B-1 STATEMENT OF WORK (SOW)

SCOPE OF WORK

Services are for inspecting, testing, washing (cleaning), drying, repair of any hoses that are deemed repairable and rolling of Federal Government fire hoses. This includes coupling failure, or any hose that has a jacket failure within the allotted 10 feet from the end of the hose (making the hose still serviceable after repair, per NFES standards) for a 5 Year period (Base + 4 Option Years) beginning the Date of Award and ending **June 30, 2028**.

CONTRACTOR OBLIGATIONS

Contractor shall pickup hose within 24 hours of verbal (phone or text) or email. Contractor shall furnish an adequate facility and on-site supervision to meet delivery and production schedules, regardless of weather conditions or seasonal norms. Contractor shall furnish all labor, transportation, equipment, materials, supplies, and incidentals necessary to perform the services contained in this contract. Contractor shall submit Quality Control reports which verify the quality of each service CLIN completed.

Contractor shall pick up hose to be treated at the Redmond Air Center (RAC), 1740 SE Ochoco Way, Redmond Oregon 97756, service the hose at Contractor's site and return the serviced hose to the Redmond Air Center.

Pick up and return of fire hose shall normally be made during the hours of 8:00 a.m. and 3:00 p.m., Monday through Sunday or as agreed at the time the service order is placed.

SERVICE ORDERING PROCEDURES

The Contracting Officer Representative (COR) shall order services to be performed via email and or phone call to contractor in accordance with FAR 52.216-18(d), Ordering.

Orders shall state the following:

- Date Services Required
- Item Numbers
- Description of Hose
- Quantity
- Unit Price
- Total Price

All phone call service orders will be followed up with an email from COR to contractor stating services required.

GOVERNMENT OBLIGATIONS

Hoses will be rolled, sorted by incident, and placed on pallets by the Government for Contractor to pick up.

The Government will provide to the Contractor gaskets and either hose pallets or shipping pallets for all hose to be returned on.

HOSE TO BE SERVICED

Hose to be serviced includes:

- a) 1 inch x 100-foot Synthetic Type I (NFES 001238)
- b) 1 ½ inch x 100-foot Synthetic Type I (NFES 001239)
- c) 1 inch x 100-foot Synthetic Type II (NFES 000932)
- d) 1 ½ inch x 100-foot Synthetic Type II (NFES 000933)

INSPECTING/TESTING HOSE

Note: Contractor shall submit an annual certificate that the gauges used to test fire hose pressure are accurate and in accordance with industry standards and as identified in the Water Handling Equipment Guide and as identified in the Fire Equipment Storage and Refurbishing Standards Guide.

Prior to testing, Contractor shall visually inspect the hose for obvious burns, cuts, and crooked or damaged couplings. If any defects are found, the hose shall be determined unserviceable. If the hose is determined visually acceptable, Contractor shall inspect for gaskets and replace as necessary prior to putting the hose under pressure.

Hose shall be tested at 300 psi and held for a minimum of three (3) minutes. Hose which contains any of the following indicators during or after the test shall be deemed unserviceable:

- Pin holes
- Wet spots on hose or ground
- Leaks between hose and coupling
- Leaks at swivel or coupling
- Crooked or damaged couplings
- Bulges on the hose
- Hose liner visible
- Coupling slippage
- Separation of inner lining from jacket

Hose determined unserviceable shall be labeled with Fire Incident information and returned as specified herein.

WASHING (CLEANING) FIRE HOSE

Defined as washing by which the removal of all debris, foreign material and dirt is accomplished in accordance with the Water Handling Equipment Guide, PMS 447-1, June 2013, <https://www.fs.fed.us/t-d/pubs/pdfpubs/pdfWHEG13/WHEG13.pdf> and the Fire Equipment Storage and Refurbishing Standards, PMS 448, MARCH 2018 <https://www.nwcg.gov/publications/pms448>

DRIED FIRE HOSE

Will be determined using a construction type moisture meter, (measures percentage of moisture content), using the wood setting to ensure that the hose returned is dry. The acceptable percentage range will be less than 17%.

REPAIR FIRE HOSE (OPTIONAL)

Repair work will be done using a hydraulic expanding machine, with new tail gaskets and expansion rings. The existing hose couplers will be re-used. Repaired hoses will then go through pressure testing to ensure quality control.

