SECTION C – STATEMENT OF WORK

A. OBJECTIVE:

The Contractor shall provide anatomic pathology and clinical laboratory testing services as required to the following Indian Health Service facilities within the Billings Area: Blackfeet Community Hospital, Browning Montana; Crow/Northern Cheyenne Hospital, Crow Agency Montana; Fort Belknap Hospital, Harlem Montana; Lodge Grass Health Center, Lodge Grass Montana; Pryor Health Center, Pryor, Montana; Fort Washakie Health Center, Fort Washakie Wyoming; Northern Cheyenne Health Center, Lame Deer Montana; Vern E. Gibbs Health Center, Poplar Montana; Chief Redstone Health Center, Wolf Point Montana; and Little Shell Service Unit, Great Falls Montana. Two sites in the area; Heart Butte Health Center, Heart Butte, Montana and Eagle Child Health Clinic, Hays, Montana currently do not utilize reference laboratory testing, but will remain as optional sites if those service will be required in the future.

B. THE CONTRACTOR SHALL BE QUALIFIED AS FOLLOWS:

1. The Contractor's laboratory shall be under the direct supervision of a physician who is board certified in Clinical and Anatomical Pathology by the American Board of Pathology.
2. The Contractor's laboratory shall be licensed as a medical laboratory as specified in the Clinical Laboratory Improvement Amendments of 1988 (CLIA'88). The laboratory must also be accredited by the College of American Pathologists. Each IHS facility Lab Supervisor will receive a copy of the laboratory's accreditation. The Contractor shall provide copies of all updated certificates of accreditation throughout the duration of the contract. Laboratory survey reports by CMS (Centers for Medicare & Medicaid Services)/CMS deemed accreditation agencies will be provided to the Billings Area Office of Contracts & Grants after each accreditation review;
3. The Contractor shall: (1) maintain a quality assurance plan with documentation of quality assurance activities for the previous two years; (2) maintain a stringent internal quality control program for all procedures performed in-house; and (3) participate in an external proficiency testing program(s) approved by the Centers for Medicare & Medicaid Services (CMS)(formerly, Health Care Finance Administration (HCFA)). The Contractor shall provide proof of current enrollment in a Proficiency Testing Program approved under CLIA-88;

Solicitation No. 75H709-BAIHS23Q-007	Project Title Reference Laboratory Services	Page 6 of 31
--	---	---------------------

4. The Contractor's facility shall be staffed by testing clinical laboratory personnel that meet or exceed the requirements established under CLIA-88 and CAP. Copies of curriculum vitae on all key staff (Pathologists, Department Supervisors, Section Leaders, etc.) shall accompany the technical information. Updates will be provided within one week of any change of key personnel;
5. For all referral or sub-contracted testing, the Contractor shall refer a specimen for testing only to a CLIA-certified laboratory or a laboratory meeting equivalent requirements as determined by CMS.
6. The contractor shall possess a functioning Bi-Directional Reference Lab mechanism. The laboratory result data format must be compatible with current and future versions of the IHS Lab Package.

C. SCOPE:

1. The Contractor shall provide a Medical Laboratory Director for any high or moderately complexity laboratory as needed, as well as a Technical Supervisor of Immunohematology as needed for any of the Billings Area IHS facilities. The Medical Laboratory Director and Technical Supervisor of Immunohematology will be compliant with all credentialing and personnel requirements. The Medical Laboratory Director and the Technical Supervisor of Immunohematology may be the same person if qualified.

The contractor shall provide a list of the Pathologist qualified to serve as laboratory directors and their CV's, a list of the proposed consulting technologists and their CV's, details and timeframes for transition of laboratory director turnovers and how long proposed laboratory directors will be onsite for required paperwork to be filled out such as CLIA certificate, procedure manual signatures, and etc. Provide a report format for the laboratory director's report and also the consulting technologist's report. Provide a list of QAPI monitors and examples of the report that would be sent to the laboratory manager. Provide an example of the antibiogram report that shall be sent quarterly to each facility. Provide how regulatory/accreditation issues will be identified, recommended fixes communicated and tracked for completion.

