2. Program Overview

The purpose of the RLDP is to develop results-oriented, emotionally intelligent, resilient and agile leaders with broad perspectives to successfully lead people and manage change in complex environments. The RLDP is designed to expose participants to programs, processes, and people across NWD and USACE while providing a strong foundation in leadership theory. The

program is designed for high-performing, mid-level leaders with the potential and motivation to progress into more senior leadership roles within their District, the Division, or the enterprise. Additionally, the RLDP offers participants the opportunity to develop and expand their regional leadership perspectives.

Participants represent a variety of career fields and are generally at or near mid-career. The overall objective of this 12-month program is to train and develop a cadre of potential leaders to enable them to build and maintain trusted relationships and strategic alliances, to understand employee motivation and stakeholder values and challenges, and enable them to successfully create or support conditions in which innovative, high-performing teams can thrive. Participants will learn about and practice effective leadership behaviors, acquire new skills and awareness, and learn how to apply lessons learned to their careers and personal lives in a personalized individual leadership development plan.

2.1. Definition and Acronyms

RLDP (Regional Leadership Development Program): A leadership development program administered at the regional level by the Northwestern Division. This program fulfills the level 3 program requirements outlined in Engineer Regulation 690-1-1214 (USACE Leadership Development Program).

USACE (U.S. Army Corps of Engineers): This Federal agency is responsible for a wide range of civil and military engineering missions. The Corps of Engineers delivers vital public and military engineering services; partners in peace and war to strengthen our Nation's security, energizes the economy, and reduces risks from disasters. USACE is headquartered in Washington, D.C. and is a Direct Reporting Unit to the Department of the Army.

NWD (Northwestern Division): Northwestern Division is one of nine USACE divisions. Its territory is nearly 2,000 miles wide, enveloping 14 states, 65 Congressional districts and 107 sovereign tribal nations. Two of the country's longest rivers – the Missouri and Columbia – drain nearly one million square miles within NWD's boundaries, which stretch from Seattle, WA., to St. Louis, MO. NWD's civil works, military, and environmental programs surpass \$3 billion annually. The division has five districts located Portland, OR; Seattle, WA; Walla Walla, WA; Kansas City, MO; and Omaha, NE. The NWD headquarters is in Portland, OR. NWD is a Major Subordinate Command (MSC) that reports directly to the USACE HQ.

Commander: As an Army organization, USACE is structured with an active duty Army officer with command authority at each echelon. The Commander of the Northwestern Division is also referred to as the "Division Engineer," with specific authorities granted by U.S. Codes and Statutes. Similarly, at the district level, commanders are referred to as the "District Engineer."

Contractor/Program Facilitator: The Contractor, or their designee/s, serves as the Program Facilitator administering all aspects of the leadership development training portion of the RLDP. The Program Facilitator is responsible for program design, planning, development, and administration; coaching, counseling, and advising Participants; facilitating/instructing RLDP activities; maintaining liaison with the RLDP Program Manager and the RLDP NWD

facilitators; evaluating the effectiveness of RLDP activities, and other duties described in this Scope of Work.

Mentors: Each RLDP Participant selects a mentor who is a USACE HQ/Division/District leader outside of their supervisory chain. The primary objective of the mentoring program is to assist the RLDP Participants in broadening their knowledge of USACE culture and gaining leadership insights and advice from a respected leader. Mentors are also available to listen and to provide advice, assistance, moral support, and consultation to RLDP Participants.

Champion: The Director of Regional Business will serve as the NWD Regional Champion in accordance with responsibilities outlined in Engineer Regulation 690-1-1214 (USACE Leadership Development Program). The RLDP Champion maintains a passion for leadership development and is responsible for ensuring the NWD RLDP is properly executed throughout the region. The Champion periodically reviews RLDP goals, objectives, and guidelines, and reviews feedback provided through After Action Reports (AARs) and other sources to make necessary program changes and improvements.

