(viii) 52.212-1 Instructions to Offerors – Commercial Products and Commercial Services (MAR 2023) (Provision)

Addenda to Provision 52.212-1 paragraph (b) Submission of Offers:

1) Offerors must have an active entity registration in the System for Award Management to submit an offer. <https://www.sam.gov/SAM/>

2) Quotes submitted in response to this solicitation shall include a technical proposal, a price proposal, and contractor representations and certifications.

a) Technical Proposal – The technical proposal shall address the evaluation factors in 52.212-2. You may complete Attachment 4 – Experience Questionnaire, as your technical proposal. At a minimum technical proposal shall include:

i) Past Performance – provide a list of similar projects completed by your firm over the past three years. Include a brief description of the project, dollar amount, year completed, and project owner contact information (name, phone, and email). The government may use past performance information from any available source. If a company does not have past performance information available, information may be provided for predecessor companies, key personnel, or subcontractors. In the event that there is no past performance information available, the offeror will receive a neutral rating in this factor.

ii) Technical Capability – Provide a list of equipment and key personnel (with qualifications) being used to complete the scope of work, including how the equipment and personnel are utilized to meet the specified period of performance.

b) Price Proposal – Include the following: 1) the completed Schedule of Items from Section B of this solicitation, and 2) acknowledgement of any amendments to this solicitation by following the instructions that accompany the amendment(s).

c) Representations and Certifications – Fill in the check boxes for provisions 52.204-24, 52.212-3, and Employment of Eligible Workers-Workforce Certification found in paragraph x of this solicitation and include a copy with your offer.

3) Submit offer by email to erik.fallo@usda.gov so that it is delivered into this inbox by the due date and time. Emails should contain 3 separate attachments (Technical Proposal, Price Proposal, and Representations and Certifications) in Microsoft Word, Excel, or Adobe PDF format. Be aware that large attachments may increase the time required to deliver an email. It is the offerors responsibility to confirm receipt of the offer from erik.fallo@usda.gov.

4) Address questions about this solicitation to Erik Fallo at erik.fallo@usda.gov.

**(ix) 52.212-2 Evaluation – Commercial Products and Commercial Services (NOV 2021)
(Provision)**

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. Award determination will be conducted IAW FAR 15.101-2, LPTA. The following factors shall be used to evaluate offers:

Past Performance/Technical Capability
Price

Technical and past performance, when combined, are equal to price. A determination of fair and reasonableness will be conducted IAW FAR 13.106-3(a).

(b) *Options*. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(x) Representations and Certifications (complete highlighted items in this section and return with your offer)

52.204-24 Representation Regarding Certain Telecommunications and Video Surveillance Services or Equipment (NOV 2021) (Provision)

The Offeror shall not complete the representation at paragraph (d)(1) of this provision if the Offeror has represented that it "does not provide covered telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument" in paragraph (c)(1) in the provision at 52.204-26, Covered Telecommunications Equipment or Services—Representation, or in paragraph (v)(2)(i) of the provision at 52.212-3, Offeror Representations and Certifications-Commercial Products or Commercial Services. The Offeror shall not complete the representation in paragraph (d)(2) of this provision if the Offeror has represented that it "does not use covered telecommunications equipment or services, or any equipment, system, or service that uses covered telecommunications equipment or services" in paragraph (c)(2) of the provision at 52.204-26, or in paragraph (v)(2)(ii) of the provision at 52.212-3.

(a) Definitions. As used in this provision—

Backhaul, covered telecommunications equipment or services, critical technology, interconnection arrangements, reasonable inquiry, roaming, and substantial or essential component have the meanings provided in the clause 52.204-25, Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment.

(b) Prohibition. (1) Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. Nothing in the prohibition shall be construed to—

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(2) Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2020, from entering into a contract or extending or renewing a contract with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. This prohibition applies to the use of covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract. Nothing in the prohibition shall be construed to—

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(c) Procedures. The Offeror shall review the list of excluded parties in the System for Award Management (SAM) (<https://www.sam.gov>) for entities excluded from receiving federal awards for "covered telecommunications equipment or services".

(d) Representation. The Offeror represents that—

(1) It will, will not provide covered telecommunications equipment or services to the Government in the performance of any contract, subcontract or other contractual instrument resulting from this solicitation. The Offeror shall provide the additional disclosure information required at paragraph (e)(1) of this section if the Offeror responds "will" in paragraph (d)(1) of this section; and

(2) After conducting a reasonable inquiry, for purposes of this representation, the Offeror represents that—

It does, does not use covered telecommunications equipment or services, or use any equipment, system, or service that uses covered telecommunications equipment or services. The Offeror shall provide the additional disclosure information required at paragraph (e)(2) of this section if the Offeror responds "does" in paragraph (d)(2) of this section.

