The Contractor, as an independent Contractor, and not as an agent or employee of the Government, shall furnish all services, facilities, labor, parts, materials, equipment, tools, and data (other than Government Furnished Property), necessary to accomplish the inspection and overhaul for Power Unit, Gas Turbine that is required to return the items as specified by Section B, to condition code A as defined by Army Regulation 725-50. The input/output configuration shall be as defined in Section B herein. Upon completion of the overhaul, as applicable, the items shall be packaged as defined in each individual delivery order of the contract and shipped to the destination(s) specified in each individual delivery order.
- b. Prior to commencement of overhaul, the Contractor shall disassemble and inspect the item to the extent necessary to determine the complete cost to overhaul. The Contractor shall continue the overhaul process on all end items when the total cost to overhaul does not exceed \$53,295.79 per unit. The overhaul line items shown in section B are firm-fixed price. The contractor will be required to complete the overhaul on all end items regardless of the damage as long as the total contractor cost to overhaul does not exceed \$53,295.79. The contractor will be required to provide data other than certified cost and pricing data and a report of discrepancy signed by the DCMA QAR to the Procuring Contracting Officer (PCO) to confirm the total cost to overhaul will exceed \$53,295.79. This data will include at minimum material cost (80% of material cost will be supported by current vendor quotes), labor hours, labor rates, overheads, G&A, and profit rate. More information to support the contractor's price may be requested by the Government. In no event will an asset be scrapped prior to an approved modification by the Contracting Officer. No additional funding except for missing parts will be provided to the contractor to complete the overhaul of the end item. The firm fixed prices in the overhaul CLINs must include/cover all mandatory and non-mandatory parts as required by the Depot Maintenance Work Requirement (DMWR). The Government cannot guarantee the condition of the assets sent to the Contractor for overhaul.
- c. In the event that the total contractor cost to overhaul is determined (approved by PCO) to exceed \$53,295.79, the contractor shall scrap such assets at the fixed unit price in CLIN 0004AA of section B hereof and make disposition in accordance with (IAW) the contractor's approved Government property procedures. Such scrapped items shall count toward the minimum quantities ordered hereunder. The Government may, at its discretion, replace any items scrapped by input of additional assets, and said scrap quantities will not count as part of the total maximum quantity. Any item other than those determined to be scrapped must be overhauled at the firm fixed price in the awarded contract.
- d. Overhaul shall be accomplished IAW Depot Maintenance Work Requirement (DMWR) DMWR-1-2835-209, Dated 02/28/2012 Change 1, and Maintenance Engineering Orders: (B1533, B1682B, B1940, B1963, B1996, B2345A, B2346A, B2347A, B2559, B2668, B2706, B2707A, B2711, B2712, B2715A, B2716, B2717, B2726A, B2734, B2735, B2792, B3011A, B3012, B250, B3415, B3416, B3417, B3418, B3419, B3420, B3421, B3423, B3424, B2458, C4598, E1383A, E1387, P7103, P7331, P7539, and T1356D).

(End of clause)

E-6 Product Verification Audit (PVA) Contract Requirements (June 2022 update)

PURPOSE. This PVA requirement establishes/assigns responsibilities for insertion of PVA procedures into overhaul work directives, maintenance data packages, and contract documents along with procedures and instructions to be applied in performing PVAs during overhaul, maintenance, modification kit installation, rework, remanufacture, manufacturing, and new procurement contracts. The PVA candidate(s) are used to evaluate that the contractor processes and procedures are adequate to ensure component integrity.

(A) The Contractor shall perform and present for acceptance THREE units as specified in this contract. This clause does not supersede instructions contained in depot overhaul work requirements, commercial overhaul manuals, new manufacture technical requirements or other applicable documents. It does not relieve the contractor from maintaining a quality system that will assure items conform to contractual requirements. Contractors may request to delay scheduled PVAs in frequency or waive PVA requirements of selected items in cases where accumulated objective evidence indicates that a consistent quality item is being delivered. PVA actions will be based on the overall performance history, failure impact, supply impact, length of program, and nonscheduled PVAs accomplished by the Systems Readiness Directorate (SRD). Like or similar items may be grouped for these purposes provided concurrence is obtained from SRD Quality Management Division. The contractor may be directed by the Procuring Contracting Officer (PCO) to increase or decrease the scope of a PVA pursuant to the "Changes" clause of the contract for non-commercial items. If however this procurement is for a commercial item, the contractor and the Contracting Officer (CO) will need to enter into a bilateral contract modification to increase or decrease the scope of a PVA.

