARI is limited to State, public or private accredited institutions of higher education. Length and Time Phasing of Assistance:

Refer to announcement and program guidance. For ARI, awards are made for annual budget periods, with a non-competing continuation application required for each budget period that comprises the awarded project duration. Funds awarded must be expended within each budget period. Funds for research and development activities funded by CWMD outside of ARI are awarded by research phase, with generally 3-5 phases and phase durations appropriate to the effort. Awards are subject to the Cash Management Improvement Act for payment and/or reimbursement of expenditures. Method of awarding/releasing assistance: Awards are paid in advance using the U.S. Department of Health and Human Services/Payment Management System (SMARTLINK), provided it maintains or demonstrates the willingness and ability to maintain procedures to minimize the time elapsing between the transfer of the funds from the DHS and expenditure disbursement by the Recipient. When these requirements are not met, the Recipient will be required to be on a reimbursement for costs incurred method. Method of awarding/releasing assistance: other

Reports:

For ARI, performance reports are required as specified in the terms and conditions of the award. For research and development activities funded by CWMD outside of ARI, reports may include, but are not limited to, the following: monthly performance reports, quarterly review reports, and end of phase reports. Refer to program guidance. For ARI, performance reports are required as specified in the terms and conditions of the award. "Progress Reports" must include the progress of each sub-grant award. Reports are due 30 days after the end of each six months, with performance reports due 90 days after the expiration or termination of grant award. For research and development activities funded by CWMD outside of ARI, reports may include, but are not limited to, the following: monthly performance reports, quarterly review reports, and end of phase reports. For SETCP, progress reports are required. Refer to program guidance. For ARI, Federal Financial Reports are required as specified in the terms and conditions of the award. For SETCP, expenditure reports are required. Refer to program guidance. Yes. Performance may be evaluated through on-site reviews of the research activity.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2020: Issued a Notice of Funding Opportunity for new ARI activities leading to award of 7 Cooperative Agreements. Completed evaluations of the 11 on-going activities. Supported 48 students and produced 36 technical publications.DHS CWMD Academic Research Initiative (ARI) FY20 AccomplishmentsCarnegie Mellon University: Threat Detection at Checkpoints ModelingoThe team implemented a prototype system for characterizing passing conveyances using computer vision algorithms for detection and tracking of vehicles in video. An initial set of detection and classification results from traffic data collection was obtained. The team will continue efforts to develop new approaches to improve the effectiveness of radiation portal monitors for threat detection at checkpoints.University of Michigan: Fast Neutron Detectors for Active InterrogationoThe program is transitioning firmware to a board-ready version for hardware implementation. Neural network-based pile-up recovery was demonstrated successfully in an interrogation environment, and results were verified by simulation, activation analysis, and conventional detection methods. This work will lead to laboratory demonstrations of shielded SNM detection with neutron signals in a high-intensity photon interrogation environment.University of Tennessee: IDEAS for SNMoThe radiation hardness of LKH5 scintillating glass was characterized, and samples were coupled to commercially available silicon thin film transistor arrays. These arrays were shown to have better radiography performance than CdWO4.Yale University: Active Interrogation with Superheated Emulsions:oThe team has developed large, uniform-droplet superheated emulsion detectors with an optical readout to detect neutrons in an active interrogation environment. The next phase of development will involve laboratory testing of the detectors in a field-representative active interrogation scenario.University of California-Berkeley: Enhanced Search by Fusing Radiological and Non-Radiological SourcesoThe team continued integration of mobile radiation search

ASSISTANCE LISTINGS DESCRIPTIONS

system and object tracking approach into data fusion capability is underway. The team will complete algorithm integration into the data fusion system to support anomaly detection by end of FY21, providing improved capability for wide area nuclear search and monitoring. Preliminary analysis indicates contextual information can improve detection capabilities and provides critical attribution capabilities. Object tracking and data fusion are ongoing efforts. Lidar enhancements have improved contextual sensor data when synchronized. University of Tennessee: Methylammonium Lead Halide ScintillatorsoEfforts focused on optimization of the growth parameters to enhance the electronic properties of perovskites relevant to radiation sensing. Growth techniques included modifications of precursor ratios and concentrations, heating/cooling rates, and incorporation of substitutional elements such as lithium, cesium, and chlorine. The team made significant progress in optimizing growth processes for different HOIP variants. Incorporation of different anions and cations to improve performance, to include the addition of lithium for thermal neutron sensing was made. Funding also supported a new graduate level course, NE 597/697 Topics of Semiconductor Detectors, which was taught by the PI during this period. University of Utah: Machine Learning of Nuclear Forensic DataoDemonstrated that new image classification technique resulted in higher predictive average value. This supports ongoing work in evaluating the feasibility of using machine learning for image analysis of forensics samples, to reduce the data processing time through automated assessment of sample images and identifying crucial trends in large data sets. A PhD student on this project received an Innovations in Nuclear Technology R&D Award from the Department of Energys Office of Nuclear Technology R&D. Southern Methodist University: Radiation Background Characterization for Anomaly DetectionoMeasurements on the Aviation Pathway continued with an additional 38 flight segments on passenger and 65 on cargo aircraft completed. Passenger flights utilized passengers carrying Kromek DS3 detectors in airplane mode while cargo flights utilized FEDEX shipments. Results showed that altitude is the dominant effect on background at airline and cargo altitudes, with geomagnetic latitude as the second most important effect (greater effect at lower latitudes). The team also demonstrated the ability to predict count rate given altitude and geomagnetic latitude. George Mason University: Surveying Ingress Pathways for Energetic Radiation BackgroundoThe team continued work to combine advanced radiation detector systems and platforms with robust mobile ad-hoc network connectivity and advanced machine learning algorithms to quantify background signatures and enhance real-time anomaly detection. During FY20, the testbed was expanded to include at least one mobile platform to determine impact on anomaly detection. The team determined the threshold for anomaly detection for machine learning algorithm for a fixed network and fixed source. Finally, the team developed a background radiation simulation module for planning tool; and down selected to best II-VI and oxide-based p-and n-thin film semiconductor to be used in p-i-n photodiode structure, and evaluated a silicon diode / scintillator element using ⁶⁰Co source and standard nuclear counting electronics. Carnegie Mellon University: Robust Interpretable Anomaly Detection for CWMDoThis project examines multiple approaches for anomaly detection in radiation measurements, scoring that describes which anomalies are of most importance, combining disparate data sources such as manifest with radiation portal monitor, and explainability of the output of machine learning. Each of these subjects was advanced in FY20. oThe Spectral Anomaly Detection algorithm was improved by requiring structured deviations across multiple observations. This improved anomaly detection while retaining low false positive rates. oAutomatic scoring of anomalies was developed with consideration of the Enhanced Radiological Nuclear Inspection and Evaluation (ERNIE) application used on radiation portal monitors. Scoring was developed that focuses on threat anomalies rather than the many other anomalies that may be generated from benign variations. University of Tennessee: Multimodal Data Fusion for Anomaly DetectionoAnomaly detection code was run on a virtual single board computer to assess the ultimate resource requirements for field deployment. oEntered final version of Autoencoder Radiation Anomaly Detector (ARAD) into secure code repository at UTK. oThe PhD student involved in ARAD development graduated in FY20 and moved to a team at Oak Ridge National Laboratory. In the intervening months, he has become an essential part of a technology evaluation team at ORNL working on a CWMD Advanced Technology Demonstration for wearable radiation detectors. Exploratory Research (ER) ProgramThe ER Program specifically focused on innovative, high risk, early-stage applied research expected to have transformational impact, and when conducted with a clear and well supported technical approach, would provide new capabilities to help counter the threat of nuclear terrorism. Research under this

Program culminated in a Proof-of-Concept (PoC) demonstration, to support transitioning to an advanced technology demonstration program or supporting direct commercialization of the technology. Final Exploratory Research project (Carnegie Mellon University), completed 8/31/2020oThe team completed feasibility evaluation into development of an algorithmic framework for aggregating data from multiple sensing modalities on vehicle platforms to reliably monitor, detect, localize, track, and characterize radiological/nuclear threats in real time in cluttered scenes such as urban traffic scenarios. Fiscal Year 2021: Issue a Notice of Funding Opportunity for new ARI activities leading to award of up to 11 Cooperative Agreements. Complete evaluations on the on-going activities. Fiscal Year 2022: Issue a Notice of Funding Opportunity for new ARI activities leading to award of a TBD number of Cooperative agreements. Complete evaluations on all on-going activities.

Earthquake Consortium and State Support (ECSS).

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Title Earthquake Hazards Reduction Act of 1977, Part 95-124.

OBJECTIVES:

The National Earthquake Hazards Reduction Program (NEHRP) is the Federal Governments coordinated approach to addressing earthquake risks. In support of NEHRP, the Federal Emergency Management Agency (FEMA) administers the Earthquake State Assistance grant program which is designed to increase and enhance the effective implementation of earthquake risk reduction activities at the national, regional, state and local level, by making funding available through annual, non-competitive and competitive grants. NEHRP implements the Department of Homeland Security (DHS) and Presidential Policy Directive (PPD -

ASSISTANCE LISTINGS DESCRIPTIONS

8) objective of hazard mitigation, to develop and maintain those capabilities necessary to reduce the loss of lives and property by lessening the impact of earthquakes. In an effort to provide eligible States and Territories with multiple funding and project management options, as well as to allow for multi-state coordination of projects, the Earthquake State Assistance grant program utilizes two separate funding opportunities: Individual State Earthquake Assistance (ISEA), and Multi-State and National Earthquake Assistance (MSNEA). The Individual State Earthquake Assistance funding opportunity provides funding directly to those States and Territories that have been determined to be at a high, or a very high risk of earthquakes, and who can provide the statutory 25 percent cost-share. They must also be able to demonstrate that the assistance will result in enhanced seismic safety in the State. Funding is provided to eligible States and Territories through non-competitive grants that are administered by FEMA Regional earthquake program management staff. Allowable activities include: Support of seismic mitigation planning, developing inventories and conducting seismic safety inspections of critical structures and lifeline infrastructure, updating building codes, zoning codes, and ordinances to enhance seismic safety, increasing earthquake awareness and education, participation in emergency management exercises that substantially benefit earthquake mitigation efforts, and the promotion of earthquake insurance. Additionally, the Multi-State and National Earthquake Assistance funding opportunity is designed to facilitate the development and management of National, regional and multi-state earthquake risk reductions activities. Funding is made available through competitive grants to nonprofit organizations, as defined by 2 C.F.R. 200.70 and institutions of higher education as defined by 2 C.F.R. 200.55. The grants are administered by FEMA Headquarters earthquake program management staff.

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants

USES AND USE RESTRICTIONS:

For costs associated with providing guidance, technology transfer, and assistance to States, for earthquake hazard mitigation activities. The Individual State Earthquake Assistance NOFO is a non-competitive grant, and restricted to certain specialized/qualified organizations designated by FEMA. Funding may only be used for the purpose set forth in the grant and must be consistent with the statutory authority for the award. Grant funds may not be used for matching funds for other federal grants / cooperative agreements, or for lobbying or intervention in federal regulatory or adjudicatory proceedings. In addition, federal funds may not be used to sue the federal government or any other government entity. All financial and progress reports must be current at the time of application. Refer to the Notice of Funding Opportunity. Pre-award costs are not allowed.

Applicant Eligibility:

Other public institution/organization; The purpose of this funding is to support the earthquake mitigation efforts of States and Territories with High to Very High seismic risk as determined by the DHS, FEMA Program Office, non-profit organizations as defined by 2 C.F.R. 200.70 and institutions of higher education as defined by 2 C.F.R. 200.55. These efforts include 1) delivering and increasing awareness and education; 2) developing policies, tools, and products; and 3) implementing programs or projects to support risk reduction and resilience activities from earthquakes.

