SECTION C – DESCRIPTION/SPECIFICATION/WORK STATEMENT

C.1. BACKGROUND

The United States Agency for International Development Office of Security (USAID/SEC) is responsible for conducting personnel security and suitability investigations on individuals selected to enter on duty with USAID and to update security clearances on individuals already employed by the Agency. Certain aspects of these investigations require extensive field work by trained and experienced personnel. USAID obtains these security investigation services via a Blanket Ordering Agreement (BOA) issued to designated contract investigators. The BOA is typically awarded to approximately 100 investigators throughout the United States. These investigators are required to conduct personnel security and suitability related investigations pursuant to Executive Orders 12968, 10450, 13488, and 13467; applicable regulations which include 5 CFR 731 and 5 CFR 732; and USAID/SEC policies and procedures.

SEC manages the operational activities associated with this mission and provides each investigator with training and administrative support. For each investigative case assignment, investigators are selected and tasked to complete specific investigative work. Once selected to perform work, the investigator receives a **Project Order (PO)**, which serves as the case assignment and the funding authorization document. The PO contains the following information:

- (1) the USAID Contracting Officer's Representative (COR) as the sender,
- (2) name of the investigator assigned to the case,
- (3) investigator's identification number (as assigned by USAID),
- (4) PO number,
- (5) case number,
- (6) date of assignment,
- (7) suspense date (date by which the work must be completed, as determined by USAID),
- (8) case type,
- (9) USAID applicant's last name,
- (10) number of service-hours authorized,
- (11) hourly rate authorized,
- (12) maximum amount of funds approved for service-hours and expenses, and
- (13) comment section for additional information, as needed.

Upon completion of the investigation, the investigator is required to submit to SEC a **Report of Investigation (ROI)** based on their assigned work, along with a completed voucher and any applicable receipts. The voucher must contain the following information:

- (1) name of the investigator assigned to the case,
- (2) investigator's identification number,
- (3) PO number,
- (4) case number,
- (5) case type,
- (6) USAID applicant's last name,
- (7) number of service-hours authorized,

- (8) hourly rate authorized,
- (9) authorized expenses,
- (10) dates of investigative activities,
- (11) number of hours spent on each activity, and
- (12) the contract investigator's signature.

Authorized expenses in addition to service-hours authorized may include parking fees, tolls, transportation costs, and other related expenses. Each of these expenses is identified by a specific code on the voucher. Vouchers are reviewed and either approved or disapproved by the COR. On a weekly basis, approved vouchers are submitted electronically to the Administrative and Financial Support Services Contractor for further processing and payment to the investigator.

C.2 TITLE AND SCOPE

The title of this award is the Administrative and Financial Support Services Contract. This contract will provide services to support the BOA awarded to approximately 100 security investigators whose individual rates may reach a maximum of \$500,000 over a five (5) year period. Total investigator pass-through payment, thus the amount the contractor will be responsible for managing, for services performed may reach approximately \$225,000 in payments per month.

C.3 OBJECTIVE

The objective of this contract is to provide administrative support and payment and reimbursement services to all authorized investigators performing work under the security investigator BOA with USAID/SEC.

C.4 CONTRACTOR REQUIREMENTS

The Contractor must ensure that all financial and personal records are appropriately safeguarded.
2. The Contractor must provide online capability for administrative services to all investigators and provide appropriate portal interfaces to facilitate accessing such information via the Internet. Investigators under the above mentioned BOA must enroll in this online system designated by the Contractor in order to receive administrative support, receive payments, and access related information.

6. The Contractor's online system must have the capability for the COR to provide feedback directly to the Contractor for bug reporting and enhancement. Requests by the COR to correct or revise a feature or function in the system must be completed within five (5) business days. In the case of a fix that requires more than five (5) business days to correct or revise, the fix will be completed within a timeframe agreed upon in writing by the COR and the Contractor.
7. The Contractor must provide telephonic and online (email and chat) support services for the investigators and be accessible to the COR and other designated SEC staff. The hours of support services will be from 8:30am (EST) through 5:30pm (EST), Monday through Friday, excluding Federal holidays.

