Quotes shall be submitted no later than – see Block 10. Quotes shall be submitted via email to Melva.Robinson@bep.gov.

3.0 CONTRACT AWARD

The Government intends to evaluate quotes and award a contract without discussions with Quoters. Therefore, the Quoter’s initial quote should contain the Quoter’s best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all Quotes if such action is in the public interest; accept other than the lowest quote; and waive informalities and minor irregularities in Quotes received.

4.0 MULTIPLE AWARDS

The Government may accept any item or group of items of a quote, unless the Quoter qualifies the quote by specific limitations. Unless otherwise provided in the Schedule, Quotes may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity quoted, at the unit prices quoted, unless the Quoter specifies otherwise in the quote.

EVALUATION

FAR 52.212-2 -Commercial Products (NOV 2021)

1.0 GENERAL

The Government will review quotations submitted to determine compliance with the quotation preparation instructions. If it is determined that the quotation is substantially not in compliance with the instructions above, the Government may deem that quotation to be unacceptable and it will not be evaluated further. The quotation may be removed from consideration for contract award.

2.0 EVALUATIONS METHODOLOGY

The Government will award a contract resulting from this solicitation to the responsible Quoter whose quote conforming to the solicitation will be most advantageous to the Government, price and other factors considered.

The Government intends to determine the best value outcome by utilizing the Lowest Price Technically Acceptable (LPTA) source selection process. LPTA is when best value is expected to result from selection of a technically acceptable quote with the lowest evaluated price. The following factors shall be used to evaluate Quotes:

- Technical (non-price): The Quoter's quotation will be evaluated for technical acceptability that most closely match the identified BEP requirement in the RFQ. An evaluation rating of ACCEPTABLE or UNACCEPTABLE will be assigned upon completion of the evaluation. If the Quoter receives a rating of "Unacceptable," the Quoter will not be considered for award.
- The Government will evaluate price to determine fair and reasonableness. The Government will use any combination of the price analysis techniques stipulated under FAR Subpart 13.106-3.

A written notice of award or acceptance of a quote, mailed or otherwise furnished to the successful Quoter within the time for acceptance specified in the quote, shall result in a binding contract without further action by either party. Before the quote's specified expiration time, the Government may accept a quote (or part of a quote), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
