### IT SECURITY INFORMATION

#### **IT SECURITY INFORMATION**

Security Requirements: The C&A requirements of clause CAR 1352.239-73 Security Requirements for Information Technology Resources (October 2003) does not apply, and a Security Accreditation Package is not required.

**STATEMENT OF  
NEED**

Hydrogen for Valley,  
Nebraska

**1. BACKGROUND**

The National Weather Service (NWS) is a 24 hour, 365 day operation, and is a public safety agency. The primary mission of the NWS is the protection of life and property. The NWS in (enter city/state) launches weather balloons routinely twice a day. Each balloon requires approximately 65 cubic feet (CF) of hydrogen. Instrumentation is attached to each balloon which provides measurements of temperature, humidity, wind speed and direction, and height. This data is transmitted worldwide and used to make weather forecasts out to 10 days.

**2. OBJECTIVE**

The objective of the NWS is to receive and keep on-hand an adequate supply of hydrogen (up to 3136 CF, but no less than 915 CF) to perform the weather balloon launches on schedule. The supply shall be re- stocked on a weekly basis.

**3. SCOPE**

The Contractor is responsible for supplying hydrogen to the NWS office located at 6707 N 288<sup>th</sup> Street, Valley Nebraska 68064. The total amount of hydrogen to be delivered for the each period of this requirement (base period plus four option periods) is a minimum of 40758 CF, up to a maximum of 81,536 CF, achieved with deliveries every week of between 784 CF and 1,568 CF per delivery. There may be additional unscheduled deliveries during this period.

**4. PERIOD OF PERFORMANCE**

The base period of performance for this requirement is 12 months, beginning June 1, 2023 and ends May 31, 2024, with the options to extend up to four additional periods of one year each:

- Option 1: JUNE 1, 2024 THROUGH MAY 31, 2025
- Option 2: JUNE 1, 2025 THROUGH MAY 31, 2026
- Option 3: JUNE 1, 2026 THROUGH MAY 31, 2027
- Option 4: JUNE 1, 2027 THROUGH MAY 31, 2028

**5. PLACE OF PERFORMANCE**

All deliveries are to be made to the NWS office at 6707 N 288<sup>th</sup> St, Valley Nebraska 68064. The point of delivery is at the Upper Air Inflation building.

**6. REQUIREMENTS**

**Site Storage and Usage:** This site will store up to 3136 CF of hydrogen on site at a time in no more than 16 individual cylinders based on an individual cylinder capacity of 196 CF.

All hydrogen must be provided in individual cylinders as the facility is not arranged to allow for other configurations. The Government has space at the delivery point to safely receive and store up to 16 cylinders of hydrogen at a time.

Usage and correlated number of cylinders per delivery depends on how many cubic feet of hydrogen is provided in each cylinder. This also has the potential to vary if we have to launch extra balloons. Over an average seven day period, with no extra launches, we will use approximately 915 CF of hydrogen.

**Initial Delivery:** The Contractor shall supply 3136 CF of hydrogen on or shortly after June 1, 2023, with the actual delivery date coordinated with the Weather Forecast Office (WFO); see Points of Contacts in section 8, below.

**Delivery Schedule:** The delivery schedule shall be arranged upon contract award with one of the NWS points of contact listed in section 8, below. After the initial delivery, the Contractor will replenish back to 3136 CF of hydrogen on a weekly basis, in accordance with the arranged schedule, replacing all empty hydrogen cylinders with full hydrogen cylinders. The Contractor shall pick up the empty cylinders in the same trip.

If additional deliveries are required prior to the next regularly scheduled delivery, the NWS will contact the Contractor and request the additional delivery, with delivery to be completed within two business days of being contacted. The delivery schedule shall be arranged upon contract award with one of the NWS points of contact listed in paragraph 8 below.

Balloon launches occur twice a day, every day of the year, regardless of holidays. Therefore, the delivery schedule needs to be maintained regardless of holidays. If a holiday falls on a scheduled delivery day and the Contractor is not able to complete a regularly scheduled delivery, the Contractor shall make arrangements in advance for an alternate delivery date. The Contractor will contact the NWS office if a delivery is going to be delayed for any other reason.