Program Manager: A Northwestern Division employee who manages the overall execution of the RLDP and serves as a liaison between the Contractor/Program Facilitator, NWD facilitators, and the RLDP Champion. The Program Manager manages all aspects of the program including administrative and logistic considerations. The RLDP Program Manager provides input and assistance to the Contractor/Program Facilitator, RLDP Participants, mentors and supervisors of RLDP Participants, and RLDP Champion. The Program Manager reports to the Chief of the Business Management Division.

Facilitators: NWD will provide two senior-level (GS-15) facilitators to participate in RLDP sessions to aid the contractor's RLDP execution by providing inputs and feedback to ensure that all participants have and consider USACE context throughout the program, particularly during discussions and exercises.

Participants: Corps of Engineers employees who have been identified as having high potential for promotion to leadership/management positions. Each participant has been competitively selected for the RLDP by a diverse selection panel. RLDP Participants represent a variety of career fields, experience levels, and backgrounds.

ILDP (Individual Leadership Development Plan): The ILDP is intended to be a tool that will enable Participants to improve leadership skills throughout their careers. The purpose of an ILDP is to enable Participants to introspectively identify opportunities for behavioral shifts and personal development activities to improve their leadership outcomes. Participants' leadership strengths and opportunities will be identified by participants through the use of assessment feedback, self-reflection, discovery, and dialogue. The ILDP should identify areas of improvement; define specific actions for improvement; and identify desired outcomes.

2.2. Program Development

NWD is one of nine USACE divisions, comprised of five districts located in Portland, OR; Seattle, WA; Walla Walla, WA; Kansas City, MO; and Omaha, NE. Under this PWS, the

2.2.1. The Contractor Shall Furnish

The contractor will be responsible for providing all labor, program/session design, materials, handouts, paper, plans, diagnostic tools, books, their own IT and any other audio/visual equipment (e.g., facilitator laptop, monitor, speakers/headset/microphone), shipping/ mailing costs, and all classroom materials and training aids necessary to successfully conduct and deliver the RLDP. Materials (including handouts and binders) required to conduct each facilitated session will also be provided by the contractor.

2.3. Mandatory Program Elements

2.3.1. Initial Consultation Meeting

The Contractor/Program Facilitator will team with Corps of Engineers Champion, Program Manager, Facilitators, and other senior leaders to develop and implement a comprehensive leadership program. The Contractor/Program Facilitator shall meet with Corps staff for a maximum of eight (8) hours to present and assess the Program. The meeting/s shall be held virtually, at least four weeks prior to the Program Kickoff session. At this meeting, the Contractor shall provide their plan to ensure requirements for graduation are completed satisfactorily. Materials presented will include curricula/syllabi for contractor-facilitated sessions, course objectives, dates, and locations identified in the conceptual plan (Appendix A). The plan shall also address students ILDPs, plans to administer and coach individuals on their 360-degree, and other individual assessments. In addition, the plan shall ensure regular communication with the Program Manager, Facilitators, and RLDP Champion, and all other deliverables outlined in the PWS. Final submission of all items to be provided 5 business days after the conclusion of the consultation meeting to the Program Manager. The Program Manager has final approval on these items.

2.3.1.1. Recommendations on Leadership Books/Other Resources

At the Initial Consultation Meeting, the Contractor/Program Facilitator shall provide recommendations regarding use of reading materials for foundational leadership learning for on-site or inter-session meetings. The Contractor/Program Facilitator shall describe where and how these reading materials will be inserted into the program syllabus, what learning objectives the readings support, and what sort of group discussions or activities will accompany the readings. The Contractor/Program Facilitator shall also provide lists of other resources proposed for RLDP Participants throughout the year for inclusion in various NWD resource lists or learning communities.

2.3.1.2. Participant Performance Tracking and Monitoring on Web Board

At the Initial Consultation Meeting, the Contractor/Program Facilitator shall describe their suggested method(s) for tracking individual participant performance with regards to RLDP deliverables/graduation requirements (compliance/completion of assignments such as reflective

essays and book reports, participation and volunteering in class efforts/discussion, etc.). The tracking system will be delivered monthly to the Program Manager from the contractor who collects deliverables from participants. Describe what electronic tool, such as Black Board, SharePoint, will be utilized to track and share information.

