PERFORMANCE WORK STATEMENT FOR GROUNDS MAINTENANCE SERVICES

1. Description of Services. The Contractor shall provide non-personal services, to include all personnel, equipment, tools, supervision, and other items and services necessary to ensure that grounds maintenance is performed at Rend Lake, Illinois, in a manner that will promote the growth of healthy grass, trees, shrubs, and plants and present a clean, neat, and professional appearance. The Contractor's performance will be based on the Contracting Officer's (KO), Contracting Officer's Representative (COR), and Quality Assurance Representative (QAR) evaluations of the results required by the Service Delivery Summary and method of performance. The Government will determine when services are required and notify the Contractor a minimum of 24 hours in advance of the start date. The evaluation of results will be based on COR performance assessment, quality assurance results, and customer complaints. Results of the evaluations will be the determining factor for the success or failure of this contract. The Contractor shall comply with applicable federal, regional, state, and local laws and commercial standards, in connection with the performance of the work. When mowing, vegetation control, and grounds maintenance are required, the Contractor shall contact the KO or COR one business day prior to starting services.

1.1. Level I Mowing. Level I grounds are identified in Appendix A and B. Level I grounds are areas that require more frequent maintenance such as campgrounds, day-use areas, boat ramps, and roadsides. Exact mowing limits will follow existing mowing limits; any questions regarding widths, areas, or inclusions will be defined in the field. Level I work shall be completed with seven (7) working days from the assigned starting date.

1.1.1. Mowing. The Contractor shall mow all Level I areas to look well-manicured with a neat and professional appearance. The Contractor shall mow grass uniform in appearance, free of skips, gaps, rutting, or scalping. When a mowing cycle occurs, the grass shall be mowed to a height of three (3) inches. The KO or COR may allow deviation from the three (3) inch mowing height if environmental conditions exist where a deviation is required to maintain turf health. The Contractor shall be required to pick up debris, natural and manmade, prior to mowing any area. Natural debris such as tree limbs, branches, rocks, and other debris not suitable for mowers to pass over without damage to the mower or potential danger of discharged debris shall be removed out of the mowing limits by the Contractor. The Contractor shall remove or mulch grass clippings when wind-rowed after mowing, before leaving work area. Man-made litter, trash, shall be removed from the mowing limits and placed in a waste receptacle.

1.1.1.1. Limits. General mowing limits are shown in Appendix A and B, and unless noted, mowing limits are not to scale.

- a. Level I areas adjacent to roadways shall be mowed to the tree/bush line where possible, including the Main Dam entrance road. In areas where mowing to the tree/bush line is not possible, mowing shall be completed to the existing maintained boundary.
- b. Level I mowing shall include one pass (minimum of forty-eight (48) inches adjacent to the Main Dam guardrails on the south side only.
- c. Minimum of ten (10) feet beyond amenities of campsites in wooded areas or in accordance with attached maps in Appendix A and B.
- d. Mow to the water's edge in all recreation areas.
- e. Twelve (12) feet or equivalent of two (2) passes with a mower on each side of the bike trail. In areas where the twelve (12) foot distance cannot be accomplished, mowing will be to the water's edge or to the tree/brush line.

NOTE: The bike trail shall be mowed in conjunction with the area it passes through. An example is the entire length of the bike trail section that passes through South Sandusky Campground will be mowed at the same time as the campground area.

1.1.1.2. Clippings and Discharge. The Contractor shall direct all grass clippings away from

sidewalks, picnic shelters, campsites, roadways, parking lots, buildings, and other improvements adjacent to the mowed areas. Clippings shall be removed completely from the above improvements if discharged on them. The COR will designate where collected grass clippings may be disposed of on Government property. All-natural debris such as tree limbs, branches, rocks, and other debris, not suitable for mowers to pass over without damage to the mower or endangerment of visitors, facilities, infrastructure, or visitor property, shall be removed out of the mowing limits by the Contractor.

1.1.2. Edging. Edging shall include removal of vegetation from expansion joints and cracks in sidewalks, driveways, curbs, parking lots, and other hard surfaces.

1.1.3. Trimming. The Contractor shall trim grass and weeds around trees, shrubs, buildings, fences, poles, fire hydrants, parking lot bumper blocks, boulders, and other fixed obstacles and temporary obstacles/objects on Level I grounds. Trimming height shall match surrounding area grass height. The Contractor shall not trim within three (3) inches of any living tree or shrub trunk. The Contractor shall remove, or mulch, grass clippings when wind-rowed before leaving the work area. The Contractor shall trim all areas concurrent with mowing.