In the event the Contractor is unable to provide a scheduled delivery, the Contractor is responsible for communicating the shortage to the NWS as soon as possible, but no less than two days prior to the next scheduled delivery. If the Contractor is unable to find a reasonable supply in time to fill the requirement, the NWS reserves the right to purchase hydrogen from another supplier outside of this contract.

**Performing Deliveries:** The Contractor shall contact NWS personnel at this location when arriving for a delivery. The loading area is the upper air shelter located at facility address 6707 N 288<sup>th</sup> Street, Valley Nebraska 68064. The loading area will remain clear of obstructions and all safety rules shall be followed. Cylinders can be rolled from a truck lift gate to its delivery point. NWS personnel will remain with driver throughout the delivery unlocking and locking doors as needed. NWS personnel will **not** assist with loading or unloading of cylinders.

The Contractor shall ensure the bottles are securely strapped to the stand at delivery and placed in an orderly/neat and clean fashion with cap loose and nozzle facing out. The Contractor shall perform the deliveries in such a manner that there will be minimal interruption to or interference with the normal operation of Government business on the premises.

**Evidence of Delivery:** The Driver shall provide evidence of delivery by way of receipt signed by an NWS representative at the time of delivery. A copy of the signed receipt shall also be attached to the associated invoice when mailed.

**Compliance:** If any of the deliveries do not conform to contract requirements (i.e. a delivery results in less than full replenishment of hydrogen to 3136 CF, or delivery results in unsafe conditions on-site, etc.), the Government reserves the right to require the Contractor to bring the delivery into conformity with contract

requirements within 24 hours' notice, at no increase in contract amount (i.e. without additional delivery charges).

**Transition Period:** If this contract is awarded to other than the incumbent Contractor, then prior to the first day of the contract, the new Contractor and one of the agency points of contact, listed in section 8 below, shall establish the delivery schedule, including coordinating the initial delivery to coincide with the pickup of cylinders by the former contractor. Likewise, upon completion of this contract, if the new follow-on contract is awarded to other than the current Contractor, the current Contractor shall participate in the transition coordination efforts in order to minimize the risk of a missed balloon launch due to the hydrogen being unavailable at the launch site. The end-of-contract transition period may include a lighter delivery in the final weeks of the contract.

## **7. SAFETY AND SECURITY**

All rules concerning safety, not smoking and the security of the property must be observed at all times.

Safety Data Sheets (SDS) must be provided by the Contractor to the MIC or ASA at each office, where the information will be kept on file in accordance with applicable guidelines of the OSHA Hazard Communications Standard. Requirements pertaining to recordkeeping will be strictly followed, with copy(s) provided to MIC as necessary and upon request.

## **8. POINTS OF CONTACT**

The Government contacts at the NWS office in Valley, Nebraska are:

Observation Program Leader – Joni Brand  
Administrative Support Assistant – Jennifer Clason  
Meteorologist In Charge – Suzanne Fortin

## **9. INVOICING**

1352.213-70 EVALUATION UTILIZING SIMPLIFIED ACQUISITION PROCEDURES (APR 2010)

The Government will issue an order resulting from this request for quotation to the responsible offeror whose quotation results in the best value to the Government, considering both price and non-price factors. This is a firm fixed price purchase order. The following factors will be used to evaluate quotations. Award will be made on the basis of the lowest evaluated price of proposals meeting or exceeding the acceptability standards for non-cost factors.

(1) Past Performance. The offeror's past performance showing work performed on similar or related contracts will be evaluated to determine, as appropriate, successful performance of contract requirements, quality and timeliness of delivery of goods and services, cost management, communications between contracting parties, proactive management and customer satisfaction.

Contractors must provide a list of at least two but no more than three contacts, including name, address, and phone numbers, past government contracts, if available for similar work performed in accordance with the statement of work.

(2) Price. The line items shall be used to determine low price. This shall include line items 1-5 which shall include pricing for a 6 month option under FAR 52.217-8.

(End of clause)

(ii) The offeror shall list as other end products those end products that are not U.S.-made or designated country end products.

(iii) The Government will evaluate offers in accordance with the policies and procedures of FAR Part 25. For line items covered by the WTO GPA, the Government will evaluate offers of U.S.-made or designated country end products without regard to the restrictions of the Buy American statute. The Government will consider for award only offers of U.S.-made or designated country end products unless the Contracting Officer determines that there are no offers for such products or that the offers for such products are insufficient to fulfill the requirements of the solicitation.

