(viii) FAR 52.212-1 Instructions to Offerors -- Commercial Items (Oct 2018) is hereby incorporated by reference, with the same force and effect as if it were given in full text. In addition to the following addendum, all terms and conditions of FAR 52.212-1 remain in effect. The following have been tailored to this procurement and are hereby added via addendum:

1. To assure timely and equitable evaluation of the proposal, the Offerors must follow the instructions contained herein. The proposal must be complete, self-sufficient, and respond directly to the requirements of this solicitation. If awarded the contract the contractor is required to submit a signed copy of the contract confirming receipt of the contractual document within five (5) business days.

2. Specific Instructions: The response shall consist of the following:

(ix) **FAR 52.212-2 Evaluation** -- Commercial Products and Commercial Services. (Nov 2021) this provision has been tailored to this procurement and is provided in full-text below:

(a) The Government will award a purchase order to the responsible offeror whose proposal conforms to this solicitation and will be the most advantageous to the Government based on the technical acceptability, price and other factors considered. The following factors shall be used to evaluate each proposal:

- (1) **Technical Acceptability**
- (2) **Price**

(1) **Technical Acceptability:** The Government will evaluate the technical proposal for acceptability based on the requirements within the Performance Work Statement (PWS) and specified in the Instructions to Offerors provision (FAR 52.212-1).

The Government will evaluate the technical proposal on an acceptable or unacceptable basis. The acceptable and unacceptable definitions are as follows:

Acceptable: Proposal clearly meets the minimum requirements of the solicitation.

Unacceptable: Proposal does not clearly meet the minimum requirements of the solicitation.

Any factor that is "unacceptable" will render the entire proposal unacceptable and, therefore not awardable.

The “acceptable” proposals will then be ranked by price.

**(2) Price:** The Government will select the proposal with the lowest evaluated price which meets or exceeds the acceptability standards for non-price factors.

The offeror’s total proposed price will be determined by multiplying the quantities identified in the Pricing Schedule by the unit price, limited to two decimal places, for each Contract Line-Item Number (CLIN) to confirm the extended total amount for each CLIN; the sum of all extended amounts will be the offeror’s total proposed price.

The price of a six-month extension authorized by 52.217-8, Option to Extend Services, will be added to the total proposed price. Option to Extend Services formula calculation is discussed below:

The Total Evaluated Price (TEP) is a two-part computation. First, the offerors total proposed price will be determined by adding the total of the base year and each option year identified in the Pricing Schedule. The sum will be the offerors total proposed price. Secondly, the total proposed price plus the sum of Option to Extend Services clause 52.217-8 formula (shown below) will constitute the TEP.

The formula for the Option to Extend Services amount is as follows:

CLIN 0001 Extended price for Base Year multiplied by .5 = Base Year Option to Extend Services amount

CLIN 1001 Extended price for Option Year 1 multiplied by .5 = Option Year 1 Option to Extend Services amount

CLIN 2001 Extended price for Option Year 2 multiplied by .5 = Option Year 2 Option to Extend Services amount

CLIN 3001 Extended price for Option Year 3 multiplied by .5 = Option Year 3 Option to Extend Services amount

CLIN 4001 Extended price for Option Year 4 multiplied by .5 = Option Year 4 Option to Extend Services amount

Evaluating the Option CLINs does not obligate the Government to exercise the Options.

Offerors are cautioned to submit sufficient information and in the format specified in 52.212-1, Instructions to Offerors – Commercial Items, of this solicitation. Offerors may be asked to clarify certain aspects of their quotes. Exchanges conducted to resolve minor or clerical errors will not constitute discussions and the contracting officer reserves the right to award a contract without the opportunity for quote revision. The Government intends to award a contract without discussions with respective offerors, however, will reserve the right to conduct them if deemed in its best interest.

If the lowest priced evaluated proposal is judged to have an “acceptable” technical rating and is determined to be responsible, that offeror represents the best value for the Government and the evaluation process stops at this point.

Award will be made once price fair and reasonable has been determined IAW FAR Part 13.106-3(a).

#### **(End of Provision Addendum)**