2.3.1.3. Delivery of Course Schedule

There will be eight (8) in-person RLDP Sessions within the annual program, as tentatively outlined in the Conceptual Plan, Appendix A. Additionally, periodic virtual touchpoints should be scheduled during the inter-session period to facilitate participant connectivity, reinforce learning, encourage experimentation, and maintain momentum. The program is a year long and the Contractor/Program Facilitator is responsible for creating a rigorous leadership development program that challenges the cohort. Each District will host a session and Northwestern Division (Portland, Oregon) will host the introduction and graduation sessions. The Contractor/Program Facilitator may use the notional course design and schedule as shown on the Conceptual Plan but ultimately is responsible for designing and delivering leadership development courses that met the objectives of this PWS. It is recommended that travel during the holidays be avoided (end of November through first of January) and that at least a three week gap between travel be built into the Contractors course schedule. The contractor will not attend the session in Washington D.C. with dates to be determined.

2.3.2. Program Kickoff

In June, the Contractor, Champion, Program Manager, and Facilitators will present a virtual program kick-off/orientation session. An outline of the meeting is as follows:

Program Manager – The Program Manager will introduce leadership and provide explanations of roles and responsibilities of the Contractor, Program Manager, and RLDP Facilitators.

Facilitators - The Facilitators will provide an overview of the program and overarching goals for Participants. The Capstone Project(s) will also be discussed.

Champion - The Champion, or their designated responsible government employee, will provide an overview of the NWD philosophy for the program.

Contractor – The Contractor will at a minimum, provide the following.

- An administrative overview of the program and graduation requirements
- Calendar of classes and time commitment
- Assessments and mentoring overview
- Question and answer session (both Contractor, Program Manager, and Facilitators)

2.3.3. Classes

Class Schedule - RLDP Sessions will be held approximately every 4-5 weeks as outlined in the Conceptual Plan Appendix A. In the event that the Contractor/Program Facilitator is unavailable, at least one backup person of equal qualifications shall be designated and ready to

act in their place.

Virtual Classes. Since this is a Regional Program, some of the classes may be conducted virtually (e.g., the inter-session touchpoint meetings, or if health or emergency conditions require virtual participation). Details of virtual sessions shall be coordinated with and approved by the Program Manager.

Instruction Topics. The Contractor/Program Facilitator shall provide a dynamic, interactive class environment and shall cover each topic or equivalent contemporary leadership and management concept (found in the Conceptual Plan Appendix A). Innovation in developing the RLDP curriculum is highly encouraged, and the Contractor is encouraged to provide alternative applicable leadership topics. The Contractor will work with Program Manager and Facilitators, as appropriate, to discuss Contractor-proposed topics. Instruction should avoid duplication of material and should provide a logical progression of material that builds upon knowledge gained from one topic to the next. The material for each topic shall be presented with a balance between lecture, group discussion, and small group or individual activities. Topics may be combined as needed or warranted by the curriculum design.

RLDP activities shall be designed in a manner that provides sufficient time for group process development for varying personality styles, to gather and synthesize information and experiences, and for practice in using new behaviors and/or techniques. Actual topics can be adjusted, based on the needs of the Participants, and on current trends related to management. Length of formal classroom modules will vary depending on subject coverage, time required for mastery, beneficial mix of developmental methodologies, and scheduling preferences of the Participants and the Program Facilitator.

Capstone Project(s). NWD will select one or two projects that will be a focus area for the cohort. The project is designed to capitalize on the talent of the cohort while exposing them to facets of the NWD mission that may not otherwise be in their purview. The project (s) will be discussed at the kick-off meeting. The Contractor is responsible for linking session leadership objectives to the Capstone Project(s) in order to give participants an opportunity to master and demonstrate leadership skills and behaviors emphasized during the RLDP.

Participant Evaluations. For each RLDP class session and class activity, the Contractor/Program Facilitator shall obtain written feedback/evaluations from Participants, to include relevance and appropriateness of lecture and materials used to the intended topic(s), subject matter mastery, speakers' mastery of materials (if other than the Program Facilitator), and the extent to which the class session contributed to graduation requirements. These written evaluations shall be provided to the Program Manager on a monthly basis.

