Part I – The Schedule

SECTION A – SOLICITATION / CONTRACT FORM

QUESTIONS REGARDING THIS SOLICITATION MUST BE SUBMITTED IN WRITING VIA EMAIL TO DLAENERGY.ETEAM@DLA.MIL AND JACOB.SIGLER@DLA.MIL NO LATER THAN FEBRUARY 20, 2023.

Continuation of SF 1449, Block 8 Offer Due Date

This date refers to only to the non-price proposal requirements of this Request for Proposal (RFP). Offerors shall submit all Non-Price Proposal elements and all other required documents pursuant to Section L of this RFP. Offerors are encouraged to submit their proposals early as pricing is not required prior to the date/time defined in SF 1449, Block 8.

Prices shall be submitted via a reverse auction on a date and time to be determined. The reverse auction shall be conducted in accordance with DLAD Note L09 REVERSE AUCTION (OCT 2016).

Note: Prospective offeror's are encouraged to review Federal Acquisition Regulation 15.208 regarding timely submission of offers. Specifically, please be aware that it is the offeror's responsibility to ensure that their offer is actually received at the designated Government office prior to the solicitation closing. Submission of offers by electronic commerce (e.g. e-mail or fax) is governed by FAR 15.208(b)(1)(i). If an offeror electronically submits its offer on the day the solicitation closes, then timeliness will be determined based on whether or not the offer was actually received prior to closing. In that situation, the offeror will bear the risk of any delay in the transmission of their offer (e.g. offeror clicked "send" prior to the closing of the solicitation, but the e-mail did not arrive until after the time for closing), and offers not actually received prior to closing will be late. However, pursuant to FAR 15.208(b)(1)(i), if an offeror utilizes a means of electronic commerce to send their offer and transmits it not later than 5:00 p.m. *ONE DAY PRIOR* to the time for closing (and can prove that they have done so), then the offeror will be protected from such unexpected transmission delays and its offer will be considered timely.

Note 2: E-mails being sent to DLA Energy by non-DoD entities during the weekdays from 0800 to 1700 may be delayed up to several hours. To minimize potential issues as a result of any e-mail delays, DLA Energy requests that any correspondence from Non-DoD Entities allow at least 24 hours to be received.

Note 3: A date for the submission of prices will be established via an amendment to be issued after the Offer Due Date.

Note 4: The Government reserves the right not to consider any exceptions to the stated solicitation requirements received after the due date for technical offers.

(g) The Government is soliciting unit prices consistent with and reflecting the structure established in the applicable tariffs. The following symbols have been established for the applicable line items: **Not applicable.**

NOTE 1: CLIN 0001 USACE has a new temporary structure that has not yet been designated a building number. Account 2467170076 is simply distinguished as the “robotics tent.” Although this is a temporary structure, there is no definite time that the structure will be decommissioned. This will likely be used for years to come, as the research project requires.

NOTE 2: CLIN 0002 SAFB began a \$140M renovation project, affecting Account 22493377933. Personnel relocated into existing onsite facilities and/or temporary onsite facilities until renovation completion, which is projected as December 2025. The Government does not anticipate personnel reallocation to affect other SAFB accounts on this solicitation. During the time of the renovation project, account 22493377933 will not be closed and there will be no temporary construction meters. Account 22493377933 will be used to power the renovation project. The anticipated usage impact is a potential reduction of up to 4%. SAFB is also exploring the possibility of participating in Energy Savings Performance Contracts (ESPC), but a decision has not yet been made. Information will be provided as needed

NOTE 3: Executive Order (EO) 14057, Catalyzing Clean Energy Industries and Jobs Through Federal Sustainability, was issued on December 8, 2021. The EO requires the Government transition to 100% Carbon Pollution-Free Electricity (CFE) by 2030. During the term of the contract, if the CFE market develops to a point that it is viable for the contractor to deliver CFE; contractor must be willing to discuss and, if commercially possible for a reasonable price, deliver an agreed amount of CFE to the Government.