Records:

Financial records, supporting documents, statistical records, and all other non-federal entity records pertinent to a federal award generally must be maintained for at least three years from the date the final Federal Financial Report (FFR) is submitted. See 2 C.F.R. 200.333. Further, if the recipient does not submit a final FFR and the award is administratively closed, FEMA uses the date of administrative closeout as the start of the general record retention period. The record retention period may be longer than three years or have a different start date in certain cases. These include: Records for real property and equipment acquired with federal funds must be retained for three years after final disposition of the property. See 2 C.F.R. 200.333(c). If any litigation, claim, or audit is started before

the expiration of the three-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken. See 2 C.F.R. 200.333(a). The record retention period will be extended if the recipient is notified in writing of the extension by FEMA, the cognizant or oversight agency for audit, or the cognizant agency for indirect costs. See 2 C.F.R. 200.333(b). Where FEMA requires recipients to report program income after the period of performance ends, the program income record retention period begins at the end of the recipients fiscal year in which program income is earned. See 2 C.F.R. 200.333(e). For indirect cost rate proposals, cost allocation plans, or other rate computations records, the start of the record retention period depends on whether the indirect cost rate documents were submitted for negotiation. If the indirect cost rate documents were submitted for negotiation, the record retention period begins from the date those documents were submitted for negotiation. If indirect cost rate documents were not submitted for negotiation, the record retention period begins at the end of the recipients fiscal year or other accounting period covered by that indirect cost rate. See 2 C.F.R. 200.333(f).

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Section 34 of the Federal Fire Prevention and Control Act of 1974, , Public Law 93-498, 15 USC Code 2229 et seq.

OBJECTIVES:

The goal of the SAFER Grant Program is to assist local fire departments with staffing and deployment capabilities in order to respond to emergencies, and assure that communities have adequate protection from fire and fire-related hazards.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Not all fire departments will be eligible to apply. Training, equipment, overtime, and administrative expenses are not eligible under the Hiring of Firefighters Grant activity. Individuals seeking personal assistance are not eligible. This program is intended to assist fire departments and recognized organizations as identified in the Notice of Funding Opportunity, and only those fire departments and organizations as specified in the Notice of Funding Opportunity are eligible. Funds may be used to recruit and hire firefighters, but cannot be used to retain or supplant (replace) the applicants funds budgeted for that purpose. Recipients must maintain pre-existing staffing levels and retain grant funded personnel throughout the period of performance. This program is restricted to the jurisdictions/organizations described in the Notice of Funding Opportunity. For specific information, refer to the Notice of Funding Opportunity. In summary, for the purpose of this program, "State" is defined as the 50 states, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands. The Alaska Village Initiative, a nonprofit organization incorporated in the State of Alaska, shall also be considered eligible for purposes of receiving assistance under this program on behalf of Alaska Native villages. A "fire department" is defined as an agency or organization that has a formally recognized arrangement with a State, territory, local, or tribal authority (city, county, parish, fire district, township, town, or other governing body) to provide fire suppression

97.088 Disaster Assistance Projects

(Earmarked Projects or Limited Scope Disaster Projects. Restricted to entities designated by DHS or congressional statute.).

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Public Health Bioterrorism and Public Health Emergencies Act of 2002, , Public Law 107-188, Robert T. Stafford Disaster Relief and Emergency Assistance Act, , Public Law 93-288

OBJECTIVES:

This category is not for unsolicited proposals. Provides funding that has been designated by Congressionally appropriated authorization, generally for a specified Project, or to provide unique or limited scope funding for certain disaster assistance Projects identified by congress or a DHS program office. Program funds support the National Preparedness Goal of enhancing core capabilities in the areas of disaster response and recovery. One such disaster project is the Disaster Case Management Program, which is a disaster-related federal award. DCM supports the Recovery core capability and mission area as defined in the National Preparedness Goal. It accomplishes this by assisting individuals and households through the

recovery process with finding resources to meet their disaster caused unmet needs. A disaster caused unmet need is any un-resourced item, support, or assistance that has been assessed and verified as necessary for a survivor to recover from disaster. This may include food, clothing, shelter, first aid, emotional and spiritual care, household items, temporary housing, home repair, or rebuilding.

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants

USES AND USE RESTRICTIONS:

Funding is restricted to nonfederal entities providing case management services to individuals and families impacted by a Presidentially declared major disaster with Individual Assistance authorized. See IAPPG 1.1., at p. 188. The need for DCM must exceed the capacity of the SLTT government.

Applicant Eligibility:

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. These audits are due to the cognizant Federal agency no later than 9 months after the end of the grantees fiscal year.

Records:

Financial records, supporting documents, statistical records, and all other non-federal entity records pertinent to a federal award generally must be maintained for at least three years from the date the final Federal Financial Report (FFR) is submitted. See 2 C.F.R. 200.333. Further, if the recipient does not submit a final FFR and the award is administratively closed, FEMA uses the date of administrative closeout as the start of the general record retention period. The record retention period may be longer than three years or have a different start date in certain cases. These include: Records for real property and equipment acquired with federal funds must be retained for three years after final disposition of the property. See 2 C.F.R. 200.333(c). If any litigation, claim, or audit is started before the expiration of the three-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken. See 2 C.F.R. 200.333(a). The record retention period will be extended if the recipient is notified in writing of the extension by FEMA, the cognizant or oversight agency for audit, or the cognizant agency for indirect costs. See 2 C.F.R. 200.333(b). Where FEMA requires recipients to report program income after the period of performance ends, the program income record retention period begins at the end of the recipients fiscal year in which program income is earned. See 2 C.F.R. 200.333(e). For indirect cost rate proposals, cost allocation plans, or other rate computations records, the start of the record retention period depends on whether the indirect cost rate documents were submitted for negotiation. If the indirect cost rate documents were submitted for negotiation, the record retention period begins from the date those documents were submitted for negotiation. If indirect cost rate documents were not submitted for negotiation, the record retention period begins at the end of the recipients fiscal year or other accounting period covered by that indirect cost rate. See 2 C.F.R. 200.333(f).

97.091 Homeland Security Biowatch Program

FEDERAL AGENCY:

Countering Weapons of Mass Destruction, HOMELAND SECURITY,
DEPARTMENT OF

AUTHORIZATION:

Title Homeland Security Appropriations Act 2021, Section Div. F, Public Law 116-260

OBJECTIVES:

The BioWatch program is a federally managed, locally operated early warning system that is designed to detect the intentional release of select aerosolized biological agents. The BioWatch programs mission is to deploy, sustain, and maintain a national 24x7x365 operational ability to detect, and respond to a bioterrorist event in metropolitan areas across the country. The DHS Countering Weapons of Mass Destruction (CWMD) administers the BioWatch program and is currently engaged in advanced development, test, evaluation and operations to improve sampling technologies, collection procedures, sample analysis, and develop and implement a next generation biodetection system. The Biowatch program and PPD-8 share the following elements. First, in accordance with the National Preparedness Goal, the Biowatch program provides a comprehensive strategy for countering biological terrorism. Next, following the National Preparedness System and the BioWatch Program is a federally managed, locally operated early warning operational capability designed to enhance national preparedness. The program provides an early warning system that detects the release of a select biological agent that may pose a danger to the public health in select jurisdictions. Biowatch, in accordance with the National Planning Frameworks and Federal Interagency Operational Plans, acts as an early warning system which enhances the security of jurisdictions by providing the needed time to execute their comprehensive concept of operations plans to counter biological terrorism. In addition, the BioWatch program provides advice and guidance to jurisdictions to develop biological preparedness programs that properly address the needed mitigation plans that reduces the negative impacts to a biological attack. The Biowatch program is a critical part of an ongoing national effort to build and sustain preparedness which helps the United States maintain momentum through targeted jurisdictional planning that highlights preventative actions necessary to allow for a proper and timely response and begin the process to recovery from a biological agent release. To provide funding and/or property for the conduct of operations and other related activities intended to identify, counter, or respond to biological and chemical threats.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal

awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. These audits are due to the cognizant Federal agency, submitted through the Federal Audit Clearinghouse, not later than 9 months after the end of the grantees fiscal year.

Records:

Financial records, supporting documents, statistical records, and all other non-federal entity records pertinent to a federal award generally must be maintained for at least three years from the date the final Federal Financial Report (FFR) is submitted. See 2 C.F.R. 200.333. Further, if the recipient does not submit a final FFR and the award is administratively closed, FEMA uses the date of administrative closeout as the start of the general record retention period. The record retention period may be longer than three years or have a different start date in certain cases. These include: Records for real property and equipment acquired with federal funds must be retained for three years after final disposition of the property. See 2 C.F.R. 200.333(c). If any litigation, claim, or audit is started before the expiration of the three-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken. See 2 C.F.R. 200.333(a). The record retention period will be extended if the recipient is notified in writing of the extension by FEMA, the cognizant or oversight agency for audit, or the cognizant agency for indirect costs. See 2 C.F.R. 200.333(b). Where FEMA requires recipients to report program income after the period of performance ends, the program income record retention period begins at the end of the recipients fiscal year in which program income is earned. See 2 C.F.R. 200.333(e). For indirect cost rate proposals, cost allocation plans, or other rate computations records, the start of the record retention period depends on whether the indirect cost rate documents were submitted for negotiation. If the indirect cost rate documents were submitted for negotiation, the record retention period begins from the date those documents were submitted for negotiation. If indirect cost rate documents were not submitted for negotiation, the record retention period begins at the end of the recipients fiscal year or other accounting period covered by that indirect cost rate. 97.106 Securing the Cities Program

(STC),

FEDERAL AGENCY:

Countering Weapons of Mass Destruction, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

6 USC Code 591-596. Homeland Security Act of 2002, Title Countering Weapons of Mass Destruction Act of 2018, , Public Law 115-387, Title Homeland Security Act of 2002, as amended (6 U.S.C. Subsection 596b)., Section 1928

OBJECTIVES:

The DHS Secretary established the STC Program, managed through the Assistant Secretary for Countering Weapons of Mass Destruction, to enhance the ability of the United States to detect and prevent terrorist attacks and other high-consequence events utilizing nuclear or other radiological materials that pose risk to homeland security in high-risk urban areas. Support to recipients includes assistance in developing and integrating local or regional programs into a national detection structure, guiding the development of Concepts of Operations (CONOPs) and standard operating procedures, providing radiological/nuclear (R/N) detection equipment, and providing training and exercise products to ensure detection is integrated into day-to-day activities and that partners are proficient in the detection mission area. As such, the STC Program has the following objectives: Objective 1: Assist State, local, territorial and tribal governments in developing local radiological/nuclear detection architectures resulting in awareness, training, technical support, exercises, and capability development. Objective 2: Provide a common information sharing environment. Establish information connectivity among domestically deployed detection systems and Federal, State, local, tribal, territorial, and regional data analysis centers, to include connectivity for technical reachback and adjudication support. Objective 3: Use a regional approach to coordinate activities and resources for all participating agencies. Establish administrative infrastructure to support a nuclear detection program. Objective 4: Establish coordination mechanisms between operational partners that support the Domestic Detection Concept of Operations * and have concurrence from all principal STC partners. * DHS CWMD worked with the Federal Bureau of Investigation and the Department of Energy to create the Domestic Detection CONOPS to facilitate an effective "whole of government" response among mission partners to detect and communicate about potential or actual threats involving R/N materials within the United States. DHS will provide the Domestic Detection CONOPS to grant recipients as a basis for planning their regional CONOPS.

TYPES OF ASSISTANCE:

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. These audits are due to the cognizant Federal agency, submitted through the Federal Audit Clearinghouse, not later than 9 months after the end of the grantees fiscal year.

Records:

Grant records shall be retained for a period of 3 years from the day the recipient submits its final expenditure report. If any litigation, claim, negotiation, audit, or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3 year period, whichever is later. Grant records include financial and program/progress reports, support documents, statistical records, and other documents that support the activity and/or expenditure of the recipient or sub-recipient under the award.

97.107 National Incident Management System (NIMS)

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Homeland Security Act of 2002, , Public Law 107-296, The Post-Katrina Emergency Management Reform Act of 2006, Section 661 (a), Public Law 109-295, 6 USC Code 761 (a).

OBJECTIVES:

Our nation faces a wide range of threats and hazards. As FEMAs 2018-2022 Strategic Plan states (under Strategic Objective 2.3: Posture FEMA and the Whole Community to Provide Life-Saving and Life-Sustaining Commodities, Equipment, and Personnel from all Available Sources), No one agency or organization is able to store enough equipment, supplies, and commodities, or marshal enough internal teams to quickly and fully meet all the needs of a catastrophic incident. These devastating incidents necessitate the collective assets and contributions of many supporting organizations aligned through a coordinated structure. Communities can address these challenges by using a systematic approach that builds on proven preparedness activities. The National Incident Management System (NIMS) provides stakeholders across the whole community with the shared vocabulary, systems, and processes to deliver the capabilities described in the National Preparedness System (NPS). The implementation of NIMS directly supports The DHS Strategic Plan Fiscal Years 2020-2024, Goal 5: Strengthen Preparedness and Resilience, Objective 5.1: Build a National Culture of Preparedness and Objective 5.2: Respond During Incidents The NPS the instrument the nation uses to build, sustain, and deliver core capabilities to achieve a secure and resilient nation. Complex and far-reaching threats and hazards require a collaborative, whole-community approach to national preparedness that engages individuals, families, communities, the private and nonprofit sectors, faith-based organizations, and all levels of government. The guidance, programs, processes, and systems that support each component of the NPS promote integrated preparedness efforts that build, sustain, and deliver core capabilities and achieve the National Preparedness Goals desired outcomes. DHS and FEMA focus on building stronger capabilities across jurisdictions at all levels and with the whole community.

