MISSION SUPPORT

Waterway Security

U.S. AIR FORCE

Mission Owner: 11th Security Forces Squadron

Stakeholders: Joint Base Anacostia-Bolling

SCOPE: JBAB is seeking out industry's assistance with developing recommended enhanced Force Protection security for coverage along the base western perimeter of the Potomac River (Naval Research Lab to the Frederick Douglas Bridge). Coverage may include above or submerged sensor systems to tie in with the installation's Command and Control system/camera system, fencing, and/or any other recommended hardened/soft barriers.

NAICS/PSC: 561621/7382

Approximate Year: 2024

The waterway security system supports the mission with alarm annunciations and visual identification of potential penetration/breach attempts of the waterfront/installation perimeter.

Unclassified

MISSION SUPPORT Explosive Detection

U.S. AIR FORCE

Mission Owner: 11th Security Forces Squadron

Stakeholders: Joint Base Anacostia-Bolling

SCOPE: JBAB is seeking out industry's assistance in increasing security measures with more effective explosive detection equipment at the installation access control points. The equipment is to detect not only visible and easily detectable explosives, but also non-visible and indiscernible advanced explosives such as Improvised Explosive Devices, which consist of chemicals in either solid, liquid, or gaseous form.

NAICS/PSC: 334511/2892

Approximate Year: 2024

Explosive detection equipment would aid in the safeguarding of 70+ mission partners and the 17K personnel who live and/or work on the installation. The equipment would lessen the potential for attacks by increasing detection with rapid processing time in the absence of explosive detection military working dogs. An explosive detection equipment is advantageous for both installation security as well as counter-terrorism applications.

MISSION SUPPORT

Electric Vehicle (EV) Charging Stations

Mission Owner: 11th Civil Engineer Squadron (11 CES)

Stakeholders: 11th Wing

SCOPE: Joint Base Anacostia-Bolling (JBAB), as well as the National Capital region, has seen a rise in electric vehicles (EV) on the roadways. In anticipation of this increase, as well as foreseen DoD energy mandates, JBAB will require the install of numerous EV charging stations throughout the base. 11 CES seeks local companies that have experience with electric vehicle infrastructure construction and implementation who can teach about existing technologies and infrastructure support. Specifically, 11 CES seeks information pertaining to electrical infrastructure requirements, communications requirements, and how the base can charge personnel for personal use of EV charging stations.

NAICS/PSC: 335999/6210

Approximate Year: 2024

Joint Base Anacostia Bolling (JBAB) is in southwest Washington D.C and there are 14k vehicles that commute to base daily. Not only does this mean that the base requires well maintained roadways and parking lots to accommodate personnel, but it also needs to begin planning for personal electric vehicles and the construction of charging stations. According to an article written in October 2022, *DOD Prototyping EV Charger for Fleet, Personal Vehicles*, the DOD is piloting the installation of modern EV charging stations in anticipation for EV increase. JBAB would like to be ahead of the curve and begin researching the requirement now.

MISSION SUPPORT

Honor Guard Life Size Sculptures

Mission Owner: Air Force Honor Guard

Stakeholders: 11th Wing

SCOPE: Joint Base Anacostia-Bolling (JBAB)'s Air Force Honor Guard seeks the procurement of five life size sculpted statutes casted in bronze. Statutes are to range between approximately 74" – 112" tall. Each statute will represent Airmen positioned in ceremonial positions which include an Airman holding a saber, Airman with colors, airman holding an M-14, Airman raising a folded flag, and an Airman with a M-1).

NAICS/PSC: 327110/9620

Approximate Year: 2023

The United States Air Force Honor Guard's mission is to represent Airmen to the American public and the world. The vision of the USAF Honor Guard is to ensure a legacy of Airmen who: promote the mission; protect the standards; perfect the image; and preserve the heritage. The men and women of the AF honor guard trains Airman on the AF Honor Guard campus grounds which is located at Joint Base Anacostia-Bolling, Washington DC. These sculptures will be installed on campus grounds.

MISSION SUPPORT Audio/Visual System – JBAB Chapel

Mission Owner: 11th Wing Chapel

Stakeholders: *All JBAB Chapel attendees*

SCOPE: The Joint Base Anacostia-Bolling base chapel is seeking services to completely rewire the four-year-old sound system in the chapel sanctuary. Currently, all audio is run through single cables and to the same terminals in a single sound board. Additionally, the requirement includes a technical expert to analyze the chapel's musicians. As a result of findings, the technical expert is required to set up the soundboard and reset each service. In addition, training to the chapel staff on sound operations is included.

NAICS/PSC: 334310/5999

Approximate Year: 2023

The JBAC Base chapel has numerous services throughout the week. Its mission is degraded as a result of constant issues with sound and audio for multiple reasons. This not only affects service to JBAB population but also during high visible events held at the base chapel as it also serves as an event location.
