SWRMC critical ta on training and considered a re installed on-board all LSD and LPD class ships; therefore training is essential to provide SVRMC's personnel the ability to provide service maintenance, and troubleshoot the governors.

The requested training requires authorized Technical Service Providers (TSP) to provide in-house instruction that will expand beyond the two specific governors and technology currently on the class LSD and LPD class ships. This training is proprietary to Woodward machines and may only be executed by the OEM or one of their authorized partners. As such, the Contract Specialist obtained Woodward's authorized distribution list off their website; which, revealed Woodward, Inc. has five (5) authorized distributors for the state of California.

Although, Woodward, Inc. listing identifies five (5) authorized distributors for the state of California; 2 of the 5 are no longer distributors, and only one of the three remaining authorized distributors is registered in SAM and is the only distributor in California.

This training is mission essential and distinctively directed for the [REDACTED] Governor is designed and manufactured by Woodward, INC. As such, Drake Controls- West, LLC can provide training to Woodward governors and components. To reduce delays in support of the LPD and LSD class ships.

Currently, these specific Governors are installed on board all the LPD and LSD Class ships, and the government cannot afford 2 to 4 week delays to the ship's schedules. Therefore, for the reasons stated above, the training is considered mission essential and in the best interest to the Government.

Furthermore, this training would provide the necessary training to SWRMC Code 931 employees, and sailors would have the capability to service, maintain and troubleshoot these governors with greater accuracy and shorter service times.

Lastly, this training would result in significant savings to the Government, as they would have employees with the capability to repair these governors, reduce costs, as the governors would not have to be removed and shipped for repair.

☒ A patent, copyright or proprietary data limits competition:

Drake Controls- West, LLC is an authorized company to provide training on Woodward governors from the Woodward (OEM)

☒ The items are "direct replacement" parts/components for existing equipment. Provide the information about the Next Higher Assembly (NHA)/equipment which the replacement parts are going into (e.g. description, model, part number, Original Equipment Manufacturer (OEM), etc.).

N/A

☒ Other information to support sole source/brand name sole source procurement. The rationale must then justify "either" substantial duplication of cost to the Government that is not recovered through competition or unacceptable delays in fulfilling the mission of the agency.

Recommend procuring training course as sole source, other than open competition, for the reasons stated above. Drake Controls- West, LLC is authorized to provide this training. Based on the market research and supporting information herein, recommend procuring the Woodward governor training course directly from Drake Controls- West, LLC .

If the Government were to receive training from any source besides the OEM or Authorized companies. Improper training could result and affect the governor functionality if personnel perform negligent repairs and maintenance. Such actions could compromise the engine component as a whole, resulting in further requirements to purchase repair parts and/or an entire governor. Furthermore, ship schedules could see unacceptable delays, due to the possibility of repairs and replacement of failed components to the engine resulting from negligent repairs.

Lastly, in accordance with FAR 13.106-1(b)(1)(i), soliciting from a single source, Contracting officer may solicit from one source if the contracting officer determines that the circumstances of the contract action deem only one source reasonably available to provide the required repair parts.
