# Take on any containment challenge with STARC.

Three innovative solutions to tackle the toughest projects and meet the highest demands.

		
<b>RealWall™</b>	<b>LiteBarrier™</b>	<b>FireblockWall™</b>
<p>Trusted by leading facilities, our original award-winning system is ideal for long-term installations where noise blocking is needed.</p>	<p>The most durable lightweight containment on the market, LiteBarrier is the perfect solution for multi-phase projects requiring frequent reconfiguration.</p>	<p>The only reusable one-hour fire-rated containment solution available, FireblockWall is superior to traditional fire-rated containment options.</p>
<b>BENEFITS</b>	<b>BENEFITS</b>	<b>BENEFITS</b>
<ul style="list-style-type: none"><li>• Real wall appearance &amp; stability</li><li>• Reduces renovation noise up to 50%</li><li>• Unmatched durability</li><li>• Fast, easy, disruption-free installation</li></ul>	<ul style="list-style-type: none"><li>• Great looking</li><li>• More durable than polycarbonate</li><li>• Lower up-front costs</li><li>• Attaches to both RealWall &amp; polycarbonate systems</li></ul>	<ul style="list-style-type: none"><li>• Meets ASTM E119, ASTM E84, NFPA 241, and IBC requirements</li><li>• Installs up to four times faster than drywall</li><li>• Pays for itself in 3-5 uses</li><li>• Attractive powder-coated surface</li></ul>

# Setting the Standards

## in Reusable Modular Temporary Containment

STARC® Systems has built a reputation for excelling where other containment options fall short. Faster to install than drywall and more durable than polycarbonate, STARC truly is "Containment Beyond Comparison."

Our best-in-class systems—RealWall™, LiteBarrier™ and FireblockWall™—are trusted by top healthcare facilities, contractors and industries in all 50 states and multiple countries. Whether you need noise blocking during your occupied renovation, negative air capability to prevent pathogens from spreading or fire-rated containment to keep everyone safe, STARC has an innovative containment solution that is great looking, easy-to-use and exceptionally durable.

# Multiple Solutions Offering an Unmatched Portfolio of Benefits

---

## Fast Installation

With simple lift-and-drop connections, our walls can be installed much faster than drywall and other competitors' products.

## Reusable & Waste Reducing

Our exceptionally durable systems can be reused and reconfigured on hundreds of jobs for years, reducing waste.

## Cost Savings

Systems pay for themselves after just 3 to 5 uses, virtually eliminating future containment costs.

## Superior Durability

Built to last, STARC's containment systems are the most durable in their market segment.

## Great Looking

With a sleek appearance, our attractive systems blend into the existing environment.

## One-Hour Fire-Rated

FireblockWall™ meets ASTM E119, ASTM E84, NFPA 241, and IBC requirements. Meets the latest ICRA Class V recommendation.

## Exceeds ASTM E84 Requirements

All of our systems have been tested and rated for ASTM E84 Class A performance for smoke and fire spread.

## Exceeds ICRA Class IV Requirements

All of our containment systems exceed ICRA Class IV requirements when installed properly.

# Containment 101

## See how STARC compares to other containment options.

Temporary containment is critical in keeping occupied environments safe, healthy, active and operational. It prevents dust and debris from spreading during renovations. It hides unsightly construction and blocks disruptive noises. It can even stop harmful pathogens and dangerous fires. While there are countless options for temporary containment, none compare to STARC.

# Products in Use

---

## **Containment solutions for any renovation job.**

STARC is eliminating the disruption of renovation at some of the biggest and busiest healthcare facilities and commercial sites across the country.

## Healthcare

Healthcare facilities must always provide a high level of care, even if they're undergoing renovations. That's why top hospitals and contractors in all 50 states trust STARC to protect patients and staff from construction dust and infectious pathogens.

All our great looking panels exceed ICRA Class IV requirements when installed properly and are easy to clean and sanitize. STARC eliminates renovation disturbances and improves patient satisfaction.

