

**Pre-Bid RFI Log for MSA Phase 2 and Falcon Ave Concrete Repair**

<b>Date:</b>	<b>RFI No.</b>	<b>RFI QUESTION</b>	<b>GOVERNMENT RESPONSE</b>
6/21/2023	1	What is the scale or the square footages for the demo and replacement (C-102)	The square footage for the demo and replacement of C-102 is ~17,720sqft
6/21/2023	2	I have a scale for the lot replacement in (C-101) but my question for this one is are we removing the buildings as well? it appears to have covered parking buildings in the demo area and some just partially inside as well	No, the structures on C-101 will be moved by Tulsa ANG prior to demolition
6/29/2023	3	Will the contractor have access to bathroom facilities or will they need to supply their own?	Contractors shall supply their own bathroom facilities.
6/29/2023	4	What/if any permits will be required to be pulled by the contractor for this project?	Work Clearance Request Form (dig permit) shall be completed prior to demolition of each site, coordinated through the project manager and base civil engineering.
6/29/2023	5	Can you please provide a list of submittals that need to be submitted by the Contractor post award and throughout the project? (i.e., Safety Plan, Hazard Plan, Shop Drawings, MSDSs, etc.)	Please refer to the AF Form 66 upon contract award.
6/29/2023	6	Will the portable structures, "Bay J" ground connex, trailers, and misc equipment at B301 site be relocated by Base personnel prior to / during construction?	The structures at B301 will be moved by base personnel.
6/29/2023	7	Will a staging / laydown area be defined?	There will be room for staging/laydown area provided. There are two empty on-base parking lots that will act as staging areas for the contractor. Contact project manager post contract award for clarification.
