

December 9, 2022

Hi, Lauri:

There are no resellers, and ATIS is the only option for North American organizations, like DISA, to join 3GPP; you can find more here < Caution-<https://www.3gpp.org/about-us/membership> > ; copy and paste from this site below.

Membership of 3GPP applies to organizations (companies, government departments, educational establishments, etc) ...There is no direct membership to 3GPP, which is a Partnership project. The delegates come to 3GPP via their organization's membership of one of the seven 3GPP Organizational Partners.

Article 8 of the 3GPP Working Procedures describes what constitutes Individual Membership of 3GPP.

"Membership in an Organizational Partner is a pre-requisite for Individual Membership of 3GPP. All entities registered as members of an Organizational Partner and eligible for participation in the technical work of that Organizational Partner, can become Individual Members of 3GPP... An Individual Member has the right to participate in the work of 3GPP by attending meetings of the Technical Specification Groups and subtending groups."

Rich