(B) The Contractor shall,

(1) With the concurrence of SRD Quality Management Division (QMD), schedule and perform PVA as required by the terms of the contract or as otherwise required.

(2) Notify PCO with information copy to the SRD QMD, ATTN, usarmy.redstone.devcom-avmc.mbx.qs-contracts@army.mil of the date the PVA candidates will be available. Notification shall be provided at least 20 working days prior to the selected date if facilities are within the Continental United States. If facilities are outside the Continental United States, notification shall be provided at least 95 working days prior to the selected date to allow sufficient time for travelers to gain theater clearance.

(3) Provide technical personnel tooling, measuring and test equipment, work area, forms, and clerical assistance, as required, to perform the PVA. If test cell or other specialized equipment is required; notification of readiness for PVA shall include the availability of these.

(C) The PVA candidate will be selected by the SRD PVA Team Chairman at random from the three (3) tendered candidates for acceptance to

Name of Offeror or Contractor:

the Government. For reoccurring audits, if any, the audit candidate will be selected by the PVA Team Chairman from all completed items currently available.

(1) Alternate Procedure. Normally, three assets are required to be completed at time of PVA. If in the PVA Team Chairman's judgment it is in the best interest of the Government, an alternative approach may be taken due to circumstances such as shortage of overhaul assets, shortage of replacement parts, time constraints, or other considerations. At the PVA Team Chairman's discretion, only one PVA candidate may be required to be completed while the other two assets can be in various stages of overhaul as agreed upon (prior to the beginning of the PVA) between the PVA Team Chairman and the facility to be audited. For instance, one asset could be disassembled and ready for Overhaul Inspection Procedures, while the other may be prepared for a critical process such as acceptance testing. (This approach is particularly helpful if the critical process is performed by a subcontractor.) For reoccurring audits, if any, the audit candidate will be selected by the PVA Team Chairman from all completed items currently available.

(D) The item selected for PVA will be inspected for adherence to preservation, packaging, and marking requirements prior to removal from the shipping container. A visual inspection and functional test will be performed prior to disassembly.

(E) The PVA Team will review the shop travelers, production processes, procedures, tooling, and, equipment used to maintain, overhaul, repair, or manufacture the item being audited for adequacy and conformance to the contractual requirements. The PVA will include verification through objective evidence that all of the inspection, testing, measuring and diagnostic equipment used in the inspection/test of the PVA candidate are maintained in accordance with applicable calibration standards.

(F) Disassembly for overhauled items will be performed in an area accessible only to audit personnel. Normally, audit participation will be limited to specified production and quality assurance personnel of the contractor activity, the cognizant government Quality Assurance Representative (QAR), and the SRD PVA Team Chairman and team personnel.

(G) Visual inspection, dimensional checks (such as backlash, end clearance, running clearance, etc.) and nondestructive testing are accomplished during and after disassembly IAW applicable technical directives. Findings are recorded for comparison with historical data and conformance evaluation. A 100% inspection (or as set forth in relevant specifications) of all physical characteristics, to include but not limited to any dimensions, certifications for materials, processes and/or procedures, as well as any other requirements which may be set forth by other applicable specifications, or in any procurement packages, technical drawings. Depot Maintenance Work Requirements (DMWRs), Maintenance Engineering Orders (MEOs), and/or any other special/functional testing as set forth in this contract.

(H) Applicable accessories and components will be functionally tested and inspected to contractual/work specifications. The PVA team will review subcontractor certifications for testing and inspections. At the request of the PVA Team Chairman, processes (such as Shot peening, heat treating, etc.) performed by subcontractors may also be audited. Contractor shall be able to demonstrate that all testing/inspection procedures, and acceptance methods are documented in the appropriate area of the overhaul documents, and are approved and controlled by management.