97.108 Homeland Security, Research, Testing, Evaluation, and Demonstration of Technologies

FEDERAL AGENCY:

SCIENCE AND TECHNOLOGY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Homeland Security Act of 2002, , Public Law 107-296, 6 USC Code 308(b)(1)(c). Implementing Recommendation of the 9/11 Commission Act of 2007, Section 1901, Public Law 110-53, Science and Technology Management and Administration, , Public Law 113-76

OBJECTIVES:

To provide funding and/or property for the purpose of conducting research, development, testing, evaluation, and demonstration of national preparedness and homeland security technologies intended to identify, counter, or respond to terrorist threats. The DHS S&T First Responders Group (FRG) utilizes grants and cooperative agreements to enhance safety in the first responder community by supporting the research, acquisition of knowledge, and the development of technology, materials, processes, methods, devices, or techniques to support advancement in equipment or technologies. The purpose of these grants and cooperative agreements is to garner high quality, advanced concepts research and development efforts related to important scientific problems and capability gaps identified by the first responder community that could lead to significant public benefits. DHS S&T-FRG-IAS and FEMA-ICPD are seeking to address trauma training for the high school-age communities under this NOFO. School-Age Trauma Training (SATT - final name of training to be proposed by grantee and approved by FEMA) is intended to establish a long-term, self-sustaining mechanism (e.g. no further Federal funding beyond Phase III), to deliver free to the public, lifesaving trauma training to high school age students for mass casualty events. The government expects the grantee to design, develop and implement a training capability based upon the Phase tasks and to sustain the offerings beyond the Phase III funding resource provided by the government. Uncontrolled bleeding is the number one cause of preventable death from trauma. This initiative is designed to enhance a bystanders ability to take decisive, lifesaving action to assist victims with traumatic injuries. The training is intended to provide the knowledge necessary to stabilize the injured and until first responders arrive on the scene. The effort is aimed at a broad youth-based approach through public/private schools, not-for-profit organizations, faith-based and other civic communities of interest. This high school centric training initiative is designed to enhance a bystanders ability to take decisive, lifesaving action to assist victims with traumatic injuries. The training is intended to provide the knowledge necessary to stabilize the injured and control severe bleeding until first responders arrive on the scene. The training provides research-validated guidance to stop uncontrolled bleeding from traumatic injuries using materials readily found at an incident or worn by the victim and citizen responders. The primary target audience is high school age students. The design, development, delivery and operational maintenance of the SATT initiative is intended to be a self-sustaining, not-for-profit-based, public/private partnership to advance life saving techniques into high schools and other age appropriate youth-based communities of interest. Wildland firefighters are exposed to a variation of respiratory hazards to include carbon monoxide (CO), acrolein,

polynuclear aromatic hydrocarbons (PAH), aldehydes and ketones, and a wide variety of wood pyrolysis and combustion products. The traditional self-contained breathing apparatus (SCBA) used by structural firefighters is too heavy and not designed for use for extremely long periods. Most often, wildland firefighters limit their respiratory protection to a wet bandana or nothing at all. S&T has embarked upon the development of a respirator device specifically for use by the wildland firefighter. The Wildland Respiratory Protective Device (WRPD) will be easy to wear and provide the wildland firefighter protection against particulates and chemical vapor hazards defined in NFPA 1984: Standard on Respirators for Wildland Fire Fighting Operations, 2016 Edition. The First Responder Resource Group (FRRG) identified a capability gap for hand protection in helicopter hoist rescue operations. The normal rescue gloves (typically Fire Department or Rope Rescue based solutions) used by helicopter rescue crews to guide the rescue hoist cable are quickly worn and need to be replaced often. There is a requirement for hand protection with increased durability, comfort and longevity that can be utilized by rescue helicopter personnel. A rescue helicopter hoist operator uses one hand to guide the hoist cable during rescue descents and ascents. A significant amount of force perpendicular to the moving cable is sometimes required to mitigate swing and cable oscillation. The friction created by this operation rapidly wears out the material covering the web, palm, and inside fingers of the guide hand. A glove with a very strong abrasion protection surface to guide the hoist cable is required. However, the glove must have enough flexibility for the rescue helicopter personnel to perform other required duties and the solution cannot negatively impact the responders range of motion. In addition, as the glove wears out from use, it cannot shed material onto the cables being used in the rescue efforts. Any glove material that produces bits and pieces while it wears is undesirable because it works its way between the strands of the hoist cable and shortens the life of the cable dramatically.

aids Preliminary design modification of the Wildland Respirator Protective Device (WRPD) from an air purifying respirator (APR) to a powered air purifying respirator (PAPR). Provided select members of the First Responders Resource Group (FRRG) a prototype version of the WRPD in preparation for the virtual Critical Design Review (CDR). Facilitated a virtual CDR with wildland firefighters to obtain Voice of the Customer feedback on the WRPD design. Modified design of the WRPD to include both a chest-mounted and a hip-mounted unit based on feedback received during the CDR. Initial glove design presented to first responders responsible for rescue hoist operations during the Preliminary Design Review (PDR). Feedback received resulted in modification of the initial prototype design and inclusion of a wear indicator to alert first responders to the need for glove replacement. Fiscal Year 2021: Phase 3 grantee on track to deliver operational prototypes that are improved in several areas from current technology, including 3D viewing of vehicle undercarriage. The FAST course will be released for the 2021/2022 school year and offered at no charge to high school students under the age of 19. Develop and release enhanced content for SATT curriculum(s), both instructor-led and self-taught. Estimate instructor count to triple by the end of calendar year. FAST curriculum to be released on 8/19/2021 through the Red Cross Learning Management System (LMS). Final operational capability for an on-line presence that serves as an outreach, awareness and central access point to view, access training content as well as to purchase or donate financial self-sustainability resources to the SATT initiative. Finalize Designs and Perform the Design Failure Mode Engineering Analysis on the two Wildland Respirator Protective Device (WRPD) designs. Construct 20 of each WRPD version using injection molded, glass-filled housings. Perform the necessary tests to vet the pre-production prototypes operability. Demonstrate the WRPDs commercial viability to potential manufacturers. Begin the necessary certification process with NIOSH and the NFPA. Work with NUSTL and other matrix partners to host an in-person operational field assessment. NUSTL facilitated an operational field assessment of the enhanced hoist rescue glove at the United States Coast Guard Facility in Elizabeth City, NC. Project concluded in FY21 with multiple prototype gloves being provided to first responders via a Cooperative Research and Development Agreement (CRADA) to assess glove performance and provide feedback to the Project Performer. HDMI began the process of identifying manufacturers for transitioning the glove to the commercial market.

97.110 Severe Repetitive Loss Program

(SRL).

ASSISTANCE LISTINGS DESCRIPTIONS

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

The Severe Repetitive Loss (SRL) program was authorized by Section 1361A of the NFIA, Public Law 108-264, , Public Law -, 42 USC Code 4102a, which was repealed by Pub. L. 112-141, Div. F. title II, 100225(c). July 6, 2012.

OBJECTIVES:

To assist States, tribal governments and local governments in supporting actions that reduce or eliminate the long-term risk of flood damage to residential properties insured under the National Flood Insurance Program (NFIP) that meet the definition of severe repetitive loss property, and to reduce losses to the National Flood Insurance Fund (NFIF) by funding projects that result in the greatest savings to the NFIF in the shortest time period. This grant program supports the Mitigate component of the Presidential Preparedness Directive 8 (PPD-8) in the following ways: by providing funding to states and communities that promotes Long-Term Vulnerability Reduction through various mitigation measures including by elevating at-risk homes or removing structures from flood hazard areas. Overall, this program also supports Community Resilience by reducing the need for emergency services in flood-prone areas of the community.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

States, Territories, local and Federally - recognized Indian tribal governments may apply for SRL funding to reduce or eliminate the long-term risk of flood damage to residential properties insured under the NFIP that meet severe repetitive loss property eligibility criteria. Eligible activities under this program include: acquisition and relocation of at-risk structures and the permanent conversion of property to open space; elevation of existing structures to the Base Flood Elevation (BFE) or an Advisory Base Flood Elevation (ABFE) or higher (for the SRL program Mitigation Reconstruction is only permitted when traditional elevation cannot be implemented); minor physical localized flood control projects; and dry-flood proofing (historic properties only).

Applicant Eligibility:

Government - General; State (includes District of Columbia, public institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Entities eligible to apply for SRL grants include the emergency management agency (EMA) or a similar office of the 50 States, the District of Columbia, American Samoa, Guam, the U.S. Virgin Islands, Puerto Rico, the Northern Mariana Islands, and Federally recognized Indian Tribal governments. Each State, Territory, Commonwealth, or Federally recognized Indian Tribal government shall designate one agency to serve as the Applicant for each FMA program. Please see the HMA program guidance for more detailed information.

Beneficiary Eligibility:

U.S. Territories; Individual/Family; Native American Organizations; Homeowner; Land/Property Owner; State; Local; Federally Recognized Indian Tribal Governments; State agencies, (other than EMA) Indian Tribal governments (non-federally recognized), and local governments and communities are eligible to apply as subapplicants for assistance under the SRL program. All interested subapplicants must apply to their Applicant State/tribe/territory. Subapplicants (and Applicants) may submit applications on behalf of homeowners and property owners. Please see the HMA program guidance for detailed information.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with the provisions of 2 CFR Part 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. These audits are due to the cognizant Federal agency, submitted through the Federal Audit Clearinghouse, not later than 9 months after the end of the grantee's fiscal year.

Records:

Financial records, supporting documents, statistical records, and all other non-federal entity records pertinent to a federal award generally must be maintained for at least three years from the date the final Federal Financial Report (FFR) is submitted. See 2 C.F.R. 200.333. Further, if the recipient does not submit a final FFR and the award is administratively closed, FEMA uses the date of administrative closeout as the start of the general record retention period. The record retention period may be longer than three years or have a different start date in certain cases. These include: Records for real property and equipment acquired with federal funds must be retained for three years after final disposition of the property. See 2 C.F.R. 200.333(c). If any litigation, claim, or audit is started before the expiration of the three-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken. See 2 C.F.R. 200.333(a). The record retention period will be extended if the recipient is notified in writing of the extension by FEMA, the cognizant or oversight agency for audit, or the cognizant agency for indirect costs. See 2 C.F.R. 200.333(b). Where FEMA requires recipients to report program income after the period of performance ends, the program income record retention period begins at the end of the recipients fiscal year in which program income is earned. See 2 C.F.R. 200.333(e). For indirect cost rate proposals, cost allocation plans, or other rate computations records, the start of the record retention period depends on whether the indirect cost rate documents were submitted for negotiation. If the indirect cost rate documents were submitted for negotiation, the record retention period begins from the date those documents were submitted for negotiation. If indirect cost rate documents were not submitted for negotiation, the record retention period begins at the end of the recipients fiscal year or other accounting period covered by that indirect cost rate. See 2 C.F.R. 200.333(f).

97.111 Regional Catastrophic Preparedness Grant Program (RCPGP)

(RCPGP).

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

OBJECTIVES:

The overall objective of the RCPGP is to close known preparedness capability gaps, encourage innovative regional solutions to issues related to catastrophic incidents, and build on existing regional preparedness efforts. Regional pandemic preparedness continues as a program objective for FY 2021, with specific focus on pandemic planning activities, to address the Community Lifelines and Core Capabilities that are essential to pandemic preparedness. In addition, recognizing value of all-hazards emergency preparedness planning, and consistent with the objectives of the FY 2021 RCPGP, applicants may continue to consider projects that improve capability levels in the Food, Water, and Sheltering Community Lifeline as measured in the Housing or Logistics and Supply Chain Management core capabilities reported through the Threat and Hazard Identification and Risk Assessment (THIRA)/Stakeholder Preparedness Review (SPR) process. Additionally, applicants should consider the needs of socially vulnerable populations and involve representatives from the affected communities in the development and execution of proposed projects to ensure their needs are sufficiently addressed.