SECTION C – STATEMENT OF WORK/SPECIFICATIONS

C800 STATEMENT OF WORK/SPECIFICATIONS (ELECTRICITY) (DLA ENERGY JAN 2012)

(a) **STATEMENT OF WORK.** The Contractor shall supply electricity, and any ancillary services required to deliver electricity to the point of delivery and for the scheduling and coordination of the delivery of electricity to the service point for each account under the contract. All quantities ordered by the Government shall be considered firm and guaranteed for delivery by the Contractor to the delivery point, and for scheduling and coordinating, for ultimate delivery to the service point for each account. Charges incurred as a result of the Contractor's failure to abide by the terms of the applicable Retail Access rules and/or the UDC Service Agreement shall be the responsibility of the Contractor. With the exception of any and all transmission and distribution related charges payable by the Government to the UDC under the applicable tariff for each account (unless said charges are the result of the Contractor's failure to perform in accordance with the contract), the Contractor is responsible for all costs associated with deliveries to the delivery point and the scheduling and coordination for delivery of electricity to the service point for each account under the contract. The Contractor shall be liable for any and all penalties and/or additional costs assessed to the Government for the nondelivery of the firm requirements in accordance with paragraphs (f) and (m) of the CONTRACT TERMS AND CONDITIONS – COMMERCIAL ITEMS clause.

(b) **INVOICE AND PAYMENT.** FAR 52.212-4 (g) is incorporated by reference as it is a mandatory commercial clause. However, although the purchase of electricity is entirely commercial, the billing of electricity does not squarely fall into the reasonable requirements the Government mandates for other commercial products to be invoiced. Under the authority of FAR 52.215-8 Order of Precedence, the Government's explicit invoice and payment instructions in C800 supersedes FAR 52.212-4(g).

The Government will utilize/allow **Supplier Consolidated Billing for CLIN 0001.** The contractor must submit all invoice information to the appropriate UDC under the terms of the applicable

Retail Access Rule, in accordance with terms of its UDC Service Agreement. All invoicing shall be based on metered quantities at the service point for each account. The contractor may only invoice for charges allowed under the terms and conditions of the contract. Any costs associated with Consolidated UDC Billing shall be the responsibility of the Contractor and shall be included as part of the offered price.

The Government will utilize/allow **Dual Billing for CLINs 0002, 0003, and 0004**. All invoicing shall be based on meter quantities at the service point for each account. The Contractor may only invoice for charges allowed under the terms and conditions of the contract. Any costs associated with billing shall be the responsibility of the Contractor and shall be included as part of the offered price. Each invoice shall be prepared in a manner consistent with and shall conform to the applicable PUC requirements for Dual Billing. In addition to the requirements set forth in FAR 52.212-4 CONTRACT TERMS AND CONDITIONS – COMMERCIAL ITEMS Paragraph (g), each contractor invoice shall include the following information for Dual Billed accounts, if available from the UDC:

- (1) Installation name, Line Item, and individual account information (Account Number, Meter Number, and Service Address).
- (2) Supplier's information such as logo, address, point of contact (name and phone number), and wiring information.
- (3) Billing period for each account.
- (4) Total consumption for each account (broken down by Peak, Off-Peak, Semi-Peak, if available).
- (5) Total Energy Charge (broken down by energy charges and demand charges, if available).
- (6) Demand information for each account (broken down by Peak, Off-Peak, Semi-Peak, if available).
- (7) Charges for services broken out in detail for each account in a manner consistent with the terms and conditions of the contract and the applicable PUC requirements.
- (8) All information required by the applicable PUC to be included on customer invoice.
- (9) If customer questions information on an invoice, supporting documentation is required before payment will be made.

Supplier coordination with the local utility will be necessary to ensure that these customers receive identical billing data from both the supplier and the local utility (i.e. commodity and wire charges must be based on the utility's billing cycle).

