The Contractor agrees to submit **FFP** proposal and certified cost or pricing data supporting its proposal.

(b) The schedule for definitizing this contract is as follows (insert target date for definitization of the contract action and dates for submission of proposal, beginning of negotiations, and, if appropriate, submission of the make-or-buy and subcontracting plans and certified cost or pricing data).

The schedule for definitizing this contract is See Section B of the Solicitation.

(c) If agreement on a definitive contract action to supersede this undefinitized contract action is not reached by the target date in paragraph (b) of this clause, or within any extension of it granted by the Contracting Officer, the Contracting Officer may, with the approval of the head of the contracting activity, determine a reasonable price or fee in accordance with subpart 15.4 and part 31 of the FAR, subject to Contractor appeal as provided in the Disputes clause. (a) Contract line item(s) **To Be Determined at the Task Order Level** is/are incrementally funded. For this/these item(s), the sum of \$ **To Be Determined at the Task Order Level** of the total price is presently available for payment and allotted to this contract. An allotment schedule is set forth in paragraph (j) of this clause.

(b) For items(s) identified in paragraph (a) of this clause, the Contractor agrees to perform up to the point at which the total amount payable by the Government, including reimbursement in the event of termination of those item(s) for the Government's convenience, approximates the total amount currently allotted to the contract. The Contractor is not authorized to continue work on those item(s) beyond that point. The Government will not be obligated in any event to reimburse the Contractor in excess of the amount allotted to the contract for those item(s) regardless of anything to the contrary in the clause entitled "TERMINATION FOR THE CONVENIENCE OF THE GOVERNMENT." As used in this clause, the total amount payable by the Government in the event of termination of applicable contract line item(s) for convenience includes costs, profit and estimated termination settlement costs for those item(s).

(c) Notwithstanding the dates specified in the allotment schedule in paragraph (j) of this clause, the Contractor will notify the Contracting Officer in writing at least ninety days prior to the date when, in the Contractor's best judgment, the work will reach the point at which the total amount payable by the Government, including any cost for termination for convenience, will approximate 85 percent of the total amount then allotted to the contract for performance of the applicable item(s). The notification will state (1) the estimated date when that point will be reached and (2) an estimate of additional funding, if any, needed to continue performance of applicable line items up to the next scheduled date for allotment of funds identified in paragraph (j) of this clause, or to a mutually agreed upon substitute date. The notification will also advise the Contracting Officer of the estimated amount of additional funds that will be required for the timely performance of the item(s) funded pursuant to this clause, for subsequent period as may be specified in the allotment schedule in paragraph (j) of this clause, or otherwise agreed to by the parties. If after such notification additional funds are not allotted by the date identified in the Contractor's notification, or by an agreed substitute date, the Contracting Officer will terminate any item(s) for which additional funds have not been allotted, pursuant to the clause of this contract entitled "TERMINATION FOR THE CONVENIENCE OF THE GOVERNMENT".

(d) When additional funds are allotted for continued performance of the contract line item(s) identified in paragraph (a) of this clause, the parties will agree as to the period of contract performance which will be covered by the funds. The provisions of paragraph (b) through (d) of this clause will apply in like manner to the additional allotted funds and agreed substitute date, and the contract will be modified accordingly.

(e) If, solely by reason of failure of the Government to allot additional funds, by the dates indicated below, in amounts sufficient for timely performance of the contract line item(s) identified in paragraph (a) of this clause, the Contractor incurs additional costs or is delayed in the performance of the work under this contract and if additional funds are allotted, an equitable adjustment will be made in the price or prices (including appropriate target, billing, and ceiling prices where applicable) of the item(s), or in the time of delivery, or both. Failure to agree to any such equitable adjustment hereunder will be a dispute concerning a question of fact within the meaning of the clause entitled "disputes."

(f) The Government may at any time prior to termination allot additional funds for the performance of the contract line item(s) identified in paragraph (a) of this clause.

(g) The termination provisions of this clause do not limit the rights of the Government under the clause entitled "DEFAULT." The provisions of this clause are limited to work and allotment of funds for the contract line item(s) set forth in paragraph (a) of this clause. This clause no longer applies once the contract is fully funded except with regard to the rights or obligations of the parties concerning equitable adjustments negotiated under paragraphs (d) or (e) of this clause.

(h) Nothing in this clause affects the right of the Government to this contract pursuant to the clause of this contract entitled "TERMINATION FOR CONVENIENCE OF THE GOVERNMENT."