 - (3) investigator's identification number (as assigned by USAID),
 - (4) PO number,

 - (10) number of service-hours authorized,
 - (11) hourly rate authorized,
 - (12) maximum amount of funds approved for service-hours and expenses, and
 - (13) comment section for additional information, as needed.

The online system will also allow the investigator to create a voucher based on the PO assigned which contains the following information:

- (1) name of the investigator assigned to the case,

- (2) investigator's identification number,
- (3) PO number,
- (4) case number,
- (5) case type,
- (6) USAID applicant's last name,
- (7) number of service-hours authorized,
- (8) hourly rate authorized,
- (9) authorized expenses,
- (10) dates of investigative activities,
- (11) number of hours spent on each activity, and
- (12) the contract investigator's signature.

Authorized expenses in addition to service-hours authorized may include parking fees, tolls, transportation costs, and other related expenses. Each of these expenses must be identified by a specific code on the voucher.

- 2. The Contractor's online system must provide the COR with weekly invoices itemizing all approved voucher payments for investigators. The system must allow the COR to electronically access and track information on investigator assignments, applicable funding limits, and status of payments for investigators. The online system must provide the capability for the COR to obtain reports in PDF format on information in the system, including reports on services provided but not yet paid. The Contractor's system must enable sorting of information according to the parameters determined and agreed upon by the COR and Contractor. The Contractor must provide the capability for all data to be exported into MS Excel.
- 3. The Contractor's online system must enable investigators to provide and update account information on their personal profiles. The system must allow the investigator to provide and change information including, but not limited to, the following: mailing address, physical address, telephone numbers, email addresses, log in information, and password resets.
- 4. The Contractor's online system must enable investigators to review the status of their pending payments. This feature must provide the investigators with information regarding voucher approval status, payments scheduled for deposit, and when payments have been successfully completed.
- 5. The Contractor's payment system must allow adjustments to be made to the hourly rates of the investigators based on changes made by USAID.
- 6. The Contractor's online system must provide up to date information regarding voucher status that must include, at a minimum, the following:
 - (1) name of the investigator assigned to the case,
 - (2) investigator's identification number,
 - (3) PO number, and

(4) voucher status.

7. The Contractor must provide financial management and payment processing for all investigator vouchers. On a weekly basis, the COR will electronically submit to the Contractor approved vouchers for processing and payment to the investigators. The Contractor must review all submitted weekly vouchers within one (1) business day of receipt for accuracy and completeness, and must communicate apparent errors and discrepancies to the COR. The Contractor must tally the vouchers and provide a consolidated invoice using Standard Form 1034 to the COR for final approval. The weekly invoice must include a voucher detail report as an attachment. The voucher detail report must identify:

- (1) investigator name,
- (2) investigator identification number,
- (3) PO number, and
- (4) total amount for the voucher.

The voucher detail report must accurately reflect a grand total of the vouchers to be paid. Following receipt of the weekly consolidated invoice, an approval form is prepared by the COR and sent to the USAID Bureau for Management, Office of the Chief Financial Officer, Cash Management and Payments Division (USAID/M/CFO/CMP) for payment to the Contractor. As soon as possible and no later than one business day upon receipt of payment by USAID/M/CFO/CMP, the Contractor will make payments to the appropriate investigators for individual approved vouchers. Payments to investigators must be made on a weekly basis.

c. Additional Requirements

1. The Contractor must have a fully operational system in place, meeting all requirements stated above, at the time of proposal submission.
2. The Contractor must immediately notify the Contracting Officer (CO) and COR of any problems, delays, or adverse conditions which materially impair the Contractor's ability to meet the requirements of the contract. The Contractor must notify the COR within one (1) business day if they suspect that there has been a delay in receiving the weekly payment from USAID to the Contractor, which could then delay the payment processing to the investigators.

C.5 USAID RESPONSIBILITIES

1. The COR will provide individual investigator POs and vouchers to the Contractor for each investigator assignment. Vouchers that have been reviewed and approved by the COR will be marked as "Approved" and dated as appropriate.