If a Contractor is unable to issue a bill based on actual meter reading due to the failure of the UDC to obtain or transmit a meter reading to the Contractor, the Contractor may issue a bill based on an estimated reading fifteen (15) calendar days following the meter read date for the affected account. The Contractor must inform the customer of the reason for the issuance of the estimated bill, and the Government reserves the right to obtain documentation relating to the efforts taken by the Contractor to obtain the meter read data. For estimated billing purposes, the estimate of usage provided by the UDC shall be used first. If no such UDC estimate is available, the Contractor shall use the relevant monthly consumption data (as the estimate) included in the applicable Installation Data Sheet, adjusted for the number of days. All estimated bills shall be trued up on the next billing cycle.

NOTE: The paying offices for each installation will be provided to awardee(s) in the resultant contract.

(c) **METERING AND METER READING SERVICES.** Will be provided by the incumbent UDC for each account.

(d) **SCHEDULING AND SUPPLY MANAGEMENT.** It shall be the Contractor's responsibility to schedule deliveries for all accounts awarded for the time period specified herein. The Contractor shall be responsible for supply management and overall coordination of production, transmission, and distribution of electrical power to the service point of each account identified in the contract. As such, the Contractor shall be knowledgeable of and responsible for imbalance policies, transmission grid losses, transmission congestion charges and UDC line losses for the delivery of

electricity to the service point of each account under the contract. The Contractor must meet all applicable State and Federal requirements necessary to successfully complete any contract. The Government will not pay any costs associated with the Contractor's failure to deliver electrical power at the delivery point sufficient to meet the demand at the service point of each account under the contract or to schedule and coordinate for the delivery of electricity to each service point.

(e) **RECORD KEEPING.** The Contractor shall keep records of data required to bill in accordance with the utility tariff of each account (demand and consumption data) in an electronic database format compatible with Microsoft Access or a spreadsheet format compatible with Microsoft Excel. These records shall be made available to DLA Energy or to any party designated by DLA Energy as authorized to request this data. In the event that the Contractor maintains records on demand and consumption data in addition to that required to bill in accordance with the utility tariff, said data shall also be made available to DLA Energy or to any party designated by DLA Energy as authorized to request this data. The Contractor shall provide (or make available) to DLA Energy or to any party designated by DLA Energy, interval data (for those accounts with an interval meter) in Microsoft Excel format, on a monthly basis throughout the entire delivery term of any resultant contract.

(f) **ORDERING.** Orders shall be made in accordance with the ELECTRICITY ORDERING PROCEDURES contract text.

(g) **POINT OF DELIVERY.** For this solicitation and any resulting contract, the delivery point for each account is defined as an interconnect with the UDC owned or controlled transmission or distribution system and where applicable, Contractor will schedule to the Residual Aggregate point of delivery.

(h) **SERVICE POINT.** For this solicitation and any resulting contract, the service point is defined as the meter(s) indicated for each account awarded as described in Attachment I.

(i) **SPECIFICATIONS.** The electricity provided under this contract shall conform to the tariff of the transmitting and/or distributing utility at the delivery point(s) specified in the Schedule.

Part II – Contract Clauses

SECTION I – CONTRACT CLAUSES

FAR 52.212-4 CONTRACT TERMS AND CONDITIONS – COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (NOV 2021) (TAILORED)

NOTE: INSTRUCTIONS HAVE BEEN TAILORED TO BE MORE CONSISTENT WITH COMMERCIAL PRACTICE UNDER FAR PART 52.212-4. ALL OTHER INSTRUCTIONS INCLUDED IN FAR 52.212-4 ARE HEREBY INCORPORATED BY REFERENCE (SEE BLOCK 27A OF STANDARD FORM 1449).

(f) **EXCUSABLE DELAYS (Tailored).** The Contractor shall be liable for default unless nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence, such as acts of God or the public enemy, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, civil disturbance, hostile forces, terrorist acts or transmission failure. An excusable delay or similar event suffered by an independent service operator (ISO) (or an equivalent of an ISO) or a utility distribution company (or electric distribution company or transmission distribution services provider) shall constitute an excusable delay hereunder. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after the commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch, and shall promptly provide notice to the Contracting Officer of the cessation of such occurrence. Upon delivery of notice of the occurrence of an excusable delay, the obligations of the Contractor shall be suspended to the extent affected by such excusable delay.