(i) Nothing in this clause shall be construed as authorization of voluntary services whose acceptance is otherwise prohibited under 31 U.S.C. 1342.

(j) The parties contemplate that the Government will allot funds to this contract in accordance with the following schedule:

52.209-5 CERTIFICATION REGARDING RESPONSIBILITY MATTERS (AUG 2020)

(a)(1) The Offeror certifies, to the best of its knowledge and belief, that-

(i) The Offeror and/or any of its Principals-

(A) Are () are not () presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(B) Have () have not (), within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property (if offeror checks "have", the offeror shall also see 52.209-7, if included in this solicitation); and

(C) Are () are not () presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in paragraph (a)(1)(i)(B) of this provision; and

(D) Have , have not , within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied.

(1) Federal taxes are considered delinquent if both of the following criteria apply:

(i) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(ii) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(2) Examples. (i) The taxpayer has received a statutory notice of deficiency, under I.R.C. Sec. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(ii) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. Sec. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. Sec. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(iv) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(ii) The Offeror has () has not (), within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(2) Principal, for the purposes of this certification, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

(b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.

(d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. (h) Certification Regarding Responsibility Matters (Executive Order 12689). (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals--

(1) [☐] Are, [☐] are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) [☐] Have, [☐] have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) [☐] Are, [☐] are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) [☐] Have, [☐] have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126). [The Contracting Officer must list in paragraph (i)(1) any end products being acquired under this solicitation that are included in the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor, unless excluded at [22.1503\(b\)](#).]

[☐] (ii) The offeror may supply an end product listed in paragraph (i)(1) of this provision that was mined, produced, or manufactured in the corresponding country as listed for that product. (2) (☐) Outside the United States.

(k) Certificates regarding exemptions from the application of the Service Contract Labor Standards. (Certification by the offeror as to its compliance with respect to the contract also constitutes its certification as to compliance by its subcontractor if it subcontracts out the exempt services.)

[The contracting officer is to check a box to indicate if paragraph (k)(1) or (k)(2) applies.]

[☐] (1) Maintenance, calibration, or repair of certain equipment as described in FAR [22.1003-4\(c\)\(1\)](#). The offeror (☐) does (☐) does not certify that—

Section M - Evaluation Factors for Award

EVALUATION FACTORS

Section M – Evaluation Factors for Award

A. BASIS FOR AWARD

1. The Government reserves the right to eliminate from consideration for award any or all offers at any time prior to award of the contract; to negotiate with Offerors in the competitive range; and to award the contract to the Offeror submitting the lowest priced, technically acceptable offer.
2. As stated in the solicitation, the Government intends to evaluate proposals and award a contract without discussions with Offerors (except clarifications as described in FAR 15.306(a)). The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. In addition, if the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals.
3. The LPTA process is selected as appropriate for this acquisition because the best value is expected to result from selection of the technically acceptable proposal with the lowest evaluated price.
4. An overall non-price factors rating must be at least “ACCEPTABLE” in order to be eligible for award. An “UNACCEPTABLE” rating in any factor results in the overall non-price factors proposal being rated “UNACCEPTABLE” unless corrected through discussions. An overall non-price factors rating of “UNACCEPTABLE” makes a proposal ineligible for award.
5. Any proposal found to have a deficiency in meeting the stated solicitation requirements or performance objectives will be considered ineligible for award, unless the deficiency is corrected through discussions. Proposals may be found to have either a significant weakness or multiple weaknesses that impact either the individual factor rating or the overall rating for the proposal. The evaluation report must document the evaluation board’s assessment of the identified weakness(s) and the associated risk to successful contract performance resulting from the weakness(s). This assessment must provide the rationale for proceeding to award without discussions. OFFERORS ARE ADVISED THAT AN AWARD MAY BE MADE WITHOUT DISCUSSIONS. Therefore, proposals should be submitted initially on the most favorable terms. Offerors should not assume that they will be contacted or afforded an opportunity to qualify, discuss or revise their proposals prior to award.

B. ADJECTIVAL RATINGS/DESCRIPTIONS

Each Offeror’s technical factors and past performance will be evaluated separately. Upon the conclusion of the evaluation of the technical factors, and past performance, an overall non-price factors rating of Acceptable (A) or Unacceptable (U) will be assigned to each Offeror’s non-price factors proposal.

1. The following adjectival ratings and rating descriptions will be used to assign a rating to each technical factor. Use upper case letter ratings for major technical factor ratings. The addition of plus (+) or minus (-) to an adjective rating is not allowed.

