**Introduction:** VANTHCS requires the manufacturing and delivery of Gallium (Ga68) DOTATATE for the diagnosis and treatment of patients with gatroenteropancreatic neuroendocrine tumors that are positive for the hormone receptor somatostatin.

**Qualifications of Bidders:** Bids will only be considered from those who are regularly involved in the business called for, and who in the judgment of the Contracting Officer are financially responsible and able to show evidence of the reliability, ability, experience, equipment, facilities, and personnel directly employed or supervised by them to render prompt and satisfactory service.

1. Contractor must be licensed by the US Nuclear Regulatory Commission (USNRC), or a State with a formal Agreement with the USNRC that allows the State to regulate radioactive materials (Licensee) and be regularly established in the business of providing radiopharmaceuticals at the scale and frequency necessary to meet this requirement. Non-manufacturing waiver is not applicable to this solicitation.

**Please note that the Offeror must provide copies of all relevant licenses and certifications, along with their proposal, to the Contracting Officer.**

2. Contractor/licensee shall meet all applicable Nuclear Regulatory Commission, VA/National Health Physics Program (NHPP), Department of Transportation, FDA, Joint Commission, OSHA, State, and Federal requirements, rules, and/or regulations related to the supply of Radiopharmaceuticals.
3. Contractor/licensee must be able to provide Ga68 DOTATATE radiopharmaceuticals to the VA North Texas HCS Nuclear Medicine Service Treatment and PET Imaging Facility at the Dallas VA Medical Center.
4. Contractor/licensee shall have available an adequate supply of contracted products to meet the requirements of the VA North Texas Healthcare System. Ga68 DOTATATE doses will be ordered/scheduled with at least 48 hours advance notice to the vendor to ensure dose availability. Should the vendor's ability to supply product from the applicable pharmacy be limited for any reason the vendor shall notify the Customer of any limitations on the delivery times and dates that may affect its ability to supply Product when requested.
5. Contractor/licensee shall label all unit doses of delivered radiopharmaceutical with the amount, preparation time, expiration time, date, etc. It is preferred that the Contractor ensure bar code compatibility with the VANTHCS Nuclear Medicine Information System (NMIS). Contractor will support any necessary steps to ensure approval for use of new infrastructure (Example: Information Security) if required - upon award, and prior to start of contract.
6. All packages containing radioactive material must be labeled and shipped in accordance with Title 49, Code of Federal Regulations Part 172 and 173. An additional label shall be affixed to each syringe, vial, or other container used to hold a radioactive drug to be transferred for commercial distribution. **Information Technology Security requirements section**

As prescribed in 839.201, the contractor, their personnel, and their subcontractors shall be subject to the Federal laws, regulations, standards, and VA Directives and Handbooks regarding information and information system security as delineated in this contract.

## **1. GENERAL**

Contractors, contractor personnel, subcontractors, and subcontractor personnel shall be subject to the same Federal laws, regulations, standards, and VA Directives and Handbooks as VA and VA personnel regarding information and information system security.

## **2. ACCESS TO VA INFORMATION AND VA INFORMATION SYSTEMS**

a. A contractor/subcontractor shall request logical (technical) or physical access to VA information and VA information systems for their employees, subcontractors, and affiliates only to the extent necessary to perform the services specified in the contract, agreement, or task order.

b. All contractors, subcontractors, and third-party servicers and associates working with

VA information are subject to the same investigative requirements as those of VA appointees or employees who have access to the same types of information. The level and process of background security investigations for contractors must be in accordance with VA Directive and Handbook 0710, Personnel Suitability and Security Program. The Office for Operations, Security, and Preparedness is responsible for these policies and procedures.

c. Contract personnel who require access to national security programs must have a valid security clearance. National Industrial Security Program (NISP) was established by Executive Order 12829 to ensure that cleared U.S. defense industry contract personnel safeguard the classified information in their possession while performing work on contracts, programs, bids, or research and development efforts. The Department of Veterans Affairs does not have a Memorandum of Agreement with Defense Security Service (DSS). Verification of a Security Clearance must be processed through the Special Security Officer located in the Planning and National Security Service within the Office of Operations, Security, and Preparedness.

d. Custom software development and outsourced operations must be located in the U.S. to the maximum extent practical. If such services are proposed to be performed abroad and are not disallowed by other VA policy or mandates, the contractor/subcontractor must state where all non-U.S. services are provided and detail a security plan, deemed to be acceptable by VA, specifically to address mitigation of the resulting problems of communication, control, data protection, and so forth. Location within the U.S. may be an evaluation factor.

e. The contractor or subcontractor must notify the Contracting Officer immediately when an employee working on a VA system or with access to VA information is reassigned or leaves the contractor or subcontractor's employ. The Contracting Officer must also be notified immediately by the contractor or subcontractor prior to an unfriendly termination.