Related services will include, identifying repairable hoses that meet NFES standards, repairing identified hoses, quality control, and keeping a written log of hoses repaired and the incidents they came from.

Repaired hoses that pass testing/quality control will be identified as such, segregated from all other refurbished hose and shipped back with their respective lots.

Repaired hoses that do not pass testing will be deemed unserviceable, and the government will not incur any additional charges for these hoses. Only hoses repaired, tested, and brought back into service will be charged to the government (some hoses may require repair at both ends). Expansion rings recovered from coupling repair will be sent back to cache with each hose lot.

ROLLING FIRE HOSE

All hose that the Contractor has received for service shall be rolled as follows when being returned:

A. Serviceable Hose:

Hose shall be rolled individually with **the male fitting located in the center of the roll and the female fitting on the outside of the roll.**

Hose shall be rolled to the following dimensions:

- Synthetic Type I and Type II hose shall be rolled to a maximum diameter of 18 inches.

Rolled, serviceable hose shall be secured with two (2) bands of one half (½) inch polypropylene strapping material approximately **180 degrees apart from each other**. The first band shall be located not more than three (3) inches behind the female fitting.

The hose will be stacked uniformly and in a way that enables the Government to easily count and shall be documented. (See example pictures in attachment #4) Government will approve Contractor documentation sample at pre-work meeting.

B. Unserviceable Hose:

Hose shall have both couplings removed/cut off and rolled.

- Couplings will be boxed up and returned to RAC. This includes the rubber bands that secure dirty rolled hoses and pallets.

Hose shall be rolled to the following dimensions:

- Synthetic Type I and Synthetic Type II hose shall be rolled to a maximum diameter of 18 inches.

Rolled, unserviceable hose shall be secured with two (2) banded at 180 degrees apart from the center of the hose. The hose will be stacked uniformly and in a way that enables the Government to count and identify incidents easily, i.e., separating each layer that is a different incident by cardboard and tagging by

incident and quantity (as related to that incident) of surveyed hose. Additionally, each stack shall not exceed 20 lengths per stack.

RETURNING SERVICED HOSE TO GOVERNMENT

Fire hose returned to RAC shall be placed on pallets and shrink wrapped tightly so that it is ready for shipment. The hose shall be placed with the female end pointed to the center of the pallet. Each pallet of serviceable hose shall contain only one type and size of hose and be stacked on hose pallets provided by the government. Each pallet shall not exceed the maximum number of rolled hose as shown below:

- 1-inch Synthetic Type I = 6 stacks of 17 rolls and 3 stacks of 16. (Hose Pallet)
- 1 ½ inch Synthetic Type I = 9 stacks of 11 with 1 on the side. (Hose Pallet)
- 1-inch Synthetic Type II = 6 stacks of 17 lengths with 18 lengths placed sideways in the middle. (Shipping Pallet)
- 1 ½ inch Synthetic Type II = 6 stacks of 13 lengths with 18 lengths placed sideways in the middle. (Shipping Pallet)

All stacks of serviceable hose shall be stacked as shown in the sample pictures (See Attachments). Serviceable hose returned for other National Interagency Support Caches (NISC) will be stacked as identified by the COR. All stacks of the unserviceable hose shall have the male fittings lined up and pointing towards the corner of the pallet. Hose that has been recoupled will be identified and segregated from all other serviceable hose, either by a cardboard layer on hose pallets or stacked on a dedicated pallet. **On return, only unserviceable hose needs to be labeled by incident.**

Pallets with less than the maximum quantity of hose shall be designated as “partial pallets” and shall be arranged in the same manner as a full pallet.

INSPECTION AND ACCEPTANCE

Performance shall be inspected by the Contracting Officer’s Representative (COR) or his designated inspector in accordance with FAR Clause 52.212-4 (a), Contract Terms and Conditions-Commercial Products and Commercial Services (Dec 2022) Inspection/Acceptance.

DOCUMENTAION AND INVOICING

All hose will be counted and recorded by the Government on a service order form prior to pick up by the Contractor for individual lots. The returned order shall serve as the invoice for the payment of the service Order. Any discrepancies in the count shall be reported to the Contracting Officer Representative (COR) or their Designated Representative prior to processing the lot.