As a general rule, marking is not required for raw materials shipped in bulk (such as coal, grain, etc.), or for semi-finished products which are not packaged.
- b) Specific guidance on marking requirements should be obtained prior to procurement of commodities to be shipped, and as early as possible for project construction sites and other project locations. This guidance will be provided through the cognizant technical office indicated on the cover page of this contract, or by the Mission Director in the Cooperating Country to which commodities are being shipped, or in which the project site is located.
- c) Authority to waive marking requirements is vested with the Regional Assistant Administrators, and with Mission Directors.
- d) A copy of any specific marking instructions or waivers from marking requirements is to be sent to the Contracting Officer; the original should be retained by the Contractor.

D.2 BRANDING STRATEGY AND MARKING PLAN

The Contractor must comply with the requirements of the USAID “Graphic Standards Manual” available at www.usaid.gov/branding, or any successor branding policy. The Contractor must develop a project specific branding strategy in close coordination with the COR that will include detailed descriptions of communications, publicity, and acknowledgements, as well as a marking plan that will detail how expected public communications, projects, and other program outputs and materials will visibly bear the USAID identity.

The Contractor must submit a detailed Branding Strategy and Marking Plan for review and approval within thirty (30) days after the contract period of performance start date. The contract will be modified to add the approved Branding Strategy and Marking Plan after award.

For example, such contractor employees who obtain business cards to identify themselves as associated with USAID, must use the guidance found in ADS 320 and, among other requirements, include "USAID Contractor" above their name. This serves to inform recipients of the

business card that this individual is associated with USAID but is not a Federal Employee and cannot represent USAID or perform inherently governmental duties.

The contractor's Branding and Marking Plan might also include information about how this topic will be addressed during employee orientation. For example, employees might be advised to include "USAID Contractor" as a part of their "signature" for work-related emails, especially those sent under an USAID-provided email account. The contractor employees placed with USAID must also be advised to discuss with their USAID Point of Contact the Branding and Marking practices of the USAID unit to which they are assigned to ensure consistent practices.

The contractor must develop a Branding Implementation Plan. It must describe how the program will be communicated to the beneficiaries and promoted to host-country citizens. It will outline the events and materials the contractor will use to deliver the message that the assistance is from the American people. More specifically, Branding Implementation Plan must address the following:

(1) How to incorporate the message, "This assistance is from the American people," in communications and materials directed to beneficiaries, or provide an explanation if this message is not appropriate or possible.

(2) How to publicize the program, project, or activity overseas and a description of the communications tools to be used. Such tools may include the following: press releases, press conferences, media interviews, site visits, success stories, beneficiary testimonials, professional photography, PSAs, videos, web casts, e-invitations, or other e-mails sent to group lists, such as participants for a training session blast e-mails or other Internet activities, etc.

(3) The key milestones or opportunities anticipated to generate awareness that the program, project, or activity is from the American people, or an explanation if this is not appropriate or possible. Such milestones may be linked to specific points in time, such as the beginning or end of a program, or to an opportunity to showcase publications or other materials, research findings, or program success. These include, but are not limited to, the following: launching the program, announcing research findings, publishing reports or studies, spotlighting trends, highlighting success stories, featuring beneficiaries as spokespeople, securing endorsements from partner municipalities, ministry or local organizations, promoting final or interim reports, and communicating program impact/overall results.

g) Status Meetings

The Contractor shall hold quarterly meetings with the COR or his/her designee to discuss contract work products and identify any contract-related challenges or opportunities. More frequent meetings should be held if necessary.

Evaluation of the aforementioned factors will be tailored to the contract type, size, content, and complexity of the requirement.