(e) Disclosures. (1) Disclosure for the representation in paragraph (d)(1) of this provision. If the Offeror has responded "will" in the representation in paragraph (d)(1) of this provision, the Offeror shall provide the following information as part of the offer:

(i) For covered equipment—

(A) The entity that produced the covered telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the original equipment manufacturer (OEM) or a distributor, if known);

(B) A description of all covered telecommunications equipment offered (include brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); and

(C) Explanation of the proposed use of covered telecommunications equipment and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

(ii) For covered services—

(A) If the service is related to item maintenance: A description of all covered telecommunications services offered (include on the item being maintained: Brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); or

(B) If not associated with maintenance, the Product Service Code (PSC) of the service being provided; and explanation of the proposed use of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

(2) Disclosure for the representation in paragraph (d)(2) of this provision. If the Offeror has responded "does" in the representation in paragraph (d)(2) of this provision, the Offeror shall provide the following information as part of the offer:

(i) For covered equipment—

(A) The entity that produced the covered telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the OEM or a distributor, if known);

(B) A description of all covered telecommunications equipment offered (include brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); and

(C) Explanation of the proposed use of covered telecommunications equipment and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(2) of this provision.

(ii) For covered services—

(A) If the service is related to item maintenance: A description of all covered telecommunications services offered (include on the item being maintained: Brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); or

(B) If not associated with maintenance, the PSC of the service being provided; and explanation of the proposed use of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(2) of this provision.

- (9) 52.226-6, Promoting Excess Food Donation to Nonprofit Organizations (Jun 2020) (42 U.S.C. 1792).

(d) Comptroller General Examination of Record. The Contractor shall comply with the provisions of this paragraph (d) if this contract was awarded using other than sealed bid, is in excess of the simplified acquisition threshold, as defined in FAR 2.101, on the date of award of this contract, and does not contain the clause at 52.215-2, Audit and Records-Negotiation.

(1) The Comptroller General of the United States, or an authorized representative of the Comptroller General, shall have access to and right to examine any of the Contractor's directly pertinent records involving transactions related to this contract.

(2) The Contractor shall make available at its offices at all reasonable times the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR subpart 4.7, Contractor Records Retention, of the other clauses of this contract. If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement. Records relating to appeals under the disputes clause or to litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are finally resolved.

(3) As used in this clause, records include books, documents, accounting procedures and practices, and other data, regardless of type and regardless of form. This does not require the Contractor to create or maintain any record that the Contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(e) (1) Notwithstanding the requirements of the clauses in paragraphs (a), (b), (c), and (d) of this clause, the Contractor is not required to flow down any FAR clause, other than those in this paragraph (e)(1), in a subcontract for commercial products or commercial services. Unless otherwise indicated below, the extent of the flow down shall be as required by the clause-

(2) While not required, the Contractor may include in its subcontracts for commercial products and commercial services a minimal number of additional clauses necessary to satisfy its contractual obligations.

(xiii) Additional Requirements/Terms and Conditions:

Clauses:

52.204-9 Personal Identity Verification of Contractor Personnel (JAN 2011)

52.204-13 System for Award Management Maintenance (OCT 2018)

52.204-18 Commercial and Government Entity Code Maintenance (AUG 2020)

52.204-21 Basic Safeguarding of Covered Contractor Information Systems (NOV 2021)

(a) Definitions. As used in this clause—

“Covered contractor information system” means an information system that is owned or operated by a contractor that processes, stores, or transmits Federal contract information.

“Federal contract information” means information, not intended for public release, that is provided by or generated for the Government under a contract to develop or deliver a product or service to the Government, but not including information provided by the Government to the public (such as on public websites) or simple transactional information, such as necessary to process payments.

“Information” means any communication or representation of knowledge such as facts, data, or opinions, in any medium or form, including textual, numerical, graphic, cartographic, narrative, or audiovisual (Committee on National Security Systems Instruction (CNSSI) 4009).

“Information system” means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information ([44 U.S.C. 3502](#)).

“Safeguarding” means measures or controls that are prescribed to protect information systems.

(b) Safeguarding requirements and procedures.

(1) The Contractor shall apply the following basic safeguarding requirements and procedures to protect covered contractor information systems. Requirements and procedures for basic safeguarding of covered contractor information systems shall include, at a minimum, the following security controls:

(i) Limit information system access to authorized users, processes acting on behalf of authorized users, or devices (including other information systems).