### 3. VA INFORMATION CUSTODIAL LANGUAGE

a. Information made available to the contractor or subcontractor by VA for the performance or administration of this contract or information developed by the contractor/subcontractor in performance or administration of the contract shall be used only for those purposes and shall not be used in any other way without the prior written agreement of the VA. This clause expressly limits the contractor/subcontractor's rights to use data as described in Rights in Data

General, FAR 52.227-14(d) (1).

b. VA information should not be co-mingled, if possible, with any other data on the contractors/subcontractor's information systems or media storage systems in order to ensure VA requirements related to data protection and media sanitization can be met. If co-mingling must be allowed to meet the requirements of the business need, the contractor must ensure that VA's information is returned to the VA or destroyed in accordance with VA's sanitization requirements. VA reserves the right to conduct onsite inspections of contractor and subcontractor IT resources to ensure data security controls, separation of data and job duties, and destruction/media sanitization procedures are in compliance with VA directive requirements.

c. Prior to termination or completion of this contract, contractor/subcontractor must not destroy information received from VA, or gathered/created by the contractor in the course of performing this contract without prior written approval by the VA. Any data destruction done on behalf of VA by a contractor/subcontractor must be done in accordance with National Archives and Records Administration (NARA) requirements as outlined in VA Directive 6300, *Records and Information Management* and its Handbook 6300.1 *Records Management Procedures*, applicable VA Records Control Schedules, and VA Handbook 6500.1, *Electronic Media Sanitization*. Self-certification by the contractor that the data destruction requirements above have been met must be sent to the VA Contracting Officer within 30 days of termination of the contract.

d. The contractor/subcontractor must receive, gather, store, back up, maintain, use, disclose and dispose of VA information only in compliance with the terms of the contract and applicable Federal and VA information confidentiality and security laws, regulations and policies. If Federal or VA information confidentiality and security laws, regulations and policies become applicable to the VA information or information systems after execution of the contract, or if NIST issues or updates applicable FIPS or Special Publications (SP) after execution of this contract, the parties agree to negotiate in good faith to implement the information confidentiality and security laws, regulations, and policies in this contract.

- e. The contractor/subcontractor shall not make copies of VA information except as authorized and necessary to perform the terms of the agreement or to preserve electronic information stored on contractor/subcontractor electronic storage media for restoration in case any electronic equipment or data used by the contractor/subcontractor needs to be restored to an operating state. If copies are made for restoration purposes, after the restoration is complete, the copies must be appropriately destroyed.
- f. If VA determines that the contractor has violated any of the information confidentiality, privacy, and security provisions of the contract, it shall be sufficient grounds for VA to withhold payment to the contractor or third party or terminate the contract for default or terminate for cause under Federal Acquisition Regulation (FAR) part 12.
- g. If a VHA contract is terminated for cause, the associated BAA must also be terminated and appropriate actions taken in accordance with VHA Handbook 1600.01, *Business Associate Agreements*. Absent an agreement to use or disclose protected health information, there is no business associate relationship.
- h. The contractor/subcontractor must store, transport, or transmit VA sensitive information in an encrypted form, using VA-approved encryption tools that are, at a minimum, FIPS 140-2 validated.
- i. The contractor/subcontractor's firewall and Web services security controls, if applicable, shall meet or exceed VA's minimum requirements. VA Configuration Guidelines are available upon request.
- j. Except for uses and disclosures of VA information authorized by this contract for performance of the contract, the contractor/subcontractor may use and disclose VA information only in two other situations: (i) in response to a qualifying order of a court of competent jurisdiction, or (ii) with VA's prior written approval. The contractor/subcontractor must refer all requests for, demands for production of, or inquiries about, VA information and information systems to the VA contracting officer for response.
- k. Notwithstanding the provision above, the contractor/subcontractor shall not release VA records protected by Title 38 U.S.C. 5705, confidentiality of medical quality assurance records and/or Title 38 U.S.C. 7332, confidentiality of certain health records pertaining to drug addiction, sickle cell anemia, alcoholism or alcohol abuse, or infection with human immunodeficiency virus. If the contractor/subcontractor is in receipt of a court order or other requests for the above-mentioned information, that contractor/subcontractor shall immediately refer such court orders or other requests to the VA contracting officer for response.
- l. For service that involves the storage, generating, transmitting, or exchanging of VA

sensitive information but does not require C&A or an MOU-ISA for system interconnection, the contractor/subcontractor must complete a Contractor Security Control Assessment (CSCA) on a yearly basis and provide it to the COTR.

## **GENERAL RULES OF BEHAVIOR**

- a. Rules of Behavior are part of a comprehensive program to provide complete information security. These rules establish standards of behavior in recognition of the fact that knowledgeable users are the foundation of a successful security program. Users must understand that taking personal responsibility for the security of their computer and the information it contains is an essential part of their job.
- b. The following rules apply to all VA contractors. I agree to:
  - (1) Follow established procedures for requesting, accessing, and closing user accounts and access. I will not request or obtain access beyond what is normally granted to users or by what is outlined in the contract.
  - (2) Use only systems, software, databases, and data which I am authorized to use, including any copyright restrictions.
  - (3) I will not use other equipment (OE) (non-contractor owned) for the storage, transfer, or processing of VA sensitive information without a VA CIO approved waiver, unless it has been reviewed and approved by local management and is included in the language of the contract. If authorized to use OE IT equipment, I must ensure that the system meets all applicable 6500 Handbook requirements for OE.
  - (4) Not use my position of trust and access rights to exploit system controls or access information for any reason other than in the performance of the contract.
  - (5) Not attempt to override or disable security, technical, or management controls unless expressly permitted to do so as an explicit requirement under the contract or at the direction of the COTR or ISO. If I am allowed or required to have a local administrator account on a government-owned computer, that local administrative account does not mean, unrestricted access or use, nor the authority to bypass security or other controls except as expressly permitted by the VA CIO or CIO's designee.
  - (6) Contractors' use of systems, information, or sites is strictly limited to fulfill the terms of the contract. I understand no personal use is authorized. I will only use other Federal government information systems as expressly authorized by the terms of those systems. I

accept that the restrictions under ethics regulations and criminal law still apply.