Table A-1. Technical Acceptable/Unacceptable Rating Method	
Adjectival Rating	Description
Acceptable (A)	Proposal meets the minimum requirements of the solicitation.

Unacceptable (U)	Proposal does not meet the minimum requirements of the solicitation.
------------------	--

The weaknesses and/or deficiencies (as defined below) of each proposal for each non-price evaluation factor which influenced the assigned adjectival rating shall be identified.

Definitions	
Weakness	A flaw in the proposal that increases the risk of unsuccessful contract performance.
Significant Weakness	A flaw that appreciably increases the risk of unsuccessful contract performance.
Deficiency	A material failure of a proposal to meet a Government requirement or a combination of significant weaknesses in a proposal that increases the risk of unsuccessful contract performance to an unacceptable level.

C. SAFETY EVALUATION

1. Per NPGI 15.304(c)(1)(ii)(3), solicitations utilizing source selection procedures for procurements within the 50 United States, the District of Columbia, and outlying areas shall contain a standard "Safety" technical evaluation factor. This factor shall be included as a standalone evaluation factor and not as a sub-factor or an element of the Past Performance evaluation factor. This action will result in the selection of contractors that have consistently demonstrated a commitment to safety and the ability to properly manage and implement safety procedures for themselves and all tiers of subcontractors under their purview.
2. The safety evaluation has three elements: Experience Modification Rate (EMR); Occupational Safety and Health Association (OSHA) Days Away from Work, Job Restriction, or Transfer (DART) and Total Recordable Case (TRC) Rates; and Technical Approach to Safety.
3. The safety elements should be collectively considered and then assigned an overall adjectival rating for the safety factor. The board will need to make a qualitative determination of the rating for safety taking into account the risk ratings for EMR, DART, and TRC and the subjective evaluation of the narrative.
4. The board will not average the rating from the three previous complete calendar years for the EMR, DART and TRC and should consider trends..
5. The following should be utilized by evaluators as a general guideline to evaluate the EMR, DART and TRC rates:

Risk

Very Low Risk
Low Risk
Moderate Risk
High Risk
Extremely High Risk

EMR

Less than 0.6
From 0.6 to less than 0.8
From 0.8 to 1.0
Greater than 1.0 to 1.1
Greater than 1.1

Risk

Very Low Risk
Low Risk
Moderate Risk

DART Rate

Less Than 1.0
From 1.0 to 1.99
From 2.0 to 2.99

High Risk	From 3.0 to 4.0
Extremely High Risk	Greater than 4.0

<u>Risk</u>	<u>TRC Rate</u>
Very Low Risk	Less Than 2.49
Low Risk	From 2.5 to 3.49
Moderate Risk	From 3.5 to 4.49
High Risk	From 4.5 to 5.99
Extremely High Risk	Greater than 6.0

Note: When the requirement is for goods or services in an industry with a much higher than average incident rate, the Source Selection Authority may authorize a proportional increase in acceptance rates to ensure fairness. The only ratings for evaluation of the safety factor are “acceptable” or “unacceptable.” A rating of “High Risk” or better is acceptable for three consecutive years. When EMR, DART or TRC fall into the “Extremely High Risk” category, for any one year, evaluators must determine whether the other elements of the safety factor evaluation provide sufficient basis to elevate the overall rating to the “acceptable” level.

6. The evaluation will collectively consider the following:
 - ... OSHA Days Away from Work, Restricted Duty and Job Transfer (DART)
 - ... Total Recordable Case (TCR) Rates
 - ... Offeror Technical Approach to Safety
 - ... Other sources of information available to the Government
7. The evaluators should collectively consider all elements of safety when assigning an overall adjectival rating for this factor. Safety will be evaluated utilizing the ratings outlined in Table A.

Table A. Safety Factors (Combined Technical/Risk Rating Method)	
Rating	Definitions
Acceptable (A)	Proposal meets requirements and indicates an adequate approach and understanding of the requirements, and risk of unsuccessful performance is no worse than moderate.
Unacceptable (U)	Proposal does not meet requirements of the solicitation, and thus, contains one or more deficiencies, and/or risk of unsuccessful performance is unacceptable. Proposal is un-awardable.