Award Procedure:

Applications or plans are reviewed by DHS program and administrative staff. Any issues or concerns noted in the application might be addressed with the successful applicant prior to the award being issued. All DHS/FEMA grant recipients are required to comply with DHS Standard Administrative Terms and Conditions. Upon approval of an application, the award will be made in the form of a grant. The date the approval of award is entered in the system is the award date. Notification of award approval is made through the ND Grants system through an automatic e-mail to the recipient point of contact listed in the initial application. Once an award has been approved and recorded in the system, a notice is sent to the authorized grant official. The authorized grant official should carefully read the award package for instructions on administering the grant and to learn more about the terms and conditions associated with responsibilities under Federal awards. Reports:

Recipients are responsible for providing updated performance reports on a quarterly basis as an attachment in ND Grants. The Performance Progress Report (PPR) should report on progress toward completing activities and projects as outlined in the approved Work Plan, to include: A brief narrative of overall project(s) status A summary of project expenditures A description of any potential issues that may affect project completion Federal Financial Report (FFR): Recipients must report obligations and expenditures ported on a quarterly basis through the FFR (SF-425) to DHS/FEMA. Recipients must file the FFR electronically using the Payment and Reporting Systems (PARS). An FFR must be submitted quarterly throughout the period of performance, including partial calendar quarters, as well as for periods where no grant award activity occurs. The final FFR is due 120 days after the end of the performance period. Quarterly reports. Recipients are obligated to submit various financial and programmatic reports as a condition of their award acceptance. Future awards and funds drawdown may be withheld if these reports are delinquent, demonstrate lack of progress, or are insufficient in detail. Grant recipients will be monitored periodically by FEMA staff, both programmatically and financially, to ensure that the project goals, objectives, performance requirements, timelines, milestone completion, budgets, and other related program criteria are being met. Monitoring may be accomplished through either a desk-based review or on-site monitoring visits, or both. Monitoring will involve the review and analysis of the financial, programmatic, performance, compliance and administrative processes, policies, activities, and other attributes of each Federal assistance award and will identify areas where technical assistance, corrective actions and other support may be needed.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with the provisions of 2 C.F.R. Part 200, Subpart F - Audit Requirements, non-federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 C.F.R. 200.503. FEMA grant recipients are subject to audit oversight from multiple entities including the DHS OIG, the GAO, the pass-through entity, or independent auditing firms for single audits, and may cover activities and costs incurred under the award. Auditing agencies such as the DHS OIG, the GAO, and the pass-through entity, if applicable, and FEMA in its oversight capacity, must have access to records pertaining to the FEMA award. Recipients and subrecipients must retain award documents for at least three years from the date the final FFR is submitted, and longer in some cases, subject to the requirements of 2 C.F.R. 200.334. In the case of administrative closeout, documents must be retained for at least three years from the date of closeout, or longer, subject to 2 C.F.R. 200.334. If documents are retained longer than the required retention period, the DHS OIG, GAO, and pass-through entity, as well as FEMA in its oversight capacity, have the right to access these records as well. See 2 C.F.R. 200.334, 200.337. Additionally, non-federal entities must comply with the single audit requirements at 2 C.F.R. Part 200, Subpart F. Specifically, non-federal entities, other than for-profit subrecipients, that expend \$750,000 or more in federal awards during their fiscal year must have a single or program-specific audit conducted for that year in accordance with Subpart F. 2 C.F.R. 200.501. A single audit covers all federal funds expended during a fiscal year, not just FEMA funds. The cost of audit services may be allowable per 2 C.F.R. 200.425, but non-federal entities must select auditors in accordance with 2 C.F.R. 200.509, including following the proper procurement procedures. The objectives of single audits are to: Determine if financial statements conform to generally accepted accounting principles (GAAP); Determine whether the schedule of expenditures of federal awards is presented fairly; Understand, assess, and test the adequacy of internal controls for compliance with major programs; and Determine if the entity complied with applicable laws, regulations, and contracts or grants. For single audits, the auditee is required to prepare financial statements reflecting its financial position, a schedule of federal award expenditures, and a summary of the status of prior audit findings and questioned costs. The auditee also is required to follow up and take appropriate corrective actions on new and previously issued but not yet addressed audit

findings. The auditee must prepare a corrective action plan to address the new audit findings. 2 C.F.R. 200.508, 200.510, 200.511. Non-federal entities must have an audit conducted, either single or program-specific, of their financial statements and federal expenditures annually or biennially pursuant to 2 C.F.R. 200.504. Non-federal entities must also follow the information submission requirements of 2 C.F.R. 200.512, including submitting the audit information to the Federal Audit Clearinghouse within the earlier of 30 calendar days after receipt of the auditors report(s) or nine months after the end of the audit period. The audit information to be submitted include the data collection form described at 2 C.F.R. 200.512(c) and Appendix X to 2 C.F.R. Part 200 as well as the reporting package described at 2 C.F.R. 200.512(b). The non-federal entity must retain one copy of the data collection form and one copy of the reporting package for three years from the date of submission to the Federal Audit Clearinghouse. 2 C.F.R. 200.512; see also 2 C.F.R. 200.517 (setting requirements for retention of documents by the auditor and access to audit records in the auditors possession). FEMA, the DHS OIG, the GAO, and the pass-through entity, if applicable, as part of monitoring or as part of an audit, may review a non-federal entity's compliance with the single audit requirements. In cases of continued inability or unwillingness to have an audit conducted in compliance with 2 C.F.R. Part 200, Subpart F, FEMA and the pass-through entity, if applicable, are required to take appropriate remedial action under 2 C.F.R. 200.339 for noncompliance, pursuant to 2 C.F.R. 200.505.

Records:

Financial records, supporting documents, statistical records, and all other non-federal entity records pertinent to a federal award generally must be maintained for at least three years from the date the final FFR is submitted. See 2 C.F.R. 200.334. Further, if the recipient does not submit a final FFR and the award is administratively closed, FEMA uses the date of administrative closeout as the start of the general record retention period. The record retention period may be longer than three years or have a different start date in certain cases. These include: Records for real property and equipment acquired with federal funds must be retained for three years after final disposition of the property. See 2 C.F.R. 200.334(c). If any litigation, claim, or audit is started before the expiration of the three-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken. See 2 C.F.R. 200.334(a). The record retention period will be extended if the recipient is notified in writing of the extension by FEMA, the cognizant or oversight agency for audit, or the cognizant agency for indirect costs. See 2 C.F.R. 200.334(b). Where FEMA requires recipients to report program income after the period of performance ends, the program income record retention period begins at the end of the recipients fiscal year in which program income is earned. See 2 C.F.R. 200.334(e). For indirect cost rate proposals, cost allocation plans, or other rate computations records, the start of the record retention period depends on whether the indirect cost rate documents were submitted for negotiation. If the indirect cost rate documents were submitted for negotiation, the record retention period begins from the date those documents were submitted for negotiation. If indirect cost rate documents were not submitted for negotiation, the record retention period begins at the end of the recipients fiscal year or other accounting period covered by that indirect cost rate. EXAMPLES OF FUNDED PROJECTS:

2020 Previous years activities funded under RCPGP include: Developing and updating local and regional emergency logistics and distribution management plans for multiple jurisdictions, and ensuring they are deconflicted for the region under the guidance of a regional working group; Identifying leading indicators for the government entities, non-profit entities, and private sector entities to use to begin to address food and water needs throughout the region; Developing checklists and Standard Operating Procedures (SOPs) for each stakeholder to ensure they respond to and address food and water needs throughout the region appropriately and according to the plans. Training stakeholders in resource management, logistics, and supply chain management; Creating an exercise cycle consisting of a tabletop exercise and a functional or full-scale exercise specifically to test the stakeholders on plans, leading indicators, and checklists/SOPs, and updating the plans as necessary after the exercises and implement a plan review/update schedule to ensure sustainment into the future. 2021 FY 2021 RCPGP encourages eligible applicants to submit project proposals that address regional pandemic preparedness. For such projects, applicants are required to identify the specific lifelines and capabilities that will be improved through the proposed project. At a minimum, within the Health and Medical Lifeline, the Public Health, Healthcare, and Emergency Medical Service; Fatality Management Services; Economic Recovery; Health and Social Services; and Logistics and Supply Chain Management core capabilities should be addressed. Applicants should also consider how regional preparedness capabilities may be impacted by a major disaster while dealing with an ongoing pandemic emergency.

ASSISTANCE LISTINGS DESCRIPTIONS

OBJECTIVES:

The 97.120 CFDA was used in FY 2016 for the newly authorized Rural Emergency Medical Communications Demonstration Project (REMCDP) and again in FY 2018 and 2020 to reestablish the grant. The grant opportunity leverages emergency communications infrastructure, improves operational effectiveness, addresses National Emergency Communications Plan (NECP) implementation gaps, and provides communications training and education to enable improved rural medical services. The Presidential Policy Directive 8 emphasizes national preparedness as a shared responsibility of the whole community, requiring greater involvement across multiple jurisdictions and disciplines. REMCDP aids in meeting that goal by working with a public as well as state controlled institutions of higher education to examine communications barriers and identify solutions that enhance existing emergency communications infrastructure.

TYPES OF ASSISTANCE:

Application deadline and other information are contained in the application/program guidance. Notice of Funding Opportunities (NOFO) for this listing will be posted on Grants.gov.

Award Procedure:

The REMCDP review process will involve two review phases. First, all applications will be reviewed to confirm eligibility and completeness. Then, a panel of SMEs knowledgeable in emergency communications and interoperability in local communities will review the applications and determine a merit score. The merit review panel may be composed of Federal employees, state and local representatives, and subject matter experts on emergency communications and interoperability. The merit score will be based on the degree to which an application addresses the Application Evaluation Criteria listed in the program guidance.

AUTHORIZATION:

Title Homeland Security Appropriations Act, 2021, Title III,

OBJECTIVES:

This program addresses the DHS mission to Safeguard and Secure Cyberspace, as defined in the Quadrennial Homeland Security Review, through efforts to support the state, local, tribal and territorial (SLTT) governments and election infrastructure to keep pace in sharing cyber threat information and responding to cyber risk in as close to real-time as possible. This program leverages the strength of market technology forces to spur innovative strategies within a Security and Operations Center (SOC) to enable a cyber-relevant Infrastructure Sharing and Analysis Center (ISAC) operating model that is consistent with section 2209 of the Homeland Security Act, Executive Order 13636, Executive Order 13691, and Presidential Decision Directive-63 (PDD-63). Specifically, section 2209(d)(E) requires the composition of the national cybersecurity and communications center to include an entity that collaborates with State and local governments on cybersecurity risks and incidents. This program convenes state-of-the-art SOC technology and their cyber analytic expertise with SLTT cyber coordinators, cyber and fusion center coordinators, and critical SLTT sectors (to include elections, communications, energy etc.) to evolve cyber capabilities from mission control to community collaboration models that face current threats in the digital battlefield. Services will allow SLTT stakeholders to consume and exchange awareness of threats via technologies that serve to derive a more accurate and timelier picture of prioritized cyber defense actions. All the while, ensuring coordination is sustained with federal partners to defend forward and prevent or thwart malicious cyberspace actors and activities. Thus, through these efforts, making improvements in technical cyber expertise, providing for a more efficient response and recovery time of systems during attack and developing resilience capabilities for our nations SLTT government sector. Objectives Provide a 24x7 SOC/ISAC that fosters a platform for generating and disseminating cyber threat information and coordinating cybersecurity expertise upon which SLTT governments can rely when making decisions that enable adequate preventative and response measures to cyber threat. By integrating the SLTT cyber ecosystem, and empowering insight and cyber situational awareness from across the SLTT trusted circle, the community will mutually benefit from the innovative measures that protect and improve defenses. Priorities: Successful execution will focus customer relationships on enhanced models for threat intelligence exchange. New technologies in data analytic correlation, collaborative threat intelligence and orchestration have created opportunities for faster and actionable threat intelligence exchange. The priority in focus is to advance SLTT cybersecurity risk management and to help build a healthy and resilient SLTT cyber ecosystem via automated collective community action.

Cooperative Agreements, Salaries and Expenses

USES AND USE RESTRICTIONS:

Restricted to supporting the activities of Security Operations Center and Information Sharing and Analysis Center (MS-ISAC), involving engagement with State, Local, Tribal and Territorial governments. Additional information concerning uses and restrictions is contained in the Funding Opportunity Announcement document or can be obtained from the administering program office identified in this announcement. Financial and nonfinancial assistance may be provided for the following: salaries, materials and supplies, equipment, travel,

publication costs, subcontractor and supporting costs required for technical and other activities necessary to achieve the objective. Restrictions on use of funds will be identified in the funding opportunity announcement and award provisions. See Funding Opportunity Announcement. Refer to program guidance.