(h) Certification Regarding Responsibility Matters (Executive Order 12689). (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals--

(1) [ ] Are, [ ] are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) [ ] Have, [ ] have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property; and

(3) [ ] Are, [ ] are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) [ ] Have, [ ] have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126). 1330-52.222-70 NOAA SEXUAL ASSAULT AND SEXUAL HARASSMENT PREVENTION AND RESPONSE POLICY (MAY 2018)  
In accordance with NOAA Administrative Order (NAO) 202-1106, NOAA Sexual Assault and Sexual Harassment Prevention and Response Policy (reference [https://www.corporateservices.noaa.gov/ames/administrative\\_orders/chapter\\_202/202-1106.html](https://www.corporateservices.noaa.gov/ames/administrative_orders/chapter_202/202-1106.html)), it is the policy of NOAA to maintain a work environment free from sexual assault and sexual harassment. NOAA prohibits sexual assault and sexual harassment by or of any employee, supervisor, manager, contractor, vendor, affiliate, or other individual with whom NOAA employees come into contact by the virtue of their work for NOAA.

(a) Definitions.

Contractor Employees - The term "contractor employees" as used in this solicitation and contract language, refers to employees of the prime contractor or its subcontractors, affiliates, consultants, or team members.

Sexual Assault - The term sexual assault, as used in this solicitation and contract language, means any conduct proscribed by state or federal sexual abuse laws, including, but not limited to, those defined in chapter 109A of title 18 of the U.S. Code (sexual abuse), and assaults committed both by offenders who are strangers to the victim and by offenders who are known or related by blood or marriage to the victim.

Sexual Harassment - As defined by the Equal Employment Opportunity Commission, sexual harassment is a form of sex discrimination that violates Title VII of the Civil Rights Act of 1964. It includes unwelcome sexual advances, requests for sexual favors, and other verbal, non-verbal, or physical conduct of a sexual nature when any of the following are true:

Submission to such conduct is made either explicitly or implicitly as a term or condition of an individual's employment;

Submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting such individual;

The conduct unreasonably interferes with an individual's work performance or creates an intimidating, hostile, or offensive working environment.

The main characteristics of sexual harassment are that the harasser's conduct is targeted against the recipient's sex, gender identity, or sexual orientation, and is unwelcome to the recipient. It may include, but is not limited to: offensive jokes, slurs, epithets or name calling, undue attention, physical assaults or threats, unwelcome touching or contact, intimidation, ridicule or mockery, insults or put-downs, constant or unwelcome questions about an individual's identity, and offensive objects or pictures.

(b) Requirements.

1. It is the responsibility of the contractor to ensure that contractor employees maintain the highest degree of conduct and standards in performance of the contract. In support of this, NOAA urges its

contractors to develop and enforce comprehensive company policy addressing sexual assault and sexual harassment.

2. The contractor shall include wording substantially the same as this solicitation and contract language in every subcontract so that it is binding upon each subcontractor.
3. If a contractor employee observes or is the object of sexual assault or sexual harassment, he or she is highly encouraged to report the matter, as soon as possible, to their immediate supervisor, the Contracting Officer's Representative (COR), subset of the COR (e.g. Task Manager or Assistant COR), or contracting officer (CO) if a COR is not assigned to the contract. The contract employee may also contact the NOAA Civil Rights Office to obtain guidance on reporting instances of sexual assault or sexual harassment. If deemed necessary, the contractor employee may also report such instances to local law enforcement. In the case where the incident occurs while performing at a remote location, such as at sea or in the field (at a field camp or other isolated location) where the above referenced individuals are unavailable, the contractor employee should follow the reporting procedure set forth in NAO 202-1106, Section 6,.07, Reporting from Remote Locations.
4. Swift reporting allows NOAA and the contractor to take the appropriate measures to ensure that offensive behavior stops and the complainants' needs are addressed.
5. The COR (if assigned), CO, and contractor, where applicable, will work together to ensure appropriate action is taken in accordance with applicable laws and regulations, contract terms and conditions, and the contractor's written policy (where applicable).
6. The contractor shall provide all contractor employees assigned to perform under this contract with mandatory sexual assault and sexual harassment prevention and response training in compliance with the requirements of NAO 202-1106, Section 5, Prevention Training and Awareness, as part of their initial in-processing and on an annual basis thereafter. The initial training shall be completed within business days [30 unless a different number is inserted] of contract award or the date a contractor employee is assigned to perform under the contract, as applicable.