2. PAST PERFORMANCE EVALUATION

Past Performance shall be evaluated when using the LPTA process, unless waived by the PCO in accordance with FAR 15.101-2(b). Past performance will be rated on an “Acceptable” or “Unacceptable” basis using the ratings in the following table:

Table A-2. Past Performance Evaluation Rating Method	
Adjectival Rating	Description

Acceptable (A)	Based on the Offeror's performance record, the Government has a reasonable expectation that the Offeror will successfully perform the required effort, or the Offeror's performance record is unknown. (See note below.)
Unacceptable (U)	Based on the Offeror's performance record, the Government does not have reasonable expectation that the Offeror will be able to successfully perform the required effort.

Note: In the case of an Offeror without a record of relevant past performance or for whom information on past performance is not available or so sparse that no meaningful past performance rating can be reasonably assigned, the Offeror may not be evaluated favorably or unfavorably on past performance (see FAR 15.305(a)(2)(iv)). Therefore, the Offeror shall be determined to have unknown (or "neutral") past performance. In the context of acceptability/unacceptability a neutral rating shall be considered "Acceptable."

- a) Aspects of Past Performance Evaluation. The past performance evaluation results are an assessment of the Offeror's probability of meeting the minimum past performance solicitation requirements. This assessment is based on the Offeror's record of relevant and recent past performance information that pertain to the products and/or services outlined in the solicitation requirements. There are two aspects of the past performance evaluation.
 - 1) The first is to evaluate whether the offeror's present/past performance is relevant or not relevant to the effort to be acquired. The criteria to establish what is relevant is unique to each LPTA source selection. For this solicitation, Past Performance Criteria to determine Past Performance Relevancy Rating:
 - a) RECENT- only work that has been done within the last five years preceding the release date of the solicitation.
 - b) Similar scope of work.
 - c) Similar Complexity of Services provided at multiple jurisdictions that require base access utilizing the DBIDs requirements.
 - d) Dollar value –Range \$1,000,000 to \$3,600,000.
 - e) Contract type – Firm Fixed Price Indefinite Delivery Indefinite Quantity (IDIQ) contracts term consisting of Base Period with minimum of four (12 month) options.
 - 2) The second aspect of the past performance evaluation is to determine how well the contractor performed on the contracts. The past performance evaluation performed in support of a current source selection does not establish, create, or change the existing record and history of the Offeror's past performance on past contracts; rather, the past performance evaluation process gathers information from customers to highlight how well the Offeror performed those past contracts.
- b) SSEB members will review past performance information to determine the quality and usefulness as it applies to the performance confidence assessment.

D. EVALUATION FACTORS FOR AWARD

1. The solicitation requires the evaluation of the following price and non-price factors:
 - Factor 1 – Technical Approach**
 - Factor 2 – Safety**
 - Factor 3 – Past Performance**
 - Factor 4 - Price**
2. Basis of Evaluation and Submittal Requirements for Each Factor.

VOLUME I – PRICE PROPOSAL

PRICE:

a) Solicitation Submittal Requirements:

- i. Submit one (1) price proposal clearly marked as Volume I - Price Proposal. The evaluated price shall be the sum Non-Recurring Work CLINS for a 12 month Base period and four (4) 12 month Option Periods with a six (6) month option to extend services. Provide the total price for performance of work required by the solicitation for all contract line items, including options as presented in Section B. The Offeror shall also submit pricing information regarding the contract line items, sub-line items, and exhibit line items using the ELIN spreadsheet titled Section J, Attachment J-0200000-06 Exhibit Line Item Numbers. There is no page limitation for the Price Proposal. Below are required items for the Volume I – Price Proposal.

- ... Include a cover page with Solicitation Number, Solicitation Title, Prime Contractor Name, Address, Phone Number, DUNS, Cage Code, Point of Contact, phone number, and email address.
- ... Text pages 8 ½ x 11 format, minimum 10 point font, Times New Roman.
- ... Completed SF 1449 signed with all amendments acknowledged.
- ... Price Schedule (include MS Excel version and PDF)
- ... Copy of Online Representation and Certifications and proof of registration in System for Award Management (SAM)

- b) Basis of Evaluation: The Government will evaluate price based on the total price. Total price consists of the basic requirements and all option items (see Section B of the solicitation). The Government intends to evaluate all options and has included the provision FAR 52.217-5, Evaluation of Options (JUL 1990) in Section M of the solicitation. In accordance with FAR 52.217-5, Evaluation of Options will not obligate the Government to exercise the option(s). Analysis will be performed by one or more of the following techniques to ensure a fair and reasonable price:

- i. Comparison of proposed prices received in response to the RFP.
- ii. Comparison of proposed prices with the IGCE.
- iii. Comparison of proposed prices with available historical information.
- iv. Comparison of market survey results.