Applicant Eligibility:

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: This cooperative agreement is a cost share program. The applicant is required to commit to the cost share requirement at the time of the application. The required cost share is based on and calculated against the total program cost as reflected in the application budget. The maximum Federal share is 70 percent of the total program cost as reflected in the application budget. The recipient must provide a minimum non-federal entity contribution supporting 30 percent of the total program costs as reflected in the application budget. A MOE provision is required as a condition of eligibility for federal funding, to maintain a financial contribution to the program at not less than 100 percent of its program income contribution for the prior fiscal year. The federal government wants awardees to rely on state and local funds thus ensuring that federal funds "supplement" rather than "supplant" (normal) activities. MOE requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2020: During this period, the MS-ISAC increased in membership by 20%. There was an increase in managed cybersecurity service offerings to the Elections Subsector, including Endpoint Detection and Response (EDR) capability. The MS-ISAC launched the new Malicious Domain Blocking and Reporting (MDBR) managed service offering to mitigate threats to the SLTT community, and saw 546 SLTT organizations subscribe. During this period, the MS-ISAC added 360 members to the Indicator Sharing Program, a 73% increase. Adoption of the Nationwide Cybersecurity Review (NCSR), the cybersecurity maturity assessment, increased by over 300%. Fiscal Year 2021: Thus far, the MS-ISAC and EI-ISAC have expanded MDBR adoption by 224% to 1,815 enrolled entities as of the end of May 2021, and expanded EDR endpoint coverage by 172% year to date. This represents a large expansion in managed service adoption. The MS-ISAC adopted a new Threat Intelligence Platform and worked to engage SLTTs in indicator sharing and direct access to the platform. Since implementing STIX/TAXII and supporting with automated workflows and Analyst1, the MS-ISAC is able to "score" and thus prioritize the sharing of IOCs most relevant to SLTTs. The MS-ISAC ingests 211 total intelligence feeds, with 147 new added YTD, a 230% increase. 1,847 threat groups are currently tracked, and over 60,000 campaigns with potential impact to SLTTs were tracked since October 2020. Additionally, the ISAC innovated in providing remote, distanced outreach and stakeholder engagement through virtual service reviews and remote speaking engagements.

Subsection 112(b)(2)), Title William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021., Section Section 2217, Public Law 116-283

OBJECTIVES:

The Department of Homeland Security (DHS), has the lead for the federal government in securing civilian government computer systems, and works with industry and state, local, tribal and territorial governments to secure critical infrastructure and information systems by: analyzing and reducing cyber threats and vulnerabilities distributing threat warnings coordinating the response to cyber incidents to ensure that our computers, networks, and cyber systems remain safe. Furthermore, Presidential Policy Directive 21 requires DHS to serve as the focal point for the security of cyberspace. Within DHS, the Cybersecurity and Infrastructure Security Agency (CISA) works to enhance the security, resiliency, and reliability of the Nations cyber and communications infrastructure. As the nation responds to ongoing rapid technological changes and advances, we must fill critical shortages in the cybersecurity workforce and to remain competitive, our nation will need to reimagine how it educates and trains cybersecurity professionals. Strengthening our cybersecurity workforce requires diverse perspectives from communities that represent America. Increasing the number of cybersecurity professionals within underserved communities is key to the success of our nation. The CISAs Cyber Defense Education and Training (CDET) Branch manages programs to assist in developing cybersecurity professionals needed to

ASSISTANCE LISTINGS DESCRIPTIONS

secure the nations cyber infrastructure and information systems. CDET addresses current and future cybersecurity challenges by making key investments to build and sustain an adaptive cybersecurity workforce to include partnering and facilitating cybersecurity educational programs at colleges, universities, as well as, investing in resources to educate and train individuals from K-12, traditional post-secondary school, and non-traditional post-secondary training environments. These initiatives help to ensure that the Federal, State, Local, Tribal and Territorial Governments and Critical Infrastructure stakeholders have well-trained cybersecurity professionals today as well as a strong pipeline of future cybersecurity leaders tomorrow. Furthermore, the recruitment and retention of individuals with these skills is an important element in the development of our nations cybersecurity workforce. CISA, through grants and cooperative agreements under this assistance listing, seeks to accomplish the following goals: Goal 1: Expand awareness of national cybersecurity training, education, and workforce issues. Goal 2: Encourage entry into cybersecurity programs and careers. Goal 3: Develop and implement a comprehensive engagement strategy that enables DHS/CISA to reach an increasing number of K-12, traditional post-secondary, and non-traditional post-secondary stakeholders. Goal 4: Identify new innovations for attracting, developing, and retaining a cybersecurity workforce.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2020: Cybersecurity Education and Training Assistance Program (CETAP) significantly increased virtual training opportunities for teachers through self-paced and facilitated trainings. CETAP had 25,000 teachers accessing the teacher resources during the year as well as trained a total of 2,700 teachers. Fiscal Year 2021: Cybersecurity Education and Training Program (CETAP) expects to continue to see significant increases in teachers accessing the curriculum as well as professional development workshops. By the end of FY21, it is anticipated that the program will impact 32,000 educators through curricula access and have trained over 22,000 teachers over the lifespan of the grant. Major projects include multiple state-wide adoptions of CYBER.ORGs cybersecurity standards as well as major advancements in its HBCU feeder and students with disabilities program. It is estimated that the Cybersecurity Workforce Development and Training Pilot for Underserved Communities will identify up to two non-traditional technical training providers to develop curricula, a virtual or hybrid in-person training hub, and an entry-level skilled apprenticeship program for underserved populations. Fiscal Year 2022: Cybersecurity Education and Training Assistance Program (CETAP) will continue to see significant increases and building off of previous years successes. By the end of FY22, CETAP should impact nearly 40,000 educators through curricula access and have trained just shy of 30,000 teachers over the lifespan of the grant. It is estimated that the Cybersecurity Workforce Development and Training Pilot for Underserved Communities will continue to see significant development of curricula, a virtual or hybrid in-person training hub, and an entry-level skilled apprenticeship program for underserved populations. The non-traditional technical training providers will have an approved Cybersecurity Pathways Retention Strategy and data on performance measures for reaching the target population over the lifespan of the cooperative agreement.

Cybersecurity and Infrastructure Security Agency (CISA),

FEDERAL AGENCY:

Cybersecurity and Infrastructure Security Agency, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Title Department of Homeland Security Appropriation Act, 2021, , Public Law 116-260

OBJECTIVES:

The Cybersecurity and Infrastructure Security Agency (CISA) serves as the Nations risk advisor to build the national capacity to defend against cyber-attacks, coordinate security and resilience efforts across the public and private sectors, and identify and address the most significant risks to the national critical functions provided by our Nations critical infrastructure. In accordance with the 2020-2024 DHS Strategic Plan (found at <https://www.dhs.gov/publication/department-homeland-securitys-strategic-plan-fiscal-years-2020-2024>), CISA supports the following DHS guiding principles: Championing Relentless Resilience for All Threats and Hazards: DHS will remain resolute against today's threats and hazards by keeping pace with our adversaries and preparing for those of tomorrow by identifying and confronting systemic risk, ensuring the Nations citizens remain resilient, building redundancy and resilience into community lifelines, and raising the baseline of our security across the board and across the world. Promote Citizen Engagement and Strengthen and Expand Trusted Partnerships: Homeland security is a whole-of-society endeavor, from every federal department and agency to every American across this Nation. We will work together and empower partners to leverage national capacity and capabilities, improve training exercises, and develop contingency plans that make America safe, secure, and resilient against all threats and all hazards. This grant specifically supports the following DHS Strategic Plan Goals: 3.1: Secure federal civilian networks 3.2: Strengthen the security and resilience of critical infrastructure 3.3: Assess and counter evolving cybersecurity risks. 5.1: Build a National culture of preparedness 5.3: Support outcome-driven community recovery. Accordingly, coordination and collaboration with appropriate private sector and non-profit organizations, as well as federal, state, and local government entities, is necessary to facilitate a comprehensive cybersecurity awareness campaign program. This awareness campaign program intends to execute a research-driven strategy focused on implementing specific programs,

activities, materials and outreach efforts, building on its cybersecurity awareness campaign to include activities and initiatives associated with Cybersecurity Awareness Month in October. Objectives A comprehensive nationwide cybersecurity awareness campaign will: Educate at-risk segments of the public about the dangers of cyber threats and key actions that can be taken to mitigate risks; Identify effective approaches to increase cybersecurity awareness among the general public and specific target audiences; Build relationships and coalitions across cybersecurity stakeholders to support a broad national effort; Execute means of measuring impact of campaign strategies on increasing public cybersecurity awareness, and Serve to further the Administrations National Security Strategic priority to build a culture of preparedness, informing and empowering communities and individuals to obtain the skills and take the preparatory actions necessary to become more resilient against the threats and hazards that Americans face.

97.130 National Nuclear Forensics Expertise Development Program

(NNFEDP).

FEDERAL AGENCY:

Countering Weapons of Mass Destruction, HOMELAND SECURITY,

DEPARTMENT OF

AUTHORIZATION:

Nuclear Forensics and Attribution Act (Public Law 111-140; Sec. 4(a)(12)), , Public Law 111-140, USC Code 4(a)(12).

OBJECTIVES:

The objectives of this program are: (1) to provide a stable foundation from which to develop and maintain the nuclear forensics workforce; (2) to provide an academic pathway from undergraduate to post-doctorate study in disciplines directly relevant to nuclear forensics, including but not limited to radiochemistry, geochemistry, nuclear physics, nuclear engineering, materials science, and analytical chemistry; and (3) to increase a diverse and highly talented cadre of new and emerging forensics experts who will fill specific expertise gaps in the area of nuclear forensics, an important homeland security mission. These objectives are aligned with the Nuclear Forensics and Attribution Act, P.L.111-140. The following goals have been established to meet these objectives: Recruit and produce a new generation of leaders and technical experts in a wide-range of fields relevant to nuclear forensics. Enhance the ability for universities and the national and defense laboratories to work collaboratively on advanced research in the nuclear forensics field. Implement a Nuclear Forensics Undergraduate summer opportunity to provide outreach to the academic community, facilitate experiential learning in nuclear forensics-related research areas, and encourage undergraduate students to pursue advanced degrees in radiochemistry and other nuclear forensics-related disciplines. Implement nuclear forensics research awards to encourage undergraduate and graduate students to perform forensic-related research in collaboration with academic professors and researchers at the national laboratories. These awards promote research that advances nuclear forensics methods, such as detection, characterization of materials, and analysis of signatures, while encouraging universities to invest in these types of programs, and feed students into post-doctoral/permanent staff positions in nuclear forensics at the national laboratories of federal agencies. Implement education award programs to support universities interested in developing and maintaining academic programs in nuclear forensics-related disciplines.

TYPES OF ASSISTANCE:

97.131 Emergency Management Baseline Assessments Grant (EMBAG)

EMBAG,

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

OBJECTIVES:

The EMBAG program supports investment in national-level standards for emergency management that target critical functions necessary to prepare for and manage disasters, with the goal of supporting the following short and long-term outcomes: In the short to mid-term, jurisdiction emergency management programs participating in the EMBAG achieve compliance with national-level standards for critical functions necessary to prepare for and manage disasters. Long-term, these programs increase their preparedness to manage disasters. In the short to mid-term, emergency management professionals tied to jurisdiction emergency management programs and participating in the EMBAG achieve compliance with national-level standards for critical functions necessary to manage emergency management programs. Long-term, these professionals increase their capability to manage these programs during disasters. For more details, please refer to the current program Notice of Funding Opportunity (NOFO) on [grants.gov](https://www.grants.gov).

TYPES OF ASSISTANCE:

ASSISTANCE LISTINGS DESCRIPTIONS

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

The FY 21 EMBAG Program targets solutions that address gaps in capabilities and contribute to efforts to reduce risk and support rapid stabilization and restoration of the seven Community Lifeline areas [Safety and Security; Food, Water, and Sheltering; Health and Medical; Energy (Power and Fuel); Communications; Transportation; and Hazardous Waste], which align with the common core capabilities for Planning, Operational Coordination, and Situational Assessment. Emergency management programs require these capabilities to successfully execute response operations and emergency management professionals require the ability to support emergency management programs in doing so. FEMA invites applicants to submit applications that identify and address solutions for current and emerging gaps in emergency management program accreditation and emergency management professional certification that empower jurisdictions to better address and prepare for disasters.