*"We want people to know we are using STARC walls and it's a superior ICRA product."*

### **FACILITY MANAGER**

Healthcare Project Executive  
DPR Construction

Abbott Northwestern Hospital

*“This is the best solution I have seen for keeping the patient population protected from noise, dust and any other potentially hazardous materials during renovations in a hospital environment.”*

**DANIELA SKALINA**

Superintendent  
Suffolk Construction

# Prepare. Isolate. Contain.

## Superior solutions to create surge capacity during infectious outbreaks.

Unprecedented healthcare challenges require innovative solutions. Only STARC provides healthcare organizations with the speed and flexibility to instantly create free-standing isolation rooms, negative air pressure rooms, anterooms and other isolation solutions. With STARC, you'll be ready to prevent the spread of harmful viruses and keep patients and healthcare workers safe. *See more on the next page.*

Exceeds ICRA Class IV requirements

Easily disinfected and sterilized

Quick and easy to install

Can be reconfigured and expanded

# Instant Infection Isolation Solutions

On-demand containment to create surge capacity using your existing facility space.

## Isolation rooms

Isolation rooms with windows for patient monitoring.

### Dimensions

9' 0" x 9' 6" with 8' height

Can be configured as needed

### Walls

Configurable with either RealWall™ or LiteBarrier™ panels

Extendable from 6' 10" to 10' 3"

Flexible Corners or T intersections as required

### Utility Wall Panel

Provides negative air and utility access

### Door

54" hinged door, optional transparent mid-glass or vision panel

## Emergency isolation anteroom

Suitable for donning and doffing.

### Dimensions

4' deep, 8' wide, extends from 6' 10" to 10' 3"

### Walls

Configurable with either RealWall™ or LiteBarrier™ panels

2 Flexible Corners, 15° to 90° rotation

2 Wall Interfaces

24" negative air panel

### Door

54" hinged door, optional transparent mid-glass or vision panel

## Emergency isolation hallway

Create large, negative air pressure environments.

### Dimensions

8' wide, extends from 6' 10" to 10' 3"

### Walls

Configurable with either RealWall™ or LiteBarrier™ panels

2 Wall Interfaces

24" negative air panel

Filler panel for halls greater than 8ft

### Door

54" hinged door, optional transparent mid-glass or vision panel

Oxford Networks

## Airports

There's always something to hide away at airports, whether it's the construction of new facilities, renovating passenger areas, or creating new spaces for staff. STARC Systems keeps unsightly and loud renovations away from travelers and can be easily moved to the next location and reused. Plus, clients can add custom graphics, information or advertising to our great looking panels.

## Data Centers

Just a little dust or debris can critically damage servers and destroy massive amounts of valuable data. So when renovations occur around technical equipment, STARC Systems is the clear containment solution. Whereas cage systems to separate servers are unsightly and allow dust and debris in, STARC panels look great and can create an airtight seal.

RealWall™ Pfizer Lobby

RealWall™

Verrill Dana Law Firm

RealWall™

University of Pittsburgh Scaife Hall

## Corporate Offices

Work must go on – even when there are renovations. That's why STARC is a great choice for corporate offices. Great looking panels are perfect for highly visible areas like lobbies and RealWall's ability to reduce noise by up to 50% helps construction go unnoticed by employees and clients. Because contractors can quickly, easily and quietly put up 100 feet of wall in under an hour, disruptions to day-to-day operations are minimal.

*"We know our STARC panels will last us for a number of years and we can use STARC on hundreds of projects."*

### JERRY BAKER

Executive Director of Construction  
W.E. Bowman Construction

WeWork Space

University of Michigan

Northeastern Library

## Life Sciences

Labs and research facilities contain sensitive – and sometimes dangerous – samples. This makes containing renovation dust and infection control a top priority, which makes STARC Systems the top choice for containment. All our panels exceed ICRA Class IV requirements, and our negative air panels can prevent contaminants moving from space to space.

## Education

Schools have a lot going on and it is sometimes necessary to do construction during the school year or to block off classrooms for renovation. STARC Systems allows for work to be done without disrupting the school day. Our systems are built to be rugged, stable and durable, so getting banged into by contractors, staff or students won't put a dent in them.

## Hospitality

Happy guests are the lifeblood of the hospitality industry. Ensuring that they aren't bothered by construction noise or dust from renovations is essential. Whether it's emergency construction or a longer-term project, STARC Systems allows work to occur out of sight without disrupting guests and staff.

## **The premier solution in sound blocking temporary containment.**

With the appearance and stability of a real wall, our original, award-winning containment solution is renowned for its unmatched durability and ability to reduce renovation noise by up to 50%. The great looking, high-gloss painted aluminum panels are easy to disinfect and exceed ICRA Class IV requirements. Need a containment solution to stand up to your most demanding projects? RealWall is the premier choice.

# STARC's RealWall™ System

## Less noise. More stable.

With its wide, stable base and rugged 3-layer construction consisting of a clean white aluminum front, sound attenuating foam core, and galvanized steel back, RealWall is the premier and only sound attenuating containment solution on the market.

