

Recovered Materials Determination Form

Instructions

This form is to be completed by the procurement originator when EPA-designated items included in the Affirmative Procurement Program for Recovered Materials are being procured from outside vendors. For questions on whether the product counts as “EPA designated” or what the required recycled content is, refer to product descriptions on EPA’s website at <http://www.epa.gov/cpg>. This form is not required for items requisitioned from established Federal supply sources.

1. The procurement originator lists which item(s) apply to the procurement request, the required recycled content, the actual recycled content, and signs and dates the appropriate Certification on the back of this form.
2. If an exemption is being claimed, the procurement originator’s unit commander also signs the Certification on the back of this form.
3. The completed form becomes part of the contracting office contract file.

Contract: DKGV-1132665 Repair Latrines NNPTC Training Facility B2400

The EPA-designated items being procured are:

CERTIFICATION

Contract: DKGV-1132665

Complete Part A or Part B as appropriate:

- A. To the best of my knowledge the Statement of Work/Specifications for the requisition of all materials listed on this form complies with EPA standards for recycled/recovered materials content.

William T Dorsey Project Manager
Procurement Originator's Signature

07 February 2023
Date

- B. The following item does not comply with EPA standards for recycled/recovered materials *(please complete a separate justification for each noncompliant item purchased as part of this procurement action)*: _____

The exemption being claimed for this purchase is:

☐ The product does not meet appropriate performance standards

☐ The product is not available within a reasonable time frame

☐ The product is not available competitively (from two or more sources)

☐ The product is only available at an unreasonable price (it costs more than a comparable non-recycled-content product). The recycled-content product costs \$_____ per _____ and the non-recycled-content product costs \$_____ per _____.
