

PERFORMANCE REQUIREMENTS SUMMARY (PRS)

REQUIRED SERVICE (Include paragraph number reference)	STANDARD (Include paragraph number reference)	MAXIMUM ALLOWABLE DEGREE OF DEVIATION FOR REQUIREMENT (AQL)	METHOD OF SURVEILLANCE	THE PROPORTION (%) OF REQUIRED SERVICE TO TOTAL TASK ORDER PRICE
Control of identified target weeds in application areas. (Paragraph 5.3.1 & 5.3.2)	Sprayed target weeds found on site shall be controlled at a 90% level as determined by counting of live and dead weeds in a sample area. (Paragraph 5.4.1 & 5.4.2)	AQL of 10% of total target weeds within 10 days of application or when pesticide activity may be seen on plants.	Systematic linear transect areas through the spray site to select random sample sites.	25%
Maintain adequate buffer zone from environmentally sensitive areas and ensure that spray drift does not enter within the buffer areas (as identified on delivery orders and maps). (Paragraph 1.11)	Contractor shall ensure that adequate buffer zones are maintained during spray application and that off-target application or drift does not occur. (Paragraph 1.11)	AQL of no more than 10% distance into the edge of a buffer zone on the exterior sides from environmentally sensitive areas.	Visual inspection of buffer perimeter to determine when spray affected areas within the buffer and then measurement of width against spray width buffer.	25%
Treat designated locations with Government selected pesticides and adjuvants (Paragraph 5.3.3)	The Contractor shall assure the area(s) designated are treated with the listed chemicals. (Paragraph 5.4.3 & 5.3.3.4)	AQL of 5% of the designated area(s) not being treated	On-site surveillance by Government of Contractor operations and review of submitted GPS data.	10%
Chemicals used, concentration mixtures, label identified additives and spray deposition per acre. (Paragraph 1.8.2 and 5)	Ensure that identified chemicals are mixed at specified rates, according to label instructions and applied to the site at recommended levels. (Paragraph 1.8.2.1)	Concentrations within 5% variance of specified rates.	Review of Pesticide Records Submitted by the Contractor (Paragraph 1.16.3.6)	10%
