VENDOR QUESTIONS AND ANSWERS

**Question 1:** P/N 2132461 welding specs were old and were cancelled in 1982. We can quote welding specs per:

- o AWS D1.2/D1.2M-2014
- o 4043 Filler per AWS A5.10/A5.10M\_2012

Please advise on whether this is acceptable.

**Answer:** This is acceptable.

**Question 2:** P/N 2132461, 1330680, and 7609090 call for part marking using black epoxy ink or black stencil ink. Would you like us to use stencils to part mark? If not, we would suggest using laser engraving as using black ink for part marking may be messy looking and hard to read.

Please advise.

**Answer:** 2132461, 1330680: SAE AS478- 15B3 is acceptable, PROVIDED engraving is performed prior to plating and is clearly visible and fillable (with contrasting ink) post plating.

7609090: This panel should marked IAW, SAE AS478- 3B2.

**Question 3:** Could you tell me a color number for the topcoat of gray finishes and also, a type and class for the TT-E-527 on the fill engrave portion for the finish?

**Answer:** Please refer to the specifications called out in the TT-E-527.

**Question 4:** Is it possible to get a 3D cad model or solid work file?

**Answer:** There are no CAD or Solid work files for these drawings.