(ii) Limit information system access to the types of transactions and functions that authorized users are permitted to execute.

(iii) Verify and control/limit connections to and use of external information systems.

(iv) Control information posted or processed on publicly accessible information systems.

- (v) Identify information system users, processes acting on behalf of users, or devices.
 - (vi) Authenticate (or verify) the identities of those users, processes, or devices, as a prerequisite to allowing access to organizational information systems.
 - (vii) Sanitize or destroy information system media containing Federal Contract Information before disposal or release for reuse.
 - (viii) Limit physical access to organizational information systems, equipment, and the respective operating environments to authorized individuals.
 - (ix) Escort visitors and monitor visitor activity; maintain audit logs of physical access; and control and manage physical access devices.
 - (x) Monitor, control, and protect organizational communications (i.e., information transmitted or received by organizational information systems) at the external boundaries and key internal boundaries of the information systems.
 - (xi) Implement subnetworks for publicly accessible system components that are physically or logically separated from internal networks.
 - (xii) Identify, report, and correct information and information system flaws in a timely manner.
 - (xiii) Provide protection from malicious code at appropriate locations within organizational information systems.
 - (xiv) Update malicious code protection mechanisms when new releases are available.
 - (xv) Perform periodic scans of the information system and real-time scans of files from external sources as files are downloaded, opened, or executed.
- (2) Other requirements. This clause does not relieve the Contractor of any other specific safeguarding requirements specified by Federal agencies and departments relating to covered contractor information systems generally or other Federal safeguarding requirements for controlled unclassified information (CUI) as established by Executive Order 13556.
- (c) Subcontracts. The Contractor shall include the substance of this clause, including this paragraph (c), in subcontracts under this contract (including subcontracts for the acquisition of commercial products or commercial services, other than commercially available off-the-shelf items), in which the subcontractor may have Federal contract information residing in or transiting through its information system.

52.217-8 Option to Extend Services (Nov 1999)

The Government may require continued performance of any services within the limits and at the rates specified in the contract. These rates may be adjusted only as a result of revisions to prevailing labor rates provided by the Secretary of Labor. The option provision may be exercised more than once, but the total extension of performance

hereunder shall not exceed 6 months. The Contracting Officer may exercise the option by written notice to the Contractor within 10 days.

52.223-2 Affirmative Procurement of Biobased Products Under Service and Construction Contracts (SEP 2013)

52.223-17 Affirmative Procurement of EPA-designated Items in Service and Construction Contracts (AUG 2018)

52.228-5 Insurance – Work on a Government Installation (JAN 1997)

52.232-18 Availability of Funds (APR 1984)

52.237-2 Protection of Government Buildings, Equipment, and Vegetation (APR 1984)

52.242-15 Stop-Work Order (AUG 1989)

52.242-17 Government Delay of Work (APR 1984)

52.252-2 Clauses Incorporated by Reference (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

Federal Acquisition Regulation (FAR) Clauses:

52.252-6 Authorized Deviations in Clauses (NOV 2020)

(a) The use in this solicitation or contract of any Federal Acquisition Regulation (48 CFR Chapter 1) clause with an authorized deviation is indicated by the addition of “(DEVIATION)” after the date of the clause.

(b) The use in this solicitation or contract of any Agriculture Acquisition Regulation (48 CFR 4) clause with an authorized deviation is indicated by the addition of “(DEVIATION)” after the name of the regulation.

452.204-70 Modification for Contract Closeout ([DEVIATION JUL 2022](#))

Upon contract closeout for contracts utilizing Simplified Acquisition Procedures (SAP) according to FAR 13:

(a) If unobligated funds in the amount of \$1000 or less remain on the contract, the Contracting Officer (CO) shall issue a unilateral modification for deobligation. The contractor will receive a copy of the modification but will not be required to provide a signature. The CO shall immediately proceed with contract closeout upon completion of the period of performance, receipt and acceptance of supplies or services, and final payment.

(b) If unobligated funds of more than \$1000 remain on the contract, the CO shall issue a bilateral modification for deobligation. The contractor will receive a copy of the modification and will be required to provide a signature. (The CO may also request a Release of Claims be completed by the contractor, although not required for contract and orders using SAP procedures.) If the bilateral modification and Release of Claims are not returned to the CO within 60 days, the CO shall release the modification as unilateral and proceed with contract closeout upon completion of the period of performance, receipt and acceptance of supplies or services, and final payment.

