APPENDIX V: HISTORICAL PROFILE OF PUBLICATION LISTINGS

The following list shows all assistance listings printed in the Annual Publication of Assistance Listings beginning with the 1965 edition and the subsequent action taken related to that assistance listing. For the years 1965, 1967, and 1969 the listings did not have numbers. They were identified only by their titles. Therefore, the first part of each agency listing shows assistance listings by their title if they were in existence before 1970. The assistance listing CFDA numbering system was instituted in 1970. The first line shows the number and title of the assistance listing when it was added to the Catalog. The second and subsequent lines show the year the listing was added and any additional transactions, e.g., title changes, transfers, deletes, consolidations, agency reorganizations, number changes, etc., that may have followed. The alphabet B or U that follows a given year, indicates the transaction was made either in the basic (B) or the update (U) or the U1 and U2 are the first and second updates respectively, published that year.