F.7 STANDARD OF CONDUCT

The Contractor must be responsible for maintaining satisfactory standards of employee competency, conduct appearance and integrity, and must be responsible for taking such disciplinary action with respect to employees as may be necessary. H.8 HOMELAND SECURITY PRESIDENTIAL DIRECTIVE (HSPD-12) (SEPTEMBER 2006)

In response to the general threat of unauthorized access to federal facilities and information systems, the President issued Homeland Security Presidential Directive-12 (HSPD-12). HSPD-12 requires all Federal agencies to use a common Personal Identity Verification (PIV) standard when identifying and issuing access rights to users of Federally controlled facilities

and/or Federal Information Systems. USAID will begin issuing HSPS-12 “smart card” IDs to applicable contracts, using a phased approach. Effective October 27, 2006, USAID will begin issuing new “smart card” IDs to new Contractors (and new Contractor employees) requiring routine access to USAID controlled facilities and/or access to USAID’s information systems. USAID will begin issuance of the new smart card IDs to existing Contractors (and existing Contractor employees) on October 27, 2007. (Exceptions would include those situations where an existing Contractor (or Contractor employee) loses or damages his/her existing ID and would need a replacement ID prior to October 27, 2007. In those situations, the existing Contractor (or Contractor employee) would need to follow the PIV processes described below and be issued one of the new smart cards.)

Accordingly, before a Contractor (including a PSC or a Contractor employee) may obtain a USAID ID (new or replacement) authorizing him/her routine access to USAID facilities, or logical access to USAID’s information systems, the individual must provide two forms of identity source documents in original form and a passport size photo. One identity source document must be a valid Federal or state government-issued picture ID. (Overseas foreign nationals must comply with the requirements of the Regional Security Office.) USAID/W Contractors must contact the USAID Security Office to obtain the list of acceptable forms of documentation, and Contractors working in overseas Missions must obtain the acceptable documentation list from the Regional Security Officer. Submission of these documents, and related background checks, are mandatory in order for the Contractor to receive a building access ID, and before access will be granted to any of USAID’s information systems. All Contractors must physically present these two source documents for identity proofing at their USAID/W or Mission Security Briefing. The Contractor or his/her Facility Security Officer must return any issued building access ID and remote authentication token to USAID custody upon termination of the individual’s employment with the Contractor or completion of the contract, whichever occurs first.

The Contractor must comply with all applicable HSPD-12 and PIV procedures as described above, and any subsequent USAID or government-wide HSPS-12 and PIV procedures/policies, including any subsequent related USAID General Notices, Office of Security Directives and/or Automated Directives System (ADS) policy directives and required procedures. This includes HSPD-12 procedures established in USAID/W and those procedures established by the overseas Regional Security Office.

In the event of inconsistencies between this clause and the later issued Agency or government-wide HSPD-12 guidance, the most recent issued guidance should take precedence, unless otherwise instructed by the Contracting Officer.

The Contractor is required to include this clause in any subcontracts that require the Subcontractor or Subcontractor employee to have routine physical access to USAID space or logical access to USAID’s information systems.

H.9 INSURANCE AND SERVICES

Pursuant to AIDAR 752.228-3 Worker's Compensation Insurance (Defense Base Act), USAID's DBA insurance carrier is: Allied World Assurance Company. To obtain DBA insurance, Contractors must contact Allied's agent, AON Risk Insurance Services Inc., the agent for AWAC DBA Insurance.

The Contractor is required to procure DBA insurance through USAID's approved Contractor, Allied, through AON.

Contractor personnel must have English language proficiency to perform services. USAID reserves the right to test proposed individuals to ensure that they have the required language capability as required by the task.

H.11 AIDAR 752.222-71 NONDISCRIMINATION

Most federal Contractors are prohibited by law and regulation from discrimination with regard to race, color, religion, sex, national origin, disability, age, genetic information, or veteran status when work under their contract is performed in the U.S. or employees are recruited from the U.S. The requirements applicable to federal contracts are found in FAR Part 22, "Application of Labor Laws to Government Acquisitions" and the clauses in FAR Part 52.227.

Additionally, while not a mandatory requirement, the Agency encourages all organizations performing under USAID contracts, including those performed solely overseas, to apply these same standards of nondiscrimination to other bases, including sexual orientation, gender identity, pregnancy, and any other conduct that does not adversely affect performance, subject to applicable law.