**BOTH THE GOVERNMENT AND CONTRACTOR WILL SIGN THE SERVICE ORDER
CONCURRING AS TO THE QUANTITIES PICKED UP AND/OR DELIVERED.**

PERFORMANCE RATE

The minimum production rate for each service order is 400 lengths of hose per calendar day, regardless of weather conditions or seasonal norms. Pick-up and Delivery days are not counted towards the minimum production rate.

Order Limitations (Oct 1995)

(b) *Maximum order.* The Contractor is not obligated to honor-

(1) Any order for a single item in excess of **\$40,000.00**.

(2) Any order for a combination of items in excess of **\$200,000.00**, or

(3) A series of orders from the same ordering office within **sixty (60)** days that together call for quantities exceeding the limitation in paragraph (b) (1) or (2) of this section.

(c) If this is a requirements contract (*i.e.*, includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.

(d) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within **ten (10)** days after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

52.216-21 Requirements.

As prescribed in [16.506](#)(d), insert the following clause:

Requirements (Oct 1995)

(a) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(c) Except as this contract otherwise provides, the Government shall order from the Contractor all the supplies or services specified in the Schedule that are required to be purchased by the Government activity or activities specified in the Schedule.

(d) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(e) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(f) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; *provided*, that the Contractor shall not be required to make any deliveries under this contract after 06/30/2028.

(c) The estimated quantities are not the total requirements of the Government activity specified in the Schedule, but are estimates of requirements in excess of the quantities that the activity may itself furnish within its own capabilities. Except as this contract otherwise provides, the Government shall order from the Contractor all of that activity's requirements for supplies and services specified in the Schedule that exceed the quantities that the activity may itself furnish within its own capabilities.

(g) The requirements referred to in this contract are for items to be manufactured according to Government specifications. Notwithstanding anything to the contrary stated in the contract, the Government may acquire similar products by brand name from other sources for resale.

(c) The Government's requirements for each item or subitem of supplies or services described in the Schedule are being purchased through one non-set-aside contract and one set-aside contract. Therefore, the Government shall order from each Contractor approximately one-half of the total supplies or services specified in the Schedule that are required to be purchased by the specified Government activity or activities. The Government may choose between the set-aside Contractor and the non-set-aside Contractor in placing any particular order. However, the Government shall allocate successive orders, in accordance with its delivery requirements, to maintain as close a ratio as is reasonably practicable between the total quantities ordered from the two Contractors.

(c) The Government's requirements for each item or subitem of supplies or services described in the Schedule are being purchased through one non-set-aside contract and one set-aside contract. Therefore, the Government shall order from each Contractor approximately one-half of the total supplies or services specified in the Schedule that are required to be purchased by the specified Government activity or activities. The Government may choose between the set-aside Contractor and the non-set-aside Contractor in placing any particular order. However, the Government shall allocate successive orders, in accordance with its delivery requirements, to maintain as close a ratio as is reasonably practicable between the total quantities ordered from the two Contractors.

(g) The requirements referred to in this contract are for items to be manufactured according to the Government specifications. Notwithstanding anything to the contrary stated in the contract, the Government may acquire similar products by brand name from other sources for resale.

As prescribed in [17.208](#)(f), insert a clause substantially the same as the following:

Option to Extend Services (Nov 1999)

The Government may require continued performance of any services within the limits and at the rates specified in the contract. These rates may be adjusted only as a result of revisions to prevailing labor rates provided by the Secretary of Labor. The option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed 6 months. The Contracting Officer may exercise the option by written notice to the Contractor within **(30) calendar days**.

52.217-9 Option to Extend the Term of the Contract.

As prescribed in [17.208](#)(g), insert a clause substantially the same as the following:

Option to Extend the Term of the Contract (Mar 2000)

(a) The Government may extend the term of this contract by written notice to the Contractor within **30 calendar days**; provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least **60 calendar days** before the contract expires. The preliminary notice does not commit the Government to an extension.

(b) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed **five (5) years**.

52.252-4 Alterations in Contract.

As prescribed in [52.107](#)(d), insert the following clause in solicitations and contracts in order to revise or supplement, as necessary, other parts of the contract, or parts of the solicitation that apply after contract award, except for any clause authorized for use with a deviation. 52.209-5 Certification Regarding Responsibility Matters.