452.211-74 Period of Performance (FEB 1988)

The period of performance of this contract is from 07/01/2023 through 10/29/2023.

452.215-73 Post Award Conference (NOV 1996)

A post award conference with the successful offeror is required. It will be scheduled within 2 days after the date of contract award. The conference details will be coordinated by the COR or technical point of contact after award.

452.228-71 Insurance Coverage (NOV 1996)

Pursuant to FAR clause 52.228-5, Insurance-Work on a Government Installation, the Contractor will be required to present evidence to show, as a minimum, the amounts of insurance coverage indicated below:

(a) Workers Compensation and Employer's Liability. The Contractor is required to comply with applicable Federal and State workers' compensation and occupational disease statutes. If occupational diseases are not compensable under those statutes, they shall be covered under the employer's liability section of the insurance policy, except when contract operations are so commingled with a Contractor's commercial operations that it would not be practical to require this coverage. Employer's liability coverage of at least \$100,000 shall be required, except in States with exclusive or monopolistic funds that do not permit worker's compensation to be written by private carriers.

(b) General Liability. (1) The Contractor shall have bodily injury liability coverage written on a comprehensive form of policy of at least \$500,000 per occurrence. (2) The Contractor shall have property damage liability insurance shall be required in the amount of \$500,000.

(c) Automobile Liability. The Contractor shall have automobile liability insurance written on a comprehensive form of policy. The policy shall provide for bodily injury and

property damage liability covering the operation of all automobiles used in connection with performing the contract. Policies covering automobiles operated in the United States shall provide coverage of at least \$200,000 per person and 500,000 per occurrence for bodily injury and \$20,000 per occurrence for property damage or loss.

(d) Aircraft Public and Passenger Liability. When aircraft are used in connection with performing the contract, the Contractor shall have aircraft public and passenger liability insurance. Coverage shall be at least \$200,000 per person and \$500,000 per occurrence for bodily injury, other than passenger injury. Coverage for passenger injury shall be at least \$200,000 multiplied by the number of seats or passengers, whichever is greater.

452.237-74 Key Personnel (FEB 1988)

(a) The Contractor shall assign to this contract the following key personnel:

Project Manager
Site Superintendent

(b) During the first ninety (90) days of performance, the Contractor shall make no substitutions of key personnel unless the substitution is necessitated by illness, death, or termination of employment. The Contractor shall notify the Contracting Officer within 15 calendar days after the occurrence of any of these events and provide the information required by paragraph (c) below. After the initial 90-day period, the Contractor shall submit the information required by paragraph (c) to the Contracting Officer at least 15 days prior to making any permanent substitutions.

(c) The Contractor shall provide a detailed explanation of the circumstances necessitating the proposed substitutions, complete resumes for the proposed substitutes, and any additional information requested by the Contracting Officer. Proposed substitutes should have comparable qualifications to those of the persons being replaced. The Contracting Officer will notify the Contractor within 15 calendar days after receipt of all required information of the decision on substitutions. The contract will be modified to reflect any approved changes of key personnel.

Provisions:

52.204-7 System for Award Management (OCT 2018)

52.204-16 Commercial and Government Entity Code Reporting (AUG 2020)

52.217-5 Evaluation of Options. (July 1990)

Except when it is determined in accordance with FAR [17.206\(b\)](#) not to be in the Government's best interests, the Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. Evaluation of options will not obligate the Government to exercise the option(s).

52.223-1 Biobased Product Certification (MAY 2012)

52.223-4 Recovered Material Certification (MAY 2008)

52.237-1 Site Visit (APR 1984)

Offerors or quoters are urged and expected to inspect the site where services are to be performed and to satisfy themselves regarding all general and local conditions that may affect the cost of contract performance, to the extent that the information is reasonably obtainable. In no event shall failure to inspect the site constitute grounds for a claim after contract award.

52.252-1 Solicitation Provisions Incorporated by Reference (FEB 1998)

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The offeror is cautioned that the listed provisions may include blocks that must be completed by the offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at this/these address(es):

SECTION C - GENERAL SPECIFICATIONS

C.1 SCOPE OF CONTRACT

Provide labor, materials, and equipment required to complete the following items on the Midewin National Tallgrass Prairie, 30239 South State Route 53, Wilmington, IL, 60481.