(k) TAXES (Tailored).

(1) The contract price includes all applicable Federal, State, and local taxes and duties in effect at contract signing.

(2) After-imposed Federal, State, or local tax, as used in this DLA Energy FAR Tailored clause, means any new or increased Federal, State, or local excise tax or duty, or tax that was exempted or excluded on the contract award date but whose exemption was later revoked or reduced, or whose computation was later changed during the contract period, on the transactions or property covered by this contract that the Contractor is required to pay or bear as the result of legislative, judicial, or administrative action taking effect after the contract date. It does not include social security tax, income tax, or other employment taxes. The contract price shall be increased by the amount of any after-imposed Federal, State or local tax, provided the Contractor warrants, in writing, that no amount for such newly imposed Federal, State, or local excise tax or duty or rate increase was included in the contract price, as a contingency reserve or otherwise.

(3) After-relieved Federal, State, or local tax, as used in this DLA Energy FAR Tailored clause, means any amount of Federal, State, or local excise tax or duty that would otherwise have been payable on the transactions or property covered by this contract, but which the Contractor is not required to pay or bear, or for which the Contractor obtains a refund or drawback, as the result of legislative, judicial, or administrative action taking effect after the contract date. It does not include social security tax, income tax, or other employment taxes. The contract price shall be decreased by the amount of any after-relieved Federal, State, or local tax.

(l) TERMINATION FOR THE GOVERNMENT'S CONVENIENCE (Tailored).

(1) In accordance with all applicable state and local distribution company regulations, the Government reserves the right to terminate this contract with respect to any or all contract quantities, for its sole convenience. In the event of such termination, the Contractor shall cease deliveries hereunder with respect to such terminated contract quantities on the first allowable date subsequent to such termination according to the applicable tariff sheets of the local distribution company. The Contractor shall cause any and all of its suppliers and subcontractors to cease work related to this contract prior to the date and time specified by the Government for the termination. Subject to the terms and conditions of this contract, the Contractor shall be paid for electricity delivered under the contract prior to the date and time specified by the Government for the termination of any or all contract quantities plus any additional energy the Contractor is required to deliver for the Government's account under applicable location distribution company tariff sheets.

(2) In the event of a termination for convenience, the Government shall pay the Contractor the termination value, if positive, calculated by the following formula:

(i) Firm Fixed Price:

$$A = \Sigma (B - C) * D$$

Where--

A = Termination value.

B = Award price for each usage period for each season.

C = Forward market bid price, defined herein.

D = Contract quantity for each usage period for each season (based on data listed in the Installation Data Sheet).

(A) If the termination value on the date of termination is negative, the Contractor shall not be entitled to any payment.

(B) The forward market bid price shall be defined as sum of (i) the average of on and off-peak prices at the Ameren Illinois Hub through which the account is served; and (ii) a reasonable estimate of market charges forming the basis between the Hub and applicable Load Zone; for a term equal to the remaining term of the contract. The forward market price will be determined by the Contractor in a commercially reasonable manner, which may include polling energy brokers on the date of termination. The Government shall have the right to reasonably audit forward market price data obtained by the Contractor.

(C) In the event that the Government elects to terminate on a date other than the end of a month or at the end of the summer/non-summer season, as defined by applicable local distribution company and tariff, the estimated remaining contract quantity will be calculated by prorating the partial month or partial season of service.

(D) In the event of a termination for convenience, the Government's liability shall be limited to the termination value calculated in accordance with the provisions of this tailored clause.

(m) TERMINATION FOR CAUSE (Tailored). The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government, upon request, with adequate assurances of future performance. In the event of termination for cause, the Government shall

not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

(n) **TITLE (Tailored).** Title to the electricity supplied by the Contractor under this contract shall pass to the Government upon delivery at the delivery point specified in the Schedule. The Contractor warrants that the electricity delivered to the Government under this contract will be free and clear of any liens, claims and encumbrances arising prior to delivery at the delivery point specified in the Schedule.