VOLUME II – TECHNICAL PROPOSAL

a) Solicitation Submittal Requirements:

Submit one (1) technical proposal clearly marked as the Volume II - Technical Proposal.

Technical proposals shall be submitted in 8-1/2 x 11 page format; size 10 font Times New Roman, limited to 45 pages, inclusive of all charts, licenses/certifications, forms and other documentation responsive to the solicitation requirements. This includes the three (3) Past Performance Questionnaires/CPARs evaluations.

Pages that exceed the maximum 45 page limit for Volume II, Technical Proposals **shall not** be considered during evaluation of the proposal. Further, no pricing shall be included in the technical proposal.

The technical proposal cover page shall be in an 8 ½ x 11 format submitted in size 10 point font and Times New Roman font style. The cover page shall provide:

- Solicitation Number, Solicitation Title, Prime Contractor Name/JV, Address, Phone Number, DUNS, Cage Code, Point of Contact, phone number, and email address ☐ Completed SF 1449 signed with all amendments acknowledged.
- Name, title, email, phone and fax number of authorized representative.

FACTOR 1 – TECHNICAL APPROACH

a) Solicitation Submittal Requirements:

Offer shall submit a **TOTAL OF THREE (3)** contracts completed within the last five (5) years preceding the release date of the solicitation that best demonstrates your corporate experience on recent, relevant contracts that are similar in size, scope and complexity to this requirement.

Recent, Relevant project is defined as:

- ... Provide verification whether your firm is approved by the Defense Travel Management Office (DTMO) and on their list of Approved DoD Bus, Van and Limo Carriers. To be rated acceptable, your firm must be approved by the Defense Travel Management Office (DTMO) and on their list of Approved DoD Bus, Van and Limo Carriers. Provide matrix with expiration dates showing how your operators meet the solicitation requirements in (Ref. C-1700000, Spec Item 2.2.1 - Certification, Training, and Licensing.). Provide plan how your firm will provide dispatch or Management Services to the Government 24 hours per day, seven (7) days per week. Describe how your firm can provide up to six (6) buses with drivers for non-recurring work, to include shuttle services, within three (3) hours of notification.
- ... Describe how your firm can deliver up to 26 charter buses with drivers for non-recurring work within 24 hours of notification.
- ... Submit a detailed inventory of buses that are owned and operated by your firm and/or buses owned and operated by subcontractor's with whom you have a letter of commitment. Provide copies of all applicable letters of commitment. Inventories should contain, at a minimum, the following information: Owner name, fleet vehicle number, year, age, seating capacity, type, make, model, VIN number, mileage, length, GVW, wheel chair lift with number of tie downs (if applicable) and amenities as listed in the PWS.
- ... Describe the lines of management authority, supervision, span of control and accountability, including the relationships between overall management, administration joint ventures teaming relationships and/or subcontractors. A detailed organizational chart depicting levels of authority and chain of command to the lowest level including subcontractors shall be included. Furthermore, the contractor shall demonstrate its ability to manage multiple teams across multiple locations for two or more customers simultaneously.

The offeror shall submit the experience and qualifications of all key contractor personnel. The offeror's proposal shall include resumes for key personnel and also provide a matrix to include the background/experience of the company's proposed key and non-key personnel mapped to the appropriate PWS tasking that supports the proposed labor category and level. Note that resumes will not count toward the offeror's overall page count

Basis of Evaluation: Acceptability will be based on the quality of the Offerors Technical and Management Approach. To receive a rating of "Acceptable" for this factor, the narrative must provide an explanation of how the offeror will meet the requirements. The Government will evaluate the feasibility of the offeror's technical/management approach to provide the full range of support services described in the PWS. Simple statements that the offeror will fulfill the requirements without a detailed description of how an offeror will accomplish the work may be insufficient to demonstrate that the offeror can perform the contract requirements, which may result in a technical rating of Unacceptable. Do not assume that the evaluator(s) is/are familiar

with the technical approach of your company based on other contracts with this or another agency.