\*Patent #US 10,041,249 B1

### PANEL CROSS-SECTION >

Lightweight  
Aluminum Front

Urethane  
Foam Core

Galvanized  
Steel Back

Multiple widths that offer unlimited configuration options.

# RealWall™ Fully Adjustable Panels

## Ceiling Grid Attachment Options

Fits standard, recessed and concealed grid tiles

## 360° T-Slot Attachment System

Unlimited attachment options for brackets, anchors and braces

## Concealed Height Locks

Hidden and cannot be jostled loose

## Galvanized Steel Back

Rugged surface that provides a secure safety barrier

## Dual Slots & Flanged Stud

A toolless lift and drop connection system allows 100' of airtight wall to be installed in an hour

Back

Front

## Top Gasket

Provides an airtight seal between the panel and ceiling

## Adjustable Height

Telescoping panels extend from 6' 10" to 10' 3"

## Lightweight Aluminum Front

Bright white, glossy surface can be easily disinfected and looks like a real wall

## Urethane Foam Core

Eliminates up to 50% of renovation noise

## Dual Bottom Gaskets

Provides superior grip, stability, and an airtight seal with the floor

## Anodized Aluminum Frame

Extremely rugged and durable

## Multiple Widths

Available in 12", 18", 24", 32" and 42" widths

# RealWall™ Fully Integrated Negative Air Panels

## Adjustable Height

Telescoping negative air panels extend from 6' 10" to 10' 3"

## Galvanized Steel Back

Rugged surface that provides a secure safety barrier

## Integrated Pressure Ports

Negative air port built into panel

## Standard Duct Collar

All panels come with a standard 12" duct collar with integrated adjustable shutter

## Front

## Multiple Widths

Available in 18", 24", 32" and 42" widths

## Optional Pressure Monitor

Comes ready to integrate a differential pressure monitor and accommodates all common data recorders

## Lightweight Aluminum Front

Bright white, glossy surface can be easily disinfected and looks like a real wall

## Anodized Aluminum Frame

Extremely rugged and durable

## Back

# RealWall™ Rugged Hinged & Sliding Doors

## Modular "Over the Door" Kit

Airtight flexible panels that seal from the top of the door to the ceiling

## Lock Options

Multiple lock options for varying levels of security

## Superior Hinge System

Allows for quick in/out and left/right adjustability

Sliding

Hinged

## Self-Closing Slider

The first and only sliding door on the market and it's self-closing

## Lightweight Aluminum Front

Bright white, glossy surface can be easily disinfected and looks like a real wall

## Anodized Aluminum Frame

Both doors are extremely rugged and durable

## Multiple Widths

Both doors are available in 42" and 54" widths

## Adjustable Threshold & Sweep

Allows for the installation of doors on uneven surfaces

**LiteBarrier™**

**The premier solution in  
lightweight temporary containment.**

STARC's LiteBarrier is the most durable, best looking, and easiest-to-install lightweight containment solution available.

# STARC's LiteBarrier™ System

## Lighter weight. Extra durable.

Like RealWall, LiteBarrier exceeds ICRA Class IV and ASTM E84 requirements. With a slim but rugged anodized aluminum frame, and fiberglass reinforced polymer panels that won't dent or scratch, LiteBarrier incorporates STARC's superior engineering into a lightweight, lower-cost containment solution that's backed by a 2-year warranty.

### PANEL CROSS-SECTION >

Fiberglass Reinforced  
Polymer Panel

## Multiple widths that offer unlimited configuration options.

# LiteBarrier™ Lightweight & Durable Panels

## Ceiling Grid Attachment Options

Fits standard, recessed and concealed grid tiles

## 360° T-Slot Attachment System

Unlimited attachment options for brackets, anchors and braces

## Concealed Height Locks

Hidden and cannot be jostled loose

## Durable Panels

Panels chemically fused to frame

## Anodized Aluminum Frame

Extremely rugged and durable

## Multiple Widths

Available in 12", 18", 24", 36" and 48" widths

## Lightweight

Weight ranges from 18 to 40lbs

## Adjustable Height

Telescoping panels extend from 6' 10" to 13'

## Fiberglass Reinforced Polymer Front

Durable, lightweight and will not scratch or dent

## Dual Slots & Flanged Stud

Simple toolless, knobless lift and drop connection

## Top & Bottom Gaskets

Provides airtight seals between the panel, ceiling and floor

# LiteBarrier™ Fully Integrated Negative Air Panels

## Adjustable Height

Telescoping negative air panels extend from 6' 10" to 10' 3"