(I) The PVA item shall be reassembled and functionally tested IAW applicable specifications and made ready for Government acceptance including preservation, packaging, marking, and update of historical records and all applicable documentation.

(J) Conduct of the PVA will be planned in a manner that adequately allows examination/audit of all procedures involved. Each step in the process shall be analyzed to determine compliance to specifications. It may not be logical or possible, due to time constraints, to track the same item throughout the PVA; therefore, at the SRD PVA Team Chairman's discretion, examination of representative assemblies any may be used as evidence of compliance to specification requirements. The SRD PVA Team Chairman will determine the scope and detail of the PVA process. The SRD PVA Team Chairman may delegate follow-up actions to the DCMA QAR, when it is determined to be prudent to the PVA.

(K) During the course of the PVA, the PVA Team Chairman may request progress meetings to provide status to the contractor. After the PVA is completed, the SRD PVA Team Chairman will conduct an exit critique attended by all concerned contractor personnel and the cognizant DCMA QAR and PM Representative. The context of the audit findings and corrective actions will be discussed and any disputes will be resolved. Findings, classifications, and corrective actions will be discussed and determinations made as to cause of defect established (i.e. workmanship, tooling, technical requirements, etc.). The contractor's management personnel shall take immediate action to correct and preclude recurrence of all defects attributable to failure to ensure compliance with requirements.

(L) All defects will be recorded on the SRD PVA Audit Finding Record by the PVA Team. The PVA Team Chairman will provide copies of each finding to the contractor quality assurance element and the cognizant DCMA QAR and PM Representative. This will allow immediate actions to begin in the resolution of the defect. Corrective actions, as well as actions taken to prevent recurrence, shall also be documented on this form by the contractor. The form shall be signed, as a minimum, by the contractor quality manager or designated representative and the SRD PVA Team Chairman. Further actions outlined below pertain to specific actions required by the contractor depending on the classification of the defects:

1. Observation: In the event an observation is discovered, the contractor is not required to provide a written response, but it is encouraged to do so.
2. Minor: In the event a minor defect is discovered, the following actions shall be taken:
 - a. The contractor shall isolate the cause of the defect and initiate corrective actions.

<p style="text-align: center;">CONTINUATION SHEET</p>	<p style="text-align: center;">Reference No. of Document Being Continued W58RGZ-22-B-0041</p> <p> PIIN/SIIN MOD/AMD </p>	<p style="text-align: right;">Page 19 of 63</p>

Name of Offeror or Contractor:

- b. All minor defects shall require a written response addressing corrective actions taken and actions taken to prevent recurrence.
 - c. In the event a minor defect is a recurrent deficiency, regardless of weapon system or date when original discrepancy was noted, it will be written into the report as a minor defect, but the corrective actions required below for a major defect will apply.
 - 3. Major: In the event a major defect is discovered, the following actions shall be taken:
 - a. The contractor shall halt any work in progress at the responsible station until corrective action is acceptable to the PVA Chairman.
 - b. The contractor shall provide the DCMA QAR information reflecting the total quantity shipped, if any, and to what destination pertaining to any item that could contain the identified defect.
 - c. The contractor shall determine impact of the defect on products previously delivered under this contract, if any, and initiate corrective action to address those units at no additional cost to the US Government.
 - d. The contractor shall isolate the cause of the defect and initiate corrective actions. All findings shall require an in-depth written response outlining corrective actions to prevent recurrence.
 - e. The contractor shall review/revise work documents for the specified operation responsible for the defect to ascertain that they are complete, adequate, and sufficiently defined to assure that, if followed and completed by both production, maintenance and inspection personnel, they will provide objective evidence of a quality operation.
 - f. The contractor shall assure the cognizant DCMA QAR and the SRD PVA Team Chairman that positive, effective, corrective action has been initiated that will prevent recurrence of the cited defect. This assurance can be verbal at first, however, a written report from the contractor quality element containing all corrective actions completed and actions taken to prevent recurrence shall be provided to the DCMA QAR and the SRD PVA Team Chairman within 24 hours after the verbal response.
 - 4. Critical: In the event a critical defect is discovered, the following actions shall be taken:
 - a. All actions outlined in paragraph 3 above shall be completed.
 - b. Upon request, the contractor shall provide the SRD technical information necessary for the issuance of a Safety of Flight Message or Aviation Safety Action Message to the field (if necessary).
 - c. Government acceptance/release of product will cease immediately until corrective actions are acceptable to the contracting officer.
- NOTE: Systemic quality assurance process discrepancies that affect the outcome of product(s) outside the scope of the PVA will require the cognizant DCMA QAR to issue a Corrective Action Request.