2.3.4. Regular Communication

The Contractor/Program Facilitator is expected to communicate regularly with the Program Manager to provide a status report on RLDP activities and to address concerns, resolve problems, or obtain guidance. This communication can also be accomplished virtually. A maximum of ten (10) hours of formal communication per contract period is estimated.

2.3.5. Provide Individual Assessments

Several individual assessments have been identified to provide insights regarding participants' leadership behaviors, strengths, and opportunities. Examples of assessment tools include but are not limited to 360-degree assessment, TalentSmart's Emotional Intelligence 2.0 assessment, Conflict Dynamics Profile, Influence Style Indicator, Coaching Behaviors Inventory, the Employee Value Equation, and/or a trust assessment. The contractor shall administer a minimum of two assessments, including one 360-degree assessment, to aid participants in identifying professional development goals and opportunities. At the first session, the Contractor/Program Facilitator shall provide an introduction and overview of selected assessments that will be used to frame individual leadership development plans. The Contractor/Program Facilitator shall ensure that all Participants complete assessment administration requirements and shall provide one-on-one coaching on and interpretation of the 360-degree assessment to each Participant prior to the third RLDP session.

2.3.6. Individual Leadership Development Plans (ILDLP)

The Contractor/Program Facilitator in conjunction with Program Manager shall facilitate each Participant's preparation of Individual Leadership Development Plans (ILDLPs), with the assistance and advice of their Mentors. The Participants' leadership strengths and weaknesses will be determined through use of assessments and activities occurring during the course of instruction. The Contractor/Program Facilitator shall ensure the ILDPs identify areas for improvement, define specific actions for improvement, and identify desired results. The Contractor's identified ICF credentialed team member shall meet with each Participant two (2) times during the year for one (1) hour each session to review, discuss, and refine ILDPs. These sessions can be via telephone, virtual platform, or during a scheduled session. These sessions shall be used to aid the Participants in developing actionable goals, identifying actions, monitoring progress, and defining success. It is likely that the Participants will be discussing similar topics (goals, progress, etc.) with their Mentors, so communication between the Program Facilitator and the Mentors is advantageous during the RLDP.

2.3.7. Graduation Ceremony

The Contractor/Program Facilitator may attend the graduation ceremony if it coincides with an in-person instructional session. If the last instruction occurs prior to graduation, there will be no additional travel for the Contractor to attend. The graduation ceremony is held to recognize the achievements of the Participants and to celebrate the success of the year's activities.

2.3.8. LDP Interim and Final Written Evaluations

The Contractor/Program Facilitator shall provide the Program Manager and Facilitators with written reports evaluating the effectiveness of RLDP components and activities and providing recommendations for changes and improvements. At a minimum, an interim and a final written evaluation of the program are required. The interim evaluation shall be provided five months after initiation of the Program, and the final evaluation shall be provided within 30 days after graduation. The final evaluation will include results from an After Action Review (AAR), to evaluate the effectiveness of the RLDP program and activities. The AAR is a professional discussion of an event focused on performance standards, which allows participants to discover for themselves what happened, why it happened, and how to sustain strengths and improve on weaknesses. The Contractor/Program Facilitator is encouraged to be innovative in developing an

effective evaluation system for the RLDP that provides concrete information regarding Program strengths and weaknesses and specific recommended improvements. The written evaluations should include the outcomes of using assessments and resulting ILDPs to show how RLDP Participants improved their leadership skills and behaviors. All aspects of the RLDP shall be covered in the evaluations, including effectiveness of books, online classes, speakers, class topics, diagnostic testing, counseling sessions, mentoring, etc.

2.3.9. After Action Review (AAR)

Each year following the conclusion of the final session, the Contractor / Program Facilitator, Program Manager and the Facilitators will discuss the current year and improvements to be made to future programs and capture this in a report. The contractor shall plan for two meetings each year preceding the report. The meetings will not exceed 90 minutes in length and will be conducted virtually (no travel required). The first will be to capture successes and concerns with the current program. The second will be where the contract will provide proposals on what the next program year should look like to overcome concerns and maintain successes. The second meeting shall occur within seven (7) days of the first meeting. The contractor shall provide a written AAR final report that captures both meetings, the RLDP Program year, the years successes, challenges, how to overcome the challenges, and a description of how these improvements will be implemented within 10 business days of the second meeting.