Mandatory Field Inspection: A Field Inspection date has been scheduled for the following date and place:

Location:	Midewin National Tallgrass Prairie Office 30239 S. State Route 53 Wilmington, IL 60481
Date:	May 25, 2023
Time:	10:00 AM CDT

This contract will include abatement of Asbestos Containing Materials (ACM), PCB's, mercury, or other special waste in preparation for future demolition of the structures. The work is described in Items 1 and 2 below:

Item 1. Asbestos Analysis/Certification

Provide ACM inspection performed and signed by an Illinois Licenced ACM inspector to satisfy State of Illinois EPA requirements for submittal of a State of Illinois Demolition/Renovation/Asbestos Project Notification form. A copy of the EPA form is attached for reference as Attachment C.

It shall be the responsibility of the contractor to complete the required notification, including any fees, and submit to the Illinois EPA before any removal services can begin.

This inspection is intended to identify all possible ACM, PCB's, mercury, or other materials requiring special waste disposal and tracking associated with this project. At a minimum this will include sampling/inspections of the roofing, siding, insulation, light ballasts, light switches, light bulbs, floor tile and mastic located in the Groups 5 buildings only.

NOTE: In addition to the ACM, the peeling paint within the building should be considered to be lead based paint, based on the age of the buildings. It is the responsibility of the contractor to handle and work around this material in accordance with all associated health and safety regulations.

Include only the cost for inspection, analysis, reports, and state fees in this Line Item Number 1.

Item 2 Detail. Group 5 Buildings

Remove and dispose off-site all identified ACM, PCB containing, or other special waste materials located in, and, or around all the buildings listed below.

A map of each building location is included in Attachment B. Photos of the buildings are also included for your reference. All work shall comply with appropriate federal, local, and state regulations.

***Enter this total in the Summary Schedule of Items above.**

Previous projects have identified the following Special Waste materials and work items, so **please include the following** in your costs for this contract. If additional material types are discovered during the inspection the COR shall be notified immediately and will be addressed IAW the terms and conditions of the contract.

ACM Transite Roof - Entire roof covering all the buildings is to be removed and properly disposed off-site. The square footages provided for each building is the area of floor space the building occupies. Contractor is responsible for field measurements taking into account the slope of the roof, any overlap in panels, and including transite roof caps and price as a lump sum for each building in Group 5. Any roof vents, stacks, or other items removed with the roof shall also be properly disposed or recycled as misc. debris and included in the cost of the work. The majority of Group 5 buildings have an additional layer of insulation that was applied on top of the exterior transite roof. This material will require testing under Item 1 above. For bidding consistency please include removing the panels with applied insulation as a composite material that can be disposed along with the transite panel (no need to separate, then dispose each).

ACM Interior Transite Ceiling Panels - Building 5-6, Change House, has an interior ceiling installed below the roof that has also been known to contain asbestos. Please include the cost to remove and dispose this material with the total costs associated with this structure.

ACM Floor Tile - The only floor tile observed in Group 5 was found in Building 5-8. Tile similar to this has been found to contain asbestos in both the tile and mastic. Visual inspections of the remaining buildings and walkways has found them to be free of any flooring or mastic that is typically classified as ACM. If the contractor encounters additional ACM floor tile during the course of the project, please notify the COR for confirmation before continuing with removal.

PCB Light Ballast, Fluorescent Bulbs, and other mercury containing bulbs - PCB containing ballasts and fluorescent bulbs and mercury bulbs are known to be present in several, but not all buildings. The Contractor shall identify, remove and dispose these items in accordance with applicable environmental laws, both State and Federal.

Misc. Debris - Remove and dispose/recycle all wood, metal, glass, or other construction debris generated during transite removal. Because the transite comprises the entire wall structure of the walkways, some items must be detached in order to remove the transite. Materials include, but are not limited to doors, frames, windows, roof fans, roof vents, and, wood partitions. All metals are to be separated and recycled whenever possible. Remaining debris is to be disposed at the Prairie View Landfill.

It is the responsibility of the contractor to divert as much waste as possible away from the landfill. This shall be accomplished by adhering to the methods described in the Demolition Material Reuse/Recycle and Disposal matrix included below.

The following is offered to clarify the issue of **free tipping fees** at the Prairie View Landfill (PVL) located immediately south of the MNTP: (This is provided for information only and is subject to change and is not within the control of the USDA Forest Service it only represents the current situation at the Prairie View Landfill.

- PVL is accepting ACM, however it is handled differently than other wastes. PVL may not be able to accept huge amounts per day due to the way they are required to bury and track ACM. There are also placarding, handling, and paperwork differences. Contractor should contact PVL scale house for details prior to the first haul to the landfill.
- When PVL goes into a new cell (first layer over plastic liner), they will not be able to accept certain materials, it is up to the contractor to coordinate with PVL and work within their procedures.
- Each load of material brought to PVL must be accompanied by a Waste Disposal Tracking Document issued by Midewin in order to receive free tipping.