(M) FINDING DEFINITIONS:

- Minor Finding: A defect or a departure from established processes or standards that may result in failure or reduced usability of the product, or a process noncompliance that holds the potential of causing a defect in the future.
- Major Finding: A defect, other than critical, that will likely result in failure, or reduce the usability of the product for its intended purpose.
- Critical Finding: A defect that would result in hazardous or unsafe conditions for individuals using, maintaining, or depending upon the product or a defect likely to prohibit the performance of a major end item or major part thereof. This classification requires immediate cessation of Government acceptance/release of product until corrective actions are acceptable to the contracting officer.
- Observation: A condition or circumstance that is noted during the PVA that does not currently meet the aforementioned defect criteria. This category may also be used as suggestions for continuous improvement.

- (N) Upon completion of the disassembly and/or testing portion of the selected PVA candidate, without finding any critical or major defects, the other two completed candidates will be released as PVA candidates. In the event that a critical or major defect is found in the audit candidate, the contractor shall satisfy to the PVA Team Chairman that such a defect does not exist in the other 2 PVA candidates prior to acceptance, and an effective corrective action has been initiated to preclude re-occurrence of the defect.
- (O) If there are failures during the PVA, the Contractor shall repeat any or all tests, per Government request. If deemed in the best interests of the government, contract termination may be initiated. Upon request for additional tests, the Contractor shall make any necessary changes, modifications, or repairs to the PVA item. All costs related to these tests are to be borne by the Contractor, including any and all costs for additional tests following disapproval. These actions must be coordinated with the cognizant DCMA QAR. The Government shall take action within 10 working days. The Government reserves the right to require an equitable adjustment of the contract price for any extension of the delivery schedule, or for any additional costs to the Government related to these tests.
- (P) The PVA unit is to be representative of the deliverable quantity. The Contractor shall overhaul both the PVA item and the contractual quantity at the same facility. In the event that there is a change to the process planning (i.e. changes in process sources, parts sources, or location where work is to be performed) after official PVA approval from Contracting Officer, the contractor is required to provide notification of such changes to the CO, so that a determination can be made whether a new PVA is warranted. Notification is required 10 business days prior to shipment of the next delivery.
- (Q) The PVA candidates shall be shipped IAW contract delivery schedules or released to supply activity upon receipt of the official PVA approval via the Contracting Officer. The Contractor SHALL NOT retain the PVA item approved under this contract to serve as the manufacturing standard of acceptance.
- (R) If the Contractor fails to deliver any PVA on time, or the Contracting Officer disapproves any PVA, the Contractor shall be deemed

Before PVA approval, the costs thereof shall not be allocable to this contract for (1) Progress payments, or (2) termination settlements if the contract is terminated for the convenience of the government.

Class I ECPs should be limited to those that are necessary or offer significant benefit to the Government. Class I ECPs are those that affect the performance, reliability, maintainability, survivability, weight, balance, moment of inertia, interface characteristics, electromagnetic characteristics, or other technical requirements in the specifications and drawings. Class I ECPs also include those changes that affect Government Furnished Equipment, safety, compatibility, retrofit, operation and maintenance manuals, interchangeability, substitutability, replaceability, source control specifications and drawings, costs, guarantees or warranties, deliveries, or schedules. Class II ECPs are those that do not affect form, fit and function, cost, or schedule of the system CI and do not meet the other criteria described above for Class I ECPs.

b. Long Form Procedure: Class I changes to the CI require that DD Form 1692, pages 1 through 7 (as applicable), be prepared. Use of this procedure assures that all effects of the change on the CI are properly addressed and documented to the necessary detail to allow proper evaluation of the proposed change.

c. Short Form Procedure: ECPs and VECPs , which meet the requirements of Class II ECPs, shall be prepared using DD Form 1692 (page 1 only). Supplemental pages may be used with the form as necessary. The responsible Defense Contract Management Agency (DCMA) Contract Management Office (CMO) will validate data entries in Block 5 "Class of ECP", Block 6 "Priority", and Block 8 "Justification Codes."