2.4. Guiding Principles for Program Implementation

Flexibility: The Contractor/Program Facilitator must be able to address the individual Participants' specific needs. They must be able to capitalize on opportunities and additional learning experiences as these opportunities arise even if not originally anticipated and incorporate them into program activity design and delivery.

Continuity: Maintain continuity from one learning activity to another. The Contractor/ Program Facilitator will personally participate in all key RLDP activities and bring together individual lessons learned into a cohesive whole.

Development: To occur simultaneously at three levels, shown with desired outcomes:

- Internal Development (internal to the person) - to provide a heightened awareness of one's strengths and weaknesses as they pertain to leadership professional development
- Interpersonal Development (among classmates and project teammates) - to develop and refine skills necessary to be an effective team member and leader, such as leadership philosophy, team building and dynamics, interpersonal communication, time management, priority identification and management, collaboration, change leadership; valuing diversity, decision making and execution, ethics, and other related topics described in the notional design provided.
- Organization Development (within the Northwestern Division) - to provide Participants with greater insight into the vision, values, missions, and culture of the Corps of Engineers and the necessity and utility of these cultural artifacts, as well as the leader's role in establishing, communicating, and leveraging each to establish conditions for healthy, high-performing teams.

(h) Certification Regarding Responsibility Matters (Executive Order 12689). (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals--

(1) [____] Are, [____] are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) [____] Have, [____] have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(4) [____] Have, [____] have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the

taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126). (iv) The compensation (wage and fringe benefits) plan for all service employees performing work under the contract is the same as that used for these employees and equivalent employees servicing commercial customers.

(3) If paragraph (k)(1) or (k)(2) of this clause applies—

Adequate security means protective measures that are commensurate with the consequences and probability of loss, misuse, or unauthorized access to, or modification of information.

Compromise means disclosure of information to unauthorized persons, or a violation of the security policy of a system, in which unauthorized intentional or unintentional disclosure, modification, destruction, or loss of an object, or the copying of information to unauthorized media may have occurred.

Contractor attributional/proprietary information means information that identifies the contractor(s), whether directly or indirectly, by the grouping of information that can be traced back to the contractor(s) (e.g., program description, facility locations), personally identifiable information, as well as trade secrets, commercial or financial information, or other commercially sensitive information that is not customarily shared outside of the company.

Controlled technical information means technical information with military or space application that is subject to controls on the access, use, reproduction, modification, performance, display, release, disclosure, or dissemination. Controlled technical information would meet the criteria, if disseminated, for distribution statements B through F using the criteria set forth in DoD Instruction 5230.24, Distribution Statements on Technical Documents. The term does not include information that is lawfully publicly available without restrictions.

Covered contractor information system means an unclassified information system that is owned, or operated by or for, a contractor and that processes, stores, or transmits covered defense information.

Covered defense information means unclassified controlled technical information or other information, as described in the Controlled Unclassified Information (CUI) Registry at <http://www.archives.gov/cui/registry/category-list.html>, that requires safeguarding or dissemination controls pursuant to and consistent with law, regulations, and Governmentwide policies, and is--

(1) Marked or otherwise identified in the contract, task order, or delivery order and provided to the contractor by or on behalf of DoD in support of the performance of the contract; or

(2) Collected, developed, received, transmitted, used, or stored by or on behalf of the contractor in support of the performance of the contract.

Cyber incident means actions taken through the use of computer networks that result in a compromise or an actual or potentially adverse effect on an information system and/or the information residing therein.

Forensic analysis means the practice of gathering, retaining, and analyzing computer-related data for investigative purposes in a manner that maintains the integrity of the data.

Information system means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information.

Malicious software means computer software or firmware intended to perform an unauthorized process that will have adverse impact on the confidentiality, integrity, or availability of an information system. This definition includes a virus, worm, Trojan horse, or other code-based entity that infects a host, as well as spyware and some forms of adware.