Solicitation Submittal Requirements: Offerors shall submit a minimum of one(1), maximum of three (3) examples of recent and relevant projects similar in size, scope, and complexity, current or completed, within the last five (5) years. These projects should have been performed by the offeror as a prime contractor or joint venture/team/partner member. If experience was as a subcontractor, then less credit may be given to the experience. If more than three (3) are submitted, only the first three will be reviewed in the evaluation. Relevant contract experience is considered to be a contract that involves the following: (1) longevity greater than 12 months; (2) if the contract is currently being performed, it shall have started at least one year ago; if the contract is completed, it should have been completed no more than five years ago; (3) similar in scope includes performing multi-function facility support services; and (4) demonstrate a combination of relevant contracts that have an aggregate value of about \$500,000 annually or more. The contracts may be for the U.S. Government or other clients. Each contract submission shall not exceed two (2) pages (8.5" x 11"). The total number of pages for this factor is not to exceed eleven (11) pages. Only the first eleven (11) pages will be evaluated. For each project the offeror shall provide:

- (a) Contract number, title, and location
- (b) Dollar value; annually and contract life
- (c) Type of Contract (i.e. fixed price, cost reimbursable, or other - specify)
If applicable, identify base period and all option periods
- (d) Contract start date and completion date
- (e) Identify type of Services provided - similar scope, size & complexity (brief)
- (f) Client points of contact with current telephone and electronic mail addresses if available (Confidential clients are not acceptable and will result in non-consideration of the project.) Failure to provide an accessible point of contact and a correct telephone number may result in a lower rating.
- (g) Nature of firm's responsibility (prime or sub)
- (h) Percentage of the work that your firm performed as the prime contractor or subcontractor

b) **Basis of Evaluation:**

Basis of Evaluation: A subjective assessment of the offeror's (prime or joint venture/team/partner members) relevant experience in providing management and delivery of the same or similar work as described in the statement of work/specifications of the RFP's charter bus services. Relevancy will be evaluated in terms of similar size, scope and complexity. The Government will also evaluate relevant experience working with a Joint Venture partner or subcontractor on projects of similar size, scope and complexity. Experience as a subcontractor may be given less credit.

FACTOR 2 – SAFETY :

a) **Solicitation Submittal Requirements:**

(i) **Solicitation Submittal Requirements:** The Offeror shall submit the following information: (For a partnership or joint venture, the following submittal requirements are required for each contractor who is part of the partnership or joint venture; however, only one safety narrative is required. EMR, DART and TRC Rates shall not be submitted for subcontractors.)

(1) **Experience Modification Rate (EMR):** Include three previous complete calendar years' worth of data. This rate compares company's annual losses in insurance claims against its policy premiums. The offeror may submit an insurance company-provided equivalent rate if no EMR exists. If the offeror has no EMR or premium, for any year, affirmatively state so and explain why. Any extenuating circumstances that affect the EMR and negative trends should be addressed as part of the factor submission.

(2) OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate and Total Recordable Case (TRC) Rate: Submit three previous complete calendar years' worth of data. If an offeror cannot submit an OSHA DART and TRC rates, for any year, affirmatively state so and an explanation must be provided. Any extenuating circumstances that affected the OSHA, DART, and TRC rate data negatively must be addressed as part of this factor submission.

NOTE: DART and TCR shall not be submitted for subcontractors

- 1) DART Rate: Submit three (3) previous complete calendar years' [CY2022, CY2021, and CY2020] worth of data (not an overall average). If the Offeror has no DART rate, for any year, affirmatively state so and explain why.
 - a) DART cases include injuries or illnesses resulting in death, days away from work, and/or restricted work or transfer to another job days beyond the day of injury/illness.
 - b) Calculation of DART rate: Multiply the total number of DART cases by 200,000, and then divide by the number of employee labor hours worked

$$\text{DART RATE} = \frac{\text{Number of DART Incidents} \times 200,000}{\text{Total Number of Employee Labor Hours Worked}}$$

- 2) TCR Rate: Submit three (3) previous complete calendar years' [CY2022, CY2021, and CY2020] worth of data (not an overall average). If the Offeror has no TCR rate, for any year, affirmatively state so and explain why.
 - a) TCR cases include injuries or illnesses resulting in death, days away from work, restricted work or transfer to another job days beyond the day of injury/illness, medical treatment beyond first aid, or loss of consciousness.
 - b) Calculation of TCR rate: Multiply the total number of TCR incidents by 200,000, and then divide by the number of employee labor hours worked

$$\text{TCR RATE} = \frac{\text{Number of TCR Incidents} \times 200,000}{\text{Total Number of Employee Labor Hours Worked}}$$

(3) Technical Approach for Safety: Describe the plan for safety that will be implemented to evaluate safety performance of potential subcontractors as part of the selection process for all levels of subcontractors. The offeror shall submit a narrative that fully describes the safety management system that they will use to oversee the safety compliance and performance of self-performed and subcontractor performed work. The offeror will describe any innovative methods that will be employed to ensure and monitor safe work practices at self-performed and/or all subcontractor levels. Additionally, the contractor will describe their methodology to execute an effective program that facilitates sound mishap prevention techniques and processes, employee reporting of unsafe conditions, unsafe activities, and near-miss mishaps. The technical approach to safety narrative shall be limited to two pages.