H.12 NON-PERSONAL SERVICES

- (a) The Government and the Contractor understand and agree that the services delivered by the Contractor to the Government are non-personal services. supervision, direction, or evaluation of a federal employee, or (ii) be placed in a position of command, supervision, administration, or control over Government personnel.

- (c) All requests for leave, annual, sick, or other will be approved or denied by the Contractor, not USAID.

H.13 OBSERVANCE OF LEGAL HOLIDAYS AND EXCUSED ABSENCE

- i. Any other day designated by Federal Statute
 - ii. Any other day designated by Executive Order
 - iii. Any other day designated by the President's Proclamation
- (c) It is understood and agreed between the Government and the Contractor that observance of such calendar days by Government personnel must not otherwise be a reason for an additional period of performance, or entitlement of compensation except as set forth within the contract. This provision does not preclude reimbursement for authorized overtime work if applicable to this contract.
- (d) When the Federal and governmental entities grant excused absence to its employees, assigned Contractor personnel may also be dismissed. The Contractor agrees to continue to provide sufficient personnel to perform critical tasks already in operation or scheduled, and must be guided by the instructions issued by the CO or the COR.
- (e) If Government personnel are furloughed, the Contractor must contact the CO or the COR to receive direction.

H.14 AIDAR 752.209-71 Organizational Conflicts of Interest Discovered After Award (JUN 1993)

- (a) The Contractor agrees that, if after award it discovers either an actual or potential organizational conflict of interest with respect to this contract, it shall make an immediate and full disclosure in writing to the contracting officer which shall include a description of the action(s) which the Contractor has taken or proposes to take to avoid, eliminate or neutralize the conflict.

(b) The contracting officer shall provide the contractor with written instructions concerning the conflict. USAID reserves the right to terminate the contract if such action is determined to be in the best interest of the Government.

H.15 ORGANIZATIONAL CONFLICTS OF INTEREST: PRECLUSION FROM FURNISHING CERTAIN SERVICES AND RESTRICTION ON USE OF INFORMATION (EVALUATION)

H.33 PRIVACY AND SECURITY INFORMATION TECHNOLOGY SYSTEMS INCIDENT REPORTING (MAY 2016)

- (a) Definitions. As used in this special contract requirement-

“Information” means any communication or representation of knowledge such as facts, data, or opinions in any medium or form, including textual, numerical, graphic, cartographic, narrative, or audiovisual.

“Sensitive Information” or “Sensitive But Unclassified” Sensitive But Unclassified (SBU) describes information which warrants a degree of protection and administrative control and meets the criteria for exemption from public disclosure set forth under Sections 552 and 552a of Title 5, United States Code: the Freedom of Information Act and the Privacy Act, 12 FAM 540 Sensitive but Unclassified Information (TL;DS-61;10-01-199), and 12 FAM 541 Scope (TL;DS- 46;05-26-1995). SBU information includes, but is not limited to:

1) Medical, personnel, financial, investigatory, visa, law enforcement, or other information which, if released, could result in harm or unfair treatment to an individual or group, or could have a negative impact upon foreign policy or relations; and 2) Information offered under conditions of confidentiality, arising in the course of a deliberative process (or a civil discovery process), including attorney-client privilege or work product, and information arising from the advice and counsel of subordinates to policy makers, “Personally Identifiable Information (PII)”, means information that can be used to distinguish or trace an individual's identity, such as their name, Social Security Number (SSN), biometric records, etc., alone, or when combined with other personal or identifying information which is linked or linkable to a specific individual, such as date and place of birth, mother’s maiden name, etc. The definition of PII is not anchored to any

single category of information or technology. Rather, it requires a case-by-case assessment of the specific risk that an individual can be identified. In performing this assessment, it is important to recognize that non-PII can become PII whenever additional information is made publicly available — in any medium and from any source — that, when combined with other available information, could be used to identify an individual. PII examples include name, address, SSN, or other identifying number or code, telephone number, and e-mail address. PII can also consist of a combination of indirect data elements such as gender, race, birth date, geographic indicator (e.g., zip code), and other descriptors used to identify specific individuals. When defining PII for USAID purposes, the term “individual” refers to a citizen of the United States or an alien lawfully admitted for permanent residence.

