

Scope of Work

MKK VOR

Vegetation Control

Background: On the island of Molokai, MKK VOR is atop the hillside of Molokai Ranch. The facility is surrounded by native vegetation. Large bushes and trees are beginning to affect the performance of the VOR/DME.

Location: MKK VOR Latitude 21° 08' 18.20" Long 157° 10' 02.65" EL 1418 ft.

Scope of Work: Provide all Labor and equipment to clear area around the facility 200 feet radius of tall bushes and trees, approximately 2.88 acres. Clear vegetation to grade level. Mulch vegetation and leave at site.

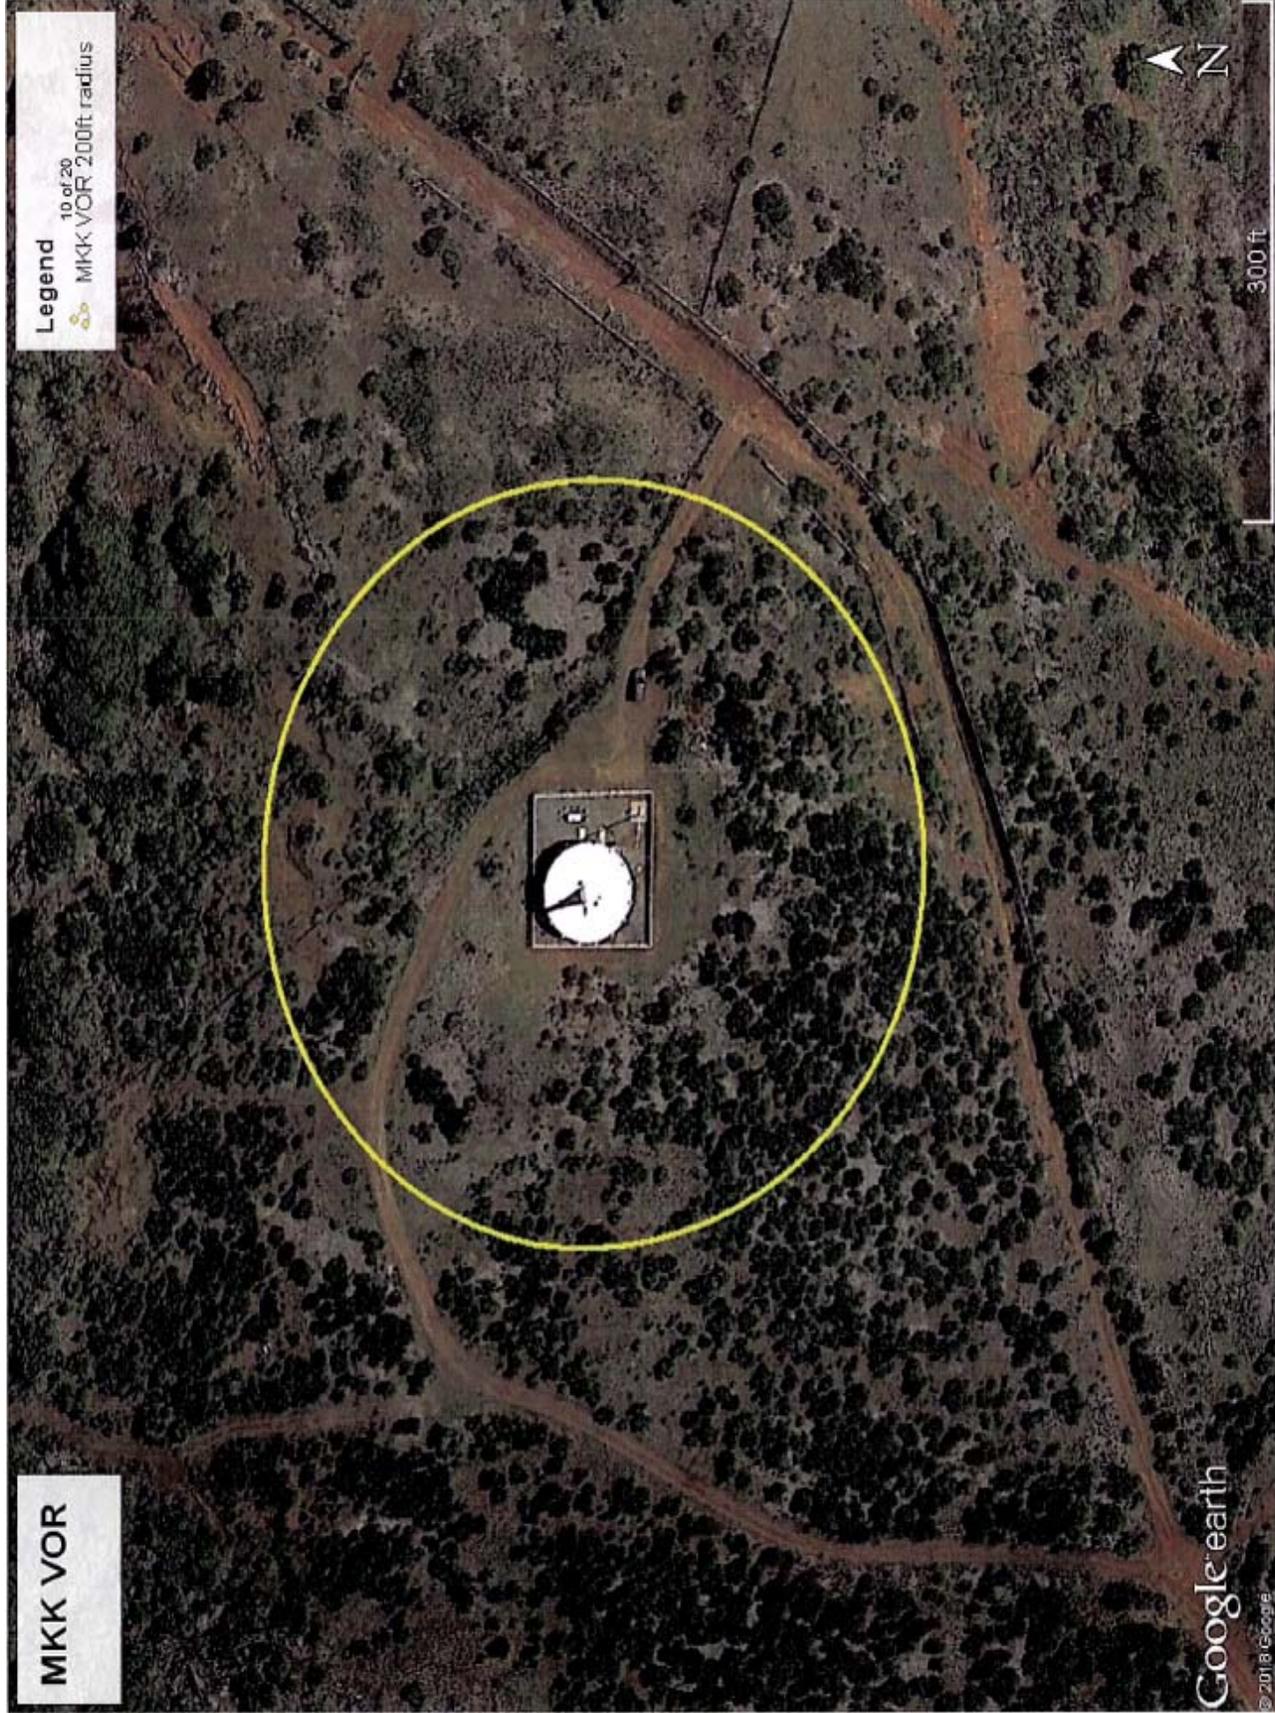

Work Execution and Site Access: MKK VOR is an active aviation navigation equipment. Working around the facility will affect the performance of the VOR. Coordination with the FAA Point of Contact must be arranged by the contractor for work execution and site access.

FAA Point of Contact: Mike Santos 808-840-3728 (Office) or 808-439-1118 (cell).

See attach pdf for view of site. View was taken in 2013, there is much more vegetation now.