Evidence of initial training by name and date completed for each contractor employee, shall be submitted to the COR or contracting officer (if no COR assigned) within 10 business days of completion.

Evidence of annual training by name and date completed for each contractor employee shall be submitted to the COR or contracting officer (if no COR assigned) no later than March 1st of each calendar year of contract performance.

7. The mandatory sexual assault and sexual harassment training provided by the contractor shall include the required elements set forth by NOAA's Workplace Violence Program Manager. A link to the website including the required elements of the training is provided at: <https://www.noaa.gov/organization/acquisition-grants/noaa-workplace-harassment-training-for-contractors-and-financial>. The website will also provide training materials and resources to assist the contractor in conducting the training. The contractor may provide training that solely addresses the NOAA required elements or may supplement existing company sexual assault and sexual harassment training in a manner that ensures all of the elements are adequately addressed.
8. The required elements of the training and resources available to the contractor for the training may be updated by NOAA periodically. The contractor is responsible for monitoring the website and incorporating any changes to the NOAA required elements into the contractor provided training.
9. NOAA's Workplace Violence Program Manager, COR, or CO may periodically review the contractor's training outline to ensure all required elements are included and, if necessary, any appropriate adjustments are made to the training by the contractor.
10. Contractor employees performing on assignments in a remote location, such as at a field camp or other isolated locations, are subject to receiving the same briefing on the parameters of the order provided to NOAA employees as set forth in Section 6 of NAO 202-1106.
11. The contractor shall provide a copy of this solicitation and contract language and NAO 202-1106 to contractor employees.

(c) Sexual Assault/Sexual Harassment (SASH) Helpline.

For NOAA employees, affiliates, and contractors who have experienced sexual assault or sexual harassment, NOAA has established the NOAA Sexual Assault/Sexual Harassment (SASH) helpline. This

helpline is designed to provide crisis intervention, referrals, and emotional support to those who are victims and/or survivors of sexual harassment or sexual assault within the workplace. Contractor employees may use the helpline to receive live, confidential, one-on-one support in an occurrence of sexual harassment or assault by a Federal Government employee.

All services are anonymous, secure, and available worldwide, 24 hours a day, seven days a week. The NOAA SASH helpline is accessible through a variety of channels, including:

(d) Confidentiality.

Any party receiving information from the filing of a complaint alleging sexual assault or sexual harassment, or while performing an investigation into such a complaint, shall keep the information confidential. "Confidentiality" means that the information shall only be shared with others who have a need to know the information to conduct their official duties.

(e) Remedies.

In addition to other remedies available to the Government, contractor employee violations of Federal requirements (e.g., law, statutes, executive orders, code, rules, regulations) applicable to sexual assault and sexual harassment and/or failure to complete the mandatory training set forth in this solicitation and contract language, may result in:

1. Requiring the Contractor to remove a contractor employee or employees from the performance of the contract;
2. Requiring the Contractor to terminate a subcontract;
3. Suspension of contract payments until the Contractor has taken appropriate remedial action;
4. Termination of the contract for default or cause, in accordance with the termination clause of this contract;
5. Suspension or debarment; or
6. Other appropriate action.

1330-52.232-72 NOAA Transition to the Invoice Processing Platform Electronic Invoicing System (Feb 2023)

Beginning October 1, 2023, when NOAA implements the Department of Commerce Business Applications Solution, the Contractor must submit payment requests electronically through the U.S. Department of the Treasury's Invoice Processing Platform (the IPP) System. The Contractor must use the IPP website to register, access, and submit payment requests. The IPP website address is <https://www.ipp.gov>.

"Payment request" means any request for contract financing payment or invoice payment to the Contractor. To be considered proper, invoices must be prepared in accordance with, and contain all elements specified in, the contract payment clause (e.g., FAR 52.212-4(g), FAR 52.232-25(a)(3), FAR 52.232-26(a)(2), FAR 52.232-27(a)(2)). All supporting documents required by the Contracting Officer must be included as attachments to payment requests submitted through the IPP.