“National Security Information” means information that has been determined pursuant to Executive Order 13526 or any predecessor order to require protection against unauthorized disclosure and is marked to indicate its classified status when in documentary form. Classified or national security information is specifically authorized to be protected from unauthorized disclosure in the interest of national defense or foreign policy under an Executive Order or Act of Congress.

“Information Security and Privacy Incident” means an occurrence that actually or potentially jeopardizes the confidentiality, integrity, or availability of an information system or the information the system processes, stores, or transmits or that constitutes a violation or imminent threat of violation of security policies, security procedures, or acceptable use policies.

- (b) This special contract requirement applies to the Contractor and all personnel providing support under this contract (hereafter referred to collectively as “Contractor”) and

addresses specific USAID requirements in addition to those included in the Federal Acquisition Regulation (FAR), Privacy Act of 1974 (5 U.S.C. 552a - the Act), E-Government Act of 2002 - Section 208 and Title III, Federal Information Security Management Act (FISMA), the Health Insurance Portability and Accountability Act of 1996 (HIPAA, Pub. L. 104-191, 110 Stat. 1936), the Sarbanes-Oxley Act of 2002 (SOX, Pub. L. 107-204, 116 Stat 745), National Institute of Standards and Technology (NIST), Federal Information Processing Standards (FIPS) and the 800-Series Special Publications (SP), Office of Management and Budget (OMB) memorandums, and other laws, mandates, or executive orders pertaining to the development and operations of information systems and the protection of sensitive information and data.

- (c) Privacy Act Compliance. Contractors must comply with the Privacy Act of 1974 requirements in the design, development, or operation of any system of records on individuals (as defined in FAR) containing PII developed or operated for USAID or to accomplish a USAID function for a System of Records (SOR).

- (2) Privacy Incident Reporting Requirements: USAID must manage in accordance with Federal laws and regulations the information it collects, uses, maintains, and disseminates in support of its mission and business functions. Any unauthorized use, disclosure, or loss of such information can result in the loss of the public's trust and confidence in the Agency's ability to protect it properly. PII breaches may have far-reaching implications for individuals whose PII is compromised, including identity theft resulting in financial loss and/or personal hardship experienced by the individual. Therefore, incidents involving a breach of PII have a critical time-period for reporting.

Contractor and Contractor staff must report immediately upon discovery all potential and actual privacy breaches to the Contracting Officer, the USAID Service Desk at 202-712-1234 or CIO-HELPDESK@usaid.gov, and the Privacy Office at privacy@usaid.gov, regardless of the format of the PII (oral, paper, or electronic) or the manner in which the incidents might have occurred. The subject line shall read "Action Required: Potential Privacy Incident".

- (3) Incident Response Requirements

- (i.) All determinations related to Information Security and Privacy Incidents, including response activities, notifications to affected individuals and/or Federal agencies, and related services (e.g., credit monitoring) will be made by authorized USAID officials at USAID's discretion.

(ii.) The Contractor and Contractor employees must provide full access and cooperation for all activities determined by USAID to be required to ensure an effective Incident Response, including providing all requested images, log files, and event information to facilitate rapid resolution of Information Security and Privacy Incidents.

When an incident is determined to be caused by the Contractor or the Contractor's employees through neglect or purposeful conduct, the Contractor must be responsible for all costs and related resource allocations required for all subsequent Incident Response activities determined to be required by USAID, whether incurred by USAID, agents under contract or on assignment to USAID, or by third party firms.

(f) The Contractor shall immediately notify the Contracting Officer in writing whenever it has reason to believe that the terms and conditions of the contract may be affected as a result of the reported incident.

(g) The Contractor is required to include the substance of this provision in any subcontracts that require the subcontractor, subcontractor employee, or consultant to design, develop, or operate a System of Records on individuals to accomplish an agency function

In altering this special contract requirement, require subcontractors to report information security and privacy incidents directly to at the USAID Service Desk at 202-712-1234 or CIOHELPDESK@usaid.gov / and the Privacy Office at privacy@usaid.gov. A copy of the correspondence shall be sent to the prime Contractor(or higher tier subcontractor) and the Contracting Officer referencing the ticket number.

