In the spaces above, provide the name of all known suppliers of the required product, preferably a minimum of three manufacturers. (Although the purchasing office maintains a list of sources, it is best to provide sources you know meet your requirements so that valuable time is not wasted in soliciting and evaluating offers from companies who can't meet your needs. 5. Lack of prior planning does not support urgency. Please provide a time-line beginning on the date the need was first identified and ending on the date the requisition was submitted to the Purchase Branch. Why is the claimed "urgency" not the result of a lack of advanced planning?

The current DDG Maintenance Cycle is based on CMAV Availabilities. Material availability is a primary factor for identifying maintenance that gets scheduled. Ships force identified the condition while conducting Planned Maintenance. Ships Force attempted to repair the equipment using the Damage Control Technician on board. When that effort was not successful, the Damage Control Assistant notified the Port Engineer (23 JUL23) and the 21 Inch Escape Scuttle was scheduled for the soonest possible availability. (4A1) (18DEC23) the Project Team Planned the Work and with a manufacture quote, identified this equipment as Long Lead Time Material. (8/15/23) Request was made to purchase the 21 Inch Ballistic Escape Scuttle. Material. The Port Engineer provided funding, (8/31/2023)

6. Only our **minimum current** requirements can be purchased under conditions of urgency. What is the minimum quantity that must be obtained by the RDD? Why can't *some* of the total required quantity be procured under urgency while procuring the remaining items/services through the normal procurement process?

One Each 21 Inch Ballistic Escape Scuttle