If the Contractor is unable to comply with the requirement to submit payment requests through the IPP due to a threat to national security; a matter of unusual or compelling urgency; or because the political, financial, or communications infrastructure of a foreign country does not support access to the IPP, the Contractor must request an exception in writing. Contact the Contracting Officer for more information about requesting an exception.

1330-52.237-70 CONTRACTOR COMMUNICATIONS

(a) A contractor employee shall be identified both by the individual's name and the contractor's name when:

Included in NOAA's locator, and

When submitting any type of electronic correspondence to any NOAA employee or stakeholder.

- (b) Any written correspondence from a contractor or any contractor employee shall be printed on company/organization letterhead or otherwise clearly identify the sender as an employee of the company or organization and shall identify the contract number.
- (c) Contractors and/or contractor employees shall clearly identify themselves as such in any verbal communications, whether in informal discussion or a formal meeting.

1330-52.237-71 NOAA GOVERNMENT-CONTRACTOR RELATIONS - NON-PERSONAL SERVICES CONTRACT (SEPT 2017)

- (a) The Government and the Contractor understand and agree that the services to be delivered under this contract by the Contractor to the Government are non-personal services as defined in FAR Part 37, Service Contracting, and the parties recognize and agree that no employer-employee relationship exists or will exist under the contract between the Government and the Contractor's personnel. It is, therefore, in the best interest of the Government to afford both parties an understanding of their respective obligations.
- (b) Contractor personnel under this contract shall not:
  - (1) Be placed in a position where they are under relatively continuous supervision and control of a Government employee.
  - (2) Be placed in a position of command, supervision, administration, or control over Government personnel or over personnel of other Contractors performing under other NOAA contracts.
- (c) The services to be performed under this contract do not require the Contractor or the Contractor's personnel to exercise personal judgement and discretion on behalf of the Government. Rather, the Contractor's personnel will act and exercise personal judgement and discretion on behalf of the Contractor.
- (d) Rules, regulations, directives, and requirements that are issued by the Department of Commerce and NOAA under its responsibility for good order, administration, and security are applicable to all personnel who enter the Government installation and facilities, who are provided access to Government systems, or who travel on Government transportation. This is not to be construed or interpreted to establish any degree of Government control that is inconsistent with a non-personal services contract.
- (e) Both parties are responsible for monitoring contract activities for indications of improper employee-employer relationships during performance. In the event a situation or occurrence takes place inconsistent with this contract language, the following applies:
  - (1) The Contractor shall notify the Contracting Officer in writing within 5 business days from the date of any situation or occurrence where the Contractor considers specific contract activity to be inconsistent with the intent of this contract language. The notice must include the date, nature and circumstance of the situation or occurrence, the name, function and activity of each Government employee or Contractor employee involved or knowledgeable about the situation or occurrence, provide any documents or the substance of any oral communications related to the activity, and an estimated date by which the Government is recommended to respond to the notice in order to minimize cost, delay, or disruption of performance.
  - (2) The Contracting Officer will review the information provided by the Contractor, obtain additional information (if needed), and respond in writing as soon as practicable after receipt of the notification from the Contractor. The Contracting Officer's response will provide a decision on whether the Contracting Officer determines the situation or occurrence to be inconsistent with the intent of this contract language and, if deemed necessary, will specify any corrective action(s) to be taken in order to resolve the issue.

1330-52.237-72 CONTRACTOR ACCESS TO NOAA FACILITIES (SEPT 2017)

CONTRACTOR ACCESS TO NOAA FACILITIES (SEPT 2017)

- (a)(1) The performance of this contract requires employees of the prime contractor or its subcontractors, affiliates, consultants, or team members ("contractor employees") to have access to and to the extent authorized, mobility within, a NOAA facility.
- (2) NOAA may close and or otherwise deny contractor employees access to a NOAA facility for a portion of a business day or longer for various reasons including, but not limited, to the following events:
  - (i) Federal public holidays for federal employees in accordance with 5 U.S.C. 6103;
  - (ii) Fires, floods, earthquakes, and unusually severe weather, including but not limited to snow storms, tornadoes, and hurricanes;

(iii) Occupational safety or health hazards;

(iv) Lapse in Appropriations; or

(v) Federal Statute, Executive Order, Presidential Proclamation, or any other unforeseen reason.

(3) In such events, the contractor employees may be denied access to a NOAA facility that is ordinarily available for the contractor to perform work or make delivery, as required by the contract.