## Durable Panels

Panels chemically fused to frame

## Integrated Pressure Ports

Negative air port built into panel

## Standard Duct Collar

12" duct collar with an adjustable shutter

Back

Front

## Fiberglass Reinforced Polymer Front

Durable, lightweight and will not scratch or dent

## Optional Pressure Monitor

Supports differential pressure monitor and common data recorders

## Air Diffuser

Prevents the high-volume airflow from disturbing dust on the floor

## Power Cord Passage

Makes it easy to integrate a power source

## Anodized Aluminum Frame

Extremely rugged and durable

## One Width

Available in a 24" width

# LiteBarrier™ Versatile Hinged Doors

## Modular "Over the Door" Kit

Airtight flexible panels that seal from the top of the door to the ceiling

## Fiberglass Reinforced Polymer Front

Durable, lightweight and will not scratch or dent

## Superior Hinge System

Allows for quick in/out and left/right adjustability

## Anodized Aluminum Frame

Extremely rugged and durable

## Multiple Widths

Available in 42" and 54" widths

## Lock Options

Multiple lock options for varying levels of security

## Adjustable Threshold & Sweep

Allows for the installation of doors on uneven surfaces

# Lightweight Containment Comparison

There are several options for lightweight containment, but only one clear cut choice. See how LiteBarrier stacks up against polycarbonate plastic systems and why it's the premier lightweight containment solution.

The image shows two containment systems side-by-side. On the left is the LiteBarrier system, which consists of two stacked rectangular frames made of thin metal or plastic. On the right is a polycarbonate system, which is a solid, opaque white wall. Behind the polycarbonate wall, a person wearing a blue hard hat and safety glasses is visible, looking at a tablet device.

## Accessories

---

No two job sites are the same. Each has its own characteristics, configuration, and requirements. It's why we've developed an unrivaled range of accessories and components that allow you to adapt to any environment and solve any containment challenge.

## Flexible Corner

### Containment Challenge

Irregular job site configurations or layouts that contain several peculiar angles or curved walls.

### STARC Solution

Flexible corners telescope with the panel, provide an airtight seal and can form inside or outside corners ranging from 15° to 90°. Using multiple flexible corners allows for the creation of curved walls.

**RealWall™**

**S1-FC**

**LiteBarrier™**

**LB-FC**

## Wall Interface

### Containment Challenge

Customizing temporary containment to create an airtight seal between the edge of the system and the wall or dealing with existing non-plumb walls.

### STARC Solution

Attaching to either the left or right side of the panel, the wall interface telescopes both horizontally and vertically to create an airtight seal, filling the gap between the panel's edge and the existing wall.

**RealWall™**

10' 3" Left: **S1-LWI**  
 10' 3" Right: **S1-RWI**  
 12' Left: **S1-LWI-12**

 10' 3" Right: **LB-RWI**  
 13' Left: **LB-LWI-13**  
 13' Right: **LB-RWI-13**

## Filler Panel

### Containment Challenge

Wall irregularities and obstacles like handrails or heating units that make it difficult to create an airtight seal.

### STARC Solution

Filler panels that can be easily customized in the field to fit around wall irregularities and then attached to a STARC panel to create an airtight seal.

#### RealWall™

10' 3": **S1-FP**  
12': **S1-FP12**

#### LiteBarrier™

10' 3" Right: **LB-RFP**  
13' Left: **LB-LFP-13**  
13' Right: **LB-RFP-13**

## Floor Brace

### Containment Challenge

Tall, open spaces that make attaching containment walls to a ceiling impractical.

### STARC Solution

Connecting via the panel's 360° attachment system, STARC floor braces provide two points of contact when ceiling attachments aren't possible.

*To keep panels secure and anchored in place, each floor brace must be anchored to the floor or attached to a 2" x 6" piece of wood that is then weighted down with multiple heavy objects such as sandbags.*

#### RealWall™

**S1-FPB**

#### LiteBarrier™

**LB-FPB**

## Ceiling Brace

### Containment Challenge

Ceilings that exceed standard heights, yet must be used to secure and anchor containment walls.

### STARC Solution

Ceiling braces extend 2' to 6' beyond the top of the telescoping panel to reach taller ceilings. One end easily connects to the panel's 360° attachment system and the other is securely anchored to the ceiling, providing the panel with stability.

