DLA Energy is seeking to increase Small Business participation in our solicitations. For this solicitation, an estimated 21.87% of the fuel quantity is set-aside for small business concerns. If you are a designated small business in accordance with FAR 52.212-1, please ensure your System for Award Management (SAM) designation is correct.

This solicitation is available on the World Wide Web <https://www.sam.gov>. **Please be advised that a hard copy of the solicitation will not be available until January 2023.** DLA Energy will be using the Bulk Offer Entry Tool (OET) for this Procurement. The usage of the Bulk OET is mandatory. The Bulk OET will allow Offerors to electronically submit and sign their offer (including the SF1449).

All responsible sources may submit a proposal which shall be considered.

Period of Performance:

One year

Place of Performance:

Rocky Mountain/West Coast/Offshore locations
