

**NATIONAL SECURITY SPACE LAUNCH (NSSL)
PHASE 3 LANE 2 LAUNCH SERVICE PROCUREMENT
FA8811-23-R-0002**

**ATTACHMENT 8
PAYMENT PLAN**

dRFP #2: 13 July 2023

**United States Space Force
Space Systems Command (SSC)
Assured Access to Space (AATS)
Los Angeles Space Force Base, California**

1 BASIS OF PAYMENT

The launch service shall be paid based on milestone payments. The milestones represent meaningful efforts or actions that are an integral and necessary part of performance. The basis for an event should be either specifically described events or a measurable criterion of performance. Included within this Payment Plan is what constitutes successful performance of each event. The task order will include the payment amounts, which are listed here as a percentage of the launch service price for all applicable firm fixed price (FFP) Contract Line Item Numbers (CLINs) pertaining to the mission (CLINs 0001, 0002, 0003, and 0004).

In the event that the Contractor has a Space Force mission that has been accelerated, the Contractor shall receive payments in accordance with the acceleration tables provided. Table 1-1 is considered the “baseline” payment schedule for a non-accelerated mission. Unless the milestone payment completion evidence and estimated completion date mentions “Same as Baseline”, the Contractor shall follow the milestone payment schedule provided in the following acceleration tables: 1) Table 1-3 for a 12-month acceleration; 2) Table 1-4 for a 15-month acceleration; 3) Table 1-5 for an 18-month acceleration; and 4) Table 1-6 for a 21-month acceleration. For National Reconnaissance Office (NRO) accelerated missions, the Contractor shall receive payments in accordance with Tables 2-3 through 2-6.

2 MILESTONE SUCCESS CRITERIA AND COMPLETION EVIDENCE

Each milestone has associated measurable success criteria that serve to validate milestone accomplishment. All milestone success criteria must be met before the milestone payment will be authorized. When the Contractor has successfully completed all applicable milestone success criteria, the Contractor shall submit a Notice of Completion (NOC) for the milestone to the Procuring Contracting Officer (PCO). The NOC shall include supporting documentation to substantiate meeting the milestone success criteria as provided in the completion evidence defined herein.

3 MILESTONE PAYMENTS AND TIMING

Completion of milestone and subsequent NOCs may be submitted non-successively (e.g., if milestone two is completed before milestone one, then the Contractor may submit a NOC for milestone two before a NOC for milestone one). Additionally, the NOC may be for multiple milestones submitted at the same time. In the event the Contractor completes a milestone ahead of the milestone completion date, the Contractor may include that milestone in the monthly NOC and the Government will consider, on a case-by-case basis, the early payment of the milestone.

The PCO will determine whether or not the Contractor has successfully met each of the milestone success criteria based on inputs provided by the United States Government (USG) Team (for Space Force missions) and the Mission Team (for NRO missions).

For National Security Space Launch (NSSL) missions, the USG team consists of the Space Systems Command Assured Access to Space (SSC/AA), and the Space Force Program Executive

Officer (PEO) for Space office personnel; and also includes The Aerospace Corporation, AATS' Systems Engineering and Integration (SE&I) support contractors, AATS' Systems Engineering and Technical Assistance (SETA) support contractors, the NRO/Office of Space Launch (OSL) (as applicable), the SSC Independent Readiness Review Team, Defense Contract Management Agency, Defense Contract Audit Agency, Space Launch Delta 30, Space Launch Delta 45, and other organization as designated by the PCO.

For NRO missions, in addition to the USG Team listed above for Space Force missions, the Mission Team consists of the OSL Mission Manager (OMM), the OSL Contracting Officer Technical Representative (COTR), and their support personnel (to include Government, Aerospace Corporation, and SETA personnel). At their discretion, the OMM and COTR may solicit inputs from SSC/AA to assist in their determination of the Contractor's satisfactory completion of the milestone success criteria. Written concurrence from both the OMM and COTR that the Contractor has successfully met the milestone success criteria is required before the PCO will authorize payment of the milestone.

To the maximum extent possible within fifteen (15) business days after receipt of the Contractor's NOC, the PCO will provide written notification to the Contractor specifying which milestones contained in the NOC are determined to be "met" (complete) and, if necessary, which are considered "not met" (incomplete). For milestones identified as incomplete, the PCO will: (1) specify in the notification, the issues(s) that led to the determination based upon the milestone success criteria and completion evidence provided herein, and (2) the corrective action(s) required to complete the milestone. The Government will ensure that the Contractor understands the required corrective actions. The Contractor will make a good faith effort to quickly complete the corrective actions. When the Contractor accomplishes the corrective actions, the Contractor will submit an NOC addendum to the PCO for Government review. To the maximum extent possible within fifteen (15) business days after receipt of the Contractor's NOC addendum, the PCO will provide written notification to the Contractor specifying whether the Government concurs that all corrective actions have been accomplished and the milestone has been "met" (completed).

For each milestone, the Estimated Completion Date is the estimated date that the Contractor will complete the payment event and submit the associated NOC for payment of each milestone under this Plan. For each milestone, the value in the percentage "%" column of Table 1 indicates the percentage of the assigned mission value of all applicable FFP CLINs (CLINs 0001, 0002, 0003, and 0004) that will be used to calculate the dollar amount to be paid to the Contractor upon successful completion of the milestone. The Government reserves the right to withhold up to fifty percent (50%) of the total payment value for any unpaid milestone(s) in the event of a Government-approved Class 1 change required for the launch service that is not implemented or completed to meet the Government's approval by the implementation deadlines specified in and in accordance with (IAW) Attachment 1 Performance Work Statement (PWS) section 3.2.4.4.