#### RealWall™

24" Long: **S1-TB24**  
 36" Long: **S1-TB36**

 36" Long: **LB-TB36**  
 48" Long: **LB-TB48**  
 72" Long: **LB-TB72**

## Panel Cart

### Containment Challenge

Projects spanning multiple phases or locations and requiring the constant disassembling, storage, moving, and reassembling of containment walls.

### STARC Solution

Panel carts that safely, securely and easily transport and store up to 8 RealWall 42" panels (28 linear feet) or 14 LiteBarrier 48" panels (56 linear feet) and 24' of FireblockWall panels. They come standard with 5" locking, swivel casters and can be upgraded to 8" casters for easier handling across ramps and loading into trucks.

#### RealWall™

**S1-MC**

#### LiteBarrier™

**S1-MC**

## 'T' Intersection

### Containment Challenge

Job sites that require walls to go around corners or need multiple containment walls to connect at one point.

### STARC Solution

The 'T' Intersection allows for multiple panels to connect to each other at a 90° angle.

Left: **S1-OT-L**  
Right: **S1-OT-R**

Left: **LB-OT-L**  
Right: **LB-OT-R**

## Panel Top Air Duct

### Containment Challenge

Sensitive areas where a negative air environment is needed but renovation dust on the floor must be left undisturbed.

### STARC Solution

A ceiling exhaust port that vents air away from the floor to minimize disturbing dust and pathogens.

24" Wide: **S3-TAD-24**  
32" Wide: **S3-TAD-32**

LiteBarrier to RealWall Adapter

LiteBarrier to Polycarbonate Adapter

## LiteBarrier Adapters

### Containment Challenge

Situations where multiple containment products are being used, or when expanding existing containment inventory with another product.

### STARC Solution

Two specialized adapters: one that creates an airtight seal between LiteBarrier and RealWall and another that enables LiteBarrier to connect with polycarbonate systems.

**LB-S3**

**LB-PC**

NEW

**FireblockWall™**

## **Stops fire. Saves time.**

FireblockWall is the first of its kind reusable one hour fire-rated temporary containment system. It installs four times faster than drywall, saving time and money. It meets four industry fire codes, including the critical certification for a one-hour fire barrier – and it satisfies ICRA Class V guidelines. As the only safe and sustainable solution that can be used over and over, FireblockWall delivers unmatched performance and durability.

Meets ASTM E119,  
ASTM E84, NFPA 241,  
and IBC requirements.

# How It Works

Contractors and their crews love STARC® for its simple, intuitive and fast installation. FireblockWall™ offers that same ease of setup. With lift-and-drop connections and telescoping tracks, you can install fire-rated containment four times faster than drywall.

## STEP 1

Install floor, soffit and wall tracks

Soffit and Wall Tracks

Floor Track

## STEP 2

Place panels in tracks

Lift-and-Drop Connections

Uninstalled Panel

Installed Panel

## STEP 3

Close gaps with insulation

Fireblock Pillows

## STEP 4

Place and screw in covers along wall and soffit edges

Cover

# FireblockWall™ Panels

## One-hour fire-rated

Meets ASTM E119, ASTM E84, NFPA 241, and IBC requirements.

## Lift & Drop Assembly

Tongue and groove panels with T-slot connections allow for quick installation and an airtight seal between panels. No tools required.

## Proprietary Inner Core

Provides a certified one-hour fire rating and superior noise-blocking, with an STC rating of 40.

## Galvanized Steel

Provides extra durability and years of reuse.

## Extension Panels

When required, 6" or 12" filler panels can be added to larger panels to create additional height.

## Multiple Heights

Two standard heights: 92" or 104", which can accommodate 8' to 10' ceiling heights.

## Multiple Widths

Three standard widths: 6", 12" and 24".

## Exceeds ICRA Class IV and Meets ICRA Class V

Panel design and gaskets create airtight seals that contain dangerous dust, debris and pathogens. Meets NFPA 241 standards and pre-approved by HCAI.

## Powder Coated Surface

Attractive finish blends into existing environment. Surface is easy to clean and readily accepts vinyl graphics.

# FireblockWall™ Tracks

## Covers

Included powder-coated steel covers are placed and screwed in over soffit and wall tracks to create a smooth, finished surface.

