

## **SECTION B – SCHEDULE OF ITEMS AND VEHICLE REQUIREMENTS**

### **B.5 STATUTORY PRICE LIMITATION**

This acquisition is subject to statutory price limitations pursuant to 31 U.S.C. 1343. The current statutory price limitations were established in the Consolidated Appropriations Act, 2023, Public Law 117-73, Division D, Title VII, Section 702 (December 29, 2022).

This Law fixes the maximum amount allowable for the purchase of any passenger motor vehicle (exclusive of buses, ambulances, law enforcement, and undercover surveillance vehicles). Currently the statutory limitation is:

- \$26,733.00 for sedans
- \$27,873.00 for station wagons

These limits may be exceeded by not-to-exceed \$7,775.00 (\$34,508.00) for police-type vehicles. Provided further, that the limits set forth in this section may not be exceeded by more than 5 percent for electric or hybrid vehicles purchased for demonstration under the provisions of the Electric and Hybrid Vehicle Research, Development, and Demonstration Act of 1976. Provided further, that the limits set forth in this section may be exceeded by the incremental cost of clean alternative fuels vehicles acquired pursuant to Public Law 101-549 over the cost of comparable conventionally fueled vehicles. Provided further, that the limits set forth in this section must not apply to any vehicle that is a commercial item and which operates on alternative fuel, including but not limited to electric, plug-in hybrid electric, and hydrogen fuel cell vehicles.

Offerors are instructed to separately identify the destination charge and Additional Systems and Equipment (AS&E) in accordance with 31 U.S.C. 1343, in the appropriate fields in AutoBid (see Section F.1). Failure to state both the destination charge and AS&E may render its submission unacceptable.

Offerors are further cautioned that submissions whose defective price structure constitutes a circumvention of the statutory limitation for the basic vehicle(s) shall be rejected. For purposes of this contract, a submission with a defective price structure is one which is based on prices for the AS&E or destination charges significantly in excess of the prices available in the commercial marketplace.

A full list of items subject to statutory price limitations is set forth in Attachments E1-E3 - GSA Purchase Descriptions. The Offeror must provide the additional systems & equipment (AS&E) pricing in AutoBid for items subject to the statutory price limitations.