(7) Grant access to systems and information only to those who have an official need to know.

(8) Protect passwords from access by other individuals.

(9) Create and change passwords in accordance with VA Handbook 6500 on systems and any devices protecting VA information as well as the rules of behavior and security settings for the particular system in question.

(10) Protect information and systems from unauthorized disclosure, use, modification, or destruction. I will only use encryption that is FIPS 140-2 validated to safeguard VA sensitive information, both safeguarding VA sensitive information in storage and in transit regarding my access to and use of any information assets or resources associated with my performance of services under the contract terms with the VA.

(11) Follow VA Handbook 6500.1, Electronic Media Sanitization to protect VA information. I will contact the COTR for policies and guidance on complying with this requirement and will follow the COTR's orders.

(12) Ensure that the COTR has previously approved VA information for public dissemination, including e-mail communications outside of the VA as appropriate. I will not make any unauthorized disclosure of any VA sensitive information through the use of any means of communication including but not limited to e-mail, instant messaging, online chat, and web bulletin boards or logs.

## **E.5 VAAR 852.273-73 EVALUATION - HEALTH-CARE RESOURCES (NOV 2021)**

(a) The Government will select the proposal that represents the best benefit to the Government at a price that can be determined fair and reasonable. The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer, conforming to the solicitation, will be most advantageous to the Government, price and other factors considered. The following factors will be evaluated, in descending order of importance.

### **FACTOR 1-Technical Capability**

### **FACTOR 2-Past Performance**

### **FACTOR 3-Price**

a. Resulting Contract shall be based on the Contractor's Capabilities to provide the services listed in the Performance Work Statement reflected in Technical Capability (factor 1), their Past Performance (factor 2), and their Proposed Price (factor 3). Contractors may submit more than one quote; however, contractors are strongly encouraged to submit their best technical solutions and prices in response to this request for proposal.

b. All proposals will be evaluated in accordance with FAR 13. The Government will select the quote that represents the best benefit to the Government at a price that can be determined fair and reasonable. The Government intends to award without discussions with offerors. However, the Government reserves the right to conduct discussions if it is in its best interest to do so.

c. Written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

d. The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most suitable to the Government and whose offeror provides a benefit to the Government.

### **FACTOR 1: TECHNICAL CAPABILITY:**

This factor will be used to determine the Offeror's ability to successfully manage the full range of contractual requirements. Background and relevant information regarding stability and strengths will be considered. Each technical sub-factor is equally important.

Offerors shall address technical capabilities with a detailed description of their proposed approaches to each sub-factor. Offeror's technical proposal shall address the feasibility of meeting the stated contract requirements. The proposal should provide the VA with a high level of confidence in successful performance. Rating will be based upon the extent to which the offer addresses each of the factors and sub-factors. All technical sub-factors will be evaluated based solely on the proposal provided, to the extent in which the proposal demonstrates a clear understanding of the requirements and problems involved in meeting or exceeding the standards for the various tasks, and to the extent in which uncertainties are identified and resolutions proposed. Proposals may exceed the minimum requirements.

### **FACTOR 2- PAST PERFORMANCE:**

Evaluation Criteria: The past performance evaluation will assess the relative risks associated with a quoter's likelihood of success in fulfilling the solicitation's requirements as indicated by the quoter's record of past performance. The past performance evaluation may be based on the contracting officer's knowledge of and previous experience with the supply or service being acquired, Customer surveys, and past performance questionnaire replies; Contractor Performance Assessment Reporting System (CPARS) at <http://www.cpars.gov/>; or any other reasonable basis.

### **FACTOR 3- PRICE**

Offerors shall submit their Price using the Schedule of Services continuation section (Price Schedule). The price proposal shall be specific, complete in every detail, and separate from the technical proposal. Line items for base period and each option year shall be sufficiently completed. Prices shall be evaluated for fairness and reasonableness and will be compared against competing proposals and the independent Government cost estimate.

Each sub-factor of Factor 1(Technical) is equal in importance for the purposes of determining the best value to the Government. The Government may award to other than the lowest priced offeror if it is in the Government's best interest to do so.

The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or

all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) *Certification Regarding Responsibility Matters* (Executive Order 12689). (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals—

(1)  Are,  are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2)  Have,  have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or Commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3)  Are,  are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4)  Have,  have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104–5(a)(2) for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples.*

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. Sec. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. Sec. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. Sec. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).
