1. Responses to the questions received are provided below:

Pg. 42 – 44, F.2 Period of Performance: 36 months from the date of award. GPO will issue a Notice to Proceed to start building the press separately (see above)	Are you requesting that the start of building the press notification be in place for up to 36 months from date of award and all aspects of pricing, etc., be held for that period of time without any subsequent changes due to economic conditions, etc.?	Per Section B.2 CONTRACT TYPE “This is a Firm-Fixed-Price (FFP) type contract with economic price adjustment (EPA) consistent with the Materials Management Acquisition Regulation (MMAR II) 16.203.” In Section I, the following clauses are included: 52.216 2 Economic Price Adjustment Standard Supplies (JAN 1997) and 52.216 4 Economic Price Adjustment Labor and Material (JAN 1997) Offerors must submit their business proposals per instructions in Section L.
Pg. 8, C.4.2.3	How many Traditional UV Lamps and LED/UV Lamps are being requested for each of the two (2) SFOP presses?	The quantity of lamps required to cure the printed sheets is up to the discretion of the offeror.
Pg. 42, F.2	What is the definition of “The period of performance is from the time of award for a maximum of 36 months, TBD at the award”?	Per F.2 PERIOD OF PERFORMANCE “The period of performance is from the time of award for a maximum of 36 months, TBD at the award. “The actual period of performance will be based on the winning contractor’s timeline.
Pg. 9, C.4.4.7	What is the definition of “manual course adjustment of register” and what would be the purpose for this function?	The requirement is referring to large manual register adjustments of the plate cylinders.

2. In Section M.2.1 Rating Methodology add the evaluation rating description that will be used only for Factor (c) Contractor Past Performance Information:

Ratings	Factor C Evaluation’s Definitions
Satisfactory	The offeror’s past performance of previously awarded recent and relevant projects met or exceeded most, if not all, project requirements. The company may have performed with some problems, for which corrective actions taken by the contractor were, or are expected to be, effective. Performance of completed projects was consistently of adequate or better quality. The offeror’s past performance record leads to an expectation of successful performance.
Unsatisfactory	The offeror’s performance of previously awarded recent and relevant projects did not meet some or most project requirements and recovery, if any, did not occur within the stated period of performance. The offeror’s performance reflected some serious problems for which the offeror either failed to identify or implement corrective actions in a timely manner, or for which correctible actions were mostly ineffective. Performance of completed projects was consistently of mediocre or poor quality. The offeror’s past performance record leads to a reasonable expectation that successful performance would not be achieved or that it can occur only with increased levels of government management and oversight.

Neutral	<ul style="list-style-type: none"> ● The Offeror lacks recent performance history; ● The Offeror lacks relevant performance history; or ● Information on performance is not available or is so sparse that a meaningful evaluation cannot reasonably be conducted. <p>Based on this, there is no expectation of either successful or unsuccessful performance</p>
