SUMMARY OF CHANGES

Block 14 (Description of Amendment/Modification): The purpose of this amendment is to revise questions attached to FA8125-23-Q-0008 Amendment 1.

REVISED INDUSTRY QUESTIONS:

Question 1: In the item description number 1 " All components shall be configured for indoor and outdoor use." Is that weather resistant or water resistant? and is there an IP rating?

-Yes, this would be weather/water resistant. There is not an IP rating requirement, however there is a NEMA requirement

Question 2: Regarding items 3 and 4, what is the IP rating for the connectors? Can you please clarify?

-We are requiring the NEMA rating listed. NEMA ratings consider the things an IP rating does as well as other specifics.

Question 3: Regarding item 6, We want to know if 10AWG wire is acceptable?

-If the wire meets the requirements and is rated for NEMA L21-30 3phase 208V/30amp style male receptacle.

Question 4: Regarding item 7, what is the IP rating on these connectors

-We are requiring the NEMA rating listed. NEMA ratings consider the things an IP rating does as well as other specifics.

Question 5: Regarding item 2, does there need to be any mounting hardware or feet?

-The wheels shall be attached to the cart and shall be lockable.

Question 6: Our current off the shelf solution is built "on legs" which will hold the box 6 inches off the ground to protect from water/etc. Also, all our outputs are on GFCI modules which provide additional outdoor protection. Neither of these are specified in your document that was attached to the solicitation, which do you prefer us to quote? I can quote this box as off the shelf or I can design to your specification list.

-All requirements of the item description shall be met.

AFFARS MP5332.7 - CONTRACT FUNDING:
