

**DEPARTMENT OF THE AIR FORCE  
UNITED STATES SPACE FORCE  
SPACE BASE DELTA 1**

10 August 2023

FROM: 21 CONS/PKB  
135 Dover Street, Ste. 2225  
Colorado Springs, CO 80915-1055

SOLICITATION NUMBER: FA2517-23-Q-0077-0001 **Amendment 3**

SUBJECT: Request for Quote (RFQ) for 21st Communications Squadron (21 CS) Inside Plant (ISP) CAT-6

The purpose of this amendment is to:

1. Incorporate Revised PWS.
2. Clarify Factor 1

See changes below in **RED**. All other conditions of this solicitation remain the same.

---

- i. This is a combined synopsis/solicitation for commercial items prepared in accordance with the format in FAR Subpart 12.6, as supplemented with additional information included in this notice. This announcement constitutes the only solicitation; quotes are being requested and a written solicitation will not be issued.
- ii. This Request for Quote (RFQ), FA2517-23-Q-0077, is in support of the 21st Communications Squadron (21 CS) inside plant (21 CS) installation of cabling infrastructure in accordance with (IAW) the Performance Work Statement (PWS) (Attachment 1: PWS 38CEIG-2022-00110 Peterson SFB B350 ISP Infrastructure Upgrade Phase I).
- iii. The solicitation document and incorporated clauses and provisions are those in effect through Federal Acquisition Circular 2023-04 - 02 June 2023.
- iv. A single award will be made as a result of evaluation of the quotes received. The NAICS code for this requirement is 238210 - Electrical Contractors, Other Wiring Installation Contractors. The size standard is \$19M. **This requirement is a 100% Small Business set-aside.** Responses received from a contractor that is not a small business will not be accepted.
- v. As detailed below, the requirement includes the following CLIN structure separated by installation location:

CLIN	Line Item Description	Unit	Qty
0001	Materials required for work IAW Attachment 1: PWS Bldg 350 ISP	Lot	1
0002	(Labor) Services required for work IAW Attachment 1: PWS Bldg 350 ISP	Lot	1

- vi. The contractor will be required to install new CAT-6 or better wiring, and install: CAT 6 patch panel, cable management systems, racks, cable hangers, wall outlets drops and an updated/consolidated C4I drawing of the communication infrastructure within the buildings. All cabling requirements will follow the standards and guidance coordinated with 21 CS on base wiring standards, cable, faceplate labeling, and cable color scheme. All products are available in the commercial marketplace and will be configured to meet military grade and security requirements as well as being required to remove existing outdated and abandoned-in-place premise wiring in these zones. Offerors are expected to complete all work IAW the attached PWS, if they are selected for award, at the prices specified in their quote. Mission requirements may necessitate work outside normal hours (maintenance windows, nights, and/or weekends), especially if existing services must be interrupted in accordance with Attachment 1: PWS 38CEIG-2022-00110 Peterson SFB B350 ISP Infrastructure Upgrade Phase I.

**SEMPER SUPRA**

- vii. Performance shall take place on Peterson Space Force Base IAW Attachment 1: PWS 38CEIG-2022-00110 Peterson SFB B350 ISP Infrastructure Upgrade Phase I. The period of performance for the completion of all installations shall be six (6) months from the date of award.
- viii. Addendum to: Provisions at FAR 52.212-1, Instructions to Offerors - Commercial (Mar 2023)
  - a. To ensure full compliance with this solicitation document, offerors must follow the instructions and meet all solicitation requirements, including provisions and clauses, and representations and certifications. **Any offeror who submits an incomplete quote or does not conform to all instructions in this document may be considered non-compliant and the quote may not be evaluated.**
  - b. Offerors shall assume that the Government has no prior knowledge of their experience and capabilities and will base its evaluation on the information that the offeror presents in their quote.
  - c. Offerors are advised to submit adequate information to enable evaluators to fully determine the offeror's capability to perform the requirements of the PWS. The quote shall be clear and include sufficient detail for the effective evaluation. The data submitted shall be accurate, complete, and concise. **The offeror is fully expected to perform all objectives in the PWS document at the prices specified in their quote.**
  - d. The Government reserves the right to cancel this solicitation, either before or after the closing date. In the event the Government cancels this solicitation, the Government has no obligation to reimburse an offeror for any costs they may occur. The Government intends to make a selection based on the initial quote submissions without conducting interchanges. Therefore, each quote should contain the Offeror's best terms from a price, and technical, standpoint. **Conversations** may be conducted with one, some, or all offerors as the Government is not required to conduct **Conversations** with any or all Offerors responding to this solicitation. **Conversations** are fluid interaction(s) between the Contracting Officer (CO) and the Offerors that may address any aspect of the quote and may or may not be documented in real time.
  - e. **Acceptance Period:** The offeror agrees to hold the prices firm for 90 days from the date specified for receipt of offers.
  - f. **Amendment(s) to the Solicitation (if applicable):** The Government reserves the right to revise or amend the solicitation documents prior to the date of receipt of quotes. The Government will make no changes to the solicitation without an amendment. Amendments will be posted to SAM.gov; it is the responsibility of the offeror to check the website and related postings for amendments to the solicitation. Offerors shall acknowledge receipt of any amendment(s) in conjunction with submittal of a quote. Any unacknowledged amendment(s) in the offeror's quote may render the offeror's entire quote non-compliant and ineligible for award.
  - g. **Solicitation response:** Volume I, responses to this solicitation document shall not exceed five (5) pages (page count does not include cover page, indices, or table of contents). Volume II Pricing: there is no page limit for the pricing volume. Offerors are expected to submit their responses to include the following structure:

**Volume I: Cover Page:** The Cover Page shall include the RFQ number and solicitation title, offeror's business name, address, CAGE code, DUNS number, primary and alternate points of contact (who are authorized to contractually obligate the company), small business status under NAICS code 238210, and a short statement that the offeror understands the requirements specified and will meet the performance standards and requirements therein.

**Volume I - Factor 1: Technical Capability:** This section shall include all information pertinent to the requirement that enables the evaluators to identify that the offeror is capable of performing all contractual actions. **The offeror shall not merely regurgitate the requirements of the PWS.**

The offeror shall provide an approach on how to engineer, furnish, install, and test (EFI&T) a complete ISP CAT-6 project, to include a flowchart detailing the steps required to support your approach. The offeror's approach shall address the requirements from the PWS Attachment.

**Volume 2 - Factor 2: Pricing:** This section shall include all information regarding the pricing of materials and labor required to complete all ISP installations as stated in the attached PWS document. Offerors are required to prepare a Firm-Fixed-Price (FFP) priced quote for labor and materials. At a minimum, pricing shall be provided in the CLIN structure outlined in Table 2 - Pricing Structure. Pricing submission shall include labor categories, labor rates, labor hours and a full bill of materials, which will become Government furnished equipment upon acceptance by a Government official.

Table 2 - Pricing Structure					
CLIN	Line Item Description	Unit	Qty.	Unit Price	Extended Amount
0001	Materials required for work IAW Attachment 1: PWS 38CEIG-2022-00110 Peterson SFB B350 ISP Infrastructure Upgrade Phase I. The Bill of Materials must be submitted and accepted in WAWF by a government official. Upon acceptance, the materials become property of the Government.	Lot	1		
0002	Labor required for work IAW Attachment 1: Attachment 1: PWS 38CEIG-2022-00110 Peterson SFB B350 ISP Infrastructure Upgrade Phase I. The contractor may bill against this CLIN upon completion of this installation.	Lot	1		

ix. Addendum to: Provision at FAR 52.212-2, Evaluation - Commercial Products and Commercial Services (Nov 2021)

- a. The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

**Factor 1 - Technical Capability:** The technical evaluation team will evaluate Sub-Factor 1 contained in Volume I - Factor 1, Technical Acceptability, and rate it as either "Unacceptable" or "Acceptable". An "Acceptable" rating is required to be considered for award. **An "Unacceptable" rating may render the entire quote unacceptable and therefore, un-awardable.**

To be rated "Acceptable": 'Volume I - Factor 1, Technical Capability must contain a response that details the approach required to Engineer, Furnish, Install, and Test (EFI&T) an ISP project. The evaluation team must be able to identify that a complete end-to-end, functional and feasible approach has been developed with a sequenced rollout of steps. An "Acceptable" response must include a flowchart. An "Acceptable" response must also include how the offeror will complete the project.

**Factor 2 - Price:** Price will be evaluated based upon the total contract value in order to determine if the quoted price is fair and reasonable in accordance with FAR 13.106-3.

- a. Evaluation Process: Quotes will be ordered from lowest to highest price. The Government will evaluate the lowest priced quote for Factor 1 - Technical Acceptability. If the lowest priced quote is technically acceptable, then the evaluation will stop, and the Government will award to the lowest priced quote. If the lowest priced quote is not technically acceptable, the Government will evaluate the next lowest priced quote for technical acceptability. This process will continue until there is a technically acceptable quote. The Government will then award to the lowest priced, technically acceptable offeror.

Offers are advised to include a completed copy of the provision at FAR 52.212-3 (Dec 2022) Offeror Representations and Certifications - Commercial Products and Commercial Services, with their offer.

**SEMPER SUPRA**

- x. The following provisions/clauses listed below have been determined by the contracting officer to be necessary for this acquisition and consistent with customary commercial practices. Additional applicable clauses will be added to the final contract award as determined to be necessary and required by the Contracting Officer prior to execution. Representation is required for contract award.

**FAR Provisions and Clauses**
