(End of clause)

I-44 52.227-11 PATENT RIGHTS--OWNERSHIP BY THE CONTRACTOR MAY/2014
(a) As used in this clause--

Invention means any invention or discovery that is or may be patentable or otherwise protectable under title 35 of the U.S. Code, or any variety of plant that is or may be protectable under the Plant Variety Protection Act (7 U.S.C. 2321, et seq.)

Made means--

(1) When used in relation to any invention other than a plant variety, the conception or first actual reduction to practice of the invention; or

(2) When used in relation to a plant variety, that the Contractor has at least tentatively determined that the variety has been reproduced with recognized characteristics.

Nonprofit organization means a university or other institution of higher education or an organization of the type described in section 501(c)(3) of the Internal Revenue Code of 1954 (26 U.S.C. 501(c)) and exempt from taxation under section 501(a) of the Internal Revenue Code (26 U.S.C. 501(a)), or any nonprofit scientific or educational organization qualified under a State nonprofit organization statute.

Practical application means to manufacture, in the case of a composition of product; to practice, in the case of a process or method; or to operate, in the case of a machine or system; and, in each case, under such conditions as to establish that the invention is being utilized and that its benefits are, to the extent permitted by law or Government regulations, available to the public on reasonable terms.

Subject invention means any invention of the Contractor made in the performance of work under this contract.

(b) Contractor's rights. (1) Ownership. The Contractor may retain ownership of each subject invention throughout the world in accordance with the provisions of this clause.

(2) License. (i) The Contractor shall retain a nonexclusive royalty-free license throughout the world in each subject invention to which the Government obtains title, unless the Contractor fails to disclose the invention within the times specified in paragraph (c) of this clause. The Contractor's license extends to any domestic subsidiaries and affiliates within the corporate structure of which the Contractor is a part, and includes the right to grant sublicenses to the extent the Contractor was legally obligated to do so at contract award. The license is transferable only with the written approval of the agency, except when transferred to the successor of that part of the Contractor's business to which the invention pertains.

(ii) The Contractor's license may be revoked or modified by the agency to the extent necessary to achieve expeditious practical application of the subject invention in a particular country in accordance with the procedures in FAR 27.302(i)(2) and 27.304-1(f).

(c) Contractor's obligations. (1) The Contractor shall disclose in writing each subject invention to the Contracting Officer within 2 months after the inventor discloses it in writing to Contractor personnel responsible for patent matters. The disclosure shall identify

Name of Offeror or Contractor:

the inventor(s) and this contract under which the subject invention was made. It shall be sufficiently complete in technical detail to convey a clear understanding of the subject invention. The disclosure shall also identify any publication, on sale (i.e., sale or offer for sale), or public use of the subject invention, or whether a manuscript describing the subject invention has been submitted for publication and, if so, whether it has been accepted for publication. In addition, after disclosure to the agency, the Contractor shall promptly notify the Contracting Officer of the acceptance of any manuscript describing the subject invention for publication and any on sale or public use.

(2) The Contractor shall elect in writing whether or not to retain ownership of any subject invention by notifying the Contracting Officer within 2 years of disclosure to the agency. However, in any case where publication, on sale, or public use has initiated the 1-year statutory period during which valid patent protection can be obtained in the United States, the period for election of title may be shortened by the agency to a date that is no more than 60 days prior to the end of the statutory period.

(3) The Contractor shall file either a provisional or a nonprovisional patent application or a Plant Variety Protection Application on an elected subject invention within 1 year after election. However, in any case where a publication, on sale, or public use has initiated the 1-year statutory period during which valid patent protection can be obtained in the United States, the Contractor shall file the application prior to the end of that statutory period. If the Contractor files a provisional application, it shall file a nonprovisional application within 10 months of the filing of the provisional application. The Contractor shall file patent applications in additional countries or international patent offices within either 10 months of the first filed patent application (whether provisional or nonprovisional) or 6 months from the date permission is granted by the Commissioner of Patents to file foreign patent applications where such filing has been prohibited by a Secrecy Order.