RFVs written against CIs shall be designated as major when the RFV consists of acceptance of an item having a nonconformance with contract or configuration documentation involving health; performance; interchangeability; reliability; survivability; maintainability; effective use or operation; weight; appearance (when a factor); or when there is a departure from a requirement classified as major in the contractual documentation.

(2) Critical RFVs. RFVs written against CIs shall be designated as critical when the RFV consists of acceptance of an item having a nonconformance with contract or configuration documentation involving safety or when there is a departure from a requirement classified as critical in the contractual documentation.

(3) Minor RFVs. RFVs written against CIs shall be designated as minor when the RFV consists of acceptance of an item having a nonconformance with contract or configuration documentation which does not involve any of the factors listed above in paragraphs f(1) or g(2), or when there is a departure from a requirement classified as minor in the contractual documentation.

g. Proposals shall include sufficient technical data to describe all changes from existing contract requirements.

h. Proposals shall include sufficient justification for making the change, including a statement of contract impact, if the change is not authorized.

i. Proposals for ECPs shall set forth a "not to exceed" price and delivery adjustment acceptable to the Contractor if the Government subsequently approves the proposal. If approved, the equitable increase shall not exceed this amount.

j. Times allowed for technical decisions for ECP and RFV proposals will be worked out via mutual agreement between the Contractor and the Government.

k. Proposals for VECPs shall set forth a "not less than" price and delivery adjustment acceptable to the Contractor if the Government subsequently approves the proposal. If approved, the savings shall not be less than this amount.

Such orders may be issued from the date of contract award through 1,825 days after the date of contract award.

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(c) A delivery order or task order is considered "issued" when--

(1) If sent by mail (includes transmittal by U.S. mail or private delivery service), the Government deposits the order in the mail;

(2) If sent by fax, the Government transmits the order to the Contractor's fax number; or

(3) If sent electronically, the Government either--

(i) Posts a copy of the delivery order or task order to a Government document access system, and notice is sent to the Contractor; or

(ii) Distributes the delivery order or task order via email to the Contractor's email address.

(3) A series of orders from the same ordering office within 30 days that together call for quantities exceeding the limitation in subparagraph (b)(1) or (2) of this section.

(c) If this is a requirements contract (i.e., includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.

(d) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within 30 days after issuance, with written notice stating the Contractors intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

(End of Clause)

I-122 52.216-22 INDEFINITE QUANTITY OCT/1995

(d) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contracts effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after delivery of all orders issued on or before the last day of the final ordering period.

I-123 52.243-7 NOTIFICATION OF CHANGES JAN/2017

(b) Notice. The primary purpose of this clause is to obtain prompt reporting of Government conduct that the Contractor considers to constitute a change to this contract. Except for changes identified as such in writing and signed by the Contracting Officer, the Contractor shall notify the Administrative Contracting Officer in writing promptly, within 30 (to be negotiated) calendar days from the date that the Contractor identifies any Government conduct (including actions, inactions, and written or oral communications) that the Contractor regards as a change to the contract terms and conditions. On the basis of the most accurate information available to the Contractor, the notice shall state --

- (1) The date, nature, and circumstances of the conduct regarded as a change;

