4. **Authority Cited:** FAR 6.302-1(a) and (c) *Application for brand name descriptions.* An acquisition or portion of an acquisition that uses a brand-name description or other purchase description to specify a particular brand-name, product, or feature of a product, peculiar to one manufacturer. As only a portion of the acquisition is for brand-name product(s), this justification and approval is to cover only the portion of the acquisition which is for the brand-name product(s), and the approval level that therefore applies is that of the Contracting Officer for up to \$750,000 for each brand-name product. The brand-name product(s) are essential to the Government's requirements, thereby precluding consideration of a product manufactured by another company. This justification shall be posted with the solicitation in accordance with FAR 5.102(a)(6).

5. **Reason for Authority Cited:** These are the only manufacturers that allow for standardization and guaranteed interoperability. To build a structure that did not utilize these items would compromise the ability to secure, protect, and monitor the building without substantial duplication of cost that would most likely not be recovered through competition.

6. **Efforts to Obtain Competition:** The procurement of these items will be part of a construction acquisition that is being posted.

7. **Actions to Increase Competition:** No actions have been taken at this time to increase competition.

8. **Market Research:** Specific market research for these items and systems has not been performed.
