Terrorism is defined as:

The calculated use of unlawful violence or threat of unlawful violence to inculcate fear; intended to coerce or to intimidate governments or societies in the pursuit of goals that are generally political, religious, or ideological. See also antiterrorism; combating terrorism; counterterrorism; force protection condition; terrorist; terrorist groups.

Antiterrorism:

As a prelude and during performance of any contract, it is critical that the contractor be supportive of all Department of Defense (DoD) requirements to protect personnel and their families, installations, facilities, information, and other resources from terrorist acts.

All contractors and subcontractors are responsible for providing their personnel information on Joint Base McGuire-Dix-Lakehurst (JB MDL) Antiterrorism (AT) Program. During performance of work, personnel security and protection of resources is critical for the installation to maintain a safe work and secure environment.

Contractors must ensure that contracted personnel and vehicles are strictly controlled during performance of duty. For instance, contractors shall use reasonable efforts to prevent any personnel or equipment from being placed in harm's way or in a position that could aid or abet terrorists (unattended running vehicle).

It is strongly recommended that all contracted personnel take the computer-based training (CBT) for the DoD-approved Antiterrorism Level I Training at <https://jkodirect.jten.mil> contractors are encouraged to contact the JB MDL Antiterrorism Office at 609-562-5362 for information regarding the installation Antiterrorism Program.