(b) In all instances where contractors are denied access or required to vacate a NOAA facility, in part or in whole, the contractor shall be responsible to ensure contractor personnel working under the contract comply. If the circumstances permit, the contracting officer will provide direction to the contractor, either directly or through the Contracting Officer's Representative (COR), which could include continuing on-site performance during the NOAA facility closure period; however, if Government oversight is required and is not available, on-site performance shall not be allowed. In the absence of such direction, the contractor shall exercise sound judgment to minimize unnecessary contract costs and performance impacts, for example, performing required work off-site if possible or reassigning personnel to other activities if appropriate.

(c) The contractor shall be responsible for monitoring the Office of Personnel Management at [www.opm.gov](http://www.opm.gov), the local radio, television stations, NOAA web sites, and other communication channels. Once the facility is accessible, the contractor shall resume contract performance as required by the contract.

(d) For the period that NOAA facilities were not accessible to contractors who required access in order to perform the services, the contracting officer may:

(1) Adjust the contract performance or delivery schedule for a period equivalent to the period the NOAA facility was not accessible;

(2) Forego the work; or

(3) Reschedule the work by mutual agreement of the parties.

(e) Notification procedures of a NOAA facility closure, including contractor denial of access, are as follows:

(1) The contractor shall be responsible for notification of its employees of the NOAA facility closure to include denial of access to the NOAA facility. The dismissal of NOAA employees in accordance with statute and regulations providing for such dismissals shall not, in itself, equate to a NOAA facility closure in which contractors are denied access. Moreover, the leave status of NOAA employees shall not be conveyed or imputed to contractor personnel. Accordingly, unless a NOAA facility is closed and the contractor is denied access to the facility, the contractor shall continue performance in accordance with the contract.

(2) Access to Government facilities and resources, including equipment and systems, will be limited and personnel necessary to administer contract performance may not be available. Generally, supply and service contracts that are funded beyond the date of the lapse in appropriation and do not require access to Government facilities, active administration by Government personnel or the use of government resources in a manner that would cause the government to incur additional obligations during the lapse in appropriation may continue. If a delivery date for a contract falls during the period of a lapse in appropriations, Government personnel may not be available to receive delivery. Contractors are directed to consult with a contracting officer before attempting to make a delivery. Contracting officers will be available throughout the lapse in appropriation period to provide guidance.

Once OMB guidance is given, CORs, in consultation with the contracting officer, will notify those contractors that are deemed by the Program Office to be performing excepted work and identify the contractor personnel requiring access to NOAA facilities. CORs will also coordinate with directly with facility management or physical security personnel at respective locations to ensure that the names of contractor personnel requiring access to government facilities during the lapse in appropriations are provided to physical security personnel.

Contractors who are not designated as performing excepted work are not allowed access to Government facilities or to utilize government resources in a manner that would incur any additional obligation of funding on behalf of the government during the lapse in appropriation.

(3) Unless otherwise specified within the contract award, contractors requiring access to NOAA facilities outside normal business hours or outside the normal workweek shall submit a written request in writing through the COR to the contracting officer. The written request shall provide justification supporting the required access and be submitted \_\_\_\_\_ hours/days (contracting officer insert number of days. If blank, 72 hours applies) before access to the NOAA facility is needed.

1330-52.242-70 SUBMITTAL OF INVOICES

The Contractor shall prepare and submit an invoice to the COR for approval [with a copy to the contracting officer for information]. All invoices shall be submitted by the 10th day of the subsequent month.

To constitute a proper invoice, the contractor's invoice shall be prepared in accordance with, and contain all elements specified in, the paragraph titled, #Contractor's Invoice,# of the applicable prompt payment provision of the contract (e.g., FAR 52.232-25, Prompt Payment; FAR 52.232-26, Prompt Payment for Fixed-Price Architect Engineer Contracts; or FAR 52.232-27, Prompt Payment for Construction Contracts). For contracts and orders for commercial items and services, paragraph (g) of FAR 52.212-4, titled, #Invoices,# applies.

If the invoice does not comply with the applicable prompt payment provision of the contract, the COR will return it to the contractor within seven days after the date the designated office received the invoice along with a statement as to the reasons why it is not a proper invoice.