(4) The Contractor may request extensions of time for disclosure, election, or filing under paragraphs (c)(1), (c)(2), and (c)(3) of this clause.

(d) Government's rights--(1) Ownership. The Contractor shall assign to the agency, on written request, title to any subject invention--

(i) If the Contractor fails to disclose or elect ownership to the subject invention within the times specified in paragraph (c) of this clause, or elects not to retain ownership; provided, that the agency may request title only within 60 days after learning of the Contractor's failure to disclose or elect within the specified times.

(ii) In those countries in which the Contractor fails to file patent applications within the times specified in paragraph (c) of this clause; provided, however, that if the Contractor has filed a patent application in a country after the times specified in paragraph (c) of this clause, but prior to its receipt of the written request of the agency, the Contractor shall continue to retain ownership in that country.

(iii) In any country in which the Contractor decides not to continue the prosecution of any application for, to pay the maintenance fees on, or defend in reexamination or opposition proceeding on, a patent on a subject invention.

(2) License. If the Contractor retains ownership of any subject invention, the Government shall have a nonexclusive, nontransferable, irrevocable, paid-up license to practice, or have practiced for or on its behalf, the subject invention throughout the world.

(e) Contractor action to protect the Government's interest. (1) The Contractor shall execute or have executed and promptly deliver to the agency all instruments necessary to--

(i) Establish or confirm the rights the Government has throughout the world in those subject inventions in which the Contractor elects to retain ownership; and

(ii) Assign title to the agency when requested under paragraph (d) of this clause and to enable the Government to obtain patent protection and plant variety protection for that subject invention in any country.

(2) The Contractor shall require, by written agreement, its employees, other than clerical and nontechnical employees, to disclose promptly in writing to personnel identified as responsible for the administration of patent matters and in the Contractor's format, each subject invention in order that the Contractor can comply with the disclosure provisions of paragraph (c) of this clause, and to execute all papers necessary to file patent applications on subject inventions and to establish the Government's rights in the subject inventions. The disclosure format should require, as a minimum, the information required by paragraph (c)(1) of this clause. The Contractor shall instruct such employees, through employee agreements or other suitable educational programs, as to the importance of reporting inventions in sufficient time to permit the filing of patent applications prior to U.S. or foreign statutory bars.

(3) The Contractor shall notify the Contracting Officer of any decisions not to file a nonprovisional patent application, continue the prosecution of a patent application, pay maintenance fees, or defend in a reexamination or opposition proceeding on a patent, in any country, not less than 30 days before the expiration of the response or filing period required by the relevant patent office.

(4) The Contractor shall include, within the specification of any United States nonprovisional patent or plant variety protection application and any patent or plant variety protection certificate issuing thereon covering a subject invention, the following

statement, "This invention was made with Government support under (identify the contract) awarded by (identify the agency). The Government has certain rights in the invention."

(f) Reporting on utilization of subject inventions. The Contractor shall submit, on request, periodic reports no more frequently than annually on the utilization of a subject invention or on efforts at obtaining utilization of the subject invention that are being made by the Contractor or its licensees or assignees. The reports shall include information regarding the status of development, date of first commercial sale or use, gross royalties received by the Contractor, and other data and information as the agency may reasonably specify. The Contractor also shall provide additional reports as may be requested by the agency in connection with any march-in proceeding undertaken by the agency in accordance with paragraph (h) of this clause. The Contractor also shall mark any utilization report as confidential/proprietary to help prevent inadvertent release outside the Government. As required by 35 U.S.C. 202(c)(5), the agency will not disclose that information to persons outside the Government without the Contractor's permission.

(g) Preference for United States industry. Notwithstanding any other provision of this clause, neither the Contractor nor any assignee shall grant to any person the exclusive right to use or sell any subject invention in the United States unless the person agrees that any products embodying the subject invention or produced through the use of the subject invention will be manufactured substantially in the United States. However, in individual cases, the requirement for an agreement may be waived by the agency upon a showing by the Contractor or its assignee that reasonable but unsuccessful efforts have been made to grant licenses on similar terms to potential licensees that would be likely to manufacture substantially in the United States, or that under the circumstances domestic manufacture is not commercially feasible.