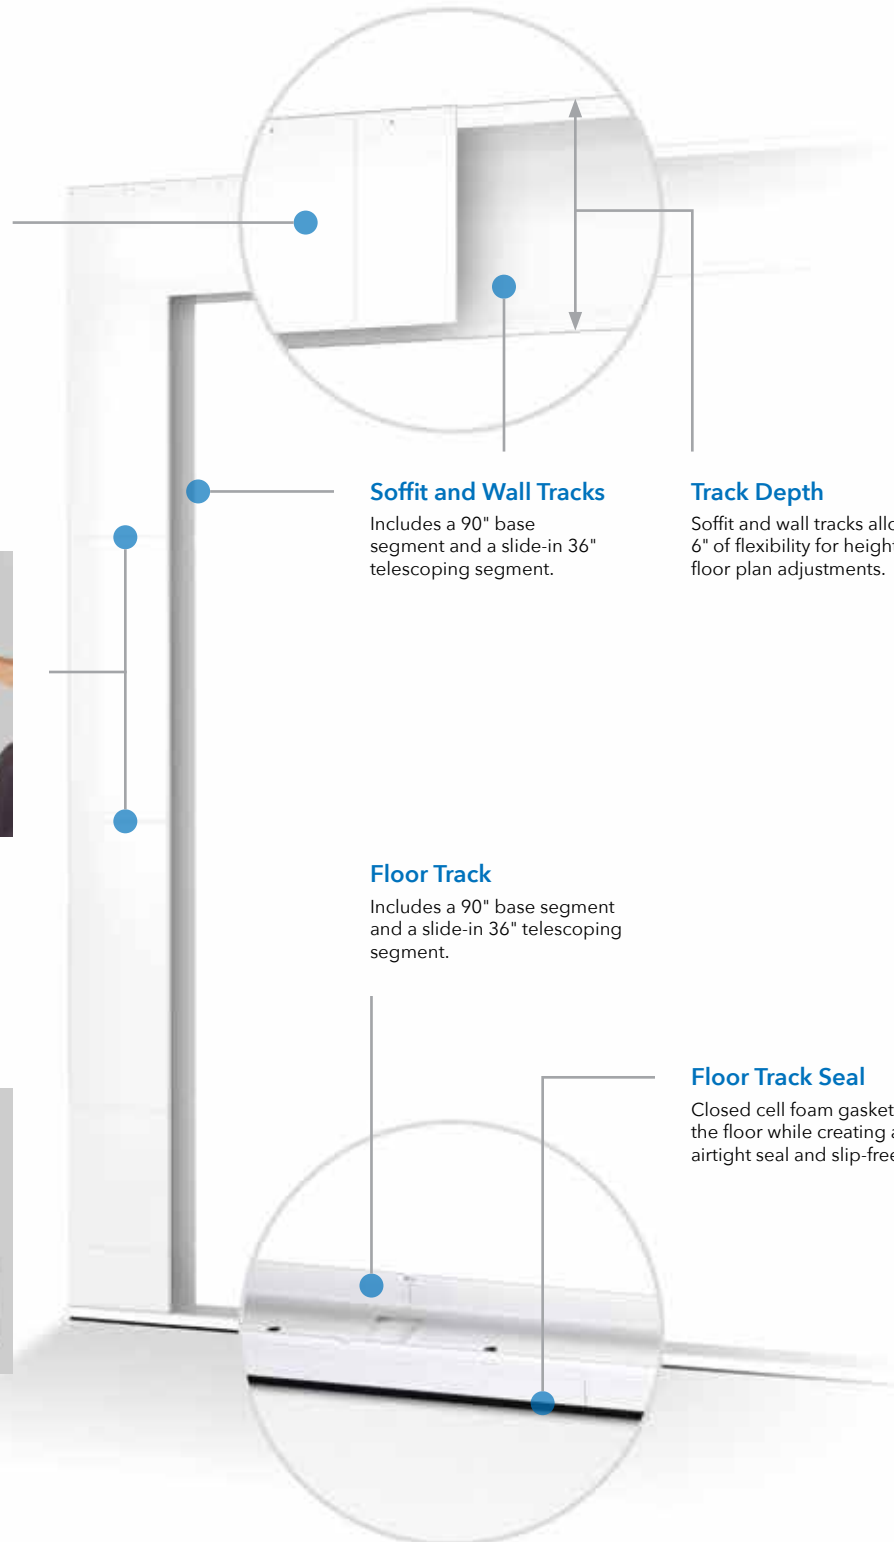

## Perforated Snip-Cuts

Soffit and wall and floor base segments include perforations to create customized lengths required by installation.