1.1.4. Spraying/Herbicide Application. Spraying/Herbicide Application shall be required for the vegetative control in all Level I areas. All vegetation over six (6) inches must be cut or pulled and removed prior to the end of the scheduled cycle. All unmowable areas within the limits of Level I and Level II areas shall be free of vegetative growth by removal, trimming, and/or herbicide application and the end of each scheduled cycle. This includes the areas surrounding all trees, shrubs, shrub beds and plant/rock beds, bushes, campsites, impact sites, water fountains and hydrants, grills, refuse containers, picnic tables, buildings, recreational signs and sign posts, carsonite posts, fences (radio tower area, maintenance compound, and lagoon area fences), sidewalks, bike trail and bike trail bridges/culverts, roads, guard rails, parking blocks, parking lots, designated trails, boat ramps, rip rap, revetment areas, lift stations, electrical apparatus (panels, meters, and transformers), monitoring wells, sprinkler heads, manholes, as well as the tee pads, fairways, signs, and baskets on the North Sandusky Disc Golf course, and along with any other unmowable areas within the mowing limits.

1.1.4.1. Transition Zones. The Contractor shall trim or spray all vegetation that exists in the transition zones between rip rap and mowing boundaries, roadways and vegetation (EX: Rend City Road and Entrance Road from Sugar Creek to the Spillway), between the shorelines and the mowing boundaries.

1.2. Level II Mowing. The Contractor shall mow all Level II areas to look well-manicured with a neat and professional appearance. The Contractor shall mow grass uniform in appearance, free of skips, gaps, rutting, or scalping. When a mowing cycle occurs, the grass shall be mowed to a height of six (6) inches. The KO or COR may allow deviation from the six (6) inch mowing height if environmental conditions exist where a deviation is required to maintain turf health. The Contractor shall be required to pick up debris, natural and manmade, prior to mowing any area. Natural debris such as tree limbs, branches, rocks, and other debris not suitable for mowers to pass over without damage to the mower or potential danger of discharged debris shall be removed out of the mowing limits by the Contractor. The Contractor shall remove or mulch grass clippings when wind-rowed after mowing, before leaving work area. Man-made litter, trash, shall be removed from the mowing limits and placed in a waste receptacle. Level II mowing work shall be completed within ten (10) working days from the assigned starting date.

1.2.1. Limits. General mowing limits are shown in Appendix A and B, and unless noted, mowing limits are

not to scale.

Names of chemicals to be used and Material Data Safety Sheets must be submitted to and approved by the COR prior to any herbicide use. The amount of hand trimming and all other costs shall be included in the Contractor's bid prices.

1.2.3. Spraying/Herbicide Application. Spraying/Herbicide Application shall be required for the vegetative control in all Level II areas. All vegetation over six (6) inches must be cut or pulled and removed prior to the end of the scheduled cycle. Herbicidal bands shall not exceed nine (9) inches adjacent to any item.

1.2.4. Lawn Renovation. If lawn areas are damaged due to Contractor action, the Contractor shall renovate at no additional cost to the government.

1.3. Leaf Mulching and Removal. The Contractor shall mulch or remove all leaves in all Level I areas. All work shall be completed within ten (10) working days from the assigned starting date. Leaves shall be removed or mulched in the mowing areas designated on the mowing maps, as well as all rip-rap areas, camp sites, volleyball courts, basketball courts, beach areas, sidewalks, ditches, culvert openings, building entrances, underneath shelters, and areas adjacent to buildings, landscaped areas, roadways, and parking lots. Leaves and pine needles removed from the previously listed areas can be placed within park lands in unimproved areas during the months of November through March. Prior to mulching, leaves on roadways, parking lots and parking spurs, and picnic/campground impact sites shall be removed. Mulched leaves shall be dispersed so as not to accumulate over one half (1/2) an inch thick in any area.

1.4. COVID-19 VIRUS REQUIREMENTS AND PROCEDURES. The Contractor shall be responsible for any change of personal protective equipment (PPE) requirements and/or procedures and will notify the Government of any changes in PPE.

2. Service Delivery Summary (SDS). The contract service requirements are summarized in performance objectives that relate directly to requirements. The performance threshold is the maximum number of defective items in a service (or lot) that can be considered unsatisfactory. The performance threshold for each service to be performed can be found in Table 1 below. When the number of defects for a specified lot is below the performance threshold, the work will be considered satisfactory. Each service that is performed will be determined acceptable or deficient according to the requirements of this contract. The SDS and the contractor's Quality Control Plan provide information on contract requirements, the expected level of contractor performance and the expected method of government validation and confirmation of services provided.

Table 1. Performance Objectives and Thresholds

PERFORMANCE OBJECTIVE	PERFORMANCE THRESHOLD	REMEDY	METHOD OF ASSESSMENT

(QASP, see Appendix D) The Government will perform inspections and tests in a manner that will not unduly delay the work. The government will inspect and evaluate the contractor's performance to ensure services are received in accordance with the requirements set forth in this contract. The Quality Assurance Representative, QA, will inspect by validating actual work performance, physically checking an attribute of the completed task, checking a management information report, investigating customer complaints, conferring with facility managers, or otherwise inspecting the task or its results to determine whether performance meets the

standards contained in this contract.