Media means physical devices or writing surfaces including, but is not limited to, magnetic tapes, optical disks, magnetic disks, large-scale integration memory chips, and printouts onto which covered defense information is recorded, stored, or printed within a covered contractor information system.

Operationally critical support means supplies or services designated by the Government as critical for airlift, sealift, intermodal transportation services, or logistical support that is essential to the mobilization, deployment, or sustainment of the Armed Forces in a contingency operation.

Rapidly report means within 72 hours of discovery of any cyber incident.

Technical information means technical data or computer software, as those terms are defined in the clause at DFARS 252.227-7013, Rights in Technical Data--Noncommercial Items, regardless of whether or not the clause is incorporated in this solicitation or contract. Examples of technical information include research and engineering data, engineering drawings, and associated lists, specifications, standards, process sheets, manuals, technical reports, technical orders, catalog-item identifications, data sets, studies and analyses and related information, and computer software executable code and source code.

(b) Adequate security. The Contractor shall provide adequate security on all covered contractor information systems. To provide adequate security, the Contractor shall implement, at a minimum, the following information security protections:

(1) For covered contractor information systems that are part of an information technology (IT) service or system operated on behalf of the Government, the following security requirements apply:

(i) Cloud computing services shall be subject to the security requirements specified in the clause 252.239-7010, Cloud Computing Services, of this contract.

(ii) Any other such IT service or system (i.e., other than cloud computing) shall be subject to the security requirements specified elsewhere in this contract.

(2) For covered contractor information systems that are not part of an IT service or system operated on behalf of the Government and therefore are not subject to the security requirement specified at paragraph (b)(1) of this clause, the following security requirements apply:

(i) Except as provided in paragraph (b)(2)(ii) of this clause, the covered contractor information system shall be subject to the security requirements in National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171, "Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations" (available via the internet at <http://dx.doi.org/10.6028/NIST.SP.800-171>) in effect at the time the solicitation is issued or as authorized by the Contracting Officer.

(ii)(A) The Contractor shall implement NIST SP 800-171, as soon as practical, but not later than December 31, 2017. For all contracts awarded prior to October 1, 2017, the Contractor shall notify the DoD Chief Information Officer (CIO), via email at osd.dibcsia@mail.mil, within 30 days of contract award, of any security requirements specified by NIST SP 800-171 not implemented at the time of contract award.

(B) The Contractor shall submit requests to vary from NIST SP 800-171 in writing to the Contracting Officer, for consideration by the DoD CIO. The Contractor need not implement any security requirement adjudicated by an authorized representative of the DoD CIO to be nonapplicable or to have an alternative, but equally effective, security measure that may be implemented in its place.

(C) If the DoD CIO has previously adjudicated the contractor's requests indicating that a requirement is not applicable or that an alternative security measure is equally effective, a copy of that approval shall be provided to the Contracting Officer when requesting its recognition under this contract.

(D) If the Contractor intends to use an external cloud service provider to store, process, or transmit any covered defense information in performance of this contract, the Contractor shall require and ensure that the cloud service provider meets security requirements equivalent to those established by the Government for the Federal Risk and Authorization Management Program (FedRAMP) Moderate baseline (<https://www.fedramp.gov/resources/documents/>) and that the cloud service provider complies with requirements in paragraphs (c) through (g) of this clause for cyber incident reporting, malicious software, media preservation and protection, access to additional information and equipment necessary for forensic analysis, and cyber incident damage assessment.

(3) Apply other information systems security measures when the Contractor reasonably determines that information systems security measures, in addition to those identified in paragraphs (b)(1) and (2) of this clause, may be required to provide adequate security in a dynamic environment or to accommodate special circumstances (e.g., medical devices) and any individual, isolated, or temporary deficiencies based on an assessed risk or vulnerability. These measures may be addressed in a system security plan.

(c) Cyber incident reporting requirement.