## Corner Tracks

Available for soffit and floor tracks, in 90-degree and 135-degree options.

## Soffit and Wall Tracks

Includes a 90" base segment and a slide-in 36" telescoping segment.

## Track Depth

Soffit and wall tracks allow 6" of flexibility for height and floor plan adjustments.

## Floor Track

Includes a 90" base segment and a slide-in 36" telescoping segment.

## Floor Track Seal

Closed cell foam gaskets protect the floor while creating an airtight seal and slip-free anchor.

# FireblockCap™

---

## Multiple Widths

Four standard cap widths:  
6", 12", 24" and 48".

## Ship Lap Joint

Ceiling tiles connect simply  
with ship lap joints completing  
airtight enclosure.

## Mounting Bracket

Ceiling tiles rest and fit snug  
to wall-mounted bracket.

## Lift & Slide Assembly

Like our panel connections,  
caps simply connect through  
tongue and groove design  
with T-slot connections. Quick  
installation. Airtight seal.  
No tools required.

## A game-changer for fast, and reusable one-hour fire barriers.

Create a fully certified and listed one-hour fire barrier "envelope" for your construction zone with FireblockCap. The simplest of three options that avoids the hassle and mess of duct work, wiring, and everything else below the deck.

# FireblockWall™ Negative Air & Air Monitoring Panels

## Panel Dimensions

Both Negative Air and Air Monitoring Panels are 24" wide and available in heights of either 92" or 104".

### Negative Air Panel

## Diffuser

Discharges air upward and sideways to limit disturbing harmful dust and debris on the floor.

## Fire-Rated Damper

Connect HEPA machine to 12" fire-rated damper to quickly create a negative air environment.

## Fusible Link

Designed for fire safety and certification, it automatically closes damper at 165 degrees.

## Universal Mounting Bracket

Accepts all standard air manometers and mounts directly to the 'public' or 'clean' side of the jobsite.

## Fire-Rated Wire Passthrough

Air Monitor panel includes a 2" pre-cut one-hour fire-rated wire passthrough.

### Air Monitoring Panel

# FireblockWall™ Doors

---

## Fire-Rated Door

Commercial steel door is certified for fire safety and provides clearance area 80" high and 39" wide. Door opens either left or right.

## Fire-Rated Closer

One-hour fire-rated Yale hinged closer.

## Fire-Rated Handles

Three options to fit your needs: Yale Lever handle, Schlage electronic keypad or Kaba mechanical push button entry lockset all available with interchangeable cores

## Door Frame Module

Standard 48" wide x 92" or 104" high module integrates into the wall system seamlessly.

# FireblockWall™ Corners and Accessories

## Fireblock Pillow (not shown)

Required for one-hour fire-rating, it fills gaps between panels, soffit and wall tracks.

## Two Corner Options

Our robust corner modules easily connect with the floor and top tracks to provide an attractive, airtight connection. Available in 90-degrees and 135-degrees.

## Tool Kit

Make installation fast and easy with (2) dual-cup vacuum handles, (1) roll of double-sided carpet tape, (40) foam pads, (100) #10 x 3/4" self-drilling screws, and (1) 5/32" T-Handle Allen Wrench.

## Grid Clips

Designed specifically for FireblockWall to allow you to hang soffit tracks from the ceiling grid.

Grid Clip: **FB-FGC, FB-FGC3**

Lateral Brace Clip: **FB-SLBC** (not shown)