(h) March-in rights. The Contractor acknowledges that, with respect to any subject invention in which it has retained ownership, the agency has the right to require licensing pursuant to 35 U.S.C. 203 and 210(c), and in accordance with the procedures in 37 CFR 401.6 and any supplemental regulations of the agency in effect on the date of contract award.

(i) Special provisions for contracts with nonprofit organizations. If the Contractor is a nonprofit organization, it shall--

(1) Not assign rights to a subject invention in the United States without the written approval of the agency, except where an assignment is made to an organization that has as one of its primary functions the management of inventions, provided, that the assignee shall be subject to the same provisions as the Contractor;

(2) Share royalties collected on a subject invention with the inventor, including Federal employee co-inventors (but through their agency if the agency deems it appropriate) when the subject invention is assigned in accordance with 35 U.S.C. 202(e) and 37 CFR 401.10;

(3) Use the balance of any royalties or income earned by the Contractor with respect to subject inventions, after payment of expenses (including payments to inventors) incidental to the administration of subject inventions for the support of scientific research or education; and

(4) Make efforts that are reasonable under the circumstances to attract licensees of subject inventions that are small business concerns, and give a preference to a small business concern when licensing a subject invention if the Contractor determines that the small business concern has a plan or proposal for marketing the invention which, if executed, is equally as likely to bring the invention to practical application as any plans or proposals from applicants that are not small business concerns; provided, that the Contractor is also satisfied that the small business concern has the capability and resources to carry out its plan or proposal. The decision whether to give a preference in any specific case will be at the discretion of the Contractor.

(5) Allow the Secretary of Commerce to review the Contractor's licensing program and decisions regarding small business applicants, and negotiate changes to its licensing policies, procedures, or practices with the Secretary of Commerce when the Secretary's review discloses that the Contractor could take reasonable steps to more effectively implement the requirements of paragraph (i)(4) of this clause.

(j) Communications. -1-

(k) Subcontracts. (1) The Contractor shall include the substance of this clause, including this paragraph (k), in all subcontracts for experimental, developmental, or research work to be performed by a small business concern or nonprofit organization.

(2) The Contractor shall include in all other subcontracts for experimental, developmental, or research work the substance of the patent rights clause required by FAR Subpart 27.3.

(3) At all tiers, the patent rights clause must be modified to identify the parties as follows: references to the Government are not changed, and the subcontractor has all rights and obligations of the Contractor in the clause. The Contractor shall not, as part of the consideration for awarding the subcontract, obtain rights in the subcontractor's subject inventions.

(4) In subcontracts, at any tier, the agency, the subcontractor, and the Contractor agree that the mutual obligations of the parties created by this clause constitute a contract between the subcontractor and the agency with respect to the matters covered by the clause;

I-47 52.219-28 POST-AWARD SMALL BUSINESS PROGRAM REREPRESENTATION SEP/2021
(a) Definitions. As used in this clause--

"Long-term contract" means a contract of more than five years in duration, including options. However, the term does not include contracts that exceed five years in duration because the period of performance has been extended for a cumulative period not to exceed six months under the clause at 52.217-8, Option to Extend Services, or other appropriate authority.

"Small business concern"--

(1) Means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (d) of this clause. Such a concern is ``not dominant in its field of operation'' when it does not exercise a controlling or major influence on a national basis in a kind of business activity in which a number of business concerns are primarily engaged. In determining whether dominance exists, consideration shall be given to all appropriate factors, including volume of business, number of employees, financial resources, competitive status or position, ownership or control of materials, processes, patents, license agreements, facilities, sales territory, and nature of business activity.

