The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

7.2 The Government does not assume the duty to search for data to cure problems it finds in quotes.

7.3 The below instructions are provided to advise offerors as to the information required by the Government to assess the contractor's Recent and Relevant past performance. Since this information constitutes a basis of the Government's review, it is imperative that the offeror present its past performance in a clear and complete manner.

9.0 ORGANIZATIONAL CONFLICT OF INTEREST

9.1 The provisions of FAR 9.5, OCI, apply to any award under this solicitation. Potential offerors should review their current and planned participation in any other Government contracts, subcontracts, consulting, or teaming arrangements where they may be in a position of actual or perceived bias or unfair competitive advantage. A common example with the potential for OCI is where an entity performs work both as a system contractor/subcontractor and as a Government support contractor for Government offices involved in supporting program efforts or related programs.

9.2 All offerors shall make a preliminary disclosure to the PCO, at the time of its quote, of any Organizational Conflict of Interest (OCI) issues it has identified or provide an affirmative statement that the offeror does not have an Organizational Conflict of Interest (OCI) as it applies to this solicitation.

9.2.1 An offeror failing to submit an OCI plan that it is later determined should have been submitted, could cause the quote to be rejected and no longer be considered for award. Offerors shall include in its plan where its employees are located and the total of employees in the location(s).

9.3 Offerors should disclose any potential OCI situations to the PCO as soon as identified including prior to quote submission. The disclosure should include the facts and an analysis of the actual or perceived conflict and a recommended approach(s) to neutralize or mitigate the potential conflict. The preferred approach to potential conflicts is to negate/obviate the conflict. Mitigation is considered only if it is not practical to negate/obviate the conflict. The PCO will promptly respond to resolve any potential conflicts.

10.0 EVALUATION FACTORS FOR AWARD

10.1 The Government will award BPAs resulting from this solicitation to the responsible offeror whose quote conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

10.1.1 Technical

10.1.2 Past Performance

10.1.3 Price

10.2 Basis for Award

- 10.2.1 The Government intends to issue and/or award a minimum of 2, likely no more than 4 Blanket Purchase Agreements (BPA) from this solicitation.. All awards will be based on a best value to the Government determination by the Contracting Officer.
- 10.2.2 Per FAR 9.103, the agreement will be placed only with an offeror that the Contracting Officer determines to be responsible, that is, those who can satisfactorily perform the necessary tasks and deliver the required services on time. Prospective offerors, in order to qualify as sources for this acquisition, must be able to demonstrate that they meet standards of responsibility set forth in FAR 9.104. In addition, the Government may assess the offeror's financial ability to meet the solicitation requirements. No award can be made to an offeror who has been determined to be not responsible by the Contracting Officer.
- 10.2.3 Consistency. Each section of the offeror's quote shall be consistent within the quote.
- 10.2.4 Completeness. The Government's ability to evaluate a quote may depend on the level of detail and supporting documentation provided. Insufficient supporting documentation or detail in a proposal/quote may prevent the Government from evaluating a quote.
- 10.2.5 The Government will assess the offeror's quote on three factors: (1) Technical Capability, (2) Past Performance and (3) Price.

10.3 EVALUATION OF TECHNICAL CAPABILITY

- 10.3.1 Evaluation of this factor will assess the offeror's proposed products and understanding of the requirements and risk of unsuccessful performance of the proposed approach to technical capability in accordance with provided specification.

10.4 EVALUATION OF PAST PERFORMANCE

- 10.4.1 The evaluation of this factor will assess the risk of unsuccessful performance of the offeror's proposed approach to performing efforts of a similar scope, magnitude, and complexity as the requirement described in product specifications.
- 10.4.2 The Government will evaluate the offeror's past performance to determine the likelihood that the offeror will successfully perform the required effort described in the PWS.
- 10.4.3 Contracts submitted in the Past Performance section of the offeror's quote will not be considered if the Government determines them to be not recent, not relevant, or lacking any credible past performance information. If the offeror does not have a record of Recent and Relevant past

performance information the offeror will be rated as "Neutral", which is neither favorable nor unfavorable.

- 10.4.4 The offeror may also be evaluated on past contract performance information utilizing internal Government or private source information and the Government reserves the right to use any information received as part of its evaluation. The Government may contact any of the references the offeror provides and reserves the right to use any information received as part of its evaluation.
- 10.4.5 In evaluating the offeror's performance history, the Government may compare the offeror's deliveries or performance to the contract's original delivery or performance schedule, unless the delay was Government-caused. Schedule extensions that were the fault of the offeror, even if consideration was provided, may be counted against the offeror.

10.5 EVALUATION OF PRICE FACTOR

- 10.5.1 Evaluation of price will be performed using one or more of the price analysis techniques in FAR 13.106-3. Through these techniques the Government will determine whether prices are reasonable, complete, and are not unbalanced.
- 10.5.2 Reasonableness. The Government will evaluate the price reasonableness of the offerors' proposed prices to ensure that in its nature and amount, it does not exceed what would be incurred by a prudent person in the conduct of competitive business. The Government shall employ price analysis techniques in accordance with FAR 13.106-3 to determine that a proposed price is fair and reasonable.
- 10.5.3 Completeness. The Government reserves the right to conduct discussions with offerors, but discussions are not anticipated or intended. Since discussions are not anticipated or intended, the Government requires complete quotes with respect to price. A complete quote will include all information required by this solicitation.
- 10.5.4 Unbalanced Pricing. Offerors should note that pricing will be carefully reviewed to detect whether quotes are unbalanced between line items or subline items, as well as unbalance between periods. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more line items is significantly over or understated as indicated by the application of cost or price analysis techniques. Unbalanced offers may be determined unacceptable.