Left Wall Interface	The extendable module creates a seal with the wall from 2 3/4" to 4 1/2"; 10'-3" max ht.	S1-LWI
Right Wall Interface	The extendable module creates a seal with the wall from 2 3/4" to 4 1/2"; 10'-3" max ht.	S1-RWI
Filler Panel Kit	Allows for a custom width wall interface, or use it to seal around wall protrusions like handrails; 10'-3" max ht.	S1-FP
In-line Filler Panel Kit	Allows for a custom width panel in-line between 2 wall modules; Includes 12" Coroplast material; 10'-3" max ht.	S3-IFP
Left 'T' Intersection	The module allows for a 90° mating of panels (white panel front shows to the left)	S1-OT-L
Right 'T' Intersection	The module allows for a 90° mating of panels (white panel front shows to the right)	S1-OT-R
Inside 'T' Connector Kit	Allows for additional connection & seal for an intersecting panel on the construction side	S3-IT
24" Panel Top Air Duct	A ceiling exhaust port for 24" negative air panels; Pressure ports not included	S3-TAD-24
32" Panel Top Air Duct	A ceiling exhaust port for 32" negative air panels; Pressure ports not included	S3-TAD-32
<b>HINGED DOORS</b>		
42" Hinged Door	42" W; Handleset & closer not included	S3-HD-42
42" Hinged Door with Schlage Lever Handleset	42" W; Schlage handleset & Yale closer	S3-HD-42H
42" Hinged Door with Schlage Electronic Handleset	42" W; Schlage electronic pushbutton handleset, key override & closer	S3-HD-42E
42" Hinged Door with KABA Mechanical Handleset	42" W; KABA mechanical pushbutton handleset, key override & closer	S3-HD-42M
42" Hinged Door with Crash Bar	42" W; Crash bar operator with key override & Yale closer	S3-HD-42CB
54" Hinged Door	54" W; handleset & closer not included	S3-HD-54
54" Hinged Door with Schlage Lever Handleset	54" W; Schlage handleset & Yale closer	S3-HD-54H
54" Hinged Door with Schlage Electronic Handleset	54" W; Schlage electronic pushbutton handleset, key override & closer	S3-HD-54E
54" Hinged Door with KABA Mechanical Handleset	54" W; KABA mechanical pushbutton handleset, key override & closer	S3-HD-54M
54" Hinged Door with Crash Bar	54" W; Crash bar operator with key override & Yale closer	S3-HD-54CB
<b>HINGED DOORS WITH GLASS</b>		
42" Hinged Door with Vision Panel	42" W; Vision panel, Schlage handleset & Yale closer	S3-HD-42H-VP
54" Hinged Door with Vision Panel	54" W; Vision panel, Schlage handleset & Yale closer	S3-HD-54H-VP

NAME	DETAILS	SKU
<b>12' HINGED DOORS</b>		
42" Hinged Door	42" W; Handleset & closer not included; 12' max ht.	S3-HD12-42
42" Hinged Door with Schlage Lever Handleset	42" W; Schlage handleset & Yale closer; 12' max ht.	S3-HD12-42H
54" Hinged Door	54" W; Handleset & closer not included; 12' max ht.	S3-HD12-54
54" Hinged Door with Schlage Lever Handleset	54" W; Schlage handleset & Yale closer; 12' max ht.	S3-HD12-54H
<b>SLIDING DOORS</b>		
42" Sliding Door with Deadlatch	42" W; ICU latch, locking deadlatch, key cylinder & thumb turn	S3-SD-42
42" Sliding Door with Adams Rite Electronic Lockset	42" W; ICU latch & Adams Rite electronic pushbutton entry lockset	S3-SD-42E
54" Sliding Door with Deadlatch	54" W; ICU latch, locking deadlatch, key cylinder & thumb turn	S3-SD-54
54" Sliding Door with Adams Rite Electronic Lockset	54" W; ICU latch & Adams Rite electronic pushbutton entry lockset	S3-SD-54E
<b>DOOR ACCESSORIES</b>		
Schlage Lever Handleset	Comes with a standard key cylinder & satin chrome finish	S3-SHS
SFIC Schlage Lever Handleset	Comes with a SFIC (BEST) cylinder configuration (key core not included) & satin chrome finish	S3-SHS-SFIC
KABA Mechanical Handleset	Hinged door KABA mechanical pushbutton entry handleset & key override	S3-H-MKEY
Schlage Electronic Handleset	Hinged door Schlage electronic pushbutton entry handleset & key override	S1-H-EKEY
<b>FLOOR, WALL, &amp; CEILING ANCHORING ACCESSORIES</b>		
Ceiling Grid Clip	9/16"-15/16" flush tile ceiling grid clip	S1-FGC
Angle Bracket	Floor/wall angle bracket	S1-FWB
Dual Nut Angle Bracket	Dual nut floor/wall angle bracket	S1-AB
5/8" Offset Bracket	5/8" offset drywall bracket & hardware	S1-BDW
Joiner Plate	Quad screw joiner plate	S1-JP
Interface Bracket	Panel top drywall interface bracket	S1-PTB
Floor Panel Brace	Braces panels to the floor when ceiling attachments are not possible	S3-FPB
24" Diagonal Brace	24" long panel top diagonal brace	S1-TB24
36" Diagonal Brace	36" long panel top diagonal brace	S1-TB36
48" Diagonal Brace	48" long panel top diagonal brace	S1-TB48
72" Diagonal Brace	72" long panel top diagonal brace	S1-TB72
