

Attachment F-4. Notification of Environmental, Occupational Safety and Health Management System (EOSHMS) Operational Control Applicability.

To (COR): _____

From (Organization EOSH Representative):_____

The attached operational controls have been identified as applying to the activities identified in the "Notification of Contractor Activities" (or an equivalent document such as a statement of work that identified work activities) that you recently submitted. Implementing the operational controls into those activities is required for conformance with the MMAC EOSHMS. The contract company is required to communicate these operational controls to personnel who perform the work activities associated with the operational controls. Competency requirements are contained within the operational control documents. A copy of each operational control is attached.

Please review and contact me if there are any questions.