The contractor will provide on a quarterly basis, a clinical laboratory technical consultant, to provide a technologist report for the 3 hospitals in the area. The technical consultant provides consultative services to the Supervisory Clinical Laboratory Scientist and Laboratory Medical Director on issues pertaining to quality management in the clinical laboratory setting such as proficiency testing tracking/reports and inter-laboratory quality assurance programs. The technical consultant participates in audits of laboratory operations by reviewing a sampling of testing, quality control, and other testing reports for accuracy, completeness and compliance to ensure that quality assurance standards and regulatory requirements are met and documents audit findings and reports to the Supervisory Clinical Laboratory Scientist and Laboratory Medical Director. The technical consultant will immediately communicate concerns identified in the testing process to the Supervisory Clinical Laboratory Scientist and Laboratory Medical Director.

In accordance with Indian Health Service credentialing policy, the Contractor shall complete a primary source verification for each pathologist performing services under the contract. Upon the assignment of a Laboratory Director to a Billings Area service unit, the Laboratory Director shall complete a credentials packet and be credentialed by the service unit Governing Body. Contractor pathologists shall be board certified by the American Board of Pathology.

The Medical Laboratory Director and/or the Technical Supervisor of Immunohematology will make a minimum monthly (12) on-site visits per year (with PACE approved continuing education being provided at the time of the on-site visit) for each facility he/she is responsible. The Medical Laboratory Director

Solicitation No. 75H709-BAIHS23Q-007	Project Title Reference Laboratory Services	Page 7 of 31
--	---	---------------------

and/or the Technical supervisor of site with no Immunohematology must make a minimum of 4 site visits (quarterly) and the Medical Director and/or the Technical Supervisor of non-Immunohematology sites must have monthly contact with the laboratory supervisor, via telephone, mail or e-mail. The Laboratory Director of Immunohematology must provide 24-hour availability of a qualified physician to address blood banking issues such as transfusion reactions and the work-up of transfusion reactions. The Laboratory Director must also attend (virtually or by phone if necessary) blood utilization committee meetings.

The Medical Laboratory Director and/or Technical Supervisor must provide a detailed written consultation report upon completion of the on-site visit. The report shall be based on assuring the facility passes their laboratory accrediting body survey. It shall include, but not be limited to, services performed, contacts made, problems and deficiencies identified, recommendations made, any follow-up needed and corrective action plans for addressing identified deficiencies and problems which may cause the facility to fail an accreditation survey. The reports shall be submitted to the Chief Executive Officer, Clinical Director and/or the Chief Medical Officer, Laboratory Supervisor and Contract Officer Representative of each facility.

The contractor shall have a board certified Pathologist on staff and accessible to Billings Area Clinical Directors, Laboratory Directors and Laboratory Supervisors at all times. The contractor's Pathologist shall be available for telephone support to the Billings Area medical staff during facilities regular working hours. This support shall include but not be limited to technical and medical problems, test selection, interpretations and overall support to the laboratory.

Any facility performing therapeutic phlebotomy will be subject to approval by the Technical Immunohematology Supervisor.

2. The Contractor shall provide pick-up and delivery service 6 days a week at the three Indian Health Service Hospitals (Blackfeet Community Hospital, Crow/Northern Cheyenne Hospital, and Fort Belknap Hospital) and Monday-Friday pick-up and delivery services (with the exception of federal holidays) at the seven Health Centers (Lodge Grass Health Center, Pryor Health Center, Fort Washakie Health Center, Northern Cheyenne Health Center, Vern E. Gibbs Health Center, Chief Redstone Health Center, Little Shell Service Unit) covered under the contract, unless otherwise specified by a courtesy call by the facility supervisor..

Pick-up and Delivery Requirements:

- Specimen pickup times shall be mutually agreed upon between the Contractor and the Laboratory Supervisor at each facility.
- Specimens shall not be in transit more than 12 hours from the time of pickup at each facility to the time of arrival at the Contractor's facility.
- The Contractor shall guarantee that the specimen is kept at optimum conditions of evaluation during the entire transit time.
- The contractor shall provide a process to document receipt of each patient specimen and tracking of each individual specimen until testing is completed.