(2) Affiliates, as used in this definition, means business concerns, one of whom directly or indirectly controls or has the power to control the others, or a third party or parties control or have the power to control the others. In determining whether affiliation exists, consideration is given to all appropriate factors including common ownership, common management, and contractual relationships. SBA determines affiliation based on the factors set forth at 13 CFR 121.103.

(b) If the Contractor represented that it was any of the small business concerns identified in 19.000(a)(3) prior to award of this contract, the Contractor shall rerepresent its size and socioeconomic status according to paragraph (f) of this clause or, if applicable, paragraph (h) of this clause, upon occurrence of any of the following:

(2) Within 30 days after a merger or acquisition that does not require a novation or within 30 days after modification of the contract to include this clause, if the merger or acquisition occurred prior to inclusion of this clause in the contract.

(3) For long-term contracts--

(i) Within 60 to 120 days prior to the end of the fifth year of the contract; and

(ii) Within 60 to 120 days prior to the date specified in the contract for exercising any option thereafter.

(c) If the Contractor represented that it was any of the small business concerns identified in 19.000(a)(3) prior to award of this contract, the Contractor shall rerepresent its size and socioeconomic status according to paragraph (f) of this clause or, if applicable, paragraph (h) of this clause, when the Contracting Officer explicitly requires it for an order issued under a multiple-award contract.

(d) The Contractor shall rerepresent its size status in accordance with the size standard in effect at the time of this rerepresentation that corresponds to the North American Industry Classification System (NAICS) code(s) assigned to this contract. (h) Certification Regarding Responsibility Matters (Executive Order 12689). (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals--

(1) ___ Are, ___ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) ___ Have, ___ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) ___ Are, ___ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) ___ Have, ___ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied.

(B) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. Sec. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. Sec. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax

liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. Sec. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

SECTION M - EVALUATION FACTORS FOR AWARD
A. BASIS FOR AWARD

The award will be made based on the best overall (i.e., best value) proposal that is determined to be the most beneficial to the Government, with appropriate consideration given to the four evaluation factors: Technical, Cost/Price, Past Performance, and Small Business Participation. Technical is the most important factor and is more important than all of the remaining factors combined. Past Performance and Cost/Price are equal in importance and more important than Small Business Participation Plan. In order to be eligible for award, all Technical Factors must be evaluated "Acceptable". Additionally, any other than small business offeror must have an acceptable Small Business Subcontracting Plan to receive an award in accordance with FAR 19.702(a). Offerors will be cautioned that the award may not necessarily be made to the lowest price offered. NOTE: ALL NON-PRICED FACTORS COMBINED ARE MORE IMPORTANT THAN COST/PRICE.

B. FACTORS AND SUBFACTORS TO BE EVALUATED

The following evaluation factors and subfactors will be used to evaluate each proposal: Award will be made to the offeror whose proposal is most advantageous to the Government based upon an integrated assessment of the evaluation factors and subfactors described below, and whose facility has been inspected and found to be acceptable during a site visit. The Government reserves the right to award without discussions but reserves the right to conduct discussions if the PCO determines it in the best interest of the Government. The Government reserves the right to make award based upon the Cost/Price factor in the event that the Technical, Past Performance, and Management evaluation results of all the offerors proposals are substantially the same.

Factor 1: The Technical factor is further divided into the following subfactors:

- a. Subfactor 1 Location: The Government will evaluate the contractors proposal and conduct a site visit to determine whether the contractors proposed facilities are within 25 miles of the customers Huntsville, AL, 35806.
- b. Subfactor 2 Facility: The contractor must demonstrate they have a secure, access-controlled facility for the storage and handling of Government property.
- c. Subfactor 3 Inventory Management System: The contractors inventory management system has the ability to have unique segregation/project codes to manage material/property at the product level.

Subfactor 1 is More important than Subfactor 2. Subfactor 2 is More important than Subfactor 3.

Evaluation of the offerors proposal shall address each Technical subfactor as it applies to the Performance Work Statement (PWS). A detailed explanation of the criteria for the evaluation is set forth in the Evaluation Approach, Paragraph C of this section. During evaluation of each proposal, the Government will assign each Technical subfactor an adjectival rating and write a narrative evaluation reflecting the identified findings.