As prescribed in [9.104-7\(a\)](#), insert the following provision:

Certification Regarding Responsibility Matters (Aug 2020)

- (a) (1) The Offeror certifies, to the best of its knowledge and belief, that—
 - (i) The Offeror and/or any of its Principals—
 - (A) Are ☐ are not ☐ presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;
 - (B) Have ☐ have not ☐, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the

submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property (if offeror checks "have", the offeror shall also see [52.209-7](#), if included in this solicitation);

(C) Are ☐ are not ☐ presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in paragraph (a)(1)(i)(B) of this provision;

(D) Have ☐, have not ☐, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at [9.104-5](#)(a)(2) for which the liability remains unsatisfied.

(1) Federal taxes are considered delinquent if both of the following criteria apply:

(i) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(ii) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(2) *Examples.*

(i) The taxpayer has received a statutory notice of deficiency, under I.R.C. § 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(ii) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. § 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

Evaluation—Commercial Products and Commercial Services (Nov 2021)

- (a) The Government will review quotes received to determine if they are acceptable to the requirements. An acceptable quote is one that meets all terms, conditions, and specifications in the solicitation. The Offeror must provide all documents listed and comply with all quotation instructions for their quote to be considered “acceptable” to this solicitation. Only acceptable quotes will be evaluated for award. An evaluation will be conducted for each Offeror’s quote using the following criteria:
- (1) Quote Acceptability. This factor will be assessed as acceptable or not acceptable for the following subfactors:
- (i) Assent to terms of the solicitation. Your quote must assent to all terms of this request for quote and you must provide all information requested. Your quote will receive an acceptable or not acceptable rating if you take exception to any term of this solicitation.
- (ii) Technical Capability. The Technical Acceptability evaluation provides an assessment of the offeror’s capability to satisfy the Government’s requirement. The evaluation will focus on whether the offeror’s quote meets or does not meet the Government’s requirements. ***Offerors must receive a “Go” rating for the Technical Capability in both Technical and Business sections to be considered for award.*** Quotes not demonstrating Technical Capability with similar size and scope described in this solicitation will receive a no go rating for this subfactor.
- (iii) Experience. The Government will evaluate contractor’s prior work experience of a similar nature, scope, complexity, and difficulty to that which will be performed under the prospective effort.
- (iv) Past Performance. Past performance is a measure of the degree to which you, as a business and organization, have satisfied your customers in performing services like those contemplated in this solicitation. The Government will evaluate your past performance and provide a go or no go rating based on the following:
- Acceptable rating-
- Past performance that met contractual requirements or contained some minor problems for which corrective actions taken by the contractor appear or were satisfactory.
 - Quoters without a record of relevant past performance or for whom information on past performance is not available will receive a “Go” (**neutral**) rating for this evaluation factor.
- Not Acceptable rating –
- Past performance that did not meet contractual requirements or contained problems for which corrective actions taken by the contractor were not fully implemented or were unsatisfactory dependability risk.
- (2) Price. Price evaluation will be performed on all Offerors Pricing in accordance with FAR 52.212-

1 Instructions to Offerors-Commercial Products and Commercial Services. Quotations will be ranked from lowest to highest price based on the Total Evaluated Price (TEP) based on the Government's estimated requirement for each CLIN.

(b) Basis of Award

- (1) The Government intends to award a contract that meets incident resource needs resulting from this solicitation to responsible offeror's whose quotes conforming to the solicitation will be most advantageous to the Government.
- (2) Contract will be awarded only to offeror's with:
 - (i) an overall acceptable, go rating
 - (ii) price that is determined fair and reasonable

Reasonableness: Prices are reasonable in comparison to estimates, prior prices paid, and competition and can be supported by suitable estimating techniques. If a price is unreasonably low to realistically perform the work for the proposed price, the offer will not be considered in the competitive range and will not be considered for award.

Options. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

As part of price evaluation, the Government will evaluate its option to extend services (see FAR Clause 52.217-8) by adding one-half of the offeror's final option period price to the offeror's total price. Thus, the offeror's total price for the purpose of evaluation will include the **base period, first option year, second option year, third option year and fourth option year, and one half of the fourth option year.** Offerors are not required to enter a price for the six-month extension period.

(1) ☐ Are, ☐ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency ;

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

- (ii) *Examples.* (A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).