Solicitation No. 75H709-BAIHS23Q-007	Project Title Reference Laboratory Services	Page 8 of 31
--	---	---------------------

3. The Contractor shall perform non-emergency laboratory testing procedures including surgical pathology listed on the attached schedule, and any other laboratory testing as required when ordered by Billings Area Laboratories. The Contractor shall provide reports by electronic printer, to the requesting Indian Health Service facility within 24 hours from the time the specimen is received in the contract laboratory unless methodology requires a longer time. The Contractor will have in place a method for notification of critical values to the appropriate Billings Area Laboratory within one hour of the result being available. The Contractor shall notify the requesting Billings Area Laboratory, by telephone, email or fax, immediately, when an unacceptable (i.e. mislabeled, incomplete requisition, missing specimen, etc.) or Quantity Not Sufficient (QNS) specimen is received. No specimen is to be discarded until communication with the sending Laboratory has been established and the sending Laboratory approves of the disposal. A complete report of the incident will be sent to the effected Billings Area facility within one week of the incident;

Local laboratories can be utilized for tests/procedures requiring more immediate results and where specimen integrity may be jeopardized during transit at the discretion of staff at each Indian Health Service site without affecting this contract.

4. The Contractor is responsible for providing electronic transmittal of laboratory results from the Contractors laboratory to the Indian Health Service facilities. The data needs to adhere to the HL7 format that is required by the IHS Lab Package that resides in the Resource Patient Management System (RPMS). The laboratory result data format must be compatible with current and future versions of the IHS Lab Package.

This interface shall require tech review of orders and results before release. This interface shall include all blood and body fluid reports, cytology reports, tissue reports, and microbiology reports. This interface needs to be compatible with data innovations. The contractor shall provide a means of electronic back-up and retransmission readily available and easily accessible for retransmission of results. All equipment, software, and/or hardware required to implement/maintain the bi-directional interface shall be provided by the contractor at no charge to the government. In addition, any upgrades or replacements to software or hardware, and necessary computer supplies (printers, paper, toner, labels, drums) shall be provided by the contractor at no charge to the government. Computer tech support shall be available during business hours including phone numbers and contacts. UI test code must be provided for all tests.

For Billings Area laboratories that are using or planning to use the IHS Bi-directional or Uni-directional Interface, the Contractor shall assign a project manager/specialist and dedicate system resources to the set-up, testing, and maintenance of the Contractor laboratory interface at each facility

5. The Contractor shall provide to each Indian Health Service facility, the Contractor's test requisition form that will include pre-printed name, address and identification number for the facility from which the specimens are sent. These forms shall be designed with check-off system containing the commonly ordered tests on one page. The form must accommodate the following patient demographic information. Patient Last and First Name, medical record number, date of birth, name of Physician, and IHS accession number.
6. The Contractor shall provide the Area Contracting Officer and each Indian Health Service facility laboratory a catalog of all tests available with instructions for specimen handling and requirements, to include methods and normal or interpretive values, and test fees that reflect the contract price. Test procedures not performed by the Contractor's laboratory shall not include a handling fee.

