**Responses to Vendor Questions**

**27 April 2023**

---

**Q:** Do you know if the doors open accordion style or lift up as one? What is the surface of the building?

**A:** They open accordion style. The surface is painted metal.

**Q:** Corrugated verticals? What is the spacing? Are they smooth or rivets or metal screws?

**A:** Yes. Each panel is 27ft wide and consists of a smooth corrugated metal with shallow valleys running vertically.

**Q:** Which direction do the hanger doors face in which we'd' be working? (south facing? ) -The contractor times to work are 7 am to 4:30 pm. Would there be any time earlier or later ( summer heating up the metal walls )

**A:** They face in a north west direction.