(o) **WARRANTY (Tailored).** The Contractor warrants and implies that the electricity delivered hereunder conforms to the tariff of the transmitting and/or distributing utility at the delivery point specified in the Schedule.

(p) **LIMITATION OF LIABILITY (Tailored).** Except as otherwise provided by an express warranty, the Contractor will not be liable to the Government for any consequential, special, incidental, punitive, exemplary, or indirect damages or other business interruption damages except to the extent caused by a Contractor's or its agent's gross negligence or willful misconduct.

FAR 52.209-5 CERTIFICATION REGARDING RESPONSIBILITY MATTERS (AUG 2020)

(a)

(1) The Offeror certifies, to the best of its knowledge and belief, that—

(i) The Offeror and/or any of its Principals—

(A) Are ☐ are not ☐ presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(B) Have ☐ have not ☐, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property (if offeror checks "have", the offeror shall also see 52.209-7, if included in this solicitation);

(C) Are ☐ are not ☐ presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in paragraph (a)(1)(i)(B) of this provision;

(D) Have ☐, have not ☐, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied.

(1) Federal taxes are considered delinquent if both of the following criteria apply:

(i) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(ii) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(2) *Examples.*

(i) The taxpayer has received a statutory notice of deficiency, under I.R.C. § 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(ii) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. § 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. § 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(iv) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(ii) The Offeror has ☐ has not ☐, within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(2) "Principal," for the purposes of this certification, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

This Certification Concerns a Matter Within the Jurisdiction of an Agency of the United States and the Making of a False, Fictitious, or Fraudulent Certification May Render the Maker Subject to Prosecution Under Section 1001, Title 18, United States Code.

(b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.

(d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

(h) Certification Regarding Responsibility Matters (Executive Order 12689). (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals—

(1) ☐ Are, ☐ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) ☐ Have, ☐ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) ☐ Are, ☐ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) ☐ Have, ☐ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples. (A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126). (a) The following are responsibility criteria which must be satisfied to be eligible for award:

(1) The offeror must possess, at a minimum, 12 months of experience providing supply and transportation (firm and/or interruptible) of electricity to wholesale or retail customers. These 12 months of experience must have been obtained no more than two years before the date of Technical Proposal submission.

In accordance with FAR 19.705-2(c) Subcontracting Plans will not be required if no subcontracting possibilities exist. A statement as to why no subcontracting possibilities exist should be submitted with the proposal to allow the Contracting Officer to make a determination.

(b) The responsibility criteria listed in this provision are in addition to the general responsibility criteria set forth in FAR 9.104.

(c) The offeror shall submit sufficient evidence to demonstrate that all responsibility criteria from both this provision and FAR 9.104 have been satisfied. Failure to provide such documentation shall render the offeror non-responsible and ineligible for award.

L2.11-4 E-MAIL PROPOSALS (DLA ENERGY OCT 2010)

(a) Offerors may submit proposals via e-mail. E-mail proposals are subject to the same rules as paper proposals.

(b) E-mail receiving data and compatibility characteristics are as follows:

(1) E-mail address: dlaenergy.eteam@dla.mil

(2) The DLA Energy accepts attachments in—

(i) Adobe Acrobat;

(ii) Microsoft Excel;

(iii) Microsoft Word; and

(c) Initial proposals, modifications and proposal revisions submitted via e-mail must contain offeror's signature included in the attachment to the e-mail communication.

(d) Attachments that are not in .pdf file format must be sent password protected for "read only" to ensure the integrity of the data submitted.

(e) Proposals submitted electronically through a single e-mail must be no more than 10 MB. DLA Energy's mail server will reject messages larger than 10 MB.

