## SECTION SF 30 BLOCK 14 CONTINUATION PAGE

**SUMMARY OF CHANGES**

## SECTION SF 30 - BLOCK 14 CONTINUATION PAGE

The following have been added by full text:

QUESTIONS AND ANSWERS

Q1. What's the Dongle ID for the Lenel system?

A1. Due to security requirements, the Dongle ID can be provided upon receipt of award.

Q2. What's the status of the SUSP?

A2. The Software Upgrade and Support Plan is current. Note that it is the contractor's responsibility for install and support of all software.

Q3. Can the government provide a list of buildings and equipment per building?

A3. No, the performance work statement states our requirements and the number of buildings and equipment per building is not necessary.

## SECTION SF 1449 - CONTINUATION SHEET

## SOLICITATION/CONTRACT FORM

The required response date/time has changed from 21-Feb-2023 10:00 AM to 24-Feb-2023 02:00 PM.

The following have been modified:

## 52.212-2 EVALUATION--COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (NOV 2021)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

(b) Options. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

**ADDENDUM TO FAR 52.212-2, BASIS OF AWARD:****A. General Information:**

1. The basis of award will be the Lowest Priced, Technically Acceptable offer. Offerors must receive a rating of Technically Acceptable in **all** factors/subfactors in order for their overall proposal to be determined Technically Acceptable.
2. By submission of its offer, the offeror accedes to all solicitation requirements, including terms and conditions, and technical requirements.
3. The Government intends to make award without discussions, unless the Contracting Officer determines that discussions are necessary. Offerors should provide their most favorable prices in their initial offers.

**B. Non-Price Evaluation Factors and Subfactors:****1. Factor 1- Technical:**

- (a) Subfactor 1 Capability Statement: The contractor shall provide a statement demonstrating their capabilities to perform the services listed in the Requirements section (5.0) and the Deliverables section of the Performance Work Statement (PWS). The Capability Statement shall demonstrate that the contractor has reviewed the requirements and quantities, and that they are able to meet that requirement. Capability statements shall come in the form of a narrative with supporting documentation such as brochures, videos, testimonials, and other information to clearly demonstrate understanding of the requirement and ability to perform.
- (b) Subfactor 2 Certifications: The contractor shall show proof of training in LENEL Certification.
- (c) Subfactor 3 Value Added Reseller Status: The contractor shall show proof of their value added reseller status of LENEL parts and equipment.
- (d) Subfactor 4 Past Experience: The offeror shall provide three recent and relevant Government or private sector projects completed within the past three years that demonstrates their ability to perform the requirements in this solicitation and PWS. The offeror shall identify the contract title, contract number, dollar value, client name and address, location of work, point of contact with telephone number, and an explanation of how each project relate to the work requirements of this solicitation.
- (e) Subfactor 5 Secret Facility Clearance: The contractor shall provide proof of and provide assurances in maintaining a SECRET facility clearance from the Defense Security Services. The contractor's employees, performing work in support of this contract shall have been granted a SECRET security clearance from the Defense Industry Security Clearance Office.

**C. Price Evaluation Factor:** Offerors shall complete the Schedule B with pricing for each Contract Line Item Number (CLIN), including for all Option Years. The price for CLINs 0005, 0006, 1005, 1006, 2005, and 2006 will be set by the Government and will not be evaluated. The Government may require continued performance under FAR clause 52.217-8, Option to Extend Services. The Government will evaluate the basic and all option year prices on the basis that the rates will not change if the Government opts to utilize its option per FAR clause 52.217-8 at the end of the basic or any option year during the performance of the contract. Evaluation of the option year pricing in this manner shall not obligate the Government to exercise the options.

**D. Proposals will be evaluated initially independently of the price to determine the Offerors' ability to meet the Government's requirement set forth in the solicitation.** The Government may make a final rating determination based on the proposal as submitted without requesting any further information. For all proposals determined to be Technically Acceptable, the offer providing the lowest price will receive the contract award.

1. Offerors' technical proposals will receive an overall rating based on the following:

(a) Technically Acceptable: Offeror meets **all** requirements or technical specifications or has submitted all documentation requested in any technical evaluation criteria and all documentation meets the standard set forth in the solicitation.

(b) Technically Unacceptable: Offeror fails to meet **all** requirements or technical specifications or has failed to comply in submitting requested documentation in any technical evaluation criteria or the submitted documentation fails to meet the standard set forth in the solicitation.

2. Evaluation of past performance will be performed only on proposals that receive a technically acceptable rating on technical evaluation factors. Offerors' past performance information will receive an overall rating based on the following:

(a) Acceptable: Based on the Offeror's performance record, the Government has a reasonable expectation that the Offeror will successfully perform the required effort, or the Offeror's performance record is unknown. An Offeror without a record of relevant past performance or for whom information on past performance is not available or so sparse that no meaningful past performance rating can be reasonably assigned, shall be determined to have unknown past performance. In the context of acceptability or unacceptability, "unknown" shall be considered "acceptable."

(b) Unacceptable: Based on the Offeror's performance record, the Government has no reasonable expectation that the Offeror will be able to successfully perform the required effort.

(End of provision)