Applicant Eligibility:

Private nonprofit institution/organization (includes institutions of higher education and hospitals); The following are eligible applicants for this funding opportunity: Nonprofits as defined by 2 C.F.R. 200.70; and Institutions of higher education as defined by 2 CFR 200.55. Institutions of higher education as defined by 2 CFR 200.55; and For-profit organizations, including small businesses. For more details, please refer to the current program notice of funding opportunity on grants.gov: <https://www.grants.gov/web/grants/view-opportunity.html?oppld=325609>.

Beneficiary Eligibility:

U.S. Territories; Private nonprofit institution/organization; State; U.S. Territories, State, Local, Federally Recognized Indian Tribal Governments Funding under this program is ultimately intended to benefit U.S. State, Local, Tribal, and Territorial emergency management programs.

Credentials/Documentation:

The criteria that organizations must meet in order to be eligible for the EMBAG are defined below. Applicants that do not meet eligibility and application submission requirements will not be evaluated and scored by the review panel. Eligible nonprofit organizations and institutes of higher education must be able to demonstrate, for either emergency management program accreditation AND/OR emergency management professional certification, that they are qualified to develop, update, revise, and enhance national-level standards for emergency management and implement assessments against them for emergency management programs AND/OR emergency management professionals, according to questions defined in Appendix D: Project Narrative Template. For more details, please refer to the current program NOFO on grants.gov. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards found in 2 C.F.R. Part 200 apply to this program. NOFO for this listing will be posted on grants.gov. Notice of Funding Opportunities (NOFO) for this listing will be posted on Grants.gov.

Award Procedure:

Applications or plans are reviewed by DHS program and administrative staff. Any issues or concerns noted in the application will be negotiated with the successful applicant prior to the award being issued. Funds will not be made available for obligation, expenditure, or drawdown until the applicants budget and budget narrative have been approved by FEMA.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503 In accordance with the provisions of 2 C.F.R. Part 200, Subpart F - Audit Requirements, non-federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 C.F.R. 200.503 In accordance with the provisions of 2 C.F.R. Part 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 C.F.R. 200.503 Recipients that expend \$750,000 or more from all Federal funding sources during their fiscal year are required to submit an organization-wide financial and compliance audit report. The audit must be performed in accordance with the requirements of the U.S. Government Accountability Offices (GAO) Generally Accepted Government Auditing Standards. The Department of Homeland Security Appropriations Act, 2020, charges the DHS OIG with auditing reimbursements made under the PRES Grant. Evidence that supports the expenses submitted for reimbursement in the Detailed Budget Spreadsheets (e.g., signed and approved time cards that contain detailed descriptions of the services performed or other supporting documentation permitted under 2 C.F.R. 200.430) must be maintained by the non-federal entity and be provided to DHS/FEMA upon request.

Records:

Financial records, supporting documents, statistical records, and all other non-federal entity records pertinent to a federal award generally must be maintained for at least three years from the date the final Federal Financial Report (FFR) is submitted. See 2 C.F.R. 200.333. Further, if the recipient does not submit a final FFR and the award is administratively closed, FEMA uses the date of administrative closeout as the start of the general record retention period. The record retention period may be longer than three years or have a different start date in certain cases. These include: Records for real property and equipment acquired with federal funds must be retained for three years after final disposition of the property. See 2 C.F.R. 200.333(c). If any litigation, claim, or audit is started before the expiration of the three-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken. See 2 C.F.R. 200.333(a). The record retention period will be

extended if the recipient is notified in writing of the extension by FEMA, the cognizant or oversight agency for audit, or the cognizant agency for indirect costs. See 2 C.F.R. 200.333(b). Where FEMA requires recipients to report program income after the period of performance ends, the program income record retention period begins at the end of the recipients fiscal year in which program income is earned. See 2 C.F.R. 200.333(e). For indirect cost rate proposals, cost allocation plans, or other rate computations records, the start of the record retention period depends on whether the indirect cost rate documents were submitted for negotiation. If the indirect cost rate documents were submitted for negotiation, the record retention period begins from the date those documents were submitted for negotiation. If indirect cost rate documents were not submitted for negotiation, the record retention period begins at the end of the recipients fiscal year or other accounting period covered by that indirect cost rate. See 2 C.F.R. 200.333(f).

98.006 Foreign Assistance to American Schools and Hospitals Abroad (ASHA)

FEDERAL AGENCY:

AGENCY FOR INTERNATIONAL DEVELOPMENT

AUTHORIZATION:

The Foreign Assistance Act of 1961, as amended, Section 214

OBJECTIVES:

The purpose of the American Schools and Hospitals Abroad (ASHA) program is to furnish assistance to schools and libraries outside the United States founded or sponsored by United States citizens and serving as study and demonstration centers for ideas and practices of the United States, and to hospital centers for medical education and research outside the United States, founded or sponsored by United States citizens. Within this context of the U.S. Foreign Assistance Program, the objectives of the ASHA program are to strengthen overseas schools and hospitals that best demonstrate American ideas and practices, and are likely to survive over a long term.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Funds are authorized through grant agreements with private and non-profit U.S. organizations to carry out activities in line with the Agency's objectives. Funds are limited for direct support of activities conducted outside the United States in furtherance of the Agency's strategic objectives. ASHA grants are awarded through a competitive process.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Pursuant to Section 214 of the Foreign Assistance Act of 1961, as amended, grant assistance is made available to schools and libraries outside the United States founded or sponsored by United States citizens and serving as study and demonstration centers for ideas and practices of the United States, and to hospital centers for medical education and research outside the United States, founded or sponsored by United States citizens. Grants made under this program help such institutions demonstrate to people overseas the achievements of the United States in education and medicine. The applicant must be a non-profit U.S. organization, which either founded or sponsors the institution for which assistance is sought. The applicant, for example, can be a nonprofit university or a tax exempt organization under Section 501(c) (3) of the Internal Revenue Code of 1954 as amended. The applicant must demonstrate a continuing supportive relationship with the overseas institution. Evidence of this would be the provision of financial and management support for the institution. Other more detailed eligibility requirements are addressed in the published Request for Applications which appear on the USAID/ASHA web site and www.grants.gov.

Beneficiary Eligibility:

Private nonprofit institution/organization; Public nonprofit institution/organization; Beneficiaries must be institutions located outside the U.S. and must not be under the control or management of a government or any other of its agencies. The majority of the users of these overseas institutions, e.g., students or patients, must be citizens of countries other than the U.S.

Credentials/Documentation:

The overseas institutions must demonstrate competence in professional skills and exhibit sound management and financial practices. An applicant must present a strategy that demonstrates the ability to achieve professional competence, commitment to promote U.S. ideas and practices, and to operate in accordance with sound management and financial practices. Institutions must be open to all persons regardless of race, religion, sex, color, or national origin. All overseas institutions are expected to reflect favorably upon, and to increase the understanding as well as to enhance the image of the United States. An applicant requesting assistance must provide an estimate of the total cost (including cost share and U.S. contribution) for which assistance is requested. Such applicants must also provide information and assurances with respect to right to occupy the premises and/or the land upon which new construction is planned. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is excluded from coverage under E.O. 12372. Per the United States Agency for International Development Environmental Compliance Procedures, 22 CFR 216.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications are submitted in response to specific announcements (Requests for Applications) synopsis and published on the grants.gov web site. All applications must be submitted using the Standard Form 424. Each announcement provides specific instructions regarding the contents of the description of the activity, budget documentation and other required information.

Award Procedure:

Following selection for award, a successful applicant will receive an electronic copy of the notice of award signed by the Agreement Officer which serves as the authorizing document. USAID will issue the award to the contacts specified by the applicant in its application documents and /or the Authorized Individuals submitted by the application.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. The range is from 7 to 9 months.

98.007 Food for Peace Development Assistance Program (DAP)

FEDERAL AGENCY:

AGENCY FOR INTERNATIONAL DEVELOPMENT

AUTHORIZATION:

The Foreign Assistance Act of 1961,

OBJECTIVES:

To improve access, availability and utilization of food in food insecure environments abroad. The priority for Title II development programs is a focus on improving household nutrition and health status, especially in children and mothers, and on increasing agricultural productivity, including field production, post-harvest handling and transformation and marketing.

TYPES OF ASSISTANCE:

Project Grants, Sale, Exchange, or Donation of Property and Goods

USES AND USE RESTRICTIONS:

U.S. and local Private Voluntary Organizations registered with USAID may submit proposals requesting commodities and cash to carry out food aid programs in food insecure countries. The activities outlined in new DAPs should be in conformity with USAID, host government and multilateral food security assessments and strategies. Coordination with USAID Mission development priorities for the associated countries is highly desirable; program and resources integration is encouraged. However, no proposal will be disapproved solely because it is not integrated. Proposals will be reviewed and considered eligible for approval so long as they do not violate the Bellmon Amendment or other statutory provisions, are consistent with the Food Aid Food Security policy paper, and address the host country's most serious problems in the areas of food access, availability, and utilization.

Applicant Eligibility:

Private nonprofit institution/organization (includes institutions of higher education and hospitals); Private non-profit institutions/organizations are eligible for this program. Specifically, an organization must be a Private Voluntary Organization (PVO) or cooperative. PVOs must be registered with USAID as of the date of its application. In order to be awarded a program the organization must also be registered with the Office of Food for Peace.

Beneficiary Eligibility:

Private nonprofit institution/organization; Private, non-profit institutions/organizations will benefit from this program along with vulnerable and food insecure populations in low income food deficit countries (LIFDCs) and least developed countries (LDCs).

Credentials/Documentation:

USAID Registration; Evidence of legal capacity, economic feasibility, and financial responsibility relative to the activity for which assistance is required. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Award Procedure:

Unsolicited emergency applications are submitted to the Office of Food for Peace throughout the year to respond to natural disasters, complex emergencies and post-emergency stabilization needs. An emergency appeal or disaster declaration is the "triggering mechanism" that allows FFP to consider requests for emergency food assistance. All applications for assistance are reviewed for completeness and then given a technical review. Awards are negotiated based on a demonstrated need for food aid and the ability of the proposed assistance to respond to the indicated need(s).

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

From 15 to 30 days. Although there is no binding timeframe, emergency situations often require a quick response. Therefore, FFP/EP works with the objective of completing the proposal review within 21 working days of receipt of a complete proposal. Delays may occur when required information is not included in the proposal.

98.010 Denton Program

FEDERAL AGENCY:

AGENCY FOR INTERNATIONAL DEVELOPMENT

AUTHORIZATION:

U.S. Foreign Assistance Act of 1961,

OBJECTIVES:

To put the empty space on U.S. Military transport to good use by providing humanitarian relief transportation for nongovernmental organizations or private citizens, at little or no cost to them.

TYPES OF ASSISTANCE:

Project Grants, Provision of Specialized Services

USES AND USE RESTRICTIONS:

The Denton Program is a commodity transportation program that is jointly administered by the U.S. Agency for International Development (USAID), the Department of State (DOS), and the Department of Defense (DOD). The program provides the authority for DOD to use any extra space on U.S. military cargo aircraft to transport donated goods for humanitarian relief. The minimum and maximum weight allowance for Denton shipments is 2,000 lbs. and 100,000 lbs., respectively. Time and or temperature sensitive cargo, perishable food stuff, pharmaceutical samples, passengers, livestock, hazardous material, and vehicles requiring a special driver are ineligible commodities under the Denton program.

Applicant Eligibility:

Private nonprofit institution/organization (includes institutions of higher education and hospitals); Applicants must be an U.S. based private voluntary organization (PVOs), non-governmental organization (NGOs) or small organization.

Beneficiary Eligibility:

Private nonprofit institution/organization; PVOs, NGOs and International Organizations (IOs) in eligible countries.

Credentials/Documentation:

Evidence that the goods are in usable condition; the consignee in country is legitimate and has the capacity to receive and distribute goods; and the goods are packaged properly and in compliance with U.S. military procedures. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. All prospective donors are encouraged to apply online for U.S. military space available transportation under the Denton program. Information on the guidelines and the application can be accessed at www.dentonfunded.ida.org. The procedures are specified in the application. These include the applicant name, address, contact information; consignee name, address, contact information; the description of beneficiaries, impact areas, distribution plan; the detailed list of items; the cargo weight, volume and U.S. warehouse location; and the duty-free certification.