(ii) Basis of Evaluation: The evaluation will collectively consider the following:

- Experience Modification Rate (EMR)
- OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) and Total Recordable Case (TRC) Rates
- Offeror Technical Approach to Safety
- Other sources of information available to the Government

The Government is seeking to determine that the Offeror has consistently demonstrated a commitment to safety and that the Offeror plans to properly manage and implement safety procedures for itself and its subcontractors. To meet the minimum requirements, the Offeror must demonstrate the following:

- DART rates at or below 2.99
- TCR Rates at or below 4.49

NOTE: If the Offeror's rates exceed the established levels above for any of the five years, it will result in a deficiency.

(1) Experience Modification Rate (EMR): Include three previous complete calendar years 2020, 2021 and 2022 worth of data. This rate compares company's annual losses in insurance claims against its policy premiums. The offeror may submit an insurance company provided equivalent rate if no EMR exists. If the offeror has no EMR or premium, for any year, affirmatively state so and explain why. Any extenuating circumstances that affected the EMR and negative trends should be addressed as part of this selection factor.

(2) OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) and Total Recordable Case (TRC) Rates: For the three previous complete calendar years, the offeror will submit their OSHA DART and TRC, as defined by the U.S. Department of Labor, Occupational Safety and Health Administration. If unable to submit OSHA DART and TRC rates, affirmatively state so, and an explanation must be provided. Any extenuating circumstances that affected the OSHA DART and TRC rate data and negative trends should be addressed as part of this element. The board will evaluate the OSHA DART and TRC rates to determine if the Offeror has demonstrated a history of safe work practices taking into account any upward trends and extenuating circumstances that impact rates.

(3) Technical Approach to Safety: The offeror will describe their plan to evaluate their safety performance and that of potential subcontractors. Also, describe any innovative methods that the Offeror will employ to ensure and monitor safe work practices at all subcontractor levels. The Safety Narrative shall be limited to two pages. The board will evaluate the narrative to determine the degree to which subcontractor safety performance will be considered in the selection of all levels of subcontractors on the upcoming project. The board will evaluate the narrative to determine the degree to which innovations are being proposed that may enhance safety on this procurement and validate the contractor has addressed methodology to be used in the execution of an effective program that facilitates sound mishap prevention techniques/processes, employee reporting of unsafe conditions, unsafe activities, and near-miss mishaps. Those Offerors whose plan demonstrates a commitment to hire subcontractors with a culture of safety and who propose innovative methods to enhance a safe working environment may be given greater weight in the evaluation.

(4) Other Sources of Information Available to the Government: Other sources for safety may include but are not limited to OSHA data, NAVFAC's Contractor Incident Reporting System (CIRS) in Enterprise Safety Applications Management System (ESAMS), Contractor Performance Assessment Reporting System (CPARS) and other related databases.

FACTOR 3 – PAST PERFORMANCE:

1) Solicitation Submittal Requirements:

Offerors must submit a CPARS/PPQs for each relevant project submitted under Factor 1 Corporate Experience.

The Government will review the past performance information provided by the Offeror and make a relevance determination. If a completed CPARS evaluation is available, it shall be submitted with the proposal. If there is not a completed CPARS evaluation, the Past Performance Questionnaire (PPQ) included in the solicitation is provided for the Offeror or its team members to submit to the client for each project the offeror includes in its proposal for factor 1 – Corporate Experience. An offeror shall not submit a PPQ when a completed CPARS is available.

