MEMORANDUM FOR 82 CONS/PKA

FROM: 364 TRS/CC

SUBJECT: Sole Source Justification

**1. Description of the Supplies/Services:** Hammonds Model AC800-2L-1P7-1P7 Cart-Mounted Additive Injection System.

**2. Efforts to Obtain Competition:** 364 TRS/TTF has contacted three companies to purchase equipment. After a review of possible vendors, Hammonds is the confirmed source for the needed additive injector.

**3. Market Research:** Hammonds is the sole known company with a Cart-Mounted additive injection system meeting specifications of Technical Order (TO) 42B-1-1. We were not successful in finding an alternate commercial solution meeting T.O. requirements. Market research determined that Hammonds Technical Services, Inc. is currently the sole provider of the Model AC800-2L-1P7-1P7 Cart-Mounted Additive Injection System.

**4. Other Factors:** By purchasing the Additive Injector from Hammonds, the Fuels Training Schoolhouse can achieve new outside learning objectives to support the re-developed Quality Control course. Portability of this item is a major advantage because it eliminates the need for a forklift. No alternative commercial solutions are available that meet these specifications.

**5. A Statement Of The Actions, If Any, The Agency May Take To Remove Or Overcome Any Barriers To Competition Before Making Subsequent Acquisitions For The Supplies Or Services Required.** To ensure compatibility and continuity of the product currently utilized, it is in the Government's best interest to reserve this requirement for the Hammonds brand name.