Moreover, USAID may or may not provide general or detailed guidance to the Contractor to improve the SA&A package or the overall security posture of the information system and may or may not require re-submission of the package upon completion of the modifications. USAID reserves the right to limit the number of resubmissions at its convenience and may determine a system's compliance to be insufficient at which time a final determination will be made to authorize or deny operation. USAID is the final authority on the compliance.

Rather, it requires a case-by-case assessment of the specific risk that an individual can be identified. In performing this assessment, it is important to recognize that non-PII can become PII whenever additional information is made publicly available — in any medium and from any source — that, when combined with other available information, could be used to identify an individual. PII examples include name, address, SSN, or other identifying number or code, telephone number, and e-mail address. PII can also consist of a combination of indirect data elements such as gender, race, birth date, geographic indicator (e.g., zip code), and other descriptors used to identify specific individuals. (4) The Government reserves the right to perform or request Penetration Testing by an independent source. If the Government exercises this right, the Contractor shall allow Government employees (or designated third parties) to conduct Security Assessment activities to include control reviews in accordance with FedRAMP requirements. Review activities include but are not limited to scanning operating systems, web applications, databases, wireless scanning; network device scanning to include routers, switches, and firewall, and IDS/IPS; databases and other applicable systems, including general support structure, that support the processing, transportation, storage, or security of Government information for vulnerabilities.

(5) Identified gaps between required FedRAMP Security Control Baselines and Continuous Monitoring controls and the Contractor's implementation as documented in the Security Assessment Report must be tracked by the Contractor for mitigation in a Plan of Action and Milestones (POA&M) document. Depending on the severity of the gaps, the Government may require them to be remediated before a provisional authorization is issued.

(6) The Contractor is responsible for mitigating all security risks found during SA&A and continuous monitoring activities. All high-risk vulnerabilities must be mitigated within thirty (30) days and all moderate risk vulnerabilities must be mitigated within sixty (60) days from the date vulnerabilities are formally identified. The Government will determine the risk rating of vulnerabilities.

The Government reserves the right to conduct onsite inspections. The Contractor must make appropriate personnel available for interviews and provide all necessary documentation during this review and as necessary for continuous monitoring activities.

(i) Privacy Requirements: Cloud Service Provider (CSP) must understand and adhere to applicable federal Privacy laws, standards, and guidance to protect Personally Identifiable Information (PII) about individuals that will be collected and maintained by the Contractor solution. The Contractor responsibilities include full cooperation for any request for disclosure, subpoena, or other judicial process seeking access to records subject to the Privacy Act of 1974.

**K.5 52.209-5 CERTIFICATION REGARDING RESPONSIBILITY MATTERS
(AUG 2020)**

- (a)(1) The Offeror certifies, to the best of its knowledge and belief, that-

(i) The Offeror and/or any of its Principals-

- (A) Are ☐ are not ☐ presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;
- (B) Have ☐ have not ☐, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property (if offeror checks "have", the offeror shall also see 52.209-7, if included in this solicitation);
- (C) Are ☐ are not ☐ presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in subdivision (a)(1)(i)(B) of this provision; and
- (D) Have ☐, have not ☐, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied.
 - (1) Federal taxes are considered delinquent if both of the following criteria apply:
 - (i) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.
 - (ii) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.
 - (2) Examples. (i) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(ii) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(iv) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(ii) The Offeror has [] has not [], within a 3-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(2) *Principal*, for the purposes of this certification, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

- (b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
- (c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.
- (d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

- (e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

K.6 SIGNATURE

By signature hereon, or on an offer incorporating these Representations, Certifications, and Other Statements of Offerors, the Offeror certifies that they are accurate, current, and complete, and that the Offeror is aware of the penalty prescribed in 18 U.S.C. 1001 for making false statements in offers.