IF A CPARS EVALUATION IS NOT AVAILABLE, ensure correct phone numbers and email addresses are provided for the client point of contact. Completed PPQs should be submitted with your proposal. If the Offeror is unable to obtain a completed PPQ from a client for a project(s) before proposal closing date, the Offeror should complete and submit with the proposal the first page of the PPQ, which will provide contract and client information for the respective project(s). The Government may make reasonable attempts to contact the client noted for that project(s) to obtain the PPQ information. However, Offerors should follow-up with clients/references to ensure timely submittal of questionnaires. If the client requests, questionnaires may be submitted directly to the Government's point of contacts prior to the closing date of the solicitation:

Brian Wasson, Contract Specialist

Email: brian.j.wasson.civ@us.navy.mil

Shauna Lloyd, Contracting Officer

Email: shauna.e.lloyd2.civ@us.navy.mil

If the PPQ is emailed, please ensure the client sends using the email subject line below:

“Email Subject Line: “N40080-23-R-0017 – Unscheduled Charter Bus – KTR Name- PPQ”

Further, the Government reserves the right to contact references for verification or additional information. The Government's inability to contact any of the Offeror's references or the references unwillingness to provide the information requested may affect the Government's evaluation of this factor. In addition to the above, the Government reserves the right to obtain information for use in the evaluation of past performance from any and all sources including sources outside of the Government. Other sources may include, but are not limited to, past performance information retrieved through the Past Performance Information Retrieval System (PPIRS) using all CAGE/DUNS numbers of Contractors who are part of a partnership or joint venture identified in the Offeror's proposal, inquiries of owner representative(s), Federal Awardee Performance and Integrity Information System (FAPIIS), Electronic Subcontract Reporting System (eSRS), and any other known sources not provided by the Offeror. While the Government may elect to consider data from other sources, the burden of providing detailed, current, accurate and complete past performance information rests with the Offeror.

Offerors shall not incorporate by reference into their proposal PPQs or CPARS previously submitted for other RFPs. However, this does not preclude the Government from utilizing previously submitted PPQ information in the past performance evaluation.

(ii) Basis of Evaluation:

To receive an “Acceptable” rating for this evaluation factor, the Offeror shall submit a total of three (3) CPARS/PPQ that demonstrates the Offerors performance for each recent/relevant project.

Recent, Relevant project is defined as:

A Charter Bus contract completed by the Offeror within the last five years preceding the release date of the solicitation similar in nature to the solicitation based on a comparison of size, scope and complexity.

- ... RECENT- only work that has been done within the last five years preceding the release date of the solicitation.
- ... Similar scope of work.
- ... Similar Complexity of Services provided at multiple jurisdictions that require base access utilizing the DBIDs requirements.
- ... Dollar value –Range \$1,000,000 to \$3,600,000.
- ... Contract type – Firm Fixed Price Indefinite Delivery Indefinite Quantity (IDIQ) contracts term consisting of Base Period with minimum of four (12 month) options.

The Government will review the past performance information provided by the Offeror using the above criteria and make a relevance determination. If the Offeror is without a record of relevant past performance or for whom information on past performance is not available or so sparse that no meaningful past performance rating can be reasonably assigned, the Offeror shall be determined to receive a rating of “neutral” for Past Performance. In the context of acceptability/unacceptability a neutral rating shall be considered “Acceptable” IAW FAR 15.305(a)(2)(iv)). Further, the Government will evaluate the degree to which past performance evaluations and all other past performance information reviewed by the Government (e.g., PPIRS, Federal Awardee Performance and Integrity Information System (FAPIIS), Electronic Subcontract Reporting System (eSRS), performance recognition documents, and information obtained from any other source) reflect a trend of satisfactory performance considering the following:

- A pattern of successful completion of tasks;
- A pattern of deliverables that are timely and of good quality;
- A pattern of cooperativeness and teamwork with the Government at all levels (task managers, contracting officers, auditors, etc.); and
- Recency of tasks performed that are identical to, similar to, or related to the task at hand

Past performance will be rated on an “acceptable” or “unacceptable” basis using the following definitions:

Past Performance Evaluation Ratings	
Rating	Description
Acceptable (A)	Based on the offeror’s performance record, the Government has a reasonable expectation that the offeror will successfully perform the required effort, or the offeror’s performance record is unknown.
Unacceptable (U)	Based on the offeror’s performance record, the Government has no reasonable expectation that the offeror will be able to successfully perform the required effort.

In the case of an offeror without a record of relevant past performance or for whom information on past performance is not available or so sparse that no meaningful past performance rating can be reasonably assigned, the offeror may not be evaluated favorably or unfavorably on past performance (see FAR 15.305(a)(2)(iv)). Therefore, the Offeror shall be determined to have unknown past performance. In the context of acceptability/unacceptability “unknown” shall be considered “acceptable”