(f) The DLA Energy e-mail filter will scan the incoming e-mail and attachments for viruses and key words. Abbreviations for terms such as "Analysts" or using "3Xs" as placeholders in a document are found in the filter's adult content library and may result in the e-mail delivery being delayed. Offerors are encouraged to verify receipt of e-mail offers by contacting the Contracting Officer prior to the solicitation closing time.

(g) If any portion of an e-mail proposal received by the Contracting Officer is unreadable, the Contracting Officer will immediately notify the offeror and permit the offeror to resubmit the proposal. The method and time for resubmission shall be prescribed by the Contracting Officer after consultation with the offeror and the resubmission shall be considered as if it were received at the date and time of the original unreadable submission for the purpose of determining timeliness, provided the offeror complied with the e-mail submissions instructions provided in this paragraph and with the time and format requirements for resubmission prescribed by the Contracting Officer.

(h) The Government reserves the right to make award solely on the e-mail proposal. However, if requested to do so by the Contracting Officer, the apparently successful offeror promptly shall submit the complete signed original proposal.

L800 INSTRUCTIONS TO OFFERORS (ELECTRICITY) (DLA ENERGY JUL 2014)

Note: An offeror must propose to supply the total line item quantity for the line items identified in the Schedule. Failure to offer the total line item quantity will preclude Government evaluation and award to the offeror for the line items. If an offeror chooses to submit more than one offer, it may do so by submitting a separate price submittal for each. Offers based on other pricing mechanisms or alternate methods of supplying electricity may be considered.

(a) **SUBMISSION OF DOCUMENTS.** The offeror shall submit all documents required by the terms and conditions of the Request for Proposal (RFP). An offeror's proposal must be complete with regard to this provision as well as all other requirements of the solicitation. Offerors are advised to submit proposals that are fully and clearly acceptable without additional information or explanation. Failure to provide a complete proposal submission may make an offer unacceptable and ineligible for award.

(b) **OFFEROR'S PROPOSAL.** In addition to the requirements set forth in FAR 52.212-1, the following documentation shall be submitted:

(1) **PAST PERFORMANCE - Attachment II.** Information collected in the Experience with End Users form (Attachment II) will be used to contact offeror's customers and inquire about the offeror's past performance. By submitting this form, the offeror agrees to permit the Government's representatives to contact the customers listed and inquire about the past performance of the offeror. Offerors are advised that the Government may use information gained from any source to evaluate past performance. However, the Government reserves the right to only consider the Contractor's performance under Federal Government or DLA Energy contracts.

(2) COMBINED TECHNICAL CAPABILITY/RISK

(i) Management Capability

Submit a **4-page (maximum)** narrative describing the company's management capabilities. The narrative shall include, but is not limited to, a description of the following:

- Personnel assigned to work this solicitation/contract, to include contact information, description of customer service efforts in resolving issues, such as billing and enrolling accounts, etc.;

- Contingency plan in the absence of personnel assigned to the solicitation/contract; and
- Any internal account-management capabilities, resources, or procedures relevant to successfully performing the requirements of the contract/solicitation.

(3) SMALL BUSINESS PARTICIPATION.

Note: This requirement shall be separate from the subcontracting plan submitted pursuant to the clause at FAR 52.219-9 and must be provided by all offerors regardless of business size.

The offeror shall identify its commitment to small business (i.e. small businesses to include service-disabled veteran-owned small business concerns, HUBZone small business concerns, small disadvantaged concerns, and women-owned small business) concerns in the performance of the contract, whether as a joint venture, teaming arrangement, or subcontractor.

(i) Provide a description of the efforts your company will make to assure that the small businesses identified above will have equal opportunity to compete for subcontracts under the resultant contract.

(ii) To the extent known, identify the small businesses that will have a subcontract under the resulting contract and describe the work that will be performed.

(iii) Identify the proportion of your proposal, as a percentage of dollars, that will be subcontracted to small businesses.

