### **I. OPTIONAL SITE VISIT**

FRA has scheduled a site visit for 2PM on May 11, 2023. Interested parties MUST fill out the visitor request form located here: <https://eshq.fnal.gov/security-site-access/> (Fermilab affiliation is LBNF – Long Baseline Neutrino Facility). On day of Site Visit, present **QR Code and Real ID** at Guard Post. Guard will give you an Access Sticker to be placed on your outer garment. The Site Visit participants will then meet at the base of Wilson Hall on the west side entrance. All participants will need to be escorted 100% of the time during the Site Visit. FRA intends to provide shuttles to provide transport to project area; as space is limited, please limit attendance to no more than 3 individuals from your company. We recommend starting the site visit access request as soon as possible to ensure it is approved by May 11. Please e-mail [bquinn@fnal.gov](mailto:bquinn@fnal.gov) if you intend to participate so we have rough estimate and can plan transportation accordingly.

### **II. PRESENTATION SLIDES AND ATTENDANCE LIST FROM PRE-PROPOSAL MEETING HELD 5/4/2023.**

Please see attachments 1 and 2 to this addendum.

**ALL OTHER TERMS AND CONDITIONS AS REFERENCED UNDER THE SUBJECT RFP REMAIN UNCHANGED.**