[END OF SECTION L]

SECTION M - EVALUATION OF PROPOSALS - EVALUATION FACTORS

M.1 GENERAL INFORMATION

1. The Government may award a contract without discussions with offerors.
2. The Government intends to evaluate proposals in accordance with Section M of this solicitation and award to the responsible offeror whose proposal represents the best value to the U.S. Government. “Best value” is defined as the offer that results in the most advantageous solution for the Government, in consideration of technical, cost, and other factors.
3. The submitted technical information will be scored by a technical evaluation committee using the technical criteria shown below. The evaluation committee may include industry experts who are not employees of the Federal Government. When evaluating the competing offerors, the Government will consider the written qualifications and capability information provided by the offerors, and any other information obtained by the Government through its own research.
4. For overall evaluation purposes, technical factors are considered significantly more important than cost/price factors.

M.2 EVALUATION FACTORS

The Government will utilize the following evaluation factors to evaluate proposals.

- Factor 1. Performance Capabilities
- Factor 2. Technical Approach
- Factor 3. Past Performance

Technical proposals will be rated according to the following criteria. The below criteria are listed in descending order of importance.

Factor 1: Performance Capabilities (Factor 1 is most important)

The Government will evaluate the offeror’s Performance Capabilities for their overall approach to successfully implement the requirements described in Section C of this solicitation.

Factor 2: Technical Approach (Factor 2 is second most important)

The Government will evaluate the technical capability and proficiency of the offeror to successfully implement operations and continuously support the requirements, as described in Section C of this solicitation.

Factor 3: Past Performance (Factor 3 is third most important)

- a. Performance information will be used for both the responsibility determination and best value decision. USAID may use performance information obtained from other than the sources identified by the offeror. USAID will utilize existing databases of Contractor performance

information and solicit additional information from the references provided in Section H of this RFP and from other sources if and when the Contracting Officer finds the existing databases to be insufficient for evaluating an offeror's performance.

- b. If the performance information contains negative information on which the offeror has not previously been given an opportunity to comment, USAID will provide the offeror an opportunity to comment on it prior to its consideration in the evaluation, and any offeror comment will be considered with the negative performance information.
- c. USAID will initially determine the relevance of similar performance information as a predictor of probable performance under the subject requirement. USAID may give more weight to performance information that is considered more relevant and/or more current.
- d. In cases where an offeror lacks relevant performance history or information on performance is not available, the offeror will not be evaluated favorably or unfavorably on performance. A "neutral" rating will be assigned to any offeror lacking relevant past performance history.
- e. The contractor performance information determined to be relevant will be evaluated in accordance with the below sub-criteria (all sub-criteria are of equal importance):
 - 1) Quality of product or service, including consistency in meeting goals and targets.
 - 2) Cost control, including forecasting costs as well as accuracy in financial reporting.
 - 3) Schedule, including the timeliness against the completion of the contract, call orders, milestones, delivery schedules, and administrative requirements (eg, efforts that contribute to or affect the schedule variance).
 - 4) Business relations, addressing the history of professional behavior and overall business-like concern for the interests of the customer, including the contractor's history of reasonable and cooperative behavior (to include timely identification of issues in controversy), customer satisfaction, timely award and management of subcontracts, cooperative attitude in remedying problems, and timely completion of all administrative requirements.
 - 5) Management of key personnel, including appropriateness of personnel for the job and prompt and satisfactory changes in personnel when problems with clients were identified.

M.4 PRICE EVALUATION FACTORS

The principal basis for evaluating price as a factor for award under this solicitation will be an evaluation of the reasonableness of the offerors' respective overall proposed prices submitted in the Pricing Table (Attachment A).

The Government will conduct an evaluation to determine ultimately that the final agreed-to overall price from the Pricing Table is fair and reasonable.

M.5 BEST VALUE ANALYSIS

The Government will perform a price/technical tradeoff to determine which proposal represents the “best value” to the Government - price and other factors considered. “Best value” is defined as the offer that results in the most advantageous acquisition decision for the Government. The Government reserves the right to make an award to other than the lowest priced offeror, if the Contracting Officer determines that to do so would result in the best value to the Government. The technical evaluation score will be used by the Contracting Officer as a guide in determining best value.