C.2 LOCATION AND DESCRIPTION

Location – Group 5 is located ¼ mile east of Route 53, south of Prairie Creek, on the Midewin National Tallgrass Prairie, in Wilmington, IL. A map depicting the area is included as Attachment A. Layout of Group 5 buildings is in Attachment B.

C.3 TECHNICAL REQUIREMENTS

A. Equipment Requirements

Equipment shall be furnished on a fully operated basis, of modern design, and in good operating condition, with a competent qualified operator. Exhaust stacks on all engines, except those with exhaust-driven turbochargers, shall be equipped with spark arresters that will prevent the expulsion of sparks from the engine into the atmosphere. All fuel, supplies, repairs, and incidentals shall be furnished by the Contractor.

1. Inspection of Equipment

Equipment will be inspected at the time it is delivered to the job. Equipment shall be clean, such as equipment that has been through a truck wash and not carrying invasive plants or seeds. Equipment that does not meet contract specifications may be rejected. Rejected equipment will be replaced or the deficiencies corrected within four (4) calendar days after notice of rejection. If the equipment cannot perform on site, it must also be removed or replaced.

2. Operator

The Contractor shall furnish a qualified, experienced and competent operator, capable of operating the equipment in terrain similar to that where the work is to be performed. The Government may require the replacement of an operator who is considered incompetent, careless, or otherwise objectionable. Operator shall wear OSHA approved safety gear while operating equipment and comply with the Occupational Safety and Health Act of 1970 (as amended).

B. Safety

The contractor and its employees and subcontractors shall comply with all State and local safety requirements and will be thoroughly familiar with the Forest Service Safety Code for work of this type. This code is available for review at the closest Forest Service office. Protective devices, including but not restricted to hard hats, shall be worn. All efforts shall be made to protect traffic and the contractor vehicles shall stay within the appropriate speed in the areas but not to exceed thirty miles per hour (30 mph). When working, the contractor shall make readily available spill cleanup materials and any spill greater than one (1) pint shall be immediately reported to the Contracting Officer's Representative (COR).

Contractors must avoid contaminated Army land in or near the work area, and must be aware of the potential for discovery of CERCLA wastes, TSCA (PCB) equipment, or remnant ordnance materials (Munitions and Explosives of Concern (MEC)). Contractors shall notify the COR or Inspector of any discovered suspicious material, equipment or items encountered during work.

C.4 PERFORMANCE REQUIREMENTS

- A. Contractor is responsible for any notifications, licenses or permits required to perform this work.

All material disposals shall be in accordance with all applicable federal, state and local laws/regulations. Reuse/Recycle opportunities are to be maximized. Contractor shall provide all weigh tickets or other evidence of proper disposal in a timely manner but no later than with invoice(s).

B. Performance Schedule

The overall performance period for completion of items 1 and 2 is 120 calendar days.

C. Protection of Resources & Reparation of Any Damages

Contractor shall confine operations to the designated work area, follow designated travel lanes and use existing roads, railbeds, and parking areas unless approved by a FS representative. Contractor shall avoid entering any areas enclosed by orange construction fencing, or bamboo stakes and flagging. Any soil or other resource damage (e.g., rutting deeper than six inches, tracking, etc.) shall be repaired by the contractor prior to completion of the work.

The Contractor will ensure spill cleanup materials will be available on each project at all times on the Prairie. Any spill greater than one (1) pint must be immediately reported to the COR or Inspector. Contractor personnel must have training to ensure they are qualified to identify such releases and are competent to provide proper cleanup and reporting. All spilled materials and impacted soils will be removed and properly disposed as necessary.

D. Performance Measures for Completion of Contract and Quality Assurance Plan

The following table describes how the FS will evaluate the completion of the demolition tasks:

REQUIREMENT	TASKS/CRITICAL SUB-TASKS	QUALITY STDS	AQL	METHOD OF MONITORING
1. Demolition				
Removal: Gather Segregate Load/haul Staging/stockpiling	Gather all materials from demolition unless otherwise noted; properly segregate waste; load and haul materials to the staging/stockpiling area (if necessary)	Demolition materials are completely removed from the demo site and properly staged in an orderly manner at the designated staging areas only. Materials shall not exist outside their staging areas.	100%	Visual 100%
Disposal On-site Off-site Special treatment Documentation	Demolition materials designated by the USFS to be disposed on-site shall be disposed at their designated location in a timely, safe and compliant manner. Demo materials designated by the USFS for off-site disposition shall be completely removed from the USFS property and disposed in compliance with all local, state, and federal regulations. The contractor shall acquire all necessary documentation and any special waste treatments.	Materials to be disposed shall be completely vacant from the demolition and staging areas. On-site disposal areas shall be safe and in compliance with all applicable local, state and federal rules. Demo materials to be	100%	Visual 100% Document Review 100%

		disposed off-site shall be disposed in a manner that complies with all local, state, and federal regulations regarding the material and will be accompanied with all necessary documents and treatments.		
Reuse/Recycling Segregate Load/haul Documentation	Demo material designated to be reused or recycled shall be segregated from material to be disposed. Recycled material shall be loaded and hauled to designated staging or recycling area. The contractor shall obtain applicable documentation.	Recyclable or reusable material is completely removed from the demolition site, staged in the designated area and in the best condition possible from the demolition. All applicable local, state, and federal documents are acquired.	90 – 100%	Visual 90 – 100% Document Review
Mitigation/Restoration of any environmental damage	Repair all rutting, erosion or other environmental damage	Final area will be free of any ruts, erosion or any other signs of obtrusions	100%	Visual 100%

E. Key Personnel

The Contractor must employ and maintain personnel in the management and key personnel positions who meet the minimum requirements for each of the skill levels to which they are assigned. Contractor personnel must possess the technical, professional, and interpersonal capability of performing the functions described in this contract in a competent and professional manner.

At a minimum, the Contractor must propose the following position as Key Personnel:

a) Project Manager: The Contractor must designate a Project Manager (PM) as the single point of contact (POC) for award management. The PM must have the authority to make decisions for the Contractor and must be the single Contractor representative responsible for all issues, concerns, or problems for this award instrument. The PM must readily respond to questions, concerns, and comments. The PM must proactively alert the Government to potential contractual issues.

b) Site Superintendent: At all times during performance of this contract and until the work is completed and accepted, the Contractor shall directly superintend the work or assign and have on the worksite a competent superintendent who is satisfactory to the Contracting Officer and has authority to act for the Contractor.

Training and Certifications:

Removal of Asbestos Containing Materials (ACM) shall use all applicable regulatory-prescribed methods using properly certified and trained personnel and shall eliminate the release of asbestos fibers into the environment. All ACM waste shall be disposed of in properly designated and permitted locations and all disposals shall be fully documented with regards to amounts, dates of removal, destination, and acceptance by the disposal facility. No employee shall be exposed to asbestos above the permissible exposure limits (PELs).

Type 3: Abatement Worker Training

This training is for workers who may conduct activity related asbestos abatement activities. This work involves direct, intentional contact with ACM. The Asbestos Model Accreditation Plan (MAP)(PDF) training courses approved by the EPA or a state with an EPA-approved MAP requires the use of trained and accredited asbestos professionals when conducting asbestos inspection and corrective-action activities at schools and public and commercial buildings. It provides guidance to the states on the training requirements for asbestos control professionals. These training courses range in duration from 32 to 40 hours.

The Occupational Safety and Health Administration (OSHA) requires employers to institute and ensure participation in a worker training program for employees exposed to fiber levels (either measured or anticipated) at or above the permissible exposure limit (0.1 fibers per cubic centimeter (f/cc) as an 8-hour, time-weighted average (TWA) and/or the excursion limit (1.0 f/cc as a 30-minute TWA). This training program consists of an initial training period, the duration of which is determined by the type of work the employee performs, and annual refresher training. For additional information about these training requirements, see the OSHA regulations at 29 CFR § 1910.1001(j)(7).

C.5 FS FURNISHED PROPERTY, MATERIALS AND SERVICES

The FS shall provide, without cost, the facilities, equipment, materials, and/or services listed below.

FS Furnished Materials:

1. Key for gate access (cost of replacement for key not returned after work is completed will be paid by the contractor at the actual cost for changing the effected locks)
 1. The successful contractor will be issued a key from Midewin that will allow access to the work area. HOWEVER, the access road leading to Group 5 is controlled by the Prairie View Landfill (PVL) with an additional gate that is open all day when the landfill is operating but closes in the evenings. Midewin's key will not open the PVL gate. It is the contractor's responsibility to coordinate their work schedule with PVL's gate schedule.

FS Furnished Facilities:

1. Overnight/weekend parking for Contractor equipment (unsecured)
2. Storage areas for materials (unsecured)

C.6 CONTRACTOR FURNISHED ITEMS AND SERVICES

General: Except for those items or services specifically stated to be furnished by the FS, the contractor shall furnish everything required to perform the work of this contract to the Acceptable Quality Level indicated in said contract and attachment(s).