Award Procedure:

Not applicable.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

From 90 to 120 days. The Denton Program requires the coordination of USAID, DOS, and DOD throughout the approval process. Applications take from 6-8 weeks to be approved and an additional three months or more (depending upon availability) to receive Department of Defense space-available transport. Neither approval nor transportation is guaranteed.

Appeals:

Other.

Renewals:

Other. Donors may submit only one application per country at a time. They cannot reapply to a country until the prior transportation request has been completed.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Since the Denton program is a space available program, it is impossible to predict when transportation will be provided; therefore, no guarantees can be made regarding completion of a donated humanitarian goods shipment. Method of awarding/releasing assistance: quarterly

98.011 Global Development Alliance

FEDERAL AGENCY:

AGENCY FOR INTERNATIONAL DEVELOPMENT

AUTHORIZATION:

U.S. Foreign Assistance Act of 1961,

OBJECTIVES:

The Global Development Alliance (GDA) business model provides a framework for enabling public-private alliances (PPA's) to carry-out activities that promote international development objectives. Through the leveraging, sharing the cost of resources and pooled expertise, the PPA model seeks to achieve greater impact than individual entities working alone. For further information please visit http://www.usaid.gov/our_work/global_partnerships/gda/.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Funds are authorized through grants, cooperative agreements, and Leader-with Associate Grants, to U.S. and non-U.S. for profit and not for profit organizations to carry out activities to enhance development objectives. Potential for-profit applicants should note that USAID policy prohibits the payment of fee/profit to recipients under assistance instruments. Potential partners should note that cash and in-kind contributions, including volunteered services qualify as cost-share or leveraging, however forgone profit does not qualify as cost-sharing or leveraging. The resource contribution of the partners must be at least as great as that requested of USAID to achieve a minimum 1:1 leverage ratio.

Applicant Eligibility:

Federal; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Individual/Family; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Other private institutions/organizations; The eligibility criteria for potential alliance partners is broad, and the following list of potential partners is for illustrative purposes: U.S. and non-U.S. Non-Governmental Organizations, U.S. and non-U.S. private businesses, foundations, business and trade associations, international organizations, U.S. and non-U.S. colleges and universities, U.S. cities and states, other U.S. Government agencies, civic groups, other donor governments, host country governments, regional organizations, host country parastals, individual and group philanthropies and funds etc. Non-Governmental Organizations (NGO) do not need to be registered as Private Voluntary Organizations to submit a proposal.

Beneficiary Eligibility:

Federal; Individual/Family; Private nonprofit institution/organization; Other private institution/organization; State; Local; Public nonprofit institution/organization; Beneficiaries are foreign governments, foreign public or private institutions or organizations, and/or the people of the developing world.

Credentials/Documentation:

Applicants who have never received a grant from USAID may be required to provide additional documentation that will be requested by the Operating Unit issuing the grant. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants are encouraged to apply at individual USAID Missions and operating units. The GDA Secretariat staff is readily available to meet with prospective partner organizations

ASSISTANCE LISTINGS DESCRIPTIONS

and can assist organizations with points of contacts within USAID. The Secretariat may also provide feedback and comments on applicant concept papers. USAID encourages applicants to use the standard format that will be in the formal solicitation to be issued at www.grants.gov.

Award Procedure:

Official notice of approved application is made by the Agreement Officer through the issuance of a Grant Award, Cooperative Agreement or a Leader with Associate Grant.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days. The range for receiving a response is from 60 to 90 days.

Appeals:

Other.

Renewals:

Other. Extensions to the PPA project period may be made if deemed appropriate by the Agreement Officer. Existing awards may be modified to include alliance components.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Grants, cooperative agreements and leader with associate grants may be issued for up to a five-year period, and are generally funded on a 12-month basis. Support beyond the first year is contingent upon the availability of funds. Method of awarding/releasing assistance: quarterly

Reports:

No reports are required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with the provisions of OMB Circular A-133 (Revised June 27, 2003), Audits of States, Local Governments, and Non-Profit Organizations, nonfederal entities that receive financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

In accordance with 22 CFR Part 226.53, grantees are to maintain accounting records for a minimum of 3 years after the end of the date of submission of the final expenditure report. If any litigation, claim, negotiation, audit or other action involving the records has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

APPENDIX I: LISTINGS REQUIRING EXECUTIVE ORDER 12372 REVIEW

This appendix catalogs listings requiring Executive Order 12372 review. Executive Order 12372 "Intergovernmental Review of Federal Programs," structures the Federal government's system of consultation with State and local governments on its decisions involving grants, other forms of financial assistance, and direct development. Under E.O. 12372, States, in consultation with their local governments, design their own review processes and select those Federal financial assistance and direct development activities they wish to review.

Since October 1, 1983 most States have acted to establish a review and comment system in response to E.O. 12372. In such cases, applicants for grants will need to meet the requirements of the intergovernmental consultation process established by a particular State and its local governments before Federal agencies take action on an application.

For more information on the process a particular State requires to be followed, an applicant should contact the office or official designated as the single point of contact in his or her State. Consult the individual listing description in the Publication to determine whether the listings under which he/she plans to apply is subject to E.O.12372. Consult the Federal agency's application package for instructions on State notification.

APPENDIX II: BUDGET FUNCTIONAL CODE APPENDIX

FINANCIAL INFORMATION

Account Identification - This 11-digit budget code identifies the account from which an assistance listing is funded as expressed in the Appendix to the Federal Budget. For identification code 75-0350-0-1-551, the first two digits represent the Federal agency code, and the third through sixth digits identify the appropriation (or fund) basic account symbol assigned by the Treasury Department. Where two or more accounts with different Treasury basic account symbols are included in a consolidated assistance listing, 99 will be the third and fourth digits, the fifth digit will be the fund type and the sixth digit will reflect the sequence of consolidated assistance listings for that fund type within the agency. The seventh digit identifies the timing of transmittal of budget estimates:

1. 0: Regular budget schedules
2. 1: Supplemental appropriation
3. 2: Legislative proposal, not subject to PAYGO
4. 3: Appropriations language to be transmitted later
5. 4: Legislative proposal, subject to PAYGO
6. 5: Recession proposal
7. 6: Adjustments to 1996 continuing resolution levels

The eighth digit identifies the type of government fund involved:

1: General fund - General Fund Appropriation Accounts - Accounts established to record amounts appropriated by law to be expended for the general support of the Government. General Fund Receipt Accounts - Accounts credited with all receipts that are not earmarked by law for a specific purpose.

2: Special fund - Special Fund Appropriation Accounts - Accounts established to record appropriated amounts of special fund receipts to be expended for special programs in accordance with specific provisions of law. Special Fund Receipt Accounts - Accounts credited with receipts from specific sources that are earmarked by law for a specific purpose.

3: Public Enterprise Fund Accounts - Funds authorized by Congress to be credited with receipts primarily from the public, that are generated by, and earmarked to finance, a continuing cycle of business-type operations.

4: Intragovernmental Revolving or Management Fund Intragovernmental Fund Accounts - Accounts established to facilitate financing transactions within and between Federal agencies. These funds may be classified as intragovernmental revolving funds or management funds. Intragovernmental Revolving Fund Accounts - Funds authorized by law to carry out a cycle of intragovernmental business-type operations. These funds are credited with offsetting collections from other agencies and accounts.

7: Trust Fund (non-revolving) - Trust funds are established to account for the receipt and expenditure of monies by the Government for carrying out specific purposes and listings in accordance with the terms of a statute that designates the fund as a trust fund (such as the Highway Trust Fund) or for carrying out the stipulations of a trust agreement (such as any of several trust funds for gifts and donations for specific purposes). In a trust non-revolving fund, the receipts designated for the trust fund are in a separate account.

8: Trust Fund (revolving) - In a trust revolving fund, the fund is credited with collections earmarked by law to carry out a cycle of business-type operations.

9: For use when account consolidations cross fund types. The last three digits represent the functional classification (code) used in the latest Federal Budget document, unless noted otherwise by the Office of Management and Budget. In cases where a listing is split between two or more sub functions: (a) if all sub functions are in the same major function, the code is the same as for the major function; or (b) if two or more major functions are involved the digits '999' are used. (Example: 75-1361-0-1-550)

1. A: Formula Grants
2. B: Project Grants
3. C: Direct Payments for Specified Use
4. D: Direct Payments with Unrestricted Use
5. E: Direct Loans
6. F: Guaranteed/Insured Loans
7. G: Insurance
8. H: Sale, Exchange, or Donation of Property and Goods
9. I: Use of Property, Facilities, and Equipment
10. J: Provision of Specialized Services
11. K: Advisory Services and Counseling
12. L: Dissemination of Technical Information
13. M: Training
14. N: Investigation of Complaints
15. O: Federal Employment
16. Z: Salaries and Expenses

Listed below are major functions and sub-functions as used in the budget document to show allocations of budget authority and outlays according to end purposes without regard to agency jurisdiction. The central nature of each major function is identified and defined. Publication assistance listings are listed following each applicable sub function (or major function). Note that some sub functions are not applicable to Publication assistance listings. The alphabet(s) in parentheses following the listing title, shows the type(s) of assistance available through that assistance listing. The alphabet codes with accompanying types of assistance are as follows:

APPENDIX II: BUDGET FUNCTIONAL CODE APPENDIX

(050) National Defense

This function includes those programs directly related to the common defense and security of the United States. It includes the raising, equipping, and maintaining of armed forces (including civilian supporting activities), development and utilization of weapons systems (including nuclear weapons), and related programs. National defense includes direct compensation and benefits paid to active military and civilian personnel; contributions to their retirement, health, and life insurance funds; the conduct of defense research, development, testing, and evaluation; and procurement, construction, stockpiling, and other activities undertaken with the direct object of fostering national security. Excluded from national defense are benefits or compensation to veterans and their dependents (veterans benefits are generally available to personnel who served the country in national emergencies; benefits for career military personnel are generally charged as a cost to the national defense function) and military retired pay, which is included in the income security function. Also excluded from national defense is the peaceful conduct of foreign relations; foreign military, economic, and humanitarian assistance; subsidies to business by civilian agencies (such as maritime subsidies) that may be partially justified as promoting national security; and research and operations of agencies (such as space research) whose program mission is not directly designed to promote national defense but which could result in some significant benefits to our national security.

81.137 Minority Economic Impact (A, B)

(051) Department of Defense-Military

The entire agency is included in this sub function. Because of the method of funding and accounting in the Defense Department no further subdivisions on program basis are available in terms of outlays.

12.002 Procurement Technical Assistance For Business Firms (B)
 12.003 Community Economic Adjustment Assistance for Responding to Threats to the Resilience of a Military Installation (B)
 12.013 Defense Civilian Training Corps (DCTC) - Scholarship/Internship (B)

This includes export credit, the military sales trust fund, international commodity agreements, international monetary programs, and other programs designed to improve the functioning of the international financial system.

- 31.007 Export - Loan Guarantee/Insured Loans (E, F)

(250) General Science, Space, and Technology

This function shows budget resources allocated to science and research activities of the Federal Government to meet the national need to advance knowledge in this area. In addition, research and technology programs that have diverse goals and cannot readily be classified into one specific function are also placed here to avoid detailed splitting of accounts. Included in this function are general scientific research and civilian space programs that are not an integral part of the programs conducted under any other function. This includes the research conducted by the National Aeronautics and Space Administration, and general science research supported by the Department of Energy. As is noted above, research programs that are an integral part of the achievement of other major functions — e.g., health, national defense, energy — are excluded from this function. Only if a research program cannot readily be included in other functions is it classified in this function.

- 12.113 State Memorandum of Agreement Program for the Reimbursement of Technical Services (B, Z)
- 81.092 Remedial Action and Waste Management (B)

- 47.083 Integrative Activities (B)
- 81.049 Office of Science Financial Assistance Program (B)

(252) Space flight, research and supporting activities

This subfunction is devoted to the development and operation of space transportation systems, basic scientific research connected with outer space, research and demonstrations designed to provide terrestrial applications of technology developed through space research, and development of new space technologies for future missions. Also included are the costs of tracking and data relay support for NASA space science and applications for flight missions.

- 43.001 Science (B, C, I, M)
- 43.003 Exploration (B, C, I, J, L, M)
- 43.007 Space Operations (B)
- 43.008 Office of Stem Engagement (OSTEM) (B)
- 43.009 Safety, Security and Mission Services (B)
- 43.012 Space Technology (B, C, I, M)

(270) Energy

The energy function includes those programs designed to promote an adequate supply and appropriate use of energy to serve the needs of the economy. It includes most of those programs operated by the Department of Energy and its predecessor agencies except for atomic energy defense activities and for general science research not closely related to energy.