- (i) What line items have been or may be affected by the alleged change;
 - (ii) What labor or materials or both have been or may be added, deleted, or wasted by the alleged change;
 - (iii) To the extent practicable, what delay and disruption in the manner and sequence of performance and effect on continued performance have been or may be caused by the alleged change;
 - (iv) What adjustments to contract price, delivery schedule, and other provisions affected by the alleged change are estimated; and
- (6) The Contractor's estimate of the time by which the Government must respond to the Contractor's notice to minimize cost, delay or disruption of performance.
- (c) Continued performance. Following submission of the notice required by paragraph (b) of this clause, the Contractor shall diligently continue performance of this contract to the maximum extent possible in accordance with its terms and conditions as construed by the Contractor, unless the notice reports a direction of the Contracting Officer or a communication from a SAR of the Contracting Officer, in either of which events the Contractor shall continue performance; provided, however, that if the Contractor regards the direction or communication as a change as described in paragraph (b) of this clause, notice shall be given in the manner provided. All directions, communications, interpretations, orders and similar actions of the SAR shall be reduced to writing promptly and copies furnished to the Contractor and to the Contracting Officer. The Contracting Officer shall promptly countermand any action which exceeds the authority of the SAR.
- (d) Government response. The Contracting Officer shall promptly, within 30 (to be negotiated) calendar days after receipt of notice, respond to the notice in writing. In responding, the Contracting Officer shall either --

 - (2) Countermand any communication regarded as a change;
 - (3) Deny that the conduct of which the Contractor gave notice constitutes a change and when necessary direct the mode of further performance; or
 - (4) In the event the Contractor's notice information is inadequate to make a decision under subparagraphs (d)(1), (2), or (3) of this clause, advise the Contractor what additional information is required, and establish the date by which it should be furnished and the date thereafter by which the Government will respond.
- (e) Equitable adjustments.
- (1) If the Contracting Officer confirms that Government conduct effected a change as alleged by the Contractor, and the conduct causes an increase or decrease in the Contractor's cost of, or the time required for, performance of any part of the work under this contract, whether changed or not changed by such conduct, an equitable adjustment shall be made --
 - (i) In the contract price or delivery schedule or both; and
 - (ii) In such other provisions of the contract as may be affected.
 - (2) The contract shall be modified in writing accordingly. In the case of drawings, designs or specifications which are defective and for which the Government is responsible, the equitable adjustment shall include the cost and time extension for delay reasonably incurred by the Contractor in attempting to comply with the defective drawings, designs or specifications before the Contractor identified, or reasonably should have identified, such defect. When the cost of property made obsolete or excess as a result of a change confirmed by the Contracting Officer under this clause is included in the equitable adjustment, the Contracting Officer shall have the right to prescribe the manner of disposition of the property. The equitable adjustment shall not include increased costs or time extensions for delay resulting from the Contractor's failure to provide notice or to continue performance as provided, respectively, in paragraphs (b) and (c) of this clause.
- NOTE: The phrases "contract price" and "cost" wherever they appear in the clause, may be appropriately modified to apply to cost-reimbursement or incentive contracts, or to combinations thereof.

I-128	52.214-27	PRICE REDUCTION FOR DEFECTIVE CERTIFIED COST OR PRICING DATA-- MODIFICATIONS--SEALED BIDDING (DEVIATION 2022-00001)	OCT/2021
-------	-----------	--	----------

(a) This clause shall become operative only for any modification to this contract involving aggregate increases and/or decreases in costs, plus applicable profits, expected to exceed \$2 million on the date of execution of the modification, except that this clause does not apply to a modification if an exception under FAR 15.403-1(b) applies.

(b) If any price, including profit, negotiated in connection with any modification under this clause, was increased by any significant amount because (1) the Contractor or a subcontractor furnished certified cost or pricing data that were not complete, accurate, and current as certified in its Certificate of Current Cost or Pricing Data, (2) a subcontractor or prospective subcontractor furnished the Contractor certified cost or pricing data that were not complete, accurate, and current as certified in the Contractor's Certificate of Current Cost or Pricing Data, or (3) any of these parties furnished data of any description that were not accurate, the price shall be reduced accordingly and the contract shall be modified to reflect the reduction. This right to a price reduction is limited to that resulting from defects in data relating to modifications for which this clause becomes operative under paragraph (a) of this clause.

(c) Any reduction in the contract price under paragraph (b) of this clause due to defective data from a prospective subcontractor that was not subsequently awarded the subcontract shall be limited to the amount, plus applicable overhead and profit markup, by which (1) the actual subcontract or (2) the actual cost to the Contractor, if there was no subcontract, was less than the prospective subcontract cost estimate submitted by the Contractor; provided, that the actual subcontract price was not itself affected by defective certified cost or pricing data.