(1) When the Contractor discovers a cyber incident that affects a covered contractor information system or the covered defense information residing therein, or that affects the contractor's ability to perform the requirements of the contract that are designated as operationally critical support and identified in the contract, the Contractor shall--

(i) Conduct a review for evidence of compromise of covered defense information, including, but not limited to, identifying compromised computers, servers, specific data, and user accounts. This review shall also include analyzing covered contractor information system(s) that were part of the cyber incident, as well as other information systems on the Contractor's network(s), that may have been accessed as a result of the incident in order to identify compromised covered defense information, or that affect the Contractor's ability to provide operationally critical support; and

(ii) Rapidly report cyber incidents to DoD at <https://dibnet.dod.mil>.

(2) Cyber incident report. The cyber incident report shall be treated as information created by or for DoD and shall include, at a minimum, the required elements at <https://dibnet.dod.mil>.

(3) Medium assurance certificate requirement. In order to report cyber incidents in accordance with this clause, the Contractor or subcontractor shall have or acquire a DoD-approved medium assurance certificate to report cyber incidents. For information on obtaining a DoD-approved medium assurance certificate, see <https://public.cyber.mil/eca/>.

(d) Malicious software. When the Contractor or subcontractors discover and isolate malicious software in connection with a reported cyber incident, submit the malicious software to DoD Cyber Crime Center (DC3) in

accordance with instructions provided by DC3 or the Contracting Officer. Do not send the malicious software to the Contracting Officer.

(e) Media preservation and protection. When a Contractor discovers a cyber incident has occurred, the Contractor shall preserve and protect images of all known affected information systems identified in paragraph (c)(1)(i) of this clause and all relevant monitoring/packet capture data for at least 90 days from the submission of the cyber incident report to allow DoD to request the media or decline interest.

(f) Access to additional information or equipment necessary for forensic analysis. Upon request by DoD, the Contractor shall provide DoD with access to additional information or equipment that is necessary to conduct a forensic analysis.

(g) Cyber incident damage assessment activities. If DoD elects to conduct a damage assessment, the Contracting Officer will request that the Contractor provide all of the damage assessment information gathered in accordance with paragraph (e) of this clause.

(h) DoD safeguarding and use of contractor attributional/proprietary information. The Government shall protect against the unauthorized use or release of information obtained from the contractor (or derived from information obtained from the contractor) under this clause that includes contractor attributional/proprietary information, including such information submitted in accordance with paragraph (c). To the maximum extent practicable, the Contractor shall identify and mark attributional/proprietary information. In making an authorized release of such information, the Government will implement appropriate procedures to minimize the contractor attributional/proprietary information that is included in such authorized release, seeking to include only that information that is necessary for the authorized purpose(s) for which the information is being released.

(i) Use and release of contractor attributional/proprietary information not created by or for DoD. Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is not created by or for DoD is authorized to be released outside of DoD--

(1) To entities with missions that may be affected by such information;

(2) To entities that may be called upon to assist in the diagnosis, detection, or mitigation of cyber incidents;

(3) To Government entities that conduct counterintelligence or law enforcement investigations;

(4) For national security purposes, including cyber situational awareness and defense purposes (including with Defense Industrial Base (DIB) participants in the program at 32 CFR part 236); or

(5) To a support services contractor ("recipient") that is directly supporting Government activities under a contract that includes the clause at 252.204-7009, Limitations on the Use or Disclosure of Third-Party Contractor Reported Cyber Incident Information.

(j) Use and release of contractor attributional/proprietary information created by or for DoD. Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is created by or for DoD (including the information submitted pursuant to paragraph (c) of this clause) is authorized to be used and released outside of DoD for purposes and activities authorized by paragraph (i) of this clause, and for any other lawful Government purpose or activity, subject to all applicable statutory, regulatory, and policy based restrictions on the Government's use and release of such information.

(k) The Contractor shall conduct activities under this clause in accordance with applicable laws and regulations on the interception, monitoring, access, use, and disclosure of electronic communications and data.

(l) Other safeguarding or reporting requirements. The safeguarding and cyber incident reporting required by this clause in no way abrogates the Contractor's responsibility for other safeguarding or cyber incident reporting

pertaining to its unclassified information systems as required by other applicable clauses of this contract, or as a result of other applicable U.S. Government statutory or regulatory requirements.