Factor 2: Cost/Price: The resulting award will be an Indefinite Delivery, Indefinite Quantity award. Cost realism will be utilized in the evaluation of Cost Reimbursable efforts. Price reasonableness will be utilized in the evaluation of the Firm-Fixed Price effort.

Factor 3: Past Performance: Each offerors past performance will be reviewed to determine relevancy and confidence assessment.

Factor 4. Small Business Participation: Each offerors level and degree of commitment to utilize small business in execution of the requirement will be evaluated.

C. EVALUATION APPROACH

All proposals shall be evaluated by the Source Selection Team (SST).

1. The overarching evaluation approach for all factors and subfactors is as follows:
 - a. Adequacy of Response. The proposal will be evaluated to determine whether the offerors methods and approach have adequately and completely considered, defined, and satisfied the requirements specified in the RFP. The proposal will be evaluated to determine the extent to which each requirement has been addressed in the proposal in accordance with the proposal submission section of the RFP.
 - b. Feasibility of Approach. The proposal will be evaluated to determine the extent to which the proposed approach is workable and the end results achievable. The proposal will be evaluated to determine the extent to which successful performance is contingent upon proven devices and techniques. The proposal will be evaluated to determine the extent to which the offeror is expected to be able to successfully complete the proposed tasks and technical requirements within the required schedule.
2. The Technical factor is divided into the following subfactors:

<p style="text-align: center;">CONTINUATION SHEET</p>	<p style="text-align: center;">Reference No. of Document Being Continued W58RGZ-23-R-0045</p> <p> PIIN/SIIN MOD/AMD </p>	<p style="text-align: right;">Page 50 of 53</p>

Name of Offeror or Contractor:

Subfactor 1: This subfactor evaluates the offerors proposed understanding of the location for the facility for the IDIQ Ordering Period. Marginal levels of overall facility location could indicate a lack of understanding concerning mission requirements and may result in the entire proposal receiving an unfavorable rating and/or being eliminated from the competitive range. The Government will evaluate the contractors proposal and conduct a site visit to determine that the contractor has the facilities space and climate-controlled capabilities per the PWS. The Government will evaluate the contractors available storage space to accommodate the required square footage along with pallet positions. The Government will evaluate separate spaces for a Clean Test & Inspect lab, along with spaces for shipping and kitting functions. These spaces are to be in the same footprint as the storage space, or separate spaces but close proximity to the storage space, to prevent damage to Government property. The Government will evaluate and also be observing any ongoing warehouse operations, looking for safety related issues that might pose a risk to damage of Government property during storage, handling, & shipping.

Subfactor 2: This subfactor evaluates the offerors understanding of the facility needs.. The Government will conduct a Site Visit to all Offerors who are proposing in response to Request For Proposal (RFP) W58RGZ-22-R-0075. This site visit provides the USG the opportunity to verify the location that is being proposed, tour the facility with the intent of seeing the square footage, and the individual work areas that will be utilized to support the requirements stated in the Performance Work Statement for PM ASE Warehousing, Shipment, and Logistics Sustainment.

Major emphasis will be placed on the following:

KEY POINT #1 - Area Space

The Government will evaluate whether the contractor has ample space and pallet racking available to provide 15,000 square feet with 2,000+ pallet positions of storage space.

KEY POINT #2 Support Staff

KEY POINT #3 - Climate Controlled

The Government will evaluate if the contractors facilities are climate controlled with heating and air-conditioning.

KEY POINT #4 Test Equipment and Calibration Lab

The Government will evaluate the contractors on-site calibration lab and/or determine if the contractor has access to off-site vendors to perform test/support equipment calibrations.

Based on site visits and contractors proposal, the Government will evaluate the contractors Purchasing and Sourcing capabilities to ensure the contractor can create & establish purchase orders for procurement of supplies necessary to support the day-to-day warehouse operations and Test & Inspect (T&I) lab operations.

