

Amendment 02

REQUEST FOR INFORMATION (RFI) No. 2 FA9101-22-R-B001, Test Operations and Sustainment (TOS) II 8 July 2022

The Centers for Disease Control and Prevention (CDC) has elevated Arnold AFB's COVID-19 community (both Coffee and Franklin counties) and as a result, Arnold AFB has returned to Health Protection Condition (HPCON) Charlie as of 7 July 2022. This change in status requires us to adjust the dates for Industry Day #2 in order to meet the required Air Force (AF) COVID-19 policy restrictions limiting the number of people attending in-person meetings.

The purpose of this amendment to RFI No. 2, FA9101-22-R-B-001, is to revise the dates of Industry Day #2 to be held at Arnold AFB, TN. There will now be two separate events for Industry Day #2 to reduce the number of attendees at one time. Both events will contain the same briefings, tours, and one-on-one sessions and will be held 17-18 August 2022 and 22-23 August 2022. Due to space limitations and social distancing requirements, we are further limiting attendance from six to five people per company to attend the one-on-one sessions and briefings. The limit for participating in the tours remains unchanged at two people. At this time, the scheduled dates for the GSU site visits remain unchanged. Since registration closed on 6 July 2022, all companies who have registered for this event have been contacted individually and registration for this event remains closed.
