#### Proposal Instructions:

- 1) On page 3 of the Proposal Instructions, it discusses a legend to include on pages with confidential information. Is it acceptable to include the legend in the margins/footer/header so as to save space for our responses?

**Original NPS Response:** *Yes. Offerors are reminded that information within the headers or footers still needs to remain within the margin limits required in Section 2(e) of the Proposal Instructions, which states, "Offerors must use 11 or 12 point font for all text within the proposal, including all tables, charts, graphs, and provided forms. The Service will accept images of sample material with smaller fonts. Page margins must be 1 inch."*

**Revised NPS Response:** *Yes. The notation of confidential or proprietary information may be placed within the headers or footers. The page numbers may also be placed inside the headers or footers. Offerors are reminded that information within the headers or footers still needs to meet the requirements listed in Section 2(e) of the Proposal Instructions, which states, "Offerors must use 11 or 12 point font for all text within the proposal, including all tables, charts, graphs, and provided forms. The Service will accept images of sample material with smaller fonts. Page margins must be 1 inch."*
