

**Statement of Work**  
**Tohatchi Health Center**  
**Department of Dental Services**  
**Panoramic/CBCT machine upgrade and purchase**

New X-ray machine must be able to take digital Panoramic images, extra oral bitewings, and be able to take CBCT images when necessary. The machine shall ensure lower dosage radiation, digital panoramic x-rays, extraoral bitewings, extensive detailed view of patient tooth root structure and nerve location for root canals and wisdom tooth removal.

This machine shall be a standalone machine and include necessary software and hardware to be able to seamlessly expose and view images on both the machine's computer screen, and the screens of the dentists at their individual desks.

The package shall include installation, training, warranty, and onsite and remote and telephonic service support of preventive maintenance, repairs, etc. after installation.

Anticipated Delivery after date of award shall be 120 days: on/before March 01, 2023.