Demolition Material Reuse/Recycle and Disposal Matrix

The contractor shall recycle all applicable demolition waste including but not limited to brick, steel and concrete, unless otherwise approved by the USDA Forest Service Contracting Officer's Representative (C.O.R.). The contractor shall submit in a timely manner to a designated representative of the USDA Forest Service all available weight tickets for the removed materials, recycled and landfilled. **Note: Not all these items are expected to be found during this abatement project.**

***Workers in this classification may be entitled to a higher minimum wage under Executive Order 14026 (\$16.20 per hour) or 13658 (\$12.15 per hour). Please see the Note at the top of the wage determination for more information. Please also note that the minimum wage requirements of Executive Order 14026 and 13658 are not currently being enforced as to contracts or contract-like instruments entered into with the federal government in connection with seasonal recreational services or seasonal recreational equipment rental for the general public on federal lands.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors, applies to all contracts subject to the Service Contract Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is the victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: \$4.80 per hour, up to 40 hours per week, or \$192.00 per week or \$832.00 per month

HEALTH & WELFARE EO 13706: \$4.41 per hour, up to 40 hours per week, or \$176.40 per week, or \$764.40 per month*

*This rate is to be used only when compensating employees for performance on an SCA-covered contract also covered by EO 13706, Establishing Paid Sick Leave for Federal Contractors. A contractor may not receive credit toward its SCA obligations for any paid sick leave provided pursuant to EO 13706.

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor, 3 weeks after 5 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of twelve paid holidays per year: New Year's Day, Martin Luther King Jr's Birthday, Washington's Birthday, Good Friday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) COMPUTER EMPLOYEES: This wage determination does not apply to any individual employed in a bona fide executive, administrative, or professional capacity, as defined in 29 C.F.R. Part 541. (See 41 C.F.R. 6701(3)). Because most Computer Systems Analysts and Computer Programmers who are paid at least \$27.63 per hour (or at least \$684 per week if paid on a salary or fee basis) likely qualify as exempt computer professionals under 29 U.S.C. 213(a)(1) and 29 U.S.C. 213(a)(17), this wage determination may not include wage rates for all occupations within those job families. In such instances, a conformance will be necessary if there are nonexempt employees in these job families working on the contract.

Job titles vary widely and change quickly in the computer industry, and are not determinative of whether an employee is an exempt computer professional. To be exempt, computer employees who satisfy the compensation requirements must also have a primary duty that consists of:

(1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;

(2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and

related to user or system design specifications;

(3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or

(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

Any computer employee who meets the applicable compensation requirements and the above duties test qualifies as an exempt computer professional under both section 13(a)(1) and section 13(a)(17) of the Fair Labor Standards Act. (Field Assistance Bulletin No. 2006-3 (Dec. 14, 2006)). Accordingly, this wage determination will not apply to any exempt computer employee regardless of which of these two exemptions is utilized.

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

**** HAZARDOUS PAY DIFFERENTIAL ****

An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving re-grading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning

and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

**** SERVICE CONTRACT ACT DIRECTORY OF OCCUPATIONS ****

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition (Revision 1), dated September 2015, unless otherwise indicated.

**** REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE, Standard Form 1444 (SF-1444) ****

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination (See 29 CFR 4.6(b)(2)(i)). Such conforming procedures shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees (See 29 CFR 4.6(b)(2)(ii)). The Wage and Hour Division shall make a final determination of conformed classification, wage rate, and/or fringe benefits which shall be paid to all employees performing in the classification from the first day of work on which contract work is performed by them in the classification. Failure to pay such unlisted employees the compensation agreed upon by the interested parties and/or fully determined by the Wage and Hour Division retroactive to the date such class of employees commenced contract work shall be a violation of the Act and this contract. (See 29 CFR 4.6(b)(2)(v)). When multiple wage determinations are included in a contract, a separate SF-1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order the proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the U.S. Department of Labor, Wage and Hour Division, for review (See 29 CFR 4.6(b)(2)(ii)).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour Division's decision to the contractor.

6) Each affected employee shall be furnished by the contractor with a written copy of such determination or it shall be posted as a part of the wage determination (See 29 CFR 4.6(b)(2)(iii)).

Information required by the Regulations must be submitted on SF-1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" should be used to compare job definitions to ensure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination (See 29 CFR 4.152(c)(1))."