SECTION M – EVALUATION FACTORS FOR AWARD

FAR 52.212-2 EVALUATION – COMMERCIAL ITEMS (ELECTRICITY) (TAILORED) (DLA ENERGY) (OCT 2014)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

(i) **PAST PERFORMANCE.** Offerors must submit three past performance references which the Government will evaluate for recency and relevancy in order to determine the Government's level of confidence in each offeror's ability to meet solicitation requirements. This evaluation will include any aspect of past performance that is relevant to the work to be performed under this contract. **Recency** is defined as performance on Government or commercial contracts where there has been at least 12 continuous months of performance within the last three years as of the closing date of the solicitation. Each offeror will be assessed on recent efforts accomplished by the offeror, focusing on performance that is relevant to the contract requirements. **Relevancy** is defined as a present/past performance effort involved similar scope and magnitude of effort and complexities this solicitation requires.

The Government will utilize the submissions provided by the Offeror on **Attachment II**. If an offeror submits past performance that is found to be Not Recent or Not Relevant, or if references do not answer or participate, additional references will be requested to reach the three references required under this solicitation. If there are past performance documents on file that have been determined to be Recent and Relevant, the Government reserves the right to include these documents as part of the past performance evaluation process. In addition, the Government may use any data the Contracting Officer determines recent and relevant. This includes, but is not limited to:

1. Contract Performance Assessment Reporting System (CPARS) Reports
2. Past Performance Questionnaires
3. Customer Feedback
4. Offeror's past performance on DLA Energy Contracts

5. Federal Awardee Performance and Integrity Information System (FAPIS)
6. Electronic Subcontract Reporting System (eSRS)
7. Contracting Officer
8. General Services Administration

This past performance information will be reviewed to determine the quality of the offeror's performance, general trends, and usefulness of the information. The Government's level of confidence in each offeror's ability to meet solicitation requirements will be based on the offeror's overall record of recency, relevancy, and quality of performance.

Offerors are advised that the Government may use information gained from any source to evaluate past performance and reserves the right to only consider the Contractor's performance under Federal Government or DLA Energy contracts. In the case of an offeror for whom information regarding the quality of past performance is not available, the offeror will not be evaluated favorably or unfavorably on past performance pursuant to FAR 15.305(a)(2)(iv).

(ii) **COMBINED TECHNICAL CAPABILITY / RISK.** The Government will use a combined technical capability/risk rating to assess the offeror's proposed approach to satisfying the Government's requirements. The offeror shall be evaluated on whether their Technical Capability/Risk Proposal (as defined in L800(b)(2)) clearly and precisely describes its approach and demonstrates an understanding of the requirement and its ability to successfully perform the requirements of provisions B1.08 Supplies to be Furnished and C800 Statement of Work. The Government's evaluation will focus on any weaknesses and/or deficiencies associated with an offeror's proposed approach and include an assessment of the potential for disruption of schedule, increased cost or degradation of performance, the need for increased Government oversight, and the likelihood of unsuccessful contract performance.

(iii) **SMALL BUSINESS PARTICIPATION.** The Small Business Participation factor will be evaluated based on the information submitted by offerors regarding whether their proposals demonstrate a commitment to small businesses. Offerors will also be evaluated on their history in complying with requirements of the clauses at FAR 52.219-8, Utilization of Small Business Concerns, and 52.219-9, Small Business Subcontracting Plan approved by DLA Energy.

(iv) **PRICE.** Price evaluations will be conducted by comparing each proposed price received in response to the solicitation. Each offeror's price, in conjunction with the non-price related factors (Past Performance, Combined Technical Capability/Risk, and Small Business Participation), will be the basis for the Government's overall best value award decision. Each offered price will be evaluated to determine if it is fair and reasonable in accordance with Far Part 15, to include evaluating price reasonableness and price realism.

Past Performance is the most important non-price evaluation factor and Small Business Participation is the least important non-price evaluation factor. Combined Technical Capability/Risk is not as important as Past Performance but is significantly more important than Small Business Participation. When combined, all three non-price evaluation factors are weighted approximately equal to Price. If two offers are equal in merit, lowest price will be the determining factor.

(b) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