4 MILESTONE SCHEDULE

Criteria for payment of each milestone appears in Table 1-1 for Space Force missions and Table 2-1 for NRO missions. In no event shall the Contractor receive payments in excess of 80% of the total contract price until after acceptance of the launch service IAW Completion Event 3 (Government Acceptance of Launch Service IAW Attachment 11, Addendum to Federal Acquisition Regulation [FAR] 52.212-04, Contract Terms and Conditions Commercial Items [December 2022]). Given that defects in service for the last Completion Event 3, Acceptance of Launch Service, are not suitable for correction by re-performance, the PCO has determined that, pursuant to FAR 52.246-4(e), the appropriate relief for the Government in the event of Completion Event 3 defect (e.g., mission failure) is to reduce the contract price by the amount of the full Completion Event 1, Upper Stage Disposal, Final As-Built Configuration List (ABCL), and Final Fleet Insight ABCL; Completion Event 2, Mission Orbital Parameter Accuracy Verification; and Completion Event 3 payment, which appropriately reflects the reduced value of the services performed.

5 COMPLETION EVENTS

Sections 1 through 3 of this attachment apply to completion events. Criteria and completion evidence for each completion event appear in Table 1-2 for Space Force missions and Table 2-2 for NRO missions. Completion events shall be billed in one invoice upon completion and Government acceptance of all three completion events.

Table 1-1: Mission Milestone Payment Event Schedule for Space Force

Mile ston e #	Payment Event	Accomplishment Criteria	Completion Evidence	Estimated Completion Date	Total Payment (\$)	% of FFP CLINs 0001, 0002, 0003, and 0004
1	Initial Integration & Ops Plan; Initial Flight Critical Items List (FCIL) and Ground Critical Items List (GCIL); Initial Mission-Specific Integrated Master Schedule (IMS); Procurement initiated of long lead hardware; completed Mission Kickoff Review (MKR)	<ul style="list-style-type: none"> - First submission and Government acknowledgement of receipt of the following: Initial Integration & Ops Plan IAW CDRL A023; Initial FCIL and GCIL IAW CDRL A035; initial mission-specific IMS IAW CDRL A008. - Long lead hardware procurement or build initiated as required. - MKR completed IAW PWS Appendix F. 	<ul style="list-style-type: none"> - CDRL A023 initial draft Integration and Ops Plan accepted by the PCO, appropriate Contracting Officer's Representative (COR), or appropriate COTR. - CDRL A035 initial FCIL and GCIL accepted by the PCO, appropriate COR, or appropriate COTR. - CDRL A008 initial mission-specific IMS accepted by the PCO, appropriate COR, or appropriate COTR. - Long lead hardware procurement or build initiated as required for the mission. Long lead hardware procurement or build initiated status provided in first PMR after mission order IAW PWS paragraphs 3.1.4 and 3.1.7. Status for all long lead hardware required for the mission received and accepted by the PCO, appropriate COR, or appropriate COTR. - MKR meeting minutes documenting meeting completion, action items, and action item closure plans. 	Authority to Proceed (ATP) + 1 month	To be filled in by the Government at task order issuance	10%
2	Initial Safety Assessment Report; Initial As Designed Configuration List (ADCL); Launch Service Provider Non-Recurring Design Validation (NRDV) Work Closure Plan	<ul style="list-style-type: none"> - Submission and Government acknowledgement of receipt of the following: Initial Safety Assessment Report IAW CDRL A029; Initial ADCL for the launch vehicle IAW CDRL A033. - Submission and Government approval of baseline schedule for NRDV Work Closure Plan IAW CDRL A038. 	<ul style="list-style-type: none"> - CDRL A029 initial Safety Assessment Report accepted by the PCO, appropriate COR, or appropriate COTR. - CDRL A033 initial ADCL accepted by the PCO, appropriate COR, or appropriate COTR. - CDRL A038 baseline launch service provider NRDV work closure schedule and plan accepted by the PCO, appropriate COR, or appropriate COTR. 	Launch (L) - 22 months	To be filled in by the Government at task order issuance	5%

3	First draft of the Baseline Mission Interface Control Document (ICD); Initial Launch Vehicle Test & Verification Plan (LVT&VP)	Submission and Government acknowledgement of receipt of the following: First draft of the Baseline Mission ICD IAW CDRL A025; initial LVT&VP IAW CDRL A037	<ul style="list-style-type: none"> - CDRL A025 first draft of the Baseline Mission ICD accepted by the PCO, appropriate COR, or appropriate COTR. - CDRL A037 initial LVT&VP accepted by the PCO, appropriate COR, or appropriate COTR. 	L - 21 months	To be filled in by the Government at task order issuance	5%
4	Initial Verification Planning Matrix (VPM); Updated FCIL and GCIL; Updated ADCL; Updated Integration & Ops Plan	<ul style="list-style-type: none"> - Submission and Government acknowledgement of receipt of the initial VPM IAW CDRL A027 - Submission and Government approval of the following: updated FCIL and GCIL IAW CDRL A035; updated ADCL IAW CDRL A033; and updated Integration & Ops Plan IAW CDRL A023. 	<ul style="list-style-type: none"> - CDRL A027 first draft VPM accepted by the PCO, appropriate COR, or appropriate COTR. - CDRL A035 updated FCIL and GCIL accepted by the PCO, appropriate COR, or appropriate COTR. - CDRL A033 updated ADCL accepted by the PCO, appropriate COR, or appropriate COTR. - CDRL A023 updated Integration and Ops Plan accepted by the PCO, appropriate COR, or appropriate COTR. 	L - 18 Months	To be filled in by the Government at task order issuance	10%
