The estimated total Cost of Purchase Request is \$1,096,206.10

DL ONLY

DL ONLY

J&A No.MCIEAST 1910

Current year, fiscal year 2023, Operation & Maintenance/Marine Corps (O&MMC) funds will be utilized to fund this procurement.

The estimated delivery date for this procurement is June 30, 2024.

5. Statutory Authority Permitting Other Than Full and Open Competition.

N/A. Full and Open Competition will be utilized. This document meets the regulatory requirement at DFARS 213.501(a) (ii) to execute the justification and approval addressed at FAR 13.501(a) in order to use brand name or equal descriptions. FAR Subpart 13.5 procedures are being utilized for this acquisition in accordance with 41 U.S.C. 1901.

6. Rationale Justifying Use of Cited Statutory Authority.

Governing regulatory guidance (Unified Facilities Criteria (UFC), Interior Design, UFC 3-120-10) and MCO11000.22 CH1 v.2 , Bachelor Family Housing Management directs developing interior design requirements or Furniture, Fixtures, and Equipment (FF&E) be integrated with a facility's Structural Interior Design (SID).

All provided specifications coordinate with NAVFAC and ROICC's SID/paint schemes. The required Whole Room Concept includes individual whole-room packaging to accommodate high-volume installation.

Market research has not identified a fully competitive market that can provide a complete WRC that meets all requirements (i.e., specs, design, and packaging).

Through an Integrated Product Team approach, multiple stakeholders to include but not limited to NAVFAC Interior Designers (ID), other departments, Marines, and manufacturers provide recommendations into design of projects. Regular evaluation of prior projects, best practices, interior design improvements, end-user comments, etc. are employed and are assisting our efforts to not only narrow the gap between MilCon and FSRM projects interior designs but also move us towards more coordinated and standardized inventory packages for the BEQs. The modest standardized packages contribute to reduced number of manufacturers for like items, support interchangeability of parts where applicable, and minimize the number of warranty procedures this office must manage, etc. within fiscal, regulatory, and administrative constraints.

7. Description of Efforts Made to Solicit Offers from as Many Offerors as Practicable.

In accordance with FAR 10, market research was conducted using the following three methods: Furniture GSA screening of available vendors, SAM.gov, and Request for information. All vendors were screened via the SAM.gov website to confirm active registration. In accordance with FAR 5.202(a)(11), a synopsis for the proposed procurement was published in SAM.gov.

8. Determination of Fair and Reasonable Cost. The determination of fair and reasonable pricing is expected to be reached and based on competition based on:
- The requirement was introduced to competitors via posting of a Pre-Solicitation Notice.

DL ONLY

DL ONLY

J&A No.MCIEAST 1910

- Competing this requirement on an Unrestricted basis fosters Fair Market Opportunity which subsequently increase the pool of competitors.
- The RFQ will be posted for forty (40) days, affording interested parties ample time to fully respond.

9. Actions to Remove Barriers to Future Competition.

For the reasons set forth in Paragraph 5, the activity has no plans at this time to eliminate the use of brand name or equal description from future solicitation for the types of supplies/services covered by this document; however, this will be reassessed during follow-on acquisition planning.
