To Whom It May Concern,

Executive Order 12072 directs Federal agencies to consult with local officials and consider their recommendations and community development priorities with regard to Federal space acquisition.

GSA anticipates seeking expressions of interest to provide leased office space to federal employees in your city. We are currently considering the following delineated area of Clarksdale, MS, in our search:

North: West Lee Drive / E. Lee Drive
South: US-61
East: US-49
West: West Lee Drive to Sherard Road to MS-161

In preparation for this lease action, we invite you to provide GSA with the City GIS Manager's contact info and any relevant information regarding Clarksdale's:

- central business area boundaries (preferably an arcGIS shapefile or link to the downloadable file);
- local planning goals and priorities;
- targeted development areas in your community (including Opportunity Zones) ;
- existing or planned transit infrastructure;
- other such information relevant to this anticipated lease action.

GSA requires a response to this inquiry within 10 business days in order to meet our procurement schedule deadlines. We are also available to speak with you about these issues. Please contact me, as necessary, at your earliest convenience.

Sincerely,

Gabriel J. Head