- 81.036 Inventions and Innovations (B, K, L)
- 81.041 State Energy Program (A, L)
- 81.042 Weatherization Assistance for Low-Income Persons (A)
- 81.086 Conservation Research and Development (B)
- 81.087 Renewable Energy Research and Development (B)
- 81.117 Energy Efficiency and Renewable Energy Information Dissemination, Outreach, Training and Technical Analysis/Assistance (B)
- 81.119 State Energy Program Special Projects (B)
- 81.135 Advanced Research Projects Agency - Energy (B)
- 81.136 Long-Term Surveillance and Maintenance (B)

(271) Energy supply

This includes those programs designed to increase the supply of energy through the development of domestic resources and systems capable of using them. Included in energy supply are the costs of research and demonstration of supply systems.

- 10.212 Small Business Innovation Research (B)
- 10.219 Biotechnology Risk Assessment Research (B)
- 10.312 Biomass Research and Development Initiative Competitive Grants Program (BRDI) (B)
- 10.751 Rural Energy Savings Program (RESP) (E)
- 10.850 Rural Electrification Loans and Loan Guarantees (E, F)
- 10.851 Rural Telephone Loans and Loan Guarantees (E, F)
- 10.851 Rural Telephone Loans and Loan Guarantees (E, F)
- 10.854 Rural Economic Development Loans and Grants (B, E, F)
- 81.057 University Coal Research (B)
- 81.065 Nuclear Legacy Cleanup Program (B, C)
- 81.089 Fossil Energy Research and Development (B)

- 81.108 Epidemiology and Other Health Studies Financial Assistance Program (B)
- 81.126 Federal Loan Guarantees for Innovative Energy Technologies (E, F)
- 81.126 Federal Loan Guarantees for Innovative Energy Technologies (E, F)
- 81.131 Expand and Extend Clean Coal Power Initiative (B)

(272) Energy conservation

Programs in this subfunction are designed to encourage the prudent use of energy resources.

- 81.126 Federal Loan Guarantees for Innovative Energy Technologies (E, F)
- 81.128 Energy Efficiency and Conservation Block Grant Program (EECBG) (A, B)

(276) Energy information, policy, and regulation

This includes the unallocable overhead activities of the Department of Energy plus the costs of energy information and regulation activities.

- 77.006 U. S. Nuclear Regulatory Commission Nuclear Education Grant Program (B)
- 77.007 U.S. Nuclear Regulatory Commission Minority Serving Institutions Program (MSIP) (B)
- 77.008 U.S. Nuclear Regulatory Commission Scholarship and Fellowship Program (B)
- 77.009 U.S. Nuclear Regulatory Commission Office of Research Financial Assistance Program (B)
- 81.138 State Heating Oil and Propane Program (B, Z)

(300) Natural Resources and Environment

This function includes those programs whose primary purpose is to develop, manage, and maintain the Nation's natural resources and environment. It encompasses development and management of water resources; protection and enhancement of environmental quality; development and maintenance of recreational resources; promotion of the prudent use of forest and mineral resources; the fostering of conservation practices on both public and private lands; marine, earth, and atmospheric -related research, and the management of the public domain. Excluded from this function are the outlays for community water supply programs, basic sewer system, and waste treatment plants, which are part of a community or regional development (rather than an environmental enhancement) program or are part of the cost of operating a Federal facility (such as a military installation).

- 15.532 Central Valley, Trinity River Division, Trinity River Fish and Wildlife Management (B)
- 15.550 Fishing Events for Disadvantaged Children (B)
- 90.300 Japan-U.S. Friendship Commission Grants (B)

(301) Water resources

This includes water protection, conservation, irrigation, and related activities including the total costs of multipurpose water projects where it is not feasible to separate out the transportation (navigation) or energy (power) segments of these projects.

- 10.904 Watershed Protection and Flood Prevention (B, K, Z)
- 10.916 Watershed Rehabilitation Program (B, C, K, Z)
- 10.916 Watershed Rehabilitation Program (B, C, K, Z)
- 10.923 Emergency Watershed Protection Program (B, Z)
- 10.927 Emergency Watershed Protection Program - Disaster Relief Appropriations Act (B, Z)
- 10.928 Emergency Watershed Protection Program - Floodplain Easements - Disaster Relief Appropriations Act (C, Z)
- 12.010 Youth Conservation Services (B)
- 15.504 Title XVI Water Reclamation and Reuse (A, B)
- 15.506 Water Desalination Research and Development (B)
- 15.507 WaterSMART (Sustain and Manage America's Resources for Tomorrow) (B)
- 15.508 Providing Water to At-Risk Natural Desert Terminal Lakes (B)
- 15.509 Title II, Colorado River Basin Salinity Control (B)
- 15.510 Colorado Ute Indian Water Rights Settlement Act (B, C)
- 15.511 Cultural Resources Management (B)
- 15.512 Central Valley Improvement Act, Title XXXIV (B)
- 15.514 Reclamation States Emergency Drought Relief (B)
- 15.516 Fort Peck Reservation Rural Water System (B, C)

(400) Transportation

This function includes all programs with the primary aim of providing for the transportation of the general public and/or their property, regardless of whether local or national and regardless of the particular mode of transportation. It includes the construction of facilities; purchase of equipment; research, testing, and evaluation; provision of communications directly related to transportation (for example, air traffic control by the FAA); and operating subsidies for transportation facilities (such as mass transit) and industries (such as railroads).

Transportation includes regulatory activities directed toward transportation. Excluded from this function are the costs of moving personnel or equipment as part of the operation of other government services; the provision of foreign economic assistance which may take the course of assisting transportation facilities or programs abroad; the construction of roads, trails, etc., as an integral part of the operation of public lands, parks, forests, or military reservations, unless they are specifically funded as a part of a broader transportation program; the construction of roads or other transportation facilities as an integral part of an abroad community facility or regional development program where the clear intent of the program is regional development and the provisions of transportation facilities is only an incidental by-product or means to attain the objective of regional development. Also excluded from transportation are research and technology activities devoted to space research, except for aeronautical technology, even though this research may eventually redound to the advantage of general transportation.

(550) Health

This function includes those programs that have as their basic purpose the promotion of the physical and mental health of the nation's population, including the prevention of illness and accidents. It includes planning, financing, and provision of medical care; research into the causes and cure of disease; the financing of specialized programs for training of health workers and researchers; and promotion of consumer and occupational health and safety. Excluded from the health function are Federal health care costs that are an integral part of another function, such as Medicare and medical care for military personnel and for veterans. General scientific research that has medical applications (such as that conducted by the National Science Foundation) and health programs financed through foreign assistance programs are also excluded from the health function.

96.002	Social Security Retirement Insurance (D)
96.004	Social Security Survivors Insurance (C, D)

(700) Veterans Benefits and Services

This function consists of programs providing benefits and services, the eligibility for which is related to prior military service but the financing of which is not an integral part of the costs of national defense. It includes veterans service-connected compensation; veterans non-service connected pensions; and veterans readjustment benefits, housing, and medical care programs. As a normal rule, the outlays in this function are similar to those in the broader general purpose functions (such as income security or health) but are restricted to veterans, their dependents, and their survivors. Earned rights of career military personnel that are a cost of the defense budget (such as military retired pay or medical care) are excluded from this function. The subfunctions of this function are so structured that they are readily additive to analogous major functions for the general population.

APPENDIX III: SOURCES OF ADDITIONAL INFORMATION

Additional information concerning Federal assistance listings and services is available from the sources listed below. The information in this Appendix is in addition to that supplied in Appendix IV (Regional and Local Office Addresses) however; they are not the offices to which an applicant applies for an assistance listing. If a potential applicant or information seeker is not certain which agency to contact, there are two types of organizations set up to help: The Federal Information Center Program and the Federal Executive Boards.

FEDERAL CITIZEN INFORMATION CENTER PROGRAM -- The Federal Citizen Information Center Program (FCIC) is a focal point for information about the Federal government. The FCIC assists people who have questions about Federal agencies, services, and listings, but do not know where to turn for an answer. FCIC information specialists either answer an inquirer's question directly or perform the necessary research to locate and refer the inquirer to the expert best able to help. Telephone users may call the FCIC toll-free on (800) 688-9889 weekdays between 9 a.m. and 8 p.m., Eastern Time. TTY users may call toll-free to the FCIC from anywhere in the U.S. by dialing (800) 326-2996.

FEDERAL EXECUTIVE BOARDS -- Federal Executive Boards (FEBs) are composed of heads of Federal field offices in the metropolitan area. The FEBs were established to improve internal Federal management practices, provide a central focus for Federal participation in civic affairs in major metropolitan centers of Federal activity, serve as a means for disseminating information within the Federal government and for promoting discussion of Federal policies and activities of importance to all Federal executives in the field. The FEBs carry out their functions under the supervision of the Office of Personnel Management (OPM). Federal Executive Associations, and Councils, have been locally organized in over 80 other metropolitan areas to perform functions similar to the Federal Executive Boards but on a lesser scale of organization and activity. For further information, contact the Assistant for Field Operations, Office of Personnel Management, Room 5524, 1900 E Street, NW., Washington, DC 20415-0001. Telephone: (202) 6061001.

CFDA Print Edition -- In addition to the downloadable electronic version of the CFDA Print Edition, a printed hard copy may be purchased for a fee through the U.S. Government Bookstore at <https://bookstore.gpo.gov/>.

REFERENCE SOURCES

The Budget of the United States Government -- The Budget of the United States Government sets forth the President's comprehensive financial plan and indicates the President's priorities for the Federal government.

Information on assistance listings by function, agency, and account, and detailed budget estimates is located in the Budget. Federal assistance listings listed in the Catalog may be identified by the 11-digit budget account identification code listed in the Budget. These codes also appear in the Financial Information section of each Catalog listing. A complete explanation of the identification code is provided in Appendix III of the Catalog (the Budget Functional Code Appendix). The Budget may be purchased from the Government Printing Office in the Washington, DC area and the U.S. Government bookstores listed in this Appendix.

The Code of Federal Regulations -- The Code of Federal Regulations (CFR) is a codification of the general and permanent rules published in the Federal Register by executive departments and agencies of the Federal government. It includes all statutory regulations of Federal agencies, and is divided into 50 titles, which represent broad subject areas of Federal regulations (e.g., Housing and Urban Development, Public Health, Public Welfare, or Transportation). Each title is divided into chapters, which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas. The number preceding the CFR citation is the title or volume number. The CFR is kept up-to-date by the individual issues of the Federal Register; these two publications must be used together to determine the latest version of any given rule. Individual volumes of the CFR are revised at least once each calendar year and issued on a staggered quarterly basis. The CFR thus serves as a convenient reference for the citizen desiring a comprehensive source for general and permanent Federal regulations.

A General index to the entire Code of Federal Regulations, the CFR Index, is revised as of July 1 each year. The numerical Finding Aids, a cumulative list of

CFR Sections affected is published monthly and is cumulated for 12 months, keyed to the revision dates of the various CFR volumes.

The Code of Federal Regulations is available in Federal depository libraries and most major libraries or Federal bookstores. Individual copies may be purchased from the Government Printing Office.

The Federal Register --

The Federal Register, published daily, is the medium for making available to the public Federal agency regulations and other legal documents of the Executive Branch. These documents cover a wide range of government activities. Here, government requirements are published which involve environmental protection, consumer product safety, food and drug standards, occupational health and safety, and many more areas of concern to the public.

The Federal Register includes proposed changes in regulated areas. Each proposed change published carries an invitation for any citizen or group to participate in the consideration of the proposed regulation through the submission of written data, views, or arguments, and sometimes by oral presentations. Through the publication of proposed rules and notices of public meetings, citizens are given the opportunity to be informed about and participate in the workings of their government.

The Federal Register is also a vehicle for the announcement of newly authorized and/or funded assistance listings, notifications of funding availability, (NOFAs), assistance listing application deadlines, and other important information. The Federal Register Index is based on a consolidation of entries appearing in the issues of the Federal Register together with broad references. It is published monthly and is cumulative for 12 months. The Federal Register and the Federal Register Index are available in Federal depository libraries and most major libraries or Federal bookstores. Additional Federal Register resources include, the Statistical Abstract of the United States; Weekly Compilation of Presidential Documents; The Federal Register: What It Is and How To Use It. All Federal Register publications may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.
