Describe in detail why only this source can furnish the requirements to the exclusion of other sources. (what specific characteristics of the supplies or services limit the availability to a sole source (e.g., unique features, function of the item, etc.)?)

Recently, [REDACTED] took on the company [REDACTED] the previous single source company who had an agreement with VDOT E-Z Pass. With the acquiring of the government contracts of [REDACTED] has taken on the agreement for operations support between VDOT. [REDACTED] was initially awarded the VDOT contract to execute these operations because of their ability to meet day-to-day functions in connection to E-Z Pass operations. The service for E-Z Pass transponders is needed to complete daily operations for OCHR Norfolk Operations Center. Due to the agreement for operations support between [REDACTED] and VDOT, the Navy is required to also contract with [REDACTED] for E-Z Pass account requirements. Therefore, [REDACTED] is the only source capable of fulfilling this requirement.

☒ *The supplies or services must be compatible in all aspects (form, fit and function) with existing systems presently installed/performing. Describe the equipment/function you have now and how the new item/service must coordinate, connect, or interface with the existing system.*

[REDACTED] as the service provider contracted with VDOT for E-Z Pass operations is the only company able to provide the account support required to fulfill this requirement.

☐ *A patent, copyright or proprietary data limits competition.*

☐ *These are "direct replacement" parts/components for existing equipment.*
