Building 822 Freezer Replacement

Outdoor Freezer replacement for B822. The outdoor freezer unit maintains perishable items that is stored and delivered as per mission requirements to Ascension Island. The current freezer unit has reached its end of use life.

SALIENT CHARACTERISTIC

- Product Type: Air-Cooled Condensing Units
- Product Category: Condensing Units and Packaged Systems
- Product Style: 12 - 50 HP Vertical Air Discharge
- Application: Outdoor Vertical
- Operating Range: Low Temperature
- Voltage: 208-230/3/60
- Performance Rating Point: 95°F Ambient - 20°F SST
- Ambient Temperature F 95°F
- Suction Temperature F -20°F
- Capacity: BTUH 109,210
- Refrigerant: R404A