--	---	---------------------

7. The Contractor shall provide training and certification to all IHS laboratory staff in the shipping of biohazards and infectious materials on an annual basis.
8. The Contractor shall furnish all the necessary supplies and equipment for the collection, transport and reporting of specimens at no additional cost to the Indian Health Service facility. The shipping containers must meet IATA requirements.
9. The Contractor shall provide, at a minimum, quarterly site visits to all facilities by a representative of the Contractor. These quarterly visits will include a report of activities performed during that visit to include any maintenance of equipment in place that is the Contractors, any training done, and any other items of discussion that result in a change in business model. This report shall be submitted to the Contracting Officer Representative (COR). The contractor will have available continuing education topics that are PACE approved, available through videos, CD-ROM or telemedicine. The Contractor must provide "Client Services" via telephone at no additional charge to Indian Health Service. Client services would include responding to inquiries of patient test results, responding to specimen collection requirements of tests not listed in manuals, requests for additional supplies, responding to inquiries with regards to availability of testing services. Client services should be available 24 hours per day.
10. The Contractor shall provide repeat testing when clinicians feel results do not correlate with the clinical status of the patient.
11. The Contractor shall submit the following monthly reports that will not be charged as a separate cost and are due no later than the 15th day of the following month:
 - A. The facility specific invoice shall be mailed and/or emailed to the identified IHS Lab Supervisor directly. The invoice will include the following patient health record number, the name of the test performed, the CPT code of the test, fee for the test, date of completion, name of requesting provider, and the facility account number.
 - B. An itemized *electronic* "transaction report" shall be exported to the IHS facility lab supervisor. Data should be exported in an "EXCEL™ compatible format. The monthly report must include the name of test performed, cost per test; the number of tests performed during the month; a cumulative ("year-to-date") number of tests performed and a cumulative ("year-to-date") cost of tests.
 - C. A report which will include account number and/or account name, test number, test name, cost of test, quantity of each test ordered, amount spent on each test for the month, a year to date quantity ordered for each test and year to date amount spent for each test. Data should be exported in an "EXCEL™," compatible format.
 - D. A report of tests not performed for the month.
 - E. All report data exported and submitted to the facility shall be HIPAA compliant.
12. The Contractor shall provide on a quarterly basis an anti-biogram report for each organism isolated for each facility laboratory. This report shall be sent to the Billings Area Chief Medical Officer, Contracting Officer Representative and the Laboratory Supervisor at each facility. The report should contain specimen description, number of specimens collected, culture identification, date of specimen collection and antimicrobial sensitivity.

--	---	----------------------

13. The Contractor shall provide surgical pathology for facilities requiring this service. The electronic and paper pathology reports are to include a gross and microscopic description of each specimen and a diagnosis. In the case of a diagnosis of a malignant tumor, the stage of the disease must be included whenever possible. Contractor will provide reports and/or slides upon request, for all patients being treated for malignant disease with in the Indian Health Service or by non-IHS health providers. Reports of surgical specimens are to be returned to the appropriate facility within seven (7) working days except for diagnosed malignant specimens which require the contractor to immediately telephone the requesting physician with the written report provided within five (5) days. A monthly report including the list of patients who have had surgical pathology services performed, with the date of specimen and a summary of results by the provider will be provided to the appropriate service unit laboratory manager. This report shall be individualized for each hospital and clinic.
14. The Contractor shall provide cervical/vaginal cytology services for the screening and detection of malignant cells and abnormal conditions consistent with current recommendations of the American Society for Colposcopy & Cervical Pathology.

All cytology collection supplies, requisitions and reporting forms shall be provided at no additional cost to the IHS facility. Cervical/vaginal screening methods should include Thin Prep PAP as well as traditional slide PAP smear.

Reflex testing of ASC-US results to high risk HPV-DNA testing shall be an option for each of the referring facilities.

Results of cytology studies shall be returned to the appropriate IHS facility within ten (10) working days from date of shipment from the IHS facility.

A monthly report including the list of patients who have had cytology services performed, with the date of specimen and by degree of dysplasia by the provider will be provided to the appropriate service unit laboratory supervisor. This report shall be individualized for each hospital and clinic.

The “Bethesda System 2014” (or current terminology as accepted by accrediting bodies) terminology shall be used for reporting cervical/vaginal cytological diagnoses. The quality of the cytology service shall be assured through direct supervision by a Pathologist certified in Anatomical Pathology. Each cytotechnologist shall meet the requirements as specified in the Clinical Laboratory Improvement Amendments of 1988.

Results of cytology studies shall be returned to the appropriate IHS facility within four (4) business days from the date of receipt at the Contractors laboratory.

The Contractor shall provide, upon written or verbal request, a copy of the original report(s) and the original slide(s) to the party designated by the attending physician.

The Contractor shall maintain a permanent cytology register, which will include patient name, IHS patient identification number and date of birth, facility location and results. A data retrieval system must be available. Thus allowing the cytology report for a specific patient seen at a given IHS facility on a specified date is available within one (1) day using the five (5) identification criteria listed above. The Contractor shall provide a monthly cytology report to the facilities Chief Medical Officer, Lab Supervisor and any other facility designated personnel.

The Contractor shall provide by the 10th of each month to each facility’s designated individual, a list of all patients who have had cytology services performed the previous month, with date of specimen, and results. This list will be grouped into diagnostic categories that are consistent with the Bethesda System 2001 terminology.