KEY POINT #5 Shipping

Based on site visits and the contractors proposal, the Government will evaluate the contractors certification to International Traffic in Arms Regulations (ITAR) in order to perform direct shipments Globally in support of the Governments mission.

KEY POINT #6 A-KIT and B-KIT Assembly

The Government will evaluate the contractors facility, via site visits, to determine whether they have adequate space to perform system B-Kit kitting effort. This space shall be co-located within the planned storage area or be in close proximity to the storage area to prevent damage to Government property during movement of assets for kit building/packaging.

KEY POINT #7 Maintenance Repairs and Operational (MRO) Inventory

The Government will evaluate the contractors ability to create & establish purchase orders for procurement of supplies necessary to support the day-to-day warehouse operations, minor component repairs (as directed by the Government) and Test & Inspect (T&I) lab operations based on the contractors proposal.

KEY POINT #8 DRMO

The Government will evaluate the contractors ability to process transactions, to disposition material as directed by the Government, to the Defense Reutilization Market Office (DRMO) based on the contractors proposal.

KEY POINT #9 TEST & INSPECT

The Government will evaluate the contractors proposal to determine if their inventory management system has the ability to scan Unique Item Identifier (UII) during receipt of Government property, and capture the scanned data to the record, for property that meets UIID marking requirements in AR 700-145.

KEY POINT #2 Quality Control Plan

The Government will evaluate the contractors Quality Assurance Plan (QAP), that has been approved by the Government, during performance of this effort. The Government will evaluate the contractors Quality Control is ensured through the implementation of an AS9100 and FAR Part 46 compliant Quality Management System (QMS) that is comprised of policies, procedures, technical work instructions and other command media that governs the means by which all work is accomplished. The Government will also evaluate that compliance to contractual requirements is verified through product inspection by trained and certified employees and inspectors, ongoing QMS and product audits, data collection and trend analysis, closed-loop corrective and preventive actions systems, continuous improvement, and other tools tailored to the needs of the contract requirements. Cost Monitoring: The Government will evaluate the contractors Cost Monitoring system to ensure it provides sufficient management support to ensure the requirements of this contract are accomplished. The Government will evaluate the contractors ability to monitor program cost, schedule, performance, and maintain related data.

KEY POINT #3 Safety and Security Plan

The Government will evaluate the contractors Safety Plan and processes that define procedures used to protect the contractors employees from injury and Government property from damage based on the contractors proposal, site visits, and review of contractors documented Safety Plan. Security Plan: The Government will evaluate the contractors Security Management Plan from the contractors proposal, site visits, and the contractors documented Security Plan. The Government will be evaluating the plan to ensure it provides protection of Government Material from pilferage (building access & security methods), identifies methods of securing and storing classified equipment, identifies processes for classified document control, processes for classified materials inventories, employee security training requirements, and contractors use of security related databases.

In accordance with the Army Source Selection Supplement (AS3), Section 3.1, the Army methodology for evaluating Technical Approach and Related Risk is the Combined Technical/Risk Rating. This methodology considers risk, in conjunction with the strengths, weaknesses, significant weaknesses, uncertainties, and deficiencies in determining technical ratings.

3. Cost/Price Factor. Adjectival ratings shall not be used for offerors Cost/Price proposals. The Government will fully evaluate and negotiate all priced Contract Line-Item Numbers (CLINs) ordering periods for award. For award purposes, the total proposed price for all CLINs will be added together into a total sum (contract ceiling) The evaluation of all option CLINs ordering periods will not obligate the Government to place more than the minimum order. The Offerors Cost/Price proposal will be evaluated as follows.

a. Cost Reimbursable Evaluation: A cost realism analysis will be performed on the cost-reimbursement CLINs to determine whether specific estimated proposed cost elements are realistic for the work to be performed; reflect a clear understanding of the contract requirements; and are consistent with the unique methods of performance described in the Offerors Technical proposal. The realism analysis will also be used to evaluate the offerors understanding of contract technical requirements and the risk associated with the Offerors Technical proposal. Therefore, the Offeror is advised to clearly show justification for unique practices that significantly lower costs. The offerors cost-reimbursement proposal and estimates will be traced from the Cost/Price proposal volume basis of estimates to the performance of the requirements addressed in the technical proposal. The Government will perform an evaluation of the technical elements contained within the Offerors Cost/Price proposal to perform the PWS. The findings of this evaluation will be incorporated into the cost realism evaluation.

