

Amendment 01 Attachment 08/31/2023: Questions & Answers - Design of Court Security Project (CSP) in Hattiesburg, MS	
Questions	Answers
<p>Is there a limit on pages for the response?</p>	<p>Per the Request for Qualifications (RFQ) Solicitation# 47PE0323R0004 posted to SAM.gov 08/11/2023: The A/E Firm will submit a portfolio of at least three but not more than five projects completed in the last ten years (maximum of three pages per project) similar in nature to the William M. Colmer Federal Building and U.S Courthouse Security, Repair and Alterations Project.</p> <p>Note: The page limitation depends on whether an offeror submits three, four, or five similar projects for review. Cover and divider pages are not included in this page limitation. An example would be that if an offeror submits four projects, the total page limitation would be 12 pages for those four projects and the GSA would not count cover or divider pages in that page limitation requirement.</p>
<p>If we have CPARS, should we plan to include them in a section on Past Performance or will The Government evaluate on their own?</p>	<p>Firms do not need to submit CPARS.</p>
<p>Is the submission to include any SF330 forms?</p>	<p>SF330s are not necessary for Stage 1.</p>