--	---	----------------------

15. The Contracting laboratory is subject to on-site inspections by authorized representatives of the U.S. Government prior to contract award and during the contract period to review the Contractor's facility and services, to examine records for quality assurance practices, current licenses and accreditation and make any other analysis required to determine the adequacy of personnel, instrumentation, and the quality and accuracy of services provided to meet the terms of this contract.
16. The Billings Area Laboratories listed above will have the option to send communicable type disease testing to their respective State Labs. Communicable type disease tests that will continue to go to the State labs include but not limited to: GC/Chlamydia, Influenza, tick-borne diseases, TB, RSV, Pertussis, O&P, Herpes, PKU's, West Nile virus, Hanta virus, Stool cultures. In the event that a communicable disease specimen is sent to the Contractor Lab, the Contractor Lab will notify the State Surveillance Officers and the facilities laboratory personnel of all reportable diseases. The Contractor shall make arrangements for reporting formats with personnel at the state telephone numbers listed below. The Contractor will be responsible for obtaining the reportable disease conditions required for reporting by the states of Montana and Wyoming.

Payment shall be made by the Billings Area Financial Management Branch, P.O. Box 36600, Billings, Montana 59107. Payments are made in arrears.

2. PERSONAL CONTACTS:

Personal contacts include patients, patient’s families, IHS employees, and representatives of other federal organizations and non-federal organizations, and tribal representatives.

3. CONTRACTING OFFICER AUTHORITY:

Authority to negotiate changes in the terms, conditions or amounts cited in this contract is reserved for the Contracting Officer.

4. SUPERVISION & QUALITY CONTROL:

The primary agent/official responsible for monitoring this procurement in a project officer capacity and who will be verifying that all supplies and/or services have been received and delivered will be Dr. Ernest Gray, Physician, Blackfeet Service Unit.

Contractor time and attendance logs shall be utilized, kept on file, and verified by the COR. The Contracting Officer, or his/her designated representative is authorized to review by onsite survey, through review of records, or through any other reasonable manner the quality of care rendered under this contract. Adequate records shall be maintained to reflect the accuracy with respect to claims submission as well as for quality of care. The IHS Chart Review Tool shall be used in evaluation of records. The Contractor shall comply with and assist in all Quality Assurance activities necessary for the Government to maintain accreditation.

5. SPECIAL CONTRACTOR REQUIREMENTS:

Contractors cannot serve as expert witnesses in any suit against the Federal Government. Many of the IHS patients receiving services may only speak a native language and/or reside on a Native American Reservation, therefore, the Contractor must demonstrate sensitivity to cross-cultural and language differences.

The Privacy Act of 1974 mandates that the Contractor maintain complete confidentiality of all administrative, medical and personnel records, and all other pertinent information that comes to his/her attention or knowledge. The Privacy Act carries both civil and criminal penalties for unlawful disclosure of records. Violation of such confidentiality shall be cause for adverse action. The Contractor shall comply with IHS facility infection control and safety procedures, practices, and standards.

6. NON-PERSONAL HEALTHCARE SERVICE CONTRACT

This procurement is a non-personal Healthcare service contract, as defined in FAR 37.101, under which the Contractor is an independent contractor. The Government may evaluate the quality of professional and administrative services provided, but retains no control over the medical and professional aspects of services rendered (e.g., professional judgments, diagnosis for specific medical treatment). The Contractor shall indemnify the Government for any liability producing acts or omissions by the Contractor, its employees and agents occurring during contract performance. The Contractor shall maintain medical liability insurance, which is not less than the amount normally prevailing within the local community for the medical specialty concerned. The Contractor is required to ensure that its subcontracts for provisions of Healthcare services contain the requirements of the clause at 52.237-7, Indemnification and Medical Liability Insurance (Jan 1997).

52.216-19 ORDER LIMITATIONS (OCT 1995):

(a) Minimum order. When the Government requires supplies or services covered by this contract in an amount of less than the minimum quantities for each CLIN, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) Maximum order. The Contractor is not obligated to honor -

(1) Any order for a single item in excess of the total estimated value of the contract;

(2) Any order for a combination of items in excess of the total estimated value of the contract; or

(3) A series of orders from the same ordering office within the contract period of performance that together call for quantities exceeding the limitation in paragraph (b) (1) or (2) of this section.