(d)(1) If the Contracting Officer determines under paragraph (b) of this clause that a price or cost reduction should be made, the Contractor agrees not to raise the following matters as a defense--

(i) The Contractor or subcontractor was a sole source supplier or otherwise was in a superior bargaining position and thus the price of the contract would not have been modified even if accurate, complete, and current certified cost or pricing data had been submitted;

(ii) The Contracting Officer should have known that the certified cost or pricing data in issue were defective even though the Contractor or subcontractor took no affirmative action to bring the character of the data to the attention of the Contracting Officer;

(iii) The contract was based on an agreement about the total cost of the contract and there was no agreement about the cost of each item procured under the contract; or

(iv) The Contractor or subcontractor did not submit a Certificate of Current Cost or Pricing Data.

(2)(i) Except as prohibited by subdivision (d)(2)(ii) of this clause, an offset in an amount determined appropriate by the Contracting Officer based upon the facts shall be allowed against the amount of a contract price reduction if--

(A) The Contractor certifies to the Contracting Officer that, to the best of the Contractor's knowledge and belief, the Contractor is entitled to the offset in the amount requested; and

Name of Offeror or Contractor:

(B) The Contractor proves that the certified cost or pricing data were available before the date of agreement on the price of the contract (or price of the modification) and that the data were not submitted before such date.

(ii) An offset shall not be allowed if--

(A) The understated data was known by the Contractor to be understated when the Certificate of Current Cost or Pricing Data was signed; or

(B) The Government proves that the facts demonstrate that the contract price would not have increased in the amount to be offset even if the available data had been submitted before the date of agreement on price.

(e) If any reduction in the contract price under this clause reduces the price of items for which payment was made prior to the date of the modification reflecting the price reduction, the Contractor shall be liable to and shall pay the United States at the time such overpayment is repaid--

(1) Interest compounded daily, as required by 26 U.S.C. 6622, on the amount of such overpayment to be computed from the date(s) of overpayment to the Contractor to the date the Government is repaid by the Contractor at the applicable underpayment rate effective for each quarter prescribed by the Secretary of the Treasury under 26 U.S.C. 6621(a)(2); and

(2) A penalty equal to the amount of the overpayment, if the Contractor or subcontractor knowingly submitted certified cost or pricing data which were incomplete, inaccurate, or noncurrent.

(1) Become operative only for any modification to this contract involving aggregate increases and/or decreases in costs, plus applicable profits, expected to exceed \$2 million on the date of execution of the modification, and

(2) Be limited to such modifications.

(b) Before awarding any subcontract expected to exceed \$2 million, on the date of agreement on price or the date of award, whichever is later, or before pricing any subcontract modifications involving aggregate increases and/or decreases in costs, plus applicable profits, expected to exceed \$2 million, the Contractor shall require the subcontractor to submit certified cost or pricing data (actually or by specific identification in writing), as part of the subcontractors proposal in accordance with Federal Acquisition Regulation (FAR) 15.408, Table 15-2 (to include any information reasonably required to explain the subcontractors estimating process such as the judgmental factors applied and the mathematical or other methods used in the estimate, including those used in projecting from known data, and the nature and amount of any contingencies included in the price), unless an exception under FAR 15.403-1(b) applies. If the \$2 million threshold for submission of certified cost or pricing data specified is adjusted for inflation as set forth in FAR 1.109(a), then pursuant to FAR 1.109(d) the changed threshold applies throughout the remaining term of the contract, unless there is a subsequent threshold adjustment.

(c) The Contractor shall require the subcontractor to certify in substantially the form prescribed in subsection 15.406-2 of the Federal Acquisition Regulation that, to the best of its knowledge and belief, the data submitted under paragraph (b) above were accurate, complete, and current as of the date of agreement on the negotiated price of the subcontract or subcontract modification.

(d) The Contractor shall insert the substance of this clause, including this paragraph (d), in each subcontract that, when entered into, exceeds \$2 million.

Such a concern is ``not dominant in its field of operation'' when it does not exercise a controlling or major influence on a national basis in a kind of business activity in which a number of business concerns are primarily engaged. In determining whether dominance exists, consideration shall be given to all appropriate factors, including volume of business, number of employees, financial resources, competitive status or position, ownership or control of materials, processes, patents, license agreements, facilities, sales territory, and nature of business activity.