***Workers in this classification may be entitled to a higher minimum wage under Executive Order 14026 (\$16.20 per hour) or 13658 (\$12.15 per hour). Please see the Note at the top of the wage determination for more information. Please also note that the minimum wage requirements of Executive Order 14026 and 13658 are not currently being enforced as to contracts or contract-like instruments entered into with the federal government in connection with seasonal recreational services or seasonal recreational equipment rental for the general public on federal lands.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors, applies to all contracts subject to the Service Contract Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is the victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: \$4.80 per hour, up to 40 hours per week, or \$192.00 per week or \$832.00 per month

HEALTH & WELFARE EO 13706: \$4.41 per hour, up to 40 hours per week, or \$176.40 per week, or \$764.40 per month*

*This rate is to be used only when compensating employees for performance on an SCA-covered contract also covered by EO 13706, Establishing Paid Sick Leave for Federal Contractors. A contractor may not receive credit toward its SCA obligations for any paid sick leave provided pursuant to EO 13706.

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 8 years, 4 weeks after 15 years, and 5 weeks after 25 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of eleven paid holidays per year: New Year's Day, Martin Luther King Jr.'s Birthday, Washington's Birthday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) COMPUTER EMPLOYEES: This wage determination does not apply to any individual employed in a bona fide executive, administrative, or professional capacity, as defined in 29 C.F.R. Part 541. (See 41 C.F.R. 6701(3)). Because most Computer Systems Analysts and Computer Programmers who are paid at least \$27.63 per hour (or at least \$684 per week if paid on a salary or fee basis) likely qualify as exempt computer professionals under 29 U.S.C. 213(a)(1) and 29 U.S.C. 213(a)(17), this wage determination may not include wage rates for all occupations within those job families. In such instances, a conformance will be necessary if there are nonexempt

employees in these job families working on the contract.

Job titles vary widely and change quickly in the computer industry, and are not determinative of whether an employee is an exempt computer professional. To be exempt, computer employees who satisfy the compensation requirements must also have a primary duty that consists of:

(1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;

(2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;

(3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or

(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

Any computer employee who meets the applicable compensation requirements and the above duties test qualifies as an exempt computer professional under both section 13(a)(1) and section 13(a)(17) of the Fair Labor Standards Act. (Field Assistance Bulletin No. 2006-3 (Dec. 14, 2006)). Accordingly, this wage determination will not apply to any exempt computer employee regardless of which of these two exemptions is utilized.

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

**** HAZARDOUS PAY DIFFERENTIAL ****

An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving re-grading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

** SERVICE CONTRACT ACT DIRECTORY OF OCCUPATIONS **

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition (Revision 1), dated September 2015, unless otherwise indicated.

** REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE, Standard Form 1444 (SF-1444) **

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination (See 29 CFR 4.6(b)(2)(i)). Such conforming procedures shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees (See 29 CFR 4.6(b)(2)(ii)). The Wage and Hour Division shall make a final determination of conformed classification, wage rate, and/or fringe benefits which shall be paid to all employees performing in the classification from the first day of work on which contract work is performed by them in the classification. Failure to pay such unlisted employees the compensation agreed upon by the interested parties and/or fully determined by the Wage and Hour Division retroactive to the date such class of employees commenced contract work shall be a violation of the Act and this contract. (See 29 CFR 4.6(b)(2)(v)). When multiple wage determinations are included in a contract, a separate SF-1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order the proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the U.S. Department of Labor, Wage and Hour Division, for review (See 29 CFR 4.6(b)(2)(ii)).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour Division's decision to the contractor.

6) Each affected employee shall be furnished by the contractor with a written copy of such determination or it shall be posted as a part of the wage determination (See 29 CFR 4.6(b) (2) (iii)).

Information required by the Regulations must be submitted on SF-1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" should be used to compare job definitions to ensure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination (See 29 CFR 4.152(c) (1))."

This factor will use price analysis to determine the total evaluated price in order to support the selection of the lowest priced, technically acceptable proposal. The offeror’s price proposal will be evaluated using the price analysis techniques described at FAR 13.106-3(a) to determine which proposal offers the total evaluated lowest price to the Government.

Before the offeror’s specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

Factor 2 – Technical.

(1) [___] Are, [___] are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) [___] Have, [___] have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: Commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or Commission of embezzlement, theft, forgery,

bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property,

(3) [___] Are, [___] are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) [___] Have, [___] have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples. (A) The taxpayer has received a statutory notice of deficiency, under I.R.C. § 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. § 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. § 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).