(c) If this is a requirements contract (i.e., includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.

(d) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within seven (7) days after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

--	---	----------------------

52.216-22 INDEFINITE QUANTITY (OCT 1995):

(a) This is an indefinite-quantity contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies and services specified in the Schedule are estimates only and are not purchased by this contract.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. The Contractor shall furnish to the Government, when and if ordered, the supplies or services specified in the Schedule up to and including the quantity designated in the Schedule as the "maximum". The Government shall order at least the quantity of supplies or services designated in the Schedule as the "minimum".

(c) Except for any limitations on quantities in the Order Limitations clause or in the Schedule, there is no limit on the number of orders that may be issued. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(d) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after eighteen (18) months beyond expiration of the ordering/effective period.

(End of clause)

52.217-8 OPTION TO EXTEND SERVICES (NOV 1999)

The Government may require continued performance of any services within the limits and at the rates specified in the contract. These rates may be adjusted only as a result of revisions to prevailing labor rates provided by the Secretary of Labor. The option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed 6 months. The Contracting Officer may exercise the option by written notice to the Contractor within 1 day of contract expiring.

(End of Clause)

52.217-9 OPTION TO EXTEND THE TERM OF THE CONTRACT (MAR 2000):

(a) The Government may extend the term of this contract by written notice to the Contractor within 30 days; provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least 60 days before the contract expires. The preliminary notice does not commit the Government to an extension.

(b) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed a five (5) years, but the final ordering period will be in effect through the end date of the last exercised period.

SECTION M – EVALUATION FACTORS FOR AWARD

52.212-2 -- Evaluation -- Commercial Items (Oct 2014)

The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The offers must contain a technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. The following factors shall be used to evaluate offers:

(i). **TECHNICAL: Sub-Factors:**

Management. The offeror will be evaluated based upon their overall understanding of the complexities and logistical requirements as they relate to this requirement and upon their understanding of this project.

Key Personnel: The offeror will be evaluated based upon Resume, License, and Certifications (unexpired) of personnel directly involved in providing services under the contract. Personnel must show the ability to perform duties with the requirements of the SOW. The personnel must possess the necessary organization, experience, education, and technical skills to perform the work. IHS experience is favorable. Key Personnel must be available at the time of award.

(ii). **PAST PERFORMANCE – Sub-Factors:**

Relevance/Quality: The offeror will be evaluated based upon the relevance and quality of past contracts/jobs performed. NOTE: The Government reserves the right to contact any reference provided by the offeror in evaluating the offeror's past performance. Furthermore, the Government reserves the right to use any information that comes to the attention of the Government in evaluating the offeror.

Performance Confidence: The Government's assessment of the offeror's probability of meeting the requirements of the project based on the offeror's experience level to projects similar in size and scope to this requirement.

(iii). **PRICE:**

Price will be evaluated to determine whether it is reasonable and if the quotation reflects an understanding of the requirement. This factor will be evaluated as identified in FAR Part 15.305(a)(1). Analysis will include review of price reasonableness and balanced pricing. Offerors are cautioned that "materially unbalanced" prices and/or unreasonably high or low prices may cause your quotation to be deemed unacceptable and rejected.

Solicitation No. 75H709-BAIHS23Q-007	Project Title Reference Laboratory Services	Page 31 of 31
--	---	----------------------

All evaluation factors other than cost or price, when combined, are approximately equal to cost or price.

Best Value -Tradeoffs: The Government will use the Tradeoff source selection process to obtain the best value. This process permits tradeoffs among cost or price and non-cost factors and allows the Government to accept other than the lowest price proposal. The perceived benefits of higher priced proposals shall merit the additional cost, and rationale for tradeoffs will be documented. As non-price factors are evaluated closer to one another between quotes, price will become more significant. Furthermore, the Government reserves the right to award no order at all, depending on the quality of the quotes, the availability of funding and the continued existence of the requirement.
(End of Provision)