(2) Affiliates, as used in this definition, means business concerns, one of whom directly or indirectly controls or has the power to control the others, or a third party or parties control or have the power to control the others. (2) Within 30 days after a merger or acquisition that does not require a novation or within 30 days after modification of the contract to include this clause, if the merger or aquisition occurred prior to inclusion of this clause in the contract.

(3) For long-term contracts--

(i) Within 60 to 120 days prior to the end of the fifth year of the contract; and

(ii) Within 60 to 120 days prior to the date specified in the contract for exercising any option thereafter.

(c) If the Contractor represented that it was any of the small business concerns identified in 19.000(a)(3) prior to award of this contract, the Contractor shall rerepresent its size and socioeconomic status according to paragraph (f) of this clause or, if applicable, paragraph (h) of this clause, when the Contracting Officer explicitly requires it for an order issued under a multiple-award contract.

(d) The Contractor shall rerepresent its size status in accordance with the size standard in effect at the time of this rerepresentation that corresponds to the North American Industry Classification System (NAICS) code(s) assigned to this contract. The small business size standard corresponding to this NAICS code(s) can be found at <https://www.sba.gov/document/support--table-size-standards> .

(e) The small business size standard for a Contractor providing an end item that it does not manufacture, process, or produce itself, for a contract other than a construction or service contract, is 500 employees if the acquisition--

(1) Was set aside for small business and has a value above the simplified acquisition threshold;

(2) Used the HUBZone price evaluation preference regardless of dollar value, unless the Contractor waived the price evaluation preference; or

(3) Was an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.

(f) Except as provided in paragraph (h) of this clause, the Contractor shall make the representation(s) required by paragraph (b) and (c) of this clause by validating or updating all its representations in the Representations and Certifications section of the System for Award Management (SAM) and its other data in SAM, as necessary, to ensure that they reflect the Contractor's current status. The Contractor shall notify the contracting office in writing within the timeframes specified in paragraph (b) of this clause, or with its offer for an order (see paragraph (c) of this clause), that the data have been validated or updated, and provide the date of the validation or update.

(g) If the Contractor represented that it was other than a small business concern prior to award of this contract, the Contractor may, but is not required to, take the actions required by paragraphs (f) or (h) of this clause.

(h) If the Contractor does not have representations and certifications in SAM, or does not have a representation in SAM for the NAICS code applicable to this contract, the Contractor is required to complete the following rerepresentation and submit it to the contracting office, along with the contract number and the date on which the rerepresentation was completed:

- ____ (1) The Offeror certifies that--
- (i) It does not engage and has not engaged in any activity that contributed to or was a significant factor in the President's or Secretary of State's determination that a foreign country is in violation of its obligations undertaken in any arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. The determinations are described in the most recent unclassified annual report provided to Congress pursuant to section 403 of the Arms Control and Disarmament Act (22 U.S.C. 2593a). The determinations are described in the most recent unclassified annual report provided to Congress pursuant to section 403 of the Arms Control and Disarmament Act (22 U.S.C. 2593a). - (1) Check the table of contents of the annual unclassified report and the country section headings of the reports incorporated by reference to identify the foreign countries listed there. Determine whether the Offeror or any person owned or controlled by the Offeror may have engaged in any activity related to one or more of such foreign countries.
 - (2) If there may have been such activity, review all findings in the report associated with those foreign countries to determine whether or not each such foreign country was determined to be in violation of its obligations undertaken in an arms control, nonproliferation, or disarmament agreement to which the United States is a party, or to be not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. For clarity, in the annual report an explicit certification of non-compliance is equivalent to a determination of violation. Review the narrative for any such findings reflecting a determination of violation or non-adherence related to those foreign countries in the report, including the finding itself, and to the extent necessary, the conduct giving rise to the compliance or adherence concerns, the analysis of compliance or adherence concerns, and efforts to resolve compliance or adherence concerns.
- (4) The Offeror may submit any questions with regard to this report by email to NDAA1290Cert@state.gov. To the extent feasible, the Department of State will respond to such email inquiries within 3 business days.
- (d) Do not submit an offer unless--