The results of the cost realism evaluation will determine the probable cost of performance as it relates to the technical approach proposed by each offeror and will be utilized in the selection of the offer that provides the best value to the Government. As part of the realism analysis, the Government will calculate an evaluated cost by adjusting each offerors proposed cost to reflect any additions or reductions in cost elements to realistic levels based on the results of the cost realism analysis. The evaluated cost may differ from the proposed cost and will reflect the Governments best estimate of the cost that is most likely to result from the Offerors proposal. If the total evaluated cost is higher than the proposed, the evaluated becomes the probable cost. If the total evaluated cost is lower than the proposed, the proposed becomes the probable cost.

b. Overall Cost/Price Proposal Evaluation: The overall Cost/Price proposal will be evaluated for the following:

1)Compliance: The Cost/Price proposal submitted by the Offeror will be evaluated for compliance based upon the submission

requirements contained in the Section L-X Cost/Price instructions (the Section L reference should correspond to the section of the solicitation that provides the instructions for preparing the Cost/Price Volume).

2)Unbalanced Pricing: The Offerors overall Cost/Price proposal will be evaluated for unbalanced pricing as defined in FAR 15.404-1(g). An offer may be rejected if the contracting officer determines that the lack of balance poses an unacceptable risk to the Government (see FAR 15.404-1(g)(1) through FAR 15.404-1(g)(3)).

3)Errors: The Offerors Cost/Price proposal will be reviewed for errors. The Offeror may be given an opportunity to clarify certain aspects of their proposal at the sole discretion of the Contracting Officer.

4)Business Systems: The Government will verify the adequacy of the Offerors business systems.

5)Total Evaluated Price: The Total Evaluated Price consists of summing the Offerors proposed fixed-price (FFP CLIN prices (CLIN 0002)) and the probable cost amount for the cost-reimbursement (CPFF, Cost (no fee), etc.) CLINs (CLIN 0001 and, CLIN 0003).

The Total Evaluated Price will only include the probable cost of the phase in effort PWS 11.3 (covers initial receipt of material transferred from Lexington, KY), Section 6.1(calls out the need for up to four additional resources to process initial receipts and section 17.2 (covers close out requirements as a general statement.) These costs will only be counted once.

4. Past Performance Factor. The Government will evaluate the offerors record of past and current performance to ascertain the probability of successfully performing the required efforts of the PWS.

a. Evaluation of past performance shall be in accordance with this plan utilizing the forms and questionnaires set forth in Appendix D.

b. The Government will focus its inquiries on the offerors (and major subcontractors) record of performance as it relates to all solicitation requirements, including cost, schedule, performance, and management of subcontractors. For the purposes of this SSP/Requirement, major subcontractors are defined as members of an offerors overall team who are expected to perform 25 percent or more of the proposed effort. A significant achievement, problem, or lack of relevant data in any element of the work can become an important consideration in the evaluation process. Therefore, offerors will be reminded to include the most recent and relevant efforts (within the past three years) in their proposal. Absent any recent and relevant past performance history or when the performance record is so sparse that no meaningful confidence assessment rating can be reasonably assigned, the offeror will be assigned a neutral confidence rating and its proposal will not be evaluated either favorably or unfavorably on past performance. The Government may use data provided by the offeror in its proposal and data obtained from other sources, including data in Government files or data obtained through interviews with personnel familiar with the contractor and their current and past performance under Federal, State or Local government or commercial contracts for same or similar services as compared to the NAICS 493110 General Warehousing and Storage.

c. Offerors shall submit all Government and/or commercial contracts for the prime offeror and each major subcontractor in performance or awarded during the past (3) three years, from the issue date of this RFP, which are relevant to the efforts required by this RFP. The Government may consider a wide array of information from a variety of sources but is not compelled to rely on all of the information available.

d. The past performance factor considers each offerors demonstrated recent and relevant record of performance in supplying products and services that meet the contract requirements. There are three aspects to the past performance evaluation: recency, relevancy, and quality.

(i) RECENCY: The first aspect is to evaluate the recency of the offerors past performance. Recency is generally expressed as a time period during which past performance references are considered relevant and is critical to establishing the relevancy of past performance information.

(ii) RELEVANCY: The second aspect is to determine how relevant a recent effort accomplished by the offeror is to the effort to be acquired through the source selection. Relevancy is not separately rated. Relevant is defined as similar service/support, complexity, dollar value, contract type, and degree of subcontract/teaming as this RFP.

(iii) QUALITY ASSESSMENT: The third aspect assesses the overall quality of the offerors past performance. Documented results from Past Performance Questionnaires, interviews, CPARS, and other sources form the support and basis for this assessment.

e. Performance Confidence Assessment: Utilize the Performance Confidence Assessment. Ensure the rationale for the conclusions reached are included.

5. Small Business Participation Factor. IAW Defense FAR Supplement (DFARS) 215.304(c)(i), the extent to which offerors identify and commit to small business performance of the contract shall be evaluated. Offerors shall submit a Small Business Participation Commitment Document (SBPCD) which specifies the offerors level and degree of commitment to small business

utilization/participation in performance of this requirement. An SBPCD is required from all offerors, including companies with commercial plans and comprehensive subcontracting plans. The Government will evaluate the following:

- a. Actual prior use of small businesses
- b. Use of small businesses in the socioeconomic categories
- c. Types of work performed by small businesses
- d. Performance against subcontracting plan goals.

Of the proposed total dollars, not subcontract dollars, identify the proposed dollar value and percentage of anticipated awards to the following small business categories: Small Business (SB), Small Disadvantaged Business (SDB) (including Historically Black Colleges/Universities/Minority Institutions), Woman-Owned Small Business (WOSB), HUBZone Small Business (HZ), Veteran-Owned Small Business (VOSB), and Service-Disabled Veteran-Owned Small Business (SDVOSB). All percentages should use Total Contract Value as a baseline. The extent to which the offeror provides detailed explanations/documentation supporting the proposed participation percentages, or lack thereof will be considered. Note: A small business that fits more than one category can be counted towards more than one category.

For purposes of this requirement, total contract value is defined as the cumulative value of task order awards received. Small business prime offerors may achieve small business participation (meet or exceed MQR) through their own performance/participation as a prime and also through subcontracting to other small businesses. All offerors are required to submit Small Business Participation Commitment Documents in accordance with the instructions in Section L. Small business participation commitments will become requirements and be incorporated into the resulting contract.

The contractor shall report actual achievement of small business participation results on an annual basis and shall discuss performance in achieving the small business commitments/requirements.

Small business utilization metrics/performance requirements are specified in the Performance Requirements Summary of the Quality Assurance Surveillance Plan.

D. DISCUSSIONS

1. GENERAL INFORMATION. In accordance with FAR 15.306(d), discussion sessions with each offeror may be held. Should discussions take place, all offerors in the competitive range will be allowed a minimum of 15-30 calendar days to submit Final Proposal Revisions.

2. DISCUSSION SCHEDULING. If discussions are conducted, the Contracting Officer will schedule the discussion sessions, and each offeror will be notified of the time and place at least 5 (five) business days prior to their discussion session. Appropriate security clearances should be provided by the offerors in sufficient time to process the requests. The Contracting Officer will provide additional instructions with the notification. The discussion sessions will take place at a facility of the Governments choosing in the Huntsville, AL area.