1330-52.243-70 REQUESTS FOR EQUITABLE ADJUSTMENT (OCT 2017)

(a) The amount of any request for equitable adjustment to contract terms shall accurately reflect the contract adjustment for which the Contractor believes the Government is liable. The request shall include only costs for performing the change. All indirect costs included in the request shall be properly allocable to the change in accordance with applicable acquisition regulations.

(b) Any request for equitable adjustment to contract terms that exceeds the simplified acquisition threshold shall bear, at the time of submission, the following certificate executed by an individual authorized to certify the request on behalf of the Contractor:

I certify that the request is made in good faith, and that the supporting data are accurate and complete to the best of my knowledge and belief.

\_\_\_\_\_  
(Official's Name)

\_\_\_\_\_  
(Title)

(c) The certification in paragraph (b) of this solicitation and contract language requires full disclosure of all relevant facts, including:

(1) Certified cost or pricing data, if required, in accordance with subsection 15.403-4 of the Federal Acquisition Regulation (FAR); and

(2) Data other than certified cost or pricing data, in accordance with subsection 15.403-3 of the FAR, including actual cost data and data to support any estimated costs, even if certified cost or pricing data are not required.

(d) The certification requirement in paragraph (b) of this solicitation and contract language does not apply to:

(1) Requests for routine contract payments; for example, requests for payment for accepted supplies and services, routine vouchers under a cost-reimbursement type contract, or progress payment invoices; or

(2) Final adjustments under an incentive provision of the contract.

(End of solicitation and contract language)

(a) The NOAA Acquisition and Grants Office (AGO) Ombudsman is available to organizations to promote responsible and meaningful exchanges of information. Generally, the purpose of these exchanges will be to:

(1) Allow contractors to better prepare for and propose on business opportunities.

(2) Advise as to technologies and solutions within the marketplace that the Government may not be aware of, or is not fully benefiting from.

(3) Identify constraints in transparency and process.

(b) The AGO Ombudsman will objectively, reasonably, and responsibly collaborate with parties and recommend fair, impartial, and constructive solutions to the matters presented to him/her. Further, the AGO Ombudsman will maintain the reasonable and responsible confidentiality of the source of a concern, when such a request has been formally made by an authorized officer of an organization seeking to do business with, or already doing business with NOAA.

(c) Before consulting with the AGO Ombudsman, interested parties must first address their concerns, issues, disagreements, and/or recommendations with the respective contracting officer for resolution. However, direct access to the AGO Ombudsman may be sought when an interested party questions the objectivity or equity of a contracting officer's decision, or when there is a bona fide reason to believe that reasonable, responsible, and objective consideration will not be received from an assigned contracting officer.

(d) There are several constraints to the scope of the AGO Ombudsman's authority, for instance:

(1) Consulting with the AGO Ombudsman does not alter or postpone the timelines of any formal process (e.g., protests, claims, debriefings, employee employer actions, activities involving A76 competition performance decisions, judicial or congressional hearings, or proposal, amendment, modification or deliverable due dates, etc.).

(2) The AGO Ombudsman cannot participate in the evaluation of proposals, source selection processes, or the adjudication of protests or formal contract disputes.

(3) The AGO Ombudsman is not authorized to generate or alter laws, judicial decisions, rules, policies, or formal guidance.

(4) The AGO Ombudsman is not authorized to develop or alter opportunity announcements, solicitations, contracts, or their terms or conditions.

(5) The AGO Ombudsman cannot overrule the authorized decisions or determinations of the contracting officer.

(6) The AGO Ombudsman has no authority to render a decision that binds AGO, NOAA, the Department of Commerce, or the U.S. Government.

(7) The AGO Ombudsman is not NOAA's agent relative to the service of magistrate or judicial process and cannot be used to extend service of process to another party (whether federal, public, or a private entity).

(e) After review and analysis of a filed concern or recommendation, the AGO Ombudsman may refer the interested party to another more suitable federal official for consideration. Moreover, concerns, disagreements, and/or recommendations that cannot be resolved by the AGO Ombudsman will need to be pursued through more formal venues.

(f) The AGO Ombudsman is not to be contacted to request copies of forms and/or documents under the purview of a contracting officer. Such documents include Requests for Information, solicitations, amendments, contracts, modifications, or conference materials.

(g) Questions regarding items (a) through (f) within this language shall be directed to [ago.ombudsman@noaa.gov](mailto:ago.ombudsman@noaa.gov).
