Compressor Operating Pressure	Speed	UNITS
	1770 RPM (60 Hz)	SCFM
1750 PSIG	88	
	56	HP
3630 PSIG	88	SCFM
	63	HP
5000 PSIG	88	SCFM
	67	HP

Technical Specifications

Motor rating (HPAC only)	75	HP
Current @ 460 Volts (HPAC only)	86	Amps
Weight	9,100	Pounds
Noise level @ 3 ft from compressor	85	dB(A)
Heat dissipation	187,668	Btu/hr
Cooling air needed	5,886	CFM
Residual oil content at air outlet (after dryer/filtration)	< .01	ppm

Pressure dewpoint at container outlet	< -40	°F
Atmospheric dewpoint at container outlet	< -70	°F
Outdoor operational ambient temperature range	0-105	°F
Final Pressure Range	0-5000	psig
Oil sump capacity	16.9	Quarts
Shipping dimensions (L x W x H)	10 X 8 X 8.5	Feet
Cooling method	Air-Cooled	
Drive type	Direct Drive	
Stages/Cylinders	4/4	

NOTE: Requires Norfolk Naval Base Access and MARMC Buildings LF-18. (Allow 21 working days for Naval Station Norfolk access via the DBIDS process)