(m) Subcontracts. The Contractor shall--

(1) Include this clause, including this paragraph (m), in subcontracts, or similar contractual instruments, for operationally critical support, or for which subcontract performance will involve covered defense information, including subcontracts for commercial items, without alteration, except to identify the parties. The Contractor shall determine if the information required for subcontractor performance retains its identity as covered defense information and will require protection under this clause, and, if necessary, consult with the Contracting Officer; and

(2) Require subcontractors to--

(i) Notify the prime Contractor (or next higher-tier subcontractor) when submitting a request to vary from a NIST SP 800-171 security requirement to the Contracting Officer, in accordance with paragraph (b)(2)(ii)(B) of this clause; and

(ii) Provide the incident report number, automatically assigned by DoD, to the prime Contractor (or next higher-tier subcontractor) as soon as practicable, when reporting a cyber incident to DoD as required in paragraph (c) of this clause.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors, applies to all contracts subject to the Service Contract Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is the victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE EO 13706: \$4.41 per hour, up to 40 hours per week, or \$176.40 per week, or \$764.40 per month*

*This rate is to be used only when compensating employees for performance on an SCA-covered contract also covered by EO 13706, Establishing Paid Sick Leave for Federal Contractors. A contractor may not receive credit toward its SCA obligations for any paid sick leave provided pursuant to EO 13706.

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor, 3 weeks after 5 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or

successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of eleven paid holidays per year: New Year's Day, Martin Luther King Jr.'s Birthday, Washington's Birthday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) COMPUTER EMPLOYEES: This wage determination does not apply to any individual employed in a bona fide executive, administrative, or professional capacity, as defined in 29 C.F.R. Part 541. (See 41 C.F.R. 6701(3)). Because most Computer Systems Analysts and Computer Programmers who are paid at least \$27.63 per hour (or at least \$684 per week if paid on a salary or fee basis) likely qualify as exempt computer professionals under 29 U.S.C. 213(a)(1) and 29 U.S.C. 213(a)(17), this wage determination may not include wage rates for all occupations within those job families. In such instances, a conformance will be necessary if there are nonexempt employees in these job families working on the contract.

Job titles vary widely and change quickly in the computer industry, and are not determinative of whether an employee is an exempt computer professional. To be exempt, computer employees who satisfy the compensation requirements must also have a primary duty that consists of:

(1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;

(2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;

(3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or

(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

Any computer employee who meets the applicable compensation requirements and the above duties test qualifies as an exempt computer professional under both section 13(a)(1) and section 13(a)(17) of the Fair Labor Standards Act. (Field Assistance Bulletin No. 2006-3 (Dec. 14, 2006)). Accordingly, this wage determination will not apply to any exempt computer employee regardless of which of these two exemptions is utilized.

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

** HAZARDOUS PAY DIFFERENTIAL **

An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as

screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder.

All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving re-grading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

** SERVICE CONTRACT ACT DIRECTORY OF OCCUPATIONS **

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition (Revision 1), dated September 2015, unless otherwise indicated.

** REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE, Standard Form 1444 (SF-1444) **

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination (See 29 CFR 4.6(b)(2)(i)). Such conforming procedures shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees

(See 29 CFR 4.6(b)(2)(ii)). The Wage and Hour Division shall make a final determination of conformed classification, wage rate, and/or fringe benefits which shall be paid to all employees performing in the classification from the first day of work on which contract work is performed by them in the classification. Failure to pay such unlisted employees the compensation agreed upon by the interested parties and/or fully determined by the Wage and Hour Division retroactive to the date such class of employees commenced contract work shall be a violation of the Act and this contract. (See 29 CFR 4.6(b)(2)(v)). When multiple wage determinations are included in a contract, a separate SF-1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order the proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the U.S. Department of Labor, Wage and Hour Division, for review (See 29 CFR 4.6(b)(2)(ii)).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour Division's decision to the contractor.
- 6) Each affected employee shall be furnished by the contractor with a written copy of such determination or it shall be posted as a part of the wage determination (See 29 CFR 4.6(b)(2)(iii)).

Information required by the Regulations must be submitted on SF-1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" should be used to compare job definitions to ensure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination (See 29 CFR 4.152(c)(1))."
